Section 2101(1) defines the type of “associated equipment” that is involved in the use of recreational boats that are subject to Federal regulatory authority. This equipment is subject to a number of controls under federally established construction and performance standards. Radio equipment is exempt from these regulatory controls, since this equipment continues to be regulated by the Federal Communications Commission.

Section 2101(2) defines “barge” as a vessel that is non-self-propelled and that is often pushed ahead, towed alongside, or towed astern on a hawser by a towing vessel. It does not include a vessel that is propelled by sail only.

Section 2101(3) defines “boundary line” for the establishment of jurisdictional parameters for various maritime safety laws. Public Law 96–324, codified at 33 U.S.C. 151, permits the Secretary to establish appropriate identifiable lines dividing inland waters of the U.S. from the high seas for the purpose of determining the applicability of these laws. These laws will now be included within subtitle II of title 46—Shipping. These lines may not be located more than twelve nautical miles seaward of the baseline from which the territorial sea is measured and may differ in position for the purposes of different parts or sections of subtitle II.

Section 2101(4) defines “Coast Guard”.

Section 2101(5) provides that wherever the term “commercial service” is used it is to include all vessels except those that are primarily used for combatant purposes. This is to make sure that vessels that are engaged in the transportation of goods or individuals are subject to the applicable maritime and environmental safety laws, even if they are sovereign controlled vessels.

Section 2101(6) defines “consular officer” as one who has authority to issue visas. Traditionally this person is knowledgeable and familiar with the maritime safety and seamen’s welfare laws.

Section 2101(7) defines “crude oil” because certain equipment requirements like inert gas systems, segregated ballast tanks, crude oil washing systems or special ballast arrangements are applicable only to tank vessels that carry crude oil. Crude oil is still included within the definition of “hazardous material” and “oil”.

Section 2101(8) defines a “crude oil tanker” as one engaged in carrying crude oil. The definition does not include a tank barge since a tanker is defined as a self-propelled tank vessel. See also 2101(38).

Section 2101(9) makes it clear that the term “discharge” when referring to a substance that emanates from a vessel and is related to the marine environmental laws concerning pollution by oil or hazardous substances.

Section 2101(10) defines a “documented vessel” as any vessel of the United States that has been issued a certificate of documentation that might include a register, enrollment, license, or enrollment and license for various trades.

Section 2101(11) lists what is included in the term “fisheries” for the purpose of documentation of vessels and is intended to be all-inclusive of the numerous types of fishing activities.

Section 2101(12) defines “foreign vessel” as any foreign flag or foreign operated vessel that is operated under the jurisdiction or authority of a government other than the United States.

Section 2101(13) defines a “freight vessel” as a motor vessel or any vessel propelled by diesel or other internal combustion engines and that carries freight for hire.

Section 2101(14) defines “hazardous materials” as a broad range of materials that are not only flammable or combustible but are also designated under related maritime safety and environmental laws.

Section 2101(15) defines “marine environment” as an all-inclusive term that was developed to cover land and water areas that could be affected by pollution from all vessels and not only tank vessels.

Section 2101(16) defines “motor vessel” as a vessel propelled by machinery other than steam to make it clear that these vessels are not steam vessels.

Section 2101(17) defines “nautical school vessel” as a vessel that can be a privately owned and operated as well as a publicly owned and operated school vessel.

Section 2101(18) defines “oceanographic research vessel” as a vessel employed in oceanography or limnology research or instruction. It is defined because this type of vessel, while not inspected and certified as such, is subject to a number of special statutory and regulatory requirements.

Section 2101(19) defines “offshore supply vessel” as a class of vessel that is limited by tonnage and its employment in the mineral and oil industry and while so employed it is not a small passenger vessel.

Section 2101(20) defines “oil” to include oil of any type, in any form, or in any mixture. This is the definition that originated with marine environment and pollution laws and continues the definition that was adopted by port and tanker safety laws.

Section 2101(21) defines the term “passengers” in relation to various types of vessels. Due to the complexity of existing laws with respect to the definitions of “passenger” on various categories of vessels and the need to not make any changes of a substantive nature that could be construed as controversial, four definitions of “passenger” have been included.

Section 2101(22) defines “passenger vessel” as one that is at least 100 gross tons and carries at least one passenger for hire.

Section 2101(23) defines “product carrier” as a tanker that is engaged in carrying oil. This definition when read with the definition of tanker means that it is a self-propelled vessel. A tank barge carrying oil products is a tank vessel but is not subject to the special standards or requirements for a product carrier.

Section 2101(24) defines a “public vessel” as a governmental vessel that is not in commercial service. It should be noted that a sovereign-controlled foreign-flag vessel that is engaged in commercial service is not a public vessel and is subject to maritime safety and environment laws.

Section 2101(25) defines a “recreational vessel” as a class of vessel whose primary purpose is for pleasure. These vessels while not subject to inspection are subject to certain requirements of law to improve boating safety.

Section 2101(26) defines a “recreational vessel manufacturer” as one that is involved with not only the recreational vessels themselves but also with their components or associated equipment.

Section 2101(27), (28), (29), and (30) provides a number of definitions that define the type of instruction, instructor, student, and vessel that is involved in the teaching of sailing.

Section 2101(31) defines “scientific personnel” as individuals engaged in oceanography or limnology because they are specially treated under various maritime safety requirements.

Section 2101(32) defines a “seagoing barge” as a vessel that is at least 100 gross tons making voyages to sea beyond the boundary line.

Section 2101(33) defines a “seagoing motor vessel” as a vessel that must be a motor vessel, as defined in 2101(15), of at least 300 gross tons making voyages to sea beyond the boundary line.

Section 2101(34) defines “Secretary” so that maritime safety and seamen’s welfare jurisdiction remains within the Coast Guard at all times.

Section 2101(35) defines “small passenger vessel” as one that is less than 100 gross tons carrying more than six passengers as defined in section 2101(21).

Section 2101(36) defines “State” as a State, territory or possession of the United States and is used to establish jurisdictional limits for the application of the various maritime safety and environmental safety laws of this subtitle. This definition is further limited by definitions in section 2102 that relate to recreational boating safety and facility improvement programs.

Section 2101(37) defines a “steam vessel” as a vessel propelled by steam. However, steam vessels of not more than 40 feet that are used exclusively for pleasure are not included.

Section 2101(38) defines “tanker” as a self-propelled tank vessel that has been constructed or primarily adapted to carry oil or hazardous material in bulk in the cargo spaces. This vessel is a subclass of tank vessel, which is defined in section 2101(39). This subclass definition is necessary because certain statutory minimum requirements that are consistent with internationally accepted standards are solely applicable to these vessels.

Section 2101(39) defines a “tank vessel” as a vessel carrying oil or hazardous materials in bulk or residue including a tanker as defined in section 2101(38).

Section 2101(40) defines “towing vessel” as a vessel in commercial service that pushes, pulls, or tows alongside and includes what is traditionally known as a tug.

Section 2101(41) defines “undocumented” which, in part, facilitates the classification of vessels that may be numbered by the proper issuing authority in a State.

Section 2101(42) defines an “uninspected passenger vessel” as a vessel carrying six or less passengers.

Section 2101(43) defines an “uninspected vessel” as a vessel not subject to inspection and certification by the Coast Guard under section 3301. Recreational vessels and inland towing vessels are typical uninspected vessels.

Section 2101(44) defines “United States” to establish geographical boundaries for the applicability of the various maritime safety and environmental safety laws of this subtitle. This definition is further limited by definitions in section 2102 that relate to recreational boating safety and facility improvement programs.

Section 2101(45) makes it clear that “vessel” as used in this subtitle has the same meaning as is provided in section 3 of title 1, of the U.S.C.

Section 2101(46) defines “vessel of the United States” as a vessel that is documented or numbered under the laws of the United States. A documented vessel and those vessels that are numbered by a State or Federal authority are afforded the protection of the laws of the United States.

Section 2107 provides for standard procedures for the handling of civil penalties for infractions of law or regulation. Some changes were made to increase some antiquated and inadequate penalties.

The assessment of civil penalties under this section should not require an “on the record” hearing within the meaning of the Administrative Procedures Act (APA). It is intended that these civil penalties be assessed in a fair manner. However, the Committee recognizes that statutes passed in the last decade have involved the Coast Guard in tens of thousands of civil penalty enforcement cases and that it is necessary that the penalties be assessed efficiently. The Coast Guard’s procedural regulations for assessing civil penalties ensure that the essential elements of due process, notice, and opportunity to be heard, are provided to alleged violators (see 33 CFR Subpart 1.07). The more rigid and time-consuming procedures applicable to APA adjudications are unwarranted in the case of Coast Guard civil penalty assessment procedures and would seriously hamper the orderly enforcement of these administrative penalties.

**§ 2108. Refund of penalties**

The Secretary may refund or remit a civil penalty collected under this subtitle if—

- (1) application has been made for refund or remission of the penalty within one year from the date of payment; and
- (2) the Secretary finds that the penalty was unlawfully, improperly, or excessively imposed.

(3) The fee or charge established under this subsection applies only to vessels operated on the navigable waters of the United States where the Coast Guard has a presence.

(4) The fee or charge established under this subsection does not apply to a—

- (A) public vessel; or
- (B) vessel deemed to be a public vessel under section 827 of title 14.

(5) The Secretary shall provide to each person who pays a fee or charge under this subsection a separate document on which appears, in readily discernible print, only the following statement: “The fees<sup>3</sup> for which this document was provided was established under the Omnibus Budget Reconciliation Act of 1990. Persons paying this fee can expect no increase in the quantity, quality, or variety of services the person receives from the Coast Guard as a result of that payment.”

(i) The collection of a fee or charge under this section does not alter or expand the functions, powers, responsibilities, or liability of the United States under any law for the performance of services or the provision of a thing of value for which a fee or charge is collected under this section.

(j) The Secretary may not establish or collect a fee or charge for the inspection under part B of this subtitle of training vessels operated by state<sup>4</sup> maritime academies.

AMENDMENTS

2002—Subsec. (k). Pub. L. 107-295 substituted “2006” for “2001”.

1998—Subsec. (k). Pub. L. 105-383 added subsec. (k).

1996—Subsec. (a)(2). Pub. L. 104-324, § 1112, which directed amendment of section 10401(g) of Pub. L. 101-508 by inserting “The Secretary may not establish a fee or charge under paragraph (1) for inspection or examination of a small passenger vessel under this title that is more than \$300 annually for such vessels under 65 feet in length, or more than \$600 annually for such vessels 65 feet in length and greater. The Secretary may not establish a fee or charge under paragraph (1) for inspection or examination under this title for any publicly-owned ferry.” after “annually.”, was executed by making insertion in subsec. (a)(2) of this section to reflect the probable intent of Congress, because section 10401(a) of Pub. L. 101-508 amended this section generally, and section 10401 of Pub. L. 101-508 did not contain a subsec. (g).

1992—Subsec. (b)(1). Pub. L. 102-582, § 501(a)(1), substituted “1993 and 1994” for “1991, 1992, 1993, 1994, and 1995” and “to which paragraph (2) of this subsection applies” for “that is greater than 16 feet in length”.

Subsec. (b)(2). Pub. L. 102-582, § 501(a)(2), amended par. (2) generally. Prior to amendment, par. (2) read as follows: “The fee or charge established under paragraph (1) of this subsection is as follows:

“(A) for vessels greater than 16 feet in length but less than 20 feet, not more than \$25;

“(B) for vessels of at least 20 feet in length but less than 27 feet, not more than \$35;

“(C) for vessels of at least 27 feet in length but less than 40 feet, not more than \$50; and

“(D) for vessels of at least 40 feet in length, not more than \$100.”

Subsec. (j). Pub. L. 102-587 added subsec. (j).

1991—Subsec. (b)(5). Pub. L. 102-241 added par. (5).

1990—Pub. L. 101-508, as amended by Pub. L. 104-324, substituted “Fees” for “Fees prohibited” as section catchline and amended text generally. Prior to amendment, text read as follows: “Fees may not be charged or collected by the Secretary for services provided for in this subtitle related to the engagement and discharge of seamen, the inspection and examination of vessels under part B of this subtitle, and the licensing of masters, mates, pilots, and engineers, except when specifically provided for in this subtitle.” See 1996 Amendment note above.

1988—Pub. L. 100-710 substituted “and the licensing of masters, mates, pilots, and engineers” for “the licensing of masters, mates, pilots, and engineers, and the documentation of vessels”.

1986—Pub. L. 99-509 substituted “examination of vessels under part B of this subtitle” for “examination of vessels” and struck out “measurement or” before “documentation”.

EFFECTIVE DATE OF 1992 AMENDMENT

Section 501(b) of Pub. L. 102-582 provided that: “The amendments made by this section [amending this section] are effective October 1, 1992.”

EFFECTIVE DATE OF 1988 AMENDMENT

Amendment by Pub. L. 100-710 effective Jan. 1, 1989, with certain exceptions and qualifications, see section 107 of Pub. L. 100-710, set out as an Effective Date note under section 30101 of this title.

ACCEPTANCE OF EVIDENCE OF PAYMENT OF COAST GUARD FEES

Section 5214 of Pub. L. 102-587 provided that: “The Secretary of Transportation may not issue a citation for failure to pay a fee or charge established under section 2110 of title 46, United States Code, to an owner or operator of a recreational vessel who provides reasonable evidence of prior payment of the fee or charge to a Coast Guard boarding officer.”

The total extra pay may be not more than 2 and one-half days’ pay for any one period from 5 p.m. to 8 a.m.

(c) The overtime rate provided under subsection (a) of this section for Sundays and holidays is 2 additional days’ pay.

(d) The owner, charterer, managing operator, agent, master, or individual in charge of the vessel shall pay the amount of the overtime pay provided under this section to the official designated by regulation. The official shall deposit the amount paid to the Treasury as miscellaneous receipts. Payment to the officer or employee entitled to the pay shall be made from the annual appropriations for salaries and expenses of the Coast Guard.

(e) The overtime pay provided under this section shall be paid if the authorized officers and employees have been ordered to report for duty and have reported, even if services requested were not performed.

It also contains flexible exemption authority for regulation of oceanographic research vessels.

Section 2302 states that the negligent operation of a vessel is prohibited. These acts are subject to civil and criminal penalties and the involved vessel is subject to an in rem action. The negligent operation provisions have their genesis in the Act of April 25, 1940, 54 Stat. 167, when Congress prescribed that no person shall operate any motorboat or any vessel in a reckless or negligent manner. This provision was directed at all vessels and not those solely engaged in recreational boating. When the Federal Boat Safety Act of 1971, P.L. 92-75, 85 Stat. 217 (46 U.S.C. 1461) was enacted it adopted the reckless or negligent operation provisions of the 1940 Act. It adopted for the first time a provision for assessing civil penalties in addition to criminal penalties. It dropped the word “reckless” because of redundancy. It also combined the two classes of vessels; “any motorboat or any vessel” into one class by using the word “vessel” and defined vessel as including every description of watercraft.

AMENDMENTS

2002—Subsec. (a). Pub. L. 107-295 substituted “\$5,000 in the case of a recreational vessel, or \$25,000 in the case of any other vessel” for “\$1,000”

Subsec. (c)(1). Pub. L. 101-380, § 4302(a)(2)(B), substituted “is liable” for “liable”.

Subsec. (c)(2). Pub. L. 101-380, § 4302(a)(2)(C), amended par. (2) generally. Prior to amendment, par. (2) read as follows: “fined not more than \$5,000, imprisoned for not more than one year, or both.”

TRANSFER OF FUNCTIONS

For transfer of authorities, functions, personnel, and assets of the Coast Guard, including the authorities and functions of the Secretary of Transportation relating thereto, to the Department of Homeland Security, and for treatment of related references, see sections 468(b), 551(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.

PART B—INSPECTION AND REGULATION OF VESSELS

HISTORICAL AND REVISION NOTES

Part B provides authority and responsibility for the inspection and regulation of vessels by the Coast Guard. This part specifies those vessels subject to inspection, those that are specifically exempt from inspection, and related inspection requirements and procedures. Due to the need for special requirements for the inspection and regulation of passenger vessels and those vessels carrying liquid bulk dangerous cargoes separate chapters have been developed. Additional chapters provide for recreational vessels and those other vessels that are regulated but are not subject to inspection and certification by the Coast Guard. It should also be noted that the United States is signatory to a number of international treaties on maritime safety and seamen’s welfare, such as the various Safety of Life at Sea (SOLAS) treaties, and that their provisions and requirements are part of United States maritime law and in many cases are quite extensive.

Section 3101 provides the President with the authority to suspend the inspection laws for a foreign-built reflagged U.S. vessel when the needs of foreign commerce require this. For example, if a foreign-flag vessel is reflagged in the U.S. but does not meet the specific Coast Guard inspection requirements, the President could suspend these requirements.

EFFECTIVE DATE

Section 2(g)(1) of Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 599, provided that: “Part B [chapters 31 to 43] of subtitle II and sections 7306 (related to able seaman sail) and 7311 of title 46 (as enacted by section 1 of this Act) take effect April 15, 1984, or when regulations for sailing school vessels under part B are effective, whichever is earlier.” [Part B of subtitle II and sections 7306 (related to able seaman sail) and 7311 of title 46 effective Apr. 15, 1984, in absence of regulations for sailing school vessels under part B on that date.]

The Secretary may not exclude a vessel from designation under this section only because that vessel carries other life-saving equipment.

(b) The Secretary shall establish standards for an immersion suit required by this section, including standards to guarantee adequate thermal protection, buoyance, and flotation stability.

(c)(1) The owner, charterer, managing operator, agent, master, or individual in charge of a vessel violating this section or a regulation prescribed under this section is liable to the United

States Government for a civil penalty of not more than \$5,000. The vessel also is liable in rem for the penalty.

(2) The owner, charterer, managing operator, agent, master, or individual in charge of a vessel violating this section or a regulation prescribed under this section may be fined not more than \$25,000, imprisoned for not more than 5 years, or both.

HISTORICAL AND REVISION NOTES

Chapter 33 consolidates the laws governing the inspection and certification of vessels by the Coast Guard that have developed over a period in excess of 140 years. The original laws were directed to the safety of the relatively new and potentially dangerous steam vessel. The demand for Federal remedial legislation began during the early 1800's after frequent and disastrous explosions of steam boilers on passenger vessels. This directly led to the first maritime safety laws in 1838 that required periodic inspection and certification of vessels engaged in the transportation of passengers and freight on the waters of the United States. This was followed by a more extensive steamboat inspection law in 1852 which adopted for the first time the principle of licensing for river pilots and engineers. It also created a new Federal maritime safety inspection service called the Federal Inspection Service that eventually became the Bureau of Marine Inspection and Navigation, whose duties were temporarily assumed in 1941 and permanently assumed in 1946 by the United States Coast Guard.

In 1864 the principal inspection and licensing provisions of the 1852 act were made applicable to ferries, towing vessels, and canal boats. However, steamboat explosions continued with high loss of life and property. One of the greatest of all disasters, the destruction of the passenger vessel *Sultana* by explosion and fire with a loss of life estimated at more than 1500 lives in April 1865, led to renewed legislation efforts. In 1871 this culminated with legislation that combined a number of new requirements into a coherent and unified body of maritime safety laws. At the time of the adoption of the Revised Statutes in 1874, a maritime safety code was well established for vessels propelled in whole or in part by steam.

In the more than 100 years since then, as the public recognized the need for vessel safety legislation, primarily as the result of maritime disasters, other classes of vessels were subjected to Federal inspection or regulatory control. These included vessels propelled by gas, fluid, naphtha, or electric motors in 1897; sail vessels and barges carrying passengers for hire in 1898; seagoing barges in 1908; motorboats in 1910; steam vessels owned by the Department of Commerce in 1919; seagoing vessels of 300 gross tons and over on June 20, 1936; all tank vessels carrying flammable or combustible liquid cargo in bulk regardless of size or means of propulsion of June 23, 1936; motorboats again in 1940; all vessels carrying more than six passengers in 1956; tank vessels again in 1978; and offshore supply vessels in 1980. There was also considerable legislation that amended or supplemented these primary maritime safety laws.

The net result has been a patchwork quilt of categories and classifications that requires a tabulation of more than seventy different classes of inspected vessels. This revision gathers into one section of the law all classes of vessels that are subject to inspection and certification without changing the application of present law as to any one class of vessel. The revision does not alter the application of the present law so as to expand inspection requirements to any vessel presently not subject to inspection nor to remove from inspection any vessel that is presently subject to inspection.

Section 3301 lists all classes of vessels that are subject to inspection and certification by the Coast Guard. This section represents one of the sought-after advantages of the bill to simplify access to the provisions of law governing the regulation of vessels. Under the present law, a vessel's inspection status must be determined by examining a table appearing at section 2.01-7A of title 46, Code of Federal Regulations that divides all vessels into more than 70 separate classes.

It is important to note that while the classes of vessels are now limited to ten, there is no prohibition against developing regulations to meet the special needs of various size vessels within any one category. For example, it is expected that the Coast Guard will continue the practice of establishing standards for

freight vessels of not more than 100 gross tons and other standards for larger freight vessels.

It should also be noted that a particular vessel can, when engaged in various types of operations, be subject to varying inspection laws. For example, an offshore supply vessel could be classed as a small passenger vessel or a passenger vessel when it operates as a crew boat carrying individuals other than those defined in section 2101(21). If the offshore supply vessel is 500 gross tons and over it would then be subject to inspection as a seagoing motor vessel, a freight vessel, or a passenger vessel.

(2) excluded by this section from another category of section 3301 of this title.

(b) Except as provided in subsection (c)(3) of this section, a fishing vessel<sup>1</sup> including a vessel chartered part-time as a fish tender vessel, is exempt from section 3301(1), (7), (11), and (12) of this title.

(c)(1) Except as provided in paragraph (3) of this subsection, a fish processing vessel of not more than 5,000 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title is exempt from section 3301(1), (6), (7), (11), and (12) of this title.

(2) Except as provided in paragraphs (3) and (4) of this subsection, a fish tender vessel of not more than 500 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title is exempt from section 3301(1), (6), (7), (11), and (12) of this title.

(3)(A) A fishing vessel or fish processing vessel is exempt from section 3301(1), (6), and (7) of this title when transporting cargo (including fisheries-related cargo) to or from a place in Alaska if—

(i) that place does not receive weekly common carrier service by water from a place in the United States;

(ii) that place receives such common carrier service and the cargo is of a type not accepted by that common carrier service; or

(iii) the cargo is proprietary cargo owned by the owner of the vessel or any affiliated entity or subsidiary.

<sup>1</sup> So in original. Probably should be followed by a comma.

(B) A fish tender vessel of not more than 500 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title, which is qualified to engage in the Aleutian trade is exempt from section 3301(1), (6), and (7) of this title when transporting cargo (including fisheries-related cargo) to or from a place in Alaska outside the Aleutian trade geographic area if—

(i) that place does not receive weekly common carrier service by water from a place in the United States;

(ii) that place receives such common carrier service and the cargo is of a type not accepted by that common carrier service; or

(iii) the cargo is proprietary cargo owned by the owner of the vessel or any affiliated entity or subsidiary.

(C) In this paragraph, the term “proprietary cargo” means cargo that—

(i) is used by the owner of the vessel or any affiliated entity or subsidiary in activities directly related to fishing or the processing of fish;

(ii) is consumed by employees of the owner of the vessel or any affiliated entity or subsidiary who are engaged in fishing or in the processing of fish; or

(iii) consists of fish or fish products harvested or processed by the owner of the vessel or any affiliated entity or subsidiary.

(D) Notwithstanding the restrictions in subparagraph (B) of this paragraph, vessels qualifying under subparagraph (B) may transport cargo (including fishery-related products) from a place in Alaska receiving weekly common carrier service by water to a final destination in Alaska not receiving weekly service by water from common carriers.

(4) A fish tender vessel is exempt from section 3301(1), (6), and (7) of this title when engaged in the Aleutian trade if the vessel—

(A) is not more than 500 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title;

(B) has an incline test performed by a marine surveyor; and

(C) has written stability instructions posted on board the vessel.

(d)(1) A motor vessel of less than 150 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title, constructed before August 23, 1958, is not subject to inspection under section 3301(1) of this title if the vessel is owned or demise chartered to a cooperative or association that only transports cargo owned by at least one of its members on a nonprofit basis between places within the waters of—

(A) southeastern Alaska shoreward of the Boundary Line; or

(B) southeastern Alaska shoreward of the Boundary Line and—

(i) Prince Rupert, British Columbia; or

(ii) waters of Washington shoreward of the Boundary Line, via sheltered waters, as de-

finied in article I of the treaty dated December 9, 1933, between the United States and Canada defining certain waters as sheltered waters.

(2) The transportation authorized under this subsection is limited to and from places not receiving annual weekly transportation service from any part of the United States by an established water common carrier. However, the limitation does not apply to transporting cargo of a character not accepted for transportation by that carrier.

(e) A vessel laid up, dismantled, or out of commission is exempt from inspection.

(f) Section 3301(4) and (8) of this title does not apply to an oceanographic research vessel because it is carrying scientific personnel.

(g)(1) Except when compliance with major structural or major equipment requirements is necessary to remove an especially hazardous condition, an offshore supply vessel is not subject to regulations or standards for those requirements if the vessel—

(A) was operating as an offshore supply vessel before January 2, 1979; or

(B) was contracted for before January 2, 1979, and entered into service as an offshore supply vessel before October 6, 1980.

(2) After December 31, 1988, this subsection does not apply to an offshore supply vessel that is at least 20 years of age.

(h) An offshore supply vessel operating on January 1, 1979, under a certificate of inspection issued by the Secretary, is subject to an inspection standard or requirement only if the standard or requirement could have been prescribed for the vessel under authority existing under law on October 5, 1980.

(i)(1) The Secretary may issue a permit exempting a vessel from any part of the requirements of this part for vessels transporting cargo, including bulk fuel, from one place in Alaska to another place in Alaska only if the vessel—

(C) was operating in the waters off Alaska as of June 1, 1976, or the vessel is a replacement for a vessel that was operating in the waters off Alaska as of June 1, 1976, if the vessel being replaced is no longer in service.

(2) Except in a situation declared to be an emergency by the Secretary, a vessel operating under a permit may not transport cargo to or from a place if the cargo could be transported by another commercial vessel that is reasonably available and that does not require exemptions to operate legally or if the cargo could be readily transported by overland routes.

(3) A permit may be issued for a specific voyage or for not more than one year. The permit may impose specific requirements about the amount or type of cargo to be carried, manning, the areas or specific routes over which the ves-

sel may operate, or other similar matters. The duration of the permit and restrictions contained in the permit shall be at the sole discretion of the Secretary.

(4) A designated Coast Guard official who has reason to believe that a vessel issued a permit is in a condition or is operated in a manner that creates an immediate threat to the safety of life or the environment or is operated in a manner that is inconsistent with the terms of the permit, may direct the master or individual in charge to take immediate and reasonable steps to safeguard life and the environment, including directing the vessel to a port or other refuge.

