The Federal Communications Commission (in this chapter referred to as the “Commission”) shall be composed of five commissioners appointed by the President, by and with the advice and consent of the Senate, one of whom the President shall designate as chairman.

(b) Qualifications

(1) Each member of the Commission shall be a citizen of the United States.

(2)(A) No member of the Commission or person employed by the Commission shall—

(i) be financially interested in any company or other entity engaged in the manufacture or sale of telecommunications equipment which is subject to regulation by the Commission;

(ii) be financially interested in any company or other entity engaged in the business of communication by wire or radio or in the use of the electromagnetic spectrum;

(iii) be financially interested in any company or other entity which controls any company or other entity specified in clause (i) or clause (ii), or which derives a significant portion of its total income from ownership of stocks, bonds, or other securities of any such company or other entity; or

(iv) be employed by, hold any official relation to, or own any stocks, bonds, or other securities of, any person significantly regulated by the Commission under this chapter;

except that the prohibitions established in this subparagraph shall apply only to financial interests in any company or other entity which has a significant interest in communications, manufacturing, or sales activities which are subject to regulation by the Commission.

(B)(i) The Commission shall have authority to waive, from time to time, the application of the prohibitions established in subparagraph (A) to persons employed by the Commission if the Commission determines that the financial interests of a person which are involved in a particular case are minimal, except that such waiver authority shall be subject to the provisions of section 208 of title 18. The waiver authority established in this subparagraph shall not apply with respect to members of the Commission.

(ii) In any case in which the Commission exercises the waiver authority established in this subparagraph, the Commission shall publish notice of such action in the Federal Register and shall furnish notice of such action to the appropriate committees of each House of the Congress. Each such notice shall include information regarding the identity of the person receiving the waiver, the position held by such person, and the nature of the financial interests which are the subject of the waiver.

(3) The Commission, in determining whether a company or other entity has a significant interest in communications, manufacturing, or sales activities which are subject to regulation by the Commission, shall consider (without excluding other relevant factors)—

(A) the revenues, investments, profits, and managerial efforts directed to the related communications, manufacturing, or sales activities of the company or other entity involved, as compared to the other aspects of the business of such company or other entity;

(B) the extent to which the Commission regulates and oversees the activities of such company or other entity;

(C) the degree to which the economic interests of such company or other entity may be affected by any action of the Commission; and

(D) the perceptions held by the public regarding the business activities of such company or other entity.

(4) Members of the Commission shall not engage in any other business, vocation, profession, or employment while serving as such members.

(5) The maximum number of commissioners who may be members of the same political party shall be a number equal to the least number of commissioners which constitutes a majority of the full membership of the Commission.

(c) Terms of office; vacancies

commissioners¹ shall be appointed for terms of five years and until their successors are appointed and have been confirmed and taken the oath of office, except that they shall not continue to serve beyond the expiration of the next session of Congress subsequent to the expiration of said fixed term of office; except that any person chosen to fill a vacancy shall be appointed only for the unexpired term of the commissioner whom he succeeds. No vacancy in the Commis-

sion shall impair the right of the remaining commissioners to exercise all the powers of the Commission.

(d) Compensation of Commission members

Each Commissioner shall receive an annual salary at the annual rate payable from time to time for level IV of the Executive Schedule, payable in monthly installments. The Chairman of the Commission, during the period of his service as Chairman, shall receive an annual salary at the annual rate payable from time to time for level III of the Executive Schedule.

(e) Principal office; special sessions

The principal office of the Commission shall be in the District of Columbia, where its general sessions shall be held; but whenever the convenience of the public or of the parties may be promoted or delay or expense prevented thereby, the Commission may hold special sessions in any part of the United States.

(f) Employees and assistants; compensation of members of Field Engineering and Monitoring Bureau; use of amateur volunteers for certain purposes; commercial radio operator examinations

(1) The Commission shall have authority, subject to the provisions of the civil-service laws and chapter 51 and subchapter III of chapter 53 of title 5, to appoint such officers, engineers, accountants, attorneys, inspectors, examiners, and other employees as are necessary in the exercise of its functions.

(2) Without regard to the civil-service laws, but subject to chapter 51 and subchapter III of chapter 53 of title 5, each commissioner may appoint three professional assistants and a secretary, each of whom shall perform such duties as such commissioner shall direct. In addition, the chairman of the Commission may appoint, without regard to the civil-service laws, but subject to chapter 51 and subchapter III of chapter 53 of title 5, and administrative assistant who shall perform such duties as the chairman shall direct.

(3) The Commission shall fix a reasonable rate of extra compensation for overtime services of engineers in charge and radio engineers of the Field Engineering and Monitoring Bureau of the Federal Communications Commission, who may be required to remain on duty between the hours of 5 o'clock postmeridian and 8 o'clock antemeridian or on Sundays or holidays to perform services in connection with the inspection of ship radio equipment and apparatus for the purposes of part II of subchapter III of this chapter or the Great Lakes Agreement, on the basis of one-half day's additional pay for each two hours or fraction thereof of at least one hour that the overtime extends beyond 5 o'clock postmeridian (but not to exceed two and one-half days' pay for the full period from 5 o'clock postmeridian to 8 o'clock antemeridian) and two additional days' pay for Sunday or holiday duty. The said extra compensation for overtime services shall be paid by the master, owner, or agent of such vessel to the local United States collector of customs or his representative, who shall deposit such collection into the Treasury of the United States to an appropriately designated receipt account:

¹ So in original. Probably should be capitalized.

Provided, That the amounts of such collections received by the said collector of customs or his representatives shall be covered into the Treasury as miscellaneous receipts; and the payments of such extra compensation to the several employees entitled thereto shall be made from the annual appropriations for salaries and expenses of the Commission: *Provided further*, That to the extent that the annual appropriations which are authorized to be made from the general fund of the Treasury are insufficient, there are authorized to be appropriated from the general fund of the Treasury such additional amounts as may be necessary to the extent that the amounts of such receipts are in excess of the amounts appropriated: *Provided further*, That such extra compensation shall be paid if such field employees have been ordered to report for duty and have so reported whether the actual inspection of the radio equipment or apparatus takes place or not: *And provided further*, That in those ports where customary working hours are other than those hereinabove mentioned, the engineers in charge are vested with authority to regulate the hours of such employees so as to agree with prevailing working hours in said ports where inspections are to be made, but nothing contained in this proviso shall be construed in any manner to alter the length of a working day for the engineers in charge and radio engineers or the overtime pay herein fixed.

(4)(A) The Commission, for purposes of preparing any examination for an amateur station operator license, may accept and employ the voluntary and uncompensated services of any individual who holds an amateur station operator license of a higher class than the class license for which the examination is being prepared. In the case of examinations for the highest class of amateur station operator license, the Commission may accept and employ such services of any individual who holds such class of license.

(B) The Commission, for purposes of administering any examination for an amateur station operator license, may accept and employ the voluntary and uncompensated services of any individual who holds an amateur station operator license of a higher class than the class license for which the examination is being conducted. Any person who owns a significant interest in, or is an employee of, any company or other entity which is engaged in the manufacture or distribution of equipment used in connection with amateur radio transmissions, or in the preparation or distribution of any publication used in preparation for obtaining amateur station operator licenses, shall not be eligible to render any service under this subparagraph.

(C)(i) The Commission, for purposes of monitoring violations of any provision of this chapter (and of any regulation prescribed by the Commission under this chapter) relating to the amateur radio service, may—

(I) recruit and train any individual licensed by the Commission to operate an amateur station; and

(II) accept and employ the voluntary and uncompensated services of such individual.

(ii) The Commission, for purposes of recruiting and training individuals under clause (i) and for purposes of screening, annotating, and summarizing violation reports referred under clause (i), may accept and employ the voluntary and uncompensated services of any amateur station operator organization.

(iii) The functions of individuals recruited and trained under this subparagraph shall be limited to—

(I) the detection of improper amateur radio transmissions;

(II) the conveyance to Commission personnel of information which is essential to the enforcement of this chapter (or regulations prescribed by the Commission under this chapter) relating to the amateur radio service; and

(III) issuing advisory notices, under the general direction of the Commission, to persons who apparently have violated any provision of this chapter (or regulations prescribed by the Commission under this chapter) relating to the amateur radio service.

Nothing in this clause shall be construed to grant individuals recruited and trained under this subparagraph any authority to issue sanctions to violators or to take any enforcement action other than any action which the Commission may prescribe by rule.

(D)(i) The Commission, for purposes of monitoring violations of any provision of this chapter (and of any regulation prescribed by the Commission under this chapter) relating to the citizens band radio service, may—

(ii) The Commission, for purposes of recruiting and training individuals under clause (i) and for purposes of screening, annotating, and summarizing violation reports referred under clause (i), may accept and employ the voluntary and uncompensated services of any citizens band radio operator organization. The Commission, in accepting and employing services of individuals under this subparagraph, shall seek to achieve a broad representation of individuals and organizations interested in citizens band radio operation.

(iii) The functions of individuals recruited and trained under this subparagraph shall be limited to—

(I) the detection of improper citizens band radio transmissions;

(II) the conveyance to Commission personnel of information which is essential to the enforcement of this chapter (or regulations prescribed by the Commission under this chapter) relating to the citizens band radio service; and

(III) issuing advisory notices, under the general direction of the Commission, to persons who apparently have violated any provision of this chapter (or regulations prescribed by the Commission under this chapter) relating to the citizens band radio service.

Nothing in this clause shall be construed to grant individuals recruited and trained under this subparagraph any authority to issue sanctions to violators or to take any enforcement

action other than any action which the Commission may prescribe by rule.

(E) The Commission shall have the authority to endorse certification of individuals to perform transmitter installation, operation, maintenance, and repair duties in the private land mobile services and fixed services (as defined by the Commission by rule) if such certification programs are conducted by organizations or committees which are representative of the users in those services and which consist of individuals who are not officers or employees of the Federal Government.

(F) The authority of the Commission established in this paragraph shall not be subject to or affected by the provisions of part III of title 5 or section 1342 of title 31.

(G) Any person who provides services under this paragraph shall not be considered, by reason of having provided such services, a Federal employee.

(H) The Commission, in accepting and employing services of individuals under subparagraphs (A), (B), and (C), shall seek to achieve a broad representation of individuals and organizations interested in amateur station operation.

(I) The Commission may establish rules of conduct and other regulations governing the service of individuals under this paragraph.

(J) With respect to the acceptance of voluntary uncompensated services for the preparation, processing, or administration of examinations for amateur station operator licenses pursuant to subparagraph (A) or (B) of this paragraph, individuals, or organizations which provide or coordinate such authorized volunteer services may recover from examinees reimbursement for out-of-pocket costs. The total amount of allowable cost reimbursement per examinee shall not exceed \$4, adjusted annually every January 1 for changes in the Department of Labor Consumer Price Index. Such individuals and organizations shall maintain records of out-of-pocket expenditures and shall certify annually to the Commission that all costs for which reimbursement was obtained were necessarily and prudently incurred.

(5)(A) The Commission, for purposes of preparing and administering any examination for a commercial radio operator license or endorsement, may accept and employ the services of persons that the Commission determines to be qualified. Any person so employed may not receive compensation for such services, but may recover from examinees such fees as the Commission permits, considering such factors as public service and cost estimates submitted by such person.

(B) The Commission may prescribe regulations to select, oversee, sanction, and dismiss any person authorized under this paragraph to be employed by the Commission.

(C) Any person who provides services under this paragraph or who provides goods in connection with such services shall not, by reason of having provided such service or goods, be considered a Federal or special government employee.

All expenditures of the Commission, including all necessary expenses for transportation incurred by the commissioners or by their employees, under their orders, in making any investigation or upon any official business in any other places than in the city of Washington, shall be allowed and paid on the presentation of itemized vouchers therefor approved by the chairman of the Commission or by such other member or officer thereof as may be designated by the Commission for that purpose.

It shall be his duty to preside at all meetings and sessions of the Commission, to represent the Commission in all matters relating to legislation and legislative reports, except that any commissioner may present his own or minority views or supplemental reports, to represent the Commission in all matters requiring conferences or communications with other governmental officers, departments or agencies, and generally to coordinate and organize the work of the Commission in such manner as to promote prompt and efficient disposition of all matters within the jurisdiction of the Commission. In the case of a vacancy in the office of the chairman of the Commission, or the absence or inability of the chairman to serve, the Commission may temporarily designate one of its members to act as chairman until the cause or circumstance requiring such designation shall have been eliminated or corrected.

(b) Organization of staff

From time to time as the Commission may find necessary, the Commission shall organize

its staff into (1) integrated bureaus, to function on the basis of the Commission's principal workload operations, and (2) such other divisional organizations as the Commission may deem necessary. Each such integrated bureau shall include such legal, engineering, accounting, administrative, clerical, and other personnel as the Commission may determine to be necessary to perform its functions.

(c) Delegation of functions; exceptions to initial orders; force, effect and enforcement of orders; administrative and judicial review; qualifications and compensation of delegates; assignment of cases; separation of review and investigative or prosecuting functions; secretary; seal

(1) When necessary to the proper functioning of the Commission and the prompt and orderly conduct of its business, the Commission may, by published rule or by order, delegate any of its functions (except functions granted to the Commission by this paragraph and by paragraphs (4), (5), and (6) of this subsection and except any action referred to in sections 204(a)(2), 208(b), and 405(b) of this title) to a panel of commissioners, an individual commissioner, an employee board, or an individual employee, including functions with respect to hearing, determining, ordering, certifying, reporting, or otherwise acting as to any work, business, or matter; except that in delegating review functions to employees in cases of adjudication (as defined in section 551 of title 5), the delegation in any such case may be made only to an employee board consisting of two or more employees referred to in paragraph (8) of this subsection. Any such rule or order may be adopted, amended, or rescinded only by a vote of a majority of the members of the Commission then holding office. Nothing in this paragraph shall authorize the Commission to provide for the conduct, by any person or persons other than persons referred to in clauses (2) and (3) of section 556(b) of title 5, of any hearing to which such section 556(b) applies.

(2) As used in this subsection the term "order, decision, report, or action" does not include an initial, tentative, or recommended decision to which exceptions may be filed as provided in section 409(b) of this title.

(3) Any order, decision, report, or action made or taken pursuant to any such delegation, unless reviewed as provided in paragraph (4) of this subsection, shall have the same force and effect, and shall be made, evidenced, and enforced in the same manner, as orders, decisions, reports, or other actions of the Commission.

(4) Any person aggrieved by any such order, decision, report or action may file an application for review by the Commission within such time and in such manner as the Commission shall prescribe, and every such application shall be passed upon by the Commission. The Commission, on its own initiative, may review in whole or in part, at such time and in such manner as it shall determine, any order, decision, report, or action made or taken pursuant to any delegation under paragraph (1) of this subsection.

(5) In passing upon applications for review, the Commission may grant, in whole or in part, or

deny such applications without specifying any reasons therefor. No such application for review shall rely on questions of fact or law upon which the panel of commissioners, individual commissioner, employee board, or individual employee has been afforded no opportunity to pass.

(6) If the Commission grants the application for review, it may affirm, modify, or set aside the order, decision, report, or action, or it may order a rehearing upon such order, decision, report, or action in accordance with section 405 of this title.

(7) The filing of an application for review under this subsection shall be a condition precedent to judicial review of any order, decision, report, or action made or taken pursuant to a delegation under paragraph (1) of this subsection. The time within which a petition for review must be filed in a proceeding to which section 402(a) of this title applies, or within which an appeal must be taken under section 402(b) of this title, shall be computed from the date upon which public notice is given of orders disposing of all applications for review filed in any case.

(8) The employees to whom the Commission may delegate review functions in any case of adjudication (as defined in section 551 of title 5) shall be qualified, by reason of their training, experience, and competence, to perform such review functions, and shall perform no duties inconsistent with such review functions. Such employees shall be in a grade classification or salary level commensurate with their important duties, and in no event less than the grade classification or salary level of the employee or employees whose actions are to be reviewed. In the performance of such review functions such employees shall be assigned to cases in rotation so far as practicable and shall not be responsible to or subject to the supervision or direction of any officer, employee, or agent engaged in the performance of investigative or prosecuting functions for any agency.

(9) The secretary and seal of the Commission shall be the secretary and seal of each panel of the Commission, each individual commissioner, and each employee board or individual employee exercising functions delegated pursuant to paragraph (1) of this subsection.

Meetings of the Commission shall be held at regular intervals, not less frequently than once each calendar month, at which times the functioning of the Commission and the handling of its work load shall be reviewed and such orders shall be entered and other action taken as may be necessary or appropriate to expedite the prompt and orderly conduct of the business of the Commission with the objective of rendering a final decision (1) within three months from the date of filing in all original application, renewal, and transfer cases in which it will not be necessary to hold a hearing, and (2) within six months from the final date of the hearing in all hearing cases.

(e) Managing Director; appointment, functions, pay

The Commission shall have a Managing Director who shall be appointed by the Chairman subject to the approval of the Commission. The

Managing Director, under the supervision and direction of the Chairman, shall perform such administrative and executive functions as the Chairman shall delegate. The Managing Director shall be paid at a rate equal to the rate then payable for level V of the Executive Schedule.

(b) The Commission shall determine whether any new technology or service proposed in a pe-

tion or application is in the public interest within one year after such petition or application is filed. If the Commission initiates its own proceeding for a new technology or service, such proceeding shall be completed within 12 months after it is initiated.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 225, 925, 927 of this title.

§ 158. Application fees

(a) Assessment and collection

The Commission shall assess and collect application fees at such rates as the Commission shall establish or at such modified rates as it shall establish pursuant to the provisions of subsection (b) of this section.

(b) Review and adjustment of Schedule by Commission; notification to Congress; judicial review

(1) The Schedule of Application Fees established under this section shall be reviewed by the Commission every two years after October 1, 1991, and adjusted by the Commission to reflect changes in the Consumer Price Index. Increases or decreases in application fees shall apply to all categories of application fees, except that individual fees shall not be adjusted until the increase or decrease, as determined by the net change in the Consumer Price Index since April 7, 1986, amounts to at least \$5.00 in the case of fees under \$100.00, or 5 percent in the case of fees of \$100.00 or more. All fees which require adjustment will be rounded upward to the next \$5.00 increment. The Commission shall transmit to the Congress notification of any such adjustment not later than 90 days before the effective date of such adjustment.

(2) Increases or decreases in application fees made pursuant to this subsection shall not be subject to judicial review.

(c) Additional application fee; assessment as penalty; amount; dismissal of application or other filing

(1) The Commission shall prescribe by regulation an additional application fee which shall be assessed as a penalty for late payment of application fees required by subsection (a) of this section. Such penalty shall be 25 percent of the amount of the application fee which was not paid in a timely manner.

(2) The Commission may dismiss any application or other filing for failure to pay in a timely manner any application fee or penalty under this section.

(d) Inapplicability of application fees to certain radio services; waiver or deferment of payment

(1) The application fees established under this section shall not be applicable (A) to govern-

mental entities and nonprofit entities licensed in the following radio services: Local Government, Police, Fire, Highway Maintenance, Forestry-Conservation, Public Safety, and Special Emergency Radio, or (B) to governmental entities licensed in other services.

(2) The Commission may waive or defer payment of a charge¹ in any specific instance for good cause shown, where such action would promote the public interest.

(e) Deposit of moneys in general fund; reimbursement of United States for administration of chapter

Moneys received from application fees established under this section shall be deposited in the general fund of the Treasury to reimburse the United States for amounts appropriated for use by the Commission in carrying out its functions under this chapter.

(f) Rules and regulations

The Commission shall prescribe appropriate rules and regulations to carry out the provisions of this section.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 309 of this title.

§ 159. Regulatory fees

(a) General authority

(1) Recovery of costs

The Commission, in accordance with this section, shall assess and collect regulatory fees to recover the costs of the following regulatory activities of the Commission: enforcement activities, policy and rulemaking activities, user information services, and international activities.

(2) Fees contingent on appropriations

The fees described in paragraph (1) of this subsection shall be collected only if, and only in the total amounts, required in Appropriations Acts.

(b) Establishment and adjustment of regulatory fees

(1) In general

The fees assessed under subsection (a) of this section shall—

(A) be derived by determining the full-time equivalent number of employees performing the activities described in subsection (a) of this section within the Private Radio Bureau, Mass Media Bureau, Common Carrier Bureau, and other offices of the Commission, adjusted to take into account factors that are reasonably related to the benefits provided to the payor of the fee by the Commission's activities, including such factors as service area coverage, shared use versus exclusive use, and other factors that the Commission determines are necessary in the public interest;

(B) be established at amounts that will result in collection, during each fiscal year, of an amount that can reasonably be expected to equal the amount appropriated for such fiscal year for the performance of the activities described in subsection (a) of this section; and

(C) until adjusted or amended by the Commission pursuant to paragraph (2) or (3), be the fees established by the Schedule of Regulatory Fees in subsection (g) of this section.

(2) Mandatory adjustment of schedule

For any fiscal year after fiscal year 1994, the Commission shall, by rule, revise the Schedule of Regulatory Fees by proportionate increases or decreases to reflect, in accordance with paragraph (1)(B), changes in the amount appropriated for the performance of the activities described in subsection (a) of this section

for such fiscal year. Such proportionate increases or decreases shall—

(A) be adjusted to reflect, within the overall amounts described in appropriations Acts under the authority of paragraph (1)(A), unexpected increases or decreases in the number of licensees or units subject to payment of such fees; and

(B) be established at amounts that will result in collection of an aggregate amount of fees pursuant to this section that can reasonably be expected to equal the aggregate amount of fees that are required to be collected by appropriations Acts pursuant to paragraph (1)(B).

Increases or decreases in fees made by adjustments pursuant to this paragraph shall not be subject to judicial review. In making adjustments pursuant to this paragraph the Commission may round such fees to the nearest \$5 in the case of fees under \$1,000, or to the nearest \$25 in the case of fees of \$1,000 or more.

(3) Permitted amendments

In addition to the adjustments required by paragraph (2), the Commission shall, by regulation, amend the Schedule of Regulatory Fees if the Commission determines that the Schedule requires amendment to comply with the requirements of paragraph (1)(A). In making such amendments, the Commission shall add, delete, or reclassify services in the Schedule to reflect additions, deletions, or changes in the nature of its services as a consequence of Commission rulemaking proceedings or changes in law. Increases or decreases in fees made by amendments pursuant to this paragraph shall not be subject to judicial review.

(4) Notice to Congress

The Commission shall—

(A) transmit to the Congress notification of any adjustment made pursuant to paragraph (2) immediately upon the adoption of such adjustment; and

(B) transmit to the Congress notification of any amendment made pursuant to paragraph (3) not later than 90 days before the effective date of such amendment.

(c) Enforcement

(1) Penalties for late payment

The Commission shall prescribe by regulation an additional charge which shall be assessed as a penalty for late payment of fees required by subsection (a) of this section. Such penalty shall be 25 percent of the amount of the fee which was not paid in a timely manner.

(2) Dismissal of applications for filings

The Commission may dismiss any application or other filing for failure to pay in a timely manner any fee or penalty under this section.

(3) Revocations

In addition to or in lieu of the penalties and dismissals authorized by paragraphs (1) and (2), the Commission may revoke any instrument of authorization held by any entity that has failed to make payment of a regulatory fee assessed pursuant to this section. Such revoca-

tion action may be taken by the Commission after notice of the Commission's intent to take such action is sent to the licensee by registered mail, return receipt requested, at the licensee's last known address. The notice will provide the licensee at least 30 days to either pay the fee or show cause why the fee does not apply to the licensee or should otherwise be waived or payment deferred. A hearing is not required under this subsection unless the licensee's response presents a substantial and material question of fact. In any case where a hearing is conducted pursuant to this section, the hearing shall be based on written evidence only, and the burden of proceeding with the introduction of evidence and the burden of proof shall be on the licensee. Unless the licensee substantially prevails in the hearing, the Commission may assess the licensee for the costs of such hearing. Any Commission order adopted pursuant to this subsection shall determine the amount due, if any, and provide the licensee with at least 30 days to pay that amount or have its authorization revoked. No order of revocation under this subsection shall become final until the licensee has exhausted its right to judicial review of such order under section 402(b)(5) of this title.

(d) Waiver, reduction, and deferment

The Commission may waive, reduce, or defer payment of a fee in any specific instance for good cause shown, where such action would promote the public interest.

(e) Deposit of collections

Moneys received from fees established under this section shall be deposited as an offsetting collection in, and credited to, the account providing appropriations to carry out the functions of the Commission.

(f) Regulations

(1) In general

The Commission shall prescribe appropriate rules and regulations to carry out the provisions of this section.

(2) Installment payments

Such rules and regulations shall permit payment by installments in the case of fees in large amounts, and in the case of fees in small amounts, shall require the payment of the fee in advance for a number of years not to exceed the term of the license held by the payor.

(g) Schedule

Until amended by the Commission pursuant to subsection (b) of this section, the Schedule of Regulatory Fees which the Federal Communications Commission shall, subject to subsection (a)(2) of this section, assess and collect shall be as follows:

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 152 of this title.

§ 204. Hearings on new charges; suspension pending hearing; refunds; duration of hearing; appeal of order concluding hearing

(a)(1) Whenever there is filed with the Commission any new or revised charge, classification, regulation, or practice, the Commission may either upon complaint or upon its own initiative without complaint, upon reasonable notice, enter upon a hearing concerning the lawfulness thereof; and pending such hearing and the decision thereon the Commission, upon delivering to the carrier or carriers affected thereby a statement in writing of its reasons for such suspension, may suspend the operation of such charge, classification, regulation, or practice, in whole or in part but not for a longer period than five months beyond the time when it would otherwise go into effect; and after full hearing the Commission may make such order with reference thereto as would be proper in a proceeding initiated after such charge, classification, regulation, or practice had become effective. If the proceeding has not been concluded and an order made within the period of the suspension, the proposed new or revised charge, classification, regulation, or practice shall go into effect at the end of such period; but in case of a proposed charge for a new service or a revised charge, the Commission may by order require the interested carrier or carriers to keep accurate account of all amounts received by reason of such charge for a new service or revised charge, specifying by whom and in whose behalf such amounts are paid, and upon completion of the hearing and decision may by further order require the interested carrier or carriers to refund, with interest, to the persons in whose behalf such amounts were paid, such portion of such charge for a new service or revised charges as by its decision shall be found not justified. At any hearing involving a new or revised charge, or a proposed new or revised charge, the burden of proof to show that the new or revised charge, or proposed charge, is just and reasonable shall be upon the carrier, and the Commission shall give to the hearing and decision of such questions preference over all other questions pending before it and decide the same as speedily as possible.

(2)(A) Except as provided in subparagraph (B), the Commission shall, with respect to any hearing under this section, issue an order concluding such hearing within 12 months after the date that the charge, classification, regulation, or

practice subject to the hearing becomes effective, or within 15 months after such date if the hearing raises questions of fact of such extraordinary complexity that the questions cannot be resolved within 12 months.

(B) The Commission shall, with respect to any such hearing initiated prior to November 3, 1988, issue an order concluding the hearing not later than 12 months after November 3, 1988.

(C) Any order concluding a hearing under this section shall be a final order and may be appealed under section 402(a) of this title.

(b) Notwithstanding the provisions of subsection (a) of this section, the Commission may allow part of a charge, classification, regulation, or practice to go into effect, based upon a written showing by the carrier or carriers affected, and an opportunity for written comment thereon by affected persons, that such partial authorization is just, fair, and reasonable. Additionally, or in combination with a partial authorization, the Commission, upon a similar showing, may allow all or part of a charge, classification, regulation, or practice to go into effect on a temporary basis pending further order of the Commission. Authorizations of temporary new or increased charges may include an accounting order of the type provided for in subsection (a) of this section.

If the carrier owning the property at the time such original cost is reported shall have paid more or less than the original cost to acquire the same, the amount of such cost of acquisition, and any facts which the Commission may require in connection therewith, shall be reported with such original cost. § 214. Extension of lines or discontinuance of service; certificate of public convenience and necessity

(a) Exceptions; temporary or emergency service or discontinuance of service; changes in plant, operation or equipment

No carrier shall undertake the construction of a new line or of an extension of any line, or shall acquire or operate any line, or extension thereof, or shall engage in transmission over or by means of such additional or extended line, unless and until there shall first have been obtained from the Commission a certificate that the present or future public convenience and necessity require or will require the construction, or operation, or construction and operation, of such additional or extended line: *Provided*, That no such certificate shall be required under this section for the construction, acquisition, or operation of (1) a line within a single State unless such line constitutes part of an interstate line, (2) local, branch, or terminal lines not exceeding ten miles in length, or (3) any line acquired under section 221 of this title: *Provided further*, That the Commission may, upon appropriate request being made, authorize temporary or emergency service, or the supplementing of existing facilities, without regard to the provisions of this section. No carrier shall discontinue, reduce, or impair service to a community, or part of a community, unless and until there shall first have been obtained from the Commission a certificate that neither the present nor future public convenience and necessity will be adversely affected thereby; except that the Commission may, upon appropriate request being made, authorize temporary or emergency discontinuance, reduction, or impairment of service, or partial discontinuance, reduction, or impairment of service, without regard to the provisions of this section. As used in this section the term “line” means any channel of communication established by the use of appropriate equipment, other than a channel of communication established by the interconnection of two or more existing channels: *Provided, however*, That

nothing in this section shall be construed to require a certificate or other authorization from the Commission for any installation, replacement, or other changes in plant, operation, or equipment, other than new construction, which will not impair the adequacy or quality of service provided.

Upon receipt of an application for any such certificate, the Commission shall cause notice thereof to be given to, and shall cause a copy of such application to be filed with, the Secretary of Defense, the Secretary of State (with respect to such applications involving service to foreign points), and the Governor of each State in which such line is proposed to be constructed, extended, acquired, or operated, or in which such discontinuance, reduction, or impairment of service is proposed, with the right to those notified to be heard; and the Commission may require such published notice as it shall determine.

(c) Approval or disapproval; injunction

The Commission shall have power to issue such certificate as applied for, or to refuse to issue it, or to issue it for a portion or portions of a line, or extension thereof, or discontinuance, reduction, or impairment of service, described in the application, or for the partial exercise only of such right or privilege, and may attach to the issuance of the certificate such terms and conditions as in its judgment the public convenience and necessity may require. After issuance of such certificate, and not before, the carrier may, without securing approval other than such certificate, comply with the terms and conditions contained in or attached to the issuance of such certificate and proceed with the construction, extension, acquisition, operation, or discontinuance, reduction, or impairment of service covered thereby. Any construction, extension, acquisition, operation, discontinuance, reduction, or impairment of service contrary to the provisions of this section may be enjoined by any court of competent jurisdiction at the suit of the United States, the Commission, the State commission, any State affected, or any party in interest.

(d) Order of Commission; hearing; penalty

The Commission may, after full opportunity for hearing, in a proceeding upon complaint or upon its own initiative without complaint, authorize or require by order any carrier, party to such proceeding, to provide itself with adequate facilities for the expeditious and efficient performance of its service as a common carrier and to extend its line or to establish a public office; but no such authorization or order shall be made unless the Commission finds, as to such provision of facilities, as to such establishment of public offices, or as to such extension, that it is reasonably required in the interest of public convenience and necessity, or as to such extension or facilities that the expense involved therein will not impair the ability of the carrier to perform its duty to the public. Any carrier which refuses or neglects to comply with any order of the Commission made in pursuance of

this subsection shall forfeit to the United States \$1,200 for each day during which such refusal or neglect continues.

(1) The Commission may, in its discretion, prescribe the forms of any and all accounts, records, and memoranda to be kept by carriers subject to this chapter, including the accounts, records, and memoranda of the movement of traffic, as well as of the receipts and expenditures of moneys.

(2) The Commission shall, by rule, prescribe a uniform system of accounts for use by telephone companies. Such uniform system shall require that each common carrier shall maintain a system of accounting methods, procedures, and techniques (including accounts and supporting records and memoranda) which shall ensure a proper allocation of all costs to and among telecommunications services, facilities, and products (and to and among classes of such services, facilities, and products) which are developed, manufactured, or offered by such common carrier.

(b) Depreciation charges

The Commission shall prescribe for such carriers the classes of property for which depreciation charges may be properly included under operating expenses, and the percentages of depreciation which shall be charged with respect to each of such classes of property, classifying the carriers as it may deem proper for this purpose. The Commission may, when it deems necessary, modify the classes and percentages so prescribed. Such carriers shall not, after the Commission has prescribed the classes of property for which depreciation charges may be included, charge to operating expenses any depreciation charges on classes of property other than those prescribed by the Commission, or after the Commission has prescribed percentages of depreciation, charge with respect to any class of property a percentage of depreciation other than that prescribed therefor by the Commission. No such carrier shall in any case include in any form under its operating or other expenses any depreciation or other charge or expenditure included elsewhere as a depreciation charge or otherwise under its operating or other expenses.

(c) Access to information; burden of proof

The Commission shall at all times have access to and the right of inspection and examination

of all accounts, records, and memoranda, including all documents, papers, and correspondence now or hereafter existing, and kept or required to be kept by such carriers, and the provisions of this section respecting the preservation and destruction of books, papers, and documents shall apply thereto. The burden of proof to justify every accounting entry questioned by the Commission shall be on the person making, authorizing, or requiring such entry and the Commission may suspend a charge or credit pending submission of proof by such person. Any provision of law prohibiting the disclosure of the contents of messages or communications shall not be deemed to prohibit the disclosure of any matter in accordance with the provisions of this section.

(d) Penalty for failure to comply

In case of failure or refusal on the part of any such carrier to keep such accounts, records, and memoranda on the books and in the manner prescribed by the Commission, or to submit such accounts, records, memoranda, documents, papers, and correspondence as are kept to the inspection of the Commission or any of its authorized agents, such carrier shall forfeit to the United States the sum of \$6,000 for each day of the continuance of each such offense.

(e) False entry; destruction; penalty

Any person who shall willfully make any false entry in the accounts of any book of accounts or in any record or memoranda kept by any such carrier, or who shall willfully destroy, mutilate, alter, or by any other means or device falsify any such account, record, or memoranda, or who shall willfully neglect or fail to make full, true, and correct entries in such accounts, records, or memoranda of all facts and transactions appertaining to the business of the carrier, shall be deemed guilty of a misdemeanor, and shall be subject, upon conviction, to a fine of not less than \$1,000 nor more than \$5,000 or imprisonment for a term of not less than one year nor more than three years, or both such fine and imprisonment: *Provided*, That the Commission may in its discretion issue orders specifying such operating, accounting, or financial papers, records, books, blanks, or documents which may, after a reasonable time, be destroyed, and prescribing the length of time such books, papers, or documents shall be preserved.

(f) Confidentiality of information

No member, officer, or employee of the Commission shall divulge any fact or information which may come to his knowledge during the course of examination of books or other accounts, as hereinbefore provided, except insofar as he may be directed by the Commission or by a court.

(g) Use of other forms; alterations in prescribed forms

After the Commission has prescribed the forms and manner of keeping of accounts, records, and memoranda to be kept by any person as herein provided, it shall be unlawful for such person to keep any other accounts, records, or memoranda than those so prescribed or such as may be approved by the Commission or to

keep the accounts in any other manner than that prescribed or approved by the Commission. Notice of alterations by the Commission in the required manner or form of keeping accounts shall be given to such persons by the Commission at least six months before the same are to take effect.

(h) Exemption; regulation by State commission

The Commission may classify carriers subject to this chapter and prescribe different requirements under this section for different classes of carriers, and may, if it deems such action consistent with the public interest, except the carriers of any particular class or classes in any State from any of the requirements under this section in cases where such carriers are subject to State commission regulation with respect to matters to which this section relates.

(i) Consultation with State commissions

The Commission, before prescribing any requirements as to accounts, records, or memoranda, shall notify each State commission having jurisdiction with respect to any carrier involved, and shall give reasonable opportunity to each such commission to present its views, and shall receive and consider such views and recommendations.

(j) Report to Congress on need for further legislation

The Commission shall investigate and report to Congress as to the need for legislation to define further or harmonize the powers of the Commission and of State commissions with respect to matters to which this section relates.

§ 221. Consolidations and mergers of telephone companies

(a) Notification of State Governor and State commission; public hearing; certification

Upon application of one or more telephone companies for authority to consolidate their properties or a part thereof into a single company, or for authority for one or more such companies to acquire the whole or any part of the property of another telephone company or other telephone companies or the control thereof by the purchase of securities or by lease or in any other like manner, when such consolidated company would be subject to this chapter, the Commission shall give reasonable notice in writing to the governor of each of the States in which the physical property affected, or any part thereof, is situated, and to the State commis-

sion having jurisdiction over telephone companies, and to such other persons as it may deem advisable, and shall afford such parties a reasonable opportunity to submit comments on the proposal. A public hearing shall be held in all cases where a request therefor is made by a telephone company, an association of telephone companies, a State commission, or local governmental authority. If the Commission finds that the proposed consolidation, acquisition, or control will be of advantage to the persons to whom service is to be rendered and in the public interest, it shall certify to that effect; and thereupon any Act or Acts of Congress making the proposed transaction unlawful shall not apply. Nothing in this subsection shall be construed as in anywise limiting or restricting the powers of the several States to control and regulate telephone companies.

(b) State jurisdiction over services

Subject to the provisions of sections 225 and 301 of this title, nothing in this chapter shall be construed to apply, or to give the Commission jurisdiction, with respect to charges, classifications, practices, services, facilities, or regulations for or in connection with wire, mobile, or point-to-point radio telephone exchange service, or any combination thereof, even though a portion of such exchange service constitutes interstate or foreign communication, in any case where such matters are subject to regulation by a State commission or by local governmental authority.

(c) Determination of property used in interstate toll service

For the purpose of administering this chapter as to carriers engaged in wire telephone communication, the Commission may classify the property of any such carrier used for wire telephone communication, and determine what property of said carrier shall be considered as used in interstate or foreign telephone toll service. Such classification shall be made after hearing, upon notice to the carrier, the State commission (or the Governor, if the State has no State commission) of any State in which the property of said carrier is located, and such other persons as the Commission may prescribe.

(d) Valuation of property

In making a valuation of the property of any wire telephone carrier the Commission, after making the classification authorized in this section, may in its discretion value only that part of the property of such carrier determined to be used in interstate or foreign telephone toll service.

shall be fined in accordance with title 18 or imprisoned not more than two years, or both.

(2) Whoever knowingly—

(A) within the United States, by means of telephone, makes (directly or by recording device) any indecent communication for commercial purposes which is available to any person under 18 years of age or to any other person without that person's consent, regard-

less of whether the maker of such communication placed the call; or

(B) permits any telephone facility under such person's control to be used for an activity prohibited by subparagraph (A), shall be fined not more than \$50,000 or imprisoned not more than six months, or both.

(3) It is a defense to prosecution under paragraph (2) of this subsection that the defendant restricted access to the prohibited communication to persons 18 years of age or older in accordance with subsection (c) of this section and with such procedures as the Commission may prescribe by regulation.

(4) In addition to the penalties under paragraph (1), whoever, within the United States, intentionally violates paragraph (1) or (2) shall be subject to a fine of not more than \$50,000 for each violation. For purposes of this paragraph, each day of violation shall constitute a separate violation.

(2) Except as provided in paragraph (3), no cause of action may be brought in any court or administrative agency against any common carrier, or any of its affiliates, including their officers, directors, employees, agents, or authorized representatives on account of—

(B) any access permitted—

(i) in good faith reliance upon the lack of any representation by a provider of commu-

nications that communications provided by that provider are communications specified in subsection (b) of this section, or

§ 225. Telecommunications services for hearing-impaired and speech-impaired individuals**(a) Definitions**

As used in this section—

(1) Common carrier or carrier

The term “common carrier” or “carrier” includes any common carrier engaged in interstate communication by wire or radio as defined in section 153(h) of this title and any common carrier engaged in intrastate commu-

nication by wire or radio, notwithstanding sections 152(b) and 221(b) of this title.

(2) TDD

The term “TDD” means a Telecommunications Device for the Deaf, which is a machine that employs graphic communication in the transmission of coded signals through a wire or radio communication system.

(3) Telecommunications relay services

The term “telecommunications relay services” means telephone transmission services that provide the ability for an individual who has a hearing impairment or speech impairment to engage in communication by wire or radio with a hearing individual in a manner that is functionally equivalent to the ability of an individual who does not have a hearing impairment or speech impairment to communicate using voice communication services by wire or radio. Such term includes services that enable two-way communication between an individual who uses a TDD or other nonvoice terminal device and an individual who does not use such a device.

(b) Availability of telecommunications relay services

(1) In general

In order to carry out the purposes established under section 151 of this title, to make available to all individuals in the United States a rapid, efficient nationwide communication service, and to increase the utility of the telephone system of the Nation, the Commission shall ensure that interstate and intrastate telecommunications relay services are available, to the extent possible and in the most efficient manner, to hearing-impaired and speech-impaired individuals in the United States.

(2) Use of general authority and remedies

For the purposes of administering and enforcing the provisions of this section and the regulations prescribed thereunder, the Commission shall have the same authority, power, and functions with respect to common carriers engaged in intrastate communication as the Commission has in administering and enforcing the provisions of this subchapter with respect to any common carrier engaged in interstate communication. Any violation of this section by any common carrier engaged in intrastate communication shall be subject to the same remedies, penalties, and procedures as are applicable to a violation of this chapter by a common carrier engaged in interstate communication.

(c) Provision of services

Each common carrier providing telephone voice transmission services shall, not later than 3 years after July 26, 1990, provide in compliance with the regulations prescribed under this section, throughout the area in which it offers service, telecommunications relay services, individually, through designees, through a competitively selected vendor, or in concert with other carriers. A common carrier shall be considered to be in compliance with such regulations—

(1) with respect to intrastate telecommunications relay services in any State that does not have a certified program under subsection (f) of this section and with respect to interstate telecommunications relay services, if such common carrier (or other entity through which the carrier is providing such relay services) is in compliance with the Commission’s regulations under subsection (d) of this section; or

(2) with respect to intrastate telecommunications relay services in any State that has a certified program under subsection (f) of this section for such State, if such common carrier (or other entity through which the carrier is providing such relay services) is in compliance with the program certified under subsection (f) of this section for such State.

(d) Regulations

(1) In general

The Commission shall, not later than 1 year after July 26, 1990, prescribe regulations to implement this section, including regulations that—

(A) establish functional requirements, guidelines, and operations procedures for telecommunications relay services;

(B) establish minimum standards that shall be met in carrying out subsection (c) of this section;

(C) require that telecommunications relay services operate every day for 24 hours per day;

(D) require that users of telecommunications relay services pay rates no greater than the rates paid for functionally equivalent voice communication services with respect to such factors as the duration of the call, the time of day, and the distance from point of origination to point of termination;

(E) prohibit relay operators from failing to fulfill the obligations of common carriers by refusing calls or limiting the length of calls that use telecommunications relay services;

(F) prohibit relay operators from disclosing the content of any relayed conversation and from keeping records of the content of any such conversation beyond the duration of the call; and

(G) prohibit relay operators from intentionally altering a relayed conversation.

(2) Technology

The Commission shall ensure that regulations prescribed to implement this section encourage, consistent with section 157(a) of this title, the use of existing technology and do not discourage or impair the development of improved technology.

(3) Jurisdictional separation of costs

(A) In general

Consistent with the provisions of section 410 of this title, the Commission shall prescribe regulations governing the jurisdictional separation of costs for the services provided pursuant to this section.

(B) Recovering costs

Such regulations shall generally provide that costs caused by interstate tele-

communications relay services shall be recovered from all subscribers for every interstate service and costs caused by intrastate telecommunications relay services shall be recovered from the intrastate jurisdiction. In a State that has a certified program under subsection (f) of this section, a State commission shall permit a common carrier to recover the costs incurred in providing intrastate telecommunications relay services by a method consistent with the requirements of this section.

(e) Enforcement

(1) In general

Subject to subsections (f) and (g) of this section, the Commission shall enforce this section.

(2) Complaint

The Commission shall resolve, by final order, a complaint alleging a violation of this section within 180 days after the date such complaint is filed.

(f) Certification

(1) State documentation

Any State desiring to establish a State program under this section shall submit documentation to the Commission that describes the program of such State for implementing intrastate telecommunications relay services and the procedures and remedies available for enforcing any requirements imposed by the State program.

(2) Requirements for certification

After review of such documentation, the Commission shall certify the State program if the Commission determines that—

(A) the program makes available to hearing-impaired and speech-impaired individuals, either directly, through designees, through a competitively selected vendor, or through regulation of intrastate common carriers, intrastate telecommunications relay services in such State in a manner that meets or exceeds the requirements of regulations prescribed by the Commission under subsection (d) of this section; and

(B) the program makes available adequate procedures and remedies for enforcing the requirements of the State program.

(3) Method of funding

Except as provided in subsection (d) of this section, the Commission shall not refuse to certify a State program based solely on the method such State will implement for funding intrastate telecommunication relay services.

(4) Suspension or revocation of certification

The Commission may suspend or revoke such certification if, after notice and opportunity for hearing, the Commission determines that such certification is no longer warranted. In a State whose program has been suspended or revoked, the Commission shall take such steps as may be necessary, consistent with this section, to ensure continuity of telecommunications relay services.

(g) Complaint

(1) Referral of complaint

If a complaint to the Commission alleges a violation of this section with respect to intrastate telecommunications relay services within a State and certification of the program of such State under subsection (f) of this section is in effect, the Commission shall refer such complaint to such State.

(2) Jurisdiction of Commission

After referring a complaint to a State under paragraph (1), the Commission shall exercise jurisdiction over such complaint only if—

(A) final action under such State program has not been taken on such complaint by such State—

(i) within 180 days after the complaint is filed with such State; or

(ii) within a shorter period as prescribed by the regulations of such State; or

(B) the Commission determines that such State program is no longer qualified for certification under subsection (f) of this section.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 152, 221 of this title; title 42 sections 12201, 12206.

§ 226. Telephone operator services

(a) Definitions

As used in this section—

(1) The term “access code” means a sequence of numbers that, when dialed, connect the caller to the provider of operator services associated with that sequence.

(2) The term “aggregator” means any person that, in the ordinary course of its operations, makes telephones available to the public or to transient users of its premises, for interstate telephone calls using a provider of operator services.

