Approval of such transfer shall not be unreasonably withheld by the Secretary.

“(2) ADEQUATE CAPABILITIES.—The Secretary shall transfer ownership of the Washington Aqueduct under paragraph (1) only if the Secretary determines, after opportunity for public input, that the entity to receive ownership of the Aqueduct has the technical, managerial, and financial capability to operate, maintain, and manage the Aqueduct.

“(3) RESPONSIBILITIES.—The Secretary shall not transfer title under this subsection unless the entity to receive title assumes full responsibility for performing and financing the operation, maintenance, repair, replacement, rehabilitation, and necessary capital improvements of the Washington Aqueduct so as to ensure the continued operation of the Washington Aqueduct consistent with the Aqueduct’s intended purpose of providing an uninterrupted supply of potable water sufficient to meet the current and future needs of the Aqueduct’s service area.

“(e) BORROWING AUTHORITY.—

“(1) BORROWING.—

“(A) IN GENERAL.—Subject to the other provisions of this paragraph and paragraph (2), the Secretary is authorized to borrow from the Treasury of the United States such amounts for fiscal years 1997, 1998, and 1999 as are sufficient to cover any obligations that the Army Corps of Engineers is required to incur in carrying out capital improvements during fiscal years 1997, 1998, and 1999 for the Washington Aqueduct to ensure continued operation of the

Aqueduct until such time as a transfer of title to the Aqueduct has taken place.

“(E)(B) LIMITATION.—The amount borrowed by the Secretary under subparagraph (A) may not exceed \$29,000,000 for fiscal year 1997, \$24,000,000 for fiscal year 1998, and \$22,000,000 for fiscal year 1999.

“(iii) PREPAYMENT.—There shall be no penalty for the prepayment of any amounts borrowed under subparagraph (A).

“(2) CONTRACTS WITH CUSTOMERS.—

“(A) IN GENERAL.—The borrowing authority under paragraph (1)(A) shall be effective only after the Chief of Engineers has entered into contracts with each customer under which the customer commits to repay a pro rata share (based on water purchase) of the principal and interest owed by the Secretary to the Secretary of the Treasury under paragraph (1).

“(B) PREPAYMENT.—Any customer may repay, at any time, the pro rata share of the principal and interest then owed by the customer and outstanding, or any portion thereof, without penalty.

“(C) RISK OF DEFAULT.—Under each of the contracts, the customer that enters into the contract shall commit to pay any additional amount necessary to fully offset the risk of default on the contract.

“(D) OBLIGATIONS.—Each contract under subparagraph (A) shall include such terms and conditions as the Secretary of the Treasury may require so that the value to the Government of the contracts entered into under subparagraph (A) is estimated to be equal to the obligations of the Army Corps of Engineers for carrying out capital improvements at the Washington Aqueduct at the time that each series of contracts is entered into.

“(E) OTHER CONDITIONS.—Each contract entered into under subparagraph (A) shall—

“(i) provide that the customer pledges future income only from fees assessed for principal and interest payments required by such contracts and costs to operate and maintain the Washington Aqueduct;

“(3) LIMITATIONS.—

“(A) BORROWING AUTHORITY.—The Secretary’s borrowing authority for making capital improvements at the Washington Aqueduct under paragraph (1) shall not extend beyond fiscal year 1999.

“(B) OBLIGATION AUTHORITY.—Upon expiration of the borrowing authority exercised under paragraph (1), the Secretary shall not obligate funds for making capital improvements at the Washington Aqueduct except funds which are provided in advance by the customers. This limitation does not affect the Secretary’s authority to conduct normal operation and maintenance activities, including minor repair and replacement work.

“(4) IMPACT ON IMPROVEMENT PROGRAM.—Not later than 180 days after the date of enactment of this Act [Aug. 6, 1996], the Secretary, in consultation with

other Federal agencies, shall transmit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that assesses the impact of the borrowing authority provided under this subsection on the near-term improvement projects in the Washington Aqueduct Improvement Program, work scheduled, and the financial liability to be incurred.

“(f) REISSUANCE OF NPDES PERMIT.—Prior to reissuing a National Pollutant Discharge Elimination System (NPDES) permit for the Washington Aqueduct, the Administrator of the Environmental Protection Agency shall consult with the customers and the Secretary regarding opportunities for more efficient water facility configurations that might be achieved through various possible transfers of the Washington Aqueduct. Such consultation shall include specific consideration of concerns regarding a proposed solids recovery facility, and may include a public hearing.”

§ 71. Physical development of National Capital

(a) General purposes; findings

It is the purpose of sections 71 to 71i, 72, 73, and 74 of this title to secure comprehensive planning for the physical development of the National Capital and its environs; to provide for

the participation of the appropriate planning agencies of the environs in such planning; and to establish the agency and procedures requisite to the administration of the functions of the Federal and District of Columbia governments related to such planning. The Congress finds that the location of the seat of government in the District of Columbia has brought about the development of a metropolitan region extending well into adjoining territory in Maryland and Virginia; that effective comprehensive planning is necessary on a regional basis and of continuing importance to the Federal establishment; that the distribution of Federal installations throughout the region has been and will continue to be a major influence in determining the extent and character of development; that there is needed a central planning agency for the National Capital region to coordinate certain developmental activities of the many different agencies of the Federal and District Governments so that such activities may conform with general objectives; that there is an increasing mutuality of interest and responsibility between the various levels of government that calls for coordinate and unified policies in planning both Federal and local development in the interest of order and economy; that there are developmental problems of an interstate character, the planning of which requires collaboration between Federal, State, and local governments in the interest of equity and constructive action; and that the instrumentalities and procedures herein provided will aid in providing the Congress from time to time with information and advice requisite to legislation. The general objective of said sections is to enable appropriate agencies to plan for the development of the Federal establishment at the seat of government in a manner consistent with the nature and function of the National Capital and with due regard for the rights and prerogatives of the adjoining States and local governments to exercise control appropriate to their functions, and in a manner which will, in accordance with present and future needs, best promote public health, safety, morals, order, convenience, prosperity, and the general welfare, as well as efficiency and economy in the process of development.

(b) Definitions

As used in sections 71 to 71i, 72, 73, and 74 of this title, (1) "region" or "National Capital region" means the District of Columbia; Montgomery and Prince Georges Counties in Maryland; Arlington, Fairfax, Loudoun, and Prince William Counties in Virginia; and all cities now or hereafter existing in Maryland or Virginia within the geographic area bounded by the outer boundaries of the combined area of said counties; (2) "environs" means the territory surrounding the District of Columbia included within the National Capital region; (3) "National Capital" means the District of Columbia and territory owned by the United States within the environs; and (4) "planning agency" means any city, county, bi-county, part-county, or regional planning agency authorized under State and local laws to make and adopt comprehensive plans whether or not its jurisdiction is exclusive or concurrent.

§ 71a. Federal and District planning agencies in National Capital

(a)(1) National Capital Planning Commission; creation; central Federal agency; functions; excepted functions

The National Capital Planning Commission (hereinafter referred to as the "Commission") is created as the central Federal planning agency for the Federal Government in the National Capital, and to preserve the important historical and natural features thereof, except with respect to the United States Capitol buildings and grounds as defined in sections 193a and 193m of this title, and to any extension thereof or additions thereto, or to buildings and grounds under the care of the Architect of the Capitol.

(2) Mayor of District of Columbia; central local agency; functions; excepted functions; comprehensive plan for District; procedures for citizen participation and consultations with non-Federal agencies

The Mayor of the District of Columbia (hereinafter referred to as the "Mayor") shall be the central planning agency for the government of the District of Columbia (hereinafter referred to as the "District") in the National Capital. The Mayor shall be responsible for coordinating the planning activities of the District government and for preparing and implementing the District elements of the comprehensive plan for the National Capital, which may include land use elements, urban renewal and redevelopment elements, a multiyear program of public works for the District, and physical, social, economic, transportation, and population elements. Following adoption and prior to implementation, the Council shall submit each such element or amendment to the Commission for review and comment with regard to the impact of such element or amendment on the interests or functions of the Federal Establishment in the National Capital.

If within such thirty days, the Commission again determines such element or amendment to have a negative impact on the functions or interests of the Federal Establishment in the National Capital such element or amendment shall not be implemented.

(C) If the Council rejects the findings and recommendations of the Commission and resubmits a modified element or amendment to it under clause (i), the Commission shall, within sixty days after receipt of such modified element or amendment from the Council, determine whether such modified element or amendment has a negative impact on the interests or functions of the Federal Establishment within the National Capital. If the Commission finds such negative impact it shall certify its findings (in sufficient detail that the Council can understand the basis of the objection of the Commission) and recommendations to the Council, and such element or amendment shall not be implemented. If the

Commission takes no action with respect to such modified element or amendment within such sixty days, such modified element or amendment shall be deemed to have no such negative impact and shall be incorporated into the comprehensive plan and it shall be implemented. Any element or amendment which the Commission has determined to have a negative impact on the Federal Establishment in the National Capital, and which is submitted again in a modified form not less than one year from the day it was last rejected by the Commission shall be deemed to be a new element or amendment for purposes of the review procedure specified in this section.

(D) The Commission and the Mayor shall jointly publish, from time to time as appropriate, a comprehensive plan for the National Capital, consisting of the elements of the comprehensive plan for the Federal activities in the National Capital developed by the Commission, and the District elements developed by the Mayor and the Council in accordance with the provisions of this section.

SEC. 2. LIQUIDATION

The National Capital Planning Commission shall make such provisions as it shall deem necessary respecting the winding up of the outstanding affairs of the National Capital Regional Planning Council.

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I am transmitting Reorganization Plan No. 5 of 1966, prepared in accordance with the Reorganization Act of 1949, as amended.

The time has come to recognize the readiness of local governments in the Washington area to undertake a role which is properly and rightfully theirs. To that end, I am submitting a reorganization plan to abolish the National Capital Regional Planning Council.

Comprehensive regional planning is vital to the orderly development of our metropolitan areas. Nowhere is it more important than in the National Capital region.

To be most effective, regional planning must be a responsibility of the area's State and local governments acting together to solve mutual problems of growth and change. It should not be a Federal function, although the Federal Government should support and advance it.

The need for cooperative planning was recognized years ago in the National Capital region. The establishment of the National Capital Regional Planning Council in 1952 to prepare a comprehensive development plan was a major step in meeting that need.

However, the Council was designed for conditions which no longer exist. It was established by Federal law as a Federal agency financed by Federal funds because the various local jurisdictions then felt they were not in a position to provide the financing necessary for areawide comprehensive planning.

The situation that existed in 1952 has been changed by two major developments—

The founding of the Metropolitan Washington Council of Governments; and

The inauguration of a nationwide urban planning assistance program, commonly referred to as the "701 Program."

The Metropolitan Washington Council of Governments, established in 1957, is a voluntary association of elected officials of local governments in the area. It has a competent professional staff and has done constructive work on areawide development matters. It had a budget of nearly a quarter of a million dollars for fiscal year 1965, mostly derived from local government contributions, and has developed to the point where it can fully carry out the State and local aspects of regional planning.

The urban planning assistance program provides for Federal financing of two-thirds of the cost of metro-

politan planning. The National Capital Regional Planning Council, as a Federal agency, is not eligible for assistance under this program. The Metropolitan Washington Council of Governments, however, became eligible for that assistance under the terms of the Housing and Urban Development Act of 1965. Accordingly, the elected local governments of the National Capital region have declared their intention of undertaking the responsibility for areawide comprehensive planning through the Council of Governments.

The reorganization plan will not alter the basic responsibilities of the National Capital Planning Commission. That Commission will continue to represent the Federal interest in the planning and development of the region. Indeed, its work should increase as comprehensive regional planning by the Council of Governments is accelerated. In accord with the reorganization plan, the Commission will work closely with the Council of Governments in regional planning. The Commission will also deal directly with the suburban jurisdictions and assume the liaison functions now exercised by the National Capital Regional Planning Council.

The reorganization plan will improve existing organizational arrangements of and promote more effective and efficient planning for the National Capital region.

It will also result in long-range savings to the Federal Government. The regional planning effort of the Council of Governments is supported in part by local contributions. The same work done by the National Capital Regional Planning Council has been supported totally with Federal funds. The plan will eliminate this overlapping effort.

Annual savings of at least \$25,000 should result from the reorganization plan.

The functions to be abolished by the reorganization plan are provided for in sections 2(e), 3, 4, 5(d), and 6(b) of the act approved June 6, 1924, entitled "An Act providing for a comprehensive development of the park and playground system of the National Capital" (43 Stat. 463), as amended (66 Stat. 783, 40 U.S.C. 71a(e), 71b, 71c, 71d(d), and 71E(b)).

I have found, after investigation, that each reorganization included in the accompanying reorganization plan is necessary to accomplish one or more of the purposes set forth in section 2(a) of the Reorganization Act of 1949, as amended.

I recommend that the Congress allow the reorganization plan to become effective.

LYNDON B. JOHNSON.

THE WHITE HOUSE, June 29, 1966.

§ 71c. Comprehensive plan for the National Capital

(a) Preparation and adoption by Commission

The Commission is hereby charged with the duty of preparing and adopting a comprehensive, consistent, and coordinated plan for the National Capital, which plan shall include the Commission's recommendations or proposals for Federal developments or projects in the environs, and those District elements, or amendments thereto, of the comprehensive plan adopted by the Council and with respect to which the Commission has not determined a negative impact to exist, which elements or amendments shall be incorporated into such comprehensive plan without change. The Commission shall collaborate with the National Capital Regional Planning Council in the development of those elements of the plan for the National Capital which should be incorporated in the regional plan provided for in section 71b of this title. While consistency between the respective proposals of the Commission and the National Capital Regional Planning Council shall be sought,

lack of action or agreement by the National Capital Regional Planning Council shall not prevent the Commission from adopting any part of its plan or any recommendation or proposal for Federal developments or projects in the environs. The Commission may include in its plan any portion of any plan adopted by the National Capital Regional Planning Council or any planning agency in the environs and from time to time make recommendations of collateral interest to the National Capital Regional Planning Council or to the aforesaid agencies.

(b), (c) Repealed. Pub. L. 93-198, title II, § 203(c)(3), Dec. 24, 1973, 87 Stat. 782

(d) Progressive adoption, amendment, or review

The Commission may, as the work of preparing the comprehensive plan progresses, adopt any element or a part or parts thereof and from time to time shall review and may amend or extend the plan, in order that its recommendations may be kept up to date.

(e) Consultation with interested agencies; hearings; citizen advisory councils

Prior to the final adoption of the comprehensive plan or any element thereof, or any subsequent revision, the Commission shall present such plan, element, or revision to the appropriate Federal or District of Columbia authorities for comment and recommendations. Presentation of proposed revisions may at the Commission's discretion be made annually in a consolidated form. The said recommendations by Federal and District of Columbia authorities shall not be binding on the Commission, but it shall give careful consideration to such views and recommendations as are submitted prior to final adoption. The Commission may, in addition and at its discretion, periodically provide opportunity by public hearings, meetings, or conferences, exhibitions and publication of its plans, for review and comments by nongovernmental agencies or groups, and, in consultation with the Council of the District of Columbia, encourage the formation of one or more citizen advisory councils.

In carrying out its planning functions with respect to Federal developments or projects in the environs, the Commission may act in conjunction and cooperation and enter into agreements with any State or local authority or planning agency, as the Commission may deem necessary, to effectuate the adoption of any plan or proposal and secure its realization.

§ 71d. Proposed Federal and District developments and projects

(a) Consultations between agencies and Commission; procedure

In order to insure the comprehensive planning and orderly development of the National Capital, each Federal and District of Columbia agency prior to the preparation of construction plans originated by such agency for proposed developments and projects or to commitments for the acquisition of land, to be paid for in whole or in part from Federal or District funds, shall advise and consult with the Commission in the preparation by the agency of plans and programs in preliminary and successive stages which affect the plan and development of the National Capital: *Provided, however,* That the Commission shall determine in advance the type or kinds of plans, developments, projects, improvements, or acquisitions which do not need to be submitted for review by the Commission as to conformity with its plans. After receipt of such plans, maps, and data, it shall be the duty of the Commission to make promptly a preliminary report and recommendations to the agency or agencies concerned. If, after having received and considered the report and recommendations of the Commission the agency does not concur, it shall advise the Commission with its reasons therefor, and the Commission shall submit a final report. After such consultation and suitable consideration of the views of the Commission the agency may proceed to take action in accordance with its legal responsibilities and authority.

(b) Exceptions to consultation procedure

The procedure prescribed in subsection (a) of this section shall not apply to projects within the Capitol grounds or to structures erected by the Department of Defense during wartime or national emergency within existing military, naval, or Air Force reservations, except that the appropriate defense agency shall consult with the Commission as to any developments which materially affect traffic or require coordinated planning of the surrounding area.

The provisions of section 16 of the Act approved June 20, 1938, are extended to include public buildings erected by any agency of the Government of the District of Columbia within the boundaries of the central area of the District, as such central area may be defined and from time to time redefined by concurrent action of the Commission and the Council, except that the Commission shall transmit its approval or disapproval respecting any such building within thirty days after the day it was submitted to the Commission.

(d) Additional procedure for consultation on developments and projects within environs

Within the environs, general plans showing the location, character, extent and intensity of

use for proposed Federal and District developments and projects involving the acquisition of land, shall be submitted to the Commission for report and recommendations before final commitment to said acquisition, unless such matters shall have been specifically approved by an Act of Congress. Before acting on any general plan, the Commission shall advise and consult with the National Capital Regional Planning Council and the appropriate planning agency having jurisdiction over the affected part of the environs. When, in the judgment of the Commission, proposed developments or projects submitted to the Commission under subsection (a) of this section involve a major change in the character or intensity of an existing use in the environs, the Commission shall likewise advise and consult with the National Capital Regional Planning Council and the aforesaid planning agency. The report and recommendations required under this subsection shall be submitted within sixty days and shall be accompanied by any reports or recommendations that may have been prepared by the National Capital Regional Planning Council or the aforesaid planning agency.

It is the intent of this section to obtain cooperation and correlation of effort between the various agencies of the Federal Government which are responsible for public developments and projects, including the acquisition of land. These agencies, therefore, shall look to the Commission and utilize it as the central planning agency for the Federal activities in the National Capital region. To aid the Commission in carrying out this function, plans, data, and records, or copies thereof, necessary to the Commission shall be furnished upon its request by such Federal and District governmental agencies; and the Commission shall likewise furnish related plans, data, and records, or copies thereof, to Federal and District of Columbia governmental agencies upon request.