(5) If a vessel issued a permit creates an immediate threat to the safety of life or the environment, or is operated in a manner inconsistent with the terms of the permit or the requirements of paragraph (2) of this subsection, the permit may be revoked. The owner, charterer, managing operator, agent, master, or individual in charge of a vessel issued a permit, that willfully permits the vessel to be operated, or operates, the vessel in a manner inconsistent with the terms of the permit, is liable to the United States Government for a civil penalty of not more than \$1,000.

(j) Notwithstanding another provision of this chapter, the Secretary is not required to inspect or prescribe regulations for a nautical school vessel of not more than 15 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title—

(1) when used in connection with a course of instruction dealing with any aspect of maritime education or study; and

(2) operated by—

(A) the United States Merchant Marine Academy; or

(B) a State maritime academy assisted under section 1304 of the Merchant Marine Act, 1936 (46 App. U.S.C. 1295c).

(k) Only the boiler, engine, and other operating machinery of a steam vessel that is a recreational vessel of not more than 65 feet overall in length are subject to inspection under section 3301(9) of this title.

(l)(1) The Secretary may issue a permit exempting the following vessels from the requirements of this part for passenger vessels so long as the vessels are owned by nonprofit organizations and operated as nonprofit memorials to merchant mariners:

(A) The steamship John W. Brown (United States official number 242209), owned by Project Liberty Ship Baltimore, Incorporated, located in Baltimore, Maryland.

(B) The steamship Lane Victory (United States official number 248094), owned by the United States Merchant Marine Veterans of World War II, located in San Pedro, California.

(3) A designated Coast Guard official who has reason to believe that a vessel operating under this subsection is in a condition or is operated in a manner that creates an immediate threat to life or the environment or is operated in a manner that is inconsistent with this section, may direct the master or individual in charge to take immediate and reasonable steps to safeguard life and the environment, including directing the vessel to a port or other refuge.

(m) A seagoing barge is not subject to inspection under section 3301(6) of this title if the vessel is unmanned and does not carry—

(1) a hazardous material as cargo; or

(2) a flammable or combustible liquid, including oil, in bulk.

Section 3302 does three things. It makes clear that a vessel included in one of the ten categories of vessels subject to inspection is not necessarily excluded from another category of vessel that is subject to inspection. For example, a vessel inspected and certified as a small passenger vessel would, when carrying oil or hazardous materials in bulk as cargo or cargo residue, also have to be inspected as a tank vessel. It makes it clear that a vessel excluded by section 3302 from the requirements of inspection in any one of the ten categories is not necessarily excluded from inspection as a vessel in another category. This section also contains a number of exemptions for certain classes of vessels and for those vessels engaged in a specific trade that have been considered to be of a special circumstance.

having inspection laws and standards similar to those of the United States and that has an unexpired certificate of inspection issued by proper authority of its respective country, is subject to an inspection to ensure that the condition of the vessel is as stated in its current certificate of inspection. A foreign certificate of inspection may be accepted as evidence of lawful inspection only when presented by a vessel of a country that has by its laws accorded to vessels of the United States visiting that country the same privileges accorded to vessels of that country visiting the United States.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
3303 .....	46:362(a) 46:390c 46:391a(3)

Section 3303 acknowledges the international concept of comity with respect to recognizing inspection laws and standards for foreign flag vessels that are similar to those of the United States. If a foreign nation is signatory to the International Convention for Safety of Life at Sea, it is presumed to have similar standards. However, reciprocity requirements for foreign flag tank vessels are included in chapter 37. Subsection (b) provides for a mutual waiver of fees for the inspection of foreign vessels carrying passengers from the United States.

AMENDMENTS

2004—Pub. L. 108-293 inserted “and section 3505” after “chapter 37”.

1996—Pub. L. 104-324 struck out subsec. (a) designation and subsec. (b) which read as follows: “The Secretary shall collect and pay to the Treasury the same fees for the inspection of foreign vessels carrying passengers from the United States that a foreign country charges vessels of the United States trading to the ports of that country. The Secretary may waive at any time the collection of the fees on notice of the proper authorities of any country concerned that the collection of fees for the inspection of vessels of the United States has been discontinued.”

1992—Subsec. (a). Pub. L. 102-587, in first sentence, struck out “only” after “is subject” and substituted “the condition of the vessel is” for “the condition of the vessel’s propulsion equipment and lifesaving equipment are”.

INTERNATIONAL CONVENTION FOR SAFETY OF LIFE AT SEA

For International Conventions for the Safety of Life at Sea to which the United States has been a party, see section 1602 of Title 33, Navigation and Navigable Waters, and notes thereunder.

**§ 3304. Transporting individuals in addition to crew**

(a) A documented vessel transporting cargo that transports not more than 12 individuals in addition to the crew on international voyages,

or not more than 16 individuals in addition to the crew on other voyages, is not subject to inspection as a passenger vessel or a small passenger vessel if the vessel is otherwise subject to inspection under this chapter.

(b) Except when subsection (e) of this section applies, before an individual in addition to the crew is transported on a vessel as permitted by this section, the owner, charterer, managing operator, agent, master, or individual in charge of the vessel first shall notify the individual of the presence on board of dangerous articles as defined by law, and of other conditions or circumstances that would constitute a risk of safety to the individual on board.

(c) A privilege authorized by this section applies to a vessel of a foreign country that affords a similar privilege to vessels of the United States in trades not restricted to vessels under its own flag.

(d) A fishing, fish processing, or fish tender vessel that transports not more than 12 individuals employed in the fishing industry in addition to the crew is not subject to inspection as a passenger or small passenger vessel.

(e) The Secretary may by regulation allow individuals in addition to the crew to be transported in an emergency or under section 2304 of this title.

Section 3304 permits the carriage of not more than 12 individuals in addition to the crew on international voyages or not more than 16 individuals in addition to the crew on other voyages without subjecting a documented vessel carrying cargo to the inspection requirements of a passenger vessel. This section permits the bulk of vessels subject to the International Convention for Safety of Life at Sea to carry up to 12 passengers and to permit other cargo vessels, primarily those engaged in the coastwise trade, to carry up to 16 passengers without being categorized as passenger vessels. It also requires that these individuals be notified of the presence of dangerous articles or other conditions or circumstances that constitute a risk of safety. This is of prime importance on tank vessels that carry flammable or hazardous cargoes.

AMENDMENTS

Subsec. (b). Pub. L. 99-307, §1(5)(A)(iii), substituted “Except when subsection (e) of this section applies, before” for “Before” and “transported” for “carried”.

Subsec. (e). Pub. L. 99-307, §1(5)(A)(v), added subsec. (e).

1984—Subsec. (d). Pub. L. 98-364 added subsec. (d).

**§ 3305. Scope and standards of inspection**

(a)(1) The inspection process shall ensure that a vessel subject to inspection—

- (A) is of a structure suitable for the service in which it is to be employed;
- (B) is equipped with proper appliances for lifesaving, fire prevention, and firefighting;
- (C) has suitable accommodations for the crew, sailing school instructors, and sailing school students, and for passengers on the vessel if authorized to carry passengers;
- (D) has an adequate supply of potable water for drinking and washing by passengers and crew;
- (E) is in a condition to be operated with safety to life and property; and
- (F) complies with applicable marine safety laws and regulations.

(2) In determining the adequacy of the supply of potable water under paragraph (1)(D), the Secretary shall consider—

- (A) the size and type of vessel;
- (B) the number of passengers or crew on board;
- (C) the duration and routing of voyages; and
- (D) guidelines for potable water recommended by the Centers for Disease Control and Prevention and the Public Health Service.

(b) If an inspection, or examination under section 3308 of this title, reveals that a life preserver, lifesaving device, or firehose is defective and incapable of being repaired, the owner or master shall destroy the life preserver, lifesaving device, or firehose in the presence of the official conducting the inspection or examination.

(c) A nautical school vessel operated by a civilian nautical school or by an educational institution under section 558 of title 40 shall be inspected like a small passenger vessel or a passenger vessel, depending on its tonnage.

Section 3305 consolidates, at one place, the basic scope of coverage of the inspection process. It is to be noted that the time difference in enactment of various statutes has resulted in some anomalies. Thus, for example, R.S. 4417 (46 U.S.C. 391) which had originally set periods of inspection and vested authority in "local inspectors" was expanded over the years to provide the base for inspection of certain classes of vessels as well as setting out the periods and scope. The distillation of inspection objectives and standards in later laws and the transfer of all functions of separately created bureaus and functionaries to the Coast Guard permit this consolidation. There are those who have a desire to see the scope and standards of inspection be more specific in law similar to those presently applicable to boilers and boiler plating that predate 1871. The Committee be-

lieves this serves no useful purpose since the specifics are either antiquated or too limiting and have, in fact, been superceded by the statutorily authorized adoption of various industrial specifications, standards, and codes by the Coast Guard. These include the American Bureau of Shipping (ABS), American Society of Mechanical Engineers (ASME), American National Standards Institute (ANSI), American Society for Testing and Materials (ASTM), American Welding Society (AWS), Underwriters Laboratories (UL), and many others. In addition, Coast Guard regulations must also implement and conform to the numerous international maritime safety treaties to which the United States is signatory. The Committee expects that the regulatory flexibility being provided will not reduce the present vessel inspection requirements that have been historically developed.

Section 3305(a) establishes the statutory scope of the Coast Guard's vessel inspection authority and duty. The inspection process shall ensure that a vessel is of suitable structure, equipment, and accommodations, is maintained in an operating condition consistent with safety of life and property, and complies with applicable marine safety laws and regulations.

Subsection (b) requires that defective life preservers and firehose be destroyed in the presence of the inspecting official, normally a qualified Coast Guard marine inspector. The Committee believes that if this equipment is defective for use on an inspected vessel, it should be destroyed so that it cannot be used on an un-inspected or recreational vessel.

Subsection (c) provides flexibility in the inspection of various sizes of nautical school vessels.

AMENDMENTS

2004—Subsec. (a). Pub. L. 108-293, §416(b), designated existing provisions as par. (1), redesignated former pars. (1) to (6) as subpars. (A) to (F), respectively, of par. (1), and added par. (2).

Subsec. (a)(4) to (6). Pub. L. 108-293, §416(a), added par. (4) and redesignated former pars. (4) and (5) as (5) and (6), respectively.

2002—Subsec. (c). Pub. L. 107-217 substituted "section 558 of title 40" for "section 13 of the Coast Guard Authorization Act of 1986".

1986—Subsec. (c). Pub. L. 99-640 inserted "or by an educational institution under section 13 of the Coast Guard Authorization Act of 1986".

1985—Subsec. (b). Pub. L. 99-36 substituted "lifesaving" and "life preserver, lifesaving device, or firehose" for "life-saving" and "life preserver or firehose", respectively.

§ 3306. Regulations

(a) To carry out this part and to secure the safety of individuals and property on board vessels subject to inspection, the Secretary shall prescribe necessary regulations to ensure the proper execution of, and to carry out, this part in the most effective manner for—

- (1) the design, construction, alteration, repair, and operation of those vessels, including superstructures, hulls, fittings, equipment, appliances, propulsion machinery, auxiliary machinery, boilers, unfired pressure vessels, piping, electric installations, and accommodations for passengers and crew, sailing school instructors, and sailing school students;
- (2) lifesaving equipment and its use;
- (3) firefighting equipment, its use, and precautionary measures to guard against fire;
- (4) inspections and tests related to paragraphs (1), (2), and (3) of this subsection; and
- (5) the use of vessel stores and other supplies of a dangerous nature.

(b)(1) Equipment and material subject to regulation under this section may not be used on any vessel without prior approval of the Secretary.

(2) Except with respect to use on a public vessel, the Secretary may treat an approval of equipment or materials by a foreign government as approval by the Secretary for purposes of paragraph (1) if the Secretary determines that—

(A) the design standards and testing procedures used by that government meet the requirements of the International Convention for the Safety of Life at Sea, 1974;

(B) the approval of the equipment or material by the foreign government will secure the safety of individuals and property on board vessels subject to inspection; and

(C) for lifesaving equipment, the foreign government—

(i) has given equivalent treatment to approvals of lifesaving equipment by the Secretary; and

(ii) otherwise ensures that lifesaving equipment approved by the Secretary may be used on vessels that are documented and subject to inspection under the laws of that country.

(c) In prescribing regulations for sailing school vessels, the Secretary shall consult with representatives of the private sector having experience in the operation of vessels likely to be certificated as sailing school vessels. The regulations shall—

(1) reflect the specialized nature of sailing school vessel operations, and the character, design, and construction of vessels operating as sailing school vessels; and

(2) include requirements for notice to sailing school instructors and sailing school students about the specialized nature of sailing school vessels and applicable safety regulations.

(d) In prescribing regulations for nautical school vessels operated by the United States Merchant Marine Academy or by a State maritime academy (as defined in section 1302(3) of the Merchant Marine Act, 1936 (46 App. U.S.C. 1295a(3))), the Secretary shall consider the function, purpose, and operation of the vessels, their routes, and the number of individuals who may be carried on the vessels.

(e) When the Secretary finds it in the public interest, the Secretary may suspend or grant exemptions from the requirements of a regulation prescribed under this section related to lifesaving and firefighting equipment, muster lists, ground tackle and hawsers, and bilge systems.

(f) In prescribing regulations for offshore supply vessels, the Secretary shall consider the characteristics, methods of operation, and the nature of the service of offshore supply vessels.

(g) In prescribing regulations for fish processing or fish tender vessels, the Secretary shall consult with representatives of the private sector having experience in the operation of these vessels. The regulations shall reflect the specialized nature and economics of fish processing or fish tender vessel operations and the character, design, and construction of fish processing or fish tender vessels.

(h) The Secretary shall establish appropriate structural fire protection, manning, operating, and equipment requirements for vessels of at least 100 gross tons but less than 300 gross tons as measured under section 14502 of this title, or

an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title carrying not more than 150 passengers on domestic voyages, which meet the eligibility criteria of section 2113(4) of this title.

(i) The Secretary shall establish appropriate structural fire protection, manning, operating, and equipment requirements for former public vessels of the United States of at least 100 gross tons but less than 500 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title carrying not more than 150 passengers on domestic voyages, which meet the eligibility criteria of section 2113(5) of this title.

(j) The Secretary may establish by regulation a safety management system appropriate for the characteristics, methods of operation, and nature of service of towing vessels.

Section 3306 contains broad authority to prescribe regulations for the proper inspection and certification of vessels. It provides regulatory flexibility for meeting technological changes. The section also permits flexibility in prescribing regulations for nautical school vessels operated by the United States Merchant Marine Academy or by a State maritime academy. The Secretary may suspend or grant exemptions to certain limited inspection requirements when the Secretary finds that this is necessary in the public interest. It also contains the requirement that in regulating offshore supply vessels consideration must be given to the special nature of their operations.

§ 3307. Frequency of inspection

Each vessel subject to inspection under this part shall undergo an initial inspection for certification before being put into service. After being put into service—

- (1) each passenger vessel, nautical school vessel, and small passenger vessel allowed to carry more than 12 passengers on a foreign voyage shall be inspected at least once a year; and
- (2) any other vessel shall be inspected at least once every 5 years.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 514; Pub. L. 104-324, title VI, §605(a), Oct. 19, 1996, 110 Stat. 3931.)

3307(3) .....	46:391(b) 46:392(b) 46:404-1(6)(ii)

Section 3307 requires each vessel subject to inspection to undergo an initial inspection prior to being placed in service. This is normally started during the construc-

tion or reconstruction phase and is a continuing process until final certification for operation in a particular trade. Subsequent periodic inspections are also required for various types of vessels. It is to be noted that a freight vessel of less than 100 gross tons shall be inspected at 3 year intervals while the larger freight vessel has a 2 year inspection period. This is being done to retain the existing procedure of issuing 3 year certificates of inspection to smaller vessels, however, this does not prevent periodic inspections or examinations at intervening periods.

AMENDMENTS

1996—Par. (1). Pub. L. 104-324, §605(a)(1), substituted “, nautical school vessel, and small passenger vessel allowed to carry more than 12 passengers on a foreign voyage” for “and nautical school vessel” and inserted “and” at end.

Pars. (2), (3). Pub. L. 104-324, §605(a)(2), (3), redesignated par. (3) as (2), substituted “5 years” for “2 years”, and struck out former par. (2) which read as follows: “each small passenger vessel, freight vessel or offshore supply vessel of less than 100 gross tons, and sailing school vessel shall be inspected at least once every 3 years; and”.

§ 3308. Examinations

In addition to inspections required by section 3307 of this title, the Secretary shall examine or have examined—

- (1) each vessel subject to inspection at proper times to ensure compliance with law and regulations; and
- (2) crewmember accommodations on each vessel subject to inspection at least once a month or when the vessel enters United States ports to ensure that the accommodations are—
  - (A) of the size required by law and regulations;
  - (B) properly ventilated and in a clean and sanitary condition; and
  - (C) equipped with proper plumbing and mechanical appliances required by law and regulations, and the appliances are in good working condition.

AMENDMENTS

1996—Pub. L. 104-324 inserted “or have examined” after “examine” in introductory provisions.

§ 3309. Certificate of inspection

(a) When an inspection under section 3307 of this title has been made and a vessel has been found to be in compliance with the requirements of law and regulations, a certificate of inspection, in a form prescribed by the Secretary, shall be issued to the vessel.

(b) The Secretary may issue a temporary certificate of inspection in place of a regular cer-

tificate of inspection issued under subsection (a) of this section.

(c) At least 30 days before the current certificate of inspection issued to a vessel under subsection (a) of this section expires, the owner, charterer, managing operator, agent, master, or individual in charge of the vessel shall submit to the Secretary in writing a notice that the vessel—

- (1) will be required to be inspected; or
- (2) will not be operated so as to require an inspection.

Section 3309 provides for the issuance of a certificate of inspection that attests to the fact that the vessel has been found to be in compliance with the applicable maritime safety laws and regulations. Under this provision the Coast Guard can issue a temporary certificate of inspection upon compliance with the applicable laws or regulations to facilitate the preparation, processing, and forwarding of the regular certificate of inspection to the vessel. A temporary certificate does not imply less than satisfactory compliance.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
3312 .....	46:400

Section 3312 requires the conspicuous display of the certificate of inspection to provide notice that the vessel is in compliance with applicable maritime safety laws and regulations. The section also applies to the posting of the temporary certificate of inspection.

§ 3313. Compliance with certificate of inspection

(a) During the term of a vessel’s certificate of inspection, the vessel must be in compliance with its conditions, unless relieved by a suspension or an exemption granted under section 3306(e) of this title.

(b) When a vessel is not in compliance with its certificate or fails to meet a standard prescribed by this part or a regulation prescribed under this part—

- (1) the owner, charterer, managing operator, agent, master, or individual in charge shall be ordered in writing to correct the noted deficiencies promptly;
- (2) the Secretary may permit any repairs to be made at a place most convenient to the owner, charterer, or managing operator when the Secretary decides the repairs can be made with safety to those on board and the vessel;
- (3) the vessel may be required to cease operating at once; and
- (4) if necessary, the certificate shall be suspended or revoked.

(c) The vessel’s certificate of inspection shall be revoked if a condition unsafe to life that is

ordered to be corrected under this section is not corrected at once.

(d) The owner, charterer, managing operator, agent, master, or individual in charge of a vessel whose certificate has been suspended or revoked shall be given written notice immediately of the suspension or revocation. The owner or master may appeal to the Secretary the suspension or revocation within 30 days of receiving the notice, as provided by regulations prescribed by the Secretary.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
3313 .....	46:390c 46:391a(8) 46:435

Section 3313 requires a vessel to be maintained in a condition so as to always be in compliance with the applicable laws and regulations. Here the master, owner, or other responsible party is required to maintain the vessel to inspection standards and to correct all deficiencies observed. When a vessel is not in compliance with its certificate the responsible parties shall be ordered in writing to correct the deficiencies promptly. The section provides flexibility as to when and where these deficiencies may be corrected consistent with the safety of the vessel and crew. The section provides authority to require the vessel to cease operating or, if necessary, to suspend or revoke its certificate of inspection when found not to be in compliance with its certificate or regulations. The owner or master, or other responsible party must be given written notice and may appeal this action within 30 days of receiving the notice.

§ 3314. Expiration of certificate of inspection

(a) If the certificate of inspection of a vessel expires when the vessel is on a foreign voyage, the vessel may complete the voyage to a port of the United States within 30 days of the expiration of the certificate without incurring the penalties for operating without a certificate of inspection.

(b) If the certificate of inspection would expire within 15 days of sailing on a foreign voyage from a United States port, the vessel shall secure a new certificate of inspection before sailing, unless the voyage is scheduled to be completed prior to the expiration date of the certificate. If a voyage scheduled to be completed in that time is not so completed, the applicable penalties may be enforced unless the failure to meet the schedule was beyond the control of the owner, charterer, managing operator, agent, master, or individual in charge of the vessel.

(c) When the certificate of inspection of a foreign vessel carrying passengers, operated on a regularly established line, expires at sea after leaving the country to which it belongs or when the vessel is in the United States, the Secretary may permit the vessel to sail on its regular route without further inspection than would have been required had the certificate not expired. This permission applies only when the vessel will be regularly inspected and issued a certificate before the vessel's next return to the United States.

Anyone licensed also has a duty to report any marine casualty producing serious injury to the vessel, its equipment, or individuals on board the vessel. § 3316. Classification societies

(a) Each department, agency, and instrumentality of the United States Government shall recognize the American Bureau of Shipping as its agent in classifying vessels owned by the Government and in matters related to classification, as long as the Bureau is maintained as an organization having no capital stock and paying no dividends. The Secretary and the Secretary of Transportation each shall appoint one representative (except when the Secretary is the Secretary of Transportation, in which case the Secretary shall appoint both representatives) who shall represent the Government on the executive committee of the Bureau. The Bureau shall agree that the representatives shall be accepted by it as active members of the committee. The representatives shall serve without compensation, except for necessary traveling expenses.

- (C) issue a certificate of inspection required by this part and other related documents.

(2) The Secretary may make a delegation under paragraph (1) to a foreign classification society only—

(3) When an inspection or examination has been delegated under this subsection, the Secretary's delegate—

  - (ii) in writing by the Secretary to have access to those files.

(c)(1) A classification society (including an employee or agent of that society) may not review, examine, survey, or certify the construction, repair, or alteration of a vessel in the United States unless—

- (B) the society is a full member of the International Association of Classification Societies.

(2) The Secretary may approve a person for purposes of paragraph (1) only if the Secretary determines that—

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
3316 .....	46:9 (less (c)) 46:369 46:881

Section 3316 prescribes the relationship between certain classification societies and the Federal Government with respect to the promotion of maritime safety and the security of life and property at sea. Briefly stated, a classification society, like the American Bureau of Shipping (ABS), establishes and administers standards for the design, construction, and periodic survey of commercial vessels, yachts, and other marine structures. Classification certifies adherence to these standards, thus representing that a vessel or structure possesses the structural and mechanical fitness required for its intended service.

The section requires that a Federal department, agency, or instrumentality recognize the American Bureau of Shipping as its agent for classing vessels owned by the Federal Government and in any matters related to classification. In effect, the ABS has a statutory monopoly on classing vessels of the United States Government. Additionally, the section contains the authority to permit the Secretary to rely on reports, documents, and certificates issued by a classification society that is similar to the American Bureau of Shipping. However, a "similar classification society" continues to mean one that is organized like the American Bureau of Shipping with attendant governmental representation.

AMENDMENTS

TRANSFER OF FUNCTIONS

For transfer of authorities, functions, personnel, and assets of the Coast Guard, including the authorities and functions of the Secretary of Transportation relat-

ing thereto, to the Department of Homeland Security, and for treatment of related references, see sections 468(b), 551(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.

NOTIFICATION TO PROSPECTIVE PASSENGERS OF NONCOMPLIANCE WITH FIRE-RETARDANT STANDARDS

Section 1(7)(B) of Pub. L. 99–307 provided that: “Until the regulations required by subclause (A) of this clause [see subsec. (b)(2) of this section] become effective, the owner or managing operator shall notify prospective passengers in all promotional literature and on each ticket that the vessel does not comply with those standards due primarily to the wooden construction of passenger berthing areas.”

§ 3504. Notification to passengers

(a) A person selling passage on a foreign or domestic passenger vessel having berth or stateroom accommodations for at least 50 passengers and embarking passengers at United States ports for a coastwise or an international voyage shall notify each prospective passenger of the safety standards applicable to the vessel in a manner prescribed by regulation.

(b) All promotional literature or advertising through any medium of communication in the United States offering passage or soliciting passengers for ocean voyages anywhere in the world shall include information similar to the information described in subsection (a) of this section, and shall specify the registry of each vessel named, as a part of the advertisement or description of the voyage. Except for the inclusion of the country of registry of the vessel, this subsection does not apply to voyages by vessels meeting the safety standards described in section 3505 of this title.

(c) A person violating this section or a regulation prescribed under this section is liable to the United States Government for a civil penalty of not more than \$10,000. If the violation involves the sale of tickets for passage, the owner, charterer, managing operator, agent, master, individual in charge, or any other person involved in each violation also is liable to the Government for a civil penalty of \$500 for each ticket sold. The vessel on which passage is sold also is liable in rem for a violation of this section or a regulation prescribed under this section.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
3504 .....	46:362(b)

Section 3504 requires notification to the public of the safety standards that are applicable to certain foreign flag or United States passenger vessels. In addition, all promotional literature or advertising that offers passage or solicits passengers for ocean voyages anywhere in the world shall include a safety standard statement and shall specify the registry of the vessel. If the vessel meets the international standards to which the United States adheres, then the safety standard statement need not be included. In all other cases the type of safety standard statement that must be included is as prescribed by regulation. This section is intended to place the United States public on notice as to the degree of fire safety compliance of a foreign-flag passenger vessel that does not operate or depart from a port or place in

the United States but does embark passengers from the United States at nearby foreign ports. Departures from foreign ports are undertaken because the foreign-flag passenger vessel cannot comply with the safety standards applicable to a United States flag passenger vessel.

§ 3505. Prevention of departure

Notwithstanding section 3303 of this title, a foreign vessel carrying a citizen of the United States as a passenger or embarking passengers from a United States port may not depart from a United States port if the Secretary finds that the vessel does not comply with the standards stated in the International Convention for the Safety of Life at Sea to which the United States Government is currently a party.

Section 3505 prohibits the departure from a United States port or place of any passenger vessel of more than 100 gross tons having berthing for at least 50 passengers, if the vessel does not comply with the international maritime safety standards applicable to United States vessels.

AMENDMENTS

2004—Pub. L. 108-293 reenacted section catchline without change and amended text generally. Prior to amendment, text read as follows: "Notwithstanding section 3303(a) of this title, a foreign vessel may not depart from a United States port with passengers who are embarked at that port, if the Secretary finds that the vessel does not comply with the standards stated in the International Convention for the Safety of Life at Sea to which the United States Government is currently a party."