(3) The term “call splashing” means the transfer of a telephone call from one provider of operator services to another such provider in such a manner that the subsequent provider is unable or unwilling to determine the location of the origination of the call and, because of such inability or unwillingness, is prevented from billing the call on the basis of such location.

(4) The term “consumer” means a person initiating any interstate telephone call using operator services.

(5) The term “equal access” has the meaning given that term in Appendix B of the Modification of Final Judgment entered August 24, 1982, in *United States v. Western Electric*, Civil Action No. 82-0192 (United States District Court, District of Columbia), as amended by the Court in its orders issued prior to October 17, 1990.

(6) The term “equal access code” means an access code that allows the public to obtain an equal access connection to the carrier associated with that code.

(7) The term “operator services” means any interstate telecommunications service initiated from an aggregator location that includes, as a component, any automatic or live assistance to a consumer to arrange for billing or completion, or both, of an interstate telephone call through a method other than—

(A) automatic completion with billing to the telephone from which the call originated; or

(B) completion through an access code used by the consumer, with billing to an account previously established with the carrier by the consumer.

(8) The term “presubscribed provider of operator services” means the interstate provider of operator services to which the consumer is connected when the consumer places a call using a provider of operator services without dialing an access code.

(9) The term “provider of operator services” means any common carrier that provides operator services or any other person determined by the Commission to be providing operator services.

(b) Requirements for providers of operator services

(1) In general

Beginning not later than 90 days after October 17, 1990, each provider of operator services shall, at a minimum—

(A) identify itself, audibly and distinctly, to the consumer at the beginning of each telephone call and before the consumer incurs any charge for the call;

(B) permit the consumer to terminate the telephone call at no charge before the call is connected;

(C) disclose immediately to the consumer, upon request and at no charge to the consumer—

(i) a quote of its rates or charges for the call;

(ii) the methods by which such rates or charges will be collected; and

(iii) the methods by which complaints concerning such rates, charges, or collection practices will be resolved;

(D) ensure, by contract or tariff, that each aggregator for which such provider is the presubscribed provider of operator services is in compliance with the requirements of subsection (c) of this section and, if applicable, subsection (e)(1) of this section;

(E) withhold payment (on a location-by-location basis) of any compensation, including commissions, to aggregators if such provider reasonably believes that the aggregator (i) is blocking access by means of “950” or “800” numbers to interstate common carriers in violation of subsection (c)(1)(B) of this section or (ii) is blocking access to equal access codes in violation of rules the Commission may prescribe under subsection (e)(1) of this section;

(F) not bill for unanswered telephone calls in areas where equal access is available;

(G) not knowingly bill for unanswered telephone calls where equal access is not available;

(H) not engage in call splashing, unless the consumer requests to be transferred to another provider of operator services, the consumer is informed prior to incurring any charges that the rates for the call may not reflect the rates from the actual originating location of the call, and the consumer then consents to be transferred; and

(I) except as provided in subparagraph (H), not bill for a call that does not reflect the location of the origination of the call.

(2) Additional requirements for first 3 years

In addition to meeting the requirements of paragraph (1), during the 3-year period beginning on the date that is 90 days after October 17, 1990, each presubscribed provider of operator services shall identify itself audibly and distinctly to the consumer, not only as required in paragraph (1)(A), but also for a second time before connecting the call and before the consumer incurs any charge.

(c) Requirements for aggregators

(1) In general

Each aggregator, beginning not later than 90 days after October 17, 1990, shall—

(A) post on or near the telephone instrument, in plain view of consumers—

(i) the name, address, and toll-free telephone number of the provider of operator services;

(ii) a written disclosure that the rates for all operator-assisted calls are available on request, and that consumers have a right to obtain access to the interstate common carrier of their choice and may contact their preferred interstate common carriers for information on accessing that carrier’s service using that telephone; and

(iii) the name and address of the enforcement division of the Common Carrier Bureau of the Commission, to which the consumer may direct complaints regarding operator services;

(B) ensure that each of its telephones presubscribed to a provider of operator services allows the consumer to use “800” and “950” access code numbers to obtain access to the provider of operator services desired by the consumer; and

(C) ensure that no charge by the aggregator to the consumer for using an “800” or “950” access code number, or any other access code number, is greater than the amount the aggregator charges for calls placed using the presubscribed provider of operator services.

(2) Effect of State law or regulation

The requirements of paragraph (1)(A) shall not apply to an aggregator in any case in which State law or State regulation requires the aggregator to take actions that are substantially the same as those required in paragraph (1)(A).

(d) General rulemaking required

(1) Rulemaking proceeding

The Commission shall conduct a rulemaking proceeding pursuant to this subchapter to prescribe regulations to—

(A) protect consumers from unfair and deceptive practices relating to their use of operator services to place interstate telephone calls; and

(B) ensure that consumers have the opportunity to make informed choices in making such calls.

(2) Contents of regulations

The regulations prescribed under this section shall—

(A) contain provisions to implement each of the requirements of this section, other than the requirements established by the rulemaking under subsection (e) of this section on access and compensation; and

(B) contain such other provisions as the Commission determines necessary to carry out this section and the purposes and policies of this section.

(3) Additional requirements to be implemented by regulations

The regulations prescribed under this section shall, at a minimum—

(A) establish minimum standards for providers of operator services and aggregators to use in the routing and handling of emergency telephone calls; and

(B) establish a policy for requiring providers of operator services to make public information about recent changes in operator services and choices available to consumers in that market.

(e) Separate rulemaking on access and compensation

(1) Access

The Commission,¹ shall require—

(A) that each aggregator ensure within a reasonable time that each of its telephones presubscribed to a provider of operator services allows the consumer to obtain access to the provider of operator services desired by the consumer through the use of an equal access code; or

(B) that all providers of operator services, within a reasonable time, make available to their customers a “950” or “800” access code number for use in making operator services calls from anywhere in the United States; or

(C) that the requirements described under both subparagraphs (A) and (B) apply.

(2) Compensation

The Commission shall consider the need to prescribe compensation (other than advance payment by consumers) for owners of competitive public pay telephones for calls routed to providers of operator services that are other than the presubscribed provider of operator services for such telephones. Within 9 months after October 17, 1990, the Commission shall reach a final decision on whether to prescribe such compensation.

(f) Technological capability of equipment

Any equipment and software manufactured or imported more than 18 months after October 17, 1990, and installed by any aggregator shall be

technologically capable of providing consumers with access to interstate providers of operator services through the use of equal access codes.

(g) Fraud

In any proceeding to carry out the provisions of this section, the Commission shall require such actions or measures as are necessary to ensure that aggregators are not exposed to undue risk of fraud.

(h) Determinations of rate compliance

(1) Filing of informational tariff

(A) In general

Each provider of operator services shall file, within 90 days after October 17, 1990, and shall maintain, update regularly, and keep open for public inspection, an informational tariff specifying rates, terms, and conditions, and including commissions, surcharges, any fees which are collected from consumers, and reasonable estimates of the amount of traffic priced at each rate, with respect to calls for which operator services are provided. Any changes in such rates, terms, or conditions shall be filed no later than the first day on which the changed rates, terms, or conditions are in effect.

(B) Waiver authority

The Commission may, after 4 years following October 17, 1990, waive the requirements of this paragraph only if—

(i) the findings and conclusions of the Commission in the final report issued under paragraph (3)(B)(iii) state that the regulatory objectives specified in subsection (d)(1)(A) and (B) of this section have been achieved; and

(ii) the Commission determines that such waiver will not adversely affect the continued achievement of such regulatory objectives.

(2) Review of informational tariffs

If the rates and charges filed by any provider of operator services under paragraph (1) appear upon review by the Commission to be unjust or unreasonable, the Commission may require such provider of operator services to do either or both of the following:

(A) demonstrate that its rates and charges are just and reasonable, and

(B) announce that its rates are available on request at the beginning of each call.

(3) Proceeding required

(A) In general

Within 60 days after October 17, 1990, the Commission shall initiate a proceeding to determine whether the regulatory objectives specified in subsection (d)(1)(A) and (B) of this section are being achieved. The proceeding shall—

(i) monitor operator service rates;

(ii) determine the extent to which offerings made by providers of operator services are improvements, in terms of service quality, price, innovation, and other factors, over those available before the entry of new providers of operator services into the market;

¹ So in original. The comma probably should not appear.

(iii) report on (in the aggregate and by individual provider) operator service rates, incidence of service complaints, and service offerings;

(iv) consider the effect that commissions and surcharges, billing and validation costs, and other costs of doing business have on the overall rates charged to consumers; and

(v) monitor compliance with the provisions of this section, including the periodic placement of telephone calls from aggregator locations.

(B) Reports

(i) The Commission shall, during the pendency of such proceeding and not later than 5 months after its commencement, provide the Congress with an interim report on the Commission's activities and progress to date.

(ii) Not later than 11 months after the commencement of such proceeding, the Commission shall report to the Congress on its interim findings as a result of the proceeding.

(iii) Not later than 23 months after the commencement of such proceeding, the Commission shall submit a final report to the Congress on its findings and conclusions.

(4) Implementing regulations

(A) In general

Unless the Commission makes the determination described in subparagraph (B), the Commission shall, within 180 days after submission of the report required under paragraph (3)(B)(iii), complete a rulemaking proceeding pursuant to this subchapter to establish regulations for implementing the requirements of this subchapter (and paragraphs (1) and (2) of this subsection) that rates and charges for operator services be just and reasonable. Such regulations shall include limitations on the amount of commissions or any other compensation given to aggregators by providers of operator service.

(B) Limitation

The requirement of subparagraph (A) shall not apply if, on the basis of the proceeding under paragraph (3)(A), the Commission makes (and includes in the report required by paragraph (3)(B)(iii)) a factual determination that market forces are securing rates and charges that are just and reasonable, as evidenced by rate levels, costs, complaints, service quality, and other relevant factors.

(i) Statutory construction

Nothing in this section shall be construed to alter the obligations, powers, or duties of common carriers or the Commission under the other sections of this chapter.

AMENDMENTS

1994—Subsec. (d)(2) to (4). Pub. L. 103-414, § 303(a)(10), redesignated pars. (3) and (4) as (2) and (3), respectively,

and struck out heading and text of former par. (2). Text read as follows: "The Commission shall initiate the proceeding required under paragraph (1) within 60 days after October 17, 1990, and shall prescribe regulations pursuant to the proceeding not later than 210 days after October 17, 1990. Such regulations shall take effect not later than 45 days after the date the regulations are prescribed."

Subsec. (e)(1). Pub. L. 103-414, § 304(a)(8), struck out "within 9 months after October 17, 1990," after "The Commission," in introductory provisions.

1992—Subsec. (d)(4)(A). Pub. L. 102-538 inserted "and aggregators" after "operator services".

1990—Subsec. (b)(1). Pub. L. 101-555, § 4(a), substituted "90 days" for "30 days".

Subsec. (b)(1)(J). Pub. L. 101-555, § 4(b), struck out subpar. (J) which read as follows: "not bill an interexchange telephone call to a billing card number which—

"(i) is issued by another provider of operator services, and

"(ii) permits the identification of the other provider, unless the call is billed at a rate not greater than the other provider's rate for the call, the consumer requests a special service that is not available under tariff from the other provider, or the consumer expressly consents to a rate greater than the other provider's rate."

Subsecs. (b)(2), (c)(1), (h)(1)(A). Pub. L. 101-555, § 4(a), substituted "90 days" for "30 days".

CONGRESSIONAL FINDINGS

Section 2 of Pub. L. 101-435 provided that: "The Congress finds that—

"(1) the divestiture of AT&T and decisions allowing open entry for competitors in the telephone marketplace produced a variety of new services and many new providers of existing telephone services;

"(2) the growth of competition in the telecommunications market makes it essential to ensure that safeguards are in place to assure fairness for consumers and service providers alike;

"(3) a variety of providers of operator services now compete to win contracts to provide operator services to hotels, hospitals, airports, and other aggregators of telephone business from consumers;

"(4) the mere existence of a variety of service providers in the operator services marketplace is significant in making that market competitive only when consumers are able to make informed choices from among those service providers;

"(5) however, often consumers have no choices in selecting a provider of operator services, and often attempts by consumers to reach their preferred long distance carrier by using a telephone billing card, credit card, or prearranged access code number are blocked;

"(6) a number of State regulatory authorities have taken action to protect consumers using intrastate operator services;

"(7) from January 1988 through February 1990, the Federal Communications Commission received over 4,000 complaints from consumers about operator services;

"(8) those consumers have complained that they are denied access to the interexchange carrier of their choice, that they are deceived about the identity of the company providing operator services for their calls and the rates being charged, that they lack information on what they can do to complain about unfair treatment by an operator service provider, and that they are, accordingly, being deprived of the free choice essential to the operation of a competitive market;

"(9) the Commission has testified that its actions have been insufficient to correct the problems in the operator services industry to date; and

"(10) a combination of industry self-regulation and government regulation is required to ensure that

competitive operator services are provided in a fair and reasonable manner.”

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 152 of this title.

§ 227. Restrictions on use of telephone equipment

(a) Definitions

As used in this section—

(1) The term “automatic telephone dialing system” means equipment which has the capacity—

(A) to store or produce telephone numbers to be called, using a random or sequential number generator; and

(B) to dial such numbers.

(2) The term “telephone facsimile machine” means equipment which has the capacity (A) to transcribe text or images, or both, from paper into an electronic signal and to transmit that signal over a regular telephone line, or (B) to transcribe text or images (or both) from an electronic signal received over a regular telephone line onto paper.

(3) The term “telephone solicitation” means the initiation of a telephone call or message for the purpose of encouraging the purchase or rental of, or investment in, property, goods, or services, which is transmitted to any person, but such term does not include a call or message (A) to any person with that person’s prior express invitation or permission, (B) to any person with whom the caller has an established business relationship, or (C) by a tax exempt nonprofit organization.

(4) The term “unsolicited advertisement” means any material advertising the commercial availability or quality of any property, goods, or services which is transmitted to any person without that person’s prior express invitation or permission.

(b) Restrictions on use of automated telephone equipment

(1) Prohibitions

It shall be unlawful for any person within the United States—

(A) to make any call (other than a call made for emergency purposes or made with the prior express consent of the called party) using any automatic telephone dialing system or an artificial or prerecorded voice—

(i) to any emergency telephone line (including any “911” line and any emergency line of a hospital, medical physician or service office, health care facility, poison control center, or fire protection or law enforcement agency);

(ii) to the telephone line of any guest room or patient room of a hospital, health care facility, elderly home, or similar establishment; or

(iii) to any telephone number assigned to a paging service, cellular telephone service, specialized mobile radio service, or other radio common carrier service, or any service for which the called party is charged for the call;

(B) to initiate any telephone call to any residential telephone line using an artificial

or prerecorded voice to deliver a message without the prior express consent of the called party, unless the call is initiated for emergency purposes or is exempted by rule or order by the Commission under paragraph (2)(B);

(C) to use any telephone facsimile machine, computer, or other device to send an unsolicited advertisement to a telephone facsimile machine; or

(D) to use an automatic telephone dialing system in such a way that two or more telephone lines of a multi-line business are engaged simultaneously.

(2) Regulations; exemptions and other provisions

The Commission shall prescribe regulations to implement the requirements of this subsection. In implementing the requirements of this subsection, the Commission—

(A) shall consider prescribing regulations to allow businesses to avoid receiving calls made using an artificial or prerecorded voice to which they have not given their prior express consent;

(B) may, by rule or order, exempt from the requirements of paragraph (1)(B) of this subsection, subject to such conditions as the Commission may prescribe—

(i) calls that are not made for a commercial purpose; and

(ii) such classes or categories of calls made for commercial purposes as the Commission determines—

(I) will not adversely affect the privacy rights that this section is intended to protect; and

(II) do not include the transmission of any unsolicited advertisement; and

(C) may, by rule or order, exempt from the requirements of paragraph (1)(A)(iii) of this subsection calls to a telephone number assigned to a cellular telephone service that are not charged to the called party, subject to such conditions as the Commission may prescribe as necessary in the interest of the privacy rights this section is intended to protect.

(3) Private right of action

A person or entity may, if otherwise permitted by the laws or rules of court of a State, bring in an appropriate court of that State—

(A) an action based on a violation of this subsection or the regulations prescribed under this subsection to enjoin such violation,

(B) an action to recover for actual monetary loss from such a violation, or to receive \$500 in damages for each such violation, whichever is greater, or

(C) both such actions.

If the court finds that the defendant willfully or knowingly violated this subsection or the regulations prescribed under this subsection, the court may, in its discretion, increase the amount of the award to an amount equal to not more than 3 times the amount available under subparagraph (B) of this paragraph.

(c) Protection of subscriber privacy rights**(1) Rulemaking proceeding required**

Within 120 days after December 20, 1991, the Commission shall initiate a rulemaking proceeding concerning the need to protect residential telephone subscribers' privacy rights to avoid receiving telephone solicitations to which they object. The proceeding shall—

(A) compare and evaluate alternative methods and procedures (including the use of electronic databases, telephone network technologies, special directory markings, industry-based or company-specific "do not call" systems, and any other alternatives, individually or in combination) for their effectiveness in protecting such privacy rights, and in terms of their cost and other advantages and disadvantages;

(B) evaluate the categories of public and private entities that would have the capacity to establish and administer such methods and procedures;

(C) consider whether different methods and procedures may apply for local telephone solicitations, such as local telephone solicitations of small businesses or holders of second class mail permits;

(D) consider whether there is a need for additional Commission authority to further restrict telephone solicitations, including those calls exempted under subsection (a)(3) of this section, and, if such a finding is made and supported by the record, propose specific restrictions to the Congress; and

(E) develop proposed regulations to implement the methods and procedures that the Commission determines are most effective and efficient to accomplish the purposes of this section.

(2) Regulations

Not later than 9 months after December 20, 1991, the Commission shall conclude the rulemaking proceeding initiated under paragraph (1) and shall prescribe regulations to implement methods and procedures for protecting the privacy rights described in such paragraph in an efficient, effective, and economic manner and without the imposition of any additional charge to telephone subscribers.

(3) Use of database permitted

The regulations required by paragraph (2) may require the establishment and operation of a single national database to compile a list of telephone numbers of residential subscribers who object to receiving telephone solicitations, and to make that compiled list and parts thereof available for purchase. If the Commission determines to require such a database, such regulations shall—

(A) specify a method by which the Commission will select an entity to administer such database;

(B) require each common carrier providing telephone exchange service, in accordance with regulations prescribed by the Commission, to inform subscribers for telephone exchange service of the opportunity to provide notification, in accordance with regulations established under this paragraph, that such

subscriber objects to receiving telephone solicitations;

(C) specify the methods by which each telephone subscriber shall be informed, by the common carrier that provides local exchange service to that subscriber, of (i) the subscriber's right to give or revoke a notification of an objection under subparagraph (A), and (ii) the methods by which such right may be exercised by the subscriber;

(D) specify the methods by which such objections shall be collected and added to the database;

(E) prohibit any residential subscriber from being charged for giving or revoking such notification or for being included in a database compiled under this section;

(F) prohibit any person from making or transmitting a telephone solicitation to the telephone number of any subscriber included in such database;

(G) specify (i) the methods by which any person desiring to make or transmit telephone solicitations will obtain access to the database, by area code or local exchange prefix, as required to avoid calling the telephone numbers of subscribers included in such database; and (ii) the costs to be recovered from such persons;

(H) specify the methods for recovering, from persons accessing such database, the costs involved in identifying, collecting, updating, disseminating, and selling, and other activities relating to, the operations of the database that are incurred by the entities carrying out those activities;

(I) specify the frequency with which such database will be updated and specify the method by which such updating will take effect for purposes of compliance with the regulations prescribed under this subsection;

(J) be designed to enable States to use the database mechanism selected by the Commission for purposes of administering or enforcing State law;

(K) prohibit the use of such database for any purpose other than compliance with the requirements of this section and any such State law and specify methods for protection of the privacy rights of persons whose numbers are included in such database; and

(L) require each common carrier providing services to any person for the purpose of making telephone solicitations to notify such person of the requirements of this section and the regulations thereunder.

(4) Considerations required for use of database method

If the Commission determines to require the database mechanism described in paragraph (3), the Commission shall—

(A) in developing procedures for gaining access to the database, consider the different needs of telemarketers conducting business on a national, regional, State, or local level;

(B) develop a fee schedule or price structure for recouping the cost of such database that recognizes such differences and—

(i) reflect the relative costs of providing a national, regional, State, or local list of

phone numbers of subscribers who object to receiving telephone solicitations;

(ii) reflect the relative costs of providing such lists on paper or electronic media; and

(iii) not place an unreasonable financial burden on small businesses; and

(C) consider (i) whether the needs of telemarketers operating on a local basis could be met through special markings of area white pages directories, and (ii) if such directories are needed as an adjunct to database lists prepared by area code and local exchange prefix.

(5) Private right of action

A person who has received more than one telephone call within any 12-month period by or on behalf of the same entity in violation of the regulations prescribed under this subsection may, if otherwise permitted by the laws or rules of court of a State bring in an appropriate court of that State—

(A) an action based on a violation of the regulations prescribed under this subsection to enjoin such violation,

(B) an action to recover for actual monetary loss from such a violation, or to receive up to \$500 in damages for each such violation, whichever is greater, or

(C) both such actions.

It shall be an affirmative defense in any action brought under this paragraph that the defendant has established and implemented, with due care, reasonable practices and procedures to effectively prevent telephone solicitations in violation of the regulations prescribed under this subsection. If the court finds that the defendant willfully or knowingly violated the regulations prescribed under this subsection, the court may, in its discretion, increase the amount of the award to an amount equal to not more than 3 times the amount available under subparagraph (B) of this paragraph.

(6) Relation to subsection (b)

The provisions of this subsection shall not be construed to permit a communication prohibited by subsection (b) of this section.

(d) Technical and procedural standards

(1) Prohibition

It shall be unlawful for any person within the United States—

(A) to initiate any communication using a telephone facsimile machine, or to make any telephone call using any automatic telephone dialing system, that does not comply with the technical and procedural standards prescribed under this subsection, or to use any telephone facsimile machine or automatic telephone dialing system in a manner that does not comply with such standards; or

(B) to use a computer or other electronic device to send any message via a telephone facsimile machine unless such person clearly marks, in a margin at the top or bottom of each transmitted page of the message or on the first page of the transmission, the date and time it is sent and an identification of

the business, other entity, or individual sending the message and the telephone number of the sending machine or of such business, other entity, or individual.

(2) Telephone facsimile machines

The Commission shall revise the regulations setting technical and procedural standards for telephone facsimile machines to require that any such machine which is manufactured after one year after December 20, 1991, clearly marks, in a margin at the top or bottom of each transmitted page or on the first page of each transmission, the date and time sent, an identification of the business, other entity, or individual sending the message, and the telephone number of the sending machine or of such business, other entity, or individual.

(3) Artificial or prerecorded voice systems

The Commission shall prescribe technical and procedural standards for systems that are used to transmit any artificial or prerecorded voice message via telephone. Such standards shall require that—

(A) all artificial or prerecorded telephone messages (i) shall, at the beginning of the message, state clearly the identity of the business, individual, or other entity initiating the call, and (ii) shall, during or after the message, state clearly the telephone number or address of such business, other entity, or individual; and

(B) any such system will automatically release the called party's line within 5 seconds of the time notification is transmitted to the system that the called party has hung up, to allow the called party's line to be used to make or receive other calls.

(e) Effect on State law

(1) State law not preempted

Except for the standards prescribed under subsection (d) of this section and subject to paragraph (2) of this subsection, nothing in this section or in the regulations prescribed under this section shall preempt any State law that imposes more restrictive intrastate requirements or regulations on, or which prohibits—

(A) the use of telephone facsimile machines or other electronic devices to send unsolicited advertisements;

(B) the use of automatic telephone dialing systems;

(C) the use of artificial or prerecorded voice messages; or

(D) the making of telephone solicitations.

(2) State use of databases

If, pursuant to subsection (c)(3) of this section, the Commission requires the establishment of a single national database of telephone numbers of subscribers who object to receiving telephone solicitations, a State or local authority may not, in its regulation of telephone solicitations, require the use of any database, list, or listing system that does not include the part of such single national database that relates to such State.

(f) Actions by States**(1) Authority of States**

Whenever the attorney general of a State, or an official or agency designated by a State, has reason to believe that any person has engaged or is engaging in a pattern or practice of telephone calls or other transmissions to residents of that State in violation of this section or the regulations prescribed under this section, the State may bring a civil action on behalf of its residents to enjoin such calls, an action to recover for actual monetary loss or receive \$500 in damages for each violation, or both such actions. If the court finds the defendant willfully or knowingly violated such regulations, the court may, in its discretion, increase the amount of the award to an amount equal to not more than 3 times the amount available under the preceding sentence.

(2) Exclusive jurisdiction of Federal courts

The district courts of the United States, the United States courts of any territory, and the District Court of the United States for the District of Columbia shall have exclusive jurisdiction over all civil actions brought under this subsection. Upon proper application, such courts shall also have jurisdiction to issue writs of mandamus, or orders affording like relief, commanding the defendant to comply with the provisions of this section or regulations prescribed under this section, including the requirement that the defendant take such action as is necessary to remove the danger of such violation. Upon a proper showing, a permanent or temporary injunction or restraining order shall be granted without bond.

(3) Rights of Commission

The State shall serve prior written notice of any such civil action upon the Commission and provide the Commission with a copy of its complaint, except in any case where such prior notice is not feasible, in which case the State shall serve such notice immediately upon instituting such action. The Commission shall have the right (A) to intervene in the action, (B) upon so intervening, to be heard on all matters arising therein, and (C) to file petitions for appeal.

(4) Venue; service of process

Any civil action brought under this subsection in a district court of the United States may be brought in the district wherein the defendant is found or is an inhabitant or transacts business or wherein the violation occurred or is occurring, and process in such cases may be served in any district in which the defendant is an inhabitant or where the defendant may be found.

(5) Investigatory powers

For purposes of bringing any civil action under this subsection, nothing in this section shall prevent the attorney general of a State, or an official or agency designated by a State, from exercising the powers conferred on the attorney general or such official by the laws of such State to conduct investigations or to administer oaths or affirmations or to compel

the attendance of witnesses or the production of documentary and other evidence.

(6) Effect on State court proceedings

Nothing contained in this subsection shall be construed to prohibit an authorized State official from proceeding in State court on the basis of an alleged violation of any general civil or criminal statute of such State.

(7) Limitation

Whenever the Commission has instituted a civil action for violation of regulations prescribed under this section, no State may, during the pendency of such action instituted by the Commission, subsequently institute a civil action against any defendant named in the Commission's complaint for any violation as alleged in the Commission's complaint.

(8) "Attorney general" defined

As used in this subsection, the term "attorney general" means the chief legal officer of a State.

1992—Subsec. (b)(2)(C). Pub. L. 102-556 added subpar. (C).

EFFECTIVE DATE; DEADLINE FOR REGULATIONS

Section 3(c) of Pub. L. 102-243, as amended by Pub. L. 102-556, title I, § 102, Oct. 28, 1992, 106 Stat. 4186, provided that:

"(1) REGULATIONS.—The Federal Communications Commission shall prescribe regulations to implement the amendments made by this section [enacting this section and amending section 152 of this title] not later than 9 months after the date of enactment of this Act [Dec. 20, 1991].

"(2) EFFECTIVE DATE.—The requirements of section 227 of the Communications Act of 1934 [this section] (as added by this section), other than the authority to prescribe regulations, shall take effect one year after the date of enactment of this Act [Dec. 20, 1991]."

CONGRESSIONAL STATEMENT OF FINDINGS

Section 2 of Pub. L. 102-243 provided that: "The Congress finds that:

"(1) The use of the telephone to market goods and services to the home and other businesses is now pervasive due to the increased use of cost-effective telemarketing techniques.

"(2) Over 30,000 businesses actively telemarket goods and services to business and residential customers.

"(3) More than 300,000 solicitors call more than 18,000,000 Americans every day.

"(4) Total United States sales generated through telemarketing amounted to \$435,000,000,000 in 1990, a more than four-fold increase since 1984.

"(5) Unrestricted telemarketing, however, can be an intrusive invasion of privacy and, when an emergency or medical assistance telephone line is seized, a risk to public safety.

"(6) Many consumers are outraged over the proliferation of intrusive, nuisance calls to their homes from telemarketers.

“(7) Over half the States now have statutes restricting various uses of the telephone for marketing, but telemarketers can evade their prohibitions through interstate operations; therefore, Federal law is needed to control residential telemarketing practices.

“(8) The Constitution does not prohibit restrictions on commercial telemarketing solicitations.

“(9) Individuals’ privacy rights, public safety interests, and commercial freedoms of speech and trade must be balanced in a way that protects the privacy of individuals and permits legitimate telemarketing practices.

“(10) Evidence compiled by the Congress indicates that residential telephone subscribers consider automated or prerecorded telephone calls, regardless of the content or the initiator of the message, to be a nuisance and an invasion of privacy.

“(11) Technologies that might allow consumers to avoid receiving such calls are not universally available, are costly, are unlikely to be enforced, or place an inordinate burden on the consumer.

“(12) Banning such automated or prerecorded telephone calls to the home, except when the receiving party consents to receiving the call or when such calls are necessary in an emergency situation affecting the health and safety of the consumer, is the only effective means of protecting telephone consumers from this nuisance and privacy invasion.

“(13) While the evidence presented to the Congress indicates that automated or prerecorded calls are a nuisance and an invasion of privacy, regardless of the type of call, the Federal Communications Commission should have the flexibility to design different rules for those types of automated or prerecorded calls that it finds are not considered a nuisance or invasion of privacy, or for noncommercial calls, consistent with the free speech protections embodied in the First Amendment of the Constitution.

“(14) Businesses also have complained to the Congress and the Federal Communications Commission that automated or prerecorded telephone calls are a nuisance, are an invasion of privacy, and interfere with interstate commerce.

“(15) The Federal Communications Commission should consider adopting reasonable restrictions on automated or prerecorded calls to businesses as well as to the home, consistent with the constitutional protections of free speech.”

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 152 of this title.

§ 228. Regulation of carrier offering of pay-per-call services

(a) Purpose

It is the purpose of this section—

(1) to put into effect a system of national regulation and review that will oversee interstate pay-per-call services; and

(2) to recognize the Commission’s authority to prescribe regulations and enforcement procedures and conduct oversight to afford reasonable protection to consumers of pay-per-call services and to assure that violations of Federal law do not occur.

(b) General authority for regulations

The Commission by regulation shall, within 270 days after October 28, 1992, establish a system for oversight and regulation of pay-per-call services in order to provide for the protection of consumers in accordance with this chapter and other applicable Federal statutes and regulations. The Commission’s final rules shall—

(1) include measures that provide a consumer of pay-per-call services with adequate

and clear descriptions of the rights of the caller;

(2) define the obligations of common carriers with respect to the provision of pay-per-call services;

(3) include requirements on such carriers to protect against abusive practices by providers of pay-per-call services;

(4) identify procedures by which common carriers and providers of pay-per-call services may take affirmative steps to protect against nonpayment of legitimate charges; and

(5) require that any service described in subparagraphs (A) and (B) of subsection (i)(1) of this section be offered only through the use of certain telephone number prefixes and area codes.

(c) Common carrier obligations

Within 270 days after October 28, 1992, the Commission shall, by regulation, establish the following requirements for common carriers:

(1) Contractual obligations to comply

Any common carrier assigning to a provider of pay-per-call services a telephone number with a prefix or area code designated by the Commission in accordance with subsection (b)(5) of this section shall require by contract or tariff that such provider comply with the provisions of titles II and III of the Telephone Disclosure and Dispute Resolution Act [15 U.S.C. 5711 et seq.; 5721 et seq.] and the regulations prescribed by the Federal Trade Commission pursuant to those titles.

(2) Information availability

A common carrier that by tariff or contract assigns a telephone number with a prefix or area code designated by the Commission in accordance with subsection (b)(5) of this section to a provider of a pay-per-call service shall make readily available on request to Federal and State agencies and other interested persons—

(A) a list of the telephone numbers for each of the pay-per-call services it carries;

(B) a short description of each such service;

(C) a statement of the total cost or the cost per minute and any other fees for each such service;

(D) a statement of the pay-per-call service’s name, business address, and business telephone; and

(E) such other information as the Commission considers necessary for the enforcement of this section and other applicable Federal statutes and regulations.

(3) Compliance procedures

A common carrier that by contract or tariff assigns a telephone number with a prefix or area code designated by the Commission in accordance with subsection (b)(5) of this section to a provider of pay-per-call services shall terminate, in accordance with procedures specified in such regulations, the offering of a pay-per-call service of a provider if the carrier knows or reasonably should know that such service is not provided in compliance with title II or III of the Telephone Disclosure and

Dispute Resolution Act [15 U.S.C. 5711 et seq.; 5721 et seq.] or the regulations prescribed by the Federal Trade Commission pursuant to such titles.

(4) Subscriber disconnection prohibited

A common carrier shall not disconnect or interrupt a subscriber's local exchange telephone service or long distance telephone service because of nonpayment of charges for any pay-per-call service.

(5) Blocking and presubscription

A common carrier that provides local exchange service shall—

(A) offer telephone subscribers (where technically feasible) the option of blocking access from their telephone number to all, or to certain specific, prefixes or area codes used by pay-per-call services, which option—

(i) shall be offered at no charge (I) to all subscribers for a period of 60 days after the issuance of the regulations under subsection (b) of this section, and (II) to any subscriber who subscribes to a new telephone number until 60 days after the time the new telephone number is effective; and

(ii) shall otherwise be offered at a reasonable fee; and

(B) offer telephone subscribers (where the Commission determines it is technically and economically feasible), in combination with the blocking option described under subparagraph (A), the option of presubscribing to or blocking only specific pay-per-call services for a reasonable one-time charge.

The regulations prescribed under subparagraph (A)(i) of this paragraph may permit the costs of such blocking to be recovered by contract or tariff, but such costs may not be recovered from local or long-distance ratepayers. Nothing in this subsection precludes a common carrier from filing its rates and regulations regarding blocking and presubscription in its interstate tariffs.

(6) Verification of charitable status

A common carrier that assigns by contract or tariff a telephone number with a prefix or area code designated by the Commission in accordance with subsection (b)(5) of this section to a provider of pay-per-call services that the carrier knows or reasonably should know is engaged in soliciting charitable contributions shall obtain from such provider proof of the tax exempt status of any person or organization for which contributions are solicited.

(7) Billing for 800 calls

A common carrier shall prohibit by tariff or contract the use of any 800 telephone number, or other telephone number advertised or widely understood to be toll free, in a manner that would result in—

(A) the calling party being assessed, by virtue of completing the call, a charge for the call;

(B) the calling party being connected to a pay-per-call service;

(C) the calling party being charged for information conveyed during the call unless

the calling party has a preexisting agreement to be charged for the information or discloses a credit or charge card number during the call; or

(D) the calling party being called back collect for the provision of audio information services or simultaneous voice conversation services.

(d) Billing and collection practices

The regulations required by this section shall require that any common carrier that by tariff or contract assigns a telephone number with a prefix or area code designated by the Commission in accordance with subsection (b)(5) of this section to a provider of a pay-per-call service and that offers billing and collection services to such provider—

(1) ensure that a subscriber is not billed—

(A) for pay-per-call services that such carrier knows or reasonably should know was provided in violation of the regulations issued pursuant to title II of the Telephone Disclosure and Dispute Resolution Act [15 U.S.C. 5711 et seq.]; or

(B) under such other circumstances as the Commission determines necessary in order to protect subscribers from abusive practices;

(2) establish a local or a toll-free telephone number to answer questions and provide information on subscribers' rights and obligations with regard to their use of pay-per-call services and to provide to callers the name and mailing address of any provider of pay-per-call services offered by the common carrier;

(3) within 60 days after the issuance of final regulations pursuant to subsection (b) of this section, provide, either directly or through contract with any local exchange carrier that provides billing or collection services to the common carrier, to all of such common carrier's telephone subscribers, to all new subscribers, and to all subscribers requesting service at a new location, a disclosure statement that sets forth all rights and obligations of the subscriber and the carrier with respect to the use and payment for pay-per-call services, including the right of a subscriber not to be billed and the applicable blocking option; and

(4) in any billing to telephone subscribers that includes charges for any pay-per-call service—

(A) display any charges for pay-per-call services in a part of the subscriber's bill that is identified as not being related to local and long distance telephone charges;

(B) for each charge so displayed, specify, at a minimum, the type of service, the amount of the charge, and the date, time, and duration of the call; and

(C) identify the toll-free number established pursuant to paragraph (2).

(e) Liability

(1) Common carriers not liable for transmission or billing

No common carrier shall be liable for a criminal or civil sanction or penalty solely because the carrier provided transmission or

billing and collection for a pay-per-call service unless the carrier knew or reasonably should have known that such service was provided in violation of a provision of, or regulation prescribed pursuant to, title II or III of the Telephone Disclosure and Dispute Resolution Act [15 U.S.C. 5711 et seq.; 5721 et seq.] or any other Federal law. This paragraph shall not prevent the Commission from imposing a sanction or penalty on a common carrier for a violation by that carrier of a regulation prescribed under this section.

(2) Civil liability

No cause of action may be brought in any court or administrative agency against any common carrier or any of its affiliates on account of any act of the carrier or affiliate to terminate any pay-per-call service in order to comply with the regulations prescribed under this section, title II or III of the Telephone Disclosure and Dispute Resolution Act [15 U.S.C. 5711 et seq.; 5721 et seq.], or any other Federal law unless the complainant demonstrates that the carrier or affiliate did not act in good faith.

(f) Special provisions

(1) Consumer refund requirements

The regulations required by subsection (d) of this section shall establish procedures, consistent with the provisions of titles II and III of the Telephone Disclosure and Dispute Resolution Act [15 U.S.C. 5711 et seq.; 5721 et seq.], to ensure that carriers and other parties providing billing and collection services with respect to pay-per-call services provide appropriate refunds to subscribers who have been billed for pay-per-call services pursuant to programs that have been found to have violated this section or such regulations, any provision of, or regulations prescribed pursuant to, title II or III of the Telephone Disclosure and Dispute Resolution Act, or any other Federal law.

(2) Recovery of costs

The regulations prescribed by the Commission under this section shall permit a common carrier to recover its cost of complying with such regulations from providers of pay-per-call services, but shall not permit such costs to be recovered from local or long distance rate-payers.

(3) Recommendations on data pay-per-call

The Commission, within one year after October 28, 1992, shall submit to the Congress the Commission's recommendations with respect to the extension of regulations under this section to persons that provide, for a per-call charge, data services that are not pay-per-call services.

(g) Effect on other law

(1) No preemption of election law

Nothing in this section shall relieve any provider of pay-per-call services, common carrier, local exchange carrier, or any other person from the obligation to comply with Federal, State, and local election statutes and regulations.

(2) Consumer protection laws

Nothing in this section shall relieve any provider of pay-per-call services, common carrier, local exchange carrier, or any other person from the obligation to comply with any Federal, State, or local statute or regulation relating to consumer protection or unfair trade.

(3) Gambling laws

Nothing in this section shall preclude any State from enforcing its statutes and regulations with regard to lotteries, wagering, betting, and other gambling activities.

(4) State authority

Nothing in this section shall preclude any State from enacting and enforcing additional and complementary oversight and regulatory systems or procedures, or both, so long as such systems and procedures govern intrastate services and do not significantly impede the enforcement of this section or other Federal statutes.

(5) Enforcement of existing regulations

Nothing in this section shall be construed to prohibit the Commission from enforcing regulations prescribed prior to October 28, 1992, in fulfilling the requirements of this section to the extent that such regulations are consistent with the provisions of this section.

(h) Effect on dial-a-porn prohibitions

Nothing in this section shall affect the provisions of section 223 of this title.

(i) "Pay-per-call services" defined

For purposes of this section—

(1) The term "pay-per-call services" means any service—

(A) in which any person provides or purports to provide—

(i) audio information or audio entertainment produced or packaged by such person;

(ii) access to simultaneous voice conversation services; or

(iii) any service, including the provision of a product, the charges for which are assessed on the basis of the completion of the call;

(B) for which the caller pays a per-call or per-time-interval charge that is greater than, or in addition to, the charge for transmission of the call; and

(C) which is accessed through use of a 900 telephone number or other prefix or area code designated by the Commission in accordance with subsection (b)(5) of this section.

(2) Such term does not include directory services provided by a common carrier or its affiliate or by a local exchange carrier or its affiliate, or any service the charge for which is tariffed, or any service for which users are assessed charges only after entering into a pre-subscription or comparable arrangement with the provider of such service.

(b) Systems security and integrity

The rules prescribed pursuant to subsection (a) of this section shall include rules to implement section 105 of the Communications Assistance for Law Enforcement Act [47 U.S.C. 1004] that require common carriers—

(d) Penalties

For purposes of this chapter, a violation by an officer or employee of any policy or procedure adopted by a common carrier pursuant to subsection (b) of this section, or of a rule prescribed by the Commission pursuant to subsection (a) of

§ 302a. Devices which interfere with radio reception

(a) Regulations

The Commission may, consistent with the public interest, convenience, and necessity, make reasonable regulations (1) governing the interference potential of devices which in their operation are capable of emitting radio frequency energy by radiation, conduction, or other means in sufficient degree to cause harm-

ful interference to radio communications; and (2) establishing minimum performance standards for home electronic equipment and systems to reduce their susceptibility to interference from radio frequency energy. Such regulations shall be applicable to the manufacture, import, sale, offer for sale, or shipment of such devices and home electronic equipment and systems, and to the use of such devices.

(b) Restrictions

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 510 of this title.

§ 303. Powers and duties of Commission

Except as otherwise provided in this chapter, the Commission from time to time, as public convenience, interest, or necessity requires, shall—

- (a) Classify radio stations;
- (b) Prescribe the nature of the service to be rendered by each class of licensed stations and each station within any class;
- (c) Assign bands of frequencies to the various classes of stations, and assign frequencies for each individual station and determine the power which each station shall use and the time during which it may operate;
- (d) Determine the location of classes of stations or individual stations;
- (e) Regulate the kind of apparatus to be used with respect to its external effects and the purity and sharpness of the emissions from each station and from the apparatus therein;
- (f) Make such regulations not inconsistent with law as it may deem necessary to prevent interference between stations and to carry out the provisions of this chapter: *Provided, however*, That changes in the frequencies, authorized power, or in the times of operation of any station, shall not be made without the consent of the station licensee unless, after a public hearing, the Commission shall determine that such changes will promote public convenience or interest or will serve public necessity, or the provisions of this chapter will be more fully complied with;
- (g) Study new uses for radio, provide for experimental uses of frequencies, and generally

encourage the larger and more effective use of radio in the public interest;

(h) Have authority to establish areas or zones to be served by any station;

(i) Have authority to make special regulations applicable to radio stations engaged in chain broadcasting;

(j) Have authority to make general rules and regulations requiring stations to keep such records of programs, transmissions of energy, communications, or signals as it may deem desirable;

(k) Have authority to exclude from the requirements of any regulations in whole or in part any radio station upon railroad rolling stock, or to modify such regulations in its discretion;

(l)(1) Have authority to prescribe the qualifications of station operators, to classify them according to the duties to be performed, to fix the forms of such licenses, and to issue them to persons who are found to be qualified by the Commission and who otherwise are legally eligible for employment in the United States, except that such requirement relating to eligibility for employment in the United States shall not apply in the case of licenses issued by the Commission to (A) persons holding United States pilot certificates; or (B) persons holding foreign aircraft pilot certificates which are valid in the United States, if the foreign government involved has entered into a reciprocal agreement under which such foreign government does not impose any similar requirement relating to eligibility for employment upon citizens of the United States;

(2) Notwithstanding paragraph (1) of this subsection, an individual to whom a radio station is licensed under the provisions of this chapter may be issued an operator's license to operate that station.

(3) In addition to amateur operator licenses which the Commission may issue to aliens pursuant to paragraph (2) of this subsection, and notwithstanding section 301 of this title and paragraph (1) of this subsection, the Commission may issue authorizations, under such conditions and terms as it may prescribe, to permit an alien licensed by his government as an amateur radio operator to operate his amateur radio station licensed by his government in the United States, its possessions, and the Commonwealth of Puerto Rico provided there is in effect a multilateral or bilateral agreement, to which the United States and the alien's government are parties, for such operation on a reciprocal basis by United States amateur radio operators. Other provisions of this chapter and of subchapter II of chapter 5, and chapter 7, of title 5 shall not be applicable to any request or application for or modification, suspension, or cancellation of any such authorization.

(m)(1) Have authority to suspend the license of any operator upon proof sufficient to satisfy the Commission that the licensee—

- (A) has violated, or caused, aided, or abetted the violation of, any provision of any Act, treaty, or convention binding on the United States, which the Commission is authorized to administer, or any regulation made by the Commission under any such Act, treaty, or convention; or

(B) has failed to carry out a lawful order of the master or person lawfully in charge of the ship or aircraft on which he is employed; or

(C) has willfully damaged or permitted radio apparatus or installations to be damaged; or

(D) has transmitted superfluous radio communications or signals or communications containing profane or obscene words, language, or meaning, or has knowingly transmitted—

(1) false or deceptive signals or communications, or

(2) a call signal or letter which has not been assigned by proper authority to the station he is operating; or

(E) has willfully or maliciously interfered with any other radio communications or signals; or

(F) has obtained or attempted to obtain, or has assisted another to obtain or attempt to obtain, an operator's license by fraudulent means.

(2) No order of suspension of any operator's license shall take effect until fifteen days' notice in writing thereof, stating the cause for the proposed suspension, has been given to the operator licensee who may make written application to the Commission at any time within said fifteen days for a hearing upon such order. The notice to the operator licensee shall not be effective until actually received by him, and from that time he shall have fifteen days in which to mail the said application. In the event that physical conditions prevent mailing of the application at the expiration of the fifteen-day period, the application shall then be mailed as soon as possible thereafter, accompanied by a satisfactory explanation of the delay. Upon receipt by the Commission of such application for hearing, said order of suspension shall be held in abeyance until the conclusion of the hearing which shall be conducted under such rules as the Commission may prescribe. Upon the conclusion of said hearing the Commission may affirm, modify, or revoke said order of suspension.