REFERENCES IN TEXT

The Act of Congress approved August 30, 1890, providing a site for the Government Printing Office (United States Statutes at Large, volume 26, chapter 837), referred to in text, is act Aug. 30, 1890, ch. 837, 26 Stat. 412, which enacted section 120 of this title, section 861a of former Title 10, Army and Air Force, section 446 of Title 16, Conservation, sections 497, 601 and 651 of former Title 31, Money and Finance, section 887 of Title 33, Navigation and Navigable Waters, and sections 212, 662 and 945 of Title 43, Public Lands, and amended section 321 of Title 43. Former Titles 10 and 31 were revised generally by act Aug. 10, 1956, ch. 1041, § 1, 70A Stat. 1, and Pub. L. 97-258, Sept. 13, 1982, 96 Stat. 877, respectively. For disposition of sections of former titles, see Table I—Revised Titles. For complete classification of this Act to the Code, see Tables.

Section 2 of act August 30, 1890, referred to in text, created a board consisting of the Secretary of the Treasury, the Public Printer, and the Architect of the Capitol to acquire land for the accommodation of the Government Printing Office and the construction of needed storage and distributing warehouses in connection therewith. Section 3 of such act authorized the board to acquire the land by negotiation at a price not above a fair relative value as to other lands which had been sold in the immediate vicinity; or if the board were unable to purchase said land by agreement with any one or more of the respective owners at a reasonable price within sixty days after the passage of the act, it was authorized to "make application to the Supreme Court of the District of Columbia [now the United States District Court for the District of Columbia], at any general or special term thereof, by petition for the condemnation of such land not so purchased, and for the ascertainment of its value. Such petition shall contain a particular description of the property not so purchased, and selected for the purpose aforesaid, with the name of the owner or owners thereof and their residences, so far as the same may be ascertained, together with a plan of the land proposed to be taken; and thereupon the said court is authorized and required to cite all such owners and all other persons interested to appear in said court at a time to be fixed by such court, on reasonable notice, to answer the said petition; and if it shall appear to the court that there are any owners or other persons interested who are under disability the court shall give public notice of the time at which the said court will proceed with the matter of condemnation; and at such time if it shall appear that there are any persons under disability either who have appeared or who have not appeared, the court shall appoint guardians ad litem for each such person, and the court shall thereupon proceed to appoint three capable and disinterested commissioners to appraise the value of the respective interests of all persons concerned in such lands, under such regulations as to notice and hearing as to the court shall seem meet. Such commissioners shall thereupon, after being duly sworn for the proper performance of their duties, examine the premises and hear the persons in interest who may appear before them, and return their appraisal of the value of the interests of all persons, respectively, in such land; and in case any of the persons entitled according to the judgment of the court are under disability, or can not be found, or neglect to receive payment, the money to be paid to any of them shall be deposited in the Treasury to their credit, unless there shall be some person lawfully authorized to receive the same under the direction of the court, and when such payments are so made, or the amounts belonging to persons to whom payment shall not be made are so deposited, the said lands shall be deemed to be condemned and taken by the United States for the public use." These provisions were never executed and the appropriation therefor was suspended by act Mar. 3, 1891, ch. 542, 26 Stat. 989.

However, the provisions of section 3 of the act of Aug. 30, 1890, referred to and partly quoted above, with re-

spect to condemnation proceeding, were rendered general and permanent by a provision of the end of that section which read as follows:

“And hereafter, in all cases of the taking of property in the District of Columbia for public use, whether herein, heretofore, or hereafter authorized, the foregoing provisions, as it respects the application by the proper officer to the supreme court of the District of Columbia [see above for change in name] and the proceedings therein shall be as in the foregoing provisions declared”. In view of this provision, section 3, reworded at the beginning thereof to incorporate it, was classified to former section 120 of this title. Former section 120 was superseded in effect by act Mar. 1, 1929, ch. 416, 45 Stat. 1415, which was formerly classified to section 361 et seq. of this title.

the grantor and for acquisition of such limited permanent rights in land shall be subject to the approval of the President of the United States.

§ 161. Title of Superintendent of Capitol Building and Grounds changed to Architect of Capitol

The title of “Superintendent of the Capitol Building and Grounds” is changed to “Architect of the Capitol.”

(Feb. 14, 1902, ch. 17, 32 Stat. 20; Mar. 3, 1921, ch. 124, 41 Stat. 1291.)

CODIFICATION

The title of Architect of the Capitol was changed to Superintendent of the Capitol Building and Grounds, by act Feb. 14, 1902, popularly known as the “Urgent Deficiency Appropriation Act for 1902”.

Act Mar. 3, 1921, restored the original title, and is based on the Legislative, Executive, and Judicial Appropriation Act Mar. 3, 1921, fiscal year 1922.

PRIOR PROVISIONS

Act May 2, 1828, ch. 45, §1, 4 Stat. 266, abolished office of Architect of the Capitol. The duties of that office were transferred to Commissioner of Public Buildings and Grounds, appointed by President under act April 29, 1816, ch. 150, §2, 3 Stat. 324, to succeed a previously existing board of three commissioners of Public Buildings and Grounds.

Act Mar. 3, 1829, ch. 151, §2, 4 Stat. 363, authorized President to continue office of Architect of the Capitol long enough to complete work in progress.

Act Sept. 30, 1850, ch. 90, §1, 9 Stat. 538, made appropriation for “the extension of the Capitol” according to the plan as might be approved by the President, to be expended under his direction, “by such architect as he may appoint to execute the same.” Subsequent acts frequently referred to the Architect of the Capitol or to the Architect of the Capitol Extension.

Act Mar. 2, 1867, ch. 167, §2, 14 Stat. 466, abolished office of Commissioner of Public Buildings and Grounds referred to in section 162 of this title, and transferred the duties of that office to the Chief of Engineers of the Army.

Act Aug. 15, 1876, ch. 287, §1, 19 Stat. 147, transferred duties relative to the Capitol theretofore performed by Commissioner of Public Buildings and Grounds to Architect of the Capitol.

§ 161a. Repealed. June 20, 1929, ch. 33, §6, 46 Stat. 39

Section, act May 24, 1924, ch. 183, 43 Stat. 149, related to compensation of employees of the office of the Ar-

chitect of the Capitol. Under section 3 of act June 20, 1929, such employees came within the Classification Act of 1923, which was set out in section 661 et seq. of former Title 5, Executive Departments and Government Officers and Employees. The Classification Act of 1923 was repealed, and superseded by the Classification Act of 1949, which was repealed by Pub. L. 89-554, §8(a), Sept. 6, 1966, 80 Stat. 644. The former provisions of the Classification Act of 1949 are now covered by chapter 51 and subchapter III of chapter 53 of Title 5, Government Organization and Employees.

§ 162. Architect of Capitol; powers and duties

The Architect of the Capitol shall perform all the duties relative to the Capitol Building performed prior to August 15, 1876, by the Commissioner of Public Buildings and Grounds, and shall be appointed by the President: *Provided*, That no change in the architectural features of the Capitol Building or in the landscape features of the Capitol Grounds shall be made except on plans to be approved by Congress.

(Aug. 15, 1876, ch. 287, 19 Stat. 147; Feb. 14, 1902, ch. 17, 32 Stat. 20; Mar. 3, 1921, ch. 124, 41 Stat. 1291.)

§ 270a. Bonds of contractors of public buildings or works

(a) Type of bonds required

Before any contract for the construction, alteration, or repair of any public building or public work of the United States is awarded to any person, such person shall furnish to the United States the following bonds, which shall become

binding upon the award of the contract to such person, who is hereinafter designated as "contractor":

(1) A performance bond with a surety or sureties satisfactory to the officer awarding such contract, and in such amount as he shall deem adequate, for the protection of the United States.

(2) A payment bond with a surety or sureties satisfactory to such officer for the protection of all persons supplying labor and material in the prosecution of the work provided for in said contract for the use of each such person. The amount of the payment bond shall be equal to the total amount payable by the terms of the contract unless the contracting officer awarding the contract makes a written determination supported by specific findings that a payment bond in that amount is impractical, in which case the amount of the payment bond shall be set by the contracting officer. In no case shall the amount of the payment bond be less than the amount of the performance bond.

(b) Waiver of bonds for contracts performed in foreign countries

The contracting officer in respect of any contract is authorized to waive the requirement of a performance bond and payment bond for so much of the work under such contract as is to be performed in a foreign country if he finds that it is impracticable for the contractor to furnish such bonds.

(c) Authority to require additional bonds

Nothing in this section shall be construed to limit the authority of any contracting officer to require a performance bond or other security in addition to those, or in cases other than the cases specified in subsection (a) of this section.

(d) Coverage for taxes in performance bond

Every performance bond required under this section shall specifically provide coverage for taxes imposed by the United States which are collected, deducted, or withheld from wages paid by the contractor in carrying out the contract with respect to which such bond is furnished. However, the United States shall give the surety or sureties on such bond written notice, with respect to any such unpaid taxes attributable to any period, within ninety days after the date when such contractor files a return for such period, except that no such notice shall be given more than one hundred and eighty days from the date when a return for the period was required to be filed under title 26. No suit on such bond for such taxes shall be commenced by the United States unless notice is given as provided in the preceding sentence, and no such suit shall be commenced after the expiration of one year after the day on which such notice is given.

(b) As used in sections 276a to 276a-5 of this title the term "wages", "scale of wages", "wage rates", "minimum wages", and "prevailing wages" shall include—

Provided, That the obligation of a contractor or subcontractor to make payment in accordance with the prevailing wage determinations of the Secretary of Labor, insofar as sections 276a to 276a-5 of this title and other Acts incorporating sections 276a to 276a-5 of this title by reference are concerned may be discharged by the making of payments in cash, by the making of contributions of a type referred to in paragraph (2)(A), or by the assumption of an enforceable commitment to bear the costs of a plan or program of a type referred to in paragraph (2)(B), or any combination thereof, where the aggregate of any such payments, contributions, and costs is not less than the rate of pay described in paragraph (1) plus the amount referred to in paragraph (2).

In determining the overtime pay to which the laborer or mechanic is entitled under any Federal law, his regular or basic hourly rate of pay (or other alternative rate upon which premium rate of overtime compensation is computed) shall be deemed to be the rate computed under paragraph (1), except that where the amount of payments, contributions, or costs incurred with respect to him exceeds the prevailing wage applicable to him under sections 276a to 276a-5 of this title, such regular or basic hourly rate of pay (or such other alternative rate) shall be arrived at by deducting from the amount of payments, contributions, or costs actually incurred with respect to him, the amount of contributions or costs of the types described in paragraph (2) actually incurred with respect to him, or the amount determined under paragraph (2) but not actually paid, whichever amount is the greater.

REPORT ON USE OF VOLUNTEERS BY FOR-PROFIT ENTITIES

Section 7306 of title VII of Pub. L. 103-355 provided that: "Not later than December 31, 1997, the Secretary of Labor shall prepare and submit to the appropriate committees of Congress a report that—

"(1) to the maximum extent practicable—

"(A) identifies and assesses the barriers that prevent private for-profit entities from using volunteers permitted under this subtitle [subtitle C (§§ 7301-7306) of title VII of Pub. L. 103-355, see Short Title note above]; and

"(B) assesses whether private for-profit entities should be permitted to use volunteers on projects relating to the construction, repair, or alteration of public buildings and public works if—

"(i) such volunteers are performing services for civic, charitable, humanitarian or educational reasons;

"(ii) the contribution of such services is not for the direct or indirect benefit of the private for-profit entity that is performing or seeking to perform work on such projects; and

"(iii) such projects would not otherwise be possible without the use of volunteers; and

"(2) contains recommendations with respect to other Acts related to the Davis-Bacon Act [40 U.S.C. 276a et seq.] that may be considered in legislation to permit volunteer work."

§ 276d-1. Waiver for individuals who perform volunteer services for public entities**(a) In general**

The requirement that certain laborers and mechanics be paid in accordance with the wage-setting provisions of the Act of March 3, 1931 (commonly known as the "Davis-Bacon Act") (40 U.S.C. 276a et seq.) as set forth in any of the Acts or provisions described in section 276d-3 of this title shall not apply to an individual—

(1) who volunteers—

(A) to perform a service directly to a State or local government or a public agency for civic, charitable, or humanitarian reasons, without promise, expectation, or receipt of compensation for services rendered, other than expenses, reasonable benefits, or a nominal fee (as defined in subsection (b) of this section), but solely for the personal purpose or pleasure of the individual; and

(B) to provide such services freely and without pressure or coercion, direct or implied, from any employer;

(2) whose contribution of service is not for the direct or indirect benefit of any contractor otherwise performing or seeking to perform work on the same project for which the individual is volunteering;

(3) who is not employed by and does not provide services to a contractor or subcontractor at any time on the federally assisted or insured project for which the individual is volunteering; and

(4) who is not otherwise employed by the same public agency to perform the same type

of services as those for which the individual proposes to volunteer.

(b) Expenses

Payments of expenses, reasonable benefits, or a nominal fee may be provided to volunteers described in subsection (a) of this section only in accordance with regulations issued by the Secretary of Labor. In prescribing the regulations, the Secretary shall take into consideration criteria such as the total amount of payments made (relating to expenses, benefits, or fees) in the context of the economic realities. The regulations shall include provisions that provide that—

(1) a payment for an expense may be received by a volunteer for items such as uniform allowances, protective gear and clothing, reimbursement for approximate out-of-pocket expenses, or for the cost or expense of meals and transportation;

(2) a reasonable benefit may include the inclusion of a volunteer in a group insurance plan (such as a liability, health, life, disability, or worker's compensation plan) or pension plan, or the awarding of a length of service award; and

(3) a nominal fee may not be used as a substitute for compensation and may not be connected to productivity.

The decision as to what constitutes a nominal fee for purposes of paragraph (3) shall be determined based on the context of the economic realities of the situation involved and shall be made by the Secretary of Labor.

(c) Economic reality

For purposes of subsection (b) of this section, in determining whether an expense, benefit, or fee described in such subsection may be paid to volunteers in the context of the economic realities of the particular situation, the Secretary of Labor may not permit any such expense, benefit, or fee that has the effect of undermining labor standards by creating downward pressure on prevailing wages in the local construction industry.

§ 330. Report of violations and withholding of funds for unpaid wages and liquidated damages

(a) Reports of inspectors; determination of amount of unpaid wages and liquidated damages; authorization for direct payments by Comptroller General

Any officer or person designated as inspector of the work to be performed under any contract of the character specified in section 329 of this title, or to aid in the enforcement or fulfillment thereof shall, upon observation or investigation, forthwith report to the proper officer of the United States, of any territory or possession, or of the District of Columbia, all violations of the provisions of this subchapter occurring in the performance of such work, together with the name of each laborer or mechanic who was required or permitted to work in violation of such provisions and the day or days of such violation. The amount of unpaid wages and liquidated damages owing under the provisions of this subchapter shall be administratively determined and the officer or person whose duty it is to approve the payment of moneys by the United States, the territory, or the District of Columbia in connection with the performance of the contract work shall direct the amount of such liquidated damages to be withheld for the use and benefit of the United States, said territory, or said District, and shall direct the amount of such unpaid wages to be withheld for the use and benefit of the laborers and mechanics who were not compensated as required under the provisions of this subchapter. The Comptroller General of the United States is authorized and directed to pay directly to such laborers and mechanics, from the sums withheld on account of underpayments of wages, the respective amounts administratively determined to be due, if the funds withheld are adequate, and, if not, an equitable proportion of such amounts.

(b) Rights of action and intervention against contractors and sureties

If the accrued payments withheld under the terms of the contracts, as aforesaid, are insufficient to reimburse all the laborers and mechanics with respect to whom there has been a failure to pay the wages required pursuant to this subchapter, such laborers and mechanics shall, in the case of a department or agency of the Federal Government, have the rights of action and/or of intervention against the contractor and his sureties conferred by law upon persons furnishing labor or materials, and in such proceedings it shall be no defense that such laborers and mechanics accepted or agreed to accept less than the required rate of wages or voluntarily made refunds.

Any contractor or subcontractor aggrieved by the withholding of a sum as liquidated damages as provided in this subchapter shall have the right, within sixty days thereafter, to appeal to the head of the agency of the United States or

Such agency head or Mayor, as the case may be, shall have authority to review the administrative determination of liquidated damages and to issue a final order affirming such determination; or, if it is found that the sum determined is incorrect or that the contractor or subcontractor violated the provisions of this subchapter inadvertently notwithstanding the exercise of due care on his part and that of his agents, recommendations may be made to the Secretary that an appropriate adjustment in liquidated damages be made, or that the contractor or subcontractor be relieved of liability for such liquidated damages. The Secretary shall review all pertinent facts in the matter and may conduct such investigations as he deems necessary, so as to affirm or reject the recommendation. The decision of the Secretary shall be final. In all such cases in which a contractor or subcontractor may be aggrieved by a final order for the withholding of liquidated damages as hereinbefore provided, such contractor or subcontractor may, within sixty days after such final order, file a claim in the United States Court of Federal Claims: *Provided, however*, That final orders of the agency head, the Mayor of the District of Columbia or the Secretary, as the case may be, shall be conclusive with respect to findings of fact if such findings are supported by substantial evidence.

Reorganization Plan Numbered 14 of 1950 (64 Stat. 1267) shall be applicable with respect to the provisions of this subchapter, and section 276c of this title, shall be applicable with respect to those contractors and subcontractors referred to therein who are engaged in the performance of contracts subject to the provisions of this subchapter.

§ 331. Limitations, variations, tolerances, and exemptions

It shall be a condition of each contract (other than a contract referred to in section 329(c) of this title) which is entered into under legislation subject to Reorganization Plan Numbered 14 of 1950 (64 Stat. 1267), and is for construction, alteration, and/or repair, including painting and decorating, that no contractor or subcontractor contracting for any part of the contract work shall require any laborer or mechanic employed in the performance of the contract to work in surroundings or under working conditions which

are unsanitary, hazardous, or dangerous to his health or safety, as determined under construction safety and health standards promulgated by the Secretary by regulation based on proceedings pursuant to section 553 of title 5, provided that such proceedings include a hearing of the nature authorized by said section. In formulating such standards, the Secretary shall consult with the Advisory Committee created by subsection (e) of this section.