1992—Pub. L. 102-587 substituted "foreign vessel may not depart" for "foreign or domestic vessel of more than 100 gross tons having berth or stateroom accommodations for at least 50 passengers may not depart".

For International Conventions for the Safety of Life at Sea to which the United States has been a party, see section 1602 of Title 33, Navigation and Navigable Waters, and notes thereunder.

§ 3506. Copies of laws

A master of a passenger vessel shall keep on board a copy of this subtitle, to be provided by the Secretary at reasonable cost. If the master fails to do so, the master is liable to the United States Government for a civil penalty of \$200.

HISTORICAL AND REVISION NOTES

Chapter 37 consolidates the laws that are applicable to vessels that transport oil or hazardous material in bulk as cargo or cargo residue.

The history of Federal authority to carry out a tank vessel safety program begins with the enactment of the so-called Tank Vessel Act of 1936 which, as amended, is presently codified in section 391a of title 46, United States Code. The 1936 Act remained essentially the same until it was amended by the Ports and Waterways Safety Act of 1972. The 1972 amendment contained more specific standards for the protection of a tank vessel and its crew and added vessel standards to improve the quality of the marine environment. After a rash of tank vessel accidents during the latter part of 1976 and early 1977 within our territorial seas and in nearby coastal waters, there was an outpouring of public attention to the need to protect United States ports and waterways, for the safety of tank vessels, and for the protection of the marine environment. This led to the enactment of the Port and Tanker Safety Act of 1978, which provided broader and more extensive regulatory authority over areas already regulated and over many areas not previously regulated. It provided for improvements in the supervision and control of vessels of all types operating in the navigable waters of the United States, and in the safety of all tank vessels, foreign or domestic, that transport or transfer oil or hazardous cargoes in ports or places subject to the jurisdiction of the United States. The 1978 amendments also reflect, in part, certain tank vessel standards and requirements that have been accepted internationally, in particular those developed by the International Conference on Tanker Safety and Pollution Prevention held in London in February, 1978.

§ 3701. Definitions

In this chapter—

(1) "existing", when referring to a type of vessel to which this chapter applies, means a vessel that is not a new vessel.

(2) not a tanker; and

(3) in the service of oil exploitation.

(c) This chapter does not apply to a fishing or fish tender vessel of not more than 500 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title when engaged only in the fishing industry.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
3702 .....	46:391a

Section 3702, with certain exceptions, makes this chapter applicable to any tank vessel operating in the navigable waters of the United States or transferring oil or hazardous materials in any port or place subject to the jurisdiction of the United States, and which carries oil or any hazardous materials in bulk as cargo or in residue, regardless of tonnage, size or manner of propulsion; whether it is self-propelled or not; whether it is carrying freight or passengers for hire or not; and whether it is a vessel of the United States or a foreign vessel.

It exempts certain small vessels documented in the service of oil exploitation, certain small tender and fishing vessels used in the Northwest salmon or crab fisheries, certain vessels used in the processing and assembling of fishery products used in the Northwest fisheries, public vessels, and foreign vessels engaged on innocent passage on the navigable waters of the United States. However, processing vessels, while not treated as tank vessels, are still subject to regulation when carrying flammable or combustible liquid cargo in bulk.

L. 98-364, §402(6)(B), substituted “This chapter does not apply to a fish processing vessel of not more than 5,000 gross tons” for “This chapter does not apply to a vessel of not more than 5,000 gross tons used in processing and assembling fishery products of the fisheries of Alaska, Oregon, and Washington”.

**§ 3703. Regulations**

(a) The Secretary shall prescribe regulations for the design, construction, alteration, repair, maintenance, operation, equipping, personnel qualification, and manning of vessels to which this chapter applies, that may be necessary for increased protection against hazards to life and property, for navigation and vessel safety, and for enhanced protection of the marine environment. The Secretary may prescribe different regulations applicable to vessels engaged in the domestic trade, and also may prescribe regulations that exceed standards set internationally. Regulations prescribed by the Secretary under this subsection are in addition to regulations prescribed under other laws that may apply to any of those vessels. Regulations prescribed under this subsection shall include requirements about—

- (1) superstructures, hulls, cargo holds or tanks, fittings, equipment, appliances, propulsion machinery, auxiliary machinery, and boilers;

- (6) the reduction of cargo loss if a marine casualty occurs; and
- (7) the reduction or elimination of discharges during ballasting, deballasting, tank cleaning, cargo handling, or other such activity.

(b) In prescribing regulations under subsection (a) of this section, the Secretary shall consider the types and grades of cargo permitted to be on board a tank vessel.

(c) In prescribing regulations under subsection (a) of this section, the Secretary shall establish

“(5) RULEMAKING.—If the Secretary of Transportation determines, based on the results of the study

under this subsection, that there are significant risks to public health or the environment resulting from the actual or threatened discharge of group-5 fuel oil from a vessel or facility that cannot be technologically or economically addressed by existing or anticipated cleanup efforts, the Secretary may initiate a rulemaking to take such action as is necessary to abate the threat.

“(b) STUDY OF AUTOMATIC FUELING SHUTOFF EQUIPMENT.—

“(c) LIGHTERING STUDY.—The Secretary of Transportation shall coordinate with the Marine Board of the National Research Council on a study into the actual incidence and risk of oil spills from lightering operations off the coast of the United States. Among other things, the study shall address the manner in which existing regulations are serving to reduce oil spill risks. The study shall take into account current or proposed international rules and standards and also include recommendations on measures that would be likely to further reduce the risks of oil spills from lightering operations. Not later than 18 months after the date of enactment of this Act [Oct. 19, 1996], the Secretary shall submit a report on the study to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives.”

Section 3704 requires any tank vessel that is entitled to engage in the coastwise trade to install certain equipment in the United States under the penalty of losing coastwise trading privileges if the installation work is done in a foreign country.

§ 3705. Crude oil tanker minimum standards

(a) A new crude oil tanker of at least 20,000 deadweight tons shall be equipped with—

- (1) protectively located segregated ballast tanks;
(2) a crude oil washing system; and
(3) a cargo tank protection system consisting of a fixed deck froth system and a fixed inert gas system.

(b)(1) An existing crude oil tanker of at least 40,000 deadweight tons shall be equipped with—

- (A) segregated ballast tanks; or
(B) a crude oil washing system.

(2) Compliance with paragraph (1) of this subsection may be delayed until June 1, 1985, for any tanker of less than 70,000 deadweight tons that has dedicated clean ballast tanks.

(c) An existing crude oil tanker of at least 20,000 deadweight tons but less than 40,000 deadweight tons, and at least 15 years of age, shall be equipped with segregated ballast tanks or a crude oil washing system before January 2, 1986, or the date on which the tanker reaches 15 years of age, whichever is later.

(d) An existing crude oil tanker of at least 20,000 deadweight tons shall be equipped with an inert gas system. However, for a crude oil tanker of less than 40,000 deadweight tons not fitted with high capacity tank washing machines, the Secretary may grant an exemption if the vessel's owner can show clearly that compliance would be unreasonable and impracticable due to the vessel's design characteristics.

(e) A crude oil tanker engaged in transferring oil from an offshore oil exploitation or produc-

tion facility on the Outer Continental Shelf of the United States shall be equipped with segregated ballast tanks, or may operate with dedicated clean ballast tanks or special ballast arrangements. However, the tanker shall comply with other applicable minimum standards of this section.

Table with 2 columns: Revised section, Source section (U.S. Code). Rows 1-5: 3705(a) through 3705(e) with corresponding source codes like 46:391a(7)(A) through (M).

Section 3705 requires compliance with certain minimum standards by a crude oil tanker, which is self-propelled. In general, the minimum required standards are consistent with those international standards that have been adopted as Protocols to the 1974 Safety of Life at Sea Convention and the 1973 Marine Pollution Convention.

Section 3705(a) requires new crude oil tankers of 20,000 deadweight tons or above to have protectively located segregated ballast tanks, a crude oil washing system, and a specified cargo tank protection system.

Section 3705(b) requires existing crude oil tankers of 40,000 deadweight tons or above to have segregated ballast tanks or a crude oil washing system. Compliance may be delayed until June 1, 1985 for smaller tankers that have dedicated clean ballast tanks.

Section 3705(c) requires existing crude oil tankers of 20,000 deadweight tons or above, but less than 40,000 deadweight tons, that are 15 years or older, to have segregated ballast tanks or a crude oil washing system by January 1, 1985 or if less than 15 years old, by the date on which it reaches 15 years of age.

Section 3705(d) requires existing crude oil tankers of 20,000 deadweight tons or above, to install an inert gas system. An exemption for crude oil tankers of less than 40,000 deadweight tons not fitted with high-capacity tank washing machines may be granted by the Secretary, only if it is demonstrated that compliance would be unreasonable and impracticable due to the vessel's design characteristics.

Section 3705(e) requires existing crude oil tankers of 20,000 deadweight tons or above, engaged in the transfer of oil from Outer Continental Shelf oil exploitation or production facilities, to have segregated ballast tanks or be operated with dedicated clean ballast tanks or special ballast arrangements.

§ 3706. Product carrier minimum standards

(a) A new product carrier of at least 30,000 deadweight tons shall be equipped with protectively located segregated ballast tanks.

(b) A new product carrier of at least 20,000 deadweight tons shall be equipped with a cargo tank protection system consisting of a fixed deck froth system and a fixed inert gas system or, if the product carrier carries dedicated products incompatible with the cargo tank protection system, an alternate protection system authorized by the Secretary.

(c) An existing product carrier of at least 40,000 deadweight tons shall be equipped with segregated ballast tanks or may operate with dedicated clean ballast tanks.

(d) An existing product carrier of at least 20,000 deadweight tons but less than 40,000 deadweight tons, and at least 15 years of age, shall be equipped with segregated ballast tanks or may operate with dedicated clean ballast tanks be-

fore January 2, 1986, or the date on which it reaches 15 years of age, whichever is later.

(e) An existing product carrier of at least 40,000 deadweight tons, or an existing product carrier of at least 20,000 deadweight tons but less than 40,000 deadweight tons that is fitted with high-capacity tank washing machines, shall be equipped with an inert gas system.

3708 .....	46:391a(7)(J)

Section 3708 requires compliance with certain minimum standards by a self-propelled tank vessel. These requirements apply to any tank vessel of 10,000 gross tons or above with no distinction being made as to whether or not the vessel is “primarily” constructed or adapted to carry oil or hazardous material in bulk in the cargo spaces. These vessels are required to be equipped with a dual radar system, a computerized relative motion analyzer, an electronic position fixing device, adequate communications equipment, a sonic depth finder, a gyrocompass, and up-to-date charts.

AMENDMENTS

1996—Pub. L. 104–324 inserted “as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title” after “10,000 gross tons”.

§ 3709. Exemptions

The Secretary may exempt a vessel from the minimum requirements established by sections 3704–3706 of this title for segregated ballast, crude oil washing, and dedicated clean ballast if the Secretary decides that shore-based reception facilities are a preferred method of handling ballast and that adequate facilities are readily available.

3709 .....	46:391a(7)(N)

Section 3709 provides the Secretary with the authority to exempt certain minimum tanker requirements of sections 3704, 3705, and 3706 when shorebased reception facilities are a better way of handling ballast and when the facilities are adequate and readily available.

§ 3710. Evidence of compliance by vessels of the United States

(a) A vessel of the United States to which this chapter applies that has on board oil or hazardous material in bulk as cargo or cargo residue must have a certificate of inspection issued under this part, endorsed to indicate that the vessel complies with regulations prescribed under this chapter.

(b) Each certificate endorsed under this section is valid for not more than 5 years and may be renewed as specified by the Secretary. In appropriate circumstances, the Secretary may issue a temporary certificate valid for not more than 30 days. A certificate shall be suspended or revoked if the Secretary finds that the vessel does not comply with the conditions under which the certificate was issued.

Section 3710 prohibits any vessels of the United States subject to this chapter from having on board oil or hazardous material in bulk as cargo or in residue, unless it has a required Certificate of Inspection endorsed to indicate vessel compliance with applicable regulations. Certificates shall be valid for a period not to exceed two years and may be renewed as specified by the Secretary. The Secretary may issue temporary certificates of not more than thirty days duration and may revoke or suspend any certificate under designated circumstances.

§ 3711. Evidence of compliance by foreign vessels

(a) A foreign vessel to which this chapter applies may operate on the navigable waters of the United States, or transfer oil or hazardous material in a port or place under the jurisdiction of the United States, only if the vessel has been issued a certificate of compliance by the Secretary. The Secretary may issue the certificate only after the vessel has been examined and found to be in compliance with this chapter and regulations prescribed under this chapter. The Secretary may accept any part of a certificate, endorsement, or document, issued by the government of a foreign country under a treaty, convention, or other international agreement to which the United States is a party, as a basis for issuing a certificate of compliance.

3711 .....	46:391a(8)(B) 46:391a(8)(C) 46:391a(8)(E)

Section 3711 prohibits any foreign vessel from operating on the navigable waters of the United States or from transferring oil or hazardous material in any port or place under the jurisdiction of the United States, unless it has a certificate of compliance issued by the Secretary indicating that the vessel has been examined and found to be in compliance with the provisions of the applicable regulations. It also authorizes the Secretary to accept, in whole or in part, an appropriate foreign certificate issued pursuant to any international agreement to which the United States is a party, as a basis for issuing the certificate of compliance. This means that the Secretary does not have to accept foreign certificates as evidence of compliance, but may take additional action to assure compliance with applicable domestic laws and regulations and international treaty provisions.

§ 3712. Notification of noncompliance

The Secretary shall notify the owner, charterer, managing operator, agent, master, or individual in charge of a vessel found not to be in compliance with a regulation prescribed under this part and state how compliance may be achieved.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
3713 .....	46:391a(13)

Section 3713(a) prohibits any person from violating any provision of this chapter or a regulation prescribed under its authority. It prohibits the refusal to permit authorized officials to board a vessel or to enter a shore area for the purposes of inspection of the vessel or premises. It also prohibits the refusal to obey any lawful directive issued under this chapter.

Section 3713(b) prohibits any vessel, subject to the provisions of this chapter from operating on the navigable waters of the United States, or from using any port or place subject to the jurisdiction of the United States while not in compliance with any provision of applicable law or regulation. It further prohibits any vessel from failing to comply with a lawful directive issued pursuant to the authority of this chapter. It also prohibits the vessel from carrying oil or hazardous material as cargo or cargo residue unless its certificate is so endorsed to permit its carriage.

§ 3714. Inspection and examination

(a)(1) The Secretary shall have each vessel to which this chapter applies inspected or examined at least once each year.

(2) Each of those vessels that is more than 10 years of age shall undergo a special and detailed inspection of structural strength and hull integrity as specified by the Secretary.

(3) The Secretary may make contracts for conducting inspections or examinations in the United States and in foreign countries. An inspector conducting an inspection or examination under contract may not issue a certificate of inspection or a certificate of compliance, but the inspector may issue a temporary certificate.

(4) The Secretary shall prescribe by regulation reasonable fees for an inspection or examination conducted under this section outside the United States, or which, when involving a foreign vessel, is conducted under a contract authorized by paragraph (3) of this subsection. The owner, charterer, or managing operator of a vessel inspected or examined by the Secretary is liable for the fees. Amounts received as fees shall be deposited in the Treasury.

(5) The Secretary may allow provisional entry of a vessel to conduct an inspection or examination under this chapter.

(b) Each vessel to which this chapter applies shall have on board those documents the Secretary considers necessary for inspection and enforcement, including documents listing—

(1) the type, grade, and approximate quantities of cargo on board;

(2) the shipper and consignee of the cargo;

(3) the places of origin and destination of the vessel; and

(4) the name of an agent in the United States authorized to accept service of legal process.

(c) Each vessel to which this chapter applies that operates in the United States shall have a person designated as authorized to accept service of legal process for the vessel.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 526; Pub. L. 99-307, §1(8), May 19, 1986, 100 Stat. 445.)

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
3714 .....	46:391a(15)

Section 3714(a) requires the Secretary to establish a program for the inspection of tank vessels, foreign or domestic, at least once each year. The Committee contemplates that United States vessels will be issued a 2 year certificate of inspection with a mid-period examination. The Committee also contemplates that foreign-flag vessels will continue to be tracked and boarded at least once a year or when they first arrive in the United States. The Secretary may examine the foreign-flag tank vessel but may accept, as a basis for the issuance of a certificate of compliance, in whole or in part a foreign-issued certificate.

Each vessel over 10 years of age must undergo a special and detailed inspection of structural strength and hull integrity, as specified by the Secretary. An inspection or examination may be conducted by any officer authorized by the Secretary. The Committee expects that, whenever possible, a qualified marine inspector will be used wherever the vessel undergoes these 10-year inspections. The Secretary may also contract for inspections or examinations in the United States and in foreign countries.

The primary reason for including a provision that permits the contracting for the conduct of inspections and examinations is to provide flexibility in foreign areas where Coast Guard marine inspectors are not normally available.

A contract inspector may be authorized to act on behalf of the Secretary, but may not issue a certificate of inspection or compliance. The inspector may, however, issue a temporary certificate.

The Committee understands that the 10-year inspections of United States-flag and foreign-flag vessels may occur at the time the vessel is scheduled for shipyard availability to complete the periodic classification society survey.

The Secretary is also authorized and directed to prescribe by regulation reasonable fees for certain inspections or examinations conducted pursuant to this section based on the cost incurred. The owner of any vessel inspected or examined by the Secretary or his designee shall be liable for the fee. Amounts received as fees under this section are to be deposited in the Treasury.

Section 3714(b) requires each vessel subject to this chapter to have on board those documents the Secretary declares are necessary for inspection or enforcement, including, but not limited to documents indicating the kind, grade, and approximate quantities of any cargo on board; the shipper and consignee of the cargo; the points of origin and destination of the vessel; and the name of an agent in the United States authorized to accept legal process.

Section 3714(c) requires each vessel subject to this chapter to have a person authorized to accept service of legal process for the vessel.

AMENDMENTS

1986—Subsec. (a)(4). Pub. L. 99-307 substituted “charterer” for “charter”.

§ 3715. Lightering

(a) A vessel may transfer oil or hazardous material in a port or place subject to the jurisdiction of the United States, when the cargo has been transferred from another vessel on the navigable waters of the United States or in the marine environment, only if—

- (1) the transfer was conducted consistent with regulations prescribed by the Secretary;
- (2) both the delivering and receiving vessels had on board, at the time of transfer, a certificate of inspection or a certificate of compliance, as would have been required under section 3710 or 3711 of this title, had the transfer taken place in a port or place subject to the jurisdiction of the United States; and
- (3) the delivering and the receiving vessel had on board at the time of transfer, a certificate of financial responsibility as would have been required under section 1016 of the Oil Pollution Act of 1990, had the transfer taken place in a place subject to the jurisdiction of the United States;
- (4) the delivering and the receiving vessel had on board at the time of transfer, evidence that each vessel is operating in compliance with section 311(j) of the Federal Water Pollution Control Act (33 U.S.C. 1321(j)); and
- (5) the delivering and the receiving vessel are operating in compliance with section 3703a of this title.

(b) The Secretary shall prescribe regulations to carry out subsection (a) of this section. The regulations shall include provisions on—

- (1) minimum safe operating conditions, including sea state, wave height, weather, prox-

imity to channels or shipping lanes, and other similar factors;

- (2) the prevention of spills;
- (3) equipment for responding to a spill;
- (4) the prevention of any unreasonable interference with navigation or other reasonable uses of the high seas, as those uses are defined by treaty, convention, or customary international law;
- (5) the establishment of lightering zones; and
- (6) requirements for communication and prearrival messages.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 526; Pub. L. 101-380, title IV, § 4115(d), Aug. 18, 1990, 104 Stat. 520.)

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
3715 .....	46:391a(17)

Section 3715 requires the Secretary to control lightering operations; that is, the transferring of cargoes at sea from large deep-draft vessels to shallow-draft vessels for subsequent transfer to shoreside terminals due to the inability of the larger tank vessels to enter shallow ports. It prohibits a tank vessel from unloading any cargo of oil or hazardous material at any port or terminal under the jurisdiction of the United States, unless the cargo has been transferred in accordance with lightering regulations. It also prohibits the shoreside transfer unless both the delivering and receiving vessels involved in the prior lightering had on board at the time of the offshore transfer, the certificates that would have been required had the transfer taken place in a port or place subject to the jurisdiction of the United States.

The regulations to be prescribed by the Secretary shall include a number of specific considerations but may include any related matters deemed necessary to promote navigation and vessel safety and protection of the marine environment. The Secretary must consider standards for minimum safe operating conditions, including sea state, wave height, weather, vessel traffic, the prevention of oil spills, and oil spill response equipment. In regulating this operation, there must not be any unreasonable interference with international navigation or reasonable uses of the high seas, and there must be established lightering zones with attendant communications and prearrival message requirements.

§ 3716. Tank washings

(a) A vessel may not transfer cargo in a port or place subject to the jurisdiction of the United States if, before arriving, the vessel has discharged tank washings containing oil or hazardous material in preparation for loading at that port or place in violation of the laws of the United States or in a manner or quantities inconsistent with a treaty to which the United States is a party.

Section 3716 requires the Secretary to establish effective control and supervisory measures to prohibit the discharge of tank washings by dumping at sea. The section also prohibits the dumping vessel from subsequently loading any cargo at a port or terminal subject to the jurisdiction of the United States. This section is intended to prohibit the practice of discharging a cargo of oil or hazardous substance, then going to sea to clean tanks by pumping tank washing mixtures overboard, and then returning to a port or terminal subject to the jurisdiction of the United States for the purpose of loading a cargo that was incompatible with the prior cargo.

§ 3717. Marine safety information system

(a) The Secretary shall establish a marine safety information system that shall contain information about each vessel to which this chapter applies that operates on the navigable waters of the United States, or that transfers oil or hazardous material in a port or place under the jurisdiction of the United States. In acquiring this information, the Secretary shall make full use of publicly available information. The Secretary may by regulation require the vessel to provide information that the Secretary considers necessary to carry out this subsection, including—

- (1) the name of each person with an ownership interest in the vessel;
- (2) details of compliance with the financial responsibility requirements of applicable laws or regulations;
- (3) registration information, including all changes in the name of the vessel;
- (4) the history of marine casualties and serious repair problems of the vessel; and

Section 3717 requires the Secretary to establish a marine safety information system which is to contain selected information on any tank vessel, foreign or domestic, that comes within the jurisdiction of the United States. This information must be recorded and maintained up-to-date and is available from a number of sources. In some instances, this information is required as a condition of entry. This information shall include certain ownership interests, financial responsibility information, all registered names that the vessel has had since it was built, the present and prior countries of registry, history of accidents or serious repair problems, record of the various inspections or examinations required, and any other data the Secretary deems appropriate to carry out the intent of the section. The section also provides for interagency cooperation and the furnishing of available data and information.

§ 3718. Penalties

(a)(1) A person violating this chapter or a regulation prescribed under this chapter is liable to the United States Government for a civil penalty of not more than \$25,000. Each day of a continuing violation is a separate violation.

(2) Each vessel to which this chapter applies that is operated in violation of this chapter or a regulation prescribed under this chapter is liable in rem for a civil penalty under this subsection.

(b) A person willfully and knowingly violating this chapter or a regulation prescribed under this chapter commits a class D felony.

(c) Instead of the penalties provided by subsection (b) of this section, a person willfully and knowingly violating this chapter or a regulation prescribed under this chapter, and using a dangerous weapon, or engaging in conduct that causes bodily injury or fear of imminent bodily injury to an official authorized to enforce this chapter or a regulation prescribed under this chapter, commits a class C felony.

(d) The district courts of the United States have jurisdiction to restrain a violation of this chapter or a regulation prescribed under this chapter.

(e)(1) If any owner, operator, or individual in charge of a vessel is liable for any penalty or fine under this section, or if reasonable cause exists to believe that the owner, operator, or individual in charge may be subject to any penalty or fine under this section, the Secretary of the Treasury, upon the request of the Secretary, shall with respect to such vessel refuse or revoke any clearance required by section 4197 of the Revised Statutes of the United States (46 App. U.S.C. 91).

(2) Clearance or a permit refused or revoked under this subsection may be granted upon filing of a bond or other surety satisfactory to the Secretary.

## HISTORICAL AND REVISION NOTES

Revised section	Source section (U.S. Code)
3718 .....	46:391a(14)

Section 3718 provides the authority to assess civil penalties for violation of the chapter or regulations. Each violation subjects the violator to a penalty not to exceed \$25,000 for each violation and, in the case of a continuing violation, each day shall constitute a separate violation and the vessel is liable in rem. The procedures for assessing penalties are found in section 2107 of part A.

With respect to criminal penalties, a willful or knowing violation of the section or a regulation subjects the offender, upon conviction, to a criminal fine of not more than \$50,000 for each violation or imprisonment for not more than 1 year, or both. If the willful and knowing violation involves the use of a dangerous weapon or constitutes an assault or battery, the offender is subjected to a fine of not more than \$100,000 or imprisonment of not more than 10 years, or both.

In addition, where the owner or operator of the vessel is subject to any of the penalties prescribed, the Secretary of the Treasury is directed to withhold required Customs clearance, at the request of the Secretary. Clearance may be granted upon the filing of a bond or other surety satisfactory to the Secretary.

## AMENDMENTS

1996—Subsec. (e). Pub. L. 104-324 amended subsec. (e) generally. Prior to amendment, subsec. (e) read as follows: "At the request of the Secretary, the Secretary of the Treasury shall withhold or revoke the clearance required by section 4197 of the Revised Statutes (46 App. U.S.C. 91) of a vessel the owner or operator of which is subject to a penalty under this section. Clearance may be granted on filing a bond or other surety satisfactory to the Secretary."

1990—Subsec. (b). Pub. L. 101-380, § 4302(c)(1), substituted "commits a class D felony" for "shall be fined not more than \$50,000, imprisoned for not more than 5 years, or both".

Subsec. (c). Pub. L. 101-380, § 4302(c)(2), substituted "commits a class C felony" for "shall be fined not more than \$100,000, imprisoned for not more than 10 years, or both".

**§ 3719. Reduction of oil spills from single hull non-self-propelled tank vessels**

The Secretary shall, in consultation with the Towing Safety Advisory Committee and taking into consideration the characteristics, methods of operation, and the size and nature of service of single hull non-self-propelled tank vessels and towing vessels, prescribe regulations requiring a single hull non-self-propelled tank vessel that operates in the open ocean or coastal waters, or the vessel towing it, to have at least one of the following:

(1) A crew member and an operable anchor on board the tank vessel that together are capable of arresting the tank vessel without additional assistance under reasonably foreseeable sea conditions.

(2) An emergency system on the tank vessel or towing vessel that without additional assistance under reasonably foreseeable sea conditions will allow the tank vessel to be retrieved by the towing vessel if the tow line ruptures.

(3) Any other measure or combination of measures that the Secretary determines will provide protection against grounding of the tank vessel comparable to that provided by the measures described in paragraph (1) or (2).

(Added Pub. L. 104-324, title IX, § 901(a), Oct. 19, 1996, 110 Stat. 3946.)