(n) Have authority to inspect all radio installations associated with stations required to be licensed by any Act, or which the Commission by rule has authorized to operate without a license under section 307(e)(1) of this title, or which are subject to the provisions of any Act, treaty, or convention binding on the United States, to ascertain whether in construction, installation, and operation they conform to the requirements of the rules and regulations of the Commission, the provisions of any Act, the terms of any treaty or convention binding on the United States, and the conditions of the license or other instrument of authorization under which they are constructed, installed, or operated.

(o) Have authority to designate call letters of all stations;

(p) Have authority to cause to be published such call letters and such other announcements and data as in the judgment of the Commission may be required for the efficient operation of radio stations subject to the jurisdiction of the United States and for the proper enforcement of this chapter;

(q) Have authority to require the painting and/or illumination of radio towers if and when in its judgment such towers constitute, or there is a reasonable possibility that they may constitute, a menace to air navigation. The permittee or licensee, and the tower owner in any case in which the owner is not the permittee or licensee, shall maintain the painting and/or illumination of the tower as prescribed by the Commission pursuant to this section. In the event that the tower ceases to be licensed by the Commission for the transmission of radio energy, the owner of the tower shall maintain the prescribed painting and/or illumination of such tower until it is dismantled, and the Commission may require the owner to dismantle and remove the tower when the Administrator of the Federal Aviation Agency determines that there is a reasonable possibility that it may constitute a menace to air navigation.

(r) Make such rules and regulations and prescribe such restrictions and conditions, not inconsistent with law, as may be necessary to carry out the provisions of this chapter, or any international radio or wire communications treaty or convention, or regulations annexed thereto, including any treaty or convention insofar as it relates to the use of radio, to which the United States is or may hereafter become a party.

(s) Have authority to require that apparatus designed to receive television pictures broadcast simultaneously with sound be capable of adequately receiving all frequencies allocated by the Commission to television broadcasting when such apparatus is shipped in interstate commerce, or is imported from any foreign country into the United States, for sale or resale to the public.

(t) Notwithstanding the provisions of section 301(e) of this title, have authority, in any case in which an aircraft registered in the United States is operated (pursuant to a lease, charter, or similar arrangement) by an aircraft operator who is subject to regulation by the government of a foreign nation, to enter into an agreement with such government under which the Commission shall recognize and accept any radio station licenses and radio operator licenses issued by such government with respect to such aircraft.

(u) Require that apparatus designed to receive television pictures broadcast simultaneously with sound be equipped with built-in decoder circuitry designed to display closed-captioned television transmissions when such apparatus is manufactured in the United States or imported for use in the United States, and its television picture screen is 13 inches or greater in size.

"(3) the financial support of advertisers assists in the provision of programming to children;

"(4) special safeguards are appropriate to protect children from overcommercialization on television;

"(5) television station operators and licensees should follow practices in connection with children's television programming and advertising that take into consideration the characteristics of this child audience; and

[The Office of Telecommunications Policy was abolished and its functions transferred to the President and the Secretary of Commerce by secs. 3 and 5 of Reorg. Plan No. 1 of 1977, set out in the Appendix to Title 5, Government Organization and Employees.]

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

We live in a time when the technology of telecommunications is undergoing rapid change which will dramatically affect the whole of our society. It has long been recognized that the executive branch of the Federal government should be better equipped to deal with the issues which arise from telecommunications growth. As the largest single user of the nation's telecommunications facilities, the Federal government must also manage its internal communications operations in the most effective manner possible.

Accordingly, I am today transmitting to the Congress Reorganization Plan No. 1 of 1970, prepared in accordance with chapter 9 of title 5 of the United States Code.

That plan would establish a new Office of Telecommunications Policy in the Executive Office of the President. The new unit would be headed by a Director and a Deputy Director who would be appointed by the President with the advice and consent of the Senate. The existing office held by the Director of Telecommunications Management in the Office of Emergency Preparedness would be abolished.

In addition to the functions which are transferred to it by the reorganization plan, the new Office would perform certain other duties which I intend to assign to it by Executive order as soon as the reorganization plan takes effect. That order would delegate to the new Office essentially those functions which are now assigned to the Director of Telecommunications Management. The Office of Telecommunications Policy would be assisted in its research and analysis responsibilities by the agencies and departments of the Executive Branch including another new office, located in the Department of Commerce.

The new Office of Telecommunications Policy would play three essential roles:

1. It would serve as the President's principal adviser on telecommunications policy, helping to formulate government policies concerning a wide range of domestic and international telecommunications issues and helping to develop plans and programs which take full advantage of the nation's technological capabilities. The speed of economic and technological advance in

our time means that new questions concerning communications are constantly arising, questions on which the government must be well informed and well advised. The new Office will enable the President and all government officials to share more fully in the experience, the insights, and the forecasts of government and non-government experts.

2. The Office of Telecommunications Policy would help formulate policies and coordinate operations for the Federal government's own vast communications systems. It would, for example, set guidelines for the various departments and agencies concerning their communications equipment and services. It would regularly review the ability of government communications systems to meet the security needs of the nation and to perform effectively in time of emergency. The Office would direct the assignment of those portions of the radio spectrum which are reserved for government use, carry out responsibilities conferred on the President by the Communications Satellite Act, advise State and local governments, and provide policy direction for the National Communications System.

3. Finally, the new Office would enable the executive branch to speak with a clearer voice and to act as a more effective partner in discussions of communications policy with both the Congress and the Federal Communications Commission. This action would take away none of the prerogatives or functions assigned to the Federal Communications Commission by the Congress. It is my hope, however, that the new Office and the Federal Communications Commission would cooperate in achieving certain reforms in telecommunications policy, especially in their procedures for allocating portions of the radio spectrum for government and civilian use. Our current procedures must be more flexible if they are to deal adequately with problems such as the worsening spectrum shortage.

Each reorganization included in the plan which accompanies this message is necessary to accomplish one or more of the purposes set forth in section 901(a) of title 5 of the United States Code. In particular, the plan is responsive to section 901(a)(1), "to promote the better execution of the laws, the more effective management of the executive branch and of its agencies and functions, and the expeditious administration of the public business;" and section 901(a)(3), "to increase the efficiency of the operations of the government to the fullest extent practicable."

The reorganization provided for in this plan make necessary the appointment and compensation of new officers, as specified in sections 3(a) and 3(b) of the plan. The rates of compensation fixed for these officers are comparable to those fixed for other officers in the executive branch who have similar responsibilities.

This plan should result in the more efficient operation of the government. It is not practical, however, to itemize or aggregate the exact expenditure reductions which will result from this action.

The public interest requires that government policies concerning telecommunications be formulated with as much sophistication and vision as possible. This reorganization plan—and the executive order which would follow it—are necessary instruments if the government is to respond adequately to the challenges and opportunities presented by the rapid pace of change in communications. I urge that the Congress allow this plan to become effective so that these necessary reforms can be accomplished.

RICHARD NIXON.

THE WHITE HOUSE, February 9, 1970.

6-1. TRANSFER PROVISIONS

6-101. [Revoked. Ex. Ord. No. 12472, Apr. 3, 1984, 49 F.R. 13471.]

6-102. The primary responsibility for performing all administrative support and service functions that are related to functions transferred from the Office of Telecommunications Policy and its Director to the President, including those functions delegated or assigned within the Executive Office of the President, are transferred to the Office of Administration. The Domestic Policy Staff shall perform such functions related to the preparation of Presidential telecommunications policy options as the President may from time to time direct.

6-103. The records, property, personnel, and unexpended balances of appropriations, available or to be made available, which relate to the functions transferred, assigned, or delegated as provided in this Order are hereby transferred as appropriate.

6-104. The Director of the Office of Management and Budget shall make such determinations, issue such orders, and take all actions necessary or appropriate to effectuate the transfers or reassignments provided in this Order, including the transfer of funds, records, property, and personnel.

6-2. AMENDMENTS

In order to reflect the transfers provided by this Order, the following conforming amendments and revocations are ordered:

6-201. Section 306 of Executive Order No. 11051, as amended [50 App. U.S.C. 2271 note], is further amended to read:

“Sec. 306. *Emergency telecommunications.* The Administrator of General Services shall be responsible for coordinating with the National Security Council in planning for the mobilization of the Nation's telecommunications resources in time of national emergency.”

6-202. Executive Order No. 11490, as amended [formerly set out as a note under section 2251 of Title 50, Appendix, War and National Defense] is further amended by:

(1) substituting “National Security Council” for “Office of Telecommunications Policy (35 FR 6421)” in Section 401(27), and

(2) substituting the number of this Order for “11556” and deleting references to Executive Order No. 10705 [47 U.S.C. 606 note] in Sections 1802 and 2002(3).

6-203. Executive Order No. 11725, as amended [50 App. U.S.C. 2271 note], is further amended by substituting the number and date of this Order for the reference to Executive Order No. 11556 of September 4, 1970 in Section 3(16).

6-204. Executive Orders No. 10705, as amended [47 U.S.C. 606 note], No. 11191, as amended [47 U.S.C. 721 note] and No. 11556, as amended, are revoked.

6-3. GENERAL

6-301. All Executive agencies to which functions are assigned pursuant to this Order shall issue such rules and regulations as may be necessary to carry them out.

6-302. All Executive agencies are authorized and directed to cooperate with the departments and agencies to which functions are assigned pursuant to this Order and to furnish them such information, support and assistance, not inconsistent with law, as they may require in the performance of those functions.

6-303. (a) Nothing in this Order reassigns any function assigned any agency under the Federal Property and Administrative Services Act of 1949, as amended [see Short Title note set out under 40 U.S.C. 471], nor does anything in this Order impair the existing authority of the Administrator of General Services to provide and operate telecommunications services and to prescribe policies and methods of procurement, or impair the policy and oversight roles of the Office of Management and Budget.

(b) In carrying out the functions in this Order, the Secretary of Commerce shall coordinate activities as appropriate with the Federal Communications Commission and make appropriate recommendations to it as the regulator of the private sector. Nothing in this Order reassigns any function vested by law in the Federal Communications Commission.

6-304. This Order shall be effective March 26, 1978.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 923 of this title; title 14 section 829; title 22 section 1465bb.

§ 306. Foreign ships; application of section 301

Section 301 of this title shall not apply to any person sending radio communications or signals on a foreign ship while the same is within the jurisdiction of the United States, but such communications or signals shall be transmitted only in accordance with such regulations designed to prevent interference as may be promulgated under the authority of this chapter.

(June 19, 1934, ch. 652, title III, § 306, 48 Stat. 1083.)

§ 307. Licenses

(a) Grant

The Commission, if public convenience, interest, or necessity will be served thereby, subject to the limitations of this chapter, shall grant to any applicant therefor a station license provided for by this chapter.

(b) Allocation of facilities

In considering applications for licenses, and modifications and renewals thereof, when and insofar as there is demand for the same, the Commission shall make such distribution of licenses, frequencies, hours of operation, and of power among the several States and communities as to provide a fair, efficient, and equitable distribution of radio service to each of the same.

(c) Terms

No license granted for the operation of a television broadcasting station shall be for a longer term than five years and no license so granted for any other class of station (other than a radio broadcasting station) shall be for a longer term than ten years, and any license granted may be revoked as hereinafter provided. Each license granted for the operation of a radio broadcasting station shall be for a term of not to exceed seven years. The term of any license for the operation of any auxiliary broadcast station or equipment which can be used only in conjunc-

tion with a primary radio, television, or translator station shall be concurrent with the term of the license for such primary radio, television, or translator station. Upon the expiration of any license, upon application therefor, a renewal of such license may be granted from time to time for a term of not to exceed five years in the case of television broadcasting licenses, for a term of not to exceed seven years in the case of radio broadcasting station licenses, and for a term of not to exceed ten years in the case of other licenses, if the Commission finds that public interest, convenience, and necessity would be served thereby. In order to expedite action on applications for renewal of broadcasting station licenses and in order to avoid needless expense to applicants for such renewals, the Commission shall not require any such applicant to file any information which previously has been furnished to the Commission or which is not directly material to the considerations that affect the granting or denial of such application, but the Commission may require any new or additional facts it deems necessary to make its findings. Pending any hearing and final decision on such an application and the disposition of any petition for rehearing pursuant to section 405 of this title, the Commission shall continue such license in effect. Consistently with the foregoing provisions of this subsection, the Commission may by rule prescribe the period or periods for which licenses shall be granted and renewed for particular classes of stations, but the Commission may not adopt or follow any rule which would preclude it, in any case involving a station of a particular class, from granting or renewing a license for a shorter period than that prescribed for stations of such class if, in its judgment, public interest, convenience, or necessity would be served by such action.

(d) Renewals

No renewal of an existing station license in the broadcast or the common carrier services shall be granted more than thirty days prior to the expiration of the original license.

(e) Operation of certain radio stations without individual licenses

(1) Notwithstanding any licensing requirement established in this chapter, the Commission may by rule authorize the operation of radio stations without individual licenses in the radio control service and the citizens band radio service if the Commission determines that such authorization serves the public interest, convenience, and necessity.

(2) Any radio station operator who is authorized by the Commission under paragraph (1) to operate without an individual license shall comply with all other provisions of this chapter and with rules prescribed by the Commission under this chapter.

(3) For purposes of this subsection, the terms "radio control service" and "citizens band radio service" shall have the meanings given them by the Commission by rule.

AMENDMENTS

1982—Subsec. (c). Pub. L. 97-259, §112, redesignated subsec. (d) as (c), substituted “ten years” for “five years” after “station shall be for a longer term than” and “term of not to exceed”, and inserted provision that the term of any license for the operation of any auxiliary broadcast station or equipment which can be used only in conjunction with a primary radio, television, or translator station shall be concurrent with the term of the license for such primary radio, television, or translator station. Former subsec. (c), which required the Commission to study proposal that Congress allocate fixed percentages of radio broadcasting facilities to nonprofit activities and report recommendations, with reasons, to Congress not later than Feb. 1, 1935, was struck out.

Subsec. (d). Pub. L. 97-259, §112(a), redesignated subsec. (e) as (d). Former subsec. (d) redesignated (c).

Subsec. (e). Pub. L. 97-259, §§112(a), 113(a), added subsec. (e) and redesignated former subsec. (e) as (d).

1981—Subsec. (d). Pub. L. 97-35 substituted provisions authorizing term of five years for a television broadcasting station license, seven years for a radio broadcasting station license, and five years for any other class of license, with comparable provisions for renewal, for provisions authorizing term of three years for a broadcasting station license, and five years for any other class of station license, with comparable provisions for renewal.

1962—Subsec. (e). Pub. L. 87-439 inserted “in the broadcast or the common carrier services” before “shall be granted”.

1960—Subsec. (d). Pub. L. 86-752 inserted last sentence dealing with the Commission’s authority to grant licenses for periods shorter than 3 years.

1952—Subsec. (d). Act July 16, 1952, provided that upon the expiration of any license, any renewal applied for may be granted “if the Commission finds that public interest, convenience, and necessity would be served thereby”, and provided that pending a hearing and final decision on an application for renewal and the disposition of any petition for a rehearing the Commission shall continue the license in effect.

1936—Subsec. (b). Act June 5, 1936, amended subsec. (b) generally.

EFFECTIVE DATE OF 1981 AMENDMENT

Section 1241(b) of Pub. L. 97-35 provided that: “The amendments made in subsection (a) [amending this section] shall apply to television and radio broadcasting licenses granted or renewed by the Federal Communications Commission after the date of the enactment of this Act [Aug. 13, 1981].”

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 303, 309, 331, 503 of this title.

§ 308. Requirements for license

(a) Writing; exceptions

The Commission may grant construction permits and station licenses, or modifications or renewals thereof, only upon written application therefor received by it: *Provided*, That (1) in cases of emergency found by the Commission involving danger to life or property or due to damage to equipment, or (2) during a national emergency proclaimed by the President or declared by the Congress and during the continuance of any war in which the United States is engaged and when such action is necessary for the national defense or security or otherwise in fur-

therance of the war effort, or (3) in cases of emergency where the Commission finds, in the nonbroadcast services, that it would not be feasible to secure renewal applications from existing licensees or otherwise to follow normal licensing procedure, the Commission may grant construction permits and station licenses, or modifications or renewals thereof, during the emergency so found by the Commission or during the continuance of any such national emergency or war, in such manner and upon such terms and conditions as the Commission shall by regulation prescribe, and without the filing of a formal application, but no authorization so granted shall continue in effect beyond the period of the emergency or war requiring it: *Provided further*, That the Commission may issue by cable, telegraph, or radio a permit for the operation of a station on a vessel of the United States at sea, effective in lieu of a license until said vessel shall return to a port of the continental United States.

(b) Conditions

All applications for station licenses, or modifications or renewals thereof, shall set forth such facts as the Commission by regulation may prescribe as to the citizenship, character, and financial, technical, and other qualifications of the applicant to operate the station; the ownership and location of the proposed station and of the stations, if any, with which it is proposed to communicate; the frequencies and the power desired to be used; the hours of the day or other periods of time during which it is proposed to operate the station; the purposes for which the station is to be used; and such other information as it may require. The Commission, at any time after the filing of such original application and during the term of any such license, may require from an applicant or licensee further written statements of fact to enable it to determine whether such original application should be granted or denied or such license revoked. Such application and/or such statement of fact shall be signed by the applicant and/or licensee in any manner or form, including by electronic means, as the Commission may prescribe by regulation.

(c) Commercial communication

The Commission in granting any license for a station intended or used for commercial communication between the United States or any Territory or possession, continental or insular, subject to the jurisdiction of the United States, and any foreign country, may impose any terms, conditions, or restrictions authorized to be imposed with respect to submarine-cable licenses by section 35 of this title.

1952—Subsec. (a). Act July 16, 1952, §6(a), provided that the Commission may grant construction permits and station licenses, or modifications or renewals, only upon written application except that during war or emergency periods no formal application need be filed.

Subsec. (b). Act July 16, 1952, §6(b), substituted “All applications for station licenses or modifications or renewals thereof, shall set forth” for “All such applications shall set forth”.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 309, 310, 312 of this title.

§ 309. Application for license

(a) Considerations in granting application

Subject to the provisions of this section, the Commission shall determine, in the case of each application filed with it to which section 308 of this title applies, whether the public interest, convenience, and necessity will be served by the granting of such application, and, if the Commission, upon examination of such application and upon consideration of such other matters as the Commission may officially notice, shall find that public interest, convenience, and necessity would be served by the granting thereof, it shall grant such application.

(b) Time of granting application

Except as provided in subsection (c) of this section, no such application—

(1) for an instrument of authorization in the case of a station in the broadcasting or common carrier services, or

(2) for an instrument of authorization in the case of a station in any of the following categories:

(A) fixed point-to-point microwave stations (exclusive of control and relay stations used as integral parts of mobile radio systems),

(B) industrial radio positioning stations for which frequencies are assigned on an exclusive basis,

(C) aeronautical en route stations,

(D) aeronautical advisory stations,

(E) airdrome control stations,

(F) aeronautical fixed stations, and

(G) such other stations or classes of stations, not in the broadcasting or common carrier services, as the Commission shall by rule prescribe,

shall be granted by the Commission earlier than thirty days following issuance of public notice by the Commission of the acceptance for filing of such application or of any substantial amendment thereof.

(c) Applications not affected by subsection (b)

Subsection (b) of this section shall not apply—

(1) to any minor amendment of an application to which such subsection is applicable, or

(2) to any application for—

(A) a minor change in the facilities of an authorized station,

(B) consent to an involuntary assignment or transfer under section 310(b) of this title

or to an assignment or transfer thereunder which does not involve a substantial change in ownership or control,

(C) a license under section 319(c) of this title or, pending application for or grant of such license, any special or temporary authorization to permit interim operation to facilitate completion of authorized construction or to provide substantially the same service as would be authorized by such license,

(D) extension of time to complete construction of authorized facilities,

(E) an authorization of facilities for remote pickups, studio links and similar facilities for use in the operation of a broadcast station,

(F) authorizations pursuant to section 325(c) of this title where the programs to be transmitted are special events not of a continuing nature,

(G) a special temporary authorization for nonbroadcast operation not to exceed thirty days where no application for regular operation is contemplated to be filed or not to exceed sixty days pending the filing of an application for such regular operation, or

(H) an authorization under any of the proviso clauses of section 308(a) of this title.

(d) Petition to deny application; time; contents; reply; findings

(1) Any party in interest may file with the Commission a petition to deny any application (whether as originally filed or as amended) to which subsection (b) of this section applies at any time prior to the day of Commission grant thereof without hearing or the day of formal designation thereof for hearing; except that with respect to any classification of applications, the Commission from time to time by rule may specify a shorter period (no less than thirty days following the issuance of public notice by the Commission of the acceptance for filing of such application or of any substantial amendment thereof), which shorter period shall be reasonably related to the time when the applications would normally be reached for processing. The petitioner shall serve a copy of such petition on the applicant. The petition shall contain specific allegations of fact sufficient to show that the petitioner is a party in interest and that a grant of the application would be prima facie inconsistent with subsection (a) of this section. Such allegations of fact shall, except for those of which official notice may be taken, be supported by affidavit of a person or persons with personal knowledge thereof. The applicant shall be given the opportunity to file a reply in which allegations of fact or denials thereof shall similarly be supported by affidavit.

(2) If the Commission finds on the basis of the application, the pleadings filed, or other matters which it may officially notice that there are no substantial and material questions of fact and that a grant of the application would be consistent with subsection (a) of this section, it shall make the grant, deny the petition, and issue a concise statement of the reasons for denying the petition, which statement shall dispose of all substantial issues raised by the petition. If a

substantial and material question of fact is presented or if the Commission for any reason is unable to find that grant of the application would be consistent with subsection (a) of this section, it shall proceed as provided in subsection (e) of this section.

(e) Hearings; intervention; evidence; burden of proof

If, in the case of any application to which subsection (a) of this section applies, a substantial and material question of fact is presented or the Commission for any reason is unable to make the finding specified in such subsection, it shall formally designate the application for hearing on the ground or reasons then obtaining and shall forthwith notify the applicant and all other known parties in interest of such action and the grounds and reasons therefor, specifying with particularity the matters and things in issue but not including issues or requirements phrased generally. When the Commission has so designated an application for hearing the parties in interest, if any, who are not notified by the Commission of such action may acquire the status of a party to the proceeding thereon by filing a petition for intervention showing the basis for their interest not more than thirty days after publication of the hearing issues or any substantial amendment thereto in the Federal Register. Any hearing subsequently held upon such application shall be a full hearing in which the applicant and all other parties in interest shall be permitted to participate. The burden of proceeding with the introduction of evidence and the burden of proof shall be upon the applicant, except that with respect to any issue presented by a petition to deny or a petition to enlarge the issues, such burdens shall be as determined by the Commission.

(f) Temporary authorization of temporary operations under subsection (b)

When an application subject to subsection (b) of this section has been filed, the Commission, notwithstanding the requirements of such subsection, may, if the grant of such application is otherwise authorized by law and if it finds that there are extraordinary circumstances requiring temporary operations in the public interest and that delay in the institution of such temporary operations would seriously prejudice the public interest, grant a temporary authorization, accompanied by a statement of its reasons therefor, to permit such temporary operations for a period not exceeding 180 days, and upon making like findings may extend such temporary authorization for additional periods not to exceed 180 days. When any such grant of a temporary authorization is made, the Commission shall give expeditious treatment to any timely filed petition to deny such application and to any petition for rehearing of such grant filed under section 405 of this title.

(g) Classification of applications

The Commission is authorized to adopt reasonable classifications of applications and amendments in order to effectuate the purposes of this section.

(h) Form and conditions of station licenses

Such station licenses as the Commission may grant shall be in such general form as it may

prescribe, but each license shall contain, in addition to other provisions, a statement of the following conditions to which such license shall be subject: (1) The station license shall not vest in the licensee any right to operate the station nor any right in the use of the frequencies designated in the license beyond the term thereof nor in any other manner than authorized therein; (2) neither the license nor the right granted thereunder shall be assigned or otherwise transferred in violation of this chapter; (3) every license issued under this chapter shall be subject in terms to the right of use or control conferred by section 606 of this title.

(i) Random selection

(1) General authority

If—

(A) there is more than one application for any initial license or construction permit which will involve a use of the electromagnetic spectrum; and

(B) the Commission has determined that the use is not described in subsection (j)(2)(A) of this section;

then the Commission shall have the authority to grant such license or permit to a qualified applicant through the use of a system of random selection.

(2) No license or construction permit shall be granted to an applicant selected pursuant to paragraph (1) unless the Commission determines the qualifications of such applicant pursuant to subsection (a) of this section and section 308(b) of this title. When substantial and material questions of fact exist concerning such qualifications, the Commission shall conduct a hearing in order to make such determinations. For the purpose of making such determinations, the Commission may, by rule, and notwithstanding any other provision of law—

(A) adopt procedures for the submission of all or part of the evidence in written form;

(B) delegate the function of presiding at the taking of written evidence to Commission employees other than administrative law judges; and

(C) omit the determination required by subsection (a) of this section with respect to any application other than the one selected pursuant to paragraph (1).

(3)(A) The Commission shall establish rules and procedures to ensure that, in the administration of any system of random selection under this subsection used for granting licenses or construction permits for any media of mass communications, significant preferences will be granted to applicants or groups of applicants, the grant to which of the license or permit would increase the diversification of ownership of the media of mass communications. To further diversify the ownership of the media of mass communications, an additional significant preference shall be granted to any applicant controlled by a member or members of a minority group.

(B) The Commission shall have authority to require each qualified applicant seeking a significant preference under subparagraph (A) to submit to the Commission such information as

may be necessary to enable the Commission to make a determination regarding whether such applicant shall be granted such preference. Such information shall be submitted in such form, at such times, and in accordance with such procedures, as the Commission may require.

(C) For purposes of this paragraph:

(i) The term “media of mass communications” includes television, radio, cable television, multipoint distribution service, direct broadcast satellite service, and other services, the licensed facilities of which may be substantially devoted toward providing programming or other information services within the editorial control of the licensee.

(ii) The term “minority group” includes Blacks, Hispanics, American Indians, Alaska Natives, Asians, and Pacific Islanders.

(4)(A) The Commission shall, after notice and opportunity for hearing, prescribe rules establishing a system of random selection for use by the Commission under this subsection in any instance in which the Commission, in its discretion, determines that such use is appropriate for the granting of any license or permit in accordance with paragraph (1).

(B) The Commission shall have authority to amend such rules from time to time to the extent necessary to carry out the provisions of this subsection. Any such amendment shall be made after notice and opportunity for hearing.

(C) Not later than 180 days after August 10, 1993, the Commission shall prescribe such transfer disclosures and antitrafficking restrictions and payment schedules as are necessary to prevent the unjust enrichment of recipients of licenses or permits as a result of the methods employed to issue licenses under this subsection.

(j) Use of competitive bidding

(1) General authority

If mutually exclusive applications are accepted for filing for any initial license or construction permit which will involve a use of the electromagnetic spectrum described in paragraph (2), then the Commission shall have the authority, subject to paragraph (10), to grant such license or permit to a qualified applicant through the use of a system of competitive bidding that meets the requirements of this subsection.

(2) Uses to which bidding may apply

A use of the electromagnetic spectrum is described in this paragraph if the Commission determines that—

(A) the principal use of such spectrum will involve, or is reasonably likely to involve, the licensee receiving compensation from subscribers in return for which the licensee—

(i) enables those subscribers to receive communications signals that are transmitted utilizing frequencies on which the licensee is licensed to operate; or

(ii) enables those subscribers to transmit directly communications signals utilizing frequencies on which the licensee is licensed to operate; and

(B) a system of competitive bidding will promote the objectives described in paragraph (3).

(3) Design of systems of competitive bidding

For each class of licenses or permits that the Commission grants through the use of a competitive bidding system, the Commission shall, by regulation, establish a competitive bidding methodology. The Commission shall seek to design and test multiple alternative methodologies under appropriate circumstances. In identifying classes of licenses and permits to be issued by competitive bidding, in specifying eligibility and other characteristics of such licenses and permits, and in designing the methodologies for use under this subsection, the Commission shall include safeguards to protect the public interest in the use of the spectrum and shall seek to promote the purposes specified in section 151 of this title and the following objectives:

(A) the development and rapid deployment of new technologies, products, and services for the benefit of the public, including those residing in rural areas, without administrative or judicial delays;

(B) promoting economic opportunity and competition and ensuring that new and innovative technologies are readily accessible to the American people by avoiding excessive concentration of licenses and by disseminating licenses among a wide variety of applicants, including small businesses, rural telephone companies, and businesses owned by members of minority groups and women;

(C) recovery for the public of a portion of the value of the public spectrum resource made available for commercial use and avoidance of unjust enrichment through the methods employed to award uses of that resource; and

(D) efficient and intensive use of the electromagnetic spectrum.

(4) Contents of regulations

In prescribing regulations pursuant to paragraph (3), the Commission shall—

(A) consider alternative payment schedules and methods of calculation, including lump sums or guaranteed installment payments, with or without royalty payments, or other schedules or methods that promote the objectives described in paragraph (3)(B), and combinations of such schedules and methods;

(B) include performance requirements, such as appropriate deadlines and penalties for performance failures, to ensure prompt delivery of service to rural areas, to prevent stockpiling or warehousing of spectrum by licensees or permittees, and to promote investment in and rapid deployment of new technologies and services;

(C) consistent with the public interest, convenience, and necessity, the purposes of this chapter, and the characteristics of the proposed service, prescribe area designations and bandwidth assignments that promote (i) an equitable distribution of licenses and services among geographic areas, (ii) economic opportunity for a wide variety of applicants, including small businesses, rural telephone companies, and businesses owned by members of minority groups and women,

and (iii) investment in and rapid deployment of new technologies and services;

(D) ensure that small businesses, rural telephone companies, and businesses owned by members of minority groups and women are given the opportunity to participate in the provision of spectrum-based services, and, for such purposes, consider the use of tax certificates, bidding preferences, and other procedures; and

(E) require such transfer disclosures and antitrafficking restrictions and payment schedules as may be necessary to prevent unjust enrichment as a result of the methods employed to issue licenses and permits.

(5) Bidder and licensee qualification

No person shall be permitted to participate in a system of competitive bidding pursuant to this subsection unless such bidder submits such information and assurances as the Commission may require to demonstrate that such bidder's application is acceptable for filing. No license shall be granted to an applicant selected pursuant to this subsection unless the Commission determines that the applicant is qualified pursuant to subsection (a) of this section and sections 308(b) and 310 of this title. Consistent with the objectives described in paragraph (3), the Commission shall, by regulation, prescribe expedited procedures consistent with the procedures authorized by subsection (i)(2) of this section for the resolution of any substantial and material issues of fact concerning qualifications.

(6) Rules of construction

Nothing in this subsection, or in the use of competitive bidding, shall—

(A) alter spectrum allocation criteria and procedures established by the other provisions of this chapter;

(B) limit or otherwise affect the requirements of subsection (h) of this section, section 301, 304, 307, 310, or 606 of this title, or any other provision of this chapter (other than subsections (d)(2) and (e) of this section);

(C) diminish the authority of the Commission under the other provisions of this chapter to regulate or reclaim spectrum licenses;

(D) be construed to convey any rights, including any expectation of renewal of a license, that differ from the rights that apply to other licenses within the same service that were not issued pursuant to this subsection;

(E) be construed to relieve the Commission of the obligation in the public interest to continue to use engineering solutions, negotiation, threshold qualifications, service regulations, and other means in order to avoid mutual exclusivity in application and licensing proceedings;

(F) be construed to prohibit the Commission from issuing nationwide, regional, or local licenses or permits;

(G) be construed to prevent the Commission from awarding licenses to those persons who make significant contributions to the development of a new telecommunications service or technology; or

(H) be construed to relieve any applicant for a license or permit of the obligation to pay charges imposed pursuant to section 158 of this title.

(7) Consideration of revenues in public interest determinations

(A) Consideration prohibited

In making a decision pursuant to section 303(c) of this title to assign a band of frequencies to a use for which licenses or permits will be issued pursuant to this subsection, and in prescribing regulations pursuant to paragraph (4)(C) of this subsection, the Commission may not base a finding of public interest, convenience, and necessity on the expectation of Federal revenues from the use of a system of competitive bidding under this subsection.

(B) Consideration limited

In prescribing regulations pursuant to paragraph (4)(A) of this subsection, the Commission may not base a finding of public interest, convenience, and necessity solely or predominantly on the expectation of Federal revenues from the use of a system of competitive bidding under this subsection.

(C) Consideration of demand for spectrum not affected

Nothing in this paragraph shall be construed to prevent the Commission from continuing to consider consumer demand for spectrum-based services.

(8) Treatment of revenues

(A) General rule

Except as provided in subparagraph (B), all proceeds from the use of a competitive bidding system under this subsection shall be deposited in the Treasury in accordance with chapter 33 of title 31.

(B) Retention of revenues

Notwithstanding subparagraph (A), the salaries and expenses account of the Commission shall retain as an offsetting collection such sums as may be necessary from such proceeds for the costs of developing and implementing the program required by this subsection. Such offsetting collections shall be available for obligation subject to the terms and conditions of the receiving appropriations account, and shall be deposited in such accounts on a quarterly basis. Any funds appropriated to the Commission for fiscal years 1994 through 1998 for the purpose of assigning licenses using random selection under subsection (i) of this section shall be used by the Commission to implement this subsection.

(9) Use of former Government spectrum

The Commission shall, not later than 5 years after August 10, 1993, issue licenses and permits pursuant to this subsection for the use of bands of frequencies that—

(A) in the aggregate span not less than 10 megahertz; and

(B) have been reassigned from Government use pursuant to part B of the National Tele-

communications and Information Administration Organization Act [47 U.S.C. 921 et seq.].

(10) Authority contingent on availability of additional spectrum

(A) Initial conditions

The Commission's authority to issue licenses or permits under this subsection shall not take effect unless—

(i) the Secretary of Commerce has submitted to the Commission the report required by section 113(d)(1) of the National Telecommunications and Information Administration Organization Act [47 U.S.C. 923(d)(1)];

(ii) such report recommends for immediate reallocation bands of frequencies that, in the aggregate, span not less than 50 megahertz;

(iii) such bands of frequencies meet the criteria required by section 113(a) of such Act [47 U.S.C. 923(a)]; and

(iv) the Commission has completed the rulemaking required by section 332(c)(1)(D) of this title.

(B) Subsequent conditions

The Commission's authority to issue licenses or permits under this subsection on and after 2 years after August 10, 1993, shall cease to be effective if—

(i) the Secretary of Commerce has failed to submit the report required by section 113(a) of the National Telecommunications and Information Administration Organization Act [47 U.S.C. 923(a)];

(ii) the President has failed to withdraw and limit assignments of frequencies as required by paragraphs (1) and (2) of section 114(a) of such Act [47 U.S.C. 924(a)];

(iii) the Commission has failed to issue the regulations required by section 115(a) of such Act [47 U.S.C. 925(a)];

(iv) the Commission has failed to complete and submit to Congress, not later than 18 months after August 10, 1993, a study of current and future spectrum needs of State and local government public safety agencies through the year 2010, and a specific plan to ensure that adequate frequencies are made available to public safety licensees; or

(v) the Commission has failed under section 332(c)(3) of this title to grant or deny within the time required by such section any petition that a State has filed within 90 days after August 10, 1993;

until such failure has been corrected.

(11) Termination

The authority of the Commission to grant a license or permit under this subsection shall expire September 30, 1998.

(12) Evaluation

Not later than September 30, 1997, the Commission shall conduct a public inquiry and submit to the Congress a report—

(A) containing a statement of the revenues obtained, and a projection of the future revenues, from the use of competitive bidding systems under this subsection;

(B) describing the methodologies established by the Commission pursuant to paragraphs (3) and (4);

(C) comparing the relative advantages and disadvantages of such methodologies in terms of attaining the objectives described in such paragraphs;

(D) evaluating whether and to what extent—

(i) competitive bidding significantly improved the efficiency and effectiveness of the process for granting radio spectrum licenses;

(ii) competitive bidding facilitated the introduction of new spectrum-based technologies and the entry of new companies into the telecommunications market;

(iii) competitive bidding methodologies have secured prompt delivery of service to rural areas and have adequately addressed the needs of rural spectrum users; and

(iv) small businesses, rural telephone companies, and businesses owned by members of minority groups and women were able to participate successfully in the competitive bidding process; and

(E) recommending any statutory changes that are needed to improve the competitive bidding process.

(13) Recovery of value of public spectrum in connection with pioneer preferences

(A) In general

Notwithstanding paragraph (6)(G), the Commission shall not award licenses pursuant to a preferential treatment accorded by the Commission to persons who make significant contributions to the development of a new telecommunications service or technology, except in accordance with the requirements of this paragraph.

(B) Recovery of value

The Commission shall recover for the public a portion of the value of the public spectrum resource made available to such person by requiring such person, as a condition for receipt of the license, to agree to pay a sum determined by—

(i) identifying the winning bids for the licenses that the Commission determines are most reasonably comparable in terms of bandwidth, scope of service area, usage restrictions, and other technical characteristics to the license awarded to such person, and excluding licenses that the Commission determines are subject to bidding anomalies due to the award of preferential treatment;

(ii) dividing each such winning bid by the population of its service area (hereinafter referred to as the per capita bid amount);

(iii) computing the average of the per capita bid amounts for the licenses identified under clause (i);

(iv) reducing such average amount by 15 percent; and

(v) multiplying the amount determined under clause (iv) by the population of the service area of the license obtained by such person.

(C) Installments permitted

The Commission shall require such person to pay the sum required by subparagraph (B) in a lump sum or in guaranteed installment payments, with or without royalty payments, over a period of not more than 5 years.

(D) Rulemaking on pioneer preferences

Except with respect to pending applications described in clause (iv) of this subparagraph, the Commission shall prescribe regulations specifying the procedures and criteria by which the Commission will evaluate applications for preferential treatment in its licensing processes (by precluding the filing of mutually exclusive applications) for persons who make significant contributions to the development of a new service or to the development of new technologies that substantially enhance an existing service. Such regulations shall—

(i) specify the procedures and criteria by which the significance of such contributions will be determined, after an opportunity for review and verification by experts in the radio sciences drawn from among persons who are not employees of the Commission or by any applicant for such preferential treatment;

(ii) include such other procedures as may be necessary to prevent unjust enrichment by ensuring that the value of any such contribution justifies any reduction in the amounts paid for comparable licenses under this subsection;

(iii) be prescribed not later than 6 months after December 8, 1994;

(iv) not apply to applications that have been accepted for filing on or before September 1, 1994; and

(v) cease to be effective on the date of the expiration of the Commission's authority under subparagraph (F).

(E) Implementation with respect to pending applications

In applying this paragraph to any broadband licenses in the personal communications service awarded pursuant to the preferential treatment accorded by the Federal Communications Commission in the Third Report and Order in General Docket 90-314 (FCC 93-550, released February 3, 1994)—

(i) the Commission shall not reconsider the award of preferences in such Third Report and Order, and the Commission shall not delay the grant of licenses based on such awards more than 15 days following December 8, 1994, and the award of such preferences and licenses shall not be subject to administrative or judicial review;

(ii) the Commission shall not alter the bandwidth or service areas designated for such licenses in such Third Report and Order;

(iii) except as provided in clause (v), the Commission shall use, as the most reasonably comparable licenses for purposes of subparagraph (B)(i), the broadband licenses in the personal communications

service for blocks A and B for the 20 largest markets (ranked by population) in which no applicant has obtained preferential treatment;

(iv) for purposes of subparagraph (C), the Commission shall permit guaranteed installment payments over a period of 5 years, subject to—

(I) the payment only of interest on unpaid balances during the first 2 years, commencing not later than 30 days after the award of the license (including any preferential treatment used in making such award) is final and no longer subject to administrative or judicial review, except that no such payment shall be required prior to the date of completion of the auction of the comparable licenses described in clause (iii); and

(II) payment of the unpaid balance and interest thereon after the end of such 2 years in accordance with the regulations prescribed by the Commission; and

(v) the Commission shall recover with respect to broadband licenses in the personal communications service an amount under this paragraph that is equal to not less than \$400,000,000, and if such amount is less than \$400,000,000, the Commission shall recover an amount equal to \$400,000,000 by allocating such amount among the holders of such licenses based on the population of the license areas held by each licensee.

The Commission shall not include in any amounts required to be collected under clause (v) the interest on unpaid balances required to be collected under clause (iv).

(F) Expiration

The authority of the Commission to provide preferential treatment in licensing procedures (by precluding the filing of mutually exclusive applications) to persons who make significant contributions to the development of a new service or to the development of new technologies that substantially enhance an existing service shall expire on September 30, 1998.

(G) Effective date

This paragraph shall be effective on December 8, 1994, and apply to any licenses issued on or after August 1, 1994, by the Federal Communications Commission pursuant to any licensing procedure that provides preferential treatment (by precluding the filing of mutually exclusive applications) to persons who make significant contributions to the development of a new service or to the development of new technologies that substantially enhance an existing service.

REFERENCES IN TEXT

The National Telecommunications and Information Administration Organization Act, referred to in subsec. (j)(9)(B), is title I of Pub. L. 102-538, Oct. 27, 1992, 106 Stat. 3533, as amended. Part B of the Act is classified generally to subchapter II (§921 et seq.) of chapter 8 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 901 of this title and Tables.

AMENDMENTS

1994—Subsec. (c)(2)(F). Pub. L. 103-414, §303(a)(16), substituted “section 325(c)” for “section 325(b)”.

Subsec. (i)(4)(A). Pub. L. 103-414, §304(a)(9), which directed substitution of “The Commission shall” for “The commission, not later than 180 days after the date of the enactment of the Communications Technical Amendments Act of 1982, shall”, was executed by making the substitution for “The Commission, not later than 180 days after the date of the enactment of the Communications Amendments Act of 1982, shall”, which for purposes of codification had been translated as “The Commission, not later than 180 days after September 13, 1982, shall”, to reflect the probable intent of Congress and the amendment by Pub. L. 103-414, §303(a)(17). See below.

Pub. L. 103-414, §303(a)(17), substituted “date of the enactment of the Communications Amendments Act of 1982” for “date of the enactment of the Communications Technical Amendments Act of 1982”, which for purposes of codification had been translated as “September 13, 1982”, thus resulting in no change in text.

Subsec. (j)(13). Pub. L. 103-465 added par. (13).

1993—Subsec. (i). Pub. L. 103-66, §6002(b)(1), inserted subsec. heading, added par. (1), struck out former par. (1), and in par. (4), added subpar. (C). Prior to amendment, par. (1) read as follows: “If there is more than one application for any initial license or construction permit which will involve any use of the electromagnetic spectrum, then the Commission, after determining that each such application is acceptable for filing, shall have authority to grant such license or permit to a qualified applicant through the use of a system of random selection.”

Subsec. (j). Pub. L. 103-66, §6002(a), added subsec. (j).

1984—Subsec. (h). Pub. L. 98-549 substituted “section 706” for “section 606” in the original to accommodate renumbering of sections in subchapter VI (section 601 et seq.) of this chapter by section 6(a) of Pub. L. 98-549. Because both sections translate as “section 606 of this title”, the amendment by section 6(b)(1) of Pub. L. 98-549 resulted in no change in text.

1982—Subsec. (f). Pub. L. 97-259, §114, substituted “temporary” for “emergency” wherever appearing, “additional periods” for “one additional period”, and “180 days” for “ninety days” wherever appearing.

Subsec. (i)(1). Pub. L. 97-259, §115(a), substituted “application” for “applicant” after “more than one”, and “that each such application is acceptable for filing” for “the qualifications of each such applicant under section 308(b) of this title”.

Subsec. (i)(2). Pub. L. 97-259, §115(b), amended par. (2) generally. Prior to amendment, par. (2) read as follows: “The determination of the Commission under paragraph (1) with respect to the qualifications of applicants for an initial license or construction permit shall be made after notice and opportunity for a hearing, except that the provisions of section 409(c)(2) of this title shall not apply in the case of any such determination.”

Subsec. (i)(3)(A). Pub. L. 97-259, §115(c)(1), substituted “used for granting licenses or construction permits for any media of mass communications, significant pref-

erences will be granted to applicants or groups of applicants, the grant to which of the license or permit would increase the diversification of ownership of the media of mass communications. To further diversify the ownership of the media of mass communications, an additional significant preference shall be granted to any applicant controlled by a member or members of a minority group” for “. . . groups or organizations, or members of groups or organizations, which are underrepresented in the ownership of telecommunications facilities or properties will be granted significant preferences”.

Subsec. (i)(3)(C). Pub. L. 97-259, §115(c)(2), added subpar. (C).

Subsec. (i)(4)(A). Pub. L. 97-259, §115(d), substituted “September 13, 1982,” for “August 13, 1981.”

1981—Subsec. (i). Pub. L. 97-35 added subsec. (i).

1964—Subsec. (c)(2)(G). Pub. L. 88-307 inserted “not to exceed sixty days”.

Subsec. (e). Pub. L. 88-306 substituted “not more than thirty days after publication of the hearing issues or any substantial amendment thereto in the Federal Register” for “at any time not less than ten days prior to the date of hearing”.

1960—Pub. L. 86-752 amended section generally to revise pre-grant procedure, and, among other changes, a public notice was substituted for a mandatory notice to applicants and interested parties before hearings upon applications; the Commission was required to hold applications for 30 days before acting upon them without hearings; interested parties were permitted to file petitions to deny applications before the Commission acted upon them without hearings, in lieu of 30 days after applications were granted; interested parties were required to support their petitions with “specific” allegations of fact; the Commission was permitted to dispense with formal hearings when there are “no substantial or material questions of fact,” subject to a requirement that it issue a “concise statement of the reasons” for its action.

1956—Subsec. (c). Act Jan. 20, 1956, struck out hearings with respect to facts which, even if true, would not be grounds for setting aside the Commission’s grant; gave the Commission discretion to keep in effect the protested authorization but required the Commission to affirmatively find and set forth that the public interest requires grant to remain in effect; and authorized Commission to redraft issues urged by protestant in accordance with the facts alleged in the protest.