(b) Compliance with section and regulations: inspections, hearings, orders, findings of fact, and decisions; application of sections 38 and 39 of title 41; opportunity for hearing; consequences of noncompliance: cancellation of contracts, completion contracts, additional costs, and withholding of assistance; non-application of section 330 of this title

The Secretary is authorized to make such inspections, hold such hearings, issue such orders, and make such decisions based on finding of fact, as are deemed necessary to gain compliance with this section and any health and safety standard promulgated by the Secretary under subsection (a) of this section, and for such purposes the Secretary and the United States district courts shall have the authority and jurisdiction provided by sections 38 and 39 of title 41. In the event that the Secretary of Labor determines noncompliance under the provisions of this section after an opportunity for an adjudicatory hearing by the Secretary of any condition of a contract of a type described in clause (1) or (2) of section 329(a) of this title, the governmental agency for which the contract work is done shall have the right to cancel the contract, and to enter into other contracts for the completion of the contract work, charging any additional cost to the original contractor. In the event of noncompliance, as determined by the Secretary after an opportunity for an adjudicatory hearing by the Secretary, of any condition of a contract of a type described in clause (3) of section 329(a) of this title, the governmental agency by which financial guarantee, assistance, or insurance for the contract work is provided shall have the right to withhold any such assistance attributable to the performance of the contract. Section 330 of this title shall not apply to the enforcement of this section.

(d) Finding of ineffective protection against violations; transmission of names of violators to Comptroller General; contract awards prohibition; termination of restriction and notification of Comptroller General and Government agencies; judicial review

(1) If the Secretary determines on the record after an opportunity for an agency hearing that, by repeated willful or grossly negligent violations of this subchapter, a contractor or subcontractor has demonstrated that the provisions

of subsections (b) and (c) of this section are not effective to protect the safety and health of his employees, the Secretary shall make a finding to that effect and shall, not sooner than thirty days after giving notice of the findings to all interested persons, transmit the name of such contractor or subcontractor to the Comptroller General.

(2) The Comptroller General shall distribute each name so transmitted to him to all agencies of the Government. Unless the Secretary otherwise recommends, no contract subject to this section shall be awarded to such contractor or subcontractor or to any person in which such contractor or subcontractor has a substantial interest until three years have elapsed from the date the name is transmitted to the Comptroller General. If, before the end of such three-year period, the Secretary, after affording interested persons due notice and opportunity for hearing, is satisfied that a contractor or subcontractor whose name he has transmitted to the Comptroller General will thereafter comply responsibly with the requirements of this section, he shall terminate the application of the preceding sentence to such contractor or subcontractor (and to any person in which the contractor or subcontractor has a substantial interest); and when the Comptroller General is informed of the Secretary's action he shall inform all agencies of the Government thereof.

(3) Any person aggrieved by the Secretary's action under subsections (b) or (d) of this section may, within sixty days after receiving notice thereof, file with the appropriate United States court of appeals a petition for review of such action. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Secretary, who shall thereupon file in the court the record upon which he based his action, as provided in section 2112 of title 28. The findings of fact by the Secretary, if supported by substantial evidence, shall be final. The court shall have power to make and enter a decree enforcing, modifying, and enforcing as so modified, or setting aside in whole or in part, the order of the Secretary or the appropriate Government agency. (1) subject to regulations¹ prescribed by the Administrator for Federal Procurement Policy

pursuant to the Office of Federal Procurement Policy Act [41 U.S.C. 401 et seq.], prescribe policies and methods of procurement and supply of personal property and nonpersonal services, including related functions such as contracting, inspection, storage, issue, property identification and classification, transportation and traffic management, management of public utility services, and repairing and converting; and

(4) with respect to transportation and other public utility services for the use of executive agencies, represent such agencies in negotiations with carriers and other public utilities and in proceedings involving carriers or other public utilities before Federal and State regulatory bodies;

Provided, That the Secretary of Defense may from time to time, and unless the President shall otherwise direct, exempt the Department of Defense from action taken or which may be taken by the Administrator under clauses (1) to (4) of this subsection whenever he determines such exemption to be in the best interests of national security.

(b) Extension of services

(1) The Administrator shall as far as practicable provide any of the services specified in subsection (a) of this section to any other Federal agency, mixed ownership corporation (as defined in section 9101 of title 31), or the District of Columbia, upon its request.

(2)(A) Upon the request of a qualified nonprofit agency for the blind or other severely handicapped that is to provide a commodity or service to the Federal Government under the Javits-Wagner-O'Day Act (41 U.S.C. 46 et seq.), the Administrator may provide any of the services specified in subsection (a) of this section to such agency to the extent practicable.

(B) A nonprofit agency receiving services under the authority of subparagraph (A) shall use the services directly in making or providing an approved commodity or approved service to the Federal Government.

(C) In this paragraph—

(i) The term "qualified nonprofit agency for the blind or other severely handicapped" means—

(I) a qualified nonprofit agency for the blind, as defined in section 5(3) of the Javits-Wagner-O'Day Act (41 U.S.C. 48b(3)); and

(II) a qualified nonprofit agency for other severely handicapped, as defined in section 5(4) of such Act (41 U.S.C. 48b(4)).

¹ See 1983 Amendment note below.

(c) Exchange or sale of similar items

In acquiring personal property, any executive agency, under regulations to be prescribed by the Administrator, subject to regulations³ prescribed by the Administrator for Federal Procurement Policy pursuant to the Office of Federal Procurement Policy Act [41 U.S.C. 401 et seq.], may exchange or sell similar items and may apply the exchange allowance or proceeds of sale in such cases in whole or in part payment for the property acquired: *Provided*, That any transaction carried out under the authority of this subsection shall be evidenced in writing. Sales of property pursuant to this subsection shall be governed by section 5 of title 41, except that fixed price sales may be conducted in the same manner and subject to the same conditions as are applicable to the sale of property pursuant to section 484(e)(5) of this title.

In conformity with policies prescribed by the Administrator under subsection (a) of this section, any executive agency may utilize the services, work, materials, and equipment of any other executive agency, with the consent of such other executive agency, for the inspection of personal property incident to the procurement thereof, and notwithstanding section 1301(a) of title 31 or any other provision of law such other executive agency may furnish such services, work, materials, and equipment for that purpose without reimbursement or transfer of funds.

(e) Exchange or transfer of excess property

Whenever the head of any executive agency determines that the remaining storage or shelf life of any medical materials or medical supplies held by such agency for national emergency purposes is of too short duration to justify their continued retention for such purposes and that their transfer or disposal would be in the interest of the United States, such materials or supplies shall be considered for the purposes of section 483 of this title to be excess property. In accordance with the regulations of the Administrator, such excess materials or supplies may thereupon be transferred to or exchanged with any other Federal agency for other medical materials or supplies. Any proceeds derived from such transfers may be credited to the current applicable appropriation or fund of the transferor agency and shall be available only for the purchase of medical materials or supplies to be held for national emergency purposes. If such materials or supplies are not transferred to or exchanged with any other Federal agency, they shall be disposed of as surplus property. To the greatest extent practicable, the head of the ex-

ecutive agency holding such medical materials or supplies shall make the determination provided for in the first sentence of this subsection at such times as to insure that such medical materials or medical supplies can be transferred or otherwise disposed of in sufficient time to permit their use before their shelf life expires and they are rendered unfit for human use.

(g) Temporary assignment of excess real property space

Whenever the Administrator determines that the temporary assignment or reassignment of any space in excess real property to any Federal agency for office, storage, or related facilities would be more advantageous than the permanent transfer of such property, he may make such assignment or reassignment for such period of time as he shall determine and obtain, in the absence of appropriation available to him therefor, appropriate reimbursement from the using agency for the expense of maintaining such space.

(h) Abandonment, destruction, or donation of property

The Administrator may authorize the abandonment, destruction, or donation to public bodies of property which has no commercial value or of which the estimated cost of continued care and handling would exceed the estimated proceeds from its sale.

“(a) TRANSFER OF EXCESS REAL PROPERTY.—(1) Except as provided in subsection (d), before screening excess real property located on Guam for further Federal utilization under section 202 [40 U.S.C. 483] of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 471 et seq.) (hereinafter the ‘Property Act’), the Administrator shall notify the Government of Guam that the property is available for transfer pursuant to this section.

Otherwise, the property shall be screened for further Federal use and then, if there is no other Federal use, shall be disposed of in accordance with the Property Act.

“(b) CONDITIONS OF TRANSFER.—(1) Any transfer of excess real property to the Government of Guam may be only for a public purpose and shall be without further consideration.

“(2) All transfers of excess real property to the Government of Guam shall be subject to such restrictive covenants as the Administrator, in consultation with the Secretary of Defense, in the case of property reported excess by a military department, determines to be necessary to ensure that: (A) the use of the property is compatible with continued military activities on Guam; (B) the use of the property is consistent with the environmental condition of the property; (C) access is available to the United States to conduct any additional environmental remediation or monitoring that may be required; (D) the property is used only for a public purpose and can not be converted to any other use; and (E) to the extent that facilities on the property have been occupied and used by another Federal agency for a minimum of 2 years, that the transfer to the Government of Guam is subject to the terms and conditions for such use and occupancy.

“(3) All transfers of excess real property to the Government of Guam are subject to all otherwise applicable Federal laws, except section 2696 of title 10, United States Code, or section 501 of Public Law 100-77 (42 U.S.C. 11411).

“(c) DEFINITIONS.—For the purposes of this section:

“(3) to real property described in the Guam Excess Lands Act (Public Law 103-339; 108 Stat. 3116) which shall be disposed of in accordance with such Act;

“(4) to real property on Guam that is declared excess as a result of a base closure law; or

“(5) to facilities on Guam declared excess by the managing Federal agency for the purpose of transferring the facility to a Federal agency that has occupied the facility for a minimum of 2 years when the facility is declared excess together with the minimum land or interest therein necessary to support the facility.

§ 484. Disposal of surplus property**(a) Supervision and direction**

Except as otherwise provided in this section, the Administrator shall have supervision and direction over the disposition of surplus property. Such property shall be disposed of to such extent, at such time, in such areas, by such agencies, at such terms and conditions, and in such manner, as may be prescribed in or pursuant to this Act.

(b) Care and handling

The care and handling of surplus property, pending its disposition, and the disposal of surplus property, may be performed by the General Services Administration or, when so determined by the Administrator, by the executive agency in possession thereof or by any other executive agency consenting thereto.

(c) Method of disposition

Any executive agency designated or authorized by the Administrator to dispose of surplus property may do so by sale, exchange, lease, permit, or transfer, for cash, credit, or other property, with or without warranty, and upon such other terms and conditions as the Administrator deems proper, and it may execute such documents for the transfer of title or other interest in property and take such other action as it deems necessary or proper to dispose of such property under the provisions of this subchapter.

(d) Validity of deed, bill of sale, lease, etc.

A deed, bill of sale, lease, or other instrument executed by or on behalf of any executive agency purporting to transfer title or any other interest in surplus property under this subchapter shall be conclusive evidence of compliance with the provisions of this subchapter insofar as concerns title or other interest of any bona fide grantee or transferee for value and without notice of lack of such compliance.

(e) Bids for disposal; advertising; procedure; disposal by negotiation; explanatory statement

(1) All disposals or contracts for disposal of surplus property (other than by abandonment, destruction, donation, or through contract brokers) made or authorized by the Administrator shall be made after publicly advertising for bids, under regulations prescribed by the Administrator, except as provided in paragraphs (3) and (5) of this subsection.

(2) Whenever public advertising for bids is required under paragraph (1) of this subsection—

(A) the advertisement for bids shall be made at such time previous to the disposal or contract, through such methods, and on such terms and conditions as shall permit that full and free competition which is consistent with the value and nature of the property involved;

(B) all bids shall be publicly disclosed at the time and place stated in the advertisement;

(C) award shall be made with reasonable promptness by notice to the responsible bidder whose bid, conforming to the invitation for bids, will be most advantageous to the Government, price and other factors considered: *Provided*, That all bids may be rejected when it is in the public interest to do so.

(3) Disposals and contracts for disposal may be negotiated, under regulations prescribed by the Administrator, without regard to paragraphs (1) and (2) of this subsection but subject to obtaining such competition as is feasible under the circumstances, if—

(A) necessary in the public interest during the period of a national emergency declared by the President or the Congress, with respect to a particular lot or lots of personal property or, for a period not exceeding three months, with respect to a specifically described category or categories of personal property as determined by the Administrator;

(B) the public health, safety, or national security will thereby be promoted by a particular disposal of personal property;

(C) public exigency will not admit of the delay incident to advertising certain personal property;

(D) the personal property involved is of a nature and quantity which, if disposed of under paragraphs (1) and (2) of this subsection, would cause such an impact on an industry or industries as adversely to affect the national economy, and the estimated fair market value of such property and other satisfactory terms of disposal can be obtained by negotiation;

(E) the estimated fair market value of the property involved does not exceed \$15,000;

(F) bid prices after advertising therefor are not reasonable (either as to all or some part of the property) or have not been independently arrived at in open competition;

(G) with respect to real property only, the character or condition of the property or unusual circumstances make it impractical to advertise publicly for competitive bids and the fair market value of the property and other satisfactory terms of disposal can be obtained by negotiation;

(H) the disposal will be to States, Territories, possessions, political subdivisions thereof, or tax-supported agencies therein, and the estimated fair market value of the property and other satisfactory terms of disposal are obtained by negotiation; or

(I) otherwise authorized by this Act or other law.

(4) Disposals and contracts for disposal of surplus real and related personal property through contract realty brokers employed by the Administrator shall be made in the manner followed in similar commercial transactions under such regulations as may be prescribed by the Administrator: *Provided*, That such regulations shall require that wide public notice of availability of the property for disposal be given by the brokers.

(5)(A) Negotiated sales of personal property at fixed prices may be made by the Administrator either directly or through the use of disposal contractors without regard to the limitations

set forth in paragraphs (1) and (2) of this subsection: *Provided*, That such sales shall be publicized to the extent consistent with the value and nature of the property involved, that the prices established shall reflect the estimated fair market value thereof, and that such sales shall be limited to those categories of personal property as to which the Administrator determines that such method of disposal will best serve the interests of the Government.

(B) Under regulations and restrictions to be prescribed by the Administrator, property to be sold pursuant to this paragraph may be offered to organizations specified in paragraph (3)(H) of this subsection that have expressed an interest in the property to permit such an organization a prior opportunity to purchase at the prices fixed for such property.

(i) any personal property which has an estimated fair market value in excess of \$15,000;

The Administrator, in formulating policies with respect to the disposal of surplus agricultural commodities, surplus foods processed from agricultural commodities and surplus cotton or woolen goods, shall consult with the Secretary of Agriculture. Such policies shall be so formulated as to prevent surplus agricultural commodities, or surplus food processed from agricultural commodities, from being dumped on the market in a disorderly manner and disrupting the market prices for agricultural commodities.

(h) Transfer to Department of Agriculture for price support or stabilization reasons; deposit of receipts; limitation on sale of surplus farm commodities

Whenever the Secretary of Agriculture determines such action to be required to assist him in carrying out his responsibilities with respect to price support or stabilization, the Administrator shall transfer without charge to the Department of Agriculture any surplus agricultural commodities, foods, or cotton or woolen goods to be disposed of. (j) Transfers for donation of property to State agencies; State plan of operation; "public agency" and "State" defined

(1) Under such regulations as he may prescribe, the Administrator is authorized in his discretion to transfer, without cost (except for costs of care and handling), any personal property under the control of any executive agency which has been determined to be surplus property to the State agency in each State designated under State law as the agency responsible for the fair and equitable distribution, through donation, of all property transferred in accordance with the provisions of paragraphs (2) and (3) of this subsection. In determining whether the property is to be transferred for donation under this subsection, no distinction shall be made between property capitalized in a working-capital fund established under section 2208 of title 10, or any similar fund, and any other property.

(2) In the case of surplus personal property under the control of the Department of Defense,

the Secretary of Defense shall determine whether such property is usable and necessary for educational activities which are of special interest to the armed services, such as maritime academies, or military, naval, Air Force, or Coast Guard preparatory schools. If the Secretary determines that such property is usable and necessary for said purposes, the Secretary shall allocate it for transfer by the Administrator to the appropriate State agency for distribution, through donation, to such educational activities. If the Secretary determines that such property is not usable and necessary for such purposes, it may be disposed of in accordance with paragraph (3) of this subsection.

(3) Except for surplus personal property transferred pursuant to paragraph (2) of this subsection, the Administrator shall, pursuant to criteria which are based on need and utilization and established after such consultation with State agencies as is feasible, allocate such property among the States in¹ a fair and equitable basis (taking into account the condition of the property as well as the original acquisition cost thereof), and transfer to the State agency property selected by it for distribution through donation within the State—

(A) to any public agency for use in carrying out or promoting for the residents of a given political area one or more public purposes, such as conservation, economic development, education, parks and recreation, public health, and public safety; or

(B) to nonprofit educational or public health institutions or organizations, such as medical institutions, hospitals, clinics, health centers, drug abuse treatment centers, providers of assistance to homeless individuals, providers of assistance to families or individuals whose annual incomes are below the poverty line (as that term is defined in section 9902 of title 42), schools, colleges, universities, schools for the mentally retarded, schools for the physically handicapped, child care centers, radio and television stations licensed by the Federal Communications Commission as educational radio or educational television stations, museums attended by the public, and libraries serving free all residents of a community, district, State, or region, which are exempt from taxation under section 501 of title 26, for purposes of education or public health (including research for any such purpose).

The Administrator, in allocating and transferring property under this paragraph, shall give fair consideration, consistently with the established criteria, to expressions of need and interest on the part of public agencies and other eligible institutions within that State, and shall give special consideration to requests by eligible recipients, transmitted through the State agency, for specific items of property.

(4)(A) Before property may be transferred to any State agency, such State shall develop, according to State law, a detailed plan of operation, developed in conformity with the provisions of this subsection, which shall include adequate assurance that the State agency has the

necessary organizational and operational authority and capability, including staff, facilities, means and methods of financing, and procedures with respect to: accountability, internal and external audits, cooperative agreements, compliance and utilization reviews, equitable distribution and property disposal, determination of eligibility, and assistance through consultation with advisory bodies and public and private groups. The chief executive officer shall certify and submit the plan to the Administrator. In the event that a State legislature has not developed, according to State law, a State plan within two hundred and seventy calendar days after October 17, 1976, the chief executive officer of the State shall approve, and submit to the Administrator, a temporary State plan. No such plan, and no major amendment thereof, shall be filed with the Administrator until sixty days after general notice of the proposed plan or amendment has been published and interested persons have been given at least thirty days during which to submit comments. In developing and implementing the State plan, the relative needs and resources of all public agencies and other eligible institutions within the State shall be taken into consideration. The Administrator may consult with interested Federal agencies for purposes of obtaining their views concerning the administration and operation of this subsection.