## HISTORICAL AND REVISION NOTES

Chapter 41 applies to vessels that are not subject to inspection and certification under chapter 33.

The Federal authority to regulate uninspected vessels originated with the Motorboat Act of 1910 (Public Law 61-201, 36 Stat. 462) when Congress established standards with respect to navigation lights, machinery requirements, life preservers, and for the licensing of operators on small vessels carrying passengers. This was an extension of Federal regulatory authority over certain non-steam-propelled vessels, that is, those recreational vessels and commercial vessels that are propelled by machinery other than steam.

Thirty years later, the 1910 Act was amended by the Motorboat Act of 1940 (Public Law 76-484, 54 Stat. 163), which added to the equipment that was required and provided for other regulatory controls. In this manner the Federal Government continued to exercise some degree of maritime safety supervision over the commercial and recreational vessel sector that was "uninspected". This was important because steam towing vessels were converting to diesel propulsion and were therefore no longer subject to the detailed periodic and extensive hull, machinery, and equipment inspections of a Federal agency. In addition, the number of recreational vessels primarily propelled by gasoline were increasing and were also suffering casualties from explosions and fires.

## AMENDMENTS

1990—Pub. L. 101-595, title VI, § 603(3)(B), Nov. 16, 1990, 104 Stat. 2993, struck out item 4104 "Regulations".

1984—Pub. L. 98-364, title IV, § 402(7)(B), July 17, 1984, 98 Stat. 446, inserted "GENERALLY" in chapter heading.

**§ 4101. Application**

This chapter applies to an uninspected vessel not subject to chapter 45 of this title—

(1) on the navigable waters of the United States; or

(2) owned in the United States and operating on the high seas. (Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 528; Pub. L. 100-424, § 8(b), Sept. 9, 1988, 102 Stat. 1593.)

HISTORICAL AND REVISION NOTES

Table with 2 columns: Revised section, Source section (U.S. Code). Row 1: 4101, 46:526u

Section 4101 makes this chapter applicable to uninspected vessels, as defined in section 2101(43), that operate on the navigable waters of the United States or that are owned in the United States and while operating on the high seas. Therefore a vessel that operates on waters that are considered to be solely State waters would not be subject to these Federal requirements.

AMENDMENTS

1988—Pub. L. 100-424 inserted “not subject to chapter 45 of this title” after “an uninspected vessel”.

EFFECTIVE DATE

Chapter effective Apr. 15, 1984, see section 2(g)(1) of Pub. L. 98-89, set out as a note under section 3101 of this title.

§ 4102. Safety equipment

(a) Each uninspected vessel propelled by machinery shall be provided with the number, type, and size of fire extinguishers, capable of promptly and effectively extinguishing burning liquid fuel, that may be prescribed by regulation. The fire extinguishers shall be kept in condition for immediate and effective use and so placed as to be readily accessible.

(b) Each uninspected vessel propelled by machinery shall carry at least one readily accessible life preserver or other lifesaving device, of the type prescribed by regulation, for each individual on board.

(c) Each uninspected vessel shall have the carburetors of each engine of the vessel (except an outboard motor) using gasoline as fuel, equipped with an efficient flame arrestor, backfire trap, or other similar device prescribed by regulation.

(d) Each uninspected vessel using a volatile liquid as fuel shall be provided with the means prescribed by regulation for properly and efficiently ventilating the bilges of the engine and fuel tank compartments, so as to remove any explosive or flammable gases.

(e) Each manned uninspected vessel owned in the United States and operating beyond 3 nautical miles from the baselines from which the territorial sea of the United States is measured or beyond three nautical miles from the coastline of the Great Lakes shall be equipped with the number and type of alerting and locating equipment, including emergency position indicating radio beacons, prescribed by the Secretary.

(f)(1) The Secretary, in consultation with the Towing Safety Advisory Committee and taking into consideration the characteristics, methods of operation, and nature of service of towing vessels, may require the installation, maintenance, and use of a fire suppression system or other measures to provide adequate assurance that fires on board towing vessels can be suppressed under reasonably foreseeable circumstances.

(2) The Secretary shall require under paragraph (1) the use of a fire suppression system or other measures to provide adequate assurance that a fire on board a towing vessel that is towing a non-self-propelled tank vessel can be suppressed under reasonably foreseeable circumstances.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 528; Pub. L. 99-640, § 16, Nov. 10, 1986, 100 Stat. 3552; Pub. L. 100-424, § 2(c), Sept. 9, 1988, 102 Stat. 1590; Pub. Section 4102 requires uninspected vessels to comply with certain provisions that incorporate minimum safety equipment and construction requirements. The Committee intends that the term life preserver include all types of personal equipment, including exposure suits with floatation characteristics.

AMENDMENTS

1998—Subsec. (e). Pub. L. 105-383 substituted “owned in the United States and operating beyond 3 nautical miles from the baselines from which the territorial sea of the United States is measured” for “operating on the high seas”.

Pub. L. 100-424 struck out subsec. (e) which read as follows: “Each uninspected fishing, fish processing, or fish tender vessel operating on the high seas shall be equipped with the number and type of emergency position indicating radio beacons prescribed by regulation.” See section 4502(a)(7) of this title.

1986—Subsec. (e). Pub. L. 99-640 added subsec. (e).

REGULATIONS

Section 902(b) of Pub. TERRITORIAL SEA OF UNITED STATES

For extension of territorial sea of United States, see Proc. No. 5928, set out as a note under section 1331 of Title 43, Public Lands.

§ 4103. Exemptions

(a) The Secretary may exempt a vessel from any part of this chapter if, under regulations prescribed by the Secretary (including regulations on special operating conditions), the Secretary finds that—

- (1) good cause exists for granting an exemption; and
(2) the safety of the vessel and individuals on board will not be adversely affected.

(b) Section 4102(a) of this title does not apply to a vessel propelled by outboard motors when competing in a race previously arranged and announced or, if the vessel is designed and in-

HISTORICAL AND REVISION NOTES

Chapter 43 contains the laws applicable to recreational vessels, which originated primarily with the enactment of the Federal Boat Safety Act of 1971 (Public Law 92-75, 85 Stat. 213). That Act embraced a number of activities, but the portion restated in this chapter deals with the establishment of national construction and performance standards for recreational vessels and their associated equipment, the necessary flexible regulatory authority for inspection and testing, Federal preemption, certain necessary prohibited acts, enforcement authority, investigation and reporting requirements, procedures for repair and defect notification, and attendant penalties and injunctive relief. These laws are a direct response to the dramatic increase in the number of recreational boats and the Congressional recognition of the maritime safety problems that recreational boating has imposed upon our more than 25 million miles of waterways.

**§ 4301. Application**

(a) This chapter applies to a recreational vessel and associated equipment carried in the vessel on waters subject to the jurisdiction of the United States (including the territorial sea of the United States as described in Presidential Proclamation No. 5928 of December 27, 1988) and, for a vessel owned in the United States, on the high seas.

(b) Except when expressly otherwise provided, this chapter does not apply to a foreign vessel temporarily operating on waters subject to the jurisdiction of the United States.

(c) Until there is a final judicial decision that they are navigable waters of the United States, the following waters lying entirely in New Hampshire are declared not to be waters subject to the jurisdiction of the United States within the meaning of this section: Lake Winnisquam, Lake Winnepesaukee, parts of the Merrimack River, and their tributary and connecting waters.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 529; Pub. L. 105-383, title III, § 301(b)(4), Nov. 13, 1998, 112 Stat. 3417.)

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
4301 .....	46:1453

Section 4301 provides that this chapter is applicable to a recreational vessel that operates on waters subject to the jurisdiction of the United States or that is owned in the United States and while operating on the high seas.

It also provides that a foreign recreational vessel that temporarily uses our waters is not subject to the requirements of this chapter. However, if the vessel remains permanently in the United States, it would be subject to the provisions of this chapter.

Section 4301(c) recognizes the ongoing controversy over the navigability of certain waters of New Hampshire. While a recreational vessel operating on these waters need not meet the requirements of this chapter, it would be prohibited from operating on any other waters subject to the jurisdiction of the United States if it does not comply with these requirements.

AMENDMENTS

1998—Subsec. (a). Pub. L. 105-383 inserted “(including the territorial sea of the United States as described in Presidential Proclamation No. 5928 of December 27, 1988)” after “of the United States”.

EFFECTIVE DATE

Chapter effective Apr. 15, 1984, see section 2(g)(1) of Pub. L. 98-89, set out as a note under section 3101 of this title.

§ 4302. Regulations

(a) The Secretary may prescribe regulations—

(1) establishing minimum safety standards for recreational vessels and associated equipment, and establishing procedures and tests required to measure conformance with those standards, with each standard—

(A) meeting the need for recreational vessel safety; and

(B) being stated, insofar as practicable, in terms of performance;

(2) requiring the installation, carrying, or use of associated equipment (including fuel systems, ventilation systems, electrical systems, sound-producing devices, firefighting equipment, lifesaving devices, signaling devices, ground tackle, life- and grab-rails, and navigational equipment) on recreational vessels and classes of recreational vessels subject to this chapter, and prohibiting the installation, carrying, or use of associated equipment that does not conform with safety standards established under this section; and

(3) requiring or permitting the display of seals, labels, plates, insignia, or other devices for certifying or evidencing compliance with safety regulations and standards of the United States Government for recreational vessels and associated equipment.

(b) Each regulation prescribed under this section shall specify an effective date that is not earlier than 180 days from the date the regulation was published, unless the Secretary finds that there exists a recreational vessel safety

hazard so critical as to require an earlier effective date. However, this period may not be more than 24 months for cases involving, in the discretion of the Secretary, major product design, retooling, or major changes in the manufacturing process.

(c) In prescribing regulations under this section, the Secretary shall, among other things—

(1) consider the need for and the extent to which the regulations will contribute to recreational vessel safety;

(2) consider relevant available recreational vessel safety standards, statistics, and data, including public and private research, development, testing, and evaluation;

(3) not compel substantial alteration of a recreational vessel or item of associated equipment that is in existence, or the construction or manufacture of which is begun before the effective date of the regulation, but subject to that limitation may require compliance or performance, to avoid a substantial risk of personal injury to the public, that the Secretary considers appropriate in relation to the degree of hazard that the compliance will correct; and

(4) consult with the National Boating Safety Advisory Council established under section 13110 of this title about the considerations referred to in clauses (1)–(3) of this subsection.

(d) Section 8903 of this title does not apply to a vessel being operated for bona fide dealer demonstrations provided without fee to business invitees. However, if on the basis of substantial evidence, the Secretary decides under this section that requiring vessels so operated to be under the control of licensed individuals is necessary for boating safety, then the Secretary may prescribe regulations requiring the licensing of individuals controlling these vessels in the same manner as provided in chapter 89 of this title for individuals in control of vessels carrying passengers for hire.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 530.)

Section 4302 authorizes the Secretary to prescribe regulations to carry out the provisions of this chapter. In lieu of establishing specific statutory safety requirements, subsection (a) provides flexible regulatory authority to establish uniform standards for the design, construction, materials, and performance of the boats themselves and all associated equipment. It also provides for the display of seals and other devices for certifying or evidencing compliance with applicable safety regulations or standards.

Section 4302(b) requires a regulation prescribed under this section to have an effective date that is not earlier than 180 days from publication. However, in those instances where a safety hazard may be critical an earlier effective date is authorized.

Section 4302(c) requires the Secretary to consider certain objectives in developing regulatory controls and regulations or standards and that there must be an effective consultation process.

Section 4302(d) exempts dealer demonstration boats from the requirement of having to be named by a li-

censed individual when demonstrating boats to prospective purchasers or other business invitees when no fees are charged. The Secretary may require that boats so used be under control of a licensed individual.

AVAILABILITY AND USE OF EPIRBs FOR RECREATIONAL VESSELS

Pub. L. 105-383, title III, § 309, Nov. 13, 1998, 112 Stat. 3422, provided that: "The Secretary of Transportation, through the Coast Guard and in consultation with the National Transportation Safety Board and recreational boating organizations, shall, within 24 months of the date of the enactment of this Act [Nov. 13, 1998], assess and report to Congress on the use of emergency position indicating beacons (EPIRBs) and similar devices by operators of recreational vessels on the Intracoastal Waterway and operators of recreational vessels beyond the Boundary Line. The assessment shall at a minimum—

"(1) evaluate the current availability and use of EPIRBs and similar devices by the operators of recreational vessels and the actual and potential contribution of such devices to recreational boating safety; and

"(2) provide recommendations on policies and programs to encourage the availability and use of EPIRBs [sic] and similar devices by the operators of recreational vessels."

§ 4303. Inspection and testing

(a) Subject to regulations, supervision, and reviews that the Secretary may prescribe, the Secretary may delegate to a person, private or public agency, or organization, or to an officer or employee under the supervision of that person or agency, any work, business, or function related to the testing, inspection, and examination necessary for compliance enforcement and for the development of data to enable the Secretary to prescribe regulations under section 4302 of this title.

(b) The Secretary may—

- (1) conduct research, testing, and development necessary to carry out this chapter, including the procurement by negotiation or otherwise of experimental and other recreational vessels or associated equipment for research and testing purposes; and
(2) subsequently sell those vessels.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 531.)

Section 4303 authorizes the Secretary to delegate to certain persons or agencies or organizations any work, business, or function related to the testing, inspection, and examination necessary for compliance enforcement. The Secretary may also conduct research, testing, and development necessary to carry out this chapter, including procurement of vessels and equipment and their subsequent sale. The Committee wishes to make clear that the Secretary may sell anything that was purchased to test.

§ 4304. Importation of nonconforming vessels and equipment

The Secretary and the Secretary of the Treasury may authorize by joint regulations the importation of any nonconforming recreational vessel or associated equipment on conditions, including providing a bond, that will ensure that the recreational vessel or associated equipment

will be brought into conformity with applicable safety regulations and standards of the Government before the vessel or equipment is operated on waters subject to the jurisdiction of the United States.

HISTORICAL AND REVISION NOTES

Section 4304 requires the regulation and control of the importation of nonconforming recreational vessels and associated equipment. This is to assure United States manufacturers that foreign imports comply with those regulations and standards in effect for United States products so that all manufacturers will be on this same competitive footing. This is being done in lieu of providing a specific prohibition against the importation of these vessels and equipment that might be considered an imposition of a non-tariff barrier to trade.

§ 4305. Exemptions

If the Secretary considers that recreational vessel safety will not be adversely affected, the Secretary may issue an exemption from this chapter or a regulation prescribed under this chapter.

Section 4305 permits the Secretary to grant appropriate exemptions from the requirements of this chapter when recreational vessel safety will not be adversely affected.

§ 4306. Federal preemption

Unless permitted by the Secretary under section 4305 of this title, a State or political subdivision of a State may not establish, continue in effect, or enforce a law or regulation establishing a recreational vessel or associated equipment performance or other safety standard or imposing a requirement for associated equipment (except insofar as the State or political subdivision may, in the absence of the Secretary's disapproval, regulate the carrying or use of marine safety articles to meet uniquely hazardous conditions or circumstances within the State) that is not identical to a regulation prescribed under section 4302 of this title.

HISTORICAL AND REVISION NOTES

Table with 2 columns: Revised section, Source section (U.S. Code). Row 1: 4306 ..... 46:1459, 46:1460

Section 4306 establishes the Federal preemption of recreational boating standards and requirements. A State or a political subdivision may not establish, continue, or enforce a law or regulation establishing a performance or other safety standard that is not identical to a Federal standard. The Secretary may grant an exemption to a State when the State requirement is one that is needed to meet uniquely hazardous conditions or circumstances within a State. This is to provide uni-

form standards without the imposition of excessive special requirements by individual States.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 532; Pub. L. 99-307, § 1(9), May 19, 1986, 100 Stat. 445.)

§ 4307. Prohibited acts

(a) A person may not—

(1) manufacture, construct, assemble, sell or offer for sale, introduce or deliver for introduction into interstate commerce, or import into the United States, a recreational vessel, associated equipment, or component of the vessel or equipment unless—

(A)(i) it conforms with this chapter or a regulation prescribed under this chapter; and

(ii) it does not contain a defect which has been identified, in any communication to such person by the Secretary or the manufacturer of that vessel, equipment or component, as creating a substantial risk of personal injury to the public; or

(B) it is intended only for export and is so labeled, tagged, or marked on the recreational vessel or equipment, including any markings on the outside of the container in which it is to be exported;

(2) affix, attach, or display a seal, document, label, plate, insignia, or other device indicating or suggesting compliance with standards of the United States Government on, in, or in connection with, a recreational vessel or item of associated equipment that is false or misleading; or

(3) fail to provide a notification as required by this chapter or fail to exercise reasonable diligence in carrying out the notification and reporting requirements of this chapter.

(b) A person may not operate a vessel in violation of this chapter or a regulation prescribed under this chapter.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 531; Pub. L. 98-557, § 8(a), Oct. 30, 1984, 98 Stat. 2862.)

AMENDMENTS

1984—Subsec. (a)(1)(A). Pub. L. 98-557 designated existing provisions as cl. (i), substituted “and” for “or”, and added cl. (ii).

§ 4308. Termination of unsafe operation

If an official charged with the enforcement of this chapter observes a recreational vessel being operated without sufficient lifesaving or fire-fighting devices or in an overloaded or other unsafe condition (as defined in regulations prescribed under this chapter) and, in the judgment of the official, the operation creates an especially hazardous condition, the official may direct the individual in charge of the recreational vessel to take immediate and reasonable steps necessary for the safety of individuals on board the vessel, including directing the individual in charge to return to a mooring and to remain there until the situation creating the hazard is corrected or ended.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
4308 .....	46:1462

Section 4308 authorizes an appropriate official to terminate the unsafe operation of recreational vessels. If the official observes the vessel being operated without sufficient lifesaving or firefighting devices or in an overloaded or other unsafe condition (as defined in regulations) and believes the operation creates an especially hazardous condition, the operator may be directed to take immediate and reasonable steps necessary for safety, including returning to a mooring and remaining there until the hazard is corrected or ended. This does not prevent the assessment of any applicable civil penalties nor the pursuing of appropriate criminal action.

AMENDMENTS

1986—Pub. L. 99-307 substituted “individual in charge” for “operator” in two places.

§ 4309. Investigation and reporting

(a) A recreational vessel manufacturer to whom this chapter applies shall establish and maintain records and reports and provide information the Secretary may require to enable the Secretary to decide whether the manufacturer has acted or is acting in compliance with this chapter and regulations prescribed under this chapter. On request of an officer, employee, or agent authorized by the Secretary, a recreational vessel manufacturer shall permit the officer, employee, or agent to inspect, at reasonable times, factories or other facilities, and records related to deciding whether the manufacturer has acted or is acting in compliance with this chapter and regulations prescribed under this chapter.

(b) Information reported to or otherwise obtained by the Secretary or the representative of the Secretary under this section containing or related to a trade secret or other matter referred to in section 1905 of title 18, or authorized to be exempt from public disclosure by section 552(b) of title 5, is confidential under section 1905. However, on approval of the Secretary, the information may be disclosed to other officers, employees, or agents concerned with carrying out this chapter or when it is relevant in a proceeding under this chapter.

Section 4309 requires the establishment and maintenance of certain records by manufacturers, and the inspection and access to these records by the Secretary, at reasonable times, so as to assure Federal enforcement officials that the manufacturer has acted or is in compliance with applicable laws and regulations. It also provides protection for matters related to trade secrets and exemptions from public disclosure.

§ 4310. Repair and replacement of defects

(a) In this section, “associated equipment” includes only items or classes of associated equip-

ment that the Secretary shall prescribe by regulation after deciding that the application of the requirements of this section to those items or classes of associated equipment is reasonable and in furtherance of this chapter.

(b) If a recreational vessel or associated equipment has left the place of manufacture and the recreational vessel manufacturer discovers or acquires information that the manufacturer decides, in the exercise of reasonable and prudent judgment, indicates that a recreational vessel or associated equipment subject to an applicable regulation prescribed under section 4302 of this title either fails to comply with the regulation, or contains a defect that creates a substantial risk of personal injury to the public, the manufacturer shall provide notification of the defect or failure of compliance as provided by subsections (c) and (d) of this section within a reasonable time after the manufacturer has discovered the defect.

(c)(1) The notification required by subsection (b) of this section shall be given to the following persons in the following manner:

(A) by first class mail or by certified mail to the first purchaser for other than resale, except that the requirement for notification of the first purchaser shall be satisfied if the recreational vessel manufacturer exercises reasonable diligence in establishing and maintaining a list of those purchasers and their current addresses, and sends the required notice to each person on that list at the address appearing on the list.

(B) by first class mail or by certified mail to subsequent purchasers if known to the manufacturer.

(C) by first class mail or by certified mail or other more expeditious means to the dealers and distributors of the recreational vessels or associated equipment.

(2) The notification required by subsection (b) of this section is required to be given only for a defect or failure of compliance discovered by the recreational vessel manufacturer within a reasonable time after the manufacturer has discovered the defect or failure, except that the manufacturer's duty of notification under paragraph (1)(A) and (B) of this subsection applies only to a defect or failure of compliance discovered by the manufacturer within one of the following appropriate periods:

(A) if a recreational vessel or associated equipment required by regulation to have a date of certification affixed, 10 years from the date of certification.

(B) if a recreational vessel or associated equipment not required by regulation to have a date of certification affixed, 10 years from the date of manufacture.

(d) The notification required by subsection (b) of this section shall contain a clear description of the defect or failure to comply, an evaluation of the hazard reasonably related to the defect or failure, a statement of the measures to correct the defect or failure, and an undertaking by the recreational vessel manufacturer to take those measures only at the manufacturer's cost and expense.

(e) Each recreational vessel manufacturer shall provide the Secretary with a copy of all

notices, bulletins, and other communications to dealers and distributors of that manufacturer, and to purchasers of recreational vessels or associated equipment of that manufacturer, about a defect related to safety in the recreational vessels or associated equipment, and any failure to comply with the regulation or order applicable to the recreational vessels or associated equipment. The Secretary may publish or otherwise disclose to the public information in the notices or other information the Secretary has that the Secretary considers will assist in carrying out this chapter. However, the Secretary may disclose any information that contains or relates to a trade secret only if the Secretary decides that the information is necessary to carry out this chapter.

(f) If, through testing, inspection, investigation, or examination of reports, the Secretary decides that a recreational vessel or associated equipment to which this chapter applies contains a defect related to safety or fails to comply with an applicable regulation prescribed under this chapter and notification under this chapter is appropriate, the Secretary shall notify the recreational vessel manufacturer of the defect or failure. The notice shall contain the findings of the Secretary and shall include a synopsis of the information on which they are based. The manufacturer may then provide the notification required by this chapter to the persons designated in this chapter or dispute the Secretary's decision. If disputed, the Secretary shall provide the manufacturer with an opportunity to present views and establish that there is no such defect or failure. When the Secretary considers it to be in the public interest, the Secretary may publish notice of the proceeding in the Federal Register and provide interested persons, including the National Boating Safety Advisory Council, with an opportunity to comment. If, after presentation by the manufacturer, the Secretary decides that the recreational vessel or associated equipment contains a defect related to safety or fails to comply with an applicable regulation, the Secretary may direct the manufacturer to provide the notifications specified in this chapter.

(g) The Secretary may prescribe regulations to carry out this section, including the establishment of procedures that require dealers and distributors to assist manufacturers in obtaining information required by this section. A regulation prescribed under this subsection does not relieve a manufacturer of any obligation imposed by this section.

Section 4310 imposes certain requirements on a recreational vessel and associated equipment manufacturer to provide notification of a defect or the failure of compliance after a manufacturer discovers the defect or failure. This section spells out the procedure for notification and who shall be notified. It assures the public of notification while protecting the manufacturer

from the potential of damaging and inaccurate disclosures.

AMENDMENTS

2002—Subsec. (c)(1)(A) to (C). Pub. L. 107-295, § 433(2), inserted “by first class mail or” before “by certified mail”.

Subsec. (c)(2)(A), (B). Pub. L. 107-295, § 433(1), substituted “10” for “5”.

§ 4311. Penalties and injunctions

(a) A person willfully operating a recreational vessel in violation of this chapter or a regulation prescribed under this chapter shall be fined not more than \$5,000, imprisoned for not more than one year, or both.

(b)(1) A person violating section 4307(a) of this title is liable to the United States Government for a civil penalty of not more than \$5,000, except that the maximum civil penalty may be not more than \$250,000 for a related series of violations.

(2) If the Secretary decides under section 4310(f) that a recreational vessel or associated equipment contains a defect related to safety or fails to comply with an applicable regulation and directs the manufacturer to provide the notifications specified in this chapter, any person, including a director, officer or executive employee of a corporation, who knowingly and willfully fails to comply with that order, may be fined not more than \$10,000, imprisoned for not more than one year, or both.

(3) When a corporation violates section 4307(a), or fails to comply with the Secretary’s decision under section 4310(f), any director, officer, or executive employee of the corporation who knowingly and willfully ordered, or knowingly and willfully authorized, a violation is individually liable to the Government for a penalty under paragraphs (1) or (2) in addition to the corporation. However, the director, officer, or executive employee is not liable individually under this subsection if the director, officer, or executive employee can demonstrate by a preponderance of the evidence that—

(A) the order or authorization was issued on the basis of a decision, in exercising reasonable and prudent judgment, that the defect or the nonconformity with standards and regulations constituting the violation would not cause or constitute a substantial risk of personal injury to the public; and

(B) at the time of the order or authorization, the director, officer, or executive employee advised the Secretary in writing of acting under this subparagraph and subparagraph (A).

(c) A person violating any other provision of this chapter or other regulation prescribed under this chapter is liable to the Government for a civil penalty of not more than \$1,000. If the violation involves the operation of a vessel, the vessel also is liable in rem for the penalty.

(d) When a civil penalty of not more than \$200 has been assessed under this chapter, the Secretary may refer the matter of collection of the penalty directly to the United States magistrate judge of the jurisdiction in which the person liable may be found for collection procedures under supervision of the district court and under an order issued by the court delegating this authority under section 636(b) of title 28.

(e) The district courts of the United States have jurisdiction to restrain a violation of this chapter, or to restrain the sale, offer for sale, introduction or delivery for introduction into interstate commerce, or importation into the United States, of a recreational vessel or associated equipment that the court decides does not conform to safety standards of the Government. A civil action under this subsection shall be brought by filing a petition by the Attorney General for the Government. When practicable, the Secretary shall give notice to a person against whom an action for injunctive relief is contemplated and provide the person with an opportunity to present views and, except for a knowing and willful violation, shall provide the person with a reasonable opportunity to achieve compliance. The failure to give notice and provide the opportunity does not preclude the granting of appropriate relief by the district court.