1954—Subsec. (c). Act Mar. 26, 1954, substituted “thirty days” for “fifteen days” in fourth sentence.

1952—Act July 16, 1952, amended section generally to set forth procedure to be followed in cases of denial of applications.

EFFECTIVE DATE OF 1984 AMENDMENT

Amendment by Pub. L. 98-549 effective 60 days after Oct. 30, 1984, except where otherwise expressly provided, see section 9(a) of Pub. L. 98-549, set out as a note under section 521 of this title.

EFFECTIVE DATE OF 1960 AMENDMENT

Section 4(d)(1)–(3) of Pub. L. 86-752 provided that:

“(2) Section 309 of the Communications Act of 1934 [this section] (as amended by subsection (a) of this section) shall apply to any application to which section 308 of such Act [section 308 of this title] applies (A) which is filed on or after the effective date of subsection (a) of this section, (B) which is filed before such effective date, but is substantially amended on or after such effective date, or (C) which is filed before such effective date and is not substantially amended on or after such effective date, but with respect to which the Commission by rule provides reasonable opportunity to file petitions to deny in accordance with section 309 of such Act (as amended by subsection (a) of this section) [this section].

“(3) Section 309 of the Communications Act of 1934 [this section], as in effect immediately before the effective date of subsection (a) of this section, shall, on and after such effective date, apply only to applications to which section 308 of such Act [section 308 of this title] apply which are filed before such effective date and not substantially amended on or after such effective date and with respect to which the Commission does not permit petitions to deny to be filed as provided in clause (C) of paragraph (2) of this subsection.”

DEADLINES FOR COMMISSION ACTION REGARDING COMPETITIVE BIDDING

Section 6002(d)(1), (2) of Pub. L. 103-66 provided that:“(1) GENERAL RULEMAKING.—The Federal Communications Commission shall prescribe regulations to implement section 309(j) of the Communications Act of 1934 [47 U.S.C. 309(j)] (as added by this section) within 210 days after the date of enactment of this Act [Aug. 10, 1993].

“(B) within 270 days after such date of enactment, commence issuing licenses and permits in the personal communications service.”

SPECIAL RULE REGARDING SUBSECTION (I) LICENSES AND PERMITS

Section 6002(e) of Pub. L. 103-66 provided that: “The Federal Communications Commission shall not issue any license or permit pursuant to section 309(i) of the Communications Act of 1934 (47 U.S.C. 309(i)) after the date of enactment of this Act [Aug. 10, 1993] unless—

“(1) the Commission has made the determination required by paragraph (1)(B) of such section (as added by this section); or

“(2) one or more applications for such license were accepted for filing by the Commission before July 26, 1993.”

AUTHORITY TO USE THE SYSTEM OF RANDOM SELECTION WITH RESPECT TO APPLICATIONS FOR INITIAL LI- CENSES AND CONSTRUCTION PERMITS

Section 1242(b) of Pub. L. 97-35 provided that: “The Commission shall have authority to use the system of random selection established by the Commission under section 309(i) of the Communications Act of 1934 [subsec. (i) of this section], as added in subsection (a), with respect to any application for an initial license or construction permit which will involve any use of the electromagnetic spectrum and which—

“(1) is filed with the Commission after the date of the enactment of this Act [Aug. 13, 1981]; or

“(2) is pending before the Commission on such date of enactment but has not been designated for hearing on or before such date of enactment.”

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 311, 316, 319, 325, 532, 533, 554, 922 of this title.

§ 310. License ownership restrictions

(a) Grant to or holding by foreign government or representative

The station license required under this chapter shall not be granted to or held by any foreign government or the representative thereof.

(b) Grant to or holding by alien or representative, foreign corporation, etc.

No broadcast or common carrier or aeronautical en route or aeronautical fixed radio station license shall be granted to or held by—

(1) any alien or the representative of any alien;

(2) any corporation organized under the laws of any foreign government;

(3) any corporation of which any officer or director is an alien or of which more than one-fifth of the capital stock is owned of record or voted by aliens or their representatives or by a foreign government or representative thereof or by any corporation organized under the laws of a foreign country;

(4) any corporation directly or indirectly controlled by any other corporation of which any officer or more than one-fourth of the directors are aliens, or of which more than one-fourth of the capital stock is owned of record or voted by aliens, their representatives, or by a foreign government or representative thereof, or by any corporation organized under the laws of a foreign country, if the Commission finds that the public interest will be served by the refusal or revocation of such license.

(c) Authorization for aliens licensed by foreign governments; multilateral or bilateral agreement to which United States and foreign country are parties as prerequisite

In addition to amateur station licenses which the Commission may issue to aliens pursuant to this chapter, the Commission may issue authorizations, under such conditions and terms as it may prescribe, to permit an alien licensed by his government as an amateur radio operator to operate his amateur radio station licensed by his government in the United States, its possessions, and the Commonwealth of Puerto Rico provided there is in effect a multilateral or bilateral agreement, to which the United States and the alien’s government are parties, for such operation on a reciprocal basis by United States amateur radio operators. Other provisions of this chapter and of subchapter II of chapter 5, and chapter 7, of title 5 shall not be applicable to any request or application for or modification, suspension, or cancellation of any such authorization.

(d) Assignment and transfer of construction permit or station license

No construction permit or station license, or any rights thereunder, shall be transferred, assigned, or disposed of in any manner, voluntarily or involuntarily, directly or indirectly, or by transfer of control of any corporation holding such permit or license, to any person except upon application to the Commission and upon finding by the Commission that the public interest, convenience, and necessity will be served thereby. Any such application shall be disposed of as if the proposed transferee or assignee were making application under section 308 of this title for the permit or license in question; but in acting thereon the Commission may not consider whether the public interest, convenience, and necessity might be served by the transfer, assignment, or disposal of the permit or license

to a person other than the proposed transferee or assignee.

(e) Administration of regional concentration rules for broadcast stations

(1) In the case of any broadcast station, and any ownership interest therein, which is excluded from the regional concentration rules by reason of the savings provision for existing facilities provided by the First Report and Order adopted March 9, 1977 (docket No. 20548; 42 Fed. Reg. 16145), the exclusion shall not terminate solely by reason of changes made in the technical facilities of the station to improve its service.

(2) For purposes of this subsection, the term "regional concentration rules" means the provisions of sections 73.35, 73.240, and 73.636 of title 47, Code of Federal Regulations (as in effect June 1, 1983), which prohibit any party from directly or indirectly owning, operating, or controlling three broadcast stations in one or several services where any two of such stations are within 100 miles of the third (measured city-to-city), and where there is a primary service contour overlap of any of the stations.

In subsec. (c), "subchapter II of chapter 5, and chapter 7, of title 5" substituted for "the Administrative Procedure Act" on authority of Pub. L. 89-554, § 7(b), Sept. 6, 1966, 80 Stat. 631, the first section of which enacted Title 5, Government Organization and Employees.

AMENDMENTS

1990—Subsec. (c). Pub. L. 101-396 substituted "multilateral or bilateral agreement, to which the United States and the alien's government are parties," for "bilateral agreement between the United States and the alien's government".

1974—Subsec. (a). Pub. L. 93-505 added subsec. (a). Former subsec. (a), which related to granting to or holding of required station licenses by aliens, was struck out.

Subsecs. (b) to (d). Pub. L. 93-505 added subsecs. (b) and (c) and redesignated former subsec. (b) as (d).

1971—Subsec. (a). Pub. 1964—Subsec. (a). Pub. L. 88-313 empowered the Commission to issue authorizations to permit an alien licensed by his government as an amateur radio operator to operate his station, licensed by his government, in the United States, its possessions, and Puerto Rico, provided there is a bilateral agreement between the United States and the alien's government giving similar rights to United States amateur radio operators, and provided that the Commission notify appropriate agencies of our Government of any applications for authorization, and that such agencies furnish to the Com-

mission information bearing on the request's compatibility with our national security.

1958—Subsec. (a). Pub. L. 85-817 inserted paragraph authorizing the grant of licenses for radio stations on aircraft to aliens or representatives of aliens holding pilot certificates.

1952—Subsec. (b). Act July 16, 1952, provided that construction permits and station licenses cannot be transferred, assigned, or disposed of except upon a finding by the Commission that public interest, convenience, or necessity will be served thereby, and that such transfer application will be treated the same as if made under section 308 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 309, 332, 734 of this title; title 40 section 782.

§ 311. Requirements as to certain applications in broadcasting service

(a) Notices of filing and hearing; form and contents

When there is filed with the Commission any application to which section 309(b)(1) of this title applies, for an instrument of authorization for a station in the broadcasting service, the applicant—

(1) shall give notice of such filing in the principal area which is served or is to be served by the station; and

(2) if the application is formally designated for hearing in accordance with section 309 of this title, shall give notice of such hearing in such area at least ten days before commencement of such hearing.

§ 319. Construction permits

(a) Requirements

No license shall be issued under the authority of this chapter for the operation of any station unless a permit for its construction has been granted by the Commission. The application for a construction permit shall set forth such facts as the Commission by regulation may prescribe as to the citizenship, character, and the financial, technical, and other ability of the applicant to construct and operate the station, the ownership and location of the proposed station and of the station or stations with which it is proposed to communicate, the frequencies desired to be used, the hours of the day or other periods of time during which it is proposed to operate the station, the purpose for which the station is to be used, the type of transmitting apparatus to be used, the power to be used, the date upon which the station is expected to be completed and in operation, and such other information as the Commission may require. Such application shall be signed by the applicant in any manner or form, including by electronic means, as the Commission may prescribe by regulation.

(b) Time limitation; forfeiture

Such permit for construction shall show specifically the earliest and latest dates between which the actual operation of such station is expected to begin, and shall provide that said permit will be automatically forfeited if the station is not ready for operation within the time specified or within such further time as the Commission may allow, unless prevented by causes not under the control of the grantee.

(c) Licenses for operation

Upon the completion of any station for the construction or continued construction of which a permit has been granted, and upon it being made to appear to the Commission that all the terms, conditions, and obligations set forth in the application and permit have been fully met, and that no cause or circumstance arising or first coming to the knowledge of the Commission since the granting of the permit would, in the judgment of the Commission, make the operation of such station against the public interest, the Commission shall issue a license to the lawful holder of said permit for the operation of said station. Said license shall conform generally to the terms of said permit. The provisions of section 309(a)-(g) of this title shall not apply with respect to any station license the issuance of which is provided for and governed by the provisions of this subsection.

(d) Government, amateur, or mobile station; waiver

A permit for construction shall not be required for Government stations, amateur stations, or mobile stations. A permit for construction shall not be required for public coast stations, privately owned fixed microwave stations, or stations licensed to common carriers, unless the Commission determines that the public interest, convenience, and necessity would be served by requiring such permits for any such stations. With respect to any broadcasting station, the Commission shall not have any authority to waive the requirement of a permit for construction. With respect to any other station or class of stations, the Commission shall not waive such requirement unless the Commission determines that the public interest, convenience, and necessity would be served by such a waiver.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 309 of this title.

§ 320. Stations liable to interfere with distress signals; designation and regulation

The Commission is authorized to designate from time to time radio stations the communications or signals of which, in its opinion, are liable to interfere with the transmission or reception of distress signals of ships. Such stations are required to keep a licensed radio operator listening in on the frequencies designated for signals of distress and radio communications relating thereto during the entire period the transmitter of such station is in operation.

(June 19, 1934, ch. 652, title III, § 320, 48 Stat. 1090.)

§ 321. Distress signals and communications; equipment on vessels; regulations

(a) The transmitting set in a radio station on shipboard may be adjusted in such a manner as to produce a maximum of radiation, irrespective of the amount of interference which may thus be caused, when such station is sending radio communications or signals of distress and radio communications relating thereto.

(b) All radio stations, including Government stations and stations on board foreign vessels when within the territorial waters of the United States, shall give absolute priority to radio communications or signals relating to ships in distress; shall cease all sending on frequencies which will interfere with hearing a radio communication or signal of distress, and, except when engaged in answering or aiding the ship in distress, shall refrain from sending any radio communications or signals until there is assurance that no interference will be caused with the radio communications or signals relating thereto, and shall assist the vessel in distress, so far as possible, by complying with its instructions.

(June 19, 1934, ch. 652, title III, § 321, 48 Stat. 1090; May 20, 1937, ch. 229, § 7, 50 Stat. 191.)

AMENDMENTS

1937—Subsec. (a). Act May 20, 1937, struck out provisions which required radio stations on shipboard to be equipped to transmit radio communications or signals of distress on the frequency specified by the Commission, with apparatus capable of transmitting and receiving messages over a distance of at least 100 miles by day or night.

§ 322. Exchanging radio communications between land and ship stations and from ship to ship

Every land station open to general public service between the coast and vessels or aircraft at sea shall, within the scope of its normal operations, be bound to exchange radio communications or signals with any ship or aircraft station at sea; and each station on shipboard or aircraft at sea shall, within the scope of its normal operations, be bound to exchange radio communications or signals with any other station on shipboard or aircraft at sea or with any land station open to general public service between the coast and vessels or aircraft at sea: *Provided*, That such exchange of radio communication shall be without distinction as to radio systems or instruments adopted by each station.

(June 19, 1934, ch. 652, title III, § 322, 48 Stat. 1090; May 20, 1937, ch. 229, § 8, 50 Stat. 191.)

AMENDMENTS

1937—Act May 20, 1937, provided for radio communications with aircraft stations.

§ 323. Interference between Government and commercial stations

(a) At all places where Government and private or commercial radio stations on land operate in such close proximity that interference with the work of Government stations cannot be avoided when they are operating simultaneously, such private or commercial stations as

do interfere with the transmission or reception of radio communications or signals by the Government stations concerned shall not use their transmitters during the first fifteen minutes of each hour, local standard time.

(b) The Government stations for which the above-mentioned division of time is established shall transmit radio communications or signals only during the first fifteen minutes of each hour, local standard time, except in case of signals or radio communications relating to vessels in distress and vessel requests for information as to course, location, or compass direction.

(June 19, 1934, ch. 652, title III, §323, 48 Stat. 1090.)

§ 324. Use of minimum power

In all circumstances, except in case of radio communications or signals relating to vessels in distress, all radio stations, including those owned and operated by the United States, shall use the minimum amount of power necessary to carry out the communication desired.

(June 19, 1934, ch. 652, title III, §324, 48 Stat. 1091.)

§ 325. False, fraudulent, or unauthorized transmissions

(a) False distress signals; rebroadcasting programs

No person within the jurisdiction of the United States shall knowingly utter or transmit, or cause to be uttered or transmitted, any false or fraudulent signal of distress, or communication relating thereto, nor shall any broadcasting station rebroadcast the program or any part thereof of another broadcasting station without the express authority of the originating station.

(b) Consent to retransmission of broadcasting station signals

(1) Following the date that is one year after October 5, 1992, no cable system or other multichannel video programming distributor shall retransmit the signal of a broadcasting station, or any part thereof, except—

(A) with the express authority of the originating station; or

(B) pursuant to section 534 of this title, in the case of a station electing, in accordance with this subsection, to assert the right to carriage under such section.

(2) The provisions of this subsection shall not apply to—

(A) retransmission of the signal of a non-commercial broadcasting station;

(B) retransmission directly to a home satellite antenna of the signal of a broadcasting station that is not owned or operated by, or affiliated with, a broadcasting network, if such signal was retransmitted by a satellite carrier on May 1, 1991;

(C) retransmission of the signal of a broadcasting station that is owned or operated by, or affiliated with, a broadcasting network directly to a home satellite antenna, if the household receiving the signal is an unserved household; or

(D) retransmission by a cable operator or other multichannel video programming distributor of the signal of a superstation if such signal was obtained from a satellite carrier and the originating station was a superstation on May 1, 1991.

For purposes of this paragraph, the terms “satellite carrier”, “superstation”, and “unserved household” have the meanings given those terms, respectively, in section 119(d) of title 17 as in effect on October 5, 1992.

(3)(A) Within 45 days after October 5, 1992, the Commission shall commence a rulemaking proceeding to establish regulations to govern the exercise by television broadcast stations of the right to grant retransmission consent under this subsection and of the right to signal carriage under section 534 of this title, and such other regulations as are necessary to administer the limitations contained in paragraph (2). The Commission shall consider in such proceeding the impact that the grant of retransmission consent by television stations may have on the rates for the basic service tier and shall ensure that the regulations prescribed under this subsection do not conflict with the Commission’s obligation under section 543(b)(1) of this title to ensure that the rates for the basic service tier are reasonable. Such rulemaking proceeding shall be completed within 180 days after October 5, 1992.

(B) The regulations required by subparagraph (A) shall require that television stations, within one year after October 5, 1992, and every three years thereafter, make an election between the right to grant retransmission consent under this subsection and the right to signal carriage under section 534 of this title. If there is more than one cable system which services the same geographic area, a station’s election shall apply to all such cable systems.

(4) If an originating television station elects under paragraph (3)(B) to exercise its right to grant retransmission consent under this subsection with respect to a cable system, the provisions of section 534 of this title shall not apply to the carriage of the signal of such station by such cable system.

(5) The exercise by a television broadcast station of the right to grant retransmission consent under this subsection shall not interfere with or supersede the rights under section 534 or 535 of this title of any station electing to assert the right to signal carriage under that section.

(6) Nothing in this section shall be construed as modifying the compulsory copyright license established in section 111 of title 17 or as affecting existing or future video programming licensing agreements between broadcasting stations and video programmers.

(c) Broadcast to foreign countries for rebroadcast to United States; permit

No person shall be permitted to locate, use, or maintain a radio broadcast studio or other place or apparatus from which or whereby sound waves are converted into electrical energy, or mechanical or physical reproduction of sound waves produced, and caused to be transmitted or delivered to a radio station in a foreign country for the purpose of being broadcast from any

radio station there having a power output of sufficient intensity and/or being so located geographically that its emissions may be received consistently in the United States, without first obtaining a permit from the Commission upon proper application therefor.

(d) Application for permit

Such application shall contain such information as the Commission may by regulation prescribe, and the granting or refusal thereof shall be subject to the requirements of section 309 of this title with respect to applications for station licenses or renewal or modification thereof, and the license or permission so granted shall be revocable for false statements in the application so required or when the Commission, after hearings, shall find its continuation no longer in the public interest.

§ 326. Censorship

Nothing in this chapter shall be understood or construed to give the Commission the power of censorship over the radio communications or signals transmitted by any radio station, and no regulation or condition shall be promulgated or fixed by the Commission which shall interfere with the right of free speech by means of radio communication.

The Secretary of the Navy is authorized, unless restrained by international agreement, under the terms and conditions and at rates prescribed by him, which rates shall be just and reasonable, and which, upon complaint, shall be subject to review and revision by the Commission, to use all radio stations and apparatus,

wherever located, owned by the United States and under the control of the Navy Department, (a) for the reception and transmission of press messages offered by any newspaper published in the United States, its Territories or possessions, or published by citizens of the United States in foreign countries, or by any press association of the United States, and (b) for the reception and transmission of private commercial messages between ships, between ship and shore, between localities in Alaska and between Alaska and the continental United States: *Provided*, That the rates fixed for the reception and transmission of all such messages, other than press messages between the Pacific coast of the United States, Hawaii, Alaska, Guam, American Samoa, the Philippine Islands, and the Orient, and between the United States and the Virgin Islands, shall not be less than the rates charged by privately owned and operated stations for like messages and service: *Provided further*, That the right to use such stations for any of the purposes named in this section shall terminate and cease as between any countries or localities or between any locality and privately operated ships whenever privately owned and operated stations are capable of meeting the normal communication requirements between such countries or localities or between any locality and privately operated ships, and the Commission shall have notified the Secretary of the Navy thereof.

§ 331. Very high frequency stations and AM radio stations

(a) Very high frequency stations

It shall be the policy of the Federal Communications Commission to allocate channels for very high frequency commercial television broadcasting in a manner which ensures that not less than one such channel shall be allocated to each State, if technically feasible. In any case in which licensee of a very high frequency commercial television broadcast station notifies the Commission to the effect that such licensee will agree to the reallocation of its channel to a community within a State in which there is allocated no very high frequency commercial television broadcast channel at the time¹ such notification, the Commission shall, notwithstanding any other provision of law, order such reallocation and issue a license to such licensee for that purpose pursuant to such notification for a term of not to exceed 5 years as provided in section 307(d)² of this title.

(b) AM radio stations

It shall be the policy of the Commission, in any case in which the licensee of an existing AM daytime-only station located in a community with a population of more than 100,000 persons that lacks a local full-time aural station licensed to that community and that is located within a Class I station primary service area notifies the Commission that such licensee seeks to provide full-time service, to ensure that such a licensee is able to place a principal community contour signal over its entire community of license 24 hours a day, if technically feasible. The Commission shall report to the appropriate committees of Congress within 30 days after December 20, 1991, on how it intends to meet this policy goal.

§ 332. Mobile services

(a) Factors which Commission must consider

In taking actions to manage the spectrum to be made available for use by the private mobile services, the Commission shall consider, consistent with section 151 of this title, whether such actions will—

- (1) promote the safety of life and property;
- (2) improve the efficiency of spectrum use and reduce the regulatory burden upon spectrum users, based upon sound engineering principles, user operational requirements, and marketplace demands;
- (3) encourage competition and provide services to the largest feasible number of users; or
- (4) increase interservice sharing opportunities between private mobile services and other services.

(b) Advisory coordinating committees

(1) The Commission, in coordinating the assignment of frequencies to stations in the private mobile services and in the fixed services (as defined by the Commission by rule), shall have authority to utilize assistance furnished by advisory coordinating committees consisting of individuals who are not officers or employees of the Federal Government.

(2) The authority of the Commission established in this subsection shall not be subject to or affected by the provisions of part III of title 5 or section 1342 of title 31.

(3) Any person who provides assistance to the Commission under this subsection shall not be considered, by reason of having provided such assistance, a Federal employee.

(4) Any advisory coordinating committee which furnishes assistance to the Commission under this subsection shall not be subject to the provisions of the Federal Advisory Committee Act.

(c) Regulatory treatment of mobile services

(1) Common carrier treatment of commercial mobile services

(A) A person engaged in the provision of a service that is a commercial mobile service shall, insofar as such person is so engaged, be treated as a common carrier for purposes of this chapter, except for such provisions of subchapter II of this chapter as the Commission may specify by regulation as inapplicable to that service or person. In prescribing or

amending any such regulation, the Commission may not specify any provision of section 201, 202, or 208 of this title, and may specify any other provision only if the Commission determines that—

- (i) enforcement of such provision is not necessary in order to ensure that the charges, practices, classifications, or regulations for or in connection with that service are just and reasonable and are not unjustly or unreasonably discriminatory;
- (ii) enforcement of such provision is not necessary for the protection of consumers; and
- (iii) specifying such provision is consistent with the public interest.

(B) Upon reasonable request of any person providing commercial mobile service, the Commission shall order a common carrier to establish physical connections with such service pursuant to the provisions of section 201 of this title. Except to the extent that the Commission is required to respond to such a request, this subparagraph shall not be construed as a limitation or expansion of the Commission's authority to order interconnection pursuant to this chapter.

(C) The Commission shall review competitive market conditions with respect to commercial mobile services and shall include in its annual report an analysis of those conditions. Such analysis shall include an identification of the number of competitors in various commercial mobile services, an analysis of whether or not there is effective competition, an analysis of whether any of such competitors have a dominant share of the market for such services, and a statement of whether additional providers or classes of providers in those services would be likely to enhance competition. As a part of making a determination with respect to the public interest under subparagraph (A)(iii), the Commission shall consider whether the proposed regulation (or amendment thereof) will promote competitive market conditions, including the extent to which such regulation (or amendment) will enhance competition among providers of commercial mobile services. If the Commission determines that such regulation (or amendment) will promote competition among providers of commercial mobile services, such determination may be the basis for a Commission finding that such regulation (or amendment) is in the public interest.

(D) The Commission shall, not later than 180 days after August 10, 1993, complete a rule-making required to implement this paragraph with respect to the licensing of personal communications services, including making any determinations required by subparagraph (C).

(2) Non-common carrier treatment of private mobile services

A person engaged in the provision of a service that is a private mobile service shall not, insofar as such person is so engaged, be treated as a common carrier for any purpose under this chapter. A common carrier (other than a person that was treated as a provider of a private land mobile service prior to August 10,

1993) shall not provide any dispatch service on any frequency allocated for common carrier service, except to the extent such dispatch service is provided on stations licensed in the domestic public land mobile radio service before January 1, 1982. The Commission may by regulation terminate, in whole or in part, the prohibition contained in the preceding sentence if the Commission determines that such termination will serve the public interest.

(3) State preemption

(A) Notwithstanding sections 152(b) and 221(b) of this title, no State or local government shall have any authority to regulate the entry of or the rates charged by any commercial mobile service or any private mobile service, except that this paragraph shall not prohibit a State from regulating the other terms and conditions of commercial mobile services. Nothing in this subparagraph shall exempt providers of commercial mobile services (where such services are a substitute for land line telephone exchange service for a substantial portion of the communications within such State) from requirements imposed by a State commission on all providers of telecommunications services necessary to ensure the universal availability of telecommunications service at affordable rates. Notwithstanding the first sentence of this subparagraph, a State may petition the Commission for authority to regulate the rates for any commercial mobile service and the Commission shall grant such petition if such State demonstrates that—

- (i) market conditions with respect to such services fail to protect subscribers adequately from unjust and unreasonable rates or rates that are unjustly or unreasonably discriminatory; or
- (ii) such market conditions exist and such service is a replacement for land line telephone exchange service for a substantial portion of the telephone land line exchange service within such State.

The Commission shall provide reasonable opportunity for public comment in response to such petition, and shall, within 9 months after the date of its submission, grant or deny such petition. If the Commission grants such petition, the Commission shall authorize the State to exercise under State law such authority over rates, for such periods of time, as the Commission deems necessary to ensure that such rates are just and reasonable and not unjustly or unreasonably discriminatory.

(B) If a State has in effect on June 1, 1993, any regulation concerning the rates for any commercial mobile service offered in such State on such date, such State may, no later than 1 year after August 10, 1993, petition the Commission requesting that the State be authorized to continue exercising authority over such rates. If a State files such a petition, the State's existing regulation shall, notwithstanding subparagraph (A), remain in effect until the Commission completes all action (including any reconsideration) on such petition. The Commission shall review such petition in accordance with the procedures established in

such subparagraph, shall complete all action (including any reconsideration) within 12 months after such petition is filed, and shall grant such petition if the State satisfies the showing required under subparagraph (A)(i) or (A)(ii). If the Commission grants such petition, the Commission shall authorize the State to exercise under State law such authority over rates, for such period of time, as the Commission deems necessary to ensure that such rates are just and reasonable and not unjustly or unreasonably discriminatory. After a reasonable period of time, as determined by the Commission, has elapsed from the issuance of an order under subparagraph (A) or this subparagraph, any interested party may petition the Commission for an order that the exercise of authority by a State pursuant to such subparagraph is no longer necessary to ensure that the rates for commercial mobile services are just and reasonable and not unjustly or unreasonably discriminatory. The Commission shall provide reasonable opportunity for public comment in response to such petition, and shall, within 9 months after the date of its submission, grant or deny such petition in whole or in part.

(4) Regulatory treatment of communications satellite corporation

Nothing in this subsection shall be construed to alter or affect the regulatory treatment required by title IV of the Communications Satellite Act of 1962 [47 U.S.C. 741 et seq.] of the corporation authorized by title III of such Act [47 U.S.C. 731 et seq.].

(5) Space segment capacity

Nothing in this section shall prohibit the Commission from continuing to determine whether the provision of space segment capacity by satellite systems to providers of commercial mobile services shall be treated as common carriage.

(6) Foreign ownership

The Commission, upon a petition for waiver filed within 6 months after August 10, 1993, may waive the application of section 310(b) of this title to any foreign ownership that lawfully existed before May 24, 1993, of any provider of a private land mobile service that will be treated as a common carrier as a result of the enactment of the Omnibus Budget Reconciliation Act of 1993, but only upon the following conditions:

(A) The extent of foreign ownership interest shall not be increased above the extent which existed on May 24, 1993.

(B) Such waiver shall not permit the subsequent transfer of ownership to any other person in violation of section 310(b) of this title.

(d) Definitions

For purposes of this section—

(1) the term "commercial mobile service" means any mobile service (as defined in section 153(n) of this title) that is provided for profit and makes interconnected service available (A) to the public or (B) to such classes of eligible users as to be effectively available to

(2) the term “interconnected service” means service that is interconnected with the public switched network (as such terms are defined by regulation by the Commission) or service for which a request for interconnection is pending pursuant to subsection (c)(1)(B) of this section; and

§ 335. Direct broadcast satellite service obligations

(a) Proceeding required to review DBS responsibilities

The Commission shall, within 180 days after October 5, 1992, initiate a rulemaking proceeding to impose, on providers of direct broadcast satellite service, public interest or other requirements for providing video programming. Any regulations prescribed pursuant to such rulemaking shall, at a minimum, apply the access to broadcast time requirement of section 312(a)(7) of this title and the use of facilities requirements of section 315 of this title to providers of direct broadcast satellite service providing video programming. Such proceeding also shall examine the opportunities that the establishment of direct broadcast satellite service provides for the principle of localism under this chapter, and the methods by which such principle may be served through technological and other developments in, or regulation of, such service.

(b) Carriage obligations for noncommercial, educational, and informational programming

(1) Channel capacity required

The Commission shall require, as a condition of any provision, initial authorization, or authorization renewal for a provider of direct broadcast satellite service providing video programming, that the provider of such service reserve a portion of its channel capacity, equal to not less than 4 percent nor more than 7 percent, exclusively for noncommercial programming of an educational or informational nature.

(3) Prices, terms, and conditions; editorial control

A provider of direct broadcast satellite service shall meet the requirements of this subsection by making channel capacity available to national educational programming suppliers, upon reasonable prices, terms, and conditions, as determined by the Commission under paragraph (4). The provider of direct broadcast satellite service shall not exercise any editorial control over any video programming provided pursuant to this subsection.

(4) Limitations

In determining reasonable prices under paragraph (3)—

(C) in the calculation of total direct costs, the Commission shall exclude—

Act Aug. 3, 1956, ch. 913, 70 Stat. 967, authorized the Federal Communications Commission, the United States Coast Guard, and the Federal Maritime Administration, acting jointly, to make a full and complete study and investigation with respect to the need for installing automatic radiotelegraph call selectors on cargo ships of the United States carrying less than two radio operators, and other such safety devices, and the feasibility thereof, and required a report to the Congress not later than Mar. 1, 1957.

§ 354. Technical requirements of equipment on radiotelegraph equipped ships

The radiotelegraph station and the radio direction finding apparatus required by section 351 of this title shall comply with the following requirements:

(a) The radiotelegraph station shall include a main installation and a reserve installation, electrically separate and electrically independent of each other: *Provided*, That, in installations on cargo ships of three hundred gross tons and upward but less than one thousand six hundred gross tons, and in installations on cargo ships of one thousand six hundred gross tons and upward installed prior to November 19, 1952, if the main transmitter complies with all the requirements for the reserve transmitter, the latter may be omitted.

(b) The radiotelegraph station shall be so located that no harmful interference from extraneous mechanical or other noise will be caused to the proper reception of radio signals, and shall be placed in the upper part of the ship in a position of the greatest possible safety and as high as practicable above the deepest load waterline. The location of the radiotelegraph operating room or rooms shall be approved by the Commandant of the Coast Guard. The radiotelegraph installation shall be installed in such a position that it will be protected against the harmful effects of water or extremes of temperature, and shall be readily accessible both for immediate use in case of distress and for repair.

(c) The radiotelegraph operating room shall be of sufficient size and of adequate ventilation to enable the main and reserve radiotelegraph installations to be operated efficiently, and shall not be used for any purpose which will interfere with the operation of the radiotelegraph station. The sleeping accommodation of at least one radio officer shall be situated as near as practicable to the radiotelegraph operating room. In ships the keels of which are laid on or after May 26, 1965, this sleeping accommodation shall not be within the radiotelegraph operating room.

(d) The main and reserve installations shall be capable of transmitting and receiving on the frequencies, and using the classes of emission, designated by the Commission pursuant to law for the purposes of distress and safety of navigation.

minimum normal range of two hundred nautical miles and one hundred nautical miles, respectively; that is, they must be capable of transmitting and receiving clearly perceptible signals from ship to ship by day and under normal conditions and circumstances over the specified ranges.

(f) Sufficient electrical energy shall be available at all times to operate the main installation over the normal range required by subsection (e) of this section as well as for the purpose of charging any batteries forming part of the radiotelegraph station.

(g) The reserve installation shall include a source of electrical energy independent of the propelling power of the ship and of any other electrical system and shall be capable of being put into operation rapidly and of working for at least six continuous hours. The reserve source of energy and its switchboard shall be as high as practicable in the ship and readily accessible to the radio officer.

(h) There shall be provided between the bridge of the ship and the radiotelegraph operating room, and between the bridge and the location of the radio direction finding apparatus, when such apparatus is not located on the bridge, an efficient two-way system for calling and voice communication which shall be independent of any other communication system in the ship.

(i) The radio direction finding apparatus shall be efficient and capable of receiving signals with the minimum of receiver noise and of taking bearings from which the true bearing and direction may be determined. It shall be capable of receiving signals on the radiotelegraph frequencies assigned by the radio regulations annexed to the International Telecommunication Convention in force for the purposes of distress, direction finding, and maritime radio beacons, and, in installations made after May 26, 1965, such other frequencies as the Commission may for safety purposes designate.

The Secretary shall establish such rules and regulations as may be necessary to carry out this subpart, including rules and regulations relating to the order of priority in approving applications for construction projects and relating to determining the amount of each grant for such projects.

(f) Minorities and women

In establishing criteria for grants pursuant to section 393 of this title and in establishing procedures relating to the order of priority established in subsection (e) of this section in approving applications for grants, the Secretary shall give special consideration to applications which would increase minority and women's ownership of, operation of, and participation in public telecommunications entities. The Secretary shall take affirmative steps to inform minorities and women of the availability of funds under this subpart, and the localities where new public telecommunications facilities are needed, and to provide such other assistance and information as may be appropriate.

(g) Recovering funds

If, within 10 years after completion of any project for construction of public telecommunications facilities with respect to which a grant has been made under this section—

(1) the applicant or other owner of such facilities ceases to be an agency, institution, foundation, corporation, association, or other entity described in subsection (a)(1) of this section; or

(2) such facilities cease to be used primarily for the provision of public telecommunications services (or the use of such public telecommunications facilities for purposes other than the provision of public telecommunications services interferes with the provision of such public telecommunications services as required in this part);

the United States shall be entitled to recover from the applicant or other owner of such facilities the amount bearing the same ratio to the value of such facilities at the time the applicant ceases to be such an entity or at the time of such determination (as determined by agreement of the parties or by action brought in the United States district court for the district in which such facilities are situated), as the amount of the Federal participation bore to the cost of construction of such facilities.

(h) Recordkeeping requirements

Each recipient of assistance under this subpart shall keep such records as may be reasonably necessary to enable the Secretary to carry out the functions of the Secretary under this subpart, including a complete and itemized inventory of all public telecommunications facilities under the control of such recipient, and records which fully disclose the amount and the disposition by such recipient of the proceeds of such assistance, the total cost of the project in connection with which such assistance is given or used, the amount and nature of that portion of the cost of the project supplied by other sources, and such other records as will facilitate an effective audit.

(i) Accessibility of records

The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, and records of any recipient of assistance under this subpart that are pertinent to assistance received under this subpart.

§ 394. Establishment of National Endowment

(a) Purpose

It is the purpose of this section to enhance the education of children through the creation and production of television programming specifically directed toward the development of fundamental intellectual skills.

(b) Establishment; contracts and grants

(1) There is established, under the direction of the Secretary, a National Endowment for Children's Educational Television. In administering the National Endowment, the Secretary is authorized to—

(A) contract with the Corporation for the production of educational television programming for children; and

(B) make grants directly to persons proposing to create and produce educational television programming for children.

The Secretary shall consult with the Advisory Council on Children's Educational Television in the making of the grants or the awarding of contracts for the purpose of making the grants.

(2) Contracts and grants under this section shall be made on the condition that the programming shall—

(A) during the first two years after its production, be made available only to public television licensees and permittees and noncommercial television licensees and permittees; and

(B) thereafter be made available to any commercial television licensee or permittee or cable television system operator, at a charge established by the Secretary that will assure the maximum practicable distribution of such programming, so long as such licensee, permittee, or operator does not interrupt the programming with commercial advertisements.

The Secretary may, consistent with the purpose and provisions of this section, permit the programming to be distributed to persons using other media, establish conditions relating to such distribution, and apply those conditions to any contract or grant made under this section. The Secretary may waive the requirements of subparagraph (A) if the Secretary finds that neither public television licensees and permittees nor noncommercial television licensees and permittees will have an opportunity to air such programming in the first two years after its production.

(c) Criteria for contracts and grants; applications for contracts and grants

(1) The Secretary, with the advice of the Advisory Council on Children's Educational Television, shall establish criteria for making contracts and grants under this section. Such criteria shall be consistent with the purpose and provisions of this section and shall be made available to interested parties upon request. Such criteria shall include—

(A) criteria to maximize the amount of programming that is produced with the funds made available by the Endowment;

(B) criteria to minimize the costs of—

(i) selection of grantees,

(ii) administering the contracts and grants, and

(iii) the administrative costs of the programming production; and

(C) criteria to otherwise maximize the proportion of funds made available by the Endowment that are expended for the cost of programming production.

(2) Applications for grants under this section shall be submitted to the Secretary in such form and containing such information as the Secretary shall require by regulation.

(d) Amount of grants

Upon approving any application for a grant under subsection (b)(1)(B) of this section, the Secretary shall make a grant to the applicant in an amount determined by the Secretary, except that such amounts shall not exceed 75 percent of the amount determined by the Secretary to be the reasonable and necessary cost of the project for which the grant is made.

(e) Advisory Council on Children's Educational Television

(1) The Secretary shall establish an Advisory Council on Children's Educational Television. The Secretary shall appoint ten individuals as members of the Council and designate one of such members to serve as Chairman.

(4) The Council shall meet at the call of the Chairman and shall advise the Secretary concerning the making of contracts and grants under this section.

(f) Recordkeeping relating to grants; audits

(1) Each recipient of a grant under this section shall keep such records as may be reasonably necessary to enable the Secretary to carry out the Secretary's functions under this section, including records which fully disclose the amount and the disposition by such recipient of the proceeds of such grant, the total cost of the project, the amount and nature of that portion of the cost of the project supplied by other sources, and such other records as will facilitate an effective audit.

(2) The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purposes of audit and examination to any books, documents, papers, and records of the recipient that are pertinent to a grant received under this section.

(g) Issuance of rules and regulations

There are authorized to be appropriated \$2,000,000 for fiscal year 1991, \$4,000,000 for fiscal year 1992, \$5,000,000 for fiscal year 1993, and \$6,000,000 for fiscal year 1994 to be used by the Secretary to carry out the provisions of this section. Sums appropriated under this subsection for any fiscal year shall remain available for contracts and grants for projects for which applications approved under this section have been submitted within¹ one year after the last day of such fiscal year.

TERMINATION OF ADVISORY COUNCILS

Advisory councils established after Jan. 5, 1973, to terminate not later than the expiration of the 2-year period beginning on the date of their establishment, unless, in the case of a council established by the President or an officer of the Federal Government, such council is renewed by appropriate action prior to the expiration of such 2-year period, or in the case of a council established by Congress, its duration is otherwise provided by law. See sections 3(2) and 14 of Pub. L. 92-463, Oct. 6, 1972, 86 Stat. 770, 776, set out in the Appendix to Title 5, Government Organization and Employees.

CONGRESSIONAL FINDINGS

Section 202 of Pub. L. 101-437 provided that: "The Congress finds that—

"(1) children in the United States are lagging behind those in other countries in fundamental intellectual skills, including reading, writing, mathematics, science, and geography;

"(2) these fundamental skills are essential for the future governmental and industrial leadership of the United States;

"(3) the United States must act now to greatly improve the education of its children;

"(4) television is watched by children about three hours each day on average and can be effective in teaching children;

"(5) educational television programming for children is aired too infrequently either because public broadcast licensees and permittees lack funds or because commercial broadcast licensees and permittees or cable television system operators do not have the economic incentive; and

"(6) the Federal Government can assist in the creation of children's educational television by establishing a National Endowment for Children's Educational Television to supplement the children's educational programming funded by other governmental entities."

(II) 7 percent of such amounts shall be available for distribution under subparagraph (B)(i) for public radio programming; and

(III) 23 percent of such amounts shall be available for distribution among the licensees and permittees of public radio stations pursuant to paragraph (6)(B), solely to be used for acquiring or producing programming that is to be distributed nationally and is designed to serve the needs of a national audience.

(II) Of the amounts received as the result of any contract, lease agreement, or any other arrangement under which the Corporation directly or indirectly makes available interconnection facilities, 50 percent of such amounts shall be distributed to the licensees and permittees of public television stations and public radio stations. The Corporation shall not have any authority to establish any requirements, guidelines, or limitations with respect to the use of such amounts by such licensees and permittees.

(I) 75 percent shall be available for distribution for the purposes referred to in clause (ii)(II); and

(II) 25 percent shall be available for distribution for the purposes referred to in clause (iii)(II) and (III).

(B)(i) The Corporation shall utilize the funds allocated pursuant to subparagraph (A)(ii)(II) and subparagraph (A)(iii)(II) to make grants for production of public television or radio programs by independent producers and production entities and public telecommunications entities, producers of national children's educational programming, and producers of programs addressing the needs and interests of minorities, and for acquisition of such programs by public telecommunications entities. (iii)(I) For fiscal year 1990 and succeeding fiscal years, the Corporation shall, in carrying out its obligations under clause (i) with respect to public television programming, provide adequate funds for an independent production service.

(II) Such independent production service shall be separate from the Corporation and shall be incorporated under the laws of the District of Columbia for the purpose of contracting with the Corporation for the expenditure of funds for the production of public television programs by independent producers and independent production entities.

(III) The Corporation shall work with organizations or associations of independent producers

or independent production entities to develop a plan and budget for the operation of such service that is acceptable to the Corporation.

(IV) The Corporation shall ensure that the funds provided to such independent production service shall be used exclusively in pursuit of the Corporation's obligation to expand the diversity and innovativeness of programming available to public broadcasting.

(V) The Corporation shall report annually to Congress regarding the activities and expenditures of the independent production service, including carriage and viewing information for programs produced or acquired with funds provided pursuant to subclause (I). At the end of fiscal years 1992, 1993, 1994, and 1995, the Corporation shall submit a report to Congress evaluating the performance of the independent production service in light of its mission to expand the diversity and innovativeness of programming available to public broadcasting.

(VI) The Corporation shall not contract to provide funds to any such independent production service, unless that service agrees to comply with public inspection requirements established by the Corporation within 3 months after August 26, 1992. Under such requirements the service shall maintain at its offices a public file, updated regularly, containing information relating to the service's award of funds for the production of programming. The information shall be available for public inspection and copying for at least 3 years and shall be of the same kind as the information required to be maintained by the Corporation under subsection (I)(4)(B) of this section.

(4) Funds may not be distributed pursuant to this subsection to the Public Broadcasting Service or National Public Radio (or any successor organization), or to the licensee or permittee of any public broadcast station, unless the governing body of any such organization, any committee of such governing body, or any advisory body of any such organization, holds open meetings preceded by reasonable notice to the public. All persons shall be permitted to attend any meeting of the board, or of any such committee or body, and no person shall be required, as a condition to attendance at any such meeting, to register such person's name or to provide any other information. Nothing contained in this paragraph shall be construed to prevent any such board, committee, or body from holding closed sessions to consider matters relating to individual employees, proprietary information, litigation and other matters requiring the confidential advice of counsel, commercial or financial information obtained from a person on a privileged or confidential basis, or the purchase of property or services whenever the premature exposure of such purchase would compromise the business interests of any such organization. If any such meeting is closed pursuant to the provisions of this paragraph, the organization involved shall thereafter (within a reasonable period of time) make available to the public a written statement containing an explanation of the reasons for closing the meeting.

(5) Funds may not be distributed pursuant to this subsection to any public telecommunications entity that does not maintain for public

examination copies of the annual financial and audit reports, or other information regarding finances, submitted to the Corporation pursuant to subsection (l)(3)(B) of this section.

(6)(A) The Corporation shall conduct a study and prepare a plan, in consultation with public television licensees (or designated representatives of those licensees) and the Public Broadcasting Service, on how funds available to the Corporation under paragraph (3)(A)(ii)(II) can be best allocated to meet the objectives of this chapter with regard to national public television programming. The plan, which shall be based on the conclusions resulting from the study, shall be submitted by the Corporation to the Congress not later than January 31, 1990. Unless directed otherwise by an Act of Congress, the Corporation shall implement the plan during the first fiscal year beginning after the fiscal year in which the plan is submitted to Congress.

(B) The Corporation shall make a basic grant from the portion reserved for television stations under paragraph (3)(A)(ii)(I) to each licensee and permittee of a public television station that is on the air. The Corporation shall assist radio stations to maintain and improve their service where public radio is the only broadcast service available. The balance of the portion reserved for television stations and the total portion reserved for radio stations under paragraph (3)(A)(iii)(I) shall be distributed to licensees and permittees of such stations in accordance with eligibility criteria (which the Corporation shall review periodically in consultation with public radio and television licensees or permittees, or their designated representatives) that promote the public interest in public broadcasting, and on the basis of a formula designed to—

(i) provide for the financial needs and requirements of stations in relation to the communities and audiences such stations undertake to serve;

(ii) maintain existing, and stimulate new, sources of non-Federal financial support for stations by providing incentives for increases in such support; and

(iii) assure that each eligible licensee and permittee of a public radio station receives a basic grant.

(7) The funds distributed pursuant to paragraph (3)(A)(ii)(I) and (iii)(I) may be used at the discretion of the recipient for purposes related primarily to the production or acquisition of programming.