(B) The State plan shall provide for the fair and equitable distribution of property within such State based on the relative needs and resources of interested public agencies and other eligible institutions within the State and their abilities to utilize the property.

(C)(i) The State plan of operation shall require the State agency to utilize a management control system and accounting system for donable property transferred under this section of the same types as are required by State law for State-owned property, except that the State agency, with the approval of the chief executive officer of the State, may elect, in lieu of such systems, to utilize such other management control and accounting systems as are effective to govern the utilization, inventory control, accountability, and disposal of property under this subsection.

(ii) The State plan of operation shall require the State agency to provide for the return of donable property for further distribution if such property, while still usable, has not been placed in use for the purpose for which it was donated within one year of donation or ceases to be used by the donee for such purposes within one year of being placed in use.

(iii) The State plan shall require the State agency, insofar as practicable, to select property requested by a public agency or other eligible institution within the State and, if so requested by the recipient, to arrange shipment of that property, when acquired, directly to the recipient.

(D) Where the State agency is authorized to assess and collect service charges from participating recipients to cover direct and reasonable indirect costs of its activities, the method of establishing such charges shall be set out in the State plan of operation. Such charges shall be

fair and equitable and shall be based on services performed by the State agency, including, but not limited to, screening, packing, crating, removal, and transportation.

(E) The State plan of operation shall provide that the State agency may impose reasonable terms, conditions, reservations, and restrictions on the use of property to be donated under paragraph (3) of this subsection and shall impose such terms, conditions, reservations, and restrictions in the case of any passenger motor vehicle and any item of other property having a unit acquisition cost of \$5,000 or more. If the Administrator finds that an item or items have characteristics that require special handling or use limitations, he may impose appropriate conditions on the donation of such property.

(F) The State plan of operation shall provide that surplus property which the State agency determines cannot be utilized by eligible recipients shall be disposed of—

(i) subject to the disapproval of the Administrator within thirty days after notice to him, through transfer by the State agency to another State agency or through abandonment or destruction where the property has no commercial value or the estimated cost of its continued care and handling would exceed the estimated proceeds from its sale; or

(ii) otherwise pursuant to the provisions of this Act under such terms and conditions and in such manner as may be prescribed by the Administrator.

Notwithstanding sections 485 and 512(c) of this title, the Administrator, from the proceeds of sale of any such property, may reimburse the State agency for such expenses relating to the care and handling of such property as he shall deem appropriate.

(5) As used in this subsection, (A) the term "public agency" means any State, political subdivision thereof (including any unit of local government or economic development district), or any department, agency, instrumentality thereof (including instrumentalities created by compact or other agreement between States or political subdivisions), or any Indian tribe, band, group, pueblo, or community located on a State reservation and (B) the term "State" means the several States, the District of Columbia, the Commonwealth of Puerto Rico, Virgin Islands, Guam, and American Samoa.

EX. ORD. NO. 12999. EDUCATIONAL TECHNOLOGY: ENSURING OPPORTUNITY FOR ALL CHILDREN IN THE NEXT CENTURY

Ex. Ord. No. 12999, Apr. 17, 1996, 61 F.R. 17227, provided:

In order to ensure that American children have the skills they need to succeed in the information-intensive 21st century, the Federal Government is committed to working with the private sector to promote four major developments in American education: making modern computer technology an integral part of every classroom; providing teachers with the professional development they need to use new technologies effec-

tively; connecting classrooms to the National Information Infrastructure; and encouraging the creation of excellent educational software. This Executive order streamlines the transfer of excess and surplus Federal computer equipment to our Nation's classrooms and encourages Federal employees to volunteer their time and expertise to assist teachers and to connect classrooms.

Accordingly, by the authority vested in me as President by the Constitution and the laws of the United States of America, including the provisions of the Stevenson-Wylder Technology Innovation Act of 1980, as amended (15 U.S.C. 3701 *et seq.*), the Federal Property and Administrative Services Act of 1949, ch. 288, 63 Stat. 377 [see Short Title note set out under section 471 of this title], and the National Defense Authorization Act for Fiscal Year 1996, Public Law 104-106 [see Tables for classification], it is hereby ordered as follows:

SECTION 1. Protection of Educationally Useful Federal Equipment. (a) Educationally useful Federal equipment is a vital national resource. To the extent such equipment can be used as is, separated into parts for other computers, or upgraded—either by professional technicians, students, or other recycling efforts—educationally useful Federal equipment is a valuable tool for computer education. Therefore, to the extent possible, all executive departments and agencies (hereinafter referred to as “agencies”) shall protect and safeguard such equipment, particularly when declared excess or surplus, so that it may be recycled and transferred, if appropriate, pursuant to this order.

SEC. 2. Efficient Transfer of Educationally Useful Federal Equipment to Schools and Nonprofit Organizations. (a) To the extent permitted by law, all agencies shall give highest preference to schools and nonprofit organizations, including community-based educational organizations, (“schools and nonprofit organizations”) in the transfer, through gift or donation, of educationally useful Federal equipment.

(b) Agencies shall attempt to give particular preference to schools and nonprofit organizations located in the Federal enterprise communities and empowerment zones established in the Omnibus Reconciliation Act of 1993, Public Law 103-66 [see 26 U.S.C. 1391 *et seq.*].

(c) Each agency shall, to the extent permitted by law and where appropriate, identify educationally useful Federal equipment that it no longer needs and transfer it to a school or nonprofit organization by:

(1) conveying research equipment directly to the school or organization pursuant to 15 U.S.C. 3710(i); or

(2) reporting excess equipment to the General Services Administration (GSA) for donation when declared surplus in accordance with section 203(j) of the Federal Property and Administrative Services Act of 1949, as amended, 40 U.S.C. 484(j). Agencies shall report such equipment as far as possible in advance of the date the equipment becomes excess, so that GSA may attempt to arrange direct transfers from the donating agency to recipients eligible under this order.

(d) In transfers made pursuant to paragraph (c)(1) of this section, title shall transfer directly from the agency to the schools or nonprofit organizations as required by 15 U.S.C. 3710(i). All such transfers shall be reported to the GSA. At the direction of the recipient institution or organization, and if appropriate, transferred equipment may be conveyed initially to a nonprofit reuse or recycling program that will upgrade it before transfer to the school or nonprofit organization holding title.

(e) All transfers to schools or nonprofit organizations, whether made directly or through GSA, shall be made at the lowest cost to the school or nonprofit organization permitted by law.

(f) The availability of educationally useful Federal equipment shall be made known to eligible recipients under this order by all practicable means, including newspaper, community announcements, and the Internet.

(g) The regional Federal Executive Boards shall help facilitate the transfer of educationally useful Federal

equipment from the agencies they represent to recipients eligible under this order.

SEC. 3. Assisting Teachers' Professional Development: Connecting Classrooms. (a) Each agency that has employees who have computer expertise shall, to the extent permitted by law and in accordance with the guidelines of the Office of Personnel Management, encourage those employees to:

(1) help connect America's classrooms to the National Information Infrastructure;

(2) assist teachers in learning to use computers to teach; and

(3) provide ongoing maintenance of and technical support for the educationally useful Federal equipment transferred pursuant to this order.

(b) Each agency described in subsection (a) shall submit to the Office of Science and Technology Policy, within 6 months of the date of this order, an implementation plan to advance the developments described in this order, particularly those required in this section. The plan shall be consistent with approved agency budget totals and shall be coordinated through the Office of Science and Technology Policy.

(c) Nothing in this order shall be interpreted to bar a recipient of educationally useful Federal equipment from lending that equipment, whether on a permanent or temporary basis, to a teacher, administrator, student, employee, or other designated person in furtherance of educational goals.

SEC. 4. Definitions. For the purposes of this order: (a) “Schools” means individual public or private education institutions encompassing prekindergarten through twelfth grade, as well as public school districts.

(b) “Community-based educational organizations” means nonprofit entities that are engaged in collaborative projects with schools or that have education as their primary focus. Such organizations shall qualify as nonprofit educational institutions or organizations for purposes of section 203(j) of the Federal Property and Administrative Services Act of 1949, as amended.

(c) “Educationally useful Federal equipment” means computers and related peripheral tools (e.g., printers, modems, routers, and servers), including telecommunications and research equipment, that are appropriate for use in prekindergarten, elementary, middle, or secondary school education. It shall also include computer software, where the transfer of licenses is permitted.

(d) “Nonprofit reuse or recycling program” means a 501(c) organization able to upgrade computer equipment at no or low cost to the school or nonprofit organization taking title to it.

(e) “Federal Executive Boards,” as defined in 5 C.F.R. Part 960, are regional organizations of each Federal agency's highest local officials.

SEC. 5. This order shall supersede Executive Order No. 12821 of November 16, 1992.

SEC. 6. Judicial Review. This order is not intended, and should not be construed, to create any right or benefit, substantive or procedural, enforceable at law by a party against the United States, its agencies, its officers, or its employees.

WILLIAM J. CLINTON.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in title 46 sections 2101, 3305.

§ 485. Proceeds from transfer, sale, etc., of property

(a) Disposition of receipts

All proceeds under this subchapter from any transfer of excess property to a Federal agency for its use, or from any sale, lease, or other disposition of surplus property, shall be covered into the Treasury as miscellaneous receipts, except as provided in subsections (b), (c), (d), (e), and (h) of this section.

(b) Deposit of proceeds from sales; use; report

Except as provided in subsection (h) of this section, all the proceeds of such dispositions of surplus real and related personal property made by the Administrator of General Services shall be set aside in a separate fund in the Treasury. Not more than an amount to be determined quarterly by the Director of the Office of Management and Budget may be obligated from such fund by the Administrator to pay the direct expenses incurred for the utilization of excess

property and the disposal of surplus property under this Act for fees of appraisers, auctioneers, and realty brokers, for costs of environmental and historic preservation services, and for advertising and surveying. Such payments from this fund may be used either to pay such expenses directly or to reimburse the fund or appropriation initially bearing such expenses. Fees paid to appraisers, auctioneers, and brokers shall be in accordance with the scale of fees customarily paid for such services in similar commercial transactions, and in no event shall more than 12 per centum of the proceeds of all dispositions within each fiscal year of surplus real and related personal property be paid out of such proceeds under this authorization to meet direct expenses incurred in connection with such dispositions. Periodically, but not less often than once each year, any excess funds beyond current operating needs shall be transferred from the fund to miscellaneous receipts: *Provided*, That a report of receipts, disbursements, and transfers to miscellaneous receipts under this authorization shall be made annually in connection with the budget estimates to the Director of Office of Management and Budget and to the Congress.

(c) Credit to reimbursable fund or appropriation on certain transactions

Where the property transferred or disposed of was acquired by the use of funds either not appropriated from the general fund of the Treasury or appropriated therefrom but by law reimbursable from assessment, tax, or other revenue or receipts, then the net proceeds of the disposition or transfer shall be credited to the reimbursable fund or appropriation or paid to the Federal agency which determined such property to be excess: *Provided*, That the proceeds shall be credited to miscellaneous receipts in any case when the agency which determined the property to be excess shall deem it uneconomical or impractical to ascertain the amount of net proceeds. As used in this subsection, the term "net proceeds of the disposition or transfer" means the proceeds of the disposition or transfer minus all expenses incurred for care and handling and disposition or transfer.

(d) Special account deposits

Any Federal agency disposing of surplus property under this subchapter (1) may deposit, in a special account with the Treasurer of the United States, such amount of the proceeds of such dispositions as it deems necessary to permit appropriate refunds to purchasers when any disposition is rescinded or does not become final, or payments for breach of any warranty, and (2) may withdraw therefrom amounts so to be refunded or paid, without regard to the origin of the funds withdrawn.

(e) Sale proceeds offset against price or cost of contractor's work

Where any contract entered into by an executive agency or any subcontract under such contract authorizes the proceeds of any sale of property in the custody of the contractor or subcontractor to be credited to the price or cost of the work covered by such contract or subcontract, the proceeds of any such sale shall be

¹ So in original. The period probably should be a semicolon.

credited in accordance with the contract or sub-contract.

(f) Acceptance of property in lieu of cash

Any executive agency entitled to receive cash under any contract covering the lease, sale or other disposition of surplus property may in its discretion accept, in lieu of cash, any property determined by the President to be strategic or critical material at the prevailing market price thereof at the time the cash payment or payments became or become due.

(g) Management of credit, leases, and permits on property

Where credit has been extended in connection with any disposition of surplus property under this subchapter or by War Assets Administration (or its predecessor agencies) under the Surplus Property Act of 1944, or where such disposition has been by lease or permit, the Administrator shall administer and manage such credit, lease, or permit, and any security therefor, and may enforce, adjust, and settle any right of the Government with respect thereto in such manner and upon such terms as he deems in the best interest of the Government.

(h) Property under control of a military department

(1) If the Secretary of a military department determines that real property, and improvements thereon, under the control of that department (other than property at a military installation designated for closure or realignment pursuant to a base closure law) is excess to the needs of that department, the Secretary of Defense shall provide that the property be made available for transfer without reimbursement to the other military departments within the Department of Defense. If the property is not transferred to another military department, the Secretary of the military department concerned shall request the Administrator to transfer or dispose of such property in accordance with the provisions of this Act, section 13(g) of the Surplus Property Act of 1944 (50 U.S.C. App. 1622(g)), or other applicable law.

(2) The Administrator shall deposit any proceeds (less expenses of transferring or disposing of the property as provided in subsection (b) of this section) in a special account in the Treasury of the United States. The amount deposited in such account with respect to the transfer or disposal of any such property shall be available, to the extent provided in appropriation Acts, as follows:

(A) In the case of property located at a military installation that is closed, such amount shall be available for facility maintenance and repair or environmental restoration by the military department that had jurisdiction over such property before the closure of the military installation.

(B) In the case of property located at any other military installation—

- (i) 50 percent of such amount shall be available for facility maintenance and repair or environmental restoration at the military installation where such property was located before it was disposed of or transferred; and
- (ii) 50 percent of such amount shall be available for facility maintenance and repair

and for environmental restoration by the military department that had jurisdiction over such property before it was disposed of or transferred.

(3) As part of the annual request for authorizations of appropriations to the Committee on Armed Services of the Senate and the Committee on Armed Services of the House of Representatives, the Secretary of Defense shall include an accounting of each transfer and disposal made in accordance with this subsection during the fiscal year preceding the fiscal year in which the request is made, including a detailed explanation of each such transfer and disposal and of the use of the proceeds received from it by the Department of Defense.

(4) This subsection does not apply to damaged or deteriorated military family housing facilities conveyed under section 2854a of title 10.

(5) For purposes of this subsection, the term “military installation” shall have the meaning given that term in section 2687(e)(1) of title 10, and the term “base closure law” shall have the meaning given that term in section 2667(h)(2) of such title.

(i) Recovery of costs incurred in sales of personal property

The Administrator may retain from the proceeds of sales of personal property conducted by the General Services Administration amounts necessary to recover, to the extent practicable, costs incurred by the General Services Administration (or its agent) in conducting such sales. The Administrator shall deposit amounts retained into the General Supply Fund established under section 756(a) of this title and may use such portion of amounts so deposited as is necessary to pay (1) direct costs incurred by the General Services Administration in conducting sales of personal property, and (2) indirect costs incurred by the General Services Administration that are reasonably related to those sales. Amounts retained that are not needed to pay the direct and indirect costs incurred shall periodically, but not less than annually, be transferred from the General Supply Fund to the general fund or another appropriate account in the Treasury.

1. In cooperation with other interested agencies, the Administrator of General Services shall institute studies and surveys to determine the extent to which existing policies, procedures and directives heretofore promulgated and remaining in force under section 501 of the Act [section 473 of this title] should be modified or revoked in the interest of promoting greater economy and efficiency in accomplishing the purposes of this Act. Careful attention shall be given to determining the degree of centralization in the General Services Administration to be attained in the performance of the functions involved. When these studies and surveys have been completed and after consulting with the interested agencies, the Administrator shall prescribe such regulations as may be necessary to implement the determinations resulting from such studies and surveys.

2. After consultation with the Bureau of the Budget [now the Office of Management and Budget] and other Executive agencies, and also with the General Accounting Office in respect of such matters as may be appropriate, including matters affecting its functions under sections 205(b) and 206(c) of the Act [subsec. 3. In accordance with directives to be issued by the Administrator of General Services, each Executive agency shall promptly institute surveys to determine excess personal property and that portion of excess real property, including unimproved property, under their control which might be suitable for office, storage, and related facilities, and shall promptly report to the Administrator as soon as each survey is completed.

EX. ORD. NO. 10579. INTERAGENCY MOTOR-VEHICLE POOLS AND SYSTEMS

Ex. Ord. No. 10579, Dec. 1, 1954, 19 F.R. 7925, provided:

SECTION 1. *Purpose and general policy.* (a) The purpose of these regulations is to establish policies and procedures under which interagency motor-vehicle pools or systems may be established, operated, curtailed, or discontinued.

(b) The Administrator of General Services (hereinafter referred to as the Administrator) shall establish and provide for the operation of interagency motor-vehicle pools and systems for the purpose of providing more efficient or economical transportation of Government personnel and property within specific areas by motor vehicles or local transit systems. Pools or systems based in whole or in part upon use of privately-owned vehicles and facilities shall be preferred to Government ownership of vehicles and facilities to the extent that it is feasible to provide required motor-vehicle services of satisfactory quality and cost from commercial or other private sources.

SEC. 2. *Conduct of studies to determine advisability of establishing motor-vehicle pools or systems.* (a) The Administrator shall select areas in which studies are to be conducted to determine the advisability of establishing motor-vehicle pools or systems. Before initiating any such study, he shall give at least thirty days notice to the head of each executive agency (as defined in section 3(a) of the Act) [section 472(a) of this title]. The notice shall include a statement of the approximate geographic area to be studied and the date on which the study will begin.

(b) The head of each executive agency receiving notice that such a study is to be made shall provide information which is required or pertinent. He shall also designate one or more officials in the field with whom members of a staff assigned by the General Services Administration may consult. Such designated officials shall provide such assigned staff with needed information and assistance, including reasonable opportunities to observe motor-vehicle operations and facilities and to examine pertinent cost and other records.