(f) A person is not subject to a penalty under this chapter if the person—

(1) establishes that the person did not have reason to know, in exercising reasonable care, that a recreational vessel or associated equipment does not conform with the applicable safety standards of the Government or that the person was not advised by the Secretary or the manufacturer of that vessel, equipment or component that the vessel, equipment or component contains a defect which creates a substantial risk of personal injury to the public; or

(2) holds a certificate issued by the manufacturer of that recreational vessel or associated equipment to the effect that the recreational vessel or associated equipment conforms to all applicable recreational vessel safety standards of the Government, unless the person knows or reasonably should have known that the recreational vessel or associated equipment does not so conform.

(g) Compliance with this chapter or standards, regulations, or orders prescribed under this chapter does not relieve a person from liability at common law or under State law.

Section 4311 provides penalties for violating any of the provisions of this chapter or a regulation prescribed under this chapter. For a willful violation the penalty is a criminal fine; all other penalties are civil in nature.

A person violating any of the prohibited acts specified in section 4307(a)(1) is subject to a maximum civil penalty that can go as high as a \$100,000 for a related series of violations. However, the section provides for no liability for good faith reliance on certifications of

compliance by others within the chain of responsibility and for defects that are not within an individual's responsibility or control.

This section also contains an alternate procedure for the collection of a civil penalty of not more than \$200 through a U.S. magistrate in lieu of the civil penalty procedures of the Coast Guard. It also directs the district courts of the United States to restrain the sale, offer for sale, introduction or delivery for introduction into interstate commerce, or importation of a recreational vessel or associated equipment that does not conform to applicable safety standards. Finally, compliance with this chapter or standards, regulations, or orders does not relieve a person from liability at common law or under State law.

#### AMENDMENTS

2004—Subsec. (b). Pub. L. 108-293 amended subsec. (b) generally. Prior to amendment, subsec. (b) read as follows: "A person violating section 4307(a)(1) of this title is liable to the United States Government for a civil penalty of not more than \$2,000, except that the maximum civil penalty may be not more than \$100,000 for a related series of violations. When a corporation violates section 4307(a)(1), any director, officer, or executive employee of the corporation who knowingly and willfully ordered, or knowingly and willfully authorized, a violation is individually liable to the Government for the penalty, in addition to the corporation. However, the director, officer, or executive employee is not liable individually under this subsection if the director, officer, or executive employee can demonstrate by a preponderance of the evidence that—

"(1) the order or authorization was issued on the basis of a decision, in exercising reasonable and prudent judgment, that the defect or the nonconformity with standards and regulations constituting the violation would not cause or constitute a substantial risk of personal injury to the public; and

"(2) at the time of the order or authorization, the director, officer, or executive employee advised the Secretary in writing of acting under this clause and clause (1) of this subsection."

1984—Subsec. (b)(1). Pub. L. 98-557, §8(b), inserted "defect or the" before "nonconformity".

Subsec. (f)(1). Pub. L. 98-557, §8(c), inserted provisions relating to advice by the Secretary or manufacturer of the vessel, equipment or component respecting defects creating substantial risk of personal injury to the public.

Section 5(a) of Pub. L. 100-424 directed Secretary of Transportation, utilizing National Academy of Engi-

neering and in consultation with National Transportation Safety Board, Commercial Fishing Industry Vessel Advisory Committee, and fishing industry, to conduct a study of safety problems on fishing industry vessels, and to make recommendations regarding whether a vessel inspection program could be implemented for fishing vessels, fish tender vessels, and fish processing vessels, including recommendations on nature and scope of that inspection, and further provided for submission of the study and recommendations to Congress before Jan. 1, 1990.

Section 5(b) of Pub. L. 100-424 directed Secretary of department in which Coast Guard is operating, in consultation with Commercial Fishing Industry Vessel Advisory Committee established under section 4508 of this title, and with representatives of persons operating fish processing vessels to conduct a study of fish processing vessels that are not surveyed and classed by an organization approved by Secretary, and to make recommendations regarding what hull and machinery requirements could apply to such vessels to ensure that those vessels are operated and maintained in a condition in which they are safe to operate at sea, and further provided for submission of such study and recommendations to Congress before July 28, 1991.

#### TERRITORIAL SEA OF UNITED STATES

An official authorized to enforce this chapter—

(1) may direct the individual in charge of a vessel to which this chapter applies to immediately take reasonable steps necessary for the safety of individuals on board the vessel if the official observes the vessel being operated in an unsafe condition that the official believes creates an especially hazardous condition, including ordering the individual in charge to return the vessel to a mooring and to remain there until the situation creating the hazard is corrected or ended; and

(2) may order the individual in charge of an uninspected fish processing vessel that does not have on board the certificate required under section 4503(1) of this title to return the vessel to a mooring and to remain there until the vessel is in compliance with that section.

(1) good cause exists for granting an exemption; and

(2) the safety of the vessel and those on board will not be adversely affected.

(b) A vessel to which this chapter applies is exempt from section 4502(b)(2)(B) of this title if it—

(1) is less than 36 feet in length; and

(2) is operating—

#### § 5101. Definitions

In this chapter—

(1) “domestic voyage” means movement of a vessel between places in, or subject to the jurisdiction of, the United States, except movement between—

(A) a place in a territory or possession of the United States or the Trust Territory of the Pacific Islands; and

(B) a place outside that territory, possession, or Trust Territory.

(A) the average freight rate value of a ton of the vessel’s cargo for the voyage; or

(B) \$50.

(3) “existing vessel” means—

(A) a vessel on a domestic voyage, the keel of which was laid, or that was at a similar

(7) “weight of the overload” means the amount obtained by multiplying the number of inches that the vessel is submerged below the applicable assigned freeboard by the ton-an-inch immersion factor for the vessel at the assigned minimum safe freeboard.

(Pub. L. 99-509, title V, §5101(2), Oct. 21, 1986, 100 Stat. 1913.)

##### HISTORICAL AND REVISION NOTES

##### Revised section 5101

Source: Section (U.S. Code) 46 App. U.S.C. 86a.

Section 5101 contains definitions that are limited to Chapter 51—Load Lines. Existing Section 46 App. U.S.C. 86a (which defines only the terms “new ship” and “existing ship”) will be replaced by section 5101. Definitions of technical terms (“freeboard”, “freeboard deck”, and “minimum safe freeboard”) have been added for clarity. The definition of the term “new ship” has been deleted because the term is not used in Chapter 51. The definition of “domestic voyage” includes the phrase “places in or subject to the jurisdiction of the United States.” “Places subject to the jurisdiction of the United States” include deep water ports, production platforms, mining sites outside of territorial waters of the United States but within the United States’ Exclusive Economic Zone (EEZ) that was established by Presidential Proclamation 5030, dated March 10, 1983, or on the outer continental shelf. The phrases “economic benefit of overloading” and “weight of the overload” have been defined for purposes of establishing a standard method of determining the value of the cargo with which a vessel is overloaded. The value of the cargo will in turn affect the maximum penalty assessed for overloading the vessel. The definition of “freeboard deck” provides the Secretary with the authority to designate as the freeboard deck either the actual deck (on standard vessels) or another structure (on non-standard vessels). Non-standard vessels, for which this regulatory flexibility is necessary, include shelter deck vessels, semi-submersible multi-hull units, container ships, surface effect vessels, and commercial submarines.

##### TERMINATION OF TRUST TERRITORY OF THE PACIFIC ISLANDS

For termination of Trust Territory of the Pacific Islands, see note set out preceding section 1681 of Title 48, Territories and Insular Possessions.

#### § 5102. Application

(1) a vessel of the United States.

(2) a vessel on the navigable waters of the United States.

(3) a vessel—

(B) not registered in a foreign country.

(4) a public vessel of the United States.

(5) a vessel otherwise subject to the jurisdiction of the United States.

(b) This chapter does not apply to the following:

(1) a vessel of war.

(2) a recreational vessel when operated only for pleasure.

(3) a fishing vessel.

(4) a fish processing vessel of not more than 5,000 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title that—

(A)(i) was constructed as a fish processing vessel before August 16, 1974; or

(ii) was converted for use as a fish processing vessel before January 1, 1983; and

(B) is not on a foreign voyage.

(5) a fish tender vessel of not more than 500 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title that—

(A)(i) was constructed, under construction, or under contract to be constructed as a fish tender vessel before January 1, 1980; or

(ii) was converted for use as a fish tender vessel before January 1, 1983; and

(B)(i) is not on a foreign voyage; or

(ii) is not engaged in the Aleutian trade (except a vessel in that trade assigned a load line at any time before June 1, 1992).

(6) a vessel of the United States on a domestic voyage that does not cross the Boundary Line, except a voyage on the Great Lakes.

(7) a vessel of less than 24 meters (79 feet) overall in length.

(8) a public vessel of the United States on a domestic voyage.

(9) a vessel excluded from the application of this chapter by an international agreement to which the United States Government is a party.

(10) an existing vessel of not more than 150 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title that is on a domestic voyage.

(11) a small passenger vessel on a domestic voyage.

(12) a vessel of the working fleet of the Panama Canal Commission not on a foreign voyage.

(c) On application by the owner and after a survey under section 5105 of this title, the Secretary may assign load lines for a vessel excluded from the application of this chapter under subsection (b) of this section. A vessel assigned load lines under this subsection is subject to this chapter until the surrender of its load line certificate and the removal of its load line marks.

(d) This chapter does not affect an international agreement to which the Government is

a party that is not in conflict with the International Convention on Load Lines currently in force for the United States.

#### HISTORICAL AND REVISION NOTES

##### *Revised section 5102*

Source: Section (U.S. Code) 46 App. U.S.C. 86b, 86c, 88.

The delineation of the vessels that will be subject to load line requirements is made in section 5102 as follows: subsection (a) is an all-inclusive list of vessels subject to load line requirements, followed by subsection (b) which specifically exempts those vessels to which the requirements do not apply.

Section 5102(a) lists five categories of vessels which are subject to load line requirements. They are as follows:

Clause (1) regarding “a vessel of the United States” includes all vessels documented under Chapter 121 of title 46 or numbered under Chapter 123 of title 46.

Clause (2) regarding “a vessel on the navigable waters of the United States” includes all domestic or foreign vessels found in or on the navigable waters of the United States.

Clause (3) regarding “a vessel owned by a citizen of the United States or a corporation established by or under the laws of the United States or a State, and not registered in a foreign country” includes all vessels owned by citizens of the United States (as defined in 5107(7)) [sic] and not registered under the laws of a foreign country, wherever the vessels may be located.

Clause (4) regarding “a public vessel of the United States” includes all United States public vessels.

Clause (5) regarding “a vessel otherwise subject to the jurisdiction of the United States” includes foreign vessels that are subject to United States jurisdiction as a result of bilateral agreements, licenses, customary international law or other means, including those using deepwater port or outer continental shelf or EEZ facilities located in areas subject to the jurisdiction of the United States.

Section 5102(b) lists the specific exemptions from load line requirements. The specific exemptions may be grouped as follows:

(a) Vessel type (ships of war, pleasure vessels, fishing vessels, small passenger vessels on domestic voyages);

(b) Area of operation (rivers, harbors, bays, sounds, etc.);

(c) Minimum size (length); and

(d) Treaty exclusions.

Clause (1) exempts vessels of war from load line requirements.

Clause (2) exempts recreational vessels operated only for pleasure from load line requirements.

Clause (3) exempts fishing vessels from load line requirements.

Clauses (4) and (5) exempt certain existing fish processing and fish tender vessels not on a foreign voyage from load line requirements. The exception is limited to those vessels not on international voyages to ensure compliance with United States obligations under the International Load Line Convention.

Clause (6) exempts from load line requirements all U.S. vessels operating on domestic voyages within the Boundary Line, as defined in section 2101 of this title, except vessels operating on the Great Lakes.

Clause (7) exempts all vessels that are less than 24 meters (79 feet) in length from load line requirements whether on international or domestic voyages.

Clause (8) exempts from load line requirements those public vessels that are on domestic voyages.

Clause (9) exempts from load line requirements those vessels which have been excluded from the require-

ments “by specific action of a treaty of the United States.” The only current treaty which excludes vessels from load line requirements is the Convention Between the United States of America and the Dominion of Canada Concerning Load Lines (49 Stat. 2685), which entered into force on August 11, 1934.

Clause (10) exempts from load line requirements existing U.S. vessels that are under 150 gross tons while engaged on a domestic voyage. This is a grandfather provision, continuing the existing exemption for these vessels. Vessels built after January 1, 1986 must be marked with a load line, however, if they are over 79 feet long and do not qualify for any other exemption.

Clause (11) exempts small passenger vessels engaged on domestic voyages from load line requirements. Small passenger vessels are inspected under Subchapter T of Title 46 of the Code of Federal Regulations. Under Subchapter T, the Coast Guard regulates these vessels with regard to safety; the requirements are based on the number of passengers, length, and gross tonnage of the vessel. Safety-related requirements in Subchapter T regulations include hull structure and watertightness, stability, weathertight integrity, and safe movement of persons on deck, the principal safety features covered by load line regulations. This specific exemption from load line requirements for small passenger vessels is consistent with existing law and does not alter in any way the Coast Guard’s authority to regulate small passenger vessels under Subchapter T.

Clause (12) exempts vessels of the working voyages from the requirement to have load lines.

Section 5102(c) authorizes the Secretary to assign load lines for any vessel exempted from load line requirements by subsection (b) upon the request of the owner. It also provides that any exempted vessel for which load lines are assigned will remain subject to the load line requirements until its load line certificate is surrendered and the load line marks are removed.

Section 5102(d) provides that this chapter shall not be construed as abrogating the provisions of other treaties and conventions to which the United States is a party, which are not in conflict with the International Convention on Load Lines.

#### EFFECTIVE DATE OF 1990 AMENDMENT

Amendment by Pub. L. 101–595 effective Nov. 16, 1990, with provision that before Jan. 1, 2003, a fish tender vessel is exempt from this chapter when engaged in Aleutian trade if the vessel either operated in that trade before Sept. 8, 1990, or was purchased before that date to be used in such trade and entered into service in that trade before June 1, 1992, did not undergo a major conversion, and did not have a load line assigned at any time before Nov. 16, 1990, see section 602(f) of

Pub. L. 101–595, set out as a note under section 4502 of this title.

#### FISH TENDER VESSELS IN ALEUTIAN TRADE

Pub. L. 107–295, title IV, § 436(b), (c), Nov. 25, 2002, 116 Stat. 2129, provided that:

“(b) IMPLEMENTATION.—Except as provided in subsection (c), a fish tender vessel that before January 1, 2003, transported cargo (not including fishery related products) in the Aleutian trade is subject to chapter 51 of title 46, United States Code (as amended by subsection (a) of this section [amending this section]).

“(c) EXCEPTION.—

“(1) IN GENERAL.—Before December 31, 2006, the BOWFIN (United States official number 604231) is exempt from chapter 51 of title 46, United States Code (as amended by subsection (a) of this section) when engaged in the Aleutian trade, if the vessel does not undergo a major conversion.

“(2) ENSURING SAFETY.—Before the date referred to in paragraph (1), a Coast Guard official who has reason to believe that the vessel referred to in paragraph (1) operating under this subsection is in a condition or is operated in a manner that creates an immediate threat to life or the environment or is operated in a manner that is inconsistent with section 3302 of title 46, United States Code, may direct the master or individual in charge to take immediate and reasonable steps to safeguard life and the environment, including directing the vessel to a port or other refuge.”

[For transfer of authorities, functions, personnel, and assets of the Coast Guard, including the authorities and functions of the Secretary of Transportation relating thereto, to the Department of Homeland Security, and for treatment of related references, see sections 468(b), 551(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.]

#### § 5103. Load line requirements

(a) A vessel may be operated only if the vessel has been assigned load lines.

(b) The owner, charterer, managing operator, agent, master, and individual in charge of a vessel shall mark and maintain the load lines permanently and conspicuously in the way prescribed by the Secretary.

(Pub. L. 99–509, title V, § 5101(2), Oct. 21, 1986, 100 Stat. 1915.)

#### HISTORICAL AND REVISION NOTES

##### Revised section 5103

Source: Section (U.S. Code) 46 App. U.S.C. 86c, 88b.

Section 5103(a) prohibits a vessel that is subject to load line requirements from operating, unless it has load lines assigned by the Secretary.

Section 5103(b) requires that load lines be permanently and conspicuously maintained in the manner prescribed by the Secretary.

#### § 5104. Assignment of load lines

(a) The Secretary shall assign load lines for a vessel so that they indicate the minimum safe freeboard to which the vessel may be loaded. However, if the owner requests, the Secretary may assign load lines that result in greater freeboard than the minimum safe freeboard.

(b) In assigning load lines for a vessel, the Secretary shall consider—

(1) the service, type, and character of the vessel;

(2) the geographic area in which the vessel will operate; and

(3) applicable international agreements to which the United States Government is a party.

(c) An existing vessel may retain its load lines assigned before January 1, 1986, unless the Secretary decides that a substantial change in the vessel after those load lines were assigned requires that new load lines be assigned under this chapter.

(d) The minimum freeboard of an existing vessel may be reduced only if the vessel complies with every applicable provision of this chapter.

(e) The Secretary may designate by regulation specific geographic areas that have less severe weather or sea conditions and from which there is adequate time to return to available safe harbors. The Secretary may reduce the minimum freeboard of a vessel operating in these areas.

(Pub. L. 99-509, title V, § 5101(2), Oct. 21, 1986, 100 Stat. 1915.)

HISTORICAL AND REVISION NOTES

*Revised section 5104*

Source: Section (U.S. Code) 46 App. U.S.C. 86c, 88a.

Section 5104(a) requires the Secretary to assign load lines indicating the minimum safe freeboard to which a vessel may be loaded. It also authorizes the Secretary to assign a load line that results in a freeboard that is greater than the minimum freeboard, if the owner requests.

Section 5104(b) sets forth guidelines that the Secretary must consider when assigning load lines on vessels.

Section 5104(c) allows an existing vessel to retain its load line assigned before January 1, 1986, unless the Secretary decides that a change made in the vessel requires the assignment of a new load line.

Section 5104(d) is a new provision that requires that a vessel comply with all the provisions of this chapter before the Secretary will consider a reduction in its minimum freeboard. This provision is similar to Article 4(4) of the International Convention on Load Lines.

Section 5104(e) is a new provision that authorized the Secretary to designate specific geographic areas having relatively non-severe weather or sea conditions and from which there is adequate time to return to safe harbors. Section 5104(e) also authorizes the Secretary to reduce the minimum freeboard of vessels operating in these areas. Regulations that have been issued under this authority (46 C.F.R. 44) authorize special service load lines for vessels operating not more than 20 nautical miles offshore or between islands in a group.

**§ 5105. Load line surveys**

(a) The Secretary may provide for annual, renewal, and other load line surveys.

(b) In conducting a load line survey, the Secretary shall consider whether—

(1) the hull and fittings of the vessel—

(A) are adequate to protect the vessel from the sea; and

(B) meet other requirements the Secretary may prescribe by regulation;

(2) the strength of the hull is adequate for all loading conditions;

(3) the stability of the vessel is adequate for all loading conditions;

(4) the topsides of the vessel are arranged and constructed to allow rapid overboard drainage of deck water in heavy weather; and

(5) the topsides of the vessel are adequate in design, arrangement, and equipment to protect crewmembers performing outside tasks necessary for safe operation of the vessel.

(Pub. L. 99-509, title V, § 5101(2), Oct. 21, 1986, 100 Stat. 1916.)

HISTORICAL AND REVISION NOTES

*Revised section 5105*

Section 5105 authorizes the Secretary of Transportation to provide for load line surveys and requires that while conducting a load line survey, the Secretary must consider various strength, stability, design, and construction features of the vessel.

**§ 5106. Load line certificate**

(a) On finding that a load line survey of a vessel under this chapter is satisfactory and that the vessel's load lines are marked correctly, the Secretary shall issue the vessel a load line certificate and deliver it to the owner, master, or individual in charge of the vessel.

(b) The certificate shall be maintained as required by the Secretary.

(Pub. L. 99-509, title V, § 5101(2), Oct. 21, 1986, 100 Stat. 1916.)

HISTORICAL AND REVISION NOTES

*Revised section 5106*

Source: Section (U.S. Code) 46 App. U.S.C. 86c.

Section 5106(a) requires the Secretary to issue a load line certificate upon finding that a vessel has received a satisfactory load line survey and that the vessel's load line is marked correctly.

Section 5106(b) requires that the load line certificate be maintained as required by the Secretary of Transportation. It is expected that the Secretary will require in most cases that the certificate be carried on board the vessel. However, certain types of vessels such as barges do not have facilities for the carriage of certificates. In this case, this provision would give the Secretary the discretion to require that the certificates for the barges be carried on the towing vessels.

**§ 5107. Delegation of authority**

(a) The Secretary shall delegate to the American Bureau of Shipping or other similarly qualified organizations the authority to assign load lines, survey vessels, determine that load lines are marked correctly, and issue load line certificates under this chapter.

(b) Under regulations prescribed by the Secretary, a decision of an organization delegated authority under subsection (a) of this section related to the assignment of a load line may be appealed to the Secretary.

(c) For a vessel intended to be engaged on a foreign voyage, the Secretary may delegate to another country that is a party to the International Convention on Load Lines, 1966, the authority to assign load lines, survey vessels, determine that the load lines are marked correctly, and issue an International Load Line Certificate (1966).

(d) The Secretary may terminate a delegation made under this section after giving written notice to the organization.

(Pub. L. 99-509, title V, § 5101(2), Oct. 21, 1986, 100 Stat. 1916.)

HISTORICAL AND REVISION NOTES

*Revised section 5107*

Source: Section (U.S. Code) 46 App. U.S.C. 86d, 88b.

Section 5107(a) requires the Secretary to delegate the performance of various load line functions to the American Bureau of Shipping or other similarly qualified organizations. In providing for the delegation to a "similarly qualified organization," the Committee expects that the Secretary will ensure that that organization

complies with the same stringent standards and requirements for conducting business that apply to the American Bureau of Shipping.

Section 5107(b) permits an appeal to the Secretary of a decision by an organization that has received delegated authority. This ensures that the Secretary has full oversight of the delegated load line functions.

Section 5107(c) permits the Secretary to delegate various load line functions to another country for vessels that are engaged on a foreign voyage, provided that the country is a party to the International Convention on Load Lines, 1966.

Section 5107(d) clarifies the Secretary's authority to revoke a delegation at any time without cause. This authority is given so that no delay occurs administratively in revoking a delegation whenever the Secretary decides a revocation is warranted.

### § 5108. Special exemptions

(a) The Secretary may exempt a vessel from any part of this chapter when—

- (1) the vessel is entitled to an exemption under an international agreement to which the United States Government is a party; or
- (2) under regulations (including regulations on special operations conditions) prescribed by the Secretary, the Secretary finds that good cause exists for granting an exemption.

(b) When the Secretary grants an exemption under this section, the Secretary may issue a certificate of exemption stating the extent of the exemption.

(c) A certificate of exemption issued under subsection (b) of this section shall be maintained as required by the Secretary.

(Pub. L. 99-509, title V, § 5101(2), Oct. 21, 1986, 100 Stat. 1916.)

#### HISTORICAL AND REVISION NOTES

##### *Revised section 5108*

Source: Section (U.S. Code) 46 App. U.S.C. 86e, 88a.

Section 5108(a) authorizes the Secretary to exempt a vessel from load line requirements if the vessel is entitled to an exemption under an international agreement to which the United States is a party. It also provides the Secretary with the new authority to exempt a vessel from load line requirements if the Secretary finds that there is good reason for granting the exemption. A specific exemption from load line requirements was authorized in Public Law 98-557 for barges operating close to shore between Calumet Harbor, Illinois and Burns Harbor, Indiana, because the geographic area and type of operation in this case did not warrant a requirement for load lines. Additional exemptions currently must be made by an Act of Congress. Section 5108(a) authorizes the Secretary to make such exemptions through regulation, and the Committee expects the Secretary to continue the exemption under this provision for vessels operating close to shore between Calumet Harbor, Illinois and Burns Harbor, Indiana.

Section 5108(b) authorizes the Secretary to issue a certificate of exemption when an exemption is granted.

Section 5108(c) requires that the certificate of exemption be maintained as required by the Secretary in a similar manner as under section 5106(b).

### § 5109. Reciprocity for foreign vessels

(a) When the Secretary finds that the laws and regulations of a foreign country related to load lines are similar to those of this chapter and the regulations prescribed under this chapter, or when a foreign country is a party to an international load line agreement to which the United States Government is a party, the Sec-

retary shall accept the load line marks and certificate of a vessel of that foreign country as complying with this chapter and the regulations prescribed under this chapter. The Secretary may control the vessel as provided for in the applicable international agreement.

(b) Subsection (a) of this section does not apply to a vessel of a foreign country that does not recognize load lines assigned under this chapter.

Section 5109(a) requires the Secretary to accept the load line mark and load line certificate of a vessel of a foreign country if the Secretary finds that the load line laws and regulations of that country are similar to those of this chapter, or if that country is a party to an international load line agreement to which the United States is a party.

### § 5110. Submersible vessels

Notwithstanding sections 5103-5105 of this title, the Secretary may prescribe regulations for submersible vessels to provide a minimum level of safety. In developing the regulations, the Secretary shall consider factors relevant to submersible vessels, including the structure, stability, and watertight integrity of those vessels.

Section 5110 authorizes the Secretary to prescribe regulations for the marking of load lines of submersible vessels. This general authority has been included in anticipation of the commercial development of submersibles.

### § 5111. Providing loading information

The Secretary may prescribe regulations requiring the owner, charterer, managing operator, and agent of a vessel to provide loading information (including information on loading distribution, stability, and margin of strength) to the master or individual in charge of the vessel in a language the master or individual understands.

(Pub. L. 99-509, title V, § 5101(2), Oct. 21, 1986, 100 Stat. 1917.)

#### HISTORICAL AND REVISION NOTES

Section 5111 authorizes the Secretary to prescribe regulations requiring that the master of a vessel be provided with loading and stability information for the vessel that the master understands.

### § 5112. Loading restrictions

(a) A vessel may not be loaded in a way that submerges the assigned load line or the place at which the load line is required to be marked on the vessel.

(b) If the loading or stability conditions of a vessel change, the master or individual in charge of the vessel, before moving the vessel, shall record in the official logbook or other permanent record of the vessel—

- (1) the position of the assigned load line relative to the water surface; and  
 (2) the draft of the vessel fore and aft.

(c) A vessel may be operated only if the loading distribution, stability, and margin of strength are adequate for the voyage or movement intended.

(d) Subsections (a) and (b) of this section do not apply to a submersible vessel.

Section 5112(d) provides that subsections (a) and (b) do not apply to a submersible vessel.

#### § 5113. Detention of vessels

(a) When the Secretary believes that a vessel is about to leave a place in the United States in violation of this chapter or a regulation prescribed under this chapter, the Secretary may detain the vessel by giving notice to the owner, charterer, managing operator, agent, master, or individual in charge of the vessel.

(b) A detained vessel may be cleared under section 4197 of the Revised Statutes (46 App. U.S.C. 91) only after the violation has been corrected. If the vessel was cleared before being detained, the clearance shall be withdrawn.