(8)(A) Funds may not be distributed pursuant to this subpart to any public broadcast station (other than any station which is owned and operated by a State, a political or special purpose subdivision of a State, or a public agency) unless such station establishes a community advisory board. Any such station shall undertake good faith efforts to assure that (i) its advisory board meets at regular intervals; (ii) the members of its advisory board regularly attend the meetings of the advisory board; and (iii) the composition of its advisory board are² reasonably representative of the diverse needs and interests of the communities served by such station.

(B) The board shall be permitted to review the programming goals established by the station,

the service provided by the station, and the significant policy decisions rendered by the station. The board may also be delegated any other responsibilities, as determined by the governing body of the station. The board shall advise the governing body of the station with respect to whether the programming and other policies of such station are meeting the specialized educational and cultural needs of the communities served by the station, and may make such recommendations as it considers appropriate to meet such needs.

(C) The role of the board shall be solely advisory in nature, except to the extent other responsibilities are delegated to the board by the governing body of the station. In no case shall the board have any authority to exercise any control over the daily management or operation of the station.

(D) In the case of any public broadcast station (other than any station which is owned and operated by a State, a political or special purpose subdivision of a State, or a public agency) in existence on November 2, 1978, such station shall comply with the requirements of this paragraph with respect to the establishment of a community advisory board not later than 180 days after November 2, 1978.

(E) The provision of subparagraph (A) prohibiting the distribution of funds to any public broadcast station (other than any station which is owned and operated by a State, a political or special purpose subdivision of a State, or a public agency) unless such station establishes a community advisory board shall be the exclusive remedy for the enforcement of the provisions of this paragraph.

(9) Funds may not be distributed pursuant to this subsection to the Public Broadcasting Service or National Public Radio (or any successor organization) unless assurances are provided to the Corporation that no officer or employee of the Public Broadcasting Service or National Public Radio (or any successor organization), as the case may be, will be compensated at an annual rate of pay which exceeds the rate of basic pay in effect from time to time for level I of the Executive Schedule under section 5312 of title 5, and unless further assurances are provided to the Corporation that no officer or employee of such an entity will be loaned money by that entity on an interest-free basis.

(10)(A) There is hereby established in the Treasury a fund which shall be known as the Public Broadcasting Satellite Interconnection Fund (hereinafter in this subsection referred to as the "Satellite Interconnection Fund"), to be administered by the Secretary of the Treasury.

(B) There is authorized to be appropriated to the Satellite Interconnection Fund, for fiscal year 1991, the amount of \$200,000,000. If such amount is not appropriated in full for fiscal year 1991, the portion of such amount not yet appropriated is authorized to be appropriated for fiscal years 1992 and 1993. Funds appropriated to the Satellite Interconnection Fund shall remain available until expended.

(C) The Secretary of the Treasury shall make available and disburse to the Corporation, at the beginning of fiscal year 1991 and of each succeeding fiscal year thereafter, such funds as have

(D) Notwithstanding any other provision of this subsection except paragraphs (4), (5), (8), and (9), all funds appropriated to the Satellite Interconnection Fund and interest thereon—

(i) shall be distributed by the Corporation to the licensees and permittees of noncommercial educational television broadcast stations providing public telecommunications services or the national entity they designate for satellite interconnection purposes and to those public telecommunications entities participating in the public radio satellite interconnection system or the national entity they designate for satellite interconnection purposes, exclusively for the capital costs of the replacement, refurbishment, or upgrading of their national satellite interconnection systems and associated maintenance of such systems; and

(ii) shall not be used for the administrative costs of the Corporation, the salaries or related expenses of Corporation personnel and members of the Board, or for expenses of consultants and advisers to the Corporation.

(1)(A) Funds may not be distributed pursuant to this subsection for any fiscal year to the licensee or permittee of any public broadcast station if such licensee or permittee—

(i) fails to certify to the Corporation that such licensee or permittee complies with the Commission's regulations concerning equal employment opportunity as published under section 73.2080 of title 47, Code of Federal Regulations, or any successor regulations thereto; or

(ii) fails to submit to the Corporation the report required by subparagraph (B) for the preceding calendar year.

(B) A licensee or permittee of any public broadcast station with more than five full-time employees to file annually with the Corporation a statistical report, consistent with reports required by Commission regulation, identifying by race and sex the number of employees in each of the following full-time and part-time job categories:

- (iii) Technicians.
- (iv) Semiskilled operatives.
- (v) Skilled craft persons.
- (vi) Clerical and office personnel.
- (vii) Unskilled operatives.
- (viii) Service workers.

(C) In addition, such report shall state the number of job openings occurring during the course of the year. Where the job openings were filled in accordance with the regulations described in subparagraph (A)(i), the report shall so certify, and where the job openings were not filled in accordance with such regulations, the report shall contain a statement providing reasons therefor. The statistical report shall be available to the public at the central office and at every location where more than five full-time employees are regularly assigned to work.

(I) Financial management and records

(1)(A) The accounts of the Corporation shall be audited annually in accordance with generally

accepted auditing standards by independent certified public accountants or independent licensed public accountants certified or licensed by a regulatory authority of a State or other political subdivision of the United States, except that such requirement shall not preclude shared auditing arrangements between any public telecommunications entity and its licensee where such licensee is a public or private institution. The audits shall be conducted at the place or places where the accounts of the Corporation are normally kept. All books, accounts, financial records, reports, files, and all other papers, things, or property belonging to or in use by the Corporation and necessary to facilitate the audits shall be made available to the person or persons conducting the audits; and full facilities for verifying transactions with the balances or securities held by depositories, fiscal agents and custodians shall be afforded to such person or persons.

(B) The report of each such independent audit shall be included in the annual report required by subsection (i) of this section. The audit report shall set forth the scope of the audit and include such statements as are necessary to present fairly the Corporation's assets and liabilities, surplus or deficit, with an analysis of the changes therein during the year, supplemented in reasonable detail by a statement of the Corporation's income and expenses during the year, and a statement of the sources and application of funds, together with the independent auditor's opinion of those statements.

(2)(A) The financial transactions of the Corporation for any fiscal year during which Federal funds are available to finance any portion of its operations may be audited by the General Accounting Office in accordance with the principles and procedures applicable to commercial corporate transactions and under such rules and regulations as may be prescribed by the Comptroller General of the United States. (v) Reports which the Corporation shall require to be provided by the awardee relating to national public broadcasting programming funded, produced, or acquired by the awardee with such funds. Such reports shall include, where applicable, the information described in clauses (i), (ii), and (iii), but shall exclude proprietary, confidential, or privileged information.

Such assessment shall address the needs of racial and ethnic minorities, new immigrant populations, people for whom English is a second language, and adults who lack basic reading skills.

(B) The Secretary shall provide for close coordination with the Commission in the administration of the responsibilities of the Secretary under this subsection which are of interest to or affect the functions of the Commission so that, to the maximum extent possible consistent with the enforcement responsibilities of each, the reporting requirements of public telecommunications entities shall be uniformly based upon consistent definitions and categories of information.

(3)(A) The Corporation shall incorporate into each grant agreement or contract with any recipient entered into on or after the effective date of the rules and regulations prescribed by the Secretary pursuant to paragraph (2)(A), a statement indicating that, as a material part of the terms and conditions of the grant agreement or contract, the recipient will comply with the provisions of paragraph (1) and the rules and regulations prescribed pursuant to paragraph (2)(A). Any person which desires to be a recipient (within the meaning of paragraph (1)) of funds under subpart C¹ shall, before receiving any such funds, provide to the Corporation any information which the Corporation may require to satisfy itself that such person is affording equal opportunity in employment in accordance with the requirements of this subsection. Determinations made by the Corporation in accordance with the preceding sentence shall be based upon guidelines relating to equal opportunity in employment which shall be established by rule by the Secretary.

(B) If the Corporation is not satisfied that any such person is affording equal opportunity in employment in accordance with the requirements of this subsection, the Corporation shall notify the Secretary, and the Secretary shall review the matter and make a final determination regarding whether such person is affording equal opportunity in employment. In any case in which the Secretary conducts a review under the preceding sentence, the Corporation shall make funds available to the person involved pursuant to the grant application of such person (if the Corporation would have approved such application but for the finding of the Corporation under this paragraph) pending a final determination of the Secretary upon completion of such review. The Corporation shall monitor the equal employment opportunity practices of each recipient throughout the duration of the grant or contract.

(C) The provisions of subparagraph (A) and subparagraph (B) shall take effect on the effective date of the rules and regulations prescribed by the Secretary pursuant to paragraph (2)(A).

(4) Based upon its responsibilities under paragraph (3), the Corporation shall provide an annual report for the preceding fiscal year ending September 30 to the Secretary on or before the 15th day of February of each year. The report shall contain information in the form required by the Secretary. The Corporation shall submit a summary of such report to the President and the Congress as part of the report required in section 396(i) of this title. The Corporation shall

provide other information in the form which the Secretary may require in order to carry out the functions of the Secretary under this subsection.

(5) Whenever the Secretary makes a final determination, pursuant to the rules and regulations which the Secretary shall prescribe, that a recipient is not in compliance with paragraph (1), the Secretary shall, within 10 days after such determination, notify the recipient in writing of such determination and request the recipient to secure compliance. Unless the recipient within 120 days after receipt of such written notice—

(A) demonstrates to the Secretary that the violation has been corrected; or

(B) enters into a compliance agreement approved by the Secretary;

the Secretary shall direct the Corporation to reduce or suspend any further payments of funds under this part to the recipient and the Corporation shall comply with such directive. Resumption of payments shall take place only when the Secretary certifies to the Corporation that the recipient has entered into a compliance agreement approved by the Secretary. A recipient whose funds have been reduced or suspended under this paragraph may apply at any time to the Secretary for such certification.

(c) Control over content or distribution of programs

Nothing in this section shall be construed to authorize any department, agency, officer, or employee of the United States to exercise any direction, supervision, or control over the content or distribution of public telecommunications programs and services, or over the curriculum or program of instruction of any educational institution or school system.

Such notice of appeal shall contain a concise statement of the nature of the proceedings as to which the appeal is taken; a concise statement of the reasons on which the appellant intends to rely, separately stated and numbered; and proof of service of a true copy of said notice and statement upon the Commission. Upon filing of such notice, the court shall have jurisdiction of the proceedings and of the questions determined therein and shall have power, by order, directed to the Commission or any other party to the appeal, to grant such temporary relief as it may deem just and proper. Orders granting temporary relief may be either affirmative or negative in their scope and application so as to permit either the maintenance of the status quo in the matter in which the appeal is taken or the restoration of a position or status terminated or adversely affected by the order appealed from and shall, unless otherwise ordered by the court, be effective pending hearing and determination of said appeal and compliance by the Commission with the final judgment of the court rendered in said appeal.

The record and briefs upon which any such appeal shall be heard and determined by the court shall contain such information and material, and shall be prepared within such time and in such manner as the court may by rule prescribe.

(g) Time of hearing; procedure

The court shall hear and determine the appeal upon the record before it in the manner prescribed by section 706 of title 5.

§ 403. Inquiry by Commission on its own motion

The Commission shall have full authority and power at any time to institute an inquiry, on its own motion, in any case and as to any matter or thing concerning which complaint is authorized to be made, to or before the Commission by any provision of this chapter, or concerning which any question may arise under any of the provisions of this chapter, or relating to the enforcement of any of the provisions of this chapter. The Commission shall have the same powers and authority to proceed with any inquiry instituted on its own motion as though it had been ap-

Reconsiderations shall be governed by such general rules as the Commission may establish, except that no evidence other than newly discovered evidence, evidence which has become available only since the original taking of evidence, or evidence which the Commission or designated authority within the Commission believes should have been taken in the original proceeding shall be taken on any reconsideration. The time within which a petition for review must be filed in a proceeding to which section 402(a) of this title applies, or within which an appeal must be taken under section 402(b) of this title in any case, shall be computed from the date upon which the Commission gives public notice of the order, decision, report, or action complained of.

(b)(1) Within 90 days after receiving a petition for reconsideration of an order concluding a hearing under section 204(a) of this title or concluding an investigation under section 208(b) of this title, the Commission shall issue an order granting or denying such petition.

§ 406. Compelling furnishing of facilities; mandamus; jurisdiction

The district courts of the United States shall have jurisdiction upon the relation of any person alleging any violation, by a carrier subject to this chapter, of any of the provisions of this chapter which prevent the relator from receiving service in interstate or foreign communication by wire or radio, or in interstate or foreign transmission of energy by radio, from said carrier at the same charges, or upon terms or conditions as favorable as those given by said carrier for like communication or transmission under similar conditions to any other person, to issue a writ or writs of mandamus against said carrier commanding such carrier to furnish facilities for such communication or transmission to the party applying for the writ: *Provided*, That if any question of fact as to the proper compensation to the carrier for the service to be enforced by the writ is raised by the pleadings, the writ of peremptory mandamus may issue, notwithstanding such question of fact is undetermined, upon such terms as to security, payment of money into the court, or otherwise, as the court may think proper pending the determination of the question of fact: *Provided further*, That the remedy given by writ of mandamus shall be cumulative and shall not be held to exclude or interfere with other remedies provided by this chapter.

§ 407. Order for payment of money; petition for enforcement; procedure; order of Commission as prima facie evidence; costs; attorneys' fees

AMENDMENTS

1982—Pub. L. 97-259 substituted provision that all orders of the Commission but for payment of money shall take effect thirty calendar days from the date upon which public notice of the order is given, unless the Commission designates a different effective date, and that such orders shall continue in force for the period of time specified in the order or until the Commission or a court of competent jurisdiction issues a superseding order, for provision that such orders would take effect within such reasonable time, not less than thirty days after service of the order, and would continue in force until its further order, or for a specified period of time, as prescribed in the order, unless the same were suspended or modified or set aside by the Commission, or suspended or set aside by a court of competent jurisdiction.

§ 409. Hearings

(a) Filing of initial decisions; exceptions

In every case of adjudication (as defined in section 551 of title 5) which has been designated by the Commission for hearing, the person or persons conducting the hearing shall prepare and file an initial, tentative, or recommended decision, except where such person or persons become unavailable to the Commission or where the Commission finds upon the record that due and timely execution of its functions imperatively and unavoidably require that the record be certified to the Commission for initial or final decision.

(b) Exceptions to initial decisions; memoranda; determination of Commission or authority within Commission; prohibition against consideration of own decision

In every case of adjudication (as defined in section 551 of title 5) which has been designated by the Commission for hearing, any party to the proceeding shall be permitted to file exceptions and memoranda in support thereof to the initial, tentative, or recommended decision, which shall be passed upon by the Commission or by the authority within the Commission, if any, to whom

the function of passing upon the exceptions is delegated under section 155(d)(1)¹ of this title: *Provided, however*, That such authority shall not be the same authority which made the decision to which the exception is taken.

(c) Notice and opportunity for participation by parties; applicability of administrative procedure provisions

(1) In any case of adjudication (as defined in section 551 of title 5) which has been designated by the Commission for a hearing, no person who has participated in the presentation or preparation for presentation of such case at the hearing or upon review shall (except to the extent required for the disposition of ex parte matters as authorized by law) directly or indirectly make any additional presentation respecting such case to the hearing officer or officers or to the Commission, or to any authority within the Commission to whom, in such case, review functions have been delegated by the Commission under section 155(d)(1)¹ of this title, unless upon notice and opportunity for all parties to participate.

(2) The provision in section 554(d) of title 5 which states that such subsection shall not apply in determining applications for initial licenses, shall not be applicable hereafter in the case of applications for initial licenses before the Federal Communications Commission.

(d) Applicability of administrative procedure provisions

To the extent that the foregoing provisions of this section and section 155(d)¹ of this title are in conflict with the provisions of subchapter II of chapter 5, and chapter 7, of title 5, such provisions of this section and section 155(d)¹ of this title shall be held to supersede and modify the provisions of subchapter II of chapter 5, and chapter 7, of title 5.

(e) Subpenas; witnesses; production of documents; fees and mileage

For the purposes of this chapter the Commission shall have the power to require by subpoena the attendance and testimony of witnesses and the production of all books, papers, schedules of charges, contracts, agreements, and documents relating to any matter under investigation. Witnesses summoned before the Commission shall be paid the same fees and mileage that are paid witnesses in the courts of the United States.

(f) Designated place of hearing; aid in enforcement of orders

Such attendance of witnesses, and the production of such documentary evidence, may be required from any place in the United States, at any designated place of hearing. And in case of disobedience to a subpoena the Commission, or any party to a proceeding before the Commission, may invoke the aid of any court of the United States in requiring the attendance and testimony of witnesses and the production of books, papers, and documents under the provisions of this section.

(g) Contempts

Any of the district courts of the United States within the jurisdiction of which such inquiry is

carried on may, in case of contumacy or refusal to obey a subpoena issued to any common carrier or licensee or other person, issue an order requiring such common carrier, licensee, or other person to appear before the Commission (and produce books and papers if so ordered) and give evidence touching the matter in question; and any failure to obey such order of the court may be punished by such court as a contempt thereof.

(h) Depositions

The testimony of any witness may be taken, at the instance of a party, in any proceeding or investigation pending before the Commission, by deposition, at any time after a cause or proceeding is at issue on petition and answer. The Commission may also order testimony to be taken by deposition in any proceeding or investigation pending before it, at any stage of such proceeding or investigation. Such depositions may be taken before any judge of any court of the United States, or any United States commissioner, or any clerk of a district court, or any chancellor, justice, or judge of a supreme or superior court, mayor, or chief magistrate of a city, judge of a county court, or court of common pleas of any of the United States, or any notary public, not being of counsel or attorney to either of the parties, nor interested in the event of the proceeding or investigation. Reasonable notice must first be given in writing by the party or his attorney proposing to take such deposition to the opposite party or his attorney of record, as either may be nearest, which notice shall state the name of the witness and the time and place of the taking of his deposition. Any person may be compelled to appear and depose, and to produce documentary evidence, in the same manner as witnesses may be compelled to appear and testify and produce documentary evidence before the Commission, as hereinbefore provided.

(i) Oaths; testimony in writing

Every person deposing as herein provided shall be cautioned and sworn (or affirm, if he so request) to testify the whole truth, and shall be carefully examined. His testimony shall be reduced to writing by the magistrate taking the deposition, or under his direction, and shall, after it has been reduced to writing, be subscribed by the deponent.

(j) Foreign depositions

If a witness whose testimony may be desired to be taken by deposition be in a foreign country, the deposition may be taken before an officer or person designated by the Commission, or agreed upon by the parties by stipulation in writing to be filed with the Commission. All depositions must be promptly filed with the Commission.

(k) Deposition fees

Witnesses whose depositions are taken as authorized in this chapter, and the magistrate or other officer taking the same, shall severally be entitled to the same fees as are paid for like services in the courts of the United States.

(June 19, 1934, ch. 652, title V, § 502, 48 Stat. 1100.)

§ 503. Forfeitures

(a) Rebates and offsets

Any person who shall deliver messages for interstate or foreign transmission to any carrier, or for whom as sender or receiver, any such carrier shall transmit any interstate or foreign wire or radio communication, who shall knowingly by employee, agent, officer, or otherwise, directly or indirectly, by or through any means or device whatsoever, receive or accept from such common carrier any sum of money or any other valuable consideration as a rebate or offset against the regular charges for transmission of such messages as fixed by the schedules of charges provided for in this chapter, shall in addition to any other penalty provided by this chapter forfeit to the United States a sum of money three times the amount of money so received or accepted and three times the value of any other consideration so received or accepted, to be ascertained by the trial court; and in the trial of said action all such rebates or other considerations so received or accepted for a period of six years prior to the commencement of the action, may be included therein, and the amount recovered shall be three times the total amount of money, or three times the total value of such consideration, so received or accepted, or both, as the case may be.

(b) Activities constituting violations authorizing imposition of forfeiture penalty; amount of penalty; procedures applicable; persons subject to penalty; liability exemption period

(1) Any person who is determined by the Commission, in accordance with paragraph (3) or (4) of this subsection, to have—

(A) willfully or repeatedly failed to comply substantially with the terms and conditions of any license, permit, certificate, or other instrument or authorization issued by the Commission;

(B) willfully or repeatedly failed to comply with any of the provisions of this chapter or of

any rule, regulation, or order issued by the Commission under this chapter or under any treaty, convention, or other agreement to which the United States is a party and which is binding upon the United States;

(C) violated any provision of section 317(c) or 509(a) of this title; or

(D) violated any provision of section 1304, 1343, or 1464 of title 18;

shall be liable to the United States for a forfeiture penalty. A forfeiture penalty under this subsection shall be in addition to any other penalty provided for by this chapter; except that this subsection shall not apply to any conduct which is subject to forfeiture under subchapter II of this chapter, part II or III of subchapter III of this chapter, or section 507 of this title.

(2)(A) If the violator is (i) a broadcast station licensee or permittee, (ii) a cable television operator, or (iii) an applicant for any broadcast or cable television operator license, permit, certificate, or other instrument of authorization issued by the Commission, the amount of any forfeiture penalty determined under this section shall not exceed \$25,000 for each violation or each day of a continuing violation, except that the amount assessed for any continuing violation shall not exceed a total of \$250,000 for any single act or failure to act described in paragraph (1) of this subsection.

(B) If the violator is a common carrier subject to the provisions of this chapter or an applicant for any common carrier license, permit, certificate, or other instrument of authorization issued by the Commission, the amount of any forfeiture penalty determined under this subsection shall not exceed \$100,000 for each violation or each day of a continuing violation, except that the amount assessed for any continuing violation shall not exceed a total of \$1,000,000 for any single act or failure to act described in paragraph (1) of this subsection.

(C) In any case not covered in subparagraph (A) or (B), the amount of any forfeiture penalty determined under this subsection shall not exceed \$10,000 for each violation or each day of a continuing violation, except that the amount assessed for any continuing violation shall not exceed a total of \$75,000 for any single act or failure to act described in paragraph (1) of this subsection.

(D) The amount of such forfeiture penalty shall be assessed by the Commission, or its designee, by written notice. In determining the amount of such a forfeiture penalty, the Commission or its designee shall take into account the nature, circumstances, extent, and gravity of the violation and, with respect to the violator, the degree of culpability, any history of prior offenses, ability to pay, and such other matters as justice may require.

(3)(A) At the discretion of the Commission, a forfeiture penalty may be determined against a person under this subsection after notice and an opportunity for a hearing before the Commission or an administrative law judge thereof in accordance with section 554 of title 5. Any person against whom a forfeiture penalty is determined under this paragraph may obtain review thereof pursuant to section 402(a) of this title.

(B) If any person fails to pay an assessment of a forfeiture penalty determined under subpara-

graph (A) of this paragraph, after it has become a final and unappealable order or after the appropriate court has entered final judgment in favor of the Commission, the Commission shall refer the matter to the Attorney General of the United States, who shall recover the amount assessed in any appropriate district court of the United States. In such action, the validity and appropriateness of the final order imposing the forfeiture penalty shall not be subject to review.

(4) Except as provided in paragraph (3) of this subsection, no forfeiture penalty shall be imposed under this subsection against any person unless and until—

(A) the Commission issues a notice of apparent liability, in writing, with respect to such person;

(B) such notice has been received by such person, or until the Commission has sent such notice to the last known address of such person, by registered or certified mail; and

(C) such person is granted an opportunity to show, in writing, within such reasonable period of time as the Commission prescribes by rule or regulation, why no such forfeiture penalty should be imposed.

Such a notice shall (i) identify each specific provision, term, and condition of any Act, rule, regulation, order, treaty, convention, or other agreement, license, permit, certificate, instrument, or authorization which such person apparently violated or with which such person apparently failed to comply; (ii) set forth the nature of the act or omission charged against such person and the facts upon which such charge is based; and (iii) state the date on which such conduct occurred. Any forfeiture penalty determined under this paragraph shall be recoverable pursuant to section 504(a) of this title.

(5) No forfeiture liability shall be determined under this subsection against any person, if such person does not hold a license, permit, certificate, or other authorization issued by the Commission, and if such person is not an applicant for a license, permit, certificate, or other authorization issued by the Commission, unless, prior to the notice required by paragraph (3) of this subsection or the notice of apparent liability required by paragraph (4) of this subsection, such person (A) is sent a citation of the violation charged; (B) is given a reasonable opportunity for a personal interview with an official of the Commission, at the field office of the Commission which is nearest to such person's place of residence; and (C) subsequently engages in conduct of the type described in such citation. The provisions of this paragraph shall not apply, however, if the person involved is engaging in activities for which a license, permit, certificate, or other authorization is required, or is a cable television system operator, if the person involved is transmitting on frequencies assigned for use in a service in which individual station operation is authorized by rule pursuant to section 307(e) of this title, or in the case of violations of section 303(q) of this title, if the person involved is a nonlicensee tower owner who has previously received notice of the obligations imposed by section 303(q) of this title from the Commission or the permittee or licensee who uses that tower. Whenever the requirements of

this paragraph are satisfied with respect to a particular person, such person shall not be entitled to receive any additional citation of the violation charged, with respect to any conduct of the type described in the citation sent under this paragraph.

(6) No forfeiture penalty shall be determined or imposed against any person under this subsection if—

(A) such person holds a broadcast station license issued under subchapter III of this chapter and if the violation charged occurred—

(i) more than 1 year prior to the date of issuance of the required notice or notice of apparent liability; or

(ii) prior to the date of commencement of the current term of such license,

whichever is earlier; or

(B) such person does not hold a broadcast station license issued under subchapter III of this chapter and if the violation charged occurred more than 1 year prior to the date of issuance of the required notice or notice of apparent liability.

For purposes of this paragraph, “date of commencement of the current term of such license” means the date of commencement of the last term of license for which the licensee has been granted a license by the Commission. A separate license term shall not be deemed to have commenced as a result of continuing a license in effect under section 307(c) of this title pending decision on an application for renewal of the license.

Any electronic, electromagnetic, radio frequency, or similar device, or component thereof, used, sent, carried, manufactured, assembled, possessed, offered for sale, sold, or advertised with willful and knowing intent to violate section 301 or 302a of this title, or rules prescribed by the Commission under such sections, may be seized and forfeited to the United States.

(b) Seizure

Any property subject to forfeiture to the United States under this section may be seized by the Attorney General of the United States upon process issued pursuant to the supplemental rules for certain admiralty and maritime claims by any district court of the United States having jurisdiction over the property, except that seizure without such process may be made if the seizure is incident to a lawful arrest or search.

(c) Laws applicable to seizure and forfeiture

All provisions of law relating to—

(1) the seizure, summary and judicial forfeiture, and condemnation of property for violation of the customs laws;

(2) the disposition of such property or the proceeds from the sale thereof;

(3) the remission or mitigation of such forfeitures; and

(4) the compromise of claims with respect to such forfeitures;

(d) Disposition of forfeited property

Whenever property is forfeited under this section, the Attorney General of the United States may forward it to the Commission or sell any forfeited property which is not harmful to the public. The proceeds from any such sale shall be deposited in the general fund of the Treasury of the United States.

SUBCHAPTER V—A—CABLE
COMMUNICATIONS

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in section 152 of this title; title 18 section 1468.

PART I—GENERAL PROVISIONS

§ 521. Purposes

The purposes of this subchapter are to—

(1) establish a national policy concerning cable communications;

(2) establish franchise procedures and standards which encourage the growth and development of cable systems and which assure that cable systems are responsive to the needs and interests of the local community;

(3) establish guidelines for the exercise of Federal, State, and local authority with respect to the regulation of cable systems;

(4) assure that cable communications provide and are encouraged to provide the widest possible diversity of information sources and services to the public;

(5) establish an orderly process for franchise renewal which protects cable operators against unfair denials of renewal where the operator's past performance and proposal for future performance meet the standards established by this subchapter; and

(6) promote competition in cable communications and minimize unnecessary regulation that would impose an undue economic burden on cable systems.

(June 19, 1934, ch. 652, title VI, § 601, as added Oct. 30, 1984, Pub. L. 98-549, § 2, 98 Stat. 2780.)

EFFECTIVE DATE

Section 9(a) of Pub. L. 98-549 provided that: "Except where otherwise expressly provided, the provisions of this Act [enacting this subchapter and section 611 of this title, amending sections 152, 224, 309, and 605 of this title, section 2511 of Title 18, Crimes and Criminal Procedure, and section 1805 of Title 50, War and National Defense, and enacting provisions set out as notes under this section and sections 543, 605, and 609 of this title] and the amendments made thereby shall take effect 60 days after the date of enactment of this Act [Oct. 30, 1984]."

SHORT TITLE

For short title of Pub. L. 98-549 [enacting this subchapter] as the "Cable Communications Policy Act of 1984", see section 1(a) of Pub. L. 98-549, set out as a Short Title of 1984 Amendment note under section 609 of this title.

CONGRESSIONAL FINDINGS AND POLICY FOR PUB. L. 102-385

Pub. L. 102-385, § 2(a), (b), Oct. 5, 1992, 106 Stat. 1460, 1463, provided that:

"(a) FINDINGS.—The Congress finds and declares the following:

"(1) Pursuant to the Cable Communications Policy Act of 1984 [Pub. L. 98-549, enacting this subchapter and section 611 of this title, amending sections 152, 224, 309, and 605 of this title, section 2511 of Title 18, Crimes and Criminal Procedure, and section 1805 of Title 50, War and National Defense, and enacting provisions set out as notes under this section and sections 543, 605, and 609 of this title], rates for cable television services have been deregulated in approximately 97 percent of all franchises since December 29, 1986. Since rate deregulation, monthly rates for the lowest priced basic cable service have increased by 40 percent or more for 28 percent of cable television subscribers. Although the average number of basic channels has increased from about 24 to 30, average monthly rates have increased by 29 percent during the same period. The average monthly cable rate has

increased almost 3 times as much as the Consumer Price Index since rate deregulation.

"(2) For a variety of reasons, including local franchising requirements and the extraordinary expense of constructing more than one cable television system to serve a particular geographic area, most cable television subscribers have no opportunity to select between competing cable systems. Without the presence of another multichannel video programming distributor, a cable system faces no local competition. The result is undue market power for the cable operator as compared to that of consumers and video programmers.

"(3) There has been a substantial increase in the penetration of cable television systems over the past decade. Nearly 56,000,000 households, over 60 percent of the households with televisions, subscribe to cable television, and this percentage is almost certain to increase. As a result of this growth, the cable television industry has become a dominant nationwide video medium.

"(4) The cable industry has become highly concentrated. The potential effects of such concentration are barriers to entry for new programmers and a reduction in the number of media voices available to consumers.

"(5) The cable industry has become vertically integrated; cable operators and cable programmers often have common ownership. As a result, cable operators have the incentive and ability to favor their affiliated programmers. This could make it more difficult for noncable-affiliated programmers to secure carriage on cable systems. Vertically integrated program suppliers also have the incentive and ability to favor their affiliated cable operators over non-affiliated cable operators and programming distributors using other technologies.

"(6) There is a substantial governmental and First Amendment interest in promoting a diversity of views provided through multiple technology media.

"(7) There is a substantial governmental and First Amendment interest in ensuring that cable subscribers have access to local noncommercial educational stations which Congress has authorized, as expressed in section 396(a)(5) of the Communications Act of 1934 [47 U.S.C. 396(a)(5)]. The distribution of unique non-commercial, educational programming services advances that interest.

"(8) The Federal Government has a substantial interest in making all nonduplicative local public television services available on cable systems because—

"(A) public television provides educational and informational programming to the Nation's citizens, thereby advancing the Government's compelling interest in educating its citizens;

"(B) public television is a local community institution, supported through local tax dollars and voluntary citizen contributions in excess of \$10,800,000,000 since 1972, that provides public service programming that is responsive to the needs and interests of the local community;

"(C) the Federal Government, in recognition of public television's integral role in serving the educational and informational needs of local communities, has invested more than \$3,000,000,000 in public broadcasting since 1969; and

"(D) absent carriage requirements there is a substantial likelihood that citizens, who have supported local public television services, will be deprived of those services.

"(9) The Federal Government has a substantial interest in having cable systems carry the signals of local commercial television stations because the carriage of such signals is necessary to serve the goals contained in section 307(b) of the Communications Act of 1934 [47 U.S.C. 307(b)] of providing a fair, efficient, and equitable distribution of broadcast services.

"(10) A primary objective and benefit of our Nation's system of regulation of television broadcasting

is the local origination of programming. There is a substantial governmental interest in ensuring its continuation.

“(11) Broadcast television stations continue to be an important source of local news and public affairs programming and other local broadcast services critical to an informed electorate.

“(12) Broadcast television programming is supported by revenues generated from advertising broadcast over stations. Such programming is otherwise free to those who own television sets and do not require cable transmission to receive broadcast signals. There is a substantial governmental interest in promoting the continued availability of such free television programming, especially for viewers who are unable to afford other means of receiving programming.

“(13) As a result of the growth of cable television, there has been a marked shift in market share from broadcast television to cable television services.

“(14) Cable television systems and broadcast television stations increasingly compete for television advertising revenues. As the proportion of households subscribing to cable television increases, proportionately more advertising revenues will be reallocated from broadcast to cable television systems.

“(15) A cable television system which carries the signal of a local television broadcaster is assisting the broadcaster to increase its viewership, and thereby attract additional advertising revenues that otherwise might be earned by the cable system operator. As a result, there is an economic incentive for cable systems to terminate the retransmission of the broadcast signal, refuse to carry new signals, or reposition a broadcast signal to a disadvantageous channel position. There is a substantial likelihood that absent the reimposition of such a requirement, additional local broadcast signals will be deleted, repositioned, or not carried.

“(16) As a result of the economic incentive that cable systems have to delete, reposition, or not carry local broadcast signals, coupled with the absence of a requirement that such systems carry local broadcast signals, the economic viability of free local broadcast television and its ability to originate quality local programming will be seriously jeopardized.

“(17) Consumers who subscribe to cable television often do so to obtain local broadcast signals which they otherwise would not be able to receive, or to obtain improved signals. Most subscribers to cable television systems do not or cannot maintain antennas to receive broadcast television services, do not have input selector switches to convert from a cable to antenna reception system, or cannot otherwise receive broadcast television services. The regulatory system created by the Cable Communications Policy Act of 1984 was premised upon the continued existence of mandatory carriage obligations for cable systems, ensuring that local stations would be protected from anticompetitive conduct by cable systems.

“(18) Cable television systems often are the single most efficient distribution system for television programming. A Government mandate for a substantial societal investment in alternative distribution systems for cable subscribers, such as the ‘A/B’ input selector antenna system, is not an enduring or feasible method of distribution and is not in the public interest.

“(19) At the same time, broadcast programming that is carried remains the most popular programming on cable systems, and a substantial portion of the benefits for which consumers pay cable systems is derived from carriage of the signals of network affiliates, independent television stations, and public television stations. Also cable programming placed on channels adjacent to popular off-the-air signals obtains a larger audience than on other channel positions. Cable systems, therefore, obtain great benefits from local broadcast signals which, until now, they have been able to obtain without the consent of the

broadcaster or any copyright liability. This has resulted in an effective subsidy of the development of cable systems by local broadcasters. While at one time, when cable systems did not attempt to compete with local broadcasters for programming, audience, and advertising, this subsidy may have been appropriate, it is so no longer and results in a competitive imbalance between the 2 industries.

“(20) The Cable Communications Policy Act of 1984, in its amendments to the Communications Act of 1934 [47 U.S.C. 151 et seq.], limited the regulatory authority of franchising authorities over cable operators. Franchising authorities are finding it difficult under the current regulatory scheme to deny renewals to cable systems that are not adequately serving cable subscribers.

“(21) Cable systems should be encouraged to carry low-power television stations licensed to the communities served by those systems where the low-power station creates and broadcasts, as a substantial part of its programming day, local programming.

“(b) STATEMENT OF POLICY.—It is the policy of the Congress in this Act [enacting sections 334, 335, 534 to 537, 544a, 548, and 555a of this title, amending sections 325, 332, 522, 532, 533, 541 to 544, 546, 551 to 555, and 558 of this title, and enacting provisions set out as notes under this section and sections 325, 531, 543, and 554 of this title] to—

“(1) promote the availability to the public of a diversity of views and information through cable television and other video distribution media;

“(2) rely on the marketplace, to the maximum extent feasible, to achieve that availability;

“(3) ensure that cable operators continue to expand, where economically justified, their capacity and the programs offered over their cable systems;

“(4) where cable television systems are not subject to effective competition, ensure that consumer interests are protected in receipt of cable service; and

“(5) ensure that cable television operators do not have undue market power vis-a-vis video programmers and consumers.”

SPORTS PROGRAMMING MIGRATION STUDY AND REPORT

Pub. L. 102-385, §26, Oct. 5, 1992, 106 Stat. 1502, directed Federal Communications Commission to investigate and analyze, on a sport-by-sport basis, trends in migration of local, regional, and national sports programming from carriage by broadcast stations to carriage over cable programming networks and pay-per-view systems, including economic causes and consequences of such trends, and further directed Commission to submit to Congress interim and final reports of such study, no later than July 1, 1993, and July 1, 1994, respectively, along with recommendations for legislative or regulatory activity.

APPLICABILITY OF ANTITRUST LAWS TO PUB. L. 102-385

Pub. L. 102-385, §27, Oct. 5, 1992, 106 Stat. 1503, provided that: “Nothing in this Act [enacting sections 334, 335, 534 to 537, 544a, 548, and 555a of this title, amending sections 325, 332, 522, 532, 533, 541 to 544, 546, 551 to 555, and 558 of this title, and enacting provisions set out as notes under this section and sections 325, 531, 543, and 554 of this title] or the amendments made by this Act shall be construed to alter or restrict in any manner the applicability of any Federal or State antitrust law.”

EFFECT OF CABLE COMMUNICATIONS POLICY ACT OF 1984 ON JURISDICTION OF FEDERAL COMMUNICATIONS COMMISSION RESPECTING WIRE OR RADIO COMMUNICATIONS THROUGH CABLE SYSTEMS

Section 3(b) of Pub. L. 98-549 provided that: “The provisions of this Act [enacting this subchapter and section 611 of this title, amending sections 152, 224, 309, and 605 of this title, section 2511 of Title 18, Crimes and Criminal Procedure, and section 1805 of Title 50, War and National Defense, and enacting provisions set out

as notes under this section and sections 543, 605, and 609 of this title] and amendments made by this Act shall not be construed to affect any jurisdiction the Federal Communications Commission may have under the Communications Act of 1934 [this chapter] with respect to any communication by wire or radio (other than cable service, as defined in section 602(5) of such Act [section 522(5) of this title]) which is provided through a cable system, or persons or facilities engaged in such communications.”

§ 531. Cable channels for public, educational, or governmental use**(a) Authority to establish requirements with respect to designation or use of channel capacity**

A franchising authority may establish requirements in a franchise with respect to the designation or use of channel capacity for public, educational, or governmental use only to the extent provided in this section.

(b) Authority to require designation for public, educational, or governmental use

A franchising authority may in its request for proposals require as part of a franchise, and may require as part of a cable operator's proposal for a franchise renewal, subject to section 546 of this title, that channel capacity be designated for public, educational, or governmental use, and channel capacity on institutional networks be designated for educational or governmental use, and may require rules and procedures for the use of the channel capacity designated pursuant to this section.

(c) Enforcement authority

A franchising authority may enforce any requirement in any franchise regarding the providing or use of such channel capacity. Such enforcement authority includes the authority to enforce any provisions of the franchise for services, facilities, or equipment proposed by the cable operator which relate to public, educational, or governmental use of channel capacity, whether or not required by the franchising authority pursuant to subsection (b) of this section.

(d) Promulgation of rules and procedures

In the case of any franchise under which channel capacity is designated under subsection (b) of this section, the franchising authority shall prescribe—

(1) rules and procedures under which the cable operator is permitted to use such channel capacity for the provision of other services if such channel capacity is not being used for the purposes designated, and

(2) rules and procedures under which such permitted use shall cease.

(e) Editorial control by cable operator

Subject to section 544(d) of this title, a cable operator shall not exercise any editorial control over any public, educational, or governmental

REGULATIONS

Pub. L. 102-385, §10(c), Oct. 5, 1992, 106 Stat. 1486, provided that: "Within 180 days following the date of the enactment of this Act [Oct. 5, 1992], the Federal Communications Commission shall promulgate such regulations as may be necessary to enable a cable operator of a cable system to prohibit the use, on such system, of any channel capacity of any public, educational, or governmental access facility for any programming which contains obscene material, sexually explicit conduct, or material soliciting or promoting unlawful conduct."

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 532, 534, 535 of this title.

§ 532. Cable channels for commercial use**(a) Purpose**

The purpose of this section is to promote competition in the delivery of diverse sources of video programming and to assure that the widest possible diversity of information sources are made available to the public from cable systems in a manner consistent with growth and development of cable systems.

(b) Designation of channel capacity for commercial use

(1) A cable operator shall designate channel capacity for commercial use by persons unaffiliated with the operator in accordance with the following requirements:

(A) An operator of any cable system with 36 or more (but not more than 54) activated channels shall designate 10 percent of such channels which are not otherwise required for use (or the use of which is not prohibited) by Federal law or regulation.

(B) An operator of any cable system with 55 or more (but not more than 100) activated channels shall designate 15 percent of such channels which are not otherwise required for use (or the use of which is not prohibited) by Federal law or regulation.

(C) An operator of any cable system with more than 100 activated channels shall designate 15 percent of all such channels.

(D) An operator of any cable system with fewer than 36 activated channels shall not be required to designate channel capacity for commercial use by persons unaffiliated with the operator, unless the cable system is re-

quired to provide such channel capacity under the terms of a franchise in effect on October 30, 1984.

(E) An operator of any cable system in operation on October 30, 1984, shall not be required to remove any service actually being provided on July 1, 1984, in order to comply with this section, but shall make channel capacity available for commercial use as such capacity becomes available until such time as the cable operator is in full compliance with this section.

(2) Any Federal agency, State, or franchising authority may not require any cable system to designate channel capacity for commercial use by unaffiliated persons in excess of the capacity specified in paragraph (1), except as otherwise provided in this section.

(3) A cable operator may not be required, as part of a request for proposals or as part of a proposal for renewal, subject to section 546 of this title, to designate channel capacity for any use (other than commercial use by unaffiliated persons under this section) except as provided in sections 531 and 557 of this title, but a cable operator may offer in a franchise, or proposal for renewal thereof, to provide, consistent with applicable law, such capacity for other than commercial use by such persons.

(4) A cable operator may use any unused channel capacity designated pursuant to this section until the use of such channel capacity is obtained, pursuant to a written agreement, by a person unaffiliated with the operator.

(5) For the purposes of this section, the term "commercial use" means the provision of video programming, whether or not for profit.

(6) Any channel capacity which has been designated for public, educational, or governmental use may not be considered as designated under this section for commercial use for purpose of this section.

(c) Use of channel capacity by unaffiliated persons; editorial control; restriction on service; rules on rates, terms, and conditions

(1) If a person unaffiliated with the cable operator seeks to use channel capacity designated pursuant to subsection (b) of this section for commercial use, the cable operator shall establish, consistent with the purpose of this section and with rules prescribed by the Commission under paragraph (4), the price, terms, and conditions of such use which are at least sufficient to assure that such use will not adversely affect the operation, financial condition, or market development of the cable system.

(2) A cable operator shall not exercise any editorial control over any video programming provided pursuant to this section, or in any other way consider the content of such programming, except that an operator may consider such content to the minimum extent necessary to establish a reasonable price for the commercial use of designated channel capacity by an unaffiliated person.

(3) Any cable system channel designated in accordance with this section shall not be used to provide a cable service that is being provided over such system on October 30, 1984, if the provision of such programming is intended to avoid the purpose of this section.

(4)(A) The Commission shall have the authority to—

(i) determine the maximum reasonable rates that a cable operator may establish pursuant to paragraph (1) for commercial use of designated channel capacity, including the rate charged for the billing of rates to subscribers and for the collection of revenue from subscribers by the cable operator for such use;

(ii) establish reasonable terms and conditions for such use, including those for billing and collection; and

(iii) establish procedures for the expedited resolution of disputes concerning rates or carriage under this section.

(B) Within 180 days after October 5, 1992, the Commission shall establish rules for determining maximum reasonable rates under subparagraph (A)(i), for establishing terms and conditions under subparagraph (A)(ii), and for providing procedures under subparagraph (A)(iii).

(d) Right of action in district court; relief; factors not to be considered by court

Any person aggrieved by the failure or refusal of a cable operator to make channel capacity available for use pursuant to this section may bring an action in the district court of the United States for the judicial district in which the cable system is located to compel that such capacity be made available. If the court finds that the channel capacity sought by such person has not been made available in accordance with this section, or finds that the price, terms, or conditions established by the cable operator are unreasonable, the court may order such system to make available to such person the channel capacity sought, and further determine the appropriate price, terms, or conditions for such use consistent with subsection (c) of this section, and may award actual damages if it deems such relief appropriate. In any such action, the court shall not consider any price, term, or condition established between an operator and an affiliate for comparable services.

(e) Petition to Commission; relief

(1) Any person aggrieved by the failure or refusal of a cable operator to make channel capacity available pursuant to this section may petition the Commission for relief under this subsection upon a showing of prior adjudicated violations of this section. Records of previous adjudications resulting in a court determination that the operator has violated this section shall be considered as sufficient for the showing necessary under this subsection. If the Commission finds that the channel capacity sought by such person has not been made available in accordance with this section, or that the price, terms, or conditions established by such system are unreasonable under subsection (c) of this section, the Commission shall, by rule or order, require such operator to make available such channel capacity under price, terms, and conditions consistent with subsection (c) of this section.

(2) In any case in which the Commission finds that the prior adjudicated violations of this section constitute a pattern or practice of violations by an operator, the Commission may also establish any further rule or order necessary to

assure that the operator provides the diversity of information sources required by this section.

(3) In any case in which the Commission finds that the prior adjudicated violations of this section constitute a pattern or practice of violations by any person who is an operator of more than one cable system, the Commission may also establish any further rule or order necessary to assure that such person provides the diversity of information sources required by this section.

(f) Presumption of reasonableness and good faith

In any action brought under this section in any Federal district court or before the Commission, there shall be a presumption that the price, terms, and conditions for use of channel capacity designated pursuant to subsection (b) of this section are reasonable and in good faith unless shown by clear and convincing evidence to the contrary.