SEC. 3. *Determination to establish an interagency motor-vehicle pool or system.* (a) If the Administrator determines, with due regard to the program activities of the agencies concerned, and on the basis of a study made in accordance with section 2 hereof, that an interagency motor-vehicle pool or system should be established, he shall be responsible for preparing a formal determination to that effect. Such determination shall include:

(1) A description of the proposed operation, including a statement of the types of service and of the geographic area, and the agencies or parts of agencies to be served.

(2) The name of the executive agency designated to be responsible for operating the pool or system, and the reasons for such designation.

(3) A statement indicating the motor vehicles and related equipment and supplies to be transferred and the amount of reimbursement, if any, to be made therefor.

(b) Each determination shall be accompanied by an analytical justification which shall include a comparison of estimated costs of the present and proposed methods of operation and a showing of the estimated savings to be realized through the establishment of the proposed pool or system. The justification shall also describe the alternatives considered in making the determination, and shall include a statement concerning the availability of privately-owned facilities and equipment, and the feasibility and estimated cost (immediate and long-term) of using such facilities and equipment.

(c) The Administrator shall send a copy of each determination to each executive agency affected and to the Director of the Bureau of the Budget [now the Director of the Office of Management and Budget] (hereinafter referred to as the Director).

SEC. 4. *Transfers of records, facilities, personnel, and appropriations.* Whenever the Administrator prepares a determination as set forth in section 3 of these regulations, he shall also prepare and present to the Director a schedule of the proposed transfer of such records, facilities, personnel, and appropriations as relate primarily to the functions which are to be transferred to the interagency motor-vehicle pool or system. A copy of such schedule shall be sent by the Administrator to each executive agency affected. The Director shall determine the records, facilities, personnel, and appropriations to be transferred.

SEC. 5. *Taking effect of determinations.* Unless a greater time is allowed therein, any determination made by the Administrator shall become binding on all affected executive agencies forty-five days after the issuance thereof except with respect to any agency which appeals, or requests an exemption, from any such determination in accordance with section 6 of these regulations.

SEC. 6. *Review of determinations not agreed to by agencies affected.* (a) Any executive agency may appeal or request exemption from any or all proposals affecting it which are contained in a determination. Appeals shall be submitted in writing to the Director with a copy to the Administrator within forty-five days from the date of the determination. Such appeals shall be accompanied by factual and objective supporting data and justification.

(b) The Director shall review any determination from which an executive agency has appealed and shall make a final decision on such appeal. The Director shall make such decisions, within seventy-five days after he receives the appeal or as soon thereafter as practicable, on the basis of information contained in the Administrator's determination, the executive agencies' appeals therefrom, and any supplementary data submitted by the Administrator and the contesting agencies. The Director shall send copies of decisions to the Administrator and to the heads of other executive agencies concerned.

(c) The Director's decision upon each such appeal, if it holds that the determination shall apply in whole or in part to the appealing agency, shall state the extent to which the determination applies and the effective date of its application. To the extent that the Director's decision on an appeal does not uphold the Administrator's determination, such determination shall be of no force and effect.

SEC. 7. *Compliance with determinations and decisions on appeals.* (a) When a determination or a decision on an appeal made in accordance with these regulations has become effective, each executive agency affected shall comply therewith.

(b) The Director shall take such actions as he deems appropriate to assist in securing compliance with determinations which have become effective. In the exercise of this authority to establish reserves in apportioning appropriations and funds, the Director shall take account of such savings as accrue from the establishment of inter-agency motor-vehicle pools and systems.

(c) The executive agency which operates any pool or system established hereunder shall maintain accurate

records of the cost of establishment, maintenance, and operation of any interagency motor-vehicle pool or system established pursuant to these regulations.

(d) The Administrator shall be responsible for maintaining adequate reviews and controls of the economy and efficiency of all pools or systems established in accordance with these regulations, including those not directly operated by the General Services Administration.

SEC. 8. *Discontinuance or curtailment of service.* (a) If, during any reasonable period, not exceeding two successive fiscal years, no actual savings are realized from the operation of any pool or system established hereunder, the Administrator shall discontinue the pool or system concerned.

(b) The Administrator may discontinue or curtail a motor-vehicle pool or system when he determines that it is not the most economical method of rendering required motor-vehicle service; but he shall give at least sixty days notice of such intention to executive agencies affected and to the Director before taking such action.

(c) Executive agencies affected by a pool or system for which the Administrator is responsible (including inter-agency pools or systems operated by another executive agency designated by the Administrator) may bring problems of service and cost to the attention of the Administrator, who shall assure that such problems receive proper attention.

(d) Executive agencies receiving motor-vehicle services from an interagency motor-vehicle pool or system under these regulations may request discontinuance or curtailment of their participation in such pool or system after at least one year of participation or in the event that the need for the services from the pool or system ceases. Such requests shall be submitted to the Administrator with pertinent factual justification.

(e) If the Administrator does not agree with such request and is unable to make arrangements which are mutually acceptable to him and to the head of the executive agency concerned, the agency's request for discontinuance or modification and the Administrator's reasons for not agreeing with the request shall be forwarded to the Director who shall be responsible for making a final and binding decision.

(f) When a pool or system is discontinued or curtailed, such transfers of vehicles and related equipment and supplies, personnel, records, facilities, and funds as may be appropriate will be made, subject to the approval of the Director.

SEC. 9. *Motor vehicles exempted from inclusion in inter-agency motor-vehicle pools.* The following-described classes of motor vehicles shall be exempt from inclusion in interagency motor-vehicle pools or systems:

(1) Motor vehicles designed or used for military field training, combat, or tactical purposes, or used principally within the confines of a regularly established military post, camp, or depot.

(2) Any motor vehicle regularly used by an agency in the performance of investigative, law enforcement, or intelligence duties if the head of such agency determines that exclusive control of such vehicle is essential to the effective performance of such duties: *Provided*, that vehicles regularly used for common administrative purposes not directly connected with the performance of law enforcement, investigative, or intelligence duties shall not because of such use be exempted from such inclusion.

(3) Any motor vehicle the conspicuous identification of which as a Government vehicle would interfere with the purpose for which it is acquired and used.

(4) Unless inclusion is mutually agreed upon by the Administrator and the head of the agency concerned:

(i) Motor vehicles for the use of the heads of the executive agencies, ambassadors, ministers, charge d'affaires, and other principal diplomatic and consular officials.

(ii) Motor vehicles regularly and principally used for the transportation of diplomats and representatives of foreign countries or by officers of the Department of

State for the conduct of official business with representatives of foreign countries.

(iii) Motor vehicles regularly used for the distribution and transportation of mails.

(5) Motor vehicles which, because of their design or the special purposes for which they are used, or for other reasons, cannot advantageously be incorporated in an interagency motor-vehicle pool or system if the exemption thereof has been mutually agreed upon by the Administrator and the head of the executive agency concerned.

(6) Motor vehicles exempted by an agency which has authority to make such an exemption under the provisions of the Act [this chapter].

SEC. 10. *Optional use arrangements.* Nothing in these regulations shall be construed as precluding the establishment or operation of interagency motor-vehicle pools or systems on the basis of optional use by executive or other Federal agencies.

SEC. 11. *Supplementary regulations.* The Administrator shall, after consultation with the executive agencies concerned and with due regard to their program activities, issue such supplementary regulations of general applicability to the executive agencies concerned as are necessary for the effective and economical operation of pools or systems under the Act [this chapter].

EX. ORD. NO. 12512. FEDERAL REAL PROPERTY
MANAGEMENT

Ex. Ord. No. 12512, Apr. 29, 1985, 50 F.R. 18453, provided:

By the authority vested in me as President by the Constitution and laws of the United States of America, including section 486(a) of title 40 of the United States Code, and in order to ensure that Federal real property resources are treated in accordance with their value as national assets and in the best interests of the Nation's taxpayers, it is hereby ordered as follows:

SECTION 1. *General Requirements.* To ensure the effective and economical use of America's real property and public land assets, establish a focal point for the enunciation of clear and consistent Federal policies regarding the acquisition, management, and disposal of properties, and assure management accountability for implementing Federal real property management reforms, all Executive departments and agencies shall take immediate action to recognize the importance of such resources through increased management attention, establishment of clear goals and objectives, improved policies and levels of accountability, and other appropriate actions. Specifically:

(a) The Domestic Policy Council shall serve as the forum for approving government-wide real property management policies;

(b) All Executive departments and agencies shall establish internal policies and systems of accountability

that ensure effective use of real property in support of mission-related activities, consistent with Federal policies regarding the acquisition, management, and disposal of such assets. All such agencies shall periodically review their real property holdings and conduct surveys of such property in accordance with standards and procedures determined by the Administrator of General Services. All such agencies shall also develop annual real property management improvement plans that include clear and concise goals and objectives related to all aspects of real property management, and identify sales, work space management, productivity, and excess property targets;

(c) The Director of the Office of Management and Budget shall review, through the management and budget review processes, the efforts of departments and agencies toward achieving the government-wide property management policies established pursuant to this Order. Savings achieved as a result of improved management shall be applied to reduce Federal spending and to support program delivery;

(d) The Office of Management and Budget and the General Services Administration shall, in consultation with the land managing agencies, develop legislative initiatives that seek to improve Federal real property management through the adoption of appropriate private sector management techniques; the elimination of duplication of effort among agencies; and the establishment of managerial accountability for implementing effective and efficient real property management practices; and

(e) The President's Council on Management Improvement, subject to the policy direction of the Domestic Policy Council, shall conduct such additional studies as are necessary to improve Federal real property management by appropriate agencies and groups.

SEC. 2. *Real Property.* The Administrator of General Services shall, to the extent permitted by law, provide government-wide policy oversight and guidance for Federal real property management; manage selected properties for agencies; conduct surveys; delegate operational responsibility to agencies where feasible and economical; and provide leadership in the development and maintenance of needed property management information systems.

SEC. 3. *Public Lands.* In order to ensure that Federally owned lands, other than the real property covered by Section 2 of this Order, are managed in the most effective and economic manner, the Departments of Agriculture and the Interior shall take such steps as are appropriate to improve their management of public lands and National Forest System lands and shall develop appropriate legislative proposals necessary to facilitate that result.

SEC. 4. Executive Order No. 12348 of February 25, 1982, is hereby revoked.

RONALD REAGAN.

EXECUTIVE ORDER NO. 12933

Ex. Ord. No. 12933, Oct. 20, 1994, 59 F.R. 53559, which required that solicitations and building service contracts for public buildings include a clause providing a right of first refusal to terminated nonsupervisory employees under a predecessor contract who were qualified to perform similar work at the same public building under the successor contract, was revoked by Ex. Ord. No. 13204, Feb. 17, 2001, 66 F.R. 11228.

EX. ORD. NO. 12954. ENSURING THE ECONOMICAL AND EFFICIENT ADMINISTRATION AND COMPLETION OF FEDERAL GOVERNMENT CONTRACTS

Ex. Ord. No. 12954, Mar. 8, 1995, 60 F.R. 13023, provided: Efficient economic performance and productivity are directly related to the existence of cooperative working relationships between employers and employees. When Federal contractors become involved in prolonged labor disputes with their employees, the Federal Government's economy, efficiency, and cost of operations are adversely affected. In order to operate as effectively as

possible, by receiving timely goods and quality services, the Federal Government must assist the entities with which it has contractual relations to develop stable relationships with their employees.

An important aspect of a stable collective bargaining relationship is the balance between allowing businesses to operate during a strike and preserving worker rights. This balance is disrupted when permanent replacement employees are hired. It has been found that strikes involving permanent replacement workers are longer in duration than other strikes. In addition, the use of permanent replacements can change a limited dispute into a broader, more contentious struggle, thereby exacerbating the problems that initially led to the strike. By permanently replacing its workers, an employer loses the accumulated knowledge, experience, skill, and expertise of its incumbent employees. These circumstances then adversely affect the businesses and entities, such as the Federal Government, which rely on that employer to provide high quality and reliable goods or services.

NOW, THEREFORE, to ensure the economical and efficient administration and completion of Federal Government contracts, and by the authority vested in me as President by the Constitution and the laws of the United States of America, including 40 U.S.C. 486(a) and 3 U.S.C. 301, it is hereby ordered as follows:

SECTION 1. It is the policy of the executive branch in procuring goods and services that, to ensure the economical and efficient administration and completion of Federal Government contracts, contracting agencies shall not contract with employers that permanently replace lawfully striking employees. All discretion under this Executive order shall be exercised consistent with this policy.

SEC. 2. (a) The Secretary of Labor ("Secretary") may investigate an organizational unit of a Federal contractor to determine whether the unit has permanently replaced lawfully striking workers. Such investigation shall be conducted in accordance with procedures established by the Secretary.

(b) The Secretary shall receive and may investigate complaints by employees of any entity covered under section 2(a) of this order where such complaints allege lawfully striking employees have been permanently replaced.

(c) The Secretary may hold such hearings, public or private, as he or she deems advisable, to determine whether an entity covered under section 2(a) has permanently replaced lawfully striking employees.

SEC. 3. (a) When the Secretary determines that a contractor has permanently replaced lawfully striking employees, the Secretary may make a finding that it is appropriate to terminate the contract for convenience. The Secretary shall transmit that finding to the head of any department or agency that contracts with the contractor.

(b) The head of the contracting department or agency may object to the termination for convenience of a contract or contracts of a contractor determined to have permanently replaced lawfully striking employees. If the head of the agency so objects, he or she shall set forth the reasons for not terminating the contract or contracts in a response in writing to the Secretary. In such case, the termination for convenience shall not be issued. The head of the contracting agency or department shall report to the Secretary those contracts that have been terminated for convenience under this section.

SEC. 4. (a) When the Secretary determines that a contractor has permanently replaced lawfully striking employees, the Secretary may debar the contractor, thereby making the contractor ineligible to receive government contracts. The Secretary shall notify the Administrator of the General Services Administration of the debarment, and the Administrator shall include the contractor on the consolidated list of debarred contractors. Departments and agencies shall not solicit offers from, award contracts to, or consent to subcontracts with these contractors unless the head of the agency or

his or her designee determines, in writing, that there is a compelling reason for such action, in accordance with the Federal Acquisition Regulation.

(b) The scope of the debarment normally will be limited to those organizational units of a Federal contractor that the Secretary finds to have permanently replaced lawfully striking workers.

(c) The period of the debarment may not extend beyond the date when the labor dispute precipitating the permanent replacement of lawfully striking workers has been resolved, as determined by the Secretary.

SEC. 5. The Secretary shall publish or cause to be published, in the Federal Register, the names of contractors that have, in the judgement of the Secretary, permanently replaced lawfully striking employees and have been the subject of debarment.

SEC. 6. The Secretary shall be responsible for the administration and enforcement of this order. The Secretary, after consultation with the Secretary of Defense, the Administrator of the General Services, the Administrator of the National Aeronautics and Space Administration, and the Administrator of the Office of Federal Procurement Policy, may adopt such rules and regulations and issue such orders as may be deemed necessary and appropriate to achieve the purposes of this order.

SEC. 7. Each contracting department and agency shall cooperate with the Secretary and provide such information and assistance as the Secretary may require in the performance of the Secretary's functions under this order.

SEC. 8. The Secretary may delegate any function or duty of the Secretary under this order to any officer in the Department of Labor or to any other officer in the executive branch of the Government, with the consent of the head of the department or agency in which that officer serves.

SEC. 9. The Secretary of Defense, the Administrator of the General Services, and the Administrator of the National Aeronautics and Space Administration, after consultation with the Administrator of the Office of Federal Procurement Policy, shall take whatever action is appropriate to implement the provisions of this order and of any related rules, regulations, or orders of the Secretary issued pursuant to this order.

SEC. 10. This order is not intended, and should not be construed, to create any right or benefit, substantive or procedural, enforceable at law by a party against the United States, its agencies, its officers, or its employees. This order is not intended, however, to preclude judicial review of final agency decisions in accordance with the Administrative Procedure Act, 5 U.S.C. 701 *et seq.*

SEC. 11. The meaning of the term "organizational unit of a Federal contractor" as used in this order shall be defined in regulations that shall be issued by the Secretary of Labor, in consultation with affected agencies. This order shall apply only to contracts in excess of the Simplified Acquisition Threshold.

SEC. 12. (a) The provisions of section 3 of this order shall only apply to situations in which contractors have permanently replaced lawfully striking employees after the effective date of this order.

(b) This order is effective immediately.

WILLIAM J. CLINTON.

This Act, referred to in subsec. (a), is act June 30, 1949, ch. 288, 63 Stat. 378, as amended, known as the Federal Property and Administrative Services Act of 1949. Provisions of that Act relating to management and disposal of government property are classified to this chapter. For complete classification of that Act to the Code, see Short Title note set out under section 471 of this title and Tables.

CODIFICATION

As originally enacted, subsec. (c) contained a reference to "the District Court of the United States for the District of Columbia" following "the several district courts of the United States". The words "the District Court of the United States for the District of Columbia" have been deleted entirely as superfluous in view of section 132(a) of Title 28, Judiciary and Judicial Procedure, which states that "There shall be in each judicial district a district court which shall be a court of record known as the United States District Court for the district" and section 88 of Title 28 which states that "the District of Columbia constitutes one judicial district".

Section was formerly classified to section 239 of Title 41, Public Contracts.

The Administrator shall, where practicable, give priority in the assignment of space on any major pedestrian access level not leased under the terms of subsection (a)(16) or (a)(17) of this section in such buildings to Federal activities requiring regular contact with members of the public. Such advances shall be repaid within 30 years, with interest at a rate not less than a rate determined by the Secretary of the Treasury taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining period to maturity comparable to the average maturities of such advances adjusted to the nearest one-eighth of 1 per centum.

(5) In any fiscal year there may be deposited to miscellaneous receipts in the Treasury of the United States such amount as may be specified in appropriation Acts.

In the absence of such determination, suitable furniture and furnishings for the new space shall be provided, as the Administrator shall determine to be more economical and efficient, (1) from stocks under the control of the moving agency or (2) from stocks available to the Administrator, but the same or similar items shall not be provided from both sources. The Administrator is authorized and directed to charge anyone furnished services, space, quarters, maintenance, repair, or other facilities (hereinafter referred to as space and services), at rates to be determined by the Administrator from time to time and provided for in regulations issued by him. Such rates and charges shall approximate commercial charges for comparable space and services, except that with respect to those buildings for which the Administrator of General Services is responsible for alterations only (as the term "alter" is defined in section 612(5) of this title), the rates charged the occupant for such services shall be fixed by the Administrator so as to recover only the approximate applicable cost incurred by him in providing such alterations. The Administrator may exempt anyone from the charges required by this subsection if he determines that such charges would be infeasible or impractical. To the extent

any such exemption is granted, appropriations to the General Services Administration are authorized to reimburse the fund for any loss of revenue.