(c) Under regulations prescribed by the Secretary, the owner, charterer, managing operator, agent, master, or individual in charge of a detained vessel may petition the Secretary to review the detention order.

(d) After reviewing a petition, the Secretary may affirm, withdraw, or change the detention order. Before acting on the petition, the Secretary may require any independent survey that may be necessary to determine the condition of the vessel.

(e) The owner of a vessel is liable for the cost incident to a petition for review and any required survey if the vessel is found to be in violation of this chapter or a regulation prescribed under this chapter.

Section 5114(a) authorizes the Secretary to use a Customs Service officer or employee to enforce load line requirements. The expected role of a Customs Service officer or employee in this regard is to ensure that a vessel is carrying a load line certificate and that the load line is not submerged.

Section 5114(b) requires the Secretary to consult with the Secretary of the Treasury before prescribing a regulation that affects the enforcement responsibilities of a Customs Service officer or employee.

The monetary penalties have not been changed since the 1930's.

Section 5116(a) raises from \$1,000 to \$5,000 the maximum penalty for violation of a load line provision under this chapter or a regulation promulgated under this chapter.

Section 5116(b) raises from \$1,000 to \$10,000 the maximum penalty for loading a vessel in such a way as to submerge the load line. In addition, a violator must pay up to two times the amount of the economic benefit of the overloading.

Section 5116(c) raises from \$500 to \$5,000 the maximum penalty for a violation of the requirement in section 5112(b) that the load line position and draft of a vessel be noted in the logbook.

Section 5116(a)-(c) also states that the vessel is liable in rem for the penalty.

Section 5116(d) raises from \$1,000 to \$10,000 the maximum penalty for a violation of a detention order and may also include imprisonment for up to one year.

Section 5116(e) raises from \$2,000 to \$10,000 the maximum penalty for the alteration, removal, or concealment of a load line mark and may also include imprisonment for two years.

#### AMENDMENTS

1988—Pub. L. 100-424, § 4(c), Sept. 9, 1988, 102 Stat. 1591, added item 6104.

- (1) death of an individual.
- (2) serious injury to an individual.
- (3) material loss of property.
- (4) material damage affecting the seaworthiness or efficiency of the vessel.

[ (c) Repealed. Pub. L. 98-498, title II, § 212(b)(1)(B), Oct. 19, 1984, 98 Stat. 2306.]

(d)(1) This part applies to a foreign vessel when involved in a marine casualty on the navigable waters of the United States.

(2) This part applies, to the extent consistent with generally recognized principles of international law, to a foreign vessel constructed or adapted to carry, or that carries, oil in bulk as cargo or cargo residue involved in a marine casualty described under subsection (a)(4) or (5) in waters subject to the jurisdiction of the United States, including the Exclusive Economic Zone.

(e) A marine casualty not resulting in the death of an individual shall be classified according to the gravity of the casualty, as prescribed by regulation, giving consideration to the extent of injuries to individuals, the extent of property damage, the dangers that the casualty creates, and the size, occupation, and means of propulsion of each vessel involved.

(f)(1) This chapter applies to a marine casualty involving a United States citizen on a foreign passenger vessel operating south of 75 degrees north latitude, west of 35 degrees west longitude, and east of the International Date Line; or operating in the area south of 60 degrees south latitude that—

(A) embarks or disembarks passengers in the United States; or

(B) transports passengers traveling under any form of air and sea ticket package marketed in the United States.

(2) When there is a marine casualty described in paragraph (1) of this subsection and an investigation is conducted, the Secretary shall ensure that the investigation—

- (A) is thorough and timely; and
- (B) produces findings and recommendations to improve safety on passenger vessels.

(3) When there is a marine casualty described in paragraph (1) of this subsection, the Secretary may—

- (A) seek a multinational investigation of the casualty under auspices of the International Maritime Organization; or
- (B) conduct an investigation of the casualty under chapter 63 of this title.

(g)<sup>1</sup> To the extent consistent with generally recognized practices and procedures of international law, this part applies to a foreign vessel involved in a marine casualty or incident, as defined in the International Maritime Organization Code for the Investigation of Marine Casualties and Incidents, where the United States is a Substantially Interested State and is, or has the consent of, the Lead Investigating State under the Code.

(g)(1)<sup>1</sup> The Secretary shall publish all major marine casualty reports prepared in accordance with this section in an electronic form, and shall provide information electronically regarding how other marine casualty reports can be obtained.

(2) For purposes of this paragraph, the term “major marine casualty” means a casualty involving a vessel, other than a public vessel, that results in—

- (A) the loss of 6 or more lives;

Section 6101(a) requires the Secretary to prescribe regulations on the types and manner of reporting of marine casualties to be reported under subsection (b) and incidents to be reported under subsection (c). The casualties to be reported must include casualties involving death to an individual, serious injury to an individual, material loss of property, and any damage affecting the seaworthiness or efficiency of the vessel, in

<sup>1</sup> So in original. Two subssecs. (g) have been enacted.

addition to the other casualties (if any) the Secretary feels should be reported.

Subsection (b) requires the owner, charterer, agent, master, operator, or individual in charge of a vessel to report within 5 days, any casualty required in subsection (a) or by regulation.

Subsection (c) requires the owner, charterer, managing operator, or agent of a U.S. vessel to immediately determine the status of their vessel if they have not heard from the vessel, if it has not passed a scheduled point, or for any other reason which may indicate the vessel may have been lost or imperiled. If the owner, charterer, managing operator, or agent cannot reach the vessel and determine that it is operating safely, then they shall immediately notify the Coast Guard and provide the Coast Guard with the name and number of the vessel, the names of individuals on board, and any other information that the Coast Guard may request. If communication with the vessel indicates the vessel was involved in a casualty, then the owner, charterer, or agent of the vessel must immediately notify the Coast Guard under subsection (b). Notification to the Coast Guard does not impose or create any additional responsibility for the Coast Guard to take search and rescue action beyond those already existing under title 14, United States Code.

Subsection (d) makes it clear that the reporting requirements under subsection (b) are applicable to foreign vessels involved in a marine casualty when operating on the navigable waters of the United States, whether in innocent passage or not.

Subsection (e) provides for the classification of marine casualties by regulation according to the gravity of the casualty, injuries to individuals, property damage, dangers created, and size, occupation, and means of propulsion of each vessel.

Section 6302 provides that each investigation conducted under this chapter shall be open to the public, except when evidence affecting the national security of the United States is to be received.

§ 6303. Rights of parties in interest

In an investigation conducted under this chapter, the following shall be allowed to be represented by counsel, to cross-examine witnesses, and to call witnesses:

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
6303 .....	46:239(d)

Section 6303 provides for the rights of parties in interest to an investigation by allowing them to be represented by counsel, to cross examine witnesses, and to call witnesses. This section merely states the rights of a party in interest but does not necessarily determine who is to be considered a party in interest. Clause (4) states that these rights are to be afforded to "any other person whose conduct is under investigation" (emphasis added). This implies that clauses (1) through (3) apply to individuals whose conduct is under investigation. If any individual does not qualify for these rights under clauses (1) through (4), that individual can still be entitled to these rights under clause (5), if designated as a party in interest. Since parties in interest are not clearly set out by statute, the Secretary has the authority to do this by regulation under section 6301. Thus the rights of these parties as presently provided for in existing law have been retained.

§ 6304. Subpena authority

(a) In an investigation under this chapter, the attendance and testimony of witnesses, includ-

ing parties in interest, and the production of any evidence may be compelled by subpoena. The subpoena authority granted by this section is co-extensive with that of a district court of the United States, in civil matters, for the district in which the investigation is conducted.

(b) When a person fails to obey a subpoena issued under this section, the district court of the United States for the district in which the investigation is conducted or in which the person failing to obey is found, shall on proper application issue an order directing that person to comply with the subpoena. The court may punish as contempt any disobedience of its order.

(c) A witness complying with a subpoena issued under this section may be paid for actual travel and attendance at the rate provided for witnesses in the district courts of the United States.

(d) An official designated to conduct an investigation under this part may issue subpoenas as provided in this section and administer oaths to witnesses.

Section 6304 provides an officer investigating a marine casualty with the necessary subpoena authority to require the attendance and testimony of witnesses and the production of evidence. It also authorizes a district court of the United States to direct compliance with a subpoena.

§ 6305. Reports of investigations

(a) The Secretary shall prescribe regulations about the form and manner of reports of investigations conducted under this part.

(b) Reports of investigations conducted under this part shall be made available to the public. This subsection does not require the release of information described by section 552(b) of title 5 or protected from disclosure by another law of the United States.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 538; Pub. L. 105-383, title III, §305, Nov. 13, 1998, 112 Stat. 3420.)

Subsection (b) requires the Coast Guard to supply the Merchant Marine and Fisheries Committee and the Senate Commerce Committee with any requested marine casualty information, if its release is not specifically prohibited by law.

Subsection (c) requires the Secretary to submit an annual report to Congress summarizing the marine casualties reported during the prior fiscal year, with a brief statement of action taken concerning those casualties.

AMENDMENTS

2002—Subsec. (a). Pub. L. 107-295 substituted “Transportation and Infrastructure” for “Merchant Marine and Fisheries”.

§ 6308. Information barred in legal proceedings

(a) Notwithstanding any other provision of law, no part of a report of a marine casualty investigation conducted under section 6301 of this title, including findings of fact, opinions, recommendations, deliberations, or conclusions, shall

be admissible as evidence or subject to discovery in any civil or administrative proceedings, other than an administrative proceeding initiated by the United States. Any employee of the Department of Transportation, and any member of the Coast Guard, investigating a marine casualty pursuant to section 6301 of this title, shall not be subject to deposition or other discovery, or otherwise testify in such proceedings relevant to a marine casualty investigation, without the permission of the Secretary of Transportation. The Secretary shall not withhold permission for such employee or member to testify, either orally or upon written questions, on solely factual matters at a time and place and in a manner acceptable to the Secretary if the information is not available elsewhere or is not obtainable by other means.

(b) Nothing in this section prohibits the United States from calling the employee or member as an expert witness to testify on its behalf. Further, nothing in this section prohibits the employee or member from being called as a fact witness in any case in which the United States is a party. If the employee or member is called as an expert or fact witness, the applicable Federal Rules of Civil Procedure govern discovery. If the employee or member is called as a witness, the report of a marine casualty investigation conducted under section 6301 of this title shall not be admissible, as provided in subsection (a), and shall not be considered the report of an expert under the Federal Rules of Civil Procedure.

(c) The information referred to in subsections (a) and (b) of this section shall not be considered an admission of liability by the United States or by any person referred to in those conclusions and statements.

The requirement for an oath, drawn from a clause which had appeared in 46 U.S.C. 672(g), and administered by the Coast Guard to all applicants, was repealed in a 1980 amendment by section 4 of Public Law 96-378 (94 Stat. 1516). Since no specific comment was made regarding the elimination in 1980 and the agency has continued to administer an oath to all applicants, this provision is being reinstated. The Committee believes the oath will contribute to the discipline and order necessary in the merchant marine.

HISTORICAL AND REVISION NOTES

Table with 2 columns: Revised section, Source section (U.S. Code). Rows include 7704(a), 7704(b), and 7704(c) with corresponding source sections.

Section 7704 requires the Secretary to revoke the license, certificate, or document of any individual who has been convicted of a dangerous drug law within 10 years before the beginning of the suspension or revocation procedures. This section has expanded current law to incorporate violations involving “controlled substances” which are not narcotic. This includes PCP and LSD. Unless it can be done under existing law, the suspension or revocation of an individual’s license based on the use of a “controlled substance” only applies to the use or conviction after the date of enactment of this Act.

This section also provides that anyone who has been a user of or addicted to a dangerous drug since July 14, 1954, may be subjected to revocation procedures unless the individual provides satisfactory proof of being cured.

In sections 7503(b)(2) and 7704(c), the term “use”, when applying to “narcotic drugs” or “controlled substances”, is not intended to include the use of “off the shelf” drugs or drugs acquired with a prescription lawfully issued by a medical doctor, as long as the drugs are used by the individual in the recommended amounts and the drugs will not impair the individual’s ability to perform duties.

AMENDMENTS

2004—Subsec. (b). Pub. L. 108-293 inserted “suspended or” after “shall be”.

1990—Subsec. (a). Pub. L. 101-380 struck out subsec. (a) which defined “dangerous drug” for purpose of this section as narcotic drug, controlled substance, and marihuana.

1985—Subsec. (b). Pub. L. 99-36, §1(a)(9)(F), substituted “merchant mariner’s document” for first reference to “document”.

Subsec. (c). Pub. L. 99-36, §1(a)(9)(G), substituted “certificate of registry, or merchant mariner’s document” for “certificate, or document”.

(b) The jurisdictional limits of a subpoena issued under this section are the same as, and are enforceable in the same manner as, subpoenas issued under chapter 63 of this title.

#### § 8101. Complement of inspected vessels

(a) The certificate of inspection issued to a vessel under part B of this subtitle shall state the complement of licensed individuals and crew (including lifeboatmen) considered by the Secretary to be necessary for safe operation. A manning requirement imposed on—

(1) a sailing school vessel shall consider the participation of sailing school instructors and sailing school students in the operation of that vessel;

(2) a mobile offshore drilling unit shall consider the specialized nature of the unit; and

(3) a tank vessel shall consider the navigation, cargo handling, and maintenance functions of that vessel for protection of life, property, and the environment.

(b) The Secretary may modify the complement, by endorsement on the certificate, for reasons of changed conditions or employment.

(c) A requirement made under this section by an authorized official may be appealed to the Secretary under prescribed regulations.

(d) A vessel to which this section applies may not be operated without having in its service the complement required in the certificate of inspection.

(e) When a vessel is deprived of the service of a member of its complement without the consent, fault, or collusion of the owner, charterer, managing operator, agent, master, or individual in charge of the vessel, the master shall engage, if obtainable, a number of members equal to the number of those of whose services the master has been deprived. The replacements must be of the same or a higher grade or rating than those whose places they fill. If the master finds the vessel is sufficiently manned for the voyage, and replacements are not available to fill all the vacancies, the vessel may proceed on its voyage. Within 12 hours after the vessel arrives at its destination, the master shall report in writing to the Secretary the cause of each deficiency in the complement. A master failing to make the report is liable to the United States Government for a civil penalty of \$1,000 for each deficiency.

(f) The owner, charterer, or managing operator of a vessel not manned as required by this section is liable to the Government for a civil penalty of \$10,000.

(g) A person may not employ an individual as, and an individual may not serve as, a master, mate, engineer, radio officer, or pilot of a vessel to which this part applies or which is subject to inspection under chapter 33 of this title if the individual is not licensed by the Secretary. A person (including an individual) violating this subsection is liable to the Government for a civil penalty of not more than \$10,000. Each day of a continuing violation is a separate offense.

(h) The owner, charterer, or managing operator of a freight vessel of less than 100 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title, a small passenger vessel, or a sailing school vessel not manned as required by this section is liable to the Government for a civil penalty of \$1,000. The vessel also is liable in rem for the penalty.

(i) When the 2 next most senior licensed officers on a vessel reasonably believe that the master or individual in charge of the vessel is under the influence of alcohol or a dangerous drug and is incapable of commanding the vessel, the next most senior master, mate, or operator licensed under section 7101(c)(1) or (3) of this title shall—

(1) temporarily relieve the master or individual in charge;

(2) temporarily take command of the vessel;

(3) in the case of a vessel required to have a log under chapter 113 of this title, immediately enter the details of the incident in the log; and

(4) report those details to the Secretary—

(A) by the most expeditious means available; and

(B) in written form transmitted within 12 hours after the vessel arrives at its next port.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
8101 .....	46:222 46:224 46:446d

Section 8101 provides for the required composition of the complement of licensed individuals and crew of an inspected vessel when being operated.

Subsection (a) requires that the certificate of inspection for a vessel state the manning necessary for safe navigation. Manning means the complement of licensed officers and crew (including lifeboatmen). Any manning requirements for sailing school vessels shall take into account the participation of sailing school instructors and sailing school students in the operation of those vessels.

Subsection (b) permits the Secretary to modify the manning requirements for reasons of changed conditions or employment.

Subsection (c) permits an appeal to the Secretary of any manning requirements made by an authorized official.

Subsection (d) prohibits the operation of a vessel without the manning required in the vessel's certificate of inspection.

When a vessel has a vacancy in the manning required by its certificate of inspection without the consent, fault, or collusion of anyone responsible for the management or operation of the vessel, subsection (e) requires that the master hire replacements, if possible, in the same or higher grade or rating. However, if the master finds the vessel sufficiently manned and replacements are not available, the vessel may proceed on its voyage. Within 12 hours of arrival at its destination, the master is required to file a written report with the Secretary stating the cause of each deficiency or be liable for a civil penalty. The report of deficiency should include both the reason for the vacancy in the first instance and the reason for the unavailability of a qualified replacement.

Subsections (f), (g) and (h) prescribe civil penalties for noncompliance with manning requirements. Subsection (g) also prohibits the employment or service of an individual in a licensed capacity who is not licensed by the Secretary.

8103 .....	46:221 46:236 46:672(h) 46:672a 46:690 46:1132

Section 8103 sets forth the requirements for citizenship and Naval Reserve membership for the complement on a vessel documented under the laws of the United States.

Subsection (a) requires that the master, chief engineer, or officer in charge of a deck or engineering watch on a United States documented vessel be a United States citizen.

Subsection (b) requires that 75 percent of the seamen, excluding licensed individuals, on a United States documented vessel be United States citizens, except for a fishing or whaling vessel or yacht. The Secretary may reduce the percentage if the Secretary decides on investigation that United States seamen are not available. This investigation and percentage reduction authority is the sole responsibility of the Secretary of Transportation and accordingly the Secretary is to make these decisions expeditiously, promptly, and independently so as not to be dependent on any other agency to make this reduction. The Committee believes the Secretary is capable of this decision and need not delay or fail to make the decision because some other agency does not have the information or would require an extended period to acquire that information. The phrase “for any reason” is used merely to emphasize the complete discretion of the Secretary in making this decision. In addition, because this decision is based on an investigation, formal procedures of the Administrative Procedure Act do not apply.

Subsections (c) and (d) provide that a vessel, except a passenger vessel, on departure from the United States that has been granted a construction or operating differential subsidy have a higher percentage citizenship requirement. Subsection (c) requires all of the crew and employees of a cargo vessel be United States citizens. Subsection (d) requires at least 90 percent of the entire complement of a passenger vessel be United States citizens. The phrase “including all licensed individuals” emphasizes that all licensed individuals are required to be United States citizens as required by subsection (a) and that they compose part of the 90 percent requirement under this subsection. Further, under subsection (d), the balance of the complement must be individuals who have a declaration of intention to become a United States citizen or evidence of admission to the United States as a permanent resident and may only be employed in the steward’s department of the passenger vessel.

Except for the master, subsection (e) permits a non-United States citizen to fill a vacancy that occurs for any reason on a United States documented vessel during a foreign voyage until the vessel returns to a United States port where a United States citizen replacement can be obtained. The phrase “for any reason” is used merely for emphasis.

Subsection (f) provides for the penalty for violation of this section.

Subsection (g) requires a deck or engineer officer on a vessel that has been granted an operating differential subsidy or is under the control by the Department of Transportation to be, if eligible, a member of the Naval Reserve. This section does not apply to a vessel of the Coast Guard or the Saint Lawrence Seaway Development Corporation.

Subsection (h) permits the President to suspend the requirements of this section during a proclaimed national emergency or the requirement of subsection (a) for United States vessels documented for foreign trade when the needs of commerce require.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
8104 .....	46:235 46:405(b) 46:673

Section 8104 prescribes certain working hours and conditions under which working hours are set. The Committee intends that these sections be interpreted in a manner consistent with one another.

Subsection (a) permits an individual to take charge of the deck watch on leaving port and immediately thereafter only if the individual has been off duty for 6 of the 12 hours immediately prior to departure.

Subsection (b) prohibits a licensed individual from being required to work more than 9 of 24 hours in port or more than 12 of 24 hours at sea on an oceangoing or coastwise vessel of not more than 100 gross tons, except in an emergency.

Subsection (c) prescribes a maximum 8-hour day for licensed individuals and seamen on towing vessels operating on the Great Lakes and certain connecting or tributary waters.

Subsection (d) requires certain members of the complement of certain merchant vessels of more than 100 gross tons to be divided into at least 3 successive watches when at sea. This requirement applies to radio officers only when at least 3 radio officers are employed. Subsection (d) also prescribes a maximum 8-hour work day for licensed individuals and seamen on these vessels.

For the Great Lakes towing vessels and merchant vessels in subsections (c) and (d), subsection (e) requires that seamen be hired only for work in either the deck or the engine department. When in a safe harbor, seamen may be required to do only necessary work on Sundays and certain holidays, unless the vessel is getting underway on a voyage. Further, when in a safe harbor, this subsection restates the maximum 8-hour work day which applies even for anchor watch.

Subsection (f) states that the limitations in subsections (d) and (e) do not apply if the master or other officer decides the crew is needed for certain routine, safety, or rescue activities.

Subsection (g) provides that for a towing vessel (except a Great Lakes towing vessel under subsection (c)), offshore supply vessel, or barge on a voyage of less than 600 miles, the licensed officers and certain crewmembers may be divided into not less than two watches when at sea.

Subsection (h) provides that the licensed operator for a towing vessel at least 26 feet long may not be required to work more than 12 of 24 hours, except in an emergency.

Subsections (i) and (j) prescribe penalties for violations of the provisions of this section and, in certain instances, entitles the seaman to discharge and payment of wages.

HISTORICAL AND REVISION NOTES

For certain vessels of the United States, chapter 83 prescribes the minimum number of licensed individuals (including masters), establishes the staff department consisting of medical and clerical personnel, restricts service under certain licenses issued without examination, and implements the Officers' Competency Certificates Convention of 1936.

§ 8301. Minimum number of licensed individuals

(a) Except as provided in chapter 89 of this title and except for a vessel operating only on rivers, harbors, lakes (except the Great Lakes), bays, sounds, bayous, and canals, a vessel subject to inspection under chapter 33 of this title shall engage a minimum of licensed individuals as follows:

(1) Each of those vessels propelled by machinery or carrying passengers shall have a licensed master.

(2) A vessel of at least 1,000 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title and propelled by machinery shall have 3 licensed mates, except—

(A) in the case of a vessel other than a mobile offshore drilling unit, if on a voyage of less than 400 miles from port of departure to port of final destination, the vessel shall have 2 licensed mates; and

(B) in the case of a mobile offshore drilling unit, the vessel shall have licensed individuals as provided by regulations prescribed by the Secretary under section 8101 of this title.

(3) A vessel of at least 200 gross tons but less than 1,000 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title and propelled by machinery shall have 2 licensed mates.

(4) A vessel of at least 100 gross tons but less than 200 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title and propelled by machinery shall have one licensed mate. However, if the vessel is on a voyage of more than 24 hours, it shall have 2 licensed mates.

(5) A freight vessel or a passenger vessel of at least 300 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title and propelled by machinery shall have a licensed engineer.

(b) An offshore supply vessel on a voyage of less than 600 miles shall have a licensed mate. However, if the vessel is on a voyage of at least 600 miles, the vessel shall have 2 licensed mates. An offshore supply vessel of more than 200 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title may not be operated without a licensed engineer.

(c) Subsection (a) of this section does not apply to a fishing or whaling vessel, a mobile offshore drilling unit when on location, or a yacht.

(d) The Secretary may—

(1) suspend any part of this chapter during a national emergency proclaimed by the President; and

(2) increase the number of licensed individuals on a vessel to which this chapter applies if, in the Secretary’s judgment, the vessel is not sufficiently manned for safe operation.

(e) The Secretary may prescribe the minimum number of licensed individuals for an oil spill response vessel.

Section 8302 sets forth the organization and manning requirements of the staff department of a vessel. The staff department has medical and clerical responsibilities.

Subsection (a) applies this section to every United States vessel except a yacht, a fishing, whaling, or certain types of inland waterway vessel, and a ferry carrying passengers or cars on the Great Lakes. A ferry is a vessel that primarily carries passengers, cars, or trains from shore to shore as a means to connect existing points on a transportation route so that the same type of transportation mode may continue to be used upon arrival at either point. Vessels carrying cars as cargo would not be included in this type of vessel.

Subsection (b) establishes the staff department as a separate one consisting of registered individuals (purser, medical doctors, and professional nurses), clerks, and medical assistants. Subsection (c) divides the department into a medical division and a purser's division and designates the individual in charge of each division. Subsection (d) prescribes particular requirements of the purser's division based on size of the vessel or number of individuals employed in the division.

Subsection (e) prohibits the employment or service of an individual who is not registered or of the grade as required under this section and prescribes a penalty for violation of the subsection. This penalty applies to both the employer and the individual employed. If a registered staff officer is unavailable at the time of departure for a voyage, the vessel may proceed on its voyage with either an unregistered staff officer or without a staff officer.

Subsection (f) prohibits including a staff officer on a vessel's certificate of inspection.

Subsections (g) and (h) prescribe the type and restrictions for the uniform accouterments of a staff officer.

(d) A person (including an individual) violating this section is liable to the United States Government for a civil penalty of \$100.

(e) A license issued to an individual to whom this section applies is a certificate of competency.

(f) A designated official may detain a vessel to which this section applies (by written order served on the owner, charterer, managing operator, agent, master, or individual in charge of the vessel) when there is reason to believe that the vessel is about to proceed from a port of the United States to the high seas in violation of this section or a provision of the convention described in subsection (b) of this section. The vessel may be detained until the vessel complies with this section. Clearance may not be granted to a vessel ordered detained under this section.

CHAPTER 85—PILOTS

- Sec.
- 8501. State regulation of pilots.
- 8502. Federal pilots required.
- 8503. Federal pilots authorized.

HISTORICAL AND REVISION NOTES

Chapter 85 provides for State pilotage to be regulated by the States and only in conformity with the laws of the States. It clearly spells out the preeminence of the State's role in regulating pilots for vessels operating on the bays, rivers, harbors, and ports of the United States. However, those vessels that are required to have a Federally licensed pilot, those that operate on waters outside the territorial sea of the United States, and those that operate on waters of the Great Lakes are not subject to State pilotage laws or requirements. In essence this chapter, with minor changes, confirms the State and Federal relationship with respect to

pilotage that has evolved since the founding of the Nation.

This chapter permits the continuation of Federal pilotage requirements for vessels that are not required to obtain compulsory State pilotage. It confirms the practice of allowing anyone with a Federal pilotage endorsement for the waters in which the vessel is operating to be in control of a vessel when engaged in the coastwise trade. It also confirms the practice of using Federal pilots that are often organized into groups or working organizations who offer their expertise and services to vessels that are not required to obtain compulsory State pilotage.

AMENDMENTS

1984—Pub. L. 98-557, §29(f)(3)(B), Oct. 30, 1984, 98 Stat. 2874, added item 8503.

§ 8501. State regulation of pilots

(a) Except as otherwise provided in this subtitle, pilots in the bays, rivers, harbors, and ports of the United States shall be regulated only in conformity with the laws of the States.