(g) Promulgation of rules

Notwithstanding sections 541(c) and 543(a) of this title, at such time as cable systems with 36 or more activated channels are available to 70 percent of households within the United States and are subscribed to by 70 percent of the households to which such systems are available, the Commission may promulgate any additional rules necessary to provide diversity of information sources. Any rules promulgated by the Commission pursuant to this subsection shall not preempt authority expressly granted to franchising authorities under this subchapter.

(h) Cable service unprotected by Constitution

Any cable service offered pursuant to this section shall not be provided, or shall be provided subject to conditions, if such cable service in the judgment of the franchising authority or the cable operator is obscene, or is in conflict with community standards in that it is lewd, lascivious, filthy, or indecent or is otherwise unprotected by the Constitution of the United States. This subsection shall permit a cable operator to enforce prospectively a written and published policy of prohibiting programming that the cable operator reasonably believes describes or depicts sexual or excretory activities or organs in a patently offensive manner as measured by contemporary community standards.

(i) Programming from qualified minority or educational programming sources

(1) Notwithstanding the provisions of subsections (b) and (c) of this section, a cable operator required by this section to designate channel capacity for commercial use may use any such channel capacity for the provision of programming from a qualified minority programming source or from any qualified educational programming source, whether or not such source is affiliated with the cable operator. The channel capacity used to provide programming from a qualified minority programming source or from any qualified educational programming source pursuant to this subsection may not exceed 33 percent of the channel capacity designated pursuant to this section. No programming provided over a cable system on July 1, 1990, may qualify as minority programming or educational pro-

gramming on that cable system under this subsection.

(2) For purposes of this subsection, the term "qualified minority programming source" means a programming source which devotes substantially all of its programming to coverage of minority viewpoints, or to programming directed at members of minority groups, and which is over 50 percent minority-owned, as the term "minority" is defined in section 309(i)(3)(C)(ii) of this title.

(3) For purposes of this subsection, the term "qualified educational programming source" means a programming source which devotes substantially all of its programming to educational or instructional programming that promotes public understanding of mathematics, the sciences, the humanities, and the arts and has a documented annual expenditure on programming exceeding \$15,000,000. The annual expenditure on programming means all annual costs incurred by the programming source to produce or acquire programs which are scheduled to be televised, and specifically excludes marketing, promotion, satellite transmission and operational costs, and general administrative costs.

(4) Nothing in this subsection shall substitute for the requirements to carry qualified non-commercial educational television stations as specified under section 535 of this title.

(j) Single channel access to indecent programming

(1) Within 120 days following October 5, 1992, the Commission shall promulgate regulations designed to limit the access of children to indecent programming, as defined by Commission regulations, and which cable operators have not voluntarily prohibited under subsection (h) of this section by—

(A) requiring cable operators to place on a single channel all indecent programs, as identified by program providers, intended for carriage on channels designated for commercial use under this section;

(B) requiring cable operators to block such single channel unless the subscriber requests access to such channel in writing; and

(C) requiring programmers to inform cable operators if the program would be indecent as defined by Commission regulations.

(2) Cable operators shall comply with the regulations promulgated pursuant to paragraph (1).

EFFECTIVE DATE

Section effective 60 days after Oct. 30, 1984, except where otherwise expressly provided, see section 9(a) of Pub. L. 98-549, set out as a note under section 521 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 543, 558 of this title.

§ 533. Ownership restrictions

(a) Persons owning or controlling television station licensee; cable operators holding license for multichannel distribution or offering satellite service

(1) It shall be unlawful for any person to be a cable operator if such person, directly or through 1 or more affiliates, owns or controls, the licensee of a television broadcast station and the predicted grade B contour of such station covers any portion of the community served by such operator's cable system.

(2) It shall be unlawful for a cable operator to hold a license for multichannel multipoint distribution service, or to offer satellite master antenna television service separate and apart from any franchised cable service, in any portion of the franchise area served by that cable operator's cable system. The Commission—

(A) shall waive the requirements of this paragraph for all existing multichannel multipoint distribution services and satellite master antenna television services which are owned by a cable operator on October 5, 1992; and

(B) may waive the requirements of this paragraph to the extent the Commission determines is necessary to ensure that all significant portions of a franchise area are able to obtain video programming.

(b) Common carriers; direct video programming; exception; waiver

(1) It shall be unlawful for any common carrier, subject in whole or in part to subchapter II of this chapter, to provide video programming directly to subscribers in its telephone service area, either directly or indirectly through an affiliate owned by, operated by, controlled by, or under common control with the common carrier.

(2) It shall be unlawful for any common carrier, subject in whole or in part to subchapter II of this chapter, to provide channels of communications or pole, line, conduit space, or other rental arrangements, to any entity which is directly or indirectly owned by, operated by, controlled by, or under common control with such common carrier, if such facilities or arrangements are to be used for, or in connection with, the provision of video programming directly to subscribers in the telephone service area of the common carrier.

(3) This subsection shall not apply to any common carrier to the extent such carrier provides telephone exchange service in any rural area (as defined by the Commission).

(4) In those areas where the provision of video programming directly to subscribers through a cable system demonstrably could not exist except through a cable system owned by, operated by, controlled by, or affiliated with the common carrier involved, or upon other showing of good cause, the Commission may, on petition for waiver, waive the applicability of paragraphs (1) and (2) of this subsection. Any such waiver shall be made in accordance with section 63.56 of title 47, Code of Federal Regulations (as in effect September 20, 1984) and shall be granted by the Commission upon a finding that the issuance of such waiver is justified by the particular circumstances demonstrated by the petitioner, taking into account the policy of this subsection.

(c) Promulgation of rules

The Commission may prescribe rules with respect to the ownership or control of cable systems by persons who own or control other media of mass communications which serve the same community served by a cable system.

(d) Regulation of ownership by States or franchising authorities

Any State or franchising authority may not prohibit the ownership or control of a cable system by any person because of such person's ownership or control of any other media of mass communications or other media interests. Nothing in this section shall be construed to prevent any State or franchising authority from prohibiting the ownership or control of a cable system in a jurisdiction by any person (1) because of such person's ownership or control of any other cable system in such jurisdiction; or (2) in circumstances in which the State or franchising authority determines that the acquisition of such a cable system may eliminate or reduce competition in the delivery of cable service in such jurisdiction.

(e) Holding of ownership interests or exercise of editorial control by States or franchising authorities

(1) Subject to paragraph (2), a State or franchising authority may hold any ownership interest in any cable system.

(2) Any State or franchising authority shall not exercise any editorial control regarding the content of any cable service on a cable system in which such governmental entity holds ownership interest (other than programming on any channel designated for educational or govern-

mental use), unless such control is exercised through an entity separate from the franchising authority.

(f) Enhancement of effective competition

(1) In order to enhance effective competition, the Commission shall, within one year after October 5, 1992, conduct a proceeding—

(A) to prescribe rules and regulations establishing reasonable limits on the number of cable subscribers a person is authorized to reach through cable systems owned by such person, or in which such person has an attributable interest;

(B) to prescribe rules and regulations establishing reasonable limits on the number of channels on a cable system that can be occupied by a video programmer in which a cable operator has an attributable interest; and

(C) to consider the necessity and appropriateness of imposing limitations on the degree to which multichannel video programming distributors may engage in the creation or production of video programming.

(2) In prescribing rules and regulations under paragraph (1), the Commission shall, among other public interest objectives—

(A) ensure that no cable operator or group of cable operators can unfairly impede, either because of the size of any individual operator or because of joint actions by a group of operators of sufficient size, the flow of video programming from the video programmer to the consumer;

(B) ensure that cable operators affiliated with video programmers do not favor such programmers in determining carriage on their cable systems or do not unreasonably restrict the flow of the video programming of such programmers to other video distributors;

(C) take particular account of the market structure, ownership patterns, and other relationships of the cable television industry, including the nature and market power of the local franchise, the joint ownership of cable systems and video programmers, and the various types of non-equity controlling interests;

(D) account for any efficiencies and other benefits that might be gained through increased ownership or control;

(E) make such rules and regulations reflect the dynamic nature of the communications marketplace;

(F) not impose limitations which would bar cable operators from serving previously unserved rural areas; and

(G) not impose limitations which would impair the development of diverse and high quality video programming.

(g) Combination of interests under prior law

This section shall not apply to prohibit any combination of any interests held by any person on July 1, 1984, to the extent of the interests so held as of such date, if the holding of such interests was not inconsistent with any applicable Federal or State law or regulations in effect on that date.

(h) “Media of mass communications” defined

For purposes of this section, the term “media of mass communications” shall have the mean-

ing given such term under section 309(i)(3)(C)(i) of this title.

(June 19, 1934, ch. 652, title VI, §613, as added Oct. 30, 1984, Pub. L. 98-549, §2, 98 Stat. 2785; amended Oct. 5, 1992, Pub. L. 102-385, §11, 106 Stat. 1486; Oct. 25, 1994, Pub. L. 103-414, title III, §303(a)(22), 108 Stat. 4295.)

AMENDMENTS

1994—Subsec. (b)(2). Pub. L. 103-414 substituted “pole, line, conduit space” for “pole line conduit space”.

1992—Subsec. (a). Pub. L. 102-385, §11(a), designated existing provisions as par. (1) and added par. (2).

Subsec. (d). Pub. L. 102-385, §11(b), substituted “any other media” for “any media” and inserted at end “Nothing in this section shall be construed to prevent any State or franchising authority from prohibiting the ownership or control of a cable system in a jurisdiction by any person (1) because of such person’s ownership or control of any other cable system in such jurisdiction; or (2) in circumstances in which the State or franchising authority determines that the acquisition of such a cable system may eliminate or reduce competition in the delivery of cable service in such jurisdiction.”

Subsecs. (f) to (h). Pub. L. 102-385, §11(c), added subsec. (f) and redesignated former subsecs. (f) and (g) as (g) and (h), respectively.

EFFECTIVE DATE OF 1992 AMENDMENT

Amendment by Pub. L. 102-385 effective 60 days after Oct. 5, 1992, see section 28 of Pub. L. 102-385, set out as a note under section 325 of this title.

EFFECTIVE DATE

Section effective 60 days after Oct. 30, 1984, except where otherwise expressly provided, see section 9(a) of Pub. L. 98-549, set out as a note under section 521 of this title.

§ 534. Carriage of local commercial television signals

(a) Carriage obligations

Each cable operator shall carry, on the cable system of that operator, the signals of local commercial television stations and qualified low power stations as provided by this section. Carriage of additional broadcast television signals on such system shall be at the discretion of such operator, subject to section 325(b) of this title.

(b) Signals required

(1) In general

(A) A cable operator of a cable system with 12 or fewer usable activated channels shall carry the signals of at least three local commercial television stations, except that if such a system has 300 or fewer subscribers, it shall not be subject to any requirements under this section so long as such system does not delete from carriage by that system any signal of a broadcast television station.

(B) A cable operator of a cable system with more than 12 usable activated channels shall carry the signals of local commercial television stations, up to one-third of the aggregate number of usable activated channels of such system.

(2) Selection of signals

Whenever the number of local commercial television stations exceeds the maximum number of signals a cable system is required

to carry under paragraph (1), the cable operator shall have discretion in selecting which such stations shall be carried on its cable system, except that—

(A) under no circumstances shall a cable operator carry a qualified low power station in lieu of a local commercial television station; and

(B) if the cable operator elects to carry an affiliate of a broadcast network (as such term is defined by the Commission by regulation), such cable operator shall carry the affiliate of such broadcast network whose city of license reference point, as defined in section 76.53 of title 47, Code of Federal Regulations (in effect on January 1, 1991), or any successor regulation thereto, is closest to the principal headend of the cable system.

(3) Content to be carried

(A) A cable operator shall carry in its entirety, on the cable system of that operator, the primary video, accompanying audio, and line 21 closed caption transmission of each of the local commercial television stations carried on the cable system and, to the extent technically feasible, program-related material carried in the vertical blanking interval or on subcarriers. Retransmission of other material in the vertical blanking interval or other non-program-related material (including teletext and other subscription and advertiser-supported information services) shall be at the discretion of the cable operator. Where appropriate and feasible, operators may delete signal enhancements, such as ghost-canceling, from the broadcast signal and employ such enhancements at the system headend or headends.

(B) The cable operator shall carry the entirety of the program schedule of any television station carried on the cable system unless carriage of specific programming is prohibited, and other programming authorized to be substituted, under section 76.67 or subpart F of part 76 of title 47, Code of Federal Regulations (as in effect on January 1, 1991), or any successor regulations thereto.

(4) Signal quality

(A) Nondegradation; technical specifications

The signals of local commercial television stations that a cable operator carries shall be carried without material degradation. The Commission shall adopt carriage standards to ensure that, to the extent technically feasible, the quality of signal processing and carriage provided by a cable system for the carriage of local commercial television stations will be no less than that provided by the system for carriage of any other type of signal.

(B) Advanced television

At such time as the Commission prescribes modifications of the standards for television broadcast signals, the Commission shall initiate a proceeding to establish any changes in the signal carriage requirements of cable television systems necessary to ensure cable carriage of such broadcast signals of local commercial television stations which have

been changed to conform with such modified standards.

(5) Duplication not required

Notwithstanding paragraph (1), a cable operator shall not be required to carry the signal of any local commercial television station that substantially duplicates the signal of another local commercial television station which is carried on its cable system, or to carry the signals of more than one local commercial television station affiliated with a particular broadcast network (as such term is defined by regulation). If a cable operator elects to carry on its cable system a signal which substantially duplicates the signal of another local commercial television station carried on the cable system, or to carry on its system the signals of more than one local commercial television station affiliated with a particular broadcast network, all such signals shall be counted toward the number of signals the operator is required to carry under paragraph (1).

(6) Channel positioning

Each signal carried in fulfillment of the carriage obligations of a cable operator under this section shall be carried on the cable system channel number on which the local commercial television station is broadcast over the air, or on the channel on which it was carried on July 19, 1985, or on the channel on which it was carried on January 1, 1992, at the election of the station, or on such other channel number as is mutually agreed upon by the station and the cable operator. Any dispute regarding the positioning of a local commercial television station shall be resolved by the Commission.

(7) Signal availability

Signals carried in fulfillment of the requirements of this section shall be provided to every subscriber of a cable system. Such signals shall be viewable via cable on all television receivers of a subscriber which are connected to a cable system by a cable operator or for which a cable operator provides a connection. If a cable operator authorizes subscribers to install additional receiver connections, but does not provide the subscriber with such connections, or with the equipment and materials for such connections, the operator shall notify such subscribers of all broadcast stations carried on the cable system which cannot be viewed via cable without a converter box and shall offer to sell or lease such a converter box to such subscribers at rates in accordance with section 543(b)(3) of this title.

(8) Identification of signals carried

A cable operator shall identify, upon request by any person, the signals carried on its system in fulfillment of the requirements of this section.

(9) Notification

A cable operator shall provide written notice to a local commercial television station at least 30 days prior to either deleting from carriage or repositioning that station. No deletion or repositioning of a local commercial

television station shall occur during a period in which major television ratings services measure the size of audiences of local television stations. The notification provisions of this paragraph shall not be used to undermine or evade the channel positioning or carriage requirements imposed upon cable operators under this section.

(10) Compensation for carriage

A cable operator shall not accept or request monetary payment or other valuable consideration in exchange either for carriage of local commercial television stations in fulfillment of the requirements of this section or for the channel positioning rights provided to such stations under this section, except that—

(A) any such station may be required to bear the costs associated with delivering a good quality signal or a baseband video signal to the principal headend of the cable system;

(B) a cable operator may accept payments from stations which would be considered distant signals under section 111 of title 17 as indemnification for any increased copyright liability resulting from carriage of such signal; and

(C) a cable operator may continue to accept monetary payment or other valuable consideration in exchange for carriage or channel positioning of the signal of any local commercial television station carried in fulfillment of the requirements of this section, through, but not beyond, the date of expiration of an agreement thereon between a cable operator and a local commercial television station entered into prior to June 26, 1990.

(c) Low power station carriage obligation

(1) Requirement

If there are not sufficient signals of full power local commercial television stations to fill the channels set aside under subsection (b) of this section—

(A) a cable operator of a cable system with a capacity of 35 or fewer usable activated channels shall be required to carry one qualified low power station; and

(B) a cable operator of a cable system with a capacity of more than 35 usable activated channels shall be required to carry two qualified low power stations.

(2) Use of public, educational, or governmental channels

A cable operator required to carry more than one signal of a qualified low power station under this subsection may do so, subject to approval by the franchising authority pursuant to section 531 of this title, by placing such additional station on public, educational, or governmental channels not in use for their designated purposes.

(d) Remedies

(1) Complaints by broadcast stations

Whenever a local commercial television station believes that a cable operator has failed to meet its obligations under this section, such station shall notify the operator, in writ-

ing, of the alleged failure and identify its reasons for believing that the cable operator is obligated to carry the signal of such station or has otherwise failed to comply with the channel positioning or repositioning or other requirements of this section. The cable operator shall, within 30 days of such written notification, respond in writing to such notification and either commence to carry the signal of such station in accordance with the terms requested or state its reasons for believing that it is not obligated to carry such signal or is in compliance with the channel positioning and repositioning and other requirements of this section. A local commercial television station that is denied carriage or channel positioning or repositioning in accordance with this section by a cable operator may obtain review of such denial by filing a complaint with the Commission. Such complaint shall allege the manner in which such cable operator has failed to meet its obligations and the basis for such allegations.

(2) Opportunity to respond

The Commission shall afford such cable operator an opportunity to present data and arguments to establish that there has been no failure to meet its obligations under this section.

(3) Remedial actions; dismissal

Within 120 days after the date a complaint is filed, the Commission shall determine whether the cable operator has met its obligations under this section. If the Commission determines that the cable operator has failed to meet such obligations, the Commission shall order the cable operator to reposition the complaining station or, in the case of an obligation to carry a station, to commence carriage of the station and to continue such carriage for at least 12 months. If the Commission determines that the cable operator has fully met the requirements of this section, it shall dismiss the complaint.

(e) Input selector switch rules abolished

No cable operator shall be required—

(1) to provide or make available any input selector switch as defined in section 76.5(mm) of title 47, Code of Federal Regulations, or any comparable device; or

(2) to provide information to subscribers about input selector switches or comparable devices.

(f) Regulations by Commission

Within 180 days after October 5, 1992, the Commission shall, following a rulemaking proceeding, issue regulations implementing the requirements imposed by this section. Such implementing regulations shall include necessary revisions to update section 76.51 of title 47 of the Code of Federal Regulations.

(g) Sales presentations and program length commercials

(1) Carriage pending proceeding

Pending the outcome of the proceeding under paragraph (2), nothing in this chapter shall require a cable operator to carry on any

tier, or prohibit a cable operator from carrying on any tier, the signal of any commercial television station or video programming service that is predominantly utilized for the transmission of sales presentations or program length commercials.

(2) Proceeding concerning certain stations

Within 270 days after October 5, 1992, the Commission, notwithstanding prior proceedings to determine whether broadcast television stations that are predominantly utilized for the transmission of sales presentations or program length commercials are serving the public interest, convenience, and necessity, shall complete a proceeding in accordance with this paragraph to determine whether broadcast television stations that are predominantly utilized for the transmission of sales presentations or program length commercials are serving the public interest, convenience, and necessity. In conducting such proceeding, the Commission shall provide appropriate notice and opportunity for public comment. The Commission shall consider the viewing of such stations, the level of competing demands for the spectrum allocated to such stations, and the role of such stations in providing competition to nonbroadcast services offering similar programming. In the event that the Commission concludes that one or more of such stations are serving the public interest, convenience, and necessity, the Commission shall qualify such stations as local commercial television stations for purposes of subsection (a) of this section. In the event that the Commission concludes that one or more of such stations are not serving the public interest, convenience, and necessity, the Commission shall allow the licensees of such stations a reasonable period within which to provide different programming, and shall not deny such stations a renewal expectancy solely because their programming consisted predominantly of sales presentations or program length commercials.

(h) Definitions

(1) Local commercial television station

(A) In general

For purposes of this section, the term "local commercial television station" means any full power television broadcast station, other than a qualified noncommercial educational television station within the meaning of section 535(l)(1) of this title, licensed and operating on a channel regularly assigned to its community by the Commission that, with respect to a particular cable system, is within the same television market as the cable system.

(B) Exclusions

The term "local commercial television station" shall not include—

(i) low power television stations, television translator stations, and passive repeaters which operate pursuant to part 74 of title 47, Code of Federal Regulations, or any successor regulations thereto;

(ii) a television broadcast station that would be considered a distant signal under

section 111 of title 17, if such station does not agree to indemnify the cable operator for any increased copyright liability resulting from carriage on the cable system; or

(iii) a television broadcast station that does not deliver to the principal headend of a cable system either a signal level of -45dBm for UHF signals or -49dBm for VHF signals at the input terminals of the signal processing equipment, if such station does not agree to be responsible for the costs of delivering to the cable system a signal of good quality or a baseband video signal.

(C) Market determinations

(i) For purposes of this section, a broadcasting station's market shall be determined in the manner provided in section 73.3555(d)(3)(i) of title 47, Code of Federal Regulations, as in effect on May 1, 1991, except that, following a written request, the Commission may, with respect to a particular television broadcast station, include additional communities within its television market or exclude communities from such station's television market to better effectuate the purposes of this section. In considering such requests, the Commission may determine that particular communities are part of more than one television market.

(ii) In considering requests filed pursuant to clause (i), the Commission shall afford particular attention to the value of localism by taking into account such factors as—

(I) whether the station, or other stations located in the same area, have been historically carried on the cable system or systems within such community;

(II) whether the television station provides coverage or other local service to such community;

(III) whether any other television station that is eligible to be carried by a cable system in such community in fulfillment of the requirements of this section provides news coverage of issues of concern to such community or provides carriage or coverage of sporting and other events of interest to the community; and

(IV) evidence of viewing patterns in cable and noncable households within the areas served by the cable system or systems in such community.

(iii) A cable operator shall not delete from carriage the signal of a commercial television station during the pendency of any proceeding pursuant to this subparagraph.

(iv) In the rulemaking proceeding required by subsection (f) of this section, the Commission shall provide for expedited consideration of requests filed under this subparagraph.

(2) Qualified low power station

The term "qualified low power station" means any television broadcast station conforming to the rules established for Low Power Television Stations contained in part 74 of title 47, Code of Federal Regulations, only if—

(A) such station broadcasts for at least the minimum number of hours of operation required by the Commission for television broadcast stations under part 73 of title 47, Code of Federal Regulations;

(B) such station meets all obligations and requirements applicable to television broadcast stations under part 73 of title 47, Code of Federal Regulations, with respect to the broadcast of nonentertainment programming; programming and rates involving political candidates, election issues, controversial issues of public importance, editorials, and personal attacks; programming for children; and equal employment opportunity; and the Commission determines that the provision of such programming by such station would address local news and informational needs which are not being adequately served by full power television broadcast stations because of the geographic distance of such full power stations from the low power station's community of license;

(C) such station complies with interference regulations consistent with its secondary status pursuant to part 74 of title 47, Code of Federal Regulations;

(D) such station is located no more than 35 miles from the cable system's headend, and delivers to the principal headend of the cable system an over-the-air signal of good quality, as determined by the Commission;

(E) the community of license of such station and the franchise area of the cable system are both located outside of the largest 160 Metropolitan Statistical Areas, ranked by population, as determined by the Office of Management and Budget on June 30, 1990, and the population of such community of license on such date did not exceed 35,000; and

(F) there is no full power television broadcast station licensed to any community within the county or other political subdivision (of a State) served by the cable system.

Nothing in this paragraph shall be construed to change the secondary status of any low power station as provided in part 74 of title 47, Code of Federal Regulations, as in effect on October 5, 1992.

(b) Requirements to carry qualified stations

(1) General requirement to carry each qualified station

Subject to paragraphs (2) and (3) and subsection (e) of this section, each cable operator shall carry, on the cable system of that cable operator, any qualified local noncommercial educational television station requesting carriage.

(2) Systems with 12 or fewer channels

(A) Notwithstanding paragraph (1), a cable operator of a cable system with 12 or fewer usable activated channels shall be required to carry the signal of one qualified local noncommercial educational television station; except that a cable operator of such a system shall comply with subsection (c) of this section and may, in its discretion, carry the signals of other qualified noncommercial educational television stations.

(B) In the case of a cable system described in subparagraph (A) which operates beyond the presence of any qualified local noncommercial educational television station—

(i) the cable operator shall import and carry on that system the signal of one qualified noncommercial educational television station;

(ii) the selection for carriage of such a signal shall be at the election of the cable operator; and

(iii) in order to satisfy the requirements for carriage specified in this subsection, the cable operator of the system shall not be required to remove any other programming service actually provided to subscribers on March 29, 1990; except that such cable operator shall use the first channel available to satisfy the requirements of this subparagraph.

(3) Systems with 13 to 36 channels

(A) Subject to subsection (c) of this section, a cable operator of a cable system with 13 to 36 usable activated channels—

(i) shall carry the signal of at least one qualified local noncommercial educational television station but shall not be required to carry the signals of more than three such stations, and

(ii) may, in its discretion, carry additional such stations.

(B) In the case of a cable system described in this paragraph which operates beyond the presence of any qualified local noncommercial educational television station, the cable operator shall import and carry on that system the signal of at least one qualified noncommercial educational television station to comply with subparagraph (A)(i).

(C) The cable operator of a cable system described in this paragraph which carries the signal of a qualified local noncommercial educational station affiliated with a State public television network shall not be required to carry the signal of any additional qualified local noncommercial educational television stations affiliated with the same network if the programming of such additional stations is substantially duplicated by the programming of the qualified local noncommercial educational television station receiving carriage.

(D) A cable operator of a system described in this paragraph which increases the usable activated channel capacity of the system to more than 36 channels on or after March 29, 1990, shall, in accordance with the other provisions of this section, carry the signal of each qualified local noncommercial educational television station requesting carriage, subject to subsection (e) of this section.

(c) Continued carriage of existing stations

Notwithstanding any other provision of this section, all cable operators shall continue to provide carriage to all qualified local noncommercial educational television stations whose signals were carried on their systems as of March 29, 1990. The requirements of this subsection may be waived with respect to a particular cable operator and a particular such station, upon the written consent of the cable operator and the station.

(d) Placement of additional signals

A cable operator required to add the signals of qualified local noncommercial educational television stations to a cable system under this section may do so, subject to approval by the franchising authority pursuant to section 531 of this title, by placing such additional stations on public, educational, or governmental channels not in use for their designated purposes.

(e) Systems with more than 36 channels

A cable operator of a cable system with a capacity of more than 36 usable activated channels which is required to carry the signals of three qualified local noncommercial educational television stations shall not be required to carry the signals of additional such stations the programming of which substantially duplicates the programming broadcast by another qualified local noncommercial educational television station requesting carriage. Substantial duplication shall be defined by the Commission in a manner that promotes access to distinctive noncommercial educational television services.

(f) Waiver of nonduplication rights

A qualified local noncommercial educational television station whose signal is carried by a cable operator shall not assert any network nonduplication rights it may have pursuant to section 76.92 of title 47, Code of Federal Regulations, to require the deletion of programs aired on other qualified local noncommercial educational television stations whose signals are carried by that cable operator.

(g) Conditions of carriage

(1) Content to be carried

A cable operator shall retransmit in its entirety the primary video, accompanying audio, and line 21 closed caption transmission of each qualified local noncommercial educational television station whose signal is carried on the cable system, and, to the extent technically feasible, program-related material carried in the vertical blanking interval, or on subcarriers, that may be necessary for receipt of programming by handicapped persons or for educational or language purposes. Retransmission of other material in the vertical blanking interval or on subcarriers shall be within the discretion of the cable operator.

(2) Bandwidth and technical quality

A cable operator shall provide each qualified local noncommercial educational television station whose signal is carried in accordance with this section with bandwidth and technical capacity equivalent to that provided to commercial television broadcast stations carried on the cable system and shall carry the signal of each qualified local noncommercial educational television station without material degradation.

(3) Changes in carriage

The signal of a qualified local noncommercial educational television station shall not be repositioned by a cable operator unless the cable operator, at least 30 days in advance of such repositioning, has provided written notice to the station and all subscribers of the cable system. For purposes of this paragraph, repositioning includes (A) assignment of a qualified local noncommercial educational television station to a cable system channel number different from the cable system channel number to which the station was assigned as of March 29, 1990, and (B) deletion of the station from the cable system. The notification provisions of this paragraph shall not be used to undermine or evade the channel positioning or carriage requirements imposed upon cable operators under this section.

(4) Good quality signal required

Notwithstanding the other provisions of this section, a cable operator shall not be required to carry the signal of any qualified local noncommercial educational television station which does not deliver to the cable system's principal headend a signal of good quality or a baseband video signal, as may be defined by the Commission.

(5) Channel positioning

Each signal carried in fulfillment of the carriage obligations of a cable operator under this section shall be carried on the cable system channel number on which the qualified local noncommercial educational television station is broadcast over the air, or on the channel on which it was carried on July 19, 1985, at the election of the station, or on such other channel number as is mutually agreed upon by the station and the cable operator. Any dispute regarding the positioning of a qualified local noncommercial educational

television station shall be resolved by the Commission.

(h) Availability of signals

Signals carried in fulfillment of the carriage obligations of a cable operator under this section shall be available to every subscriber as part of the cable system's lowest priced service tier that includes the retransmission of local commercial television broadcast signals.

(i) Payment for carriage prohibited

(1) In general

A cable operator shall not accept monetary payment or other valuable consideration in exchange for carriage of the signal of any qualified local noncommercial educational television station carried in fulfillment of the requirements of this section, except that such a station may be required to bear the cost associated with delivering a good quality signal or a baseband video signal to the principal headend of the cable system.

(2) Distant signal exception

Notwithstanding the provisions of this section, a cable operator shall not be required to add the signal of a qualified local noncommercial educational television station not already carried under the provision of subsection (c) of this section, where such signal would be considered a distant signal for copyright purposes unless such station indemnifies the cable operator for any increased copyright costs resulting from carriage of such signal.

(j) Remedies

(1) Complaint

Whenever a qualified local noncommercial educational television station believes that a cable operator of a cable system has failed to comply with the signal carriage requirements of this section, the station may file a complaint with the Commission. Such complaint shall allege the manner in which such cable operator has failed to comply with such requirements and state the basis for such allegations.

(2) Opportunity to respond

The Commission shall afford such cable operator an opportunity to present data, views, and arguments to establish that the cable operator has complied with the signal carriage requirements of this section.

(3) Remedial actions; dismissal

Within 120 days after the date a complaint is filed under this subsection, the Commission shall determine whether the cable operator has complied with the requirements of this section. If the Commission determines that the cable operator has failed to comply with such requirements, the Commission shall state with particularity the basis for such findings and order the cable operator to take such remedial action as is necessary to meet such requirements. If the Commission determines that the cable operator has fully complied with such requirements, the Commission shall dismiss the complaint.

(k) Identification of signals

A cable operator shall identify, upon request by any person, those signals carried in fulfillment of the requirements of this section.

This section is referred to in sections 325, 532, 534, 543, 555 of this title.

§ 536. Regulation of carriage agreements**(a) Regulations**

Within one year after October 5, 1992, the Commission shall establish regulations governing program carriage agreements and related practices between cable operators or other multichannel video programming distributors and video programming vendors. Such regulations shall—

(1) include provisions designed to prevent a cable operator or other multichannel video programming distributor from requiring a financial interest in a program service as a condition for carriage on one or more of such operator's systems;

(2) include provisions designed to prohibit a cable operator or other multichannel video programming distributor from coercing a video programming vendor to provide, and from retaliating against such a vendor for failing to provide, exclusive rights against other multichannel video programming distributors as a condition of carriage on a system;

(3) contain provisions designed to prevent a multichannel video programming distributor from engaging in conduct the effect of which is to unreasonably restrain the ability of an unaffiliated video programming vendor to compete fairly by discriminating in video programming distribution on the basis of affiliation or nonaffiliation of vendors in the selection, terms, or conditions for carriage of video programming provided by such vendors;

(4) provide for expedited review of any complaints made by a video programming vendor pursuant to this section;

(5) provide for appropriate penalties and remedies for violations of this subsection, including carriage; and

Except as provided in this section, no cable operator may sell or otherwise transfer ownership in a cable system within a 36-month period following either the acquisition or initial construction of such system by such operator.

(b) Treatment of multiple transfers

In the case of a sale of multiple systems, if the terms of the sale require the buyer to subsequently transfer ownership of one or more such systems to one or more third parties, such transfers shall be considered a part of the initial transaction.

(c) Exceptions

Subsection (a) of this section shall not apply to—

(1) any transfer of ownership interest in any cable system which is not subject to Federal income tax liability;

(2) any sale required by operation of any law or any act of any Federal agency, any State or political subdivision thereof, or any franchising authority; or

(3) any sale, assignment, or transfer, to one or more purchasers, assignees, or transferees controlled by, controlling, or under common control with, the seller, assignor, or transferor.

(d) Waiver authority

The Commission may, consistent with the public interest, waive the requirement of subsection (a) of this section, except that, if the franchise requires franchise authority approval of a transfer, the Commission shall not waive such requirements unless the franchise authority has approved the transfer. The Commission shall use its authority under this subsection to permit appropriate transfers in the cases of default, foreclosure, or other financial distress.

(e) Limitation on duration of franchising authority power to disapprove transfers

In the case of any sale or transfer of ownership of any cable system after the 36-month period following acquisition of such system, a franchising authority shall, if the franchise requires franchising authority approval of a sale or transfer, have 120 days to act upon any request for approval of such sale or transfer that contains or is accompanied by such information as is required in accordance with Commission regulations and by the franchising authority. If the franchising authority fails to render a final decision on the request within 120 days, such request shall be deemed granted unless the requesting party and the franchising authority agree to an extension of time.

(June 19, 1934, ch. 652, title VI, § 617, as added Oct. 5, 1992, Pub. L. 102-385, § 13, 106 Stat. 1489.)

PART III—FRANCHISING AND REGULATION

§ 541. General franchise requirements**(a) Authority to award franchises; public rights-of-way and easements; equal access to service; time for provision of service; assurances**

(1) A franchising authority may award, in accordance with the provisions of this subchapter, 1 or more franchises within its jurisdiction; except that a franchising authority may not grant an exclusive franchise and may not unreasonably refuse to award an additional competitive franchise. Any applicant whose application for a second franchise has been denied by a final decision of the franchising authority may appeal such final decision pursuant to the provisions of section 555 of this title for failure to comply with this subsection.

(2) Any franchise shall be construed to authorize the construction of a cable system over public rights-of-way, and through easements, which is within the area to be served by the cable system and which have been dedicated for compatible uses, except that in using such easements the cable operator shall ensure—

(A) that the safety, functioning, and appearance of the property and the convenience and safety of other persons not be adversely affected by the installation or construction of facilities necessary for a cable system;

(B) that the cost of the installation, construction, operation, or removal of such facilities be borne by the cable operator or subscriber, or a combination of both; and

(C) that the owner of the property be justly compensated by the cable operator for any damages caused by the installation, construction, operation, or removal of such facilities by the cable operator.

(3) In awarding a franchise or franchises, a franchising authority shall assure that access to cable service is not denied to any group of potential residential cable subscribers because of the income of the residents of the local area in which such group resides.

(4) In awarding a franchise, the franchising authority—

(A) shall allow the applicant's cable system a reasonable period of time to become capable of providing cable service to all households in the franchise area;

(B) may require adequate assurance that the cable operator will provide adequate public, educational, and governmental access channel capacity, facilities, or financial support; and

(C) may require adequate assurance that the cable operator has the financial, technical, or legal qualifications to provide cable service.

(b) No cable service without franchise; exception under prior law

(1) Except to the extent provided in paragraph (2) and subsection (f) of this section, a cable operator may not provide cable service without a franchise.

(2) Paragraph (1) shall not require any person lawfully providing cable service without a franchise on July 1, 1984, to obtain a franchise unless the franchising authority so requires.

(c) Status of cable system as common carrier or utility

Any cable system shall not be subject to regulation as a common carrier or utility by reason of providing any cable service.

(d) Informational tariffs; regulation by States; "State" defined

(1) A State or the Commission may require the filing of informational tariffs for any intrastate communications service provided by a cable system, other than cable service, that would be subject to regulation by the Commission or any State if offered by a common carrier subject, in whole or in part, to subchapter II of this chapter. Such informational tariffs shall specify the rates, terms, and conditions for the provision of such service, including whether it is made available to all subscribers generally, and shall take effect on the date specified therein.

(2) Nothing in this subchapter shall be construed to affect the authority of any State to regulate any cable operator to the extent that such operator provides any communication service other than cable service, whether offered on a common carrier or private contract basis.

(3) For purposes of this subsection, the term "State" has the meaning given it in section 153(v) of this title.

(e) State regulation of facilities serving subscribers in multiple dwelling units

Nothing in this subchapter shall be construed to affect the authority of any State to license or otherwise regulate any facility or combination of facilities which serves only subscribers in one or more multiple unit dwellings under common ownership, control, or management and which does not use any public right-of-way.

(f) Local or municipal authority as multichannel video programming distributor

No provision of this chapter shall be construed to—

(1) prohibit a local or municipal authority that is also, or is affiliated with, a franchising authority from operating as a multichannel video programming distributor in the franchise area, notwithstanding the granting of one or more franchises by such franchising authority; or

(2) require such local or municipal authority to secure a franchise to operate as a multichannel video programming distributor.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 522, 532, 555 of this title.

§ 542. Franchise fees

(a) Payment under terms of franchise

Subject to the limitation of subsection (b) of this section, any cable operator may be required

under the terms of any franchise to pay a franchise fee.

(b) Amount of fees per annum

For any twelve-month period, the franchise fees paid by a cable operator with respect to any cable system shall not exceed 5 percent of such cable operator's gross revenues derived in such period from the operation of the cable system. For purposes of this section, the 12-month period shall be the 12-month period applicable under the franchise for accounting purposes. Nothing in this subsection shall prohibit a franchising authority and a cable operator from agreeing that franchise fees which lawfully could be collected for any such 12-month period shall be paid on a prepaid or deferred basis; except that the sum of the fees paid during the term of the franchise may not exceed the amount, including the time value of money, which would have lawfully been collected if such fees had been paid per annum.

(c) Itemization of subscriber bills

Each cable operator may identify, consistent with the regulations prescribed by the Commission pursuant to section 543 of this title, as a separate line item on each regular bill of each subscriber, each of the following:

(1) The amount of the total bill assessed as a franchise fee and the identity of the franchising authority to which the fee is paid.

(2) The amount of the total bill assessed to satisfy any requirements imposed on the cable operator by the franchise agreement to support public, educational, or governmental channels or the use of such channels.

(3) The amount of any other fee, tax, assessment, or charge of any kind imposed by any governmental authority on the transaction between the operator and the subscriber.

(d) Court actions; reflection of costs in rate structures

In any court action under subsection (c) of this section, the franchising authority shall demonstrate that the rate structure reflects all costs of the franchise fees.

(e) Decreases passed through to subscribers

Any cable operator shall pass through to subscribers the amount of any decrease in a franchise fee.

(f) Itemization of franchise fee in bill

A cable operator may designate that portion of a subscriber's bill attributable to the franchise fee as a separate item on the bill.

(g) "Franchise fee" defined

For the purposes of this section—

(1) the term "franchise fee" includes any tax, fee, or assessment of any kind imposed by a franchising authority or other governmental entity on a cable operator or cable subscriber, or both, solely because of their status as such;

(2) the term "franchise fee" does not include—

(A) any tax, fee, or assessment of general applicability (including any such tax, fee, or assessment imposed on both utilities and cable operators or their services but not including a tax, fee, or assessment which is un-

duly discriminatory against cable operators or cable subscribers);

(B) in the case of any franchise in effect on October 30, 1984, payments which are required by the franchise to be made by the cable operator during the term of such franchise for, or in support of the use of, public, educational, or governmental access facilities;

(C) in the case of any franchise granted after October 30, 1984, capital costs which are required by the franchise to be incurred by the cable operator for public, educational, or governmental access facilities;

(D) requirements or charges incidental to the awarding or enforcing of the franchise, including payments for bonds, security funds, letters of credit, insurance, indemnification, penalties, or liquidated damages; or

(E) any fee imposed under title 17.

(h) Uncompensated services; taxes, fees and other assessments; limitation on fees

(1) Nothing in this chapter shall be construed to limit any authority of a franchising authority to impose a tax, fee, or other assessment of any kind on any person (other than a cable operator) with respect to cable service or other communications service provided by such person over a cable system for which charges are assessed to subscribers but not received by the cable operator.

(2) For any 12-month period, the fees paid by such person with respect to any such cable service or other communications service shall not exceed 5 percent of such person's gross revenues derived in such period from the provision of such service over the cable system.

(i) Regulatory authority of Federal agencies

Any Federal agency may not regulate the amount of the franchise fees paid by a cable operator, or regulate the use of funds derived from such fees, except as provided in this section.

(June 19, 1984, ch. 652, title VI, §622, as added Oct. 30, 1984, Pub. L. 98-549, §2, 98 Stat. 2787; amended Oct. 5, 1992, Pub. L. 102-385, §14, 106 Stat. 1489.)

AMENDMENTS

1992—Subsec. (c). Pub. L. 102-385 amended subsec. (c) generally. Prior to amendment, subsec. (c) read as follows: "A cable operator may pass through to subscribers the amount of any increase in a franchise fee, unless the franchising authority demonstrates that the rate structure specified in the franchise reflects all costs of franchise fees and so notifies the cable operator in writing."

EFFECTIVE DATE OF 1992 AMENDMENT

Amendment by Pub. L. 102-385 effective 60 days after Oct. 5, 1992, see section 28 of Pub. L. 102-385, set out as a note under section 325 of this title.

EFFECTIVE DATE

Section effective 60 days after Oct. 30, 1984, except where otherwise expressly provided, see section 9(a) of Pub. L. 98-549, set out as a note under section 521 of this title.

§ 543. Regulation of rates**(a) Competition preference; local and Federal regulation****(1) In general**

No Federal agency or State may regulate the rates for the provision of cable service except to the extent provided under this section and section 532 of this title. Any franchising authority may regulate the rates for the provision of cable service, or any other communications service provided over a cable system to cable subscribers, but only to the extent provided under this section. No Federal agency, State, or franchising authority may regulate the rates for cable service of a cable system that is owned or operated by a local government or franchising authority within whose jurisdiction that cable system is located and that is the only cable system located within such jurisdiction.

(2) Preference for competition

If the Commission finds that a cable system is subject to effective competition, the rates for the provision of cable service by such system shall not be subject to regulation by the Commission or by a State or franchising authority under this section. If the Commission finds that a cable system is not subject to effective competition—

(A) the rates for the provision of basic cable service shall be subject to regulation by a franchising authority, or by the Commission if the Commission exercises jurisdiction pursuant to paragraph (6), in accordance with the regulations prescribed by the Commission under subsection (b) of this section; and

(B) the rates for cable programming services shall be subject to regulation by the Commission under subsection (c) of this section.

(3) Qualification of franchising authority

A franchising authority that seeks to exercise the regulatory jurisdiction permitted under paragraph (2)(A) shall file with the Commission a written certification that—

(A) the franchising authority will adopt and administer regulations with respect to the rates subject to regulation under this section that are consistent with the regulations prescribed by the Commission under subsection (b) of this section;

(B) the franchising authority has the legal authority to adopt, and the personnel to administer, such regulations; and

(C) procedural laws and regulations applicable to rate regulation proceedings by such authority provide a reasonable opportunity for consideration of the views of interested parties.

(4) Approval by Commission

A certification filed by a franchising authority under paragraph (3) shall be effective 30 days after the date on which it is filed unless the Commission finds, after notice to the authority and a reasonable opportunity for the authority to comment, that—

(A) the franchising authority has adopted or is administering regulations with respect

to the rates subject to regulation under this section that are not consistent with the regulations prescribed by the Commission under subsection (b) of this section;

(B) the franchising authority does not have the legal authority to adopt, or the personnel to administer, such regulations; or

(C) procedural laws and regulations applicable to rate regulation proceedings by such authority do not provide a reasonable opportunity for consideration of the views of interested parties.

If the Commission disapproves a franchising authority's certification, the Commission shall notify the franchising authority of any revisions or modifications necessary to obtain approval.

(5) Revocation of jurisdiction

Upon petition by a cable operator or other interested party, the Commission shall review the regulation of cable system rates by a franchising authority under this subsection. A copy of the petition shall be provided to the franchising authority by the person filing the petition. If the Commission finds that the franchising authority has acted inconsistently with the requirements of this subsection, the Commission shall grant appropriate relief. If the Commission, after the franchising authority has had a reasonable opportunity to comment, determines that the State and local laws and regulations are not in conformance with the regulations prescribed by the Commission under subsection (b) of this section, the Commission shall revoke the jurisdiction of such authority.

(6) Exercise of jurisdiction by Commission

If the Commission disapproves a franchising authority's certification under paragraph (4), or revokes such authority's jurisdiction under paragraph (5), the Commission shall exercise the franchising authority's regulatory jurisdiction under paragraph (2)(A) until the franchising authority has qualified to exercise that jurisdiction by filing a new certification that meets the requirements of paragraph (3). Such new certification shall be effective upon approval by the Commission. The Commission shall act to approve or disapprove any such new certification within 90 days after the date it is filed.

(b) Establishment of basic service tier rate regulations**(1) Commission obligation to subscribers**

The Commission shall, by regulation, ensure that the rates for the basic service tier are reasonable. Such regulations shall be designed to achieve the goal of protecting subscribers of any cable system that is not subject to effective competition from rates for the basic service tier that exceed the rates that would be charged for the basic service tier if such cable system were subject to effective competition.