(k) Charges for space and services furnished by executive agencies; approval of rates by Administrator; credit to appropriation or fund

Any executive agency, other than the General Services Administration, which provides to anyone space and services set forth in subsection (j) of this section, is authorized to charge the occupant for such space and services at rates approved by the Administrator. (B) Amounts received by the Administrator after September 30, 1993, as user fees for use of any telecommuting center may be deposited into the Fund established under subsection (f) of this section and may be used by the Administrator to pay costs incurred in the establishment and operation of the center.

(4) The Administrator may provide guidance, assistance, and oversight to any person regarding establishment and operation of alternative workplace arrangements, such as telecommuting, hoteling, virtual offices, and other distributive work arrangements.

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I transmit herewith Reorganization Plan No. 18 of 1950, prepared in accordance with the provisions of the Reorganization Act of 1949. The plan transfers to the Administrator of General Services the functions of the various Federal agencies with respect to leasing and assigning general-purpose space in buildings and the operation, maintenance, and custody of office buildings. Since such authority is already largely concentrated in the General Services Administration with respect to the District of Columbia, the plan principally relates to the administration of these functions in the field.

The transfers made by this plan will promote more economical leasing, better utilization of building space, and more efficient operation of Government-controlled office buildings. They will effectuate the recommendations of the Commission on Organization of the Executive Branch of the Government with respect to concentrating in the General Services Administration the responsibility for space allotment and the operation of Government buildings outside of the District of Columbia. Likewise, they will extend the principles laid down by the Congress in enacting the Federal Property and Administrative Services Act of 1949 to another important area of Government-wide administrative services—the administration of Government office buildings and general-purpose building space in the field.

Within the District of Columbia, one agency, the Public Buildings Service of the General Services Administration, has long had the operation and custody of most Government buildings and the leasing and assignment of space for executive agencies. Thus, nearly all requests for building space are handled by a single organization which is responsible for seeing that agencies are properly and efficiently housed. This arrangement has proved its worth and has repeatedly been approved by the Congress.

Outside of the National Capital, however, responsibility for the acquisition and control of building space and the operation of Government buildings is widely diffused. A variety of agencies operate and control general-purpose buildings. If quarters are not available in Federal buildings, each agency ordinarily does its own leasing. As a result, in some cases Federal agencies have contracted for space at high rentals at the very time that other agencies have been giving up surplus low-cost space.

The assignment of space in Government-owned buildings outside of Washington is also divided among a number of agencies. While the Public Buildings Service constructs a large part of the Government buildings, it operates and controls the assignment of space in only a small proportion of them. The Post Office Department operates and allocates the space in post-office buildings, several hundred of which contain substantial amounts of office space available for other agencies. During and immediately after the war several other Federal agencies acquired office buildings in the field. As their activities have contracted, surplus space in many of these structures has become available for other uses.

This plan concentrates in the General Services Administration the responsibility for the leasing and assignment of what is termed general-purpose building space; that is, space which is suitable for the uses of a number of Federal agencies. It specifically excludes space in buildings at military posts, arsenals, navy yards, and similar defense installations and space in hospitals, laboratories, factories, and other special-purpose buildings.

Also, the plan excludes the Post Office Department from the transfer of leasing authority since the Department has a highly developed organization for this purpose, and it limits the transfer of space assignment authority in post-office buildings to the space not occupied by the Department. Further, it gives the needs of the Post Office Department priority in the assignment of space in post-office buildings. Thus, the plan amply safeguards the interests of the Post Office Department while making it possible to include the general office space in post-office buildings in any given city with other similar space under Federal control in planning and executing an efficient program for housing Government agencies in that area.

In addition, the plan transfers to the General Services Administration the operation, maintenance, and custody of office buildings owned or leased by the Government, including those post-office buildings which are not used predominantly for post-office purposes. This will make it possible to establish a single organization for the operation and maintenance of Government office buildings in principal cities in the field as

has proved desirable in the National Capital. Since many post offices are in fact primarily large office buildings, the plan includes in this transfer the post-office buildings which are not used predominantly for post-office purposes. This will relieve the Post Office Department of a considerable expenditure for building operation and maintenance which properly should not be charged against postal revenues.

While the plan effects a broad transfer of functions with respect to leasing and assignment of space and the operation and maintenance of office buildings, it specifically authorizes the Administrator of General Services to delegate the performance of any part of these functions to other agencies subject to such regulations as he deems desirable for economical and effective administration. In this the plan follows the pattern adopted by the Federal Property and Administrative Services Act of 1949 for other branches of property management. In large urban centers where numerous Federal units are located unified administration of space activities by the General Services Administration will normally be advantageous. On the other hand, in the smaller communities it will no doubt be desirable to delegate the work back to the agencies directly affected, to be carried on under standards laid down by the Administrator of General Services. The plan provides ample flexibility for working out the most effective administrative arrangement for each type of situation.

The fundamental soundness and economy of centralized administration of building space have been amply demonstrated in the National Capital. By virtue of unified control it has been possible since the war to accomplish far-reaching changes which have consolidated agencies in much fewer locations, released many of the rented buildings, and greatly reduced the cost of housing the Government establishment. Similar procedures applied in the larger centers of field activity should produce substantial savings.

After investigation, I have found, and hereby declare, that each reorganization contained in this plan is necessary to accomplish one or more of the purposes set forth in section 2(a) of the Reorganization Act of 1949.

While it is not possible at this time to calculate the reduction in expenditures which will result from this plan, it can safely be predicted that it will produce substantial savings. I am confident that this reorganization plan will constitute a significant improvement in Federal business practice and will bring about an important increase in efficiency in housing Government agencies.

FACILITATING ACCESS TO FEDERAL PROPERTY FOR SITING OF MOBILE SERVICES ANTENNAS

Memorandum of President of the United States, Aug. 10, 1995, 60 F.R. 42023, provided:

Memorandum for the Heads of Departments and Agencies

Recent advancements in mobile telecommunications technology present an opportunity for the rapid construction of the Nation's wireless communications infrastructure. As a matter of policy, the Federal Government shall encourage the efficient and timely implementation of such new technologies and the concomitant infrastructure buildout as a means of stimulating economic growth and creating new jobs. The recent auctioning and impending licensing of radio frequencies for mobile personal communications services presents the Federal Government with the opportunity to foster new technologies and to encourage the development of communications infrastructure by making Federal property available for the siting of mobile services antennas.

Therefore, to the extent permitted by law, I hereby direct the Administrator of General Services, within 90

days, in consultation with the Secretaries of Agriculture, Interior, Defense, and the heads of such other agencies as the Administrator may determine, to develop procedures necessary to facilitate appropriate access to Federal property for the siting of mobile services antennas.

The procedures should be developed in accordance with the following:

1. (a) Upon request, and to the extent permitted by law and where practicable, executive departments and agencies shall make available Federal Government buildings and lands for the siting of mobile service antennas. This should be done in accordance with Federal, State, and local laws and regulations, and consistent with national security concerns (including minimizing mutual electromagnetic interactions), public health and safety concerns, environmental and aesthetic concerns, preservation of historic buildings and monuments, protection of natural and cultural resources, protection of national park and wilderness values, protection of National Wildlife Refuge systems, and subject to any Federal requirements promulgated by the agency managing the facility and the Federal Communications Commission, the Federal Aviation Administration, National Telecommunications and Information Administration, and other relevant departments and agencies.

(b) Antennas on Federal buildings or land may not contain any advertising.

(c) Federal property does not include lands held by the United States in trust for individual or Native American tribal governments.

(d) Agencies shall retain discretion to reject inappropriate siting requests, and assure adequate protection of public property and timely removal of equipment and structures at the end of service.

2. All procedures and mechanisms adopted regarding access to Federal property shall be clear and simple so as to facilitate the efficient and rapid buildout of the national wireless communications infrastructure.

3. Unless otherwise prohibited by or inconsistent with Federal law, agencies shall charge fees based on market value for siting antennas on Federal property, and may use competitive procedures if not all applicants can be accommodated.

This memorandum does not give the siting of mobile services antennas priority over other authorized uses of Federal buildings or land.

All independent regulatory commissions and agencies are requested to comply with the provisions of this memorandum.

This memorandum is not intended to create any right, benefit or trust responsibility, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies or instrumentalities, its officers, or any other person.

This memorandum shall be published in the Federal Register.

WILLIAM J. CLINTON.

§ 491. Motor vehicle pools and transportation systems

(a) Establishment

In order to carry out the policy, expressed in section 471 of this title, to provide for an economical and efficient system for transportation of Government personnel and property, it is further intended by the Congress in enacting this section to (1) provide for the proper identification of Government motor vehicles; (2) establish effective means of limiting their use to official governmental purposes; (3) reduce the number of Government-owned vehicles to the minimum necessary for transaction of the public business; (4) provide wherever practicable for centrally operated interagency pools or systems for local transportation of Government personnel and property; and (5) establish procedures to insure safe operation of motor vehicles on Government business.

(b) Determinations by Administrator

Subject to regulations issued by the President pursuant to subsection (c) of this section, the Administrator shall in respect of executive agencies, and to the extent that he determines that so doing is advantageous to the Government in terms of economy, efficiency, or service, after consultation with and with due regard to the program activities of the agencies concerned, (1) consolidate, take over, acquire, or arrange for the operation by any executive agency of, motor vehicles and other related equipment and supplies for the purpose of establishing motor vehicle pools and systems to serve the needs of executive agencies; and (2) provide for the establishment, maintenance, and operation (including servicing and storage) of motor vehicle pools or systems for transportation of property or passengers, and for furnishing such motor vehicle and related services to executive agencies. Such motor vehicle services may be furnished, as determined by the Administrator, through the use, under rental or other arrangements, of motor vehicles of private fleet opera-

tors, taxicab companies, local or interstate common carriers, or Government-owned motor vehicles, or combinations thereof. The Administrator shall, so far as practicable, provide any of the services specified in this subsection to any Federal agency, mixed ownership corporation (as defined in chapter 91 of title 31), or the District of Columbia, upon its request.

(c) Regulations

The President shall, within ninety days after the effective date of this section, issue regulations under this section to establish procedures for the taking effect of determinations made by the Administrator pursuant to subsection (b) of this section. Such regulations shall provide for adequate notice to executive agencies of any determinations affecting them or their functions; for independent review and decision as directed by the President of any determination not mutually agreed upon between the Administrator and the agency concerned, including exemption of any agency, in whole or in part, from any determination; and for enforcement of determinations becoming effective under such regulations. No determination made pursuant to subsection (b) of this section shall be binding upon any agency except as provided in such regulations.

(d) Payment of costs; fixing of prices

(1) The General Supply Fund provided for in section 756 of this title shall be available for use by or under the direction and control of the Administrator for paying all elements of cost (including the purchase or rental price of motor vehicles and other related equipment and supplies) incident to the establishment, maintenance, and operation (including servicing and storage) of motor vehicle pools or systems for the transportation of property or passengers, and to the furnishing of such motor vehicles and equipment and related services pursuant to subsection (b) of this section.

(2) Payments by requisitioning agencies so served shall be at prices fixed by the Administrator at levels which will recover, so far as practicable, all such elements of cost, and may, in the Administrator's discretion, include increments for the estimated replacement cost of such motor vehicles, equipment, and supplies. Such increments may, notwithstanding section 756(e) of this title, be retained as part of the capital of the General Supply Fund, but shall be available only for replacement of such motor vehicles, equipment, and supplies. The purchase price, plus such increments for the estimated replacement cost, of such motor vehicles and equipment shall be recovered only through charges for the cost of amortization. Such costs shall be determined in accordance with the accrual accounting method; and financial reports shall be prepared on the basis of such accounting.

(e) Justification for each vehicle pool and system

Any determination made by the Administrator pursuant to subsection (b) of this section shall set forth in writing an analytical justification for the establishment, maintenance, and operation of each such motor vehicle pool and system. Such justification shall include a detailed comparison of estimated costs of present

and proposed modes of operation, and a showing that savings can be realized by the establishment, maintenance, and operation of such pool or system.

(f) Maintenance records; discontinuance of vehicle pool or system

Whenever any such motor vehicle pool or system has been established pursuant to subsection (b) of this section, the Administrator shall maintain accurate records of the cost of its establishment, maintenance, and operation. If, during any reasonable period, not exceeding two successive fiscal years, no actual savings are realized on the basis of the accounting for costs provided in subsection (d) of this section the Administrator shall discontinue such motor vehicle pool or system, and shall return to the agency or agencies involved motor vehicles and related equipment and supplies similar in kind and of a value reasonably comparable to the value of the motor vehicles and related equipment and supplies theretofore received by the Administrator from such agency or agencies.

(g) Reimbursement for equipment

Whenever the Administrator takes over pursuant to subsection (b) of this section any motor vehicle or other related equipment or supplies from any Government corporation, or from any other agency if such vehicle, equipment or supplies have been acquired by such agency through expenditures made from, and not theretofore reimbursed to, any revolving or trust fund authorized by law, the Administrator shall reimburse such corporation or fund by an amount equal to the fair market value of the vehicle, equipment or supplies so taken over. If thereafter, pursuant to subsection (f) of this section, the Administrator returns to such corporation or agency any motor vehicle, equipment or supplies, the Administrator shall be reimbursed by the payment to him, by such corporation or from such fund, of an amount equal to the fair market value of the vehicle, equipment or supplies so returned.

(h) Additions to General Supply Fund capital

When reimbursement is not required under subsection (g) of this section, the value, as determined by the Administrator, of any motor vehicle or other related equipment or supplies taken over under authority of subsection (b) of this section may be added to the capital of the General Supply Fund, and in the event that property similar in kind is subsequently returned pursuant to subsection (f) of this section, the value thereof may be deducted from the General Supply Fund.

(i) Scrip, tokens, tickets

The Administrator, in the operation of motor vehicle pools or systems, may make provision for the furnishing, sale, and use of scrip, tokens, tickets, and similar devices for the making of payment by using agencies for services rendered by the Administrator in the transportation of property or passengers.

(j) Operating regulations

The Director of the Office of Personnel Management shall issue regulations to govern executive agencies in authorizing civilian personnel

to operate Government-owned motor vehicles for official purposes within the States of the Union, the District of Columbia, Puerto Rico, and the possessions of the United States. Such regulations shall prescribe standards of physical fitness for authorized operators and may require operators and prospective operators to obtain such State and local licenses or permits as would be required for the operation by them of similar vehicles for other than official purposes. The head of each executive agency shall issue such orders and directives as may be necessary to comply with such regulations and shall make appropriate provision therein for periodically testing the physical fitness of operators and prospective operators and for the suspension and revocation of authorizations to operate.

(k) Identification of vehicles

Under regulations prescribed by the Administrator, every motor vehicle acquired and used for official purposes within the United States, its Territories, or possessions, by any Federal agency or the District of Columbia shall be conspicuously identified by showing thereon either (1) the full name of the department, establishment, corporation, or agency by which it is used and the service in which it is used, or (2) a title descriptive of the service in which it is used if such title readily identifies the department, establishment, corporation, or agency concerned, and the legend "For official use only": *Provided*, That the regulations issued pursuant to this section may provide for exemptions from the requirement of this section when conspicuous identification would interfere with the purpose for which a vehicle is acquired and used.

(l) Violations

Whenever, during the regular course of his duties, there shall come to the knowledge of the Administrator any violation of the provisions of sections 1343, 1344, and 1349(b) of title 31 or of section 641 of title 18 involving the conversion by a Government official or employee of a Government-owned or leased motor vehicle to his own use or the use of others, the Administrator shall report such violation to the head of the agency in which the official or employee concerned is employed, for further investigation and either appropriate disciplinary action under sections 1343, 1344, and 1349(b) of title 31 or, where appropriate, referral to the Attorney General for prosecution under section 641 of title 18.

This section is referred to in title 31 section 1105; title 41 section 259.

§ 542. Congressional declaration of policy

The Congress hereby declares it to be the policy of the Federal Government to publicly announce all requirements for architectural and engineering services, and to negotiate contracts for architectural and engineering services on the basis of demonstrated competence and qualification for the type of professional services required and at fair and reasonable prices.

(June 30, 1949, ch. 288, title IX, §902, as added Pub. L. 92-582, Oct. 27, 1972, 86 Stat. 1279.)

In the procurement of architectural and engineering services, the agency head shall encourage firms engaged in the lawful practice of their profession to submit annually a statement of qualifications and performance data. The agency head, for each proposed project, shall evaluate current statements of qualifications and performance data on file with the agency, together with those that may be submitted by other firms regarding the proposed project, and shall conduct discussions with no less than three firms regarding anticipated concepts and the relative utility of alternative methods of approach for furnishing the required services and then shall select therefrom, in order of preference, based upon criteria established and published by him, no less than three of the firms deemed to be the most highly qualified to provide the services required.

In making such determination, the agency head shall take into account the estimated value of the services to be rendered, the scope, complexity, and professional nature thereof.

(b) Negotiation with second and third, etc., most qualified firms

Should the agency head be unable to negotiate a satisfactory contract with the firm considered to be the most qualified, at a price he determines to be fair and reasonable to the Government, negotiations with that firm should be formally terminated. The agency head should then undertake negotiations with the second most qualified firm. Failing accord with the second most qualified firm, the agency head should terminate negotiations. The agency head should then undertake negotiations with the third most qualified firm.

(c) Selection of additional firms in event of failure of negotiation with selected firms

Should the agency head be unable to negotiate a satisfactory contract with any of the selected firms, he shall select additional firms in order of their competence and qualification and continue negotiations in accordance with this section until an agreement is reached.