(b) The master of a vessel entering or leaving a port on waters that are a boundary between 2 States, and that is required to have a pilot under this section, may employ a pilot licensed or authorized by the laws of either of the 2 States.

(c) A State may not adopt a regulation or provision that discriminates in the rate of pilotage or half-pilotage between vessels sailing between the ports of one State and vessels sailing between the ports of different States, or against vessels because of their means of propulsion, or against public vessels of the United States.

(d) A State may not adopt a regulation or provision that requires a coastwise vessel to take a pilot licensed or authorized by the laws of a State if the vessel—

- (1) is propelled by machinery and subject to inspection under part B of this subtitle; or
- (2) is subject to inspection under chapter 37 of this title.

(e) Any regulation or provision violating this section is void.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 553; Pub. L. 98-557, §29(e), Oct. 30, 1984, 98 Stat. 2874.)

Section 8501 establishes the general proposition that the States regulate pilots in the bays, rivers, harbors, and ports of the United States, unless otherwise specifically provided by law.

Subsection (a) states this general proposition and uses the word "only" for emphasis on this point. Further, except as specifically provided in law, the Committee intends that this chapter not be construed to annul or affect any regulation established by the laws of a State requiring a vessel entering or leaving a port in that State to employ a pilot licensed or authorized by the laws of that State. In at least two places in current law, this general proposition is stated in both a positive and negative manner. The Committee intends to consolidate those separate statements into one provision to avoid ambiguity and redundancy.

Subsections (b) and (c) contain provisions regarding pilotage in waters between two States.

Subsection (d) prohibits a State from requiring a State licensed pilot on certain coastwise vessels.

Subsection (e) voids any regulation or provision violating this section.

AMENDMENTS

1984—Subsec. (a). Pub. L. 98-557 substituted “sub-title” for “part”.

§ 8502. Federal pilots required

(a) Except as provided in subsections (g) and (i) of this section, a coastwise seagoing vessel shall be under the direction and control of a pilot licensed under section 7101 of this title if the vessel is—

- (1) not sailing on register;
- (2) underway;
- (3) not beyond 3 nautical miles from the baselines from which the territorial sea of the United States is measured; and
- (4)(A) propelled by machinery and subject to inspection under part B of this subtitle; or
- (B) subject to inspection under chapter 37 of this title.

(b) The fees charged for pilotage by pilots required under this section may not be more than the customary or legally established rates in the States in which the pilotage is performed.

(c) A State or political subdivision of a State may not impose on a pilot licensed under this subtitle an obligation to procure a State or other license, or adopt any other regulation that will impede the pilot in the performance of the pilot’s duties under the laws of the United States.

10311 .....	46:643

Section 10311 requires a shipping commissioner, when discharging a seaman, either to provide the seaman with a certificate of discharge or to make an entry in the seaman's continuous discharge book. It requires that certain facts be included in the certificate or in the entry, prohibits other information from being included, and requires the Secretary to keep records of all discharges, copies of which must be furnished to seamen at cost upon request. These discharges are used to substantiate the nature and duration of the seaman's employment on a particular vessel. This section does not apply to fishing vessels, whaling vessels, or yachts.

1993—Subsec. (a). Pub. L. 103-206, § 409(1), substituted "master or individual in charge" for "shipping commissioner".

Section 10312 outlines the procedures for settlements upon discharge and for settling disputes over seamen's wages and discharges.

AMENDMENTS

1993—Pub. L. 103-206 amended heading and text of section generally, substituting text consisting of sentence relating to signing agreements on discharge and settlement for former subsecs. (a) to (f) relating to such agreements, proceedings before shipping commissioners to settle disputes, certified copies of agreements, evidence of release of claims, and statements of wages paid.

**§ 10313. Wages**

(a) A seaman's entitlement to wages and provisions begins when the seaman begins work or when specified in the agreement required by section 10302 of this title for the seaman to begin work or be present on board, whichever is earlier.

(b) Wages are not dependent on the earning of freight by the vessel. When the loss or wreck of the vessel ends the service of a seaman before the end of the period contemplated in the agreement, the seaman is entitled to wages for the period of time actually served. The seaman shall be deemed a destitute seaman under section 11104 of this title. This subsection applies to a fishing or whaling vessel but not a yacht.

(c) When a seaman who has signed an agreement is discharged improperly before the beginning of the voyage or before one month's wages are earned, without the seaman's consent and without the seaman's fault justifying discharge, the seaman is entitled to receive from the master or owner, in addition to wages earned, one month's wages as compensation.

(d) A seaman is not entitled to wages for a period during which the seaman—

- (1) unlawfully failed to work when required, after the time fixed by the agreement for the seaman to begin work; or
- (2) lawfully was imprisoned for an offense, unless a court hearing the case otherwise directs.

(e) After the beginning of the voyage, a seaman is entitled to receive from the master, on demand, one-half of the balance of wages earned and unpaid at each port at which the vessel loads or delivers cargo during the voyage. A demand may not be made before the expiration of 5 days from the beginning of the voyage, not more than once in 5 days, and not more than once in the same port on the same entry. If a master does not comply with this subsection, the seaman is released from the agreement and is entitled to payment of all wages earned. Notwithstanding a release signed by a seaman under section 10312 of this title, a court having jurisdiction may set aside, for good cause shown, the release and take action that justice requires.

This subsection does not apply to a fishing or whaling vessel or a yacht.

(f) At the end of a voyage, the master shall pay each seaman the balance of wages due the seaman within 24 hours after the cargo has been discharged or within 4 days after the seaman is discharged, whichever is earlier. When a seaman is discharged and final payment of wages is delayed for the period permitted by this subsection, the seaman is entitled at the time of discharge to one-third of the wages due the seaman.

(g) When payment is not made as provided under subsection (f) of this section without sufficient cause, the master or owner shall pay to the seaman 2 days' wages for each day payment is delayed.

(h) Subsections (f) and (g) of this section do not apply to a fishing or whaling vessel or a yacht.

(i) This section applies to a seaman on a foreign vessel when in a harbor of the United States. The courts are available to the seaman for the enforcement of this section.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 566; Pub. L. 99-640, §10(b)(4), Nov. 10, 1986, 100 Stat. 3550.)

Section 10313 provides that a seaman's entitlement to wages begins when the seaman begins work, or as specified in the shipping agreement. This section also qualifies a seaman's entitlement to wages if the vessel is lost or wrecked, if the seaman is discharged improperly, or if the seaman unlawfully failed to work or was imprisoned. It also establishes procedures for the payment of wages at each port the vessel loads or unloads cargo, and at the end of the voyage. This section applies to seamen on foreign vessels in United States harbors, but not to fishing vessels, whaling vessels or yachts.

Subsec. (h). Pub. L. 99-640 struck out last sentence which read as follows: "However, subsections (f) and (g) apply to a vessel taking oysters."

§ 10314. Advances

(a)(1) A person may not—

(A) pay a seaman wages in advance of the time when the seaman has earned the wages;

(B) pay advance wages of the seaman to another person; or

(C) make to another person an order, note, or other evidence of indebtedness of the wages, or pay another person, for the engagement of seamen when payment is deducted or to be deducted from the seaman's wage.

(2) A person violating this subsection is liable to the United States Government for a civil penalty of not more than \$500. A payment made in violation of this subsection does not relieve the

vessel or the master from the duty to pay all wages after they have been earned.

(b) A person demanding or receiving from a seaman or an individual seeking employment as a seaman, remuneration for providing the seaman or individual with employment, is liable to the Government for a civil penalty of not more than \$500.

(c) This section applies to a foreign vessel when in waters of the United States. An owner, charterer, managing operator, agent, or master of a foreign vessel violating this section is liable to the Government for the same penalty as an owner, charterer, managing operator, agent, or master of a vessel of the United States for the same violation.

(d) The owner, charterer, managing operator, agent, or master of a vessel seeking clearance from a port of the United States shall present the agreement required by section 10302 of this title at the office of clearance. Clearance may be granted to a vessel only if this section has been complied with.

(e) This section does not apply to a fishing or whaling vessel or a yacht.

HISTORICAL AND REVISION NOTES

Revised section	Source section (U.S. Code)
10314 .....	46:599

Section 10314 forbids advance payment of wages to seamen prior to the commencement of the seaman's employment. It provides a civil penalty of \$500 for any person making such a payment, and for any person demanding or receiving remuneration for providing a seaman with employment. This means that the use of employment agencies for hiring seamen is prohibited. It also requires compliance with section 10302 regarding the signing of articles of agreement before a vessel can be cleared from a United States port. This section applies to foreign vessels in United States waters but not to fishing vessels, whaling vessels or yachts.

AMENDMENTS

1986—Subsec. (e). Pub. L. 99-640 struck out last sentence which read as follows: "However, this section applies to a vessel taking oysters."

§ 10315. Allotments

(a) Under prescribed regulations, a seaman may stipulate as follows in the agreement required by section 10302 of this title for an allotment of any part of the wages the seaman may earn:

(1) to the seaman's grandparents, parents, spouse, sister, brother, or children;

(2) to an agency designated by the Secretary of the Treasury to handle applications for United States savings bonds, to purchase bonds for the seaman; and

(3) for deposits to be made in an account for savings or investment opened by the seaman and maintained in the seaman's name at a savings bank or a savings institution in which the accounts are insured by the Federal Deposit Insurance Corporation or the Federal Savings and Loan Insurance Corporation.

(b) An allotment is valid only if made in writing and signed by and approved by a shipping

commissioner. The shipping commissioner shall examine allotments and the parties to them to enforce compliance with the law. Stipulations for allotments made at the beginning of a voyage shall be included in the agreement and shall state the amounts and times of payment and the person to whom payments are to be made.

(c) Only an allotment complying with this section is lawful. A person falsely claiming qualification as an allottee under this section is liable to the United States Government for a civil penalty of not more than \$500.

(d) The owner, charterer, managing operator, agent, or master of a vessel seeking clearance from a port of the United States shall present the agreement at the office of clearance. Clearance may be granted to a vessel only if this section has been complied with.

(e) This section applies to a foreign vessel when in waters of the United States. Sections 10314 and 10315 of this title do not prevent an employer from making deductions from the wages of a seaman, with the written consent of the seaman, if—

(1) the deductions are paid into a trust fund established only for the benefit of seamen employed by that employer, and the families and dependents of those seamen (or of those seamen, families, and dependents jointly with other seamen employed by other employers, and the families and dependents of the other seamen); and

(2) the payments are held in trust to provide, from principal or interest, or both, any of the following benefits for those seamen and their families and dependents:

- (A) medical or hospital care, or both.
- (B) pensions on retirement or death of the seaman.
- (C) life insurance.
- (D) unemployment benefits.

§ 10317. Loss of lien and right to wages

A master or seaman by any agreement other than one provided for in this chapter may not forfeit the master's or seaman's lien on the vessel or be deprived of a remedy to which the master or seaman otherwise would be entitled for the recovery of wages. Section 10317 prohibits a master or seaman from entering into an agreement which forfeits his or her lien on the vessel or other remedy for recovery of wages, and renders such agreements void.

§ 10318. Wages on discharge in foreign ports

(a) When a master or seaman applies to a consular officer for the discharge of the seaman, the consular officer shall require the master to pay the seaman's wages if it appears that the seaman has carried out the agreement required by section 10302 of this title or otherwise is entitled to be discharged. Then the consular officer shall discharge the seaman. A consular officer shall require the payment of extra wages only as provided in this section or in chapter 109 of this title.

(b) When discharging a seaman, a consular officer who fails to require the payment of the wages due a seaman at the time, and of the extra wages due under subsection (a) of this section, is accountable to the United States Government for the total amount.

(c) A seaman discharged under this section with the consent of the seaman is entitled to wages up to the time of discharge, but not for any additional period.

(d) If the seaman is discharged involuntarily, and it appears that the discharge was not because of neglect of duty, incompetency, or injury incurred on the vessel, the master shall provide the seaman with employment on a vessel agreed to by the seaman or shall provide the seaman with one month's extra wages.

(e) Expenses for the maintenance and return of an ill or injured seaman to the United States shall be paid by the Secretary of State. If a seaman is incapacitated by illness or injury and

prompt discharge is necessary, but a personal appearance of the master before a consular officer is impracticable, the master may provide transportation to the seaman to the nearest consular officer for discharge.

(f) A deduction from wages of the seaman is permitted only if the deduction appears in the account of the seaman required to be delivered under section 10310 of this title, except for matters arising after delivery of the account, in which case a supplementary account is required. During a voyage, the master shall record in the official logbook the matters about which deductions are to be made with the amounts of the deductions. The entries shall be made as the matters occur. The master shall produce the official logbook at the time of payment of wages, and also before a competent authority on the hearing of any complaint or question about the payment of wages.

Under section 10503 seamen who are required to have a merchant mariner's document must exhibit it before signing a shipping agreement on a coastwise voyage.

§ 10504. Wages

(a) After the beginning of a voyage, a seaman is entitled to receive from the master, on demand, one-half of the balance of wages earned and unpaid at each port at which the vessel loads or delivers cargo during the voyage. A demand may not be made before the expiration of 5 days from the beginning of the voyage, not more than once in 5 days, and not more than once in the same port on the same entry. If a master does not comply with this subsection, the seaman is released from the agreement required by section 10502 of this title and is entitled to payment of all wages earned. Notwithstanding a release signed by a seaman under section 10312 of this title, a court having jurisdiction may set aside, for good cause shown, the release and take action that justice requires. This subsection does not apply to a fishing or whaling vessel or a yacht.

(b) The master shall pay a seaman the balance of wages due the seaman within 2 days after the termination of the agreement required by section 10502 of this title or when the seaman is discharged, whichever is earlier.

§ 10902. Complaints of unfitness

(a)(1) If the chief and second mates or a majority of the crew of a vessel ready to begin a voyage discover, before the vessel leaves harbor, that the vessel is unfit as to crew, hull, equipment, tackle, machinery, apparel, furniture, provisions of food or water, or stores to proceed on the intended voyage and require the unfitness to be inquired into, the master immediately shall apply to the district court of the United States at the place at which the vessel is located, or, if no court is being held at the place at which the vessel is located, to a judge or justice of the peace, for the appointment of surveyors. At least 2 complaining seamen shall accompany the master to the judge or justice of the peace.

(2) A master failing to comply with this subsection is liable to the United States Government for a civil penalty of \$500.

United States naval vessel, consular officer, or chief official of the Customs Service.

(2) The Secretary, officer, or official shall examine, or have examined, the provisions of food or water. If the provisions are found to be of bad quality, unfit for use, or deficient in quantity, the person making the findings shall certify to the master of the vessel which provisions are of bad quality, unfit for use, or deficient.

(3) The Secretary, officer, or official to whom the complaint was made shall—

(A) make an entry in the official logbook of the vessel on the results of the examination; and

(B) submit a report on the examination to the district court of the United States at which the vessel is to arrive, with the report being admissible into evidence in any legal proceeding.

(4) The master is liable to the Government for a civil penalty of not more than \$100 each time the master, on receiving the certification referred to in paragraph (2) of this subsection—

surveyors to examine the vessel for the defects or insufficiencies complained of. The surveyors have the authority to receive and consider evidence necessary to evaluate the complaint. When the complaint involves provisions of food or water, one of the surveyors shall be a medical officer of the Public Health Service, if available. The surveyors shall make a report in writing, signed by at least 2 of them, stating whether the vessel is fit to proceed to sea or, if not, in what respect it is unfit, making appropriate recommendations about additional seamen, provisions, or stores, or about physical repairs, alterations, or additions necessary to make the vessel fit.

(b) On receiving the report, the judge or justice of the peace shall endorse on the report the judgment of the judge or justice on whether the vessel is fit to proceed on the voyage, and, if not, whether the vessel may proceed to another port at which the deficiencies can be corrected. The master and the crew shall comply with the judgment.

However, if the complaint of the crew appears in the report and judgment to have been without foundation, or if the complaint involved provisions of food or water, without reasonable grounds, the master or owner may deduct the amount of the costs and reasonable damages for the detention of the vessel, as determined by the judge or justice of the peace, from the wages of the complaining seamen.

(d) A master of a vessel violating this section who refuses to pay the costs and wages is liable to the United States Government for a civil penalty of \$100 and is liable in damages to each person injured by the refusal.

(b) A master of a vessel of the United States bound to a port of the United States shall take a destitute seaman on board at the request of a consular officer and transport the seaman to the United States. A master refusing to transport a destitute seaman when requested is liable to the United States Government for a civil penalty of \$100. § 11106. Wages on justifiable complaint of seamen

If satisfied of the justice of the complaint, the consular officer shall require the master to pay the wages due the seaman plus one month's additional wages and shall discharge the seaman. The master shall provide the seaman with employment on another vessel or provide the seaman with passage on another vessel to the port of original engagement, to the most convenient port of the United States, or to some port agreeable to the seaman.

(b) When a vessel does not have sufficient provisions for the intended voyage, and the seaman has been forced to accept a reduced ration or provisions that are bad in quality or unfit for use, the seaman is entitled to recover from the master or owner an allowance, as additional wages, that the court hearing the case considers reasonable.

(c) Subsection (b) of this section does not apply when the reduction in rations was for a period during which the seaman willfully and without sufficient cause failed to perform duties or was lawfully under confinement on board or on shore for misconduct, unless that reduction can be shown to have been unreasonable.

(d) Subsection (b) of this section does not apply to a fishing or whaling vessel or a yacht.

(6) which read as follows: “‘fisheries’ includes planting, cultivating, catching, taking, or harvesting fish, shellfish, marine animals, pearls, shells, or marine vegetation in the navigable waters of the United States or in the fishery conservation zone established by section 101 of the Magnuson Fishery Conservation and Management Act of 1976 (16 U.S.C. 1811).”

1985—Par. (5). Pub. L. 99-36 substituted “recreational” for “pleasure”.

1984—Par. (6). Pub. L. 98-364 added par. (6).

USE OF FOREIGN REGISTRY OIL SPILL RESPONSE  
VESSELS

Section 1117 of Pub. L. 104-324 provided that: “Notwithstanding any other provision of law, an oil spill response vessel documented under the laws of a foreign country may operate in waters of the United States on an emergency and temporary basis, for the purpose of recovering, transporting, and unloading in a United States port oil discharged as a result of an oil spill in or near those waters, if—

“(1) an adequate number and type of oil spill response vessels documented under the laws of the United States cannot be engaged to recover oil from an oil spill in or near those waters in a timely manner, as determined by the Federal On-Scene Coordinator for a discharge or threat of a discharge of oil; and

“(2) that foreign country has by its laws accorded to vessels of the United States the same privileges accorded to vessels of that foreign country under this section.”

**§ 12102. Vessels eligible for documentation**

(a) A vessel of at least 5 net tons that is not registered under the laws of a foreign country is eligible for documentation if the vessel is owned by—

(1) an individual who is a citizen of the United States;

(2) an association, trust, joint venture, or other entity—

(A) all of whose members are citizens of the United States; and

(B) that is capable of holding title to a vessel under the laws of the United States or of a State;

(3) a partnership whose general partners are citizens of the United States, and the controlling interest in the partnership is owned by citizens of the United States;

(4) a corporation established under the laws of the United States or of a State, whose chief executive officer, by whatever title, and chairman of its board of directors are citizens of the United States and no more of its directors are noncitizens than a minority of the number necessary to constitute a quorum;

(5) the United States Government; or

(6) the government of a State.

(b) A vessel is eligible for documentation only if it has been measured under part J of this subtitle. However, the Secretary of Transportation may issue a temporary certificate of documentation for a vessel before it is measured.

(c)(1) A vessel owned by a corporation, partnership, association, trust, joint venture, limited liability company, limited liability partnership, or any other entity is not eligible for a fishery endorsement under section 12108 of this title unless at least 75 per centum of the inter-

est in such entity, at each tier of ownership of such entity and in the aggregate, is owned and controlled by citizens of the United States.

(2) The Secretary shall apply section 2(c) of the Shipping Act, 1916 (46 App. U.S.C. 802(c)) in determining under this subsection whether at least 75 per centum of the interest in a corporation, partnership, association, trust, joint venture, limited liability company, limited liability partnership, or any other entity is owned and controlled by citizens of the United States. For the purposes of this subsection and of applying the restrictions on controlling interest in section 2(c) of such Act, the terms “control” or “controlled”—

(A) shall include—

(i) the right to direct the business of the entity which owns the vessel;

(ii) the right to limit the actions of or replace the chief executive officer, a majority of the board of directors, any general partner, or any person serving in a management capacity of the entity which owns the vessel; or

(iii) the right to direct the transfer, operation or manning of a vessel with a fishery endorsement; and

(B) shall not include the right to simply participate in the activities under subparagraph (A), or the exercise of rights under loan or mortgage covenants by a mortgagee eligible to be a preferred mortgagee under section 31322(a) of this title, provided that a mortgagee not eligible to own a vessel with a fishery endorsement may only operate such a vessel to the extent necessary for the immediate safety of the vessel or for repairs, drydocking or berthing changes.

(3) A fishery endorsement for a vessel that is chartered or leased to an individual who is not a citizen of the United States or to an entity that is not eligible to own a vessel with a fishery endorsement and used as a fishing vessel shall be invalid immediately upon such use.

(4) The requirements of this subsection shall not apply to a vessel when it is engaged in fisheries in the exclusive economic zone under the authority of the Western Pacific Fishery Management Council established under section 302(a)(1)(H) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1852(a)(1)(H)) or to a purse seine vessel when it is engaged in tuna fishing in the Pacific Ocean outside the exclusive economic zone of the United States or pursuant to the South Pacific Regional Fisheries Treaty, provided that the owner of the vessel continues to comply with the eligibility requirements for a fishery endorsement under the federal<sup>1</sup> law that was in effect on October 1, 1998. A fishery endorsement issued by the Secretary pursuant to this paragraph shall be valid for engaging only in fisheries in the exclusive economic zone under the authority of such Council, in such tuna fishing in the Pacific Ocean, or pursuant to such Treaty.

(5) A vessel greater than 165 feet in registered length, of more than 750 gross registered tons (as

<sup>1</sup> So in original. Probably should be capitalized.

measured under chapter 145 of title 46) or 1,900 gross registered tons as<sup>2</sup> measured under chapter 143 of that title), or that has an engine or engines capable of producing a total of more than 3,000 shaft horsepower is not eligible for a fishery endorsement under section 12108 of this title unless—

(A)(i) a certificate of documentation was issued for the vessel and endorsed with a fishery endorsement that was effective on September 25, 1997;

(ii) the vessel is not placed under foreign registry after the date of the enactment of the American Fisheries Act; and

(iii) in the event of the invalidation of the fishery endorsement after the date of the enactment of the American Fisheries Act, application is made for a new fishery endorsement within fifteen (15) business days of such invalidation; or

(B) the owner of such vessel demonstrates to the Secretary that the regional fishery management council of jurisdiction established under section 302(a)(1) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1852(a)(1)) has recommended after the date of the enactment of the American Fisheries Act, and the Secretary of Commerce has approved, conservation and management measures in accordance with such Act to allow such vessel to be used in fisheries under such council's authority.

(d)(1) For the issuance of a certificate of documentation with only a registry endorsement, subsection (a)(2)(A) of this section does not apply to a beneficiary of a trust that is qualified under paragraph (2) of this subsection if the vessel is subject to a charter to a citizen of the United States.

(2)(A) Subject to subparagraph (B) of this paragraph, a trust is qualified under this paragraph with respect to a vessel only if—

(i) each of the trustees is a citizen of the United States; and

(ii) the application for documentation of the vessel includes the affidavit of each trustee stating that the trustee is not aware of any reason involving a beneficiary of the trust that is not a citizen of the United States, or involving any other person that is not a citizen of the United States, as a result of which the beneficiary or other person would hold more than 25 percent of the aggregate power to influence or limit the exercise of the authority of the trustee with respect to matters involving any ownership or operation of the vessel that may adversely affect the interests of the United States.

(B) If any person that is not a citizen of the United States has authority to direct or participate in directing a trustee for a trust in matters involving any ownership or operation of the vessel that may adversely affect the interests of the United States or in removing a trustee for a trust without cause, either directly or indirectly through the control of another person, the trust is not qualified under this paragraph unless the trust instrument provides that persons who are

not citizens of the United States may not hold more than 25 percent of the aggregate authority to so direct or remove a trustee.

(3) Paragraph (2) of this subsection shall not be considered to prohibit a person who is not a citizen of the United States from holding more than 25 percent of the beneficial interest in a trust.

(4) If a person chartering a vessel from a trust that is qualified under paragraph (2) of this subsection is a citizen of the United States under section 2 of the Shipping Act, 1916 (46 App. U.S.C. 802), then the vessel is deemed to be owned by a citizen of the United States for purposes of that section and related laws, except for subtitle B of title VI of the Merchant Marine Act, 1936 or chapter 531 of title 46, United States Code.

Section 12102 provides that vessels of at least five net tons, not registered under the laws of a foreign nation, are eligible for documentation if certain ownership requirements are met, and lists the ownership requirements.

REFERENCES IN TEXT

The date of the enactment of the American Fisheries Act, referred to in subsec. (c)(5), is the date of enactment of title II of div. C of Pub. L. 105-277, which was approved Oct. 21, 1998.

Such Act, referred to in subsec. (c)(5)(B), probably means the Magnuson-Stevens Fishery Conservation and Management Act, Pub. L. 94-265, Apr. 13, 1976, 90 Stat. 331, as amended, which is classified principally to chapter 38 (§1801 et seq.) of Title 16, Conservation. For complete classification of this Act to the Code, see Short Title note set out under section 1801 of Title 16 and Tables.

Section 2 of the Shipping Act, 1916, referred to in subsec. (d)(4), is classified to sections 802 and 803 of the Appendix to this title.

The Merchant Marine Act, 1936, referred to in subsec. (d)(4), is act June 29, 1936, ch. 858, 49 Stat. 1985, as amended. Subtitle B of title VI of the Act is classified generally to part B (§1187 et seq.) of subchapter VI of chapter 27 of Title 46, Appendix, Shipping. For complete classification of this Act to the Code, see section 1245 of Title 46, Appendix, and Tables.

AMENDMENTS

2003—Subsec. (d)(4). Pub. L. 108-136 inserted “or chapter 531 of title 46, United States Code” after “Merchant Marine Act, 1936”.

2002—Subsec. (c)(5). Pub. L. 107-206, which directed amendment of title II of division C of Public Law

<sup>2</sup> So in original. Probably should be “(as)”.

105-277 by substituting “of more than 750 gross registered tons (as measured under chapter 145 of title 46) or 1,900 gross registered tons as measured under chapter 143 of that title” for “of more than 750 gross registered tons” each place appearing, was executed by amending subsec. (c)(5) of this section, to reflect the probable intent of Congress. See 1998 Amendment note below.