(2) Commission regulations

Within 180 days after October 5, 1992, the Commission shall prescribe, and periodically thereafter revise, regulations to carry out its obligations under paragraph (1). In prescribing such regulations, the Commission—

(A) shall seek to reduce the administrative burdens on subscribers, cable operators, franchising authorities, and the Commission;

(B) may adopt formulas or other mechanisms and procedures in complying with the requirements of subparagraph (A); and

(C) shall take into account the following factors:

(i) the rates for cable systems, if any, that are subject to effective competition;

(ii) the direct costs (if any) of obtaining, transmitting, and otherwise providing signals carried on the basic service tier, including signals and services carried on the basic service tier pursuant to paragraph (7)(B), and changes in such costs;

(iii) only such portion of the joint and common costs (if any) of obtaining, transmitting, and otherwise providing such signals as is determined, in accordance with regulations prescribed by the Commission, to be reasonably and properly allocable to the basic service tier, and changes in such costs;

(iv) the revenues (if any) received by a cable operator from advertising from programming that is carried as part of the basic service tier or from other consideration obtained in connection with the basic service tier;

(v) the reasonably and properly allocable portion of any amount assessed as a franchise fee, tax, or charge of any kind imposed by any State or local authority on the transactions between cable operators and cable subscribers or any other fee, tax, or assessment of general applicability imposed by a governmental entity applied against cable operators or cable subscribers;

(vi) any amount required, in accordance with paragraph (4), to satisfy franchise requirements to support public, educational, or governmental channels or the use of such channels or any other services required under the franchise; and

(vii) a reasonable profit, as defined by the Commission consistent with the Commission's obligations to subscribers under paragraph (1).

(3) Equipment

The regulations prescribed by the Commission under this subsection shall include standards to establish, on the basis of actual cost, the price or rate for—

(A) installation and lease of the equipment used by subscribers to receive the basic service tier, including a converter box and a remote control unit and, if requested by the subscriber, such addressable converter box or other equipment as is required to access programming described in paragraph (8); and

(B) installation and monthly use of connections for additional television receivers.

(4) Costs of franchise requirements

The regulations prescribed by the Commission under this subsection shall include standards to identify costs attributable to satisfying franchise requirements to support public,

educational, and governmental channels or the use of such channels or any other services required under the franchise.

(5) Implementation and enforcement

The regulations prescribed by the Commission under this subsection shall include additional standards, guidelines, and procedures concerning the implementation and enforcement of such regulations, which shall include—

(A) procedures by which cable operators may implement and franchising authorities may enforce the regulations prescribed by the Commission under this subsection;

(B) procedures for the expeditious resolution of disputes between cable operators and franchising authorities concerning the administration of such regulations;

(C) standards and procedures to prevent unreasonable charges for changes in the subscriber's selection of services or equipment subject to regulation under this section, which standards shall require that charges for changing the service tier selected shall be based on the cost of such change and shall not exceed nominal amounts when the system's configuration permits changes in service tier selection to be effected solely by coded entry on a computer terminal or by other similarly simple method; and

(D) standards and procedures to assure that subscribers receive notice of the availability of the basic service tier required under this section.

(6) Notice

The procedures prescribed by the Commission pursuant to paragraph (5)(A) shall require a cable operator to provide 30 days' advance notice to a franchising authority of any increase proposed in the price to be charged for the basic service tier.

(7) Components of basic tier subject to rate regulation

(A) Minimum contents

Each cable operator of a cable system shall provide its subscribers a separately available basic service tier to which subscription is required for access to any other tier of service. Such basic service tier shall, at a minimum, consist of the following:

(i) All signals carried in fulfillment of the requirements of sections 534 and 535 of this title.

(ii) Any public, educational, and governmental access programming required by the franchise of the cable system to be provided to subscribers.

(iii) Any signal of any television broadcast station that is provided by the cable operator to any subscriber, except a signal which is secondarily transmitted by a satellite carrier beyond the local service area of such station.

(B) Permitted additions to basic tier

A cable operator may add additional video programming signals or services to the basic service tier. Any such additional signals or services provided on the basic service tier

shall be provided to subscribers at rates determined under the regulations prescribed by the Commission under this subsection.

(8) Buy-through of other tiers prohibited

(A) Prohibition

A cable operator may not require the subscription to any tier other than the basic service tier required by paragraph (7) as a condition of access to video programming offered on a per channel or per program basis. A cable operator may not discriminate between subscribers to the basic service tier and other subscribers with regard to the rates charged for video programming offered on a per channel or per program basis.

(B) Exception; limitation

The prohibition in subparagraph (A) shall not apply to a cable system that, by reason of the lack of addressable converter boxes or other technological limitations, does not permit the operator to offer programming on a per channel or per program basis in the same manner required by subparagraph (A). This subparagraph shall not be available to any cable operator after—

(i) the technology utilized by the cable system is modified or improved in a way that eliminates such technological limitation; or

(ii) 10 years after October 5, 1992, subject to subparagraph (C).

(C) Waiver

If, in any proceeding initiated at the request of any cable operator, the Commission determines that compliance with the requirements of subparagraph (A) would require the cable operator to increase its rates, the Commission may, to the extent consistent with the public interest, grant such cable operator a waiver from such requirements for such specified period as the Commission determines reasonable and appropriate.

(c) Regulation of unreasonable rates

(1) Commission regulations

Within 180 days after October 5, 1992, the Commission shall, by regulation, establish the following:

(A) criteria prescribed in accordance with paragraph (2) for identifying, in individual cases, rates for cable programming services that are unreasonable;

(B) fair and expeditious procedures for the receipt, consideration, and resolution of complaints from any subscriber, franchising authority, or other relevant State or local government entity alleging that a rate for cable programming services charged by a cable operator violates the criteria prescribed under subparagraph (A), which procedures shall include the minimum showing that shall be required for a complaint to obtain Commission consideration and resolution of whether the rate in question is unreasonable; and

(C) the procedures to be used to reduce rates for cable programming services that are determined by the Commission to be un-

reasonable and to refund such portion of the rates or charges that were paid by subscribers after the filing of such complaint and that are determined to be unreasonable.

(2) Factors to be considered

In establishing the criteria for determining in individual cases whether rates for cable programming services are unreasonable under paragraph (1)(A), the Commission shall consider, among other factors—

(A) the rates for similarly situated cable systems offering comparable cable programming services, taking into account similarities in facilities, regulatory and governmental costs, the number of subscribers, and other relevant factors;

(B) the rates for cable systems, if any, that are subject to effective competition;

(C) the history of the rates for cable programming services of the system, including the relationship of such rates to changes in general consumer prices;

(D) the rates, as a whole, for all the cable programming, cable equipment, and cable services provided by the system, other than programming provided on a per channel or per program basis;

(E) capital and operating costs of the cable system, including the quality and costs of the customer service provided by the cable system; and

(F) the revenues (if any) received by a cable operator from advertising from programming that is carried as part of the service for which a rate is being established, and changes in such revenues, or from other consideration obtained in connection with the cable programming services concerned.

(3) Limitation on complaints concerning existing rates

Except during the 180-day period following the effective date of the regulations prescribed by the Commission under paragraph (1), the procedures established under subparagraph (B) of such paragraph shall be available only with respect to complaints filed within a reasonable period of time following a change in rates that is initiated after that effective date, including a change in rates that results from a change in that system's service tiers.

(d) Uniform rate structure required

A cable operator shall have a rate structure, for the provision of cable service, that is uniform throughout the geographic area in which cable service is provided over its cable system.

(e) Discrimination; services for the hearing impaired

Nothing in this subchapter shall be construed as prohibiting any Federal agency, State, or a franchising authority from—

(1) prohibiting discrimination among subscribers and potential subscribers to cable service, except that no Federal agency, State, or franchising authority may prohibit a cable operator from offering reasonable discounts to senior citizens or other economically disadvantaged group discounts; or

(2) requiring and regulating the installation or rental of equipment which facilitates the

reception of cable service by hearing impaired individuals.

(f) Negative option billing prohibited

A cable operator shall not charge a subscriber for any service or equipment that the subscriber has not affirmatively requested by name. For purposes of this subsection, a subscriber's failure to refuse a cable operator's proposal to provide such service or equipment shall not be deemed to be an affirmative request for such service or equipment.

(g) Collection of information

The Commission shall, by regulation, require cable operators to file with the Commission or a franchising authority, as appropriate, within one year after October 5, 1992, and annually thereafter, such financial information as may be needed for purposes of administering and enforcing this section.

(h) Prevention of evasions

Within 180 days after October 5, 1992, the Commission shall, by regulation, establish standards, guidelines, and procedures to prevent evasions, including evasions that result from retiering, of the requirements of this section and shall, thereafter, periodically review and revise such standards, guidelines, and procedures.

(i) Small system burdens

In developing and prescribing regulations pursuant to this section, the Commission shall design such regulations to reduce the administrative burdens and cost of compliance for cable systems that have 1,000 or fewer subscribers.

(j) Rate regulation agreements

During the term of an agreement made before July 1, 1990, by a franchising authority and a cable operator providing for the regulation of basic cable service rates, where there was not effective competition under Commission rules in effect on that date, nothing in this section (or the regulations thereunder) shall abridge the ability of such franchising authority to regulate rates in accordance with such an agreement.

(k) Reports on average prices

The Commission shall annually publish statistical reports on the average rates for basic cable service and other cable programming, and for converter boxes, remote control units, and other equipment, of—

(1) cable systems that the Commission has found are subject to effective competition under subsection (a)(2) of this section, compared with

(2) cable systems that the Commission has found are not subject to such effective competition.

(l) Definitions

As used in this section—

(1) The term "effective competition" means that—

(A) fewer than 30 percent of the households in the franchise area subscribe to the cable service of a cable system;

(B) the franchise area is—

(i) served by at least two unaffiliated multichannel video programming distribu-

tors each of which offers comparable video programming to at least 50 percent of the households in the franchise area; and

(ii) the number of households subscribing to programming services offered by multichannel video programming distributors other than the largest multichannel video programming distributor exceeds 15 percent of the households in the franchise area; or

(C) a multichannel video programming distributor operated by the franchising authority for that franchise area offers video programming to at least 50 percent of the households in that franchise area.

(2) The term "cable programming service" means any video programming provided over a cable system, regardless of service tier, including installation or rental of equipment used for the receipt of such video programming, other than (A) video programming carried on the basic service tier, and (B) video programming offered on a per channel or per program basis.

Section 3(b) of Pub. L. 102-385 provided that: "The amendment made by subsection (a) [amending this section] shall take effect 180 days after the date of enactment of this Act [Oct. 5, 1992], except that the authority of the Federal Communications Commission to prescribe regulations is effective on such date of enactment."

EFFECTIVE DATE

Section effective 60 days after Oct. 30, 1984, except where otherwise expressly provided, see section 9(a) of Pub. L. 98-549, set out as a note under section 521 of this title.

RESTORATION, RETIERMENT AND REPRICING OF SERVICE PREVIOUSLY ELIMINATED, RETIERED, OR REPRICED

Section 9(b) of Pub. L. 98-549 provided that: "Nothing in section 623 or 624 of the Communications Act of 1934 [sections 543 and 544 of this title], as added by this Act, shall be construed to allow a franchising authority, or a State or any political subdivision of a State, to require a cable operator to restore, retier, or reprice any cable service which was lawfully eliminated, retiered, or repriced as of September 26, 1984."

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 325, 532, 534, 542, 545 of this title.

§ 544. Regulation of services, facilities, and equipment

(a) Regulation by franchising authority

Any franchising authority may not regulate the services, facilities, and equipment provided by a cable operator except to the extent consistent with this subchapter.

(b) Requests for proposals; establishment and enforcement of requirements

In the case of any franchise granted after the effective date of this subchapter, the franchising authority, to the extent related to the establishment or operation of a cable system—

(1) in its request for proposals for a franchise (including requests for renewal proposals, subject to section 546 of this title), may establish requirements for facilities and equipment, but may not, except as provided in subsection (h) of this section, establish requirements for video programming or other information services; and

(2) subject to section 545 of this title, may enforce any requirements contained within the franchise—

(A) for facilities and equipment; and

(B) for broad categories of video programming or other services.

(c) Enforcement authority respecting franchises effective under prior law

In the case of any franchise in effect on the effective date of this subchapter, the franchising authority may, subject to section 545 of this title, enforce requirements contained within the franchise for the provision of services, facilities, and equipment, whether or not related to the establishment or operation of a cable system.

(d) Cable service unprotected by Constitution; blockage of premium channel upon request

(1) Nothing in this subchapter shall be construed as prohibiting a franchising authority and a cable operator from specifying, in a franchise or renewal thereof, that certain cable services shall not be provided or shall be provided subject to conditions, if such cable services are obscene or are otherwise unprotected by the Constitution of the United States.

(2) In order to restrict the viewing of of¹ programming which is obscene or indecent, upon the request of a subscriber, a cable operator shall provide (by sale or lease) a device by which the subscriber can prohibit viewing of a particular cable service during periods selected by that subscriber.

(3)(A) If a cable operator provides a premium channel without charge to cable subscribers who do not subscribe to such premium channel, the cable operator shall, not later than 30 days before such premium channel is provided without charge—

(i) notify all cable subscribers that the cable operator plans to provide a premium channel without charge;

(ii) notify all cable subscribers when the cable operator plans to offer a premium channel without charge;

(iii) notify all cable subscribers that they have a right to request that the channel carrying the premium channel be blocked; and

(iv) block the channel carrying the premium channel upon the request of a subscriber.

(B) For the purpose of this section, the term “premium channel” shall mean any pay service offered on a per channel or per program basis, which offers movies rated by the Motion Picture Association of America as X, NC-17, or R.

(e) Technical standards

Within one year after October 5, 1992, the Commission shall prescribe regulations which establish minimum technical standards relating to cable systems’ technical operation and signal quality. The Commission shall update such standards periodically to reflect improvements in technology. A franchising authority may require as part of a franchise (including a modification, renewal, or transfer thereof) provisions for the enforcement of the standards prescribed under this subsection. A franchising authority may apply to the Commission for a waiver to impose standards that are more stringent than the standards prescribed by the Commission under this subsection.

(f) Limitation on regulatory powers of Federal agencies, States, or franchising authorities; exceptions

(1) Any Federal agency, State, or franchising authority may not impose requirements regarding the provision or content of cable services, except as expressly provided in this subchapter.

(2) Paragraph (1) shall not apply to—

(A) any rule, regulation, or order issued under any Federal law, as such rule, regulation, or order (i) was in effect on September 21, 1983, or (ii) may be amended after such date if the rule, regulation, or order as amended is not inconsistent with the express provisions of this subchapter; and

(B) any rule, regulation, or order under title 17.

(g) Access to emergency information

Notwithstanding any such rule, regulation, or order, each cable operator shall comply with such standards as the Commission shall prescribe to ensure that viewers of video programming on cable systems are afforded the same emergency information as is afforded by the emergency broadcasting system pursuant to Commission regulations in subpart G of part 73, title 47, Code of Federal Regulations.

(h) Notice of changes in and comments on services

A franchising authority may require a cable operator to do any one or more of the following:

(1) Provide 30 days’ advance written notice of any change in channel assignment or in the video programming service provided over any such channel.

(2) Inform subscribers, via written notice, that comments on programming and channel position changes are being recorded by a designated office of the franchising authority.

¹ So in original.

(i) Disposition of cable upon termination of service

Within 120 days after October 5, 1992, the Commission shall prescribe rules concerning the disposition, after a subscriber to a cable system terminates service, of any cable installed by the cable operator within the premises of such subscriber.

(June 19, 1934, ch. 652, title VI, § 624, as added Oct. 30, 1984, Pub. L. 98-549, § 2, 98 Stat. 2789; amended Oct. 5, 1992, Pub. L. 102-385, §§ 15, 16, 106 Stat. 1490; Oct. 25, 1994, Pub. L. 103-414, title III, §§ 303(a)(23), 304(a)(12), 108 Stat. 4295, 4297.)

L. 98-549, set out as a note under section 543 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 531, 546 of this title.

§ 544a. Consumer electronics equipment compatibility**(a) Findings**

The Congress finds that—

(1) new and recent models of television receivers and video cassette recorders often con-

tain premium features and functions that are disabled or inhibited because of cable scrambling, encoding, or encryption technologies and devices, including converter boxes and remote control devices required by cable operators to receive programming;

(2) if these problems are allowed to persist, consumers will be less likely to purchase, and electronics equipment manufacturers will be less likely to develop, manufacture, or offer for sale, television receivers and video cassette recorders with new and innovative features and functions; and

(3) cable operators should use technologies that will prevent signal thefts while permitting consumers to benefit from such features and functions in such receivers and recorders.

(b) Compatible interfaces**(1) Report; regulations**

Within 1 year after October 5, 1992, the Commission, in consultation with representatives of the cable industry and the consumer electronics industry, shall report to Congress on means of assuring compatibility between televisions and video cassette recorders and cable systems, consistent with the need to prevent theft of cable service, so that cable subscribers will be able to enjoy the full benefit of both the programming available on cable systems and the functions available on their televisions and video cassette recorders. Within 180 days after the date of submission of the report required by this subsection, the Commission shall issue such regulations as are necessary to assure such compatibility.

(2) Scrambling and encryption

In issuing the regulations referred to in paragraph (1), the Commission shall determine whether and, if so, under what circumstances to permit cable systems to scramble or encrypt signals or to restrict cable systems in the manner in which they encrypt or scramble signals, except that the Commission shall not limit the use of scrambling or encryption technology where the use of such technology does not interfere with the functions of subscribers' television receivers or video cassette recorders.

(c) Rulemaking requirements**(1) Factors to be considered**

In prescribing the regulations required by this section, the Commission shall consider—

(A) the costs and benefits to consumers of imposing compatibility requirements on cable operators and television manufacturers in a manner that, while providing effective protection against theft or unauthorized reception of cable service, will minimize interference with or nullification of the special functions of subscribers' television receivers or video cassette recorders, including functions that permit the subscriber—

(i) to watch a program on one channel while simultaneously using a video cassette recorder to tape a program on another channel;

(ii) to use a video cassette recorder to tape two consecutive programs that appear on different channels; and

(iii) to use advanced television picture generation and display features; and

(B) the need for cable operators to protect the integrity of the signals transmitted by the cable operator against theft or to protect such signals against unauthorized reception.

(2) Regulations required

The regulations prescribed by the Commission under this section shall include such regulations as are necessary—

(A) to specify the technical requirements with which a television receiver or video cassette recorder must comply in order to be sold as “cable compatible” or “cable ready”;

(B) to require cable operators offering channels whose reception requires a converter box—

(i) to notify subscribers that they may be unable to benefit from the special functions of their television receivers and video cassette recorders, including functions that permit subscribers—

(I) to watch a program on one channel while simultaneously using a video cassette recorder to tape a program on another channel;

(II) to use a video cassette recorder to tape two consecutive programs that appear on different channels; and

(III) to use advanced television picture generation and display features; and

(ii) to the extent technically and economically feasible, to offer subscribers the option of having all other channels delivered directly to the subscribers’ television receivers or video cassette recorders without passing through the converter box;

(C) to promote the commercial availability, from cable operators and retail vendors that are not affiliated with cable systems, of converter boxes and of remote control devices compatible with converter boxes;

(D) to require a cable operator who offers subscribers the option of renting a remote control unit—

(i) to notify subscribers that they may purchase a commercially available remote control device from any source that sells such devices rather than renting it from the cable operator; and

(ii) to specify the types of remote control units that are compatible with the converter box supplied by the cable operator; and

(E) to prohibit a cable operator from taking any action that prevents or in any way disables the converter box supplied by the cable operator from operating compatibly with commercially available remote control units.

(d) Review of regulations

The Commission shall periodically review and, if necessary, modify the regulations issued pursuant to this section in light of any actions taken in response to such regulations and to reflect improvements and changes in cable systems, television receivers, video cassette recorders, and similar technology.

(June 19, 1934, ch. 652, title VI, §624A, as added Oct. 5, 1992, Pub. L. 102-385, §17, 106 Stat. 1491.)

EFFECTIVE DATE

Section effective 60 days after Oct. 5, 1992, see section 28 of Pub. L. 102-385, set out as an Effective Date of 1992 Amendment note under section 325 of this title.

§ 545. Modification of franchise obligations

(a) Grounds for modification by franchising authority; public proceeding; time of decision

(1) During the period a franchise is in effect, the cable operator may obtain from the franchising authority modifications of the requirements in such franchise—

(A) in the case of any such requirement for facilities or equipment, including public, educational, or governmental access facilities or equipment, if the cable operator demonstrates that (i) it is commercially impracticable for the operator to comply with such requirement, and (ii) the proposal by the cable operator for modification of such requirement is appropriate because of commercial impracticability; or

(B) in the case of any such requirement for services, if the cable operator demonstrates that the mix, quality, and level of services required by the franchise at the time it was granted will be maintained after such modification.

(2) Any final decision by a franchising authority under this subsection shall be made in a public proceeding. Such decision shall be made within 120 days after receipt of such request by the franchising authority, unless such 120 day period is extended by mutual agreement of the cable operator and the franchising authority.

(b) Judicial proceedings; grounds for modification by court

(1) Any cable operator whose request for modification under subsection (a) of this section has been denied by a final decision of a franchising authority may obtain modification of such franchise requirements pursuant to the provisions of section 555 of this title.

(2) In the case of any proposed modification of a requirement for facilities or equipment, the court shall grant such modification only if the cable operator demonstrates to the court that—

(A) it is commercially impracticable for the operator to comply with such requirement; and

(B) the terms of the modification requested are appropriate because of commercial impracticability.

(3) In the case of any proposed modification of a requirement for services, the court shall grant such modification only if the cable operator demonstrates to the court that the mix, quality, and level of services required by the franchise at the time it was granted will be maintained after such modification.

(c) Rearrangement, replacement, or removal of service

Notwithstanding subsections (a) and (b) of this section, a cable operator may, upon 30 days’ advance notice to the franchising authority, rear-

range, replace, or remove a particular cable service required by the franchise if—

(1) such service is no longer available to the operator; or

(2) such service is available to the operator only upon the payment of a royalty required under section 801(b)(2) of title 17, which the cable operator can document—

(A) is substantially in excess of the amount of such payment required on the date of the operator's offer to provide such service, and

(B) has not been specifically compensated for through a rate increase or other adjustment.

(d) Rearrangement of particular services from one service tier to another or other offering of service

Notwithstanding subsections (a) and (b) of this section, a cable operator may take such actions to rearrange a particular service from one service tier to another, or otherwise offer the service, if the rates for all of the service tiers involved in such actions are not subject to regulation under section 543 of this title.

(e) Requirements for services relating to public, educational, or governmental access

A cable operator may not obtain modification under this section of any requirement for services relating to public, educational, or governmental access.

(f) "Commercially impracticable" defined

For purposes of this section, the term "commercially impracticable" means, with respect to any requirement applicable to a cable operator, that it is commercially impracticable for the operator to comply with such requirement as a result of a change in conditions which is beyond the control of the operator and the nonoccurrence of which was a basic assumption on which the requirement was based.

(June 19, 1934, ch. 652, title VI, §625, as added Oct. 30, 1984, Pub. L. 98-549, §2, 98 Stat. 2790.)

EFFECTIVE DATE

Section effective 60 days after Oct. 30, 1984, except where otherwise expressly provided, see section 9(a) of Pub. L. 98-549, set out as a note under section 521 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 544, 555 of this title.

§ 546. Renewal

(a) Commencement of proceedings; public notice and participation

(1) A franchising authority may, on its own initiative during the 6-month period which begins with the 36th month before the franchise expiration, commence a proceeding which affords the public in the franchise area appropriate notice and participation for the purpose of (A) identifying the future cable-related community needs and interests, and (B) reviewing the performance of the cable operator under the franchise during the then current franchise term. If the cable operator submits, during such 6-month period, a written renewal notice re-

questing the commencement of such a proceeding, the franchising authority shall commence such a proceeding not later than 6 months after the date such notice is submitted.

(2) The cable operator may not invoke the renewal procedures set forth in subsections (b) through (g) of this section unless—

(A) such a proceeding is requested by the cable operator by timely submission of such notice; or

(B) such a proceeding is commenced by the franchising authority on its own initiative.

(b) Submission of renewal proposals; contents; time

(1) Upon completion of a proceeding under subsection (a) of this section, a cable operator seeking renewal of a franchise may, on its own initiative or at the request of a franchising authority, submit a proposal for renewal.

(2) Subject to section 544 of this title, any such proposal shall contain such material as the franchising authority may require, including proposals for an upgrade of the cable system.

(3) The franchising authority may establish a date by which such proposal shall be submitted.

(c) Notice of proposal; renewal; preliminary assessment of nonrenewal; administrative review; issues; notice and opportunity for hearing; transcript; written decision

(1) Upon submittal by a cable operator of a proposal to the franchising authority for the renewal of a franchise pursuant to subsection (b) of this section, the franchising authority shall provide prompt public notice of such proposal and, during the 4-month period which begins on the date of the submission of the cable operator's proposal pursuant to subsection (b) of this section, renew the franchise or, issue a preliminary assessment that the franchise should not be renewed and, at the request of the operator or on its own initiative, commence an administrative proceeding, after providing prompt public notice of such proceeding, in accordance with paragraph (2) to consider whether—

(A) the cable operator has substantially complied with the material terms of the existing franchise and with applicable law;

(B) the quality of the operator's service, including signal quality, response to consumer complaints, and billing practices, but without regard to the mix or quality of cable services or other services provided over the system, has been reasonable in light of community needs;

(C) the operator has the financial, legal, and technical ability to provide the services, facilities, and equipment as set forth in the operator's proposal; and

(D) the operator's proposal is reasonable to meet the future cable-related community needs and interests, taking into account the cost of meeting such needs and interests.

(2) In any proceeding under paragraph (1), the cable operator shall be afforded adequate notice and the cable operator and the franchise authority, or its designee, shall be afforded fair opportunity for full participation, including the right to introduce evidence (including evidence related to issues raised in the proceeding under sub-

section (a) of this section), to require the production of evidence, and to question witnesses. A transcript shall be made of any such proceeding.

(3) At the completion of a proceeding under this subsection, the franchising authority shall issue a written decision granting or denying the proposal for renewal based upon the record of such proceeding, and transmit a copy of such decision to the cable operator. Such decision shall state the reasons therefor.

(d) Basis for denial

Any denial of a proposal for renewal that has been submitted in compliance with subsection (b) of this section shall be based on one or more adverse findings made with respect to the factors described in subparagraphs (A) through (D) of subsection (c)(1) of this section, pursuant to the record of the proceeding under subsection (c) of this section. A franchising authority may not base a denial of renewal on a failure to substantially comply with the material terms of the franchise under subsection (c)(1)(A) of this section or on events considered under subsection (c)(1)(B) of this section in any case in which a violation of the franchise or the events considered under subsection (c)(1)(B) of this section occur after the effective date of this subchapter unless the franchising authority has provided the operator with notice and the opportunity to cure, or in any case in which it is documented that the franchising authority has waived its right to object, or the cable operator gives written notice of a failure or inability to cure and the franchising authority fails to object within a reasonable time after receipt of such notice.

(e) Judicial review; grounds for relief

(1) Any cable operator whose proposal for renewal has been denied by a final decision of a franchising authority made pursuant to this section, or has been adversely affected by a failure of the franchising authority to act in accordance with the procedural requirements of this section, may appeal such final decision or failure pursuant to the provisions of section 555 of this title.

(2) The court shall grant appropriate relief if the court finds that—

(A) any action of the franchising authority, other than harmless error, is not in compliance with the procedural requirements of this section; or

(B) in the event of a final decision of the franchising authority denying the renewal proposal, the operator has demonstrated that the adverse finding of the franchising authority with respect to each of the factors described in subparagraphs (A) through (D) of subsection (c)(1) of this section on which the denial is based is not supported by a preponderance of the evidence, based on the record of the proceeding conducted under subsection (c) of this section.

(f) Finality of administrative decision

Any decision of a franchising authority on a proposal for renewal shall not be considered final unless all administrative review by the State has occurred or the opportunity therefor has lapsed.

(g) “Franchise expiration” defined

For purposes of this section, the term “franchise expiration” means the date of the expiration of the term of the franchise, as provided under the franchise, as it was in effect on October 30, 1984.

(h) Alternative renewal procedures

Notwithstanding the provisions of subsections (a) through (g) of this section, a cable operator may submit a proposal for the renewal of a franchise pursuant to this subsection at any time, and a franchising authority may, after affording the public adequate notice and opportunity for comment, grant or deny such proposal at any time (including after proceedings pursuant to this section have commenced). The provisions of subsections (a) through (g) of this section shall not apply to a decision to grant or deny a proposal under this subsection. The denial of a renewal pursuant to this subsection shall not affect action on a renewal proposal that is submitted in accordance with subsections (a) through (g) of this section.

(i) Effect of renewal procedures upon action to revoke franchise for cause

Notwithstanding the provisions of subsections (a) through (h) of this section, any lawful action to revoke a cable operator’s franchise for cause shall not be negated by the subsequent initiation of renewal proceedings by the cable operator under this section.

§ 548. Development of competition and diversity in video programming distribution

(a) Purpose

The purpose of this section is to promote the public interest, convenience, and necessity by increasing competition and diversity in the multichannel video programming market, to increase the availability of satellite cable pro-

gramming and satellite broadcast programming to persons in rural and other areas not currently able to receive such programming, and to spur the development of communications technologies.

(b) Prohibition

It shall be unlawful for a cable operator, a satellite cable programming vendor in which a cable operator has an attributable interest, or a satellite broadcast programming vendor to engage in unfair methods of competition or unfair or deceptive acts or practices, the purpose or effect of which is to hinder significantly or to prevent any multichannel video programming distributor from providing satellite cable programming or satellite broadcast programming to subscribers or consumers.

(c) Regulations required

(1) Proceeding required

Within 180 days after October 5, 1992, the Commission shall, in order to promote the public interest, convenience, and necessity by increasing competition and diversity in the multichannel video programming market and the continuing development of communications technologies, prescribe regulations to specify particular conduct that is prohibited by subsection (b) of this section.

(2) Minimum contents of regulations

The regulations to be promulgated under this section shall—

(A) establish effective safeguards to prevent a cable operator which has an attributable interest in a satellite cable programming vendor or a satellite broadcast programming vendor from unduly or improperly influencing the decision of such vendor to sell, or the prices, terms, and conditions of sale of, satellite cable programming or satellite broadcast programming to any unaffiliated multichannel video programming distributor;

(B) prohibit discrimination by a satellite cable programming vendor in which a cable operator has an attributable interest or by a satellite broadcast programming vendor in the prices, terms, and conditions of sale or delivery of satellite cable programming or satellite broadcast programming among or between cable systems, cable operators, or other multichannel video programming distributors, or their agents or buying groups; except that such a satellite cable programming vendor in which a cable operator has an attributable interest or such a satellite broadcast programming vendor shall not be prohibited from—

(i) imposing reasonable requirements for creditworthiness, offering of service, and financial stability and standards regarding character and technical quality;

(ii) establishing different prices, terms, and conditions to take into account actual and reasonable differences in the cost of creation, sale, delivery, or transmission of satellite cable programming or satellite broadcast programming;

(iii) establishing different prices, terms, and conditions which take into account

economies of scale, cost savings, or other direct and legitimate economic benefits reasonably attributable to the number of subscribers served by the distributor; or

(iv) entering into an exclusive contract that is permitted under subparagraph (D);

(C) prohibit practices, understandings, arrangements, and activities, including exclusive contracts for satellite cable programming or satellite broadcast programming between a cable operator and a satellite cable programming vendor or satellite broadcast programming vendor, that prevent a multichannel video programming distributor from obtaining such programming from any satellite cable programming vendor in which a cable operator has an attributable interest or any satellite broadcast programming vendor in which a cable operator has an attributable interest for distribution to persons in areas not served by a cable operator as of October 5, 1992; and

(D) with respect to distribution to persons in areas served by a cable operator, prohibit exclusive contracts for satellite cable programming or satellite broadcast programming between a cable operator and a satellite cable programming vendor in which a cable operator has an attributable interest or a satellite broadcast programming vendor in which a cable operator has an attributable interest, unless the Commission determines (in accordance with paragraph (4)) that such contract is in the public interest.

(3) Limitations

(A) Geographic limitations

Nothing in this section shall require any person who is engaged in the national or regional distribution of video programming to make such programming available in any geographic area beyond which such programming has been authorized or licensed for distribution.

(B) Applicability to satellite retransmissions

Nothing in this section shall apply (i) to the signal of any broadcast affiliate of a national television network or other television signal that is retransmitted by satellite but that is not satellite broadcast programming, or (ii) to any internal satellite communication of any broadcast network or cable network that is not satellite broadcast programming.

(4) Public interest determinations on exclusive contracts

In determining whether an exclusive contract is in the public interest for purposes of paragraph (2)(D), the Commission shall consider each of the following factors with respect to the effect of such contract on the distribution of video programming in areas that are served by a cable operator:

(A) the effect of such exclusive contract on the development of competition in local and national multichannel video programming distribution markets;

(B) the effect of such exclusive contract on competition from multichannel video pro-

gramming distribution technologies other than cable;

(C) the effect of such exclusive contract on the attraction of capital investment in the production and distribution of new satellite cable programming;

(D) the effect of such exclusive contract on diversity of programming in the multichannel video programming distribution market; and

(E) the duration of the exclusive contract.

(5) Sunset provision

The prohibition required by paragraph (2)(D) shall cease to be effective 10 years after October 5, 1992, unless the Commission finds, in a proceeding conducted during the last year of such 10-year period, that such prohibition continues to be necessary to preserve and protect competition and diversity in the distribution of video programming.

(d) Adjudicatory proceeding

Any multichannel video programming distributor aggrieved by conduct that it alleges constitutes a violation of subsection (b) of this section, or the regulations of the Commission under subsection (c) of this section, may commence an adjudicatory proceeding at the Commission.

(e) Remedies for violations

(1) Remedies authorized

Upon completion of such adjudicatory proceeding, the Commission shall have the power to order appropriate remedies, including, if necessary, the power to establish prices, terms, and conditions of sale of programming to the aggrieved multichannel video programming distributor.

(2) Additional remedies

The remedies provided in paragraph (1) are in addition to and not in lieu of the remedies available under subchapter V of this chapter or any other provision of this chapter.

(f) Procedures

The Commission shall prescribe regulations to implement this section. The Commission's regulations shall—

(1) provide for an expedited review of any complaints made pursuant to this section;

(2) establish procedures for the Commission to collect such data, including the right to obtain copies of all contracts and documents reflecting arrangements and understandings alleged to violate this section, as the Commission requires to carry out this section; and

(3) provide for penalties to be assessed against any person filing a frivolous complaint pursuant to this section.

(g) Reports

The Commission shall, beginning not later than 18 months after promulgation of the regulations required by subsection (c) of this section, annually report to Congress on the status of competition in the market for the delivery of video programming.

(h) Exemptions for prior contracts

(1) In general

Nothing in this section shall affect any contract that grants exclusive distribution rights

to any person with respect to satellite cable programming and that was entered into on or before June 1, 1990, except that the provisions of subsection (c)(2)(C) of this section shall apply for distribution to persons in areas not served by a cable operator.

(2) Limitation on renewals

A contract that was entered into on or before June 1, 1990, but that is renewed or extended after October 5, 1992, shall not be exempt under paragraph (1).

(i) Definitions

As used in this section:

(1) The term "satellite cable programming" has the meaning provided under section 605 of this title, except that such term does not include satellite broadcast programming.

(2) The term "satellite cable programming vendor" means a person engaged in the production, creation, or wholesale distribution for sale of satellite cable programming, but does not include a satellite broadcast programming vendor.

(3) The term "satellite broadcast programming" means broadcast video programming when such programming is retransmitted by satellite and the entity retransmitting such programming is not the broadcaster or an entity performing such retransmission on behalf of and with the specific consent of the broadcaster.

(4) The term "satellite broadcast programming vendor" means a fixed service satellite carrier that provides service pursuant to section 119 of title 17 with respect to satellite broadcast programming.

(June 19, 1934, ch. 652, title VI, §628, as added Oct. 5, 1992, Pub. L. 102-385, §19, 106 Stat. 1494.)

EFFECTIVE DATE

in accordance with subsection (d) of this section; and

(E) the limitations provided by this section with respect to the collection and disclosure of information by a cable operator and the right of the subscriber under subsections (f) and (h) of this section to enforce such limitations.

In the case of subscribers who have entered into such an agreement before the effective date of this section, such notice shall be provided within 180 days of such date and at least once a year thereafter.

(2) For purposes of this section, other than subsection (h) of this section—

(A) the term "personally identifiable information" does not include any record of aggregate data which does not identify particular persons;

(A) obtain information necessary to render a cable service or other service provided by the cable operator to the subscriber; or

(B) detect unauthorized reception of cable communications.

(c) Disclosure of personally identifiable information

(1) Except as provided in paragraph (2), a cable operator shall not disclose personally identifiable information concerning any subscriber without the prior written or electronic consent of the subscriber concerned and shall take such actions as are necessary to prevent unauthorized access to such information by a person other than the subscriber or cable operator.

(2) A cable operator may disclose such information if the disclosure is—

(A) necessary to render, or conduct a legitimate business activity related to, a cable service or other service provided by the cable operator to the subscriber;

(B) subject to subsection (h) of this section, made pursuant to a court order authorizing such disclosure, if the subscriber is notified of such order by the person to whom the order is directed; or

(C) a disclosure of the names and addresses of subscribers to any cable service or other service, if—

(i) the cable operator has provided the subscriber the opportunity to prohibit or limit such disclosure, and

(ii) the disclosure does not reveal, directly or indirectly, the—

(I) extent of any viewing or other use by the subscriber of a cable service or other service provided by the cable operator, or

(II) the nature of any transaction made by the subscriber over the cable system of the cable operator.

(d) Subscriber access to information

A cable subscriber shall be provided access to all personally identifiable information regarding that subscriber which is collected and maintained by a cable operator. Such information shall be made available to the subscriber at reasonable times and at a convenient place designated by such cable operator. A cable subscriber shall be provided reasonable opportunity to correct any error in such information.

(e) Destruction of information

A cable operator shall destroy personally identifiable information if the information is no longer necessary for the purpose for which it was collected and there are no pending requests or orders for access to such information under subsection (d) of this section or pursuant to a court order.

(f) Civil action in United States district court; damages; attorney's fees and costs; nonexclusive nature of remedy

(1) Any person aggrieved by any act of a cable operator in violation of this section may bring a civil action in a United States district court.

(A) actual damages but not less than liquidated damages computed at the rate of \$100 a day for each day of violation or \$1,000, whichever is higher;

(B) punitive damages; and

(C) reasonable attorneys' fees and other litigation costs reasonably incurred.

(3) The remedy provided by this section shall be in addition to any other lawful remedy available to a cable subscriber.

(g) Regulation by States or franchising authorities

Nothing in this subchapter shall be construed to prohibit any State or any franchising authority from enacting or enforcing laws consistent with this section for the protection of subscriber privacy.

(h) Disclosure of information to governmental entity pursuant to court order

A governmental entity may obtain personally identifiable information concerning a cable subscriber pursuant to a court order only if, in the court proceeding relevant to such court order—

(2) the subject of the information is afforded the opportunity to appear and contest such entity's claim.

§ 553. Unauthorized reception of cable service

(a) Unauthorized interception or receipt or assistance in intercepting or receiving service; “assist in intercepting or receiving” defined

(1) No person shall intercept or receive or assist in intercepting or receiving any communications service offered over a cable system, unless specifically authorized to do so by a cable operator or as may otherwise be specifically authorized by law.

(2) For the purpose of this section, the term “assist in intercepting or receiving” shall include the manufacture or distribution of equipment intended by the manufacturer or distributor (as the case may be) for unauthorized reception of any communications service offered over a cable system in violation of subparagraph (1).

(b) Penalties for willful violation

(1) Any person who willfully violates subsection (a)(1) of this section shall be fined not more than \$1,000 or imprisoned for not more than 6 months, or both.

(2) Any person who violates subsection (a)(1) of this section willfully and for purposes of com-

(C) In any case where the court finds that the violator was not aware and had no reason to believe that his acts constituted a violation of this section, the court in its discretion may reduce the award of damages to a sum of not less than \$100.

(D) Nothing in this subchapter shall prevent any State or franchising authority from enacting or enforcing laws, consistent with this section, regarding the unauthorized interception or reception of any cable service or other communications service.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in title 18 section 2511.

§ 554. Equal employment opportunity**(a) Entities within scope of coverage**

This section shall apply to any corporation, partnership, association, joint-stock company, or trust engaged primarily in the management or operation of any cable system.

(b) Discrimination prohibited

Equal opportunity in employment shall be afforded by each entity specified in subsection (a) of this section, and no person shall be discriminated against in employment by such entity because of race, color, religion, national origin, age, or sex.

(c) Equal opportunity programs; establishment; maintenance; execution; terms

Any entity specified in subsection (a) of this section shall establish, maintain, and execute a positive continuing program of specific practices designed to ensure equal opportunity in every aspect of its employment policies and practices. Under the terms of its program, each such entity shall—

(1) define the responsibility of each level of management to ensure a positive application and vigorous enforcement of its policy of equal opportunity, and establish a procedure to review and control managerial and supervisory performance;

(2) inform its employees and recognized employee organizations of the equal employment opportunity policy and program and enlist their cooperation;

(3) communicate its equal employment opportunity policy and program and its employment needs to sources of qualified applicants without regard to race, color, religion, national origin, age, or sex, and solicit their recruitment assistance on a continuing basis;

(4) conduct a continuing program to exclude every form of prejudice or discrimination based on race, color, religion, national origin, age, or sex, from its personnel policies and practices and working conditions; and

(5) conduct a continuing review of job structure and employment practices and adopt positive recruitment, training, job design, and other measures needed to ensure genuine equality of opportunity to participate fully in all its organizational units, occupations, and levels of responsibility.

(d) Revision of rules; required provisions; annual statistical report; notice and comment on amendments

(1) Not later than 270 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992, and after notice and opportunity for hearing, the Commission shall prescribe revisions in the rules under this section in order to implement the amendments made to this section by such Act. Such revisions shall be designed to promote equality of employment opportunities for females and minorities in each of the job categories itemized in paragraph (3).

(2) Such rules shall specify the terms under which an entity specified in subsection (a) of this section shall, to the extent possible—

(A) disseminate its equal opportunity program to job applicants, employees, and those with whom it regularly does business;

(B) use minority organizations, organizations for women, media, educational institutions, and other potential sources of minority and female applicants, to supply referrals whenever jobs are available in its operation;

(C) evaluate its employment profile and job turnover against the availability of minorities and women in its franchise area;

(D) undertake to offer promotions of minorities and women to positions of greater responsibility;

(E) encourage minority and female entrepreneurs to conduct business with all parts of its operation; and

(F) analyze the results of its efforts to recruit, hire, promote, and use the services of minorities and women and explain any difficulties encountered in implementing its equal employment opportunity program.

(3)(A) Such rules also shall require an entity specified in subsection (a) of this section with more than 5 full-time employees to file with the Commission an annual statistical report identifying by race, sex, and job title the number of employees in each of the following full-time and part-time job categories:

(i) Corporate officers.

(ii) General Manager.

(iii) Chief Technician.

(iv) Comptroller.

(v) General Sales Manager.

(vi) Production Manager.

(vii) Managers.

(viii) Professionals.

(ix) Technicians.

(x) Sales Personnel.

(xi) Office and Clerical Personnel.

(xii) Skilled Craftspersons.

(xiii) Semiskilled Operatives.

(xiv) Unskilled Laborers.

(xv) Service Workers.

(B) The report required by subparagraph (A) shall be made on separate forms, provided by the Commission, for full-time and part-time employees. The Commission's rules shall sufficiently define the job categories listed in clauses (i) through (vi) of such subparagraph so as to ensure that only employees who are principal decisionmakers and who have supervisory authority are reported for such categories. The

Commission shall adopt rules that define the job categories listed in clauses (vii) through (xv) in a manner that is consistent with the Commission policies in effect on June 1, 1990. The Commission shall prescribe the method by which entities shall be required to compute and report the number of minorities and women in the job categories listed in clauses (i) through (x) and the number of minorities and women in the job categories listed in clauses (i) through (xv) in proportion to the total number of qualified minorities and women in the relevant labor market. The report shall include information on hiring, promotion, and recruitment practices necessary for the Commission to evaluate the efforts of entities to comply with the provisions of paragraph (2) of this subsection. The report shall be available for public inspection at the entity's central location and at every location where 5 or more full-time employees are regularly assigned to work. Nothing in this subsection shall be construed as prohibiting the Commission from collecting or continuing to collect statistical or other employment information in a manner that it deems appropriate to carry out this section.

(4) The Commission may amend such rules from time to time to the extent necessary to carry out the provisions of this section. Any such amendment shall be made after notice and opportunity for comment.

(e) Annual certification of compliance; periodic investigation of employment practices

(1) On an annual basis, the Commission shall certify each entity described in subsection (a) of this section as in compliance with this section if, on the basis of information in the possession of the Commission, including the report filed pursuant to subsection (d)(3) of this section, such entity was in compliance, during the annual period involved, with the requirements of subsections (b), (c), and (d) of this section.

(2) The Commission shall, periodically but not less frequently than every five years, investigate the employment practices of each entity described in subsection (a) of this section, in the aggregate, as well as in individual job categories, and determine whether such entity is in compliance with the requirements of subsections (b), (c), and (d) of this section, including whether such entity's employment practices deny or abridge women and minorities equal employment opportunities. As part of such investigation, the Commission shall review whether the entity's reports filed pursuant to subsection (d)(3) of this section accurately reflect employee responsibilities in the reported job classifications.

(f) Substantial failure to comply; penalties; notice to public and franchising authorities

(1) If the Commission finds after notice and hearing that the entity involved has willfully or repeatedly without good cause failed to comply with the requirements of this section, such failure shall constitute a substantial failure to comply with this subchapter. The failure to obtain certification under subsection (e) of this section shall not itself constitute the basis for a determination of substantial failure to comply with this title. For purposes of this paragraph, the term "repeatedly", when used with respect

to failures to comply, refers to 3 or more failures during any 7-year period.