EX. ORD. NO. 13006. LOCATING FEDERAL FACILITIES ON HISTORIC PROPERTIES IN OUR NATION'S CENTRAL CITIES

Ex. Ord. No. 13006, May 21, 1996, 61 F.R. 26071, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the National Historic Preservation Act (16 U.S.C. 470 et seq.) and the Public Buildings Cooperative Use Act of 1976 (90 Stat. 2505) [see Short Title of 1976 Amendment note set out under section 601 of this title], and in furtherance of and consistent with Executive Order No. 12072 of August 16, 1978 [40 U.S.C. 490 note], and Executive Order No. 11593 of May 13, 1971 [16 U.S.C. 470 note], it is hereby ordered as follows:

SECTION 1. *Statement of Policy.* Through the Administration's community empowerment initiatives, the Federal Government has undertaken various efforts to revitalize our central cities, which have historically served as the centers for growth and commerce in our metropolitan areas. Accordingly, the Administration hereby reaffirms the commitment set forth in Executive Order No. 12072 to strengthen our Nation's cities by encouraging the location of Federal facilities in our central cities. The Administration also reaffirms the commitments set forth in the National Historic Preservation Act to provide leadership in the preservation of historic resources, and in the Public Buildings Cooperative Use Act of 1976 to acquire and utilize space in suitable buildings of historic, architectural, or cultural significance.

To this end, the Federal Government shall utilize and maintain, wherever operationally appropriate and economically prudent, historic properties and districts, especially those located in our central business areas. When implementing these policies, the Federal Government shall institute practices and procedures that are sensible, understandable, and compatible with current authority and that impose the least burden on, and provide the maximum benefit to, society.

SEC. 2. *Encouraging the Location of Federal Facilities on Historic Properties in Our Central Cities.* When operationally appropriate and economically prudent, and subject to the requirements of section 601 of title VI of the Rural Development Act of 1972, as amended (42 U.S.C. 3122), and Executive Order No. 12072, when locating Federal facilities, Federal agencies shall give first consideration to historic properties within historic districts. If no such property is suitable, then Federal agencies shall consider other developed or undeveloped sites within historic districts. Federal agencies shall then consider historic properties outside of historic districts, if no suitable site within a district exists. Any rehabilitation or construction that is undertaken pursuant to this order must be architecturally compatible with the character of the surrounding historic district or properties.

SEC. 3. *Identifying and Removing Regulatory Barriers.* Federal agencies with responsibilities for leasing, acquiring, locating, maintaining, or managing Federal facilities or with responsibilities for the planning for, or managing of, historic resources shall take steps to reform, streamline, and otherwise minimize regulations, policies, and procedures that impede the Federal Government's ability to establish or maintain a presence in historic districts or to acquire historic properties to satisfy Federal space needs, unless such regulations, policies, and procedures are designed to protect human health and safety or the environment. Federal agencies are encouraged to seek the assistance of the Advisory Council on Historic Preservation when taking these steps.

SEC. 4. *Improving Preservation Partnerships.* In carrying out the authorities of the National Historic Preser-

vation Act, the Secretary of the Interior, the Advisory Council on Historic Preservation, and each Federal agency shall seek appropriate partnerships with States, local governments, Indian tribes, and appropriate private organizations with the goal of enhancing participation of these parties in the National Historic Preservation Program. Such partnerships should embody the principles of administrative flexibility, reduced paperwork, and increased service to the public.

SEC. 5. *Judicial Review.* This order is not intended to create, nor does it create, any right or benefit, substantive or procedural, enforceable at law by a party against the United States, its agencies or instrumentalities, its officers or employees, or any other person.

WILLIAM J. CLINTON.

§ 602. Acquisition of buildings and their sites

The Administrator is authorized to acquire, by purchase, condemnation, donation, exchange, or otherwise, any building and its site which he determines to be necessary to carry out his duties under this chapter.

Proposals for purchase contracts shall be solicited from the maximum number of qualified sources consistent with the nature and requirements of the facility to be procured.

(b) Contract provisions; limitations on amount of payments

Each such purchase contract shall include such provisions as the Administrator of General Services, in his discretion, shall deem to be in the best interests of the United States and appropriate to secure the performance of the obligations imposed upon the party or parties that shall enter into such agreement with the United States. No such purchase contract shall provide for any payments to be made by the United

States in excess of the amount necessary, as determined by the Administrator, to—

(1) amortize the cost of construction of improvements to be constructed plus the fair market value, on the date of the agreement, of the site, if not owned by the United States; and

(2) provide a reasonable rate of interest on the outstanding principal as determined under paragraph (1) above; and

(3) reimburse the contractor for the cost of any other obligations required of him under the contract, including (but not limited to) payment of taxes, costs of carrying appropriate insurance, and costs of repair and maintenance if so required of the contractor.

(c) Utilization of funds for payments

Funds available on June 16, 1972, for the payment of rent and related charges for premises, whether appropriated directly to the General Services Administration or to any other agency of the Government and received by said Administration for such purpose, may be utilized by the Administrator of General Services to make payments becoming due from time to time from the United States as current charges in connection with agreements entered into under authority of this section.

(d) State and local taxes

With respect to any interest in real property acquired under the provisions of this section, the same shall be subject to State and local taxes until title to the same shall pass to the Government of the United States.

Projects heretofore approved pursuant to the provisions of this chapter may be constructed under authority of this section without further approval, and the prospectuses submitted to obtain such approval shall for all purposes, be considered as prospectuses for the purchase of space, except that any such project shall be subject to the requirements of section 606(b) of this title, based upon an estimated maximum cost increased by not more than an average of 10 per centum per year, exclusive of financing or other costs attributable to the use

of the method of construction authorized by this section.

(f) Submission and approval of prospectus as prerequisite; exceptions; procedure

Except for previously approved prospectuses referred to in subsection (e) of this section, no purchase contract shall be entered into pursuant to the authority of this section until a prospectus therefor has been submitted and approved in accordance with section 606 of this title.

(g) Expiration of contracting authority

No purchase contract shall be entered into under the authority granted under this section after the end of the third fiscal year which begins after June 16, 1972.

§ 606. Approval of proposed projects by Congress

(a) Limitation of funds; transmission to Congress of prospectus of proposed project

In order to insure the equitable distribution of public buildings throughout the United States with due regard for the comparative urgency of need for such buildings, except as provided in section 603 of this title, no appropriation shall be made to construct, alter, purchase, or to acquire any building to be used as a public building which involves a total expenditure in excess of \$1,500,000 if such construction, alteration, purchase, or acquisition has not been approved by resolutions adopted by the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives. No appropriations shall be made to lease any space at an average annual rental in excess of \$1,500,000 for use for public purposes if such lease has not been approved by resolutions adopted by the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives. No appropriation shall be made to alter any building, or part thereof, which is under lease by the United States for use for a public purpose if the cost of such alteration would exceed \$750,000 unless such alteration has been approved by resolutions adopted by the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives. For the purpose of securing consideration for such approval, the

Administrator shall transmit to the Congress a prospectus of the proposed facility, including (but not limited to)—

(1) a brief description of the building to be constructed, altered, purchased, acquired, or the space to be leased under this chapter;

(2) the location of the building or space to be leased and an estimate of the maximum cost to the United States of the facility to be constructed, altered, purchased, acquired, or the space to be leased;

(3) a comprehensive plan for providing space for all Government officers and employees in the locality of the proposed facility or the space to be leased, having due regard for suitable space which may continue to be available in existing Government-owned or occupied buildings, especially such of those buildings as enhance the architectural, historical, social, cultural, and economic environment of the locality;

(4) with respect to any project for the construction, alteration, purchase, or acquisition of any building, a statement by the Administrator that suitable space owned by the Government is not available and that suitable rental space is not available at a price commensurate with that to be afforded through the proposed action;

(5) a statement by the Administrator of the economic and other justifications for not acquiring or purchasing a building or buildings identified to the Administrator pursuant to section 611(c) of this title as suitable for the public building needs of the Federal Government; and

(6) a statement of rents and other housing costs currently being paid by the Government for Federal agencies to be housed in the building to be constructed, altered, purchased, acquired, or the space to be leased.

(b) Increase of estimated maximum cost

The estimated maximum cost of any project approved under this section as set forth in any prospectus may be increased by an amount equal to the percentage increase, if any, as determined by the Administrator, in construction, or alteration costs, as the case may be, from the date of transmittal of such prospectus to Congress, but in no event shall the increase authorized by this subsection exceed 10 per centum of such estimated maximum cost.

(c) Rescission of approval for failure to make appropriations for project

In the case of any project approved for construction, alteration, or acquisition by the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives, in accordance with subsection (a) of this section, for which an appropriation has not been made within one year after the date of such approval, either of those Committees may rescind, by resolution, its approval of such project at any time thereafter before such an appropriation has been made.

(d) Emergency leases by the Administrator

Nothing in this section shall be construed to prevent the Administrator from entering into

emergency leases during any period declared by the President to require such emergency leasing authority, except that no such emergency lease shall be for a period of more than 180 days without approval of a prospectus for such lease in accordance with subsection (a) of this section.

(e) Limitation on leasing certain space

(1) General rule

The Administrator may not lease any space to accommodate—

(A) computer and telecommunications operations;

(B) secure or sensitive activities related to the national defense or security, except in any case in which it would be inappropriate to locate such activities in a public building or other facility identified with the United States Government; or

(C) a permanent courtroom, judicial chamber, or administrative office for any United States court;

if the average rental cost of leasing such space would exceed \$1,500,000.

(2) Exception

The Administrator may lease any space with respect to which paragraph (1) applies if the Administrator first determines, for reasons set forth in writing, that leasing such space is necessary to meet requirements which cannot be met in public buildings and submits such reasons to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives.

(f) Dollar amount adjustment

Any dollar amount referred to in this section and section 603(b) of this title may be adjusted by the Administrator annually to reflect a percentage increase or decrease in construction costs during the preceding calendar year, as determined by the composite index of construction costs of the Department of Commerce. Any such adjustment shall be expeditiously reported to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives.

(f) Additional uses of Fund

Subject to the requirements of subsections (a) to (e) of this section, the General Supply Fund also may be used for the procurement of personal property and nonpersonal services authorized to be acquired by mixed-ownership Government corporations, or by the municipal government of the District of Columbia, or by a requisitioning non-Federal agency when the function of a Federal agency authorized to procure for it is transferred to the General Services Administration.

(g) Material tests; fees; disposition of fees

Whenever any producer or vendor shall tender any article or commodity for sale or lease to the General Services Administration or to any procurement authority acting under the direction and control of the Administrator pursuant to this Act, the Administrator is authorized in his discretion, with the consent of such producer or vendor, to cause to be conducted, in such manner as the Administrator shall specify, such tests as he shall prescribe either to determine whether such article or commodity conforms to prescribed specifications and standards, or to aid in the development of contemplated specifications and standards. When the Administrator determines that the making of such tests will serve predominantly the interest of such producer or vendor, he shall charge such producer or vendor a fee which shall be fixed by the Administrator in such amount as will recover the cost of conducting such tests, including all components of such costs, determined in accordance with accepted accounting principles. When the Administrator determines that the making of such tests will not serve predominantly the interest of such producer or vendor, he shall charge such producer or vendor such fee as he shall determine to be reasonable for the furnishing of such testing service. All such fees collected by the Administrator may be deposited in the general supply fund to be used for any purpose authorized by subsection (a) of this section.

SHORT TITLE

Section 1 of Pub. L. 96-571 provided that: “This Act [enacting this chapter] shall be referred to as the ‘Alaska Federal-Civilian Energy Efficiency Swap Act of 1980.’”

§ 795a. Sale of electric energy; contracting authority; required determinations; pricing policies

(a) For the purposes of conserving oil and natural gas and better utilizing coal, any agency is authorized to sell to any non-Federal person, and to enter into contracts for the sale to any non-Federal person of, electric energy generated by coal-fired electric generating facilities of such agency in Alaska without regard to any provision of law which precludes such sale where such energy is available from other local sources, if the agency determines that—

(1) such energy is generated by an existing coal-fired generating facility;

(2) such energy is surplus to such agency’s needs and is in excess of the electric energy specifically generated for consumption by, or necessary to serve the requirements of, any department, agency, or instrumentality of the United States;

(3) the costs to the ultimate consumers of such energy is less than the costs which, in the absence of such sale, would be incurred by such consumers for the purchase of an equivalent amount of energy; and

(4) such sale will result in a reduction in the total consumption of oil or natural gas by the non-Federal person purchasing such electric energy below that consumption which would occur in the absence of such sale.

(b) Federally generated electric energy sold by an agency as provided in subsection (a) of this section shall be priced to recover the fuel costs and variable operation and maintenance costs of the Federal generating facility concerned which costs are attributable to such sale, plus an amount equal to one-half the difference between—

(1) the costs of producing the electric energy by coal generation, and

(2) the costs of producing electric energy by the oil or gas generation being displaced.

§ 795b. Purchase of electric power; authority; applicable criteria

For purposes of economy and efficiency and conserving oil and natural gas, whenever practicable and consistent with other laws applicable to any agency and whenever consistent with the requirements applicable to any agency, such agency shall endeavor to purchase electric power from any non-Federal person for consumption in Alaska by any facility of such agency where such purchase—

(1) will result in a savings to other consumers of electric energy sold by such non-Federal person without increasing the cost incurred by any agency for electric energy, or

(2) will result in a cost savings to such agency of electric energy without increasing costs to other consumers of electric energy,

taking into account the remaining useful life of any facility available to such agency to generate electric energy for such agency and the cost of maintaining such facility on a standby basis.

(Pub. L. 96-571, § 4, Dec. 22, 1980, 94 Stat. 3342.)

“(1) Union Station in Washington, District of Columbia, commissioned by Congress in 1903, designed by Daniel H. Burnham in monumental Beaux Arts style, and completed by the Washington Terminal Company in 1907, is an important historic and architectural landmark of the Nation’s Capital;

“(2) Union Station was built and used exclusively as a rail passenger station until Congress decided to make the historic Union Station building a National Visitor Center in 1968, allocating rail passenger operations to a replacement facility behind the historic building;

“(3) the use of rail passenger service to and from Washington, District of Columbia, declining when the National Visitor Center Facilities Act of 1968 [this chapter] was enacted, has dramatically increased since that time with the advent of and substantial Federal investment in the National Railroad Passenger Corporation and the northeast corridor improvement project, justifying a reversal of the policy adopted 13 years ago;

“(4) the historic Union Station building is now unsafe and unusable, and the replacement railroad station is inconvenient and inadequate for present and projected rail ridership demand;

“(5) it is in the national interest to preserve the architectural features of Union Station and to provide in the Union Station complex a sound and fully operational transportation terminal;

“(6) the Union Station complex and its vicinity present an opportunity for successful commercial development integrated with the transportation functions of the facility; and

“(7) the purposes of this Act [see Short Title of 1981 Amendment note set out under section 801 of this title] are to achieve the goals of historic preservation and improved rail use of Union Station with maximum reliance on the private sector and minimum requirement for Federal assistance.”

§ 812. Rehabilitation and redevelopment of the Union Station complex; goals

The Secretary of Transportation shall provide for the rehabilitation and redevelopment of the Union Station complex primarily as a multiple-use transportation terminal serving the Nation’s Capital, and secondarily as a commercial complex, in accordance with the following goals:

(b) Restoration and operation of a portion of the historic Union Station building as a rail passenger station, together with holding facilities for charter, transit, and intercity buses in the Union Station complex;

(c) Commercial development of the Union Station complex that will, to the extent possible, financially support the continued operation and maintenance of such complex; and

(d) Withdrawal by the Federal Government from any active role in the operation and management of the Union Station complex as soon as practical and at the least possible Federal expense consistent with the goals set forth in subsections (a) through (c) of this section.

(Pub. L. 90-264, title I, §112, as added Pub. L. 97-125, §3(3), Dec. 29, 1981, 95 Stat. 1668.)

§ 871. Congressional findings

The Congress finds and declares—

(a) that it is in the national interest that the area adjacent to Pennsylvania Avenue between the Capitol and the White House, most of which was designated on September 30, 1965, as a national historic site under the Historic Sites Act of August 21, 1935 (16 U.S.C. 461 et seq.) be developed, maintained, and used in a manner suitable to its ceremonial, physical,

and historic relationship to the legislative and executive branches of the Federal Government and to the governmental buildings, monuments, memorials, and parks in or adjacent to the area;

(b) that the area adjacent to Pennsylvania Avenue between the Capitol and the White House, because of its blighted character, imposes severe public, economic, and social liabilities upon the District of Columbia as the seat of the government of the United States, thereby impeding its sound growth and development and constituting a serious and growing threat to the public health, safety, morals, and welfare of its inhabitants;

(c) that to insure suitable development, maintenance, and use of the area and the elimination of blight, it is essential that there be developed and carried out as an entirety plans for this area which will specify the uses, both public and private, to which property is to be put, the programing and financing of necessary acquisitions, construction, reconstruction, and other activities;

(d) that such duties and responsibilities can best be developed and carried out by vesting the requisite powers in a Federal corporation which can take maximum advantage of the private as well as the public resources which will be necessary;

(e) that the powers conferred by this chapter are for public uses and purposes for which public powers may be employed, public funds may be expended, and the power of eminent domain and the police power may be exercised, and the granting of such powers is necessary in the public interest; and

(f) that the area thus to be developed, maintained, and used in accordance with the provisions of this chapter (hereinafter referred to as the development area) shall be the area bounded as follows:

Beginning at a point on the south west corner of the intersection of Fifteenth Street and E Street Northwest;

thence proceeding easterly along the southerly side of E Street to the southwest corner of the intersection of Thirteenth Street and Pennsylvania Avenue Northwest;

thence southeasterly along the southerly side of Pennsylvania Avenue to a point being the southeast corner of the intersection of Pennsylvania Avenue and Third Street Northwest;

thence northerly along the east side of Third Street to the northeast corner of the intersection of C Street and Third Street Northwest;

thence westerly along the north side of C Street to the northeast corner of the intersection of C Street and Sixth Street Northwest;

thence westerly along the north side of F Street to the northwest corner of the intersection of F Street and Fifteenth Street Northwest;

thence northerly along the west side of Fifteenth Street to the northwest corner of the intersection of Pennsylvania Avenue and Fifteenth Street Northwest;

thence westerly along the southern side of Pennsylvania Avenue to the southeast corner of the intersection of Pennsylvania Avenue and East Executive Avenue Northwest;

thence southerly along the east side of East Executive Avenue to the intersection of South Executive Place and E Street Northwest;

§ 1101. Findings and purposes

(a) Findings

The Congress finds and declares that—

(1) it is in the national interest to build a Federal building complex and establish an international cultural and trade center on the Federal Triangle property in the District of Columbia;

(2) development of such a Federal building complex will permit consolidation of a number of Federal agencies which are currently housed in numerous, scattered locations and will enable more economical and efficient use of building space and environs;

(3) inclusion of an international cultural and trade center within the Federal building complex will create and enhance opportunities for American trade, commerce, communications, and cultural exchanges with other nations and complement the work of Federal, State, and local agencies in the areas of international trade and cultural exchange; and

(4) the appropriate development, maintenance, and use of the Federal Triangle property should be a joint development effort of the General Services Administration, the Pennsylvania Avenue Development Corporation, and the International Cultural and Trade Center Commission.

(b) Purposes

The purposes of this chapter are as follows:

(1) To transfer the Federal Triangle property from the Administrator of General Services to the Pennsylvania Avenue Development Corporation.

(2) To grant to the Corporation the power of eminent domain to acquire certain properties and rights-of-way adjacent to the Federal Triangle site and to authorize the Corporation to exercise such power as may be necessary to further the public interest.

(3) To authorize the Corporation, after consultation with the Secretary of State, the Administrator, and the Commission, to prepare plans for development of such property.

(4) To establish a process for review and selection of such plans and, after completion of such review process, to authorize the Corporation to enter into an agreement with a private developer selected for the development of such property.

(5) To ensure that the design and construction of the Federal building complex on such property will insofar as practicable be in accordance with the guiding principles for Federal architecture recommended by the Committee on Federal Office Space in 1962 which require among other things that facilities to be used by Federal agencies be efficient and economical and that public buildings provide visual testimony to the dignity, enterprise, vigor, and stability of the Federal Government.

(6) To provide for establishment, operation, and maintenance of a self-sustaining international cultural and trade center in such complex.

(Pub. L. 100-113, §2, Aug. 21, 1987, 101 Stat. 735.)

§ 1201. Findings and purposes

(a) Findings

The Congress makes the following findings and declarations:

(1) Space for consolidation of activities of the Administrative Office of the United States Courts and other offices of the judicial branch of Government and for providing office space for retired justices of the Supreme Court is necessary and should be located in the vicinity of the Supreme Court building.

(2) Orderly development of the Capitol Grounds should be consistent with the Master Plan for the United States Capitol, dated 1981.

(3) The cost of leasing space by the judicial branch of the Government is high.

(4) Development of squares 721 and 722 in the District of Columbia is necessary to achieve the objectives of the Union Station Redevelopment Act [40 U.S.C. 811 et seq.] and the revitalization of the Union Station area.

(5) The Judicial Conference of the United States endorsed by resolution the construction of an office building on the Capitol Grounds to house the Administrative Office of the United States Courts and related judicial branch offices.

(b) Purposes

The purposes of this chapter are as follows:

(1) To implement the report submitted to Congress by the Architect and the Secretary of Transportation under the Act of December 28, 1985 (99 Stat. 1749–1750), relating to the needs of the Federal judiciary for additional Federal office space.

(2) To authorize the Architect to acquire by lease space primarily for use by the judicial branch of the Government by entering into contracts for the design and construction of a building adjacent to Union Station.

(3) To ensure that the design and construction of such building will insofar as practicable result in a building which is efficient and economical and which provides visual testimony to the dignity, enterprise, vigor, and stability of the Federal Government.

**CHAPTER 24—NATIONAL CAPITAL AREA
INTEREST ARBITRATION STANDARDS**

Sec.	
1301.	Findings and purposes. (a) Findings. (b) Purpose.
1302.	Definitions.
1303.	Standards for arbitrators. (a) Factors in making arbitration award. (b) Compact agency’s funding ability. (c) Requirements for final award.
1304.	Procedures for enforcement of awards. (a) Modifications and finality of award. (b) Implementation. (c) Judicial review.

§ 1301. Findings and purposes

(a) Findings

The Congress finds that—

(1) affordable public transportation is essential to the economic vitality of the national capital area and is an essential component of regional efforts to improve air quality to meet environmental requirements and to improve the health of both residents of and visitors to the national capital area as well as to preserve the beauty and dignity of the Nation’s capital;

(2) use of mass transit by both residents of and visitors to the national capital area is substantially affected by the prices charged for such mass transit services, prices that are substantially affected by labor costs, since more than ⅔ of operating costs are attributable to labor costs;

(3) labor costs incurred in providing mass transit in the national capital area have increased at an alarming rate and wages and benefits of operators and mechanics currently are among the highest in the Nation;

(4) higher operating costs incurred for public transit in the national capital area cannot be offset by increasing costs to patrons, since this often discourages ridership and thus undermines the public interest in promoting the use of public transit;

(5) spiraling labor costs cannot be offset by the governmental entities that are responsible for subsidy payments for public transit services since local governments generally, and the District of Columbia government in particular, are operating under severe fiscal constraints;

(6) imposition of mandatory standards applicable to arbitrators resolving arbitration disputes involving interstate compact agencies operating in the national capital area will ensure that wage increases are justified and do not exceed the ability of transit patrons and taxpayers to fund the increase; and

(7) Federal legislation is necessary under Article I of section 8¹ of the United States Con-

stitution to balance the need to moderate and lower labor costs while maintaining industrial peace.

(b) Purpose

It is therefore the purpose of this chapter to adopt standards governing arbitration which must be applied by arbitrators resolving disputes involving interstate compact agencies operating in the national capital area in order to lower operating costs for public transportation in the Washington metropolitan area.

SHORT TITLE

Section 401 of title IV of Pub. L. 104-50 provided that: “This title [enacting this chapter] may be cited as the ‘National Capital Area Interest Arbitration Standards Act of 1995.’”

§ 1302. Definitions

As used in this chapter—

(1) the term “arbitration” means—

(A) the arbitration of disputes, regarding the terms and conditions of employment, that is required under an interstate compact governing an interstate compact agency operating in the national capital area; and

(B) does not include the interpretation and application of rights arising from an existing collective bargaining agreement;

(2) the term “arbitrator” refers to either a single arbitrator, or a board of arbitrators, chosen under applicable procedures;

(3) an interstate compact agency’s “funding ability” is the ability of the interstate compact agency, or of any governmental jurisdiction which provides subsidy payments or budgetary assistance to the interstate compact agency, to obtain the necessary financial resources to pay for wage and benefit increases for employees of the interstate compact agency;

(4) the term “interstate compact agency operating in the national capital area” means any interstate compact agency which provides public transit services;

(5) the term “interstate compact agency” means any agency established by an interstate compact to which the District of Columbia is a signatory; and

(6) the term “public welfare” includes, with respect to arbitration under an interstate compact—

(A) the financial ability of the individual jurisdictions participating in the compact to pay for the costs of providing public transit services; and

(B) the average per capita tax burden, during the term of the collective bargaining agreement to which the arbitration relates, of the residents of the Washington, D.C. metropolitan area, and the effect of an arbitration award rendered pursuant to such arbi-

§ 1303. Standards for arbitrators

(a) Factors in making arbitration award

An arbitrator rendering an arbitration award involving the employees of an interstate compact agency operating in the national capital area may not make a finding or a decision for inclusion in a collective bargaining agreement governing conditions of employment without considering the following factors:

(1) The existing terms and conditions of employment of the employees in the bargaining unit.

(2) All available financial resources of the interstate compact agency.

(3) The annual increase or decrease in consumer prices for goods and services as reflected in the most recent consumer price index for the Washington, D.C. metropolitan area, published by the Bureau of Labor Statistics of the United States Department of Labor.

(4) The wages, benefits, and terms and conditions of the employment of other employees who perform, in other jurisdictions in the Washington, D.C. standard metropolitan statistical area, services similar to those in the bargaining unit.

(5) The special nature of the work performed by the employees in the bargaining unit, including any hazards or the relative ease of employment, physical requirements, educational qualifications, job training and skills, shift assignments, and the demands placed upon the employees as compared to other employees of the interstate compact agency.

(6) The interests and welfare of the employees in the bargaining unit, including—

(A) the overall compensation presently received by the employees, having regard not only for wage rates but also for wages for time not worked, including vacations, holidays, and other excused absences;

(B) all benefits received by the employees, including previous bonuses, insurance, and pensions; and

(C) the continuity and stability of employment.

(7) The public welfare.

(b) Compact agency's funding ability

An arbitrator rendering an arbitration award involving the employees of an interstate compact agency operating in the national capital area may not, with respect to a collective bargaining agreement governing conditions of employment, provide for salaries and other benefits that exceed the interstate compact agency's funding ability.

(c) Requirements for final award

In resolving a dispute submitted to arbitration involving the employees of an interstate compact agency operating in the national capital area, the arbitrator shall issue a written award

that demonstrates that all the factors set forth in subsections (a) and (b) of this section have been considered and applied. An award may grant an increase in pay rates or benefits (including insurance and pension benefits), or reduce hours of work, only if the arbitrator concludes that any costs to the agency do not adversely affect the public welfare. The arbitrator's conclusion regarding the public welfare must be supported by substantial evidence.

§ 1304. Procedures for enforcement of awards

(a) Modifications and finality of award

In the case of an arbitration award to which section 1303 of this title applies, the interstate compact agency and the employees in the bargaining unit, through their representative, may agree in writing upon any modifications to the award within 10 days after the award is received by the parties. After the end of that 10-day period, the award, with any such modifications, shall become binding upon the interstate compact agency, the employees in the bargaining unit, and the employees' representative.

(b) Implementation

Each party to an award that becomes binding under subsection (a) of this section shall take all actions necessary to implement the award.

(c) Judicial review

Within 60 days after an award becomes binding under subsection (a) of this section, the interstate compact agency or the exclusive representative of the employees concerned may file a civil action in a court which has jurisdiction over the interstate compact agency for review of the award. The court shall review the award on the record, and shall vacate the award or any part of the award, after notice and a hearing, if—

(2) the arbitrator exceeded the arbitrator's powers;

(3) the decision by the arbitrator is arbitrary or capricious;

(4) the arbitrator conducted the hearing contrary to the provisions of this chapter or other statutes or rules that apply to the arbitration so as to substantially prejudice the rights of a party;

(5) there was partiality or misconduct by the arbitrator prejudicing the rights of a party;

EX. ORD. NO. 13011. FEDERAL INFORMATION TECHNOLOGY

Ex. Ord. No. 13011, July 16, 1996, 61 F.R. 37657, provided:

A Government that works better and costs less requires efficient and effective information systems. The Paperwork Reduction Act of 1995 [44 U.S.C. 3501 et seq.] and the Information Technology Management Reform Act of 1996 [now Clinger-Cohen Act of 1996, see Short Title note above] provide the opportunity to improve significantly the way the Federal Government acquires and manages information technology. Agencies now have the clear authority and responsibility to make measurable improvements in mission performance and service delivery to the public through the strategic ap-

plication of information technology. A coordinated approach that builds on existing structures and successful practices is needed to provide maximum benefit across the Federal Government from this technology.

Accordingly, by the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1. *Policy.* It shall be the policy of the United States Government that executive agencies shall: (a) significantly improve the management of their information systems, including the acquisition of information technology, by implementing the relevant provisions of the Paperwork Reduction Act of 1995 (Public Law 104-13) [44 U.S.C. 3501 et seq.], the Information Technology Management Reform Act of 1996 (Division E of Public Law 104-106) (“Information Technology Act”) [now Clinger-Cohen Act of 1996, see Short Title note above], and the Government Performance and Results Act of 1993 (Public Law 103-62) [see Short Title of 1993 Amendment note set out under section 1101 of Title 31, Money and Finance];

(b) refocus information technology management to support directly their strategic missions, implement an investment review process that drives budget formulation and execution for information systems, and rethink and restructure the way they perform their functions before investing in information technology to support that work;

(c) establish clear accountability for information resources management activities by creating agency Chief Information Officers (CIOs) with the visibility and management responsibilities necessary to advise the agency head on the design, development, and implementation of those information systems. These responsibilities include: (1) participating in the investment review process for information systems; (2) monitoring and evaluating the performance of those information systems on the basis of applicable performance measures; and, (3) as necessary, advising the agency head to modify or terminate those systems;

(d) cooperate in the use of information technology to improve the productivity of Federal programs and to promote a coordinated, interoperable, secure, and shared Governmentwide infrastructure that is provided and supported by a diversity of private sector suppliers and a well-trained corps of information technology professionals; and

(e) establish an interagency support structure that builds on existing successful interagency efforts and shall provide expertise and advice to agencies; expand the skill and career development opportunities of information technology professionals; improve the management and use of information technology within and among agencies by developing information technology procedures and standards and by identifying and sharing experiences, ideas, and promising practices; and provide innovative, multi-disciplinary, project-specific support to agencies to enhance interoperability, minimize unnecessary duplication of effort, and capitalize on agency successes.

SEC. 2. *Responsibilities of Agency Heads.* The head of each executive agency shall: (a) effectively use information technology to improve mission performance and service to the public;

(b) strengthen the quality of decisions about the employment of information resources to meet mission needs through integrated analysis, planning, budgeting, and evaluation processes, including:

(1) determining, before making investments in new information systems, whether the Government should be performing the function, if the private sector or another agency should support the function, and if the function needs to be or has been appropriately redesigned to improve its efficiency;

(2) establishing mission-based performance measures for information systems investments, aligned with agency performance plans prepared pursuant to the Government Performance and Results Act of 1993 (Public Law 103-62);

(3) establishing agency-wide and project-level management structures and processes responsible and ac-

countable for managing, selecting, controlling, and evaluating investments in information systems, with authority for terminating information systems when appropriate;

(4) supporting appropriate training of personnel; and

(5) seeking the advice of, participating in, and supporting the interagency support structure set forth in this order;

(c) select CIOs with the experience and skills necessary to accomplish the duties set out in law and policy, including this order, and involve the CIO at the highest level of the agency in the processes and decisions set out in this section;

(d) ensure that the information security policies, procedures, and practices of the executive agency are adequate;

(e) where appropriate, and in accordance with the Federal Acquisition Regulation and guidance to be issued by the Office of Management and Budget (OMB), structure major information systems investments into manageable projects as narrow in scope and brief in duration as practicable, consistent with the Information Technology Act, to reduce risk, promote flexibility and interoperability, increase accountability, and better correlate mission need with current technology and market conditions; and

(f) to the extent permitted by law, enter into a contract that provides for multiagency acquisitions of information technology as an executive agent for the Government, if and in the manner that the Director of OMB considers it advantageous to do so.

SEC. 3. *Chief Information Officers Council.* (a) *Purpose and Functions.* A Chief Information Officers Council (“CIO Council”) is established as the principal interagency forum to improve agency practices on such matters as the design, modernization, use, sharing, and performance of agency information resources. EX. ORD. NO. 13103. COMPUTER SOFTWARE PIRACY

The United States Government is the world's largest purchaser of computer-related services and equipment, purchasing more than \$20 billion annually. At a time when a critical component in discussions with our international trading partners concerns their efforts to

combat piracy of computer software and other intellectual property, it is incumbent on the United States to ensure that its own practices as a purchaser and user of computer software are beyond reproach. Accordingly, by the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

PART C—OTHER RESPONSIBILITIES

§ 1441. Responsibilities regarding efficiency, security, and privacy of Federal computer systems

(a) Standards and guidelines

(1) Authority

The Secretary of Commerce shall, on the basis of standards and guidelines developed by

the National Institute of Standards and Technology pursuant to paragraphs (2) and (3) of section 278g-3(a) of title 15, promulgate standards and guidelines pertaining to Federal computer systems. The Secretary shall make such standards compulsory and binding to the extent to which the Secretary determines necessary to improve the efficiency of operation or security and privacy of Federal computer systems. The President may disapprove or modify such standards and guidelines if the President determines such action to be in the public interest. The President's authority to disapprove or modify such standards and guidelines may not be delegated. Notice of such disapproval or modification shall be published promptly in the Federal Register. Upon receiving notice of such disapproval or modification, the Secretary of Commerce shall immediately rescind or modify such standards or guidelines as directed by the President.

(2) Exercise of authority

The authority conferred upon the Secretary of Commerce by this section shall be exercised subject to direction by the President and in coordination with the Director to ensure fiscal and policy consistency.

(b) Application of more stringent standards

The head of a Federal agency may employ standards for the cost-effective security and privacy of sensitive information in a Federal computer system within or under the supervision of that agency that are more stringent than the standards promulgated by the Secretary of Commerce under this section, if such standards contain, at a minimum, the provisions of those applicable standards made compulsory and binding by the Secretary of Commerce.

(c) Waiver of standards

The standards determined under subsection (a) of this section to be compulsory and binding may be waived by the Secretary of Commerce in writing upon a determination that compliance would adversely affect the accomplishment of the mission of an operator of a Federal computer system, or cause a major adverse financial impact on the operator which is not offset by Government-wide savings. The Secretary may delegate to the head of one or more Federal agencies authority to waive such standards to the extent to which the Secretary determines such action to be necessary and desirable to allow for timely and effective implementation of Federal computer system standards. The head of such agency may redelegate such authority only to a Chief Information Officer designated pursuant to section 3506 of title 44. Notice of each such waiver and delegation shall be transmitted promptly to Congress and shall be published promptly in the Federal Register.

Upon certification by the Administrator of General Services that the system for providing on-line computer access meets the requirements of subsection (b)(1) of this section and was used as required by subsection (b)(2) of this section in the fiscal year preceding the fiscal year in which the certification is made, the Administrator for Federal Procurement Policy may establish a pilot program to test streamlined procedures for the procurement of information technology products and services available for ordering through the multiple award schedules.

(2) Applicability to multiple award schedule contracts

Except as provided in paragraph (4), the pilot program shall be applicable to all multiple award schedule contracts for the purchase of information technology and shall test the following procedures:

(iv) The impact of the pilot program on small businesses and socially and economically disadvantaged small businesses.

(4) Withdrawal of schedule or portion of schedule from pilot program

The Administrator may withdraw a multiple award schedule or portion of a schedule from the pilot program if the Administrator determines that (A) price competition is not available under such schedule or portion thereof, or (B) the cost to the Government for that schedule or portion thereof for the previous year was higher than it would have been if the contracts for such schedule or portion thereof had been awarded using procedures that would apply if the pilot program were not in effect. The Administrator shall notify Congress at least 30 days before the date on which the Administrator withdraws a schedule or portion thereof under this paragraph. The authority under this paragraph may not be delegated.

(5) Termination of pilot program

Unless reauthorized by law, the authority of the Administrator to award contracts under the pilot program shall expire four years after the date on which the pilot program is established. Contracts entered into before the authority expires shall remain in effect in ac-