(2) Any person who is determined by the Commission, through an investigation pursuant to subsection (e) of this section or otherwise, to have failed to meet or failed to make best efforts to meet the requirements of this section, or rules under this section, shall be liable to the United States for a forfeiture penalty of \$500 for each violation. Each day of a continuing violation shall constitute a separate offense. Any entity defined in subsection (a) of this section shall not be liable for more than 180 days of forfeitures which accrued prior to notification by the Commission of a potential violation. Nothing in this paragraph shall limit the forfeiture imposed on any person as a result of any violation that continues subsequent to such notification. In addition, any person liable for such penalty may also have any license under this chapter for cable auxiliary relay service suspended until the Commission determines that the failure involved has been corrected. Whoever knowingly makes any false statement or submits documentation which he knows to be false, pursuant to an application for certification under this section shall be in violation of this section.

(3) The provisions of paragraphs (3) and (4), and the last 2 sentences of paragraph (2), of section 503(b) of this title shall apply to forfeitures under this subsection.

(4) The Commission shall provide for notice to the public and appropriate franchising authorities of any penalty imposed under this section.

(g) Discrimination complaints; investigation; enforcement

Employees or applicants for employment who believe they have been discriminated against in violation of the requirements of this section, or rules under this section, or any other interested person, may file a complaint with the Commission. A complaint by any such person shall be in writing, and shall be signed and sworn to by that person. The regulations under subsection (d)(1) of this section shall specify a program, under authorities otherwise available to the Commission, for the investigation of complaints and violations, and for the enforcement of this section.

(h) "Cable operator" defined; owners of multiple unit dwellings

(1) For purposes of this section, the term "cable operator" includes any operator of any satellite master antenna television system, including a system described in section 522(7)(A) of this title and any multichannel video programming distributor.

(2) Such term does not include any operator of a system which, in the aggregate, serves fewer than 50 subscribers.

(3) In any case in which a cable operator is the owner of a multiple unit dwelling, the requirements of this section shall only apply to such cable operator with respect to its employees who are primarily engaged in cable telecommunications.

(i) Regulatory powers of States and franchising authorities; nonexclusive nature of remedies and enforcement provisions; covered franchises

(1) Nothing in this section shall affect the authority of any State or any franchising authority—

(A) to establish or enforce any requirement which is consistent with the requirements of this section, including any requirement which affords equal employment opportunity protection for employees;

(B) to establish or enforce any provision requiring or encouraging any cable operator to conduct business with enterprises which are owned or controlled by members of minority groups (as defined in section 309(i)(3)(C)(ii) of this title) or which have their principal operations located within the community served by the cable operator; or

(C) to enforce any requirement of a franchise in effect on the effective date of this subchapter.

(2) The remedies and enforcement provisions of this section are in addition to, and not in lieu of, those available under this or any other law.

(3) The provisions of this section shall apply to any cable operator, whether operating pursuant to a franchise granted before, on, or after October 30, 1984.

§ 610. Telephone service for disabled

(a) Establishment of regulations

The Commission shall establish such regulations as are necessary to ensure reasonable access to telephone service by persons with impaired hearing.

(b) Hearing aid compatibility requirements

(1) Except as provided in paragraphs (2) and (3), the Commission shall require that—

(A) all essential telephones, and

(B) all telephones manufactured in the United States (other than for export) more than one year after August 16, 1988, or imported for use in the United States more than one year after August 16, 1988,

provide internal means for effective use with hearing aids that are designed to be compatible with telephones which meet established technical standards for hearing aid compatibility.

(2)(A) The initial regulations prescribed by the Commission under paragraph (1) of this subsection after August 16, 1988, shall exempt from the requirements established pursuant to paragraph (1)(B) of this subsection only—

(i) telephones used with public mobile services;

- (ii) telephones used with private radio services;
- (iii) cordless telephones; and
- (iv) secure telephones.

(B) The exemption provided by such regulations for cordless telephones shall not apply with respect to cordless telephones manufactured or imported more than three years after August 16, 1988.

(C) The Commission shall periodically assess the appropriateness of continuing in effect the exemptions provided by such regulations for telephones used with public mobile services and telephones used with private radio services. The Commission shall revoke or otherwise limit any such exemption if the Commission determines that—

- (i) such revocation or limitation is in the public interest;
- (ii) continuation of the exemption without such revocation or limitation would have an adverse effect on hearing-impaired individuals;
- (iii) compliance with the requirements of paragraph (1)(B) is technologically feasible for the telephones to which the exemption applies; and
- (iv) compliance with the requirements of paragraph (1)(B) would not increase costs to such an extent that the telephones to which the exemption applies could not be successfully marketed.

(3) The Commission may, upon the application of any interested person, initiate a proceeding to waive the requirements of paragraph (1)(B) of this subsection with respect to new telephones, or telephones associated with a new technology or service. The Commission shall not grant such a waiver unless the Commission determines, on the basis of evidence in the record of such proceeding, that such telephones, or such technology or service, are in the public interest, and that (A) compliance with the requirements of paragraph (1)(B) is technologically infeasible, or (B) compliance with such requirements would increase the costs of the telephones, or of the technology or service, to such an extent that such telephones, technology, or service could not be successfully marketed. In any proceeding under this paragraph to grant a waiver from the requirements of paragraph (1)(B), the Commission shall consider the effect on hearing-impaired individuals of granting the waiver. The Commission shall periodically review and determine the continuing need for any waiver granted pursuant to this paragraph.

(4) For purposes of this subsection—

(A) the term “essential telephones” means only coin-operated telephones, telephones provided for emergency use, and other telephones frequently needed for use by persons using such hearing aids;

(B) the term “public mobile services” means air-to-ground radiotelephone services, cellular radio telecommunications services, offshore radio, rural radio service, public land mobile telephone service, and other common carrier radio communication services covered by part 22 of title 47 of the Code of Federal Regulations;

(C) the term “private radio services” means private land mobile radio services and other communications services characterized by the Commission in its rules as private radio services; and

(D) the term “secure telephones” means telephones that are approved by the United States Government for the transmission of classified or sensitive voice communications.

(c) Technical standards

The Commission shall establish or approve such technical standards as are required to enforce this section.

(d) Labeling of packaging materials for equipment

The Commission shall establish such requirements for the labeling of packaging materials for equipment as are needed to provide adequate information to consumers on the compatibility between telephones and hearing aids.

(e) Costs and benefits; encouragement of use of currently available technology

In any rulemaking to implement the provisions of this section, the Commission shall specifically consider the costs and benefits to all telephone users, including persons with and without hearing impairments. The Commission shall ensure that regulations adopted to implement this section encourage the use of currently available technology and do not discourage or impair the development of improved technology.

(f) Periodic review of regulations; retrofitting

The Commission shall periodically review the regulations established pursuant to this section. Except for coin-operated telephones and telephones provided for emergency use, the Commission may not require the retrofitting of equipment to achieve the purposes of this section.

(g) Recovery of reasonable and prudent costs

Any common carrier or connecting carrier may provide specialized terminal equipment needed by persons whose hearing, speech, vision, or mobility is impaired. The State commission may allow the carrier to recover in its tariffs for regulated service reasonable and prudent costs not charged directly to users of such equipment.

(h) State enforcement

The Commission shall delegate to each State commission the authority to enforce within such State compliance with the specific regulations that the Commission issues under subsections (a) and (b) of this section, conditioned upon the adoption and enforcement of such regulations by the State commission.

therefrom within one year after January 3, 1983. The Commission shall complete rulemaking actions required to implement the amendments made by the Hearing Aid Compatibility Act of 1988 within nine months after August 16, 1988. Thereafter, the Commission”.

1988—Subsec. (b). Pub. L. 100-394, §3(a), amended subsec. (b) generally. Prior to amendment, subsec. (b) read as follows: “The Commission shall require that essential telephones provide internal means for effective use with hearing aids that are specially designed for telephone use. For purposes of this subsection, the term ‘essential telephones’ means only coin-operated telephones, telephones provided for emergency use, and other telephones frequently needed for use by persons using such hearing aids.”

Thereafter, the Commission shall periodically review the regulations established pursuant to this section.” for “Thereafter the Commission shall periodically review such rules and regulations.”

CONGRESSIONAL FINDINGS FOR 1988 AMENDMENT

Section 2 of Pub. L. 100-394 provided that: “The Congress finds that—

“(1) to the fullest extent made possible by technology and medical science, hearing-impaired persons should have equal access to the national telecommunications network;

“(2) present technology provides effective coupling of telephones to hearing aids used by some severely hearing-impaired persons for communicating by voice telephone;

“(3) anticipated improvements in both telephone and hearing aid technologies promise greater access in the future; and

“(4) universal telephone service for hearing-impaired persons will lead to greater employment opportunities and increased productivity.”

CONGRESSIONAL FINDINGS

Section 2 of Pub. L. 97-410 provided that: “The Congress finds that—

“(1) all persons should have available the best telephone service which is technologically and economically feasible;

“(2) currently available technology is capable of providing telephone service to some individuals who, because of hearing impairments, require telephone reception by means of hearing aids with induction coils, or other inductive receptors;

“(3) the lack of technical standards ensuring compatibility between hearing aids and telephones has prevented receipt of the best telephone service which is technologically and economically feasible; and

“(4) adoption of technical standards is required in order to ensure compatibility between telephones and hearing aids, thereby accommodating the needs of individuals with hearing impairments.”

§ 611. Closed-captioning of public service announcements

Any television public service announcement that is produced or funded in whole or in part by any agency or instrumentality of Federal Government shall include closed captioning of the verbal content of such announcement. A television broadcast station licensee—

(1) shall not be required to supply closed captioning for any such announcement that fails to include it; and

CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in section 902 of this title; title 26 sections 168, 883.

SUBCHAPTER I—GENERAL PROVISIONS

§ 701. Congressional declaration of policy and purpose

(a) Policy

The Congress declares that it is the policy of the United States to establish, in conjunction and in cooperation with other countries, as expeditiously as practicable a commercial communications satellite system, as part of an improved global communications network, which will be responsive to public needs and national objectives, which will serve the communication needs of the United States and other countries, and which will contribute to world peace and understanding.

(b) Availability of telecommunication services

The new and expanded telecommunication services are to be made available as promptly as possible and are to be extended to provide global coverage at the earliest practicable date. In effectuating this program, care and attention will be directed toward providing such services to economically less developed countries and areas as well as those more highly developed, toward efficient and economical use of the electromagnetic frequency spectrum, and toward the reflection of the benefits of this new technology in both quality of services and charges for such services.

(c) Private enterprise; access; competition

In order to facilitate this development and to provide for the widest possible participation by private enterprise, United States participation in the global system shall be in the form of a private corporation, subject to appropriate governmental regulation. It is the intent of Congress that all authorized users shall have non-discriminatory access to the system; that maximum competition be maintained in the provision of equipment and services utilized by the system; that the corporation created under this chapter be so organized and operated as to maintain and strengthen competition in the provision of communications services to the public; and that the activities of the corporation created under this chapter and of the persons or companies participating in the ownership of the corporation shall be consistent with the Federal antitrust laws.

(d) Domestic use; additional systems

It is not the intent of Congress by this chapter to preclude the use of the communications satellite system for domestic communication services where consistent with the provisions of this chapter nor to preclude the creation of additional communications satellite systems, if required to meet unique governmental needs or if otherwise required in the national interest.

INTERNATIONAL TELECOMMUNICATIONS SATELLITE ORGANIZATION

Pub. L. 99-93, title I, §146, Aug. 16, 1985, 99 Stat. 425, provided that:

"(a) POLICY.—The Congress declares that it is the policy of the United States—

"(1) as a party to the International Telecommunications Satellite Organization (hereafter in this section referred to as 'Intelsat'), to foster and support the global commercial communications satellite system owned and operated by Intelsat;

"(2) to make available to consumers a variety of communications satellite services utilizing the space segment facilities of Intelsat and any additional such facilities which are found to be in the national interest and which—

"(A) are technically compatible with the use of the radio frequency spectrum and orbital space by the existing or planned Intelsat space segment, and

"(B) avoid significant economic harm to the global system of Intelsat; and

"(3) to authorize use and operation of any additional space segment facilities only if the obligations of the United States under article XIV(d) of the Intelsat Agreement have been met.

"(b) PRECONDITIONS FOR INTELSAT CONSULTATION.—Before consulting with Intelsat for purposes of coordination of any separate international telecommunications satellite system under article XIV(d) of the Intelsat Agreement, the Secretary of State shall—

"(1) in coordination with the Secretary of Commerce, ensure that any proposed separate international satellite telecommunications system comply with the Executive Branch conditions established pursuant to the Presidential Determination No. 85-2 [49 F.R. 46987]; and

"(2) ensure that one or more foreign authorities have authorized the use of such system consistent with such conditions.

"(c) AMENDMENT OF INTELSAT AGREEMENT.—(1) The Secretary of State shall consult with the United States signatory to Intelsat and the Secretary of Commerce regarding the appropriate scope and character of a modification to article V(d) of the Intelsat Agreement which would permit Intelsat to establish cost-based rates for individual traffic routes, as exceptional circumstances warrant, paying particular attention to the need for avoiding significant economic harm to the global system of Intelsat as well as United States national and foreign policy interests.

"(2)(A) To ensure that rates established by Intelsat for such routes are cost-based, the Secretary of State, in consultation with the Secretary of Commerce and the Chairman of the Federal Communications Commission, shall instruct the United States signatory to

Intelsat to ensure that sufficient documentation, including documentation regarding revenues and costs, is provided by Intelsat so as to verify that such rates are in fact cost-based.

“(B) To the maximum extent possible, such documentation [documentation] will be made available to interested parties on a timely basis.

“(3) Pursuant to the consultation under paragraph (1) and taking the steps prescribed in paragraph (2) to provide documentation, the United States shall support an appropriate modification to article V(d) of the Intelsat Agreement to accomplish the purpose described in paragraph (1).

“(d) CONGRESSIONAL CONSULTATION.—In the event that, after United States consultation with Intelsat for the purposes of coordination under article XIV(d) of the Intelsat Agreement for the establishment of a separate international telecommunications satellite system, the Assembly of Parties of Intelsat fails to recommend such a separate system, and the President determines to pursue the establishment of a separate system notwithstanding the Assembly’s failure to approve such system, the Secretary of State, after consultation with the Secretary of Commerce, shall submit to the Congress a detailed report which shall set forth—

“(1) the foreign policy reasons for the President’s determination, and

“(2) a plan for minimizing any negative effects of the President’s action on Intelsat and on United States foreign policy interests.

“(e) NOTIFICATION TO FEDERAL COMMUNICATIONS COMMISSION.—In the event the Secretary of State submits a report under subsection (d), the Secretary, 60 calendar days after the receipt by the Congress of such report, shall notify the Federal Communications Commission as to whether the United States obligations under article XIV(d) of the Intelsat Agreement have been met.

“(f) IMPLEMENTATION.—In implementing the provisions of this section, the Secretary of State shall act in accordance with Executive order 12046 [set out under section 305 of this title].

“(g) DEFINITION.—For the purposes of this section, the term ‘separate international telecommunications satellite system’ or ‘separate system’ means a system of one or more telecommunications satellites separate from the Intelsat space segment which is established to provide international telecommunications services between points within the United States and points outside the United States, except that such term shall not include any satellite or system of satellites established—

“(1) primarily for domestic telecommunications purposes and which incidentally provides services on an ancillary basis to points outside the jurisdiction of the United States but within the western hemisphere, or

“(2) solely for unique governmental purposes.”

(5) insure that timely arrangements are made under which there can be foreign participation in the establishment and use of a communications satellite system;

(6) take all necessary steps to insure the availability and appropriate utilization of the communications satellite system for general governmental purposes except where a separate communications satellite system is required to meet unique governmental needs, or is otherwise required in the national interest; and

(7) so exercise his authority as to help attain coordinated and efficient use of the electromagnetic spectrum and the technical compatibility of the system with existing communications facilities both in the United States and abroad.

The corporation shall have a board of directors consisting of fifteen individuals who are citizens of the United States, of whom one shall be elected annually by the board to serve as chairman. Three members of the board shall be appointed by the President of the United States, by and with the advice and consent of the Senate, effective the date on which the other members are elected, and for terms of three years or until their successors have been appointed and qualified, and any member so appointed to fill a vacancy shall be appointed only for the unexpired term of the director whom he succeeds. Subject to the foregoing limitations, the articles of incorporation of the corporation shall provide for cumulative voting under section 327(d)¹ of the District of Columbia Business Corporation Act (D.C. Code, sec. 29-327(d)). The articles of incorporation of the corporation may be amended, altered, changed, or repealed by a vote of not less than 66 $\frac{2}{3}$ per centum of the outstanding shares of the voting capital stock of the corporation owned by stockholders who are communications common carriers and by stockholders who are not communications common carriers, voting together, if such vote complies with all other requirements of this chapter and of the articles of incorporation of the corporation with respect to the amendment, alteration, change, or repeal of such articles. The corporation may adopt such bylaws as shall, notwithstanding the provisions of section 336² of the District of Columbia Business Corporation Act (D.C. The shares of such stock initially offered shall be sold in a manner to encourage the widest distribution to the American public. Subject to the provisions of subsections (b) and (d) of this section, shares of stock offered under this subsection may be issued to and held by any person.

Code, sec. 29-345(b)) as to the percentage of stock which a stockholder must hold in order to have the rights of inspection and copying set forth in that subsection shall not be applicable in the case of holders of the stock of the corporation, and they may exercise such rights without regard to the percentage of stock they hold.

(f) Transfer and distribution of shares among authorized carriers

Upon application to the Commission by any authorized carrier and after notice and hearing, the Commission may compel any other authorized carrier which owns shares of stock in the corporation to transfer to the applicant, for a fair and reasonable consideration, a number of such shares as the Commission determines will advance the public interest and the purposes of this chapter. In its determination with respect to ownership of shares of stock in the corporation, the Commission, whenever consistent with the public interest, shall promote the widest possible distribution of stock among the authorized carriers.

As used in this subchapter:

(1) The term “allocation” means an entry in the National Table of Frequency Allocations of a given frequency band for the purpose of its use by one or more radiocommunication services.

(2) The term “assignment” means an authorization given to a station licensee to use specific frequencies or channels.

The Assistant Secretary and the Chairman of the Commission shall meet, at least biannually, to conduct joint spectrum planning with respect to the following issues:

(1) the extent to which licenses for spectrum use can be issued pursuant to section 309(j) of this title to increase Federal revenues;

(2) the future spectrum requirements for public and private uses, including State and local government public safety agencies;

§ 923. Identification of reallocable frequencies

(a) Identification required

The Secretary shall, within 18 months after August 10, 1993, prepare and submit to the President and the Congress a report identifying and recommending for reallocation bands of frequencies—

(1) that are allocated on a primary basis for Federal Government use;

(2) that are not required for the present or identifiable future needs of the Federal Government;

(3) that can feasibly be made available, as of the date of submission of the report or at any time during the next 15 years, for use under the 1934 Act [47 U.S.C. 151 et seq.] (other than for Federal Government stations under section 305 of the 1934 Act [47 U.S.C. 305]);

(4) the transfer of which (from Federal Government use) will not result in costs to the Federal Government, or losses of services or benefits to the public, that are excessive in relation to the benefits to the public that may be provided by non-Federal licensees; and

(5) that are most likely to have the greatest potential for productive uses and public benefits under the 1934 Act [47 U.S.C. 151 et seq.] if allocated for non-Federal use.

(b) Minimum amount of spectrum recommended

(1) In general

In accordance with the provisions of this section, the Secretary shall recommend for reallocation, for use other than by Federal Government stations under section 305 of the 1934 Act (47 U.S.C. 305), bands of frequencies that in the aggregate span not less than 200 megahertz, that are located below 5 gigahertz, and that meet the criteria specified in paragraphs (1) through (5) of subsection (a) of this section. Such bands of frequencies shall include bands of frequencies, located below 3 gigahertz, that span in the aggregate not less than 100 megahertz.

(2) Mixed uses permitted to be counted

Bands of frequencies which a report of the Secretary under subsection (a) or (d)(1) of this section recommends be partially retained for use by Federal Government stations, but which are also recommended to be reallocated to be made available under the 1934 Act [47 U.S.C. 151 et seq.] for use by non-Federal stations, may be counted toward the minimum spectrum required by paragraph (1) of this subsection, except that—

(A) the bands of frequencies counted under this paragraph may not count toward more than one-half of the minimums required by paragraph (1) of this subsection;

(B) a band of frequencies may not be counted under this paragraph unless the assignments of the band to Federal Government stations under section 305 of the 1934 Act (47 U.S.C. 305) are limited by geographic area, by time, or by other means so as to guarantee that the potential use to be made by such Federal Government stations is substantially less (as measured by geographic area, time, or otherwise) than the potential use to be made by non-Federal stations; and

(C) the operational sharing permitted under this paragraph shall be subject to the interference regulations prescribed by the Commission pursuant to section 305(a) of the 1934 Act [47 U.S.C. 305(a)] and to coordination procedures that the Commission and the Secretary shall jointly establish and implement to ensure against harmful interference.

(c) Criteria for identification

(1) Needs of the Federal Government

In determining whether a band of frequencies meets the criteria specified in subsection (a)(2) of this section, the Secretary shall—

(A) consider whether the band of frequencies is used to provide a communications service that is or could be available from a commercial provider or other vendor;

(B) seek to promote—

(i) the maximum practicable reliance on commercially available substitutes;

(ii) the sharing of frequencies (as permitted under subsection (b)(2) of this section);

(iii) the development and use of new communications technologies; and

(iv) the use of nonradiating communications systems where practicable; and

(C) seek to avoid—

(i) serious degradation of Federal Government services and operations;

(ii) excessive costs to the Federal Government and users of Federal Government services; and

(iii) excessive disruption of existing use of Federal Government frequencies by amateur radio licensees.

(2) Feasibility of use

In determining whether a frequency band meets the criteria specified in subsection (a)(3) of this section, the Secretary shall—

(A) assume that the frequency will be assigned by the Commission under section 303 of the 1934 Act (47 U.S.C. 303) within 15 years;

(B) assume reasonable rates of scientific progress and growth of demand for telecommunications services;

(C) seek to include frequencies which can be used to stimulate the development of new technologies; and

(D) consider the immediate and recurring costs to reestablish services displaced by the reallocation of spectrum.

(3) Analysis of benefits

In determining whether a band of frequencies meets the criteria specified in subsection (a)(5) of this section, the Secretary shall consider—

(A) the extent to which equipment is or will be available that is capable of utilizing the band;

(B) the proximity of frequencies that are already assigned for commercial or other non-Federal use;

(C) the extent to which, in general, commercial users could share the frequency with amateur radio licensees; and

(D) the activities of foreign governments in making frequencies available for experimentation or commercial assignments in order to support their domestic manufacturers of equipment.

(4) Power agency frequencies

(A) Applicability of criteria

The criteria specified by subsection (a) of this section shall be deemed not to be met for any purpose under this subchapter with regard to any frequency assignment to, or any frequency assignment used by, a Federal power agency for the purpose of withdrawing that assignment.

(B) Mixed use eligibility

The frequencies assigned to any Federal power agency may only be eligible for mixed use under subsection (b)(2) of this section in geographically separate areas, but in those cases where a frequency is to be shared by an affected Federal power agency and a non-Federal user, such use by the non-Federal user shall not cause harmful interference to the affected Federal power agency or adversely affect the reliability of its power system.

(C) "Federal power agency" defined

As used in this paragraph, the term "Federal power agency" means the Tennessee Valley Authority, the Bonneville Power Administration, the Western Area Power Administration, the Southwestern Power Administration, the Southeastern Power Administration, or the Alaska Power Administration.

(5) Limitation on reallocation

None of the frequencies recommended for reallocation in the reports required by this subsection shall have been recommended, prior to August 10, 1993, for reallocation to non-Federal use by international agreement.

(d) Procedure for identification of reallocable bands of frequencies

(1) Submission of preliminary identification to Congress

Within 6 months after August 10, 1993, the Secretary shall prepare, make publicly available, and submit to the President, the Congress, and the Commission a report which makes a preliminary identification of reallocable bands of frequencies which meet the criteria established by this section.

(2) Public comment

The Secretary shall provide interested persons with the opportunity to submit, within 90 days after the date of its publication, written comment on the preliminary report required by paragraph (1). The Secretary shall immediately transmit a copy of any such comment to the Commission.

(3) Comment and recommendations from Commission

The Commission shall, within 90 days after the conclusion of the period for comment provided pursuant to paragraph (2), submit to the Secretary the Commission's analysis of such

comments and the Commission's recommendations for responses to such comments, together with such other comments and recommendations as the Commission deems appropriate.

(4) Direct discussions

The Secretary shall encourage and provide opportunity for direct discussions among commercial representatives and Federal Government users of the spectrum to aid the Secretary in determining which frequencies to recommend for reallocation. The Secretary shall provide notice to the public and the Commission of any such discussions, including the name or names of any businesses or other persons represented in such discussions. A representative of the Commission (and of the Secretary at the election of the Secretary) shall be permitted to attend any such discussions. The Secretary shall provide the public and the Commission with an opportunity to comment on the results of any such discussions prior to the submission of the final report required by subsection (a) of this section.

(e) Timetable for reallocation and limitation

(1) Timetable required

The Secretary shall, as part of the reports required by subsections (a) and (d)(1) of this section, include a timetable that recommends effective dates by which the President shall withdraw or limit assignments of the frequencies specified in such reports.

(2) Expedited reallocation

(A) Required reallocation

The Secretary shall, as part of the report required by subsection (d)(1) of this section, specifically identify and recommend for immediate reallocation bands of frequencies that in the aggregate span not less than 50 megahertz, that meet the criteria described in subsection (a) of this section, and that can be made available for reallocation immediately upon issuance of the report required by subsection (d)(1) of this section. Such bands of frequencies shall include bands of frequencies, located below 3 gigahertz, that in the aggregate span not less than 25 megahertz.

(B) Permitted reallocation

The Secretary may, as part of such report, identify and recommend bands of frequencies for immediate reallocation for a mixed use pursuant to subsection (b)(2) of this section, but such bands of frequencies may not count toward the minimums required by subparagraph (A).

(3) Delayed effective dates

In setting the recommended delayed effective dates, the Secretary shall—

(A) consider the need to reallocate bands of frequencies as early as possible, taking into account the requirements of paragraphs (1) and (2) of section 925(b) of this title;

(B) be based on the useful remaining life of equipment that has been purchased or contracted for to operate on identified frequencies;

(C) consider the need to coordinate frequency use with other nations; and

(D) take into account the relationship between the costs to the Federal Government of changing to different frequencies and the benefits that may be obtained from commercial and other non-Federal uses of the reassigned frequencies.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 309, 924, 925 of this title.

§ 924. Withdrawal or limitation of assignment to Federal Government stations

(a) In general

The President shall—

(1) within 6 months after receipt of a report by the Secretary under subsection (a) or (d)(1) of section 923 of this title, withdraw the assignment to a Federal Government station of any frequency which the report recommends for immediate reallocation;

(2) within either such 6-month period, limit the assignment to a Federal Government station of any frequency which the report recommends be made immediately available for mixed use under section 923(b)(2) of this title;

(3) by the delayed effective date recommended by the Secretary under section 923(e) of this title (except as provided in subsection (b)(4) of this section), withdraw or limit the assignment to a Federal Government station of any frequency which the report recommends be reallocated or made available for mixed use on such delayed effective date;

(4) assign or reassign other frequencies to Federal Government stations as necessary to adjust to such withdrawal or limitation of assignments; and

(5) transmit a notice and description to the Commission and each House of Congress of the actions taken under this subsection.

(b) Exceptions

(1) Authority to substitute

If the President determines that a circumstance described in paragraph (2) exists, the President—

(A) may substitute an alternative frequency or frequencies for the frequency that is subject to such determination and withdraw (or limit) the assignment of that alternative frequency in the manner required by subsection (a) of this section; and

(B) shall submit a statement of the reasons for taking the action described in subparagraph (A) to the Commission, Committee on Energy and Commerce of the House of Representatives, and the Committee on Commerce, Science, and Transportation of the Senate.

(2) Grounds for substitution

For purposes of paragraph (1), the following circumstances are described in this paragraph:

(A) the reassignment would seriously jeopardize the national defense interests of the United States;

(B) the frequency proposed for reassignment is uniquely suited to meeting important governmental needs;

(C) the reassignment would seriously jeopardize public health or safety;

(D) the reassignment will result in costs to the Federal Government that are excessive in relation to the benefits that may be obtained from commercial or other non-Federal uses of the reassigned frequency; or

(E) the reassignment will disrupt the existing use of a Federal Government band of frequencies by amateur radio licensees.

(3) Criteria for substituted frequencies

For purposes of paragraph (1), a frequency may not be substituted for a frequency identified and recommended by the report of the Secretary under section 923(a) of this title unless the substituted frequency also meets each of the criteria specified by section 923(a) of this title.

(4) Delays in implementation

If the President determines that any action cannot be completed by the delayed effective date recommended by the Secretary pursuant to section 923(e) of this title, or that such an action by such date would result in a frequency being unused as a consequence of the Commission's plan under section 925 of this title, the President may—

(A) withdraw or limit the assignment to Federal Government stations on a later date that is consistent with such plan, except that the President shall notify each committee specified in paragraph (1)(B) and the Commission of the reason that withdrawal or limitation at a later date is required; or

(B) substitute alternative frequencies pursuant to the provisions of this subsection.

§ 925. Distribution of frequencies by Commission

(a) Allocation and assignment of immediately available frequencies

With respect to the frequencies made available for immediate reallocation pursuant to section 923(e)(2) of this title, the Commission, not later than 18 months after August 10, 1993, shall issue regulations to allocate such frequencies and shall propose regulations to assign such frequencies.

(b) Allocation and assignment of remaining available frequencies

With respect to the frequencies made available for reallocation pursuant to section 923(e)(3) of this title, the Commission shall, not later than 1 year after receipt of the report required by section 923(a) of this title, prepare, submit to the President and the Congress, and implement, a

plan for the allocation and assignment under the 1934 Act [47 U.S.C. 151 et seq.] of such frequencies. Such plan shall—

(1) not propose the immediate allocation and assignment of all such frequencies but, taking into account the timetable recommended by the Secretary pursuant to section 923(e) of this title, shall propose—

(A) gradually to allocate and assign the frequencies remaining, after making the reservation required by subparagraph (B), over the course of 10 years beginning on the date of submission of such plan; and

(B) to reserve a significant portion of such frequencies for allocation and assignment beginning after the end of such 10-year period;

(2) contain appropriate provisions to ensure—

(A) the availability of frequencies for new technologies and services in accordance with the policies of section 7 of the 1934 Act (47 U.S.C. 157);

(B) the availability of frequencies to stimulate the development of such technologies; and

(C) the safety of life and property in accordance with the policies of section 1 of the 1934 Act (47 U.S.C. 151);

(3) address (A) the feasibility of reallocating portions of the spectrum from current commercial and other non-Federal uses to provide for more efficient use of the spectrum, and (B) innovation and marketplace developments that may affect the relative efficiencies of different spectrum allocations;

(4) not prevent the Commission from allocating frequencies, and assigning licenses to use frequencies, not included in the plan; and

(5) not preclude the Commission from making changes to the plan in future proceedings.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in title 18 section 2522.

§ 1002. Assistance capability requirements

(a) Capability requirements

Except as provided in subsections (b), (c), and (d) of this section and sections 1007(a) and 1008(b) and (d) of this title, a telecommunications carrier shall ensure that its equipment, facilities, or services that provide a customer or subscriber with the ability to originate, terminate, or direct communications are capable of—

(1) expeditiously isolating and enabling the government, pursuant to a court order or other lawful authorization, to intercept, to the exclusion of any other communications, all wire and electronic communications carried by the carrier within a service area to or from equipment, facilities, or services of a subscriber of such carrier concurrently with their transmission to or from the subscriber’s equipment, facility, or service, or at such later time as may be acceptable to the government;

(2) expeditiously isolating and enabling the government, pursuant to a court order or other lawful authorization, to access call-identifying information that is reasonably available to the carrier—

(A) before, during, or immediately after the transmission of a wire or electronic communication (or at such later time as may be acceptable to the government); and

(B) in a manner that allows it to be associated with the communication to which it pertains,

except that, with regard to information acquired solely pursuant to the authority for pen registers and trap and trace devices (as defined in section 3127 of title 18), such call-identifying information shall not include any information that may disclose the physical location of the subscriber (except to the extent that the location may be determined from the telephone number);

(3) delivering intercepted communications and call-identifying information to the government, pursuant to a court order or other lawful authorization, in a format such that they may be transmitted by means of equipment, facilities, or services procured by the government to a location other than the premises of the carrier; and

(4) facilitating authorized communications interceptions and access to call-identifying information unobtrusively and with a minimum

of interference with any subscriber’s telecommunications service and in a manner that protects—

(A) the privacy and security of communications and call-identifying information not authorized to be intercepted; and

(B) information regarding the government’s interception of communications and access to call-identifying information.

(b) Limitations

(1) Design of features and systems configurations

This chapter does not authorize any law enforcement agency or officer—

(A) to require any specific design of equipment, facilities, services, features, or system configurations to be adopted by any provider of a wire or electronic communication service, any manufacturer of telecommunications equipment, or any provider of telecommunications support services; or

(B) to prohibit the adoption of any equipment, facility, service, or feature by any provider of a wire or electronic communication service, any manufacturer of telecommunications equipment, or any provider of telecommunications support services.

(2) Information services; private networks and interconnection services and facilities

The requirements of subsection (a) of this section do not apply to—

(A) information services; or

(B) equipment, facilities, or services that support the transport or switching of communications for private networks or for the sole purpose of interconnecting telecommunications carriers.

(3) Encryption

A telecommunications carrier shall not be responsible for decrypting, or ensuring the government’s ability to decrypt, any communication encrypted by a subscriber or customer, unless the encryption was provided by the carrier and the carrier possesses the information necessary to decrypt the communication.

(c) Emergency or exigent circumstances

In emergency or exigent circumstances (including those described in sections 2518(7) or (11)(b) and 3125 of title 18 and section 1805(e) of title 50), a carrier at its discretion may comply with subsection (a)(3) of this section by allowing monitoring at its premises if that is the only means of accomplishing the interception or access.

(d) Mobile service assistance requirements

A telecommunications carrier that is a provider of commercial mobile service (as defined in section 332(d) of this title) offering a feature or service that allows subscribers to redirect, hand off, or assign their wire or electronic communications to another service area or another service provider or to utilize facilities in another service area or of another service provider shall ensure that, when the carrier that had been providing assistance for the interception of wire or electronic communications or access to

call-identifying information pursuant to a court order or lawful authorization no longer has access to the content of such communications or call-identifying information within the service area in which interception has been occurring as a result of the subscriber's use of such a feature or service, information is made available to the government (before, during, or immediately after the transfer of such communications) identifying the provider of a wire or electronic communication service that has acquired access to the communications.

§ 1003. Notices of capacity requirements

(a) Notices of maximum and actual capacity requirements

(1) In general

Not later than 1 year after October 25, 1994, after consulting with State and local law enforcement agencies, telecommunications carriers, providers of telecommunications support services, and manufacturers of telecommunications equipment, and after notice and comment, the Attorney General shall publish in the Federal Register and provide to appropriate telecommunications industry associations and standard-setting organizations—

(A) notice of the actual number of communication interceptions, pen registers, and trap and trace devices, representing a portion of the maximum capacity set forth under subparagraph (B), that the Attorney General estimates that government agencies authorized to conduct electronic surveillance may conduct and use simultaneously by the date that is 4 years after October 25, 1994; and

(B) notice of the maximum capacity required to accommodate all of the communication interceptions, pen registers, and trap and trace devices that the Attorney General estimates that government agencies authorized to conduct electronic surveillance may conduct and use simultaneously after the date that is 4 years after October 25, 1994.

(2) Basis of notices

The notices issued under paragraph (1)—

(A) may be based upon the type of equipment, type of service, number of subscribers, type or size or¹ carrier, nature of service area, or any other measure; and

(B) shall identify, to the maximum extent practicable, the capacity required at specific geographic locations.

¹ So in original. Probably should be "of".

(b) Compliance with capacity notices

(1) Initial capacity

Within 3 years after the publication by the Attorney General of a notice of capacity requirements or within 4 years after October 25, 1994, whichever is longer, a telecommunications carrier shall, subject to subsection (e) of this section, ensure that its systems are capable of—

(A) accommodating simultaneously the number of interceptions, pen registers, and trap and trace devices set forth in the notice under subsection (a)(1)(A) of this section; and

(B) expanding to the maximum capacity set forth in the notice under subsection (a)(1)(B) of this section.

(2) Expansion to maximum capacity

After the date described in paragraph (1), a telecommunications carrier shall, subject to subsection (e) of this section, ensure that it can accommodate expeditiously any increase in the actual number of communication interceptions, pen registers, and trap and trace devices that authorized agencies may seek to conduct and use, up to the maximum capacity requirement set forth in the notice under subsection (a)(1)(B) of this section.

(c) Notices of increased maximum capacity requirements

(1) Notice

The Attorney General shall periodically publish in the Federal Register, after notice and comment, notice of any necessary increases in the maximum capacity requirement set forth in the notice under subsection (a)(1)(B) of this section.

(2) Compliance

Within 3 years after notice of increased maximum capacity requirements is published under paragraph (1), or within such longer time period as the Attorney General may specify, a telecommunications carrier shall, subject to subsection (e) of this section, ensure that its systems are capable of expanding to the increased maximum capacity set forth in the notice.

(d) Carrier statement

Within 180 days after the publication by the Attorney General of a notice of capacity requirements pursuant to subsection (a) or (c) of this section, a telecommunications carrier shall submit to the Attorney General a statement identifying any of its systems or services that do not have the capacity to accommodate simultaneously the number of interceptions, pen registers, and trap and trace devices set forth in the notice under such subsection.

(e) Reimbursement required for compliance

The Attorney General shall review the statements submitted under subsection (d) of this section and may, subject to the availability of appropriations, agree to reimburse a telecommunications carrier for costs directly associated with modifications to attain such capacity requirement that are determined to be reasonable in accordance with section 1008(e) of this

title. Until the Attorney General agrees to reimburse such carrier for such modification, such carrier shall be considered to be in compliance with the capacity notices under subsection (a) or (c) of this section.

§ 1006. Technical requirements and standards; extension of compliance date

(a) Safe harbor

(1) Consultation

To ensure the efficient and industry-wide implementation of the assistance capability requirements under section 1002 of this title, the Attorney General, in coordination with other Federal, State, and local law enforcement agencies, shall consult with appropriate associations and standard-setting organizations of the telecommunications industry, with representatives of users of telecommunications equipment, facilities, and services, and with State utility commissions.

(2) Compliance under accepted standards

A telecommunications carrier shall be found to be in compliance with the assistance capability requirements under section 1002 of this title, and a manufacturer of telecommunications transmission or switching equipment or a provider of telecommunications support services shall be found to be in compliance with section 1005 of this title, if the carrier, manufacturer, or support service provider is in compliance with publicly available technical requirements or standards adopted by an industry association or standard-setting organization, or by the Commission under subsection (b) of this section, to meet the requirements of section 1002 of this title.

(3) Absence of standards

The absence of technical requirements or standards for implementing the assistance capability requirements of section 1002 of this title shall not—

(A) preclude a telecommunications carrier, manufacturer, or telecommunications support services provider from deploying a technology or service; or

(b) Commission authority

If industry associations or standard-setting organizations fail to issue technical requirements or standards or if a Government¹ agency or any other person believes that such requirements or standards are deficient, the agency or person may petition the Commission to establish, by rule, technical requirements or standards that—

(c) Extension of compliance date for equipment, facilities, and services

(1) Petition

A telecommunications carrier proposing to install or deploy, or having installed or deployed, any equipment, facility, or service prior to the effective date of section 1002 of this title may petition the Commission for 1 or more extensions of the deadline for complying with the assistance capability requirements under section 1002 of this title.

(2) Grounds for extension

The Commission may, after consultation with the Attorney General, grant an extension under this subsection, if the Commission determines that compliance with the assistance capability requirements under section 1002 of this title is not reasonably achievable through application of technology available within the compliance period.

(3) Length of extension

An extension under this subsection shall extend for no longer than the earlier of—

(A) the date determined by the Commission as necessary for the carrier to comply with the assistance capability requirements under section 1002 of this title; or

§ 11007. Enforcement orders

(a) Grounds for issuance

A court shall issue an order enforcing this chapter under section 2522 of title 18 only if the court finds that—

(1) alternative technologies or capabilities or the facilities of another carrier are not reasonably available to law enforcement for implementing the interception of communications or access to call-identifying information; and

(2) compliance with the requirements of this chapter is reasonably achievable through the application of available technology to the equipment, facility, or service at issue or would have been reasonably achievable if timely action had been taken.

(b) Time for compliance

Upon issuing an order enforcing this chapter, the court shall specify a reasonable time and conditions for complying with its order, consid-

ering the good faith efforts to comply in a timely manner, any effect on the carrier's, manufacturer's, or service provider's ability to continue to do business, the degree of culpability or delay in undertaking efforts to comply, and such other matters as justice may require.

(c) Limitations

An order enforcing this chapter may not—

(1) require a telecommunications carrier to meet the Government's¹ demand for interception of communications and acquisition of call-identifying information to any extent in excess of the capacity for which the Attorney General has agreed to reimburse such carrier;

(2) require any telecommunications carrier to comply with assistance capability requirement² of section 1002 of this title if the Commission has determined (pursuant to section 1008(b)(1) of this title) that compliance is not reasonably achievable, unless the Attorney General has agreed (pursuant to section 1008(b)(2) of this title) to pay the costs described in section 1008(b)(2)(A) of this title; or

(3) require a telecommunications carrier to modify, for the purpose of complying with the assistance capability requirements of section 1002 of this title, any equipment, facility, or service deployed on or before January 1, 1995, unless—

(A) the Attorney General has agreed to pay the telecommunications carrier for all reasonable costs directly associated with modifications necessary to bring the equipment, facility, or service into compliance with those requirements; or

(B) the equipment, facility, or service has been replaced or significantly upgraded or otherwise undergoes major modification.

§ 1008. Payment of costs of telecommunications carriers to comply with capability requirements

(a) Equipment, facilities, and services deployed on or before January 1, 1995

The Attorney General may, subject to the availability of appropriations, agree to pay telecommunications carriers for all reasonable costs directly associated with the modifications performed by carriers in connection with equipment, facilities, and services installed or deployed on or before January 1, 1995, to establish the capabilities necessary to comply with section 1002 of this title.

(b) Equipment, facilities, and services deployed after January 1, 1995

(1) Determinations of reasonably achievable

The Commission, on petition from a telecommunications carrier or any other interested person, and after notice to the Attorney

² So in original. Probably should be "requirements".

General, shall determine whether compliance with the assistance capability requirements of section 1002 of this title is reasonably achievable with respect to any equipment, facility, or service installed or deployed after January 1, 1995. The Commission shall make such determination within 1 year after the date such petition is filed. In making such determination, the Commission shall determine whether compliance would impose significant difficulty or expense on the carrier or on the users of the carrier's systems and shall consider the following factors:

(A) The effect on public safety and national security.

(B) The effect on rates for basic residential telephone service.

(C) The need to protect the privacy and security of communications not authorized to be intercepted.

(D) The need to achieve the capability assistance requirements of section 1002 of this title by cost-effective methods.

(E) The effect on the nature and cost of the equipment, facility, or service at issue.

(F) The effect on the operation of the equipment, facility, or service at issue.

(G) The policy of the United States to encourage the provision of new technologies and services to the public.

(H) The financial resources of the telecommunications carrier.

(I) The effect on competition in the provision of telecommunications services.

(J) The extent to which the design and development of the equipment, facility, or service was initiated before January 1, 1995.

(K) Such other factors as the Commission determines are appropriate.

(2) Compensation

If compliance with the assistance capability requirements of section 1002 of this title is not reasonably achievable with respect to equipment, facilities, or services deployed after January 1, 1995—

(A) the Attorney General, on application of a telecommunications carrier, may agree, subject to the availability of appropriations, to pay the telecommunications carrier for the additional reasonable costs of making compliance with such assistance capability requirements reasonably achievable; and

(B) if the Attorney General does not agree to pay such costs, the telecommunications carrier shall be deemed to be in compliance with such capability requirements.

(c) Allocation of funds for payment

The Attorney General shall allocate funds appropriated to carry out this chapter in accordance with law enforcement priorities determined by the Attorney General.

(d) Failure to make payment with respect to equipment, facilities, and services deployed on or before January 1, 1995

If a carrier has requested payment in accordance with procedures promulgated pursuant to subsection (e) of this section, and the Attorney General has not agreed to pay the telecommunications carrier for all reasonable costs directly

associated with modifications necessary to bring any equipment, facility, or service deployed on or before January 1, 1995, into compliance with the assistance capability requirements of section 1002 of this title, such equipment, facility, or service shall be considered to be in compliance with the assistance capability requirements of section 1002 of this title until the equipment, facility, or service is replaced or significantly upgraded or otherwise undergoes major modification.

(e) Cost control regulations

(1) In general

The Attorney General shall, after notice and comment, establish regulations necessary to effectuate timely and cost-efficient payment to telecommunications carriers under this chapter, under chapters 119 and 121 of title 18, and under the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1801 et seq.).

(2) Contents of regulations

The Attorney General, after consultation with the Commission, shall prescribe regulations for purposes of determining reasonable costs under this chapter. Such regulations shall seek to minimize the cost to the Federal Government and shall—

(A) permit recovery from the Federal Government of—

(i) the direct costs of developing the modifications described in subsection (a) of this section, of providing the capabilities requested under subsection (b)(2) of this section, or of providing the capacities requested under section 1003(e) of this title, but only to the extent that such costs have not been recovered from any other governmental or nongovernmental entity;

(ii) the costs of training personnel in the use of such capabilities or capacities; and

(iii) the direct costs of deploying or installing such capabilities or capacities;

(B) in the case of any modification that may be used for any purpose other than lawfully authorized electronic surveillance by a law enforcement agency of a government, permit recovery of only the incremental cost of making the modification suitable for such law enforcement purposes; and

(C) maintain the confidentiality of trade secrets.

(3) Submission of claims

Such regulations shall require any telecommunications carrier that the Attorney General has agreed to pay for modifications pursuant to this section and that has installed or deployed such modification to submit to the Attorney General a claim for payment that contains or is accompanied by such information as the Attorney General may require.