2001—Subsec. (c)(2)(B). Pub. L. 107-20, §2202(a)(1), substituted “or the exercise of rights under loan or mortgage covenants by a mortgagee eligible to be a preferred mortgagee under section 31322(a) of this title, provided that a mortgagee not eligible to own a vessel with a fishery endorsement may only operate such a vessel to the extent necessary for the immediate safety of the vessel or for repairs, drydocking or berthing changes” for “or the use by a mortgagee under paragraph (4) of loan covenants approved by the Secretary”.

Subsec. (c)(4) to (6). Pub. L. 107-20, §2202(a)(2), which directed amendment of subsec. (c) “by striking paragraph (4) and renumbering the remaining paragraph accordingly”, was executed by striking par. (4) and redesignating pars. (5) and (6) as (4) and (5), respectively, to reflect the probable intent of Congress. Prior to amendment, par. (4) read as follows:

“(4)(A) An individual or entity that is otherwise eligible to own a vessel with a fishery endorsement shall be ineligible by reason of an instrument or evidence of indebtedness, secured by a mortgage of the vessel to a trustee eligible to own a vessel with a fishery endorsement that is issued, assigned, transferred or held in trust for a person not eligible to own a vessel with a fishery endorsement, unless the Secretary determines that the issuance, assignment, transfer, or trust arrangement does not result in an impermissible transfer of control of the vessel and that the trustee—

“(i) is organized as a corporation, and is doing business, under the laws of the United States or of a State;

“(ii) is authorized under those laws to exercise corporate trust powers;

“(iii) is subject to supervision or examination by an official of the United States Government or a State;

“(iv) has a combined capital and surplus (as stated in its most recent published report of condition) of at least \$3,000,000; and

“(v) meets any other requirements prescribed by the Secretary.

“(B) A vessel with a fishery endorsement may be operated by a trustee only with the approval of the Secretary.

“(C) A right under a mortgage of a vessel with a fishery endorsement may be issued, assigned, or transferred to a person not eligible to be a mortgagee of that vessel under section 31322(a)(4) of this title only with the approval of the Secretary.

“(D) The issuance, assignment, or transfer of an instrument or evidence of indebtedness contrary to this paragraph is voidable by the Secretary.”

1998—Subsec. (a). Pub. L. 105-383, §401(a)(1), struck out “or is not titled in a State” after “a foreign country” in introductory provisions.

Subsec. (a)(4). Pub. L. 105-383, §421, struck out “president or other” after “a State, whose” and inserted “, by whatever title,” after “chief executive officer”.

Subsec. (c). Pub. L. 105-277, §202(a), as amended by Pub. L. 107-206, amended subsec. (c) generally. Prior to amendment, subsec. (c) read as follows:

“(c)(1) A vessel owned by a corporation is not eligible for a fishery endorsement under section 12108 of this title unless the controlling interest (as measured by a majority of voting shares in that corporation) is owned by individuals who are citizens of the United States. However, if the corporation is owned in whole or in part by other United States corporations, the controlling interest in those corporations, in the aggregate, must be owned by individuals who are citizens of the United States.

“(2) The Secretary shall apply the restrictions on controlling interest in section 2(b) of the Shipping Act,

1916 (46 App. U.S.C. 802(b)) when applying this subsection.”

1996—Subsec. (d). Pub. L. 104-324 added subsec. (d).

1989—Subsec. (a). Pub. L. 101-225, §301(a)(2)(A), inserted “that is” before “not” and “or is not titled in a State” after “foreign country”.

Subsecs. (b), (c). Pub. L. 101-225, §301(a)(2)(B)-(D), redesignated former subsec. (b), relating to eligibility of a vessel owned by a corporation for a fishery license, as (c), substituted “fishery endorsement” for “fishery license” in par. (1), and struck out former subsec. (c) which provided that a vessel titled in a State was eligible for documentation only if the State certificate of title was surrendered.

1988—Pub. L. 100-710 directed insertion of “of Transportation” after “Secretary” in subsec. (b), which was executed by making insertion in subsec. (b) relating to eligibility of a vessel for documentation after having been measured under part J, as probable intent of Congress, and added subsec. (c).

Pub. L. 100-239, §7(a), directed that “(a)” be inserted before “A vessel”, which was not executed because of a similar amendment by Pub. L. 99-509, and added at end subsec. (b) relating to eligibility of a vessel owned by a corporation for a fishery license under section 12108 of this title.

1986—Pub. L. 99-509 designated existing provisions as subsec. (a) and added subsec. (b) relating to eligibility of a vessel for documentation after having been measured under part J.

HISTORICAL AND REVISION NOTES 1983 ACT

Table with 2 columns: Revised section, Source section (U.S. Code). Row 1: 12111, 46:65o

Under section 12111, a certificate of documentation becomes invalid if the vessel for which it is issued no longer meets the requirements for issuance of the certificate or is placed under the command of a person who is not a citizen of the United States. It also requires the surrender of invalid certificates but gives protection to preferred mortgages.

1988 ACT

This amends section 12111 of title 46, United States Code, concerning surrendering and invalidation of certificates of documentation. This section clarifies the requirement that an invalid certificate of documentation must be surrendered to the Secretary. However, until the surrender is approved by the Secretary, the vessel is still a documented vessel for certain purposes such as for commercial instruments that have been recorded, foreign transfer restrictions, and requisitioning in time of war or national emergency. It also requires the Secretary to obtain the mortgagee's approval of the surrender if there is a mortgage on the vessel that has been filed or recorded with the Secretary.

HOUSE FLOOR STATEMENT

Section 12111(c)(3) is changed to prohibit the approval of the surrendering of a certificate of documentation for any vessel with a mortgage filed or recorded with the Secretary, not just a vessel with a preferred mortgage.

HISTORICAL AND REVISION NOTES

Section 101 of H.R. 3105, as amended, adds a new chapter 125 to title 46, United States Code, to establish a vessel identification system for all vessels of the United States. This would include vessels documented under chapter 121 of title 46, numbered under chapter 123 of that title, or titled under the law of a State. This new chapter consists of new sections 12501-12507 as follows.

§ 12501. Establishment of a vessel identification system

(a) The Secretary of Transportation shall establish a vessel identification system to make available information under section 12503 of this title for use by the public for law enforcement and other purposes relating to—

- (1) the ownership of documented vessels;
- (2) the ownership of vessels numbered under chapter 123 of this title; and
- (3) the ownership of vessels titled under the law of a State.

(b) The vessel identification system shall include information prescribed by the Secretary including—

- (1) identifying a vessel;
- (2) identifying the owner of the vessel, including—
  - (A) the owner’s social security number or, if that number is not available, other means of identification acceptable to the Secretary; or
  - (B) for an owner other than an individual—

(i) the owner's taxpayer identification number; or

(ii) if the owner does not have a taxpayer identification number, the social security number of an individual who is a corporate officer, general partner, or individual trustee of the owner and who signed the application for documentation or numbering for the vessel;

(3) identifying the State in which it is titled or numbered;

(4) indicating whether the vessel is numbered or titled, or both;

(5) if titled in a State, indicating where evidence of a lien or other security interest may be found against the vessel in that State; and

(6) information assisting law enforcement officials.

(c) The Secretary may maintain information under this chapter in connection with any other information system maintained by the Secretary.

#### HISTORICAL AND REVISION NOTES

##### Revised section 12501

Subsection (a) of section 12501 requires the Secretary of Transportation to establish a system of information concerning vessels of the United States for law enforcement and other purposes. The Secretary is required to make available information from the system relating to the ownership of vessels documented under chapter 121 of title 46, numbered under chapter 123 of that title, and titled under the law of a State. The information is available under section 12503 for use by the public, similarly under the Ship Mortgage Act, 1920.

Subsection (b) lists the vessel identification information which is required to be maintained by the Secretary. The Secretary has the authority to prescribe other information to be maintained in addition to the items listed. For example, the Secretary may identify vessels issued fisheries permits by the Department of Commerce. The Secretary may also monitor transactions involving vessels that require approval by the Secretary under section 9 of the Shipping Act, 1916 (46 App. U.S.C. 808) before interest or control in the vessel may be transferred to a noncitizen.

Subsection (c) clarifies that the Secretary has the flexibility to maintain this system in connection with any other information system maintained by the Secretary, including the Federal Aviation Administration system containing aircraft ownership information. This would also permit the Secretary to combine various systems and data bases maintained by the Secretary such as documentation and numbering of vessels, and safety, casualty, and law enforcement statistics.

#### AMENDMENTS

1990—Subsec. (b)(2)(A). Pub. L. 101-595 amended subpar. (A) generally. Prior to amendment, subpar. (A) read as follows: "the owner's social security number; or".

1989—Subsec. (b)(2). Pub. L. 101-225 amended par. (2) generally, adding subpars. (A) and (B).

#### EFFECTIVE DATE

Chapter effective Jan. 1, 1989, with certain exceptions and qualifications, see section 107 of Pub. L. 100-710, set out as a note under section 30101 of this title.

#### RECORDS AND OTHER INFORMATION; ESTABLISHMENT, CENTRALIZATION AND COMPUTERIZATION

Section 104(e)(2) of title I of Pub. L. 100-710 provided that: "To establish, centralize, and computerize records

and other information maintained under chapters 121, 125, and 313 of title 46, United States Code, from the effective date of this title [Jan. 1, 1989, with certain exceptions and qualifications, see section 107 of Pub. L. 100-710, set out as a note under section 30101 of this title] through September 30, 1993, the Secretary of Transportation shall spend (out of amounts appropriated for the Department of Transportation under an appropriations law) not less than an amount that is equal to the amounts estimated to be—

"(A) collected under section 9701 of title 31, United States Code, for fees paid for services and things of value provided under chapter 313 of title 46, United States Code (as enacted by section 101 of this Act), and for documenting vessels under chapter 121 of title 46; and

"(B) transferred to or collected by the Secretary under chapter 125 of title 46, United States Code (as enacted by section 101 of this Act)."

#### PERSONNEL AND EQUIPMENT; RECRUITMENT, COMPENSATION, TRAINING, PURCHASING, OR DEPLOYMENT

Section 104(g) of Pub. L. 100-710 provided that: "Nothing in this section [amending sections 2101, 2110, 12102, 12103, 12105, 12110, 12112, 12117, 12119, and 12120 of this title and sections 808, 1242, and 1271 of the Appendix to this title, and enacting provisions set out as notes under sections 12501, 12502, and 12505 of this title] requires the Coast Guard to recruit, compensate, train, purchase, or deploy any personnel or equipment to carry out chapter 125 of title 46, United States Code (as enacted by section 101 of this Act), except to the extent that appropriations are made available in an appropriations law for the Department of Transportation."

[For transfer of authorities, functions, personnel, and assets of the Coast Guard, including the authorities and functions of the Secretary of Transportation relating thereto, to the Department of Homeland Security, and for treatment of related references, see sections 468(b), 551(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.]

#### § 12502. Identification numbers, signal letters, and markings

(a) For the identification of a vessel of the United States, the Secretary of Transportation—

(1) shall maintain a unique numbering system and assign a number to each vessel of the United States;

(2) may maintain a system of signal letters for a documented vessel;

(3) shall record a name selected by the owner of a documented vessel approved by the Secretary as the vessel's name of record; and

(4) may establish other identification markings.

(b) The manufacturer or owner of a vessel shall affix to the vessel and maintain in the manner prescribed by the Secretary the number assigned and any other markings the Secretary may require.

(c) Once a number is assigned under this section, it may not be used by another vessel.

(d) Once a documented vessel's name is established, the name may not be changed without the approval of the Secretary.

(e) A person may not tamper with or falsify a number or other marking required under this section.

(Pub. L. 100-710, title I, §101(a), Nov. 23, 1988, 102 Stat. 4736.)

## HISTORICAL AND REVISION NOTES

*Revised section 12502*

Subsection (a) of this section requires the Secretary to maintain a unique numbering system for vessels of the United States. The Secretary may use existing vessel numbering systems such as the hull identification number for this purpose, but must ensure that no two existing vessels of the United States have the same number. The Secretary should consider and propose the use of a 17-digit number to implement this requirement. This subsection also requires the Secretary to maintain a system of signal letters and to record vessel names for documented vessels. The Secretary is authorized to establish other vessel identification markings for vessels of the United States, such as hailing ports.

Subsections (b), (c), (d), and (e) contain other requirements and restrictions concerning vessel identification markings.

This section consolidates the requirements of sections 12114, 12115, 12116, and 12118 of title 46. For this reason, section 106 of this bill repeals those sections.

## VESSELS NOT HAVING UNIQUE NUMBER; APPLICABILITY OF PROVISIONS FOR NUMBER ASSIGNMENT

Section 104(f) of Pub. L. 100-710 provided that: "Section 12502(a)(1) of title 46, United States Code (as enacted by section 101 of this Act), applies to a vessel of the United States that does not have a unique number as prescribed by the Secretary of Transportation under that section until the earlier of the following:

- "(1) the next time the vessel is documented, numbered, or titled.
- "(2) January 1, 1995."

**§ 12503. Information available to the system**

(a) Except as provided in subsections (b) and (c) of this section, a State or a State's delegee approved by the Secretary of Transportation may make information available to the Secretary if, in a manner and form prescribed by the Secretary, the State—

- (1) identifies the vessel;
- (2) identifies the owner of the vessel, including by—
  - (A) the owner's social security number or, if that number is not available, other means of identification acceptable to the Secretary; or
  - (B) for an owner other than an individual—
    - (i) the owner's taxpayer identification number; or
    - (ii) if the owner does not have a taxpayer identification number, the social security number of an individual who is a corporate officer, general partner, or individual trustee of the owner and who signed the application for documentation or numbering for the vessel;
- (3) identifies the State in which it is titled or numbered;
- (4) indicates whether the vessel is numbered or titled, or both;
- (5) if titled in a State, indicates where evidence of a lien or other security interest may be found against the vessel in that State;
- (6) includes information to assist law enforcement; and
- (7) includes other information agreed to by the Secretary and the State.

(b) Except as provided in subsection (c) of this section, the Secretary also may accept information under conditions and in a manner and form prescribed by the Secretary.

(c) The Secretary shall—

(1) retain information on a vessel with a preferred mortgage under section 31322(d) of this title that is no longer titled in a State making information available to the Secretary under this chapter until the mortgage is discharged or the vessel is sold; and

(2) accept information under section 31321(h) of this title only if that information cannot be provided to a State.

(Pub. L. 100-710, title I, §101(a), Nov. 23, 1988, 102 Stat. 4736; Pub. L. 101-225, title III, §302(2), Dec. 12, 1989, 103 Stat. 1922; Pub. L. 101-595, title VI, §603(10), Nov. 16, 1990, 104 Stat. 2993.)

## HISTORICAL AND REVISION NOTES

*Revised section 12503*

Subsection (a) of section 12503 allows a State or approved State delegee to make vessel identification information available to the Secretary. Participation in the system is voluntary on the part of a State. A benefit to boat purchasers and financiers in States with approved titling systems participating in this system is that vessel mortgages or financing instruments made in those States are deemed to be preferred mortgages under chapter 313 of title 46, United States Code (as codified and enacted by this Act).

Under subsection (a), the Secretary may prescribe the manner and form in which the information is made available by the States. In this regard, the Committee intends that the Secretary employ the most efficient, up-to-date computer technology in maintaining information made available from the States to avoid duplication of effort in maintaining information and to reduce the costs of the system. In addition to the vessel identification information made available by States under paragraphs (1)–(6), the Secretary and a State may agree that the State make available other information. For example, the purpose for which a vessel is routinely used would be valuable information for the system.

The Committee intends that most of the information in the system will become available directly and exclusively from the States to the greatest extent possible. However, under subsection (b), the Secretary may accept information from others under conditions and in a manner and form prescribed by the Secretary. Thus, if the Secretary discovers a valuable and reliable source of data that can be conveniently made available to the system, the Secretary can approve it.

Under paragraph (c)(1), the Secretary must maintain information on a State-titled vessel with a preferred mortgage that moves to a nonparticipating, nontitle State, until the mortgage is discharged or the vessel is sold. Under paragraph (c)(2), the Secretary must accept information submitted under section 31321 of title 46 (as enacted by this Act) concerning a discharge of a preferred mortgage on a vessel title under State law. This would be necessary if the vessel moves to a nonparticipating State, and information on that vessel would not be provided to the system by that State. This subsection will allow the Secretary to keep the vessel information system current on these matters and purge files no longer required to be maintained.

## AMENDMENTS

1990—Subsec. (a)(2)(A). Pub. L. 101-595 amended subpar. (A) generally. Prior to amendment, subpar. (A) read as follows: "the owner's social security number; or".

1989—Subsec. (a)(2). Pub. L. 101-225 amended par. (2) generally, adding subpars. (A) and (B).

**§ 12504. Information available from the system**

For law enforcement or other purposes and under conditions prescribed by the Secretary of Transportation, the Secretary—

(1) shall make available information in the vessel identification system to a State making information available under section 12503(a) of this title; and

(2) may make available information in the vessel identification system to others.

(Pub. L. 100-710, title I, §101(a), Nov. 23, 1988, 102 Stat. 4736; Pub. L. 101-225, title III, §302(3), Dec. 12, 1989, 103 Stat. 1923.)

#### HISTORICAL AND REVISION NOTES

##### *Revised section 12504*

This section requires that the Secretary make available information maintained in the vessel identification system to a State participating in the system for law enforcement or other purposes. The Secretary may make available information in the system to others, under conditions the Secretary may prescribe. At first, the Secretary may elect to deal only with the States. However, the Committee firmly expects that information will be made available through computer terminals in satellite offices or direct computer access by modem. In this manner, boating organizations or financial or documentation services could retrieve data without paper transactions for a fee.

#### AMENDMENTS

1989—Pub. L. 101-225 substituted “Secretary of Transportation, the Secretary” for “Secretary, the Secretary of Transportation”.

#### § 12505. Fees

(a) The Secretary of Transportation may charge a fee under section 9701 of title 31 for providing information to or requesting information from the vessel identification system, except to—

(1) an agency; or

(2) a State making information available to the Secretary under section 12503(a) of this title.

(b) The Secretary shall deposit amounts transferred or collected under this section in the general fund of the Treasury as proprietary receipts of the Secretary and ascribed to the vessel identification system.

(Pub. L. 100-710, title I, §101(a), Nov. 23, 1988, 102 Stat. 4737; Pub. L. 101-595, title VI, §603(11), Nov. 16, 1990, 104 Stat. 2993.)

#### HISTORICAL AND REVISION NOTES

##### *Revised section 12505*

This section contains the authority for the Secretary to charge a fee under the user charge law, 31 U.S.C. 9701, for providing information to or requesting information from the vessel identification system. Fees may not be charged under this subsection to an agency or a State that is participating in the vessel identification system maintained by the Secretary.

Under subsection (b) of this section, the Secretary may collect an annual fee of not more than \$1.00 from the owner of a vessel of the United States under 31 U.S.C. 9701 for the vessel identification system. Since vessel owners will benefit from the vessel identification system, such as from documentation of ownership data and stolen vessel tracking, this fee is designed as a maintenance charge to owners for this service. The collection of the annual fee may be delayed by the Secretary, and an agency, State, or person may be employed to collect the fee under subsection (c). The Committee expects that the Secretary will make agreements with States to collect this fee at the time of vessel registrations. The term of these registrations varies

from one to three years as permitted by chapter 123 of title 46.

Under subsection (d) of this section, if a State is employed to collect the fee, the State may retain one-half of the amounts collected, and must transfer the remainder to the Secretary. The amounts retained by a State may be used to cover the costs of making vessel identification information available to the Secretary. This includes upgrading or establishing titling systems as well as making improvements and other changes to vessel numbering systems to make information available. Because States are allowed to make improvements to their vessel titling and numbering systems with the amounts retained under this section, the costs of those programs may decrease. This could result in a corresponding decrease in State numbering fees and offset vessel identification system fees paid by vessel owners.

#### AMENDMENTS

1990—Subsec. (b). Pub. L. 101-595 redesignated subsec. (e) as (b) and struck out former subsec. (b) which read as follows: “In addition to any fee under subsection (a) of this section, the Secretary may collect an annual fee of not more than \$1.00 from the owner of each vessel of the United States under section 9701 of title 31 for maintaining the vessel identification system. However, the collection of that fee may be delayed under conditions prescribed by the Secretary.”

Subsecs. (c), (d). Pub. L. 101-595 struck out subsecs. (c) and (d) which read as follows:

“(c) The Secretary may employ any agency, State, or person to collect the fee established under subsection (b) of this section.

“(d) If a State is employed to collect a fee under subsection (c) of this section, the State may retain one-half of the amounts collected. A State shall transfer one-half of the amounts collected under subsection (b) of this section to the Secretary.”

Subsec. (e). Pub. L. 101-595 redesignated subsec. (e) as (b).

Subsec. (f). Pub. L. 101-595 struck out subsec. (f) which read as follows: “The amounts retained by a State under this section may be used to make information available to the Secretary and to pay incremental administrative costs.”

#### ANNUAL FEE PRIOR TO JAN. 1, 1992

Section 104(e)(1) of Pub. L. 100-710 provided that: “Before January 1, 1992, the annual fee under section 12505 of title 46, United States Code (as enacted by section 101 of this Act), is \$1.00.”

#### § 12506. Delegation of authority

The Secretary of Transportation may delegate to an agency, a State, or a qualified person the authority to—

(1) establish and maintain the vessel identification system; and

(2) charge fees under section 12505 of this title to a person making information available to or requesting information from the vessel identification system.

(Pub. L. 100-710, title I, §101(a), Nov. 23, 1988, 102 Stat. 4737.)

#### HISTORICAL AND REVISION NOTES

##### *Revised section 12506*

This section allows the Secretary to delegate the authority to establish and maintain the vessel identification system to an agency, a State, or a qualified person. The Secretary may also delegate the authority to charge fees under section 12505 for requesting information from or making information available to the vessel identification system.

§ 12507. Penalties

(a) A person shall be fined under title 18, imprisoned for not more than 2 years, or both, if the person with the intent to defraud—

(1) provides false information to the Secretary of Transportation or a State issuing authority regarding the identification of a vessel under this chapter; or

(2) tampers with, removes, or falsifies the unique vessel identification number assigned to a vessel under section 12502 of this title.

(b) A person is liable to the United States Government for a civil penalty of not more than \$10,000 if the person—

(1) provides false information to the Secretary or a State issuing authority regarding the identification of a vessel under this chapter;

(2) violates section 12502 of this title; or

(3) fails to comply with requirements prescribed by the Secretary under section 12505 of this title.

(c) A vessel involved in a violation of this chapter, or regulation under this chapter, and its equipment, may be seized by, and forfeited to, the Government.

(d) If a person, not an individual, is involved in a violation of this chapter, the president or chief executive of the person also is subject to any penalty provided under this section.

AMENDMENTS

1998—Pub. L. 105-178, title VII, §7405(c)(2), June 9, 1998, 112 Stat. 488, substituted "appropriations" for "contract spending" in item 13106.

§ 13101. State recreational boating safety programs

(a) To encourage greater State participation and uniformity in boating safety efforts, and particularly to permit the States to assume the greater share of boating safety education, assistance, and enforcement activities, the Secretary shall carry out a national recreational boating safety program. Under this program, the Secretary shall make contracts with, and allocate and distribute amounts to, eligible States to assist them in developing, carrying out, and financing State recreational boating safety programs.

(b) The Secretary shall establish guidelines and standards for the program. In doing so, the Secretary—

(1) shall consider, among other things, factors affecting recreational boating safety by contributing to overcrowding and congestion of waterways, such as the increasing number of recreational vessels operating on those waterways and their geographic distribution, the availability and geographic distribution of recreational boating facilities in and among applying States, and State marine casualty and fatality statistics for recreational vessels;

(2) shall consult with the Secretary of the Interior to minimize duplication with the purposes and expenditures of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 460l-4—460l-11) the Federal Aid in Sport Fish Restoration Act of 1950 (16 U.S.C. 777-777k), and with the guidelines developed under those Acts; and

(3) shall maintain environmental standards consistent with the Coastal Zone Management Act of 1972 (16 U.S.C. 1451-1464) and other laws and policies of the United States intended to safeguard the ecological and esthetic quality of the waters and wetlands of the United States.

(c) A State whose recreational boating safety program has been approved by the Secretary is eligible for allocation and distribution of amounts under this chapter to assist that State in developing, carrying out, and financing its program. Matching amounts shall be allocated and distributed among eligible States by the Secretary as provided by section 13103 of this title.

[For transfer of authorities, functions, personnel, and assets of the Coast Guard, including the authorities and functions of the Secretary of Transportation relating thereto, to the Department of Homeland Security, and for treatment of related references, see sections 468(b), 551(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reor-

ganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.]

#### IMPLEMENTATION OF 1986 AMENDMENT

Section 3(b)(3) of Pub. L. 99-626 provided that: “The Secretary of Transportation shall carry out the amendments made by paragraph (2) [amending this section] as vacancies in the membership of the National Boating Safety Advisory Council occur.”

### PART J—MEASUREMENT OF VESSELS

#### HISTORICAL AND REVISION NOTES

Part J contains provisions that apply to the measurement of a vessel to determine its tonnage. Tonnage is a measurement of a vessel’s volume and is used for international, customs, and regulatory purposes. This part implements the 1969 International Convention on Tonnage Measurement of Ships and provides a framework for phasing in the international system as the method of measuring ships domestically, to establish uniformity in ship measurement. The availability of an alternate domestic regulatory system of measurement is continued so that the application of domestic laws will be preserved in order that vessels engaged in domestic commerce will not be adversely affected.

#### HISTORICAL AND REVISION NOTES

##### Revised section 14103

Source: International Convention on Tonnage Measurement of Ships.

Section 14103(a) authorizes the Secretary to delegate to a qualified person the authority to measure a vessel and issue an International Tonnage Certificate or other certificate of measurement. The term “qualified person” means an organization that the Secretary believes has the necessary qualifications to measure a vessel competently, such as the American Bureau of Shipping.

The conferees intend that in section 14103 the term “qualified person” includes not only organizations that the Secretary finds to be qualified to perform measurement duties, but any person as that term is defined in section 1 of title 1, United States Code (including individuals), that the Secretary determines qualified to perform measurement duties. The House and Senate conferees also agree that, where authorized, in addition to information required by the Secretary, regulatory tonnage should be used on all certificates and documents related to a vessel unless the owner otherwise requests.

Section 14103(b) provides for the appeal to the Secretary of a decision made by a person that has received delegated authority. This ensures that the Secretary has full oversight of delegated tonnage measurement functions.

Section 14103(c) authorizes the Secretary to delegate to a country that is a party to the International Convention on Tonnage Measurement of Ships, 1969, the authority to measure a vessel and issue an International Tonnage Certificate.

Section 14103(d) clarifies the Secretary’s authority to revoke at any time and without cause a delegation of authority to measure a vessel or issue a certificate.

This authority is given so that no delay occurs administratively in revoking a delegation wherever the Secretary decides a revocation is warranted.

**§ 14104. Measurement to determine application of a law**

(a) When the application of a law of the United States to a vessel depends on the vessel's tonnage, the vessel shall be measured under this part.

(b) If a statute allows for an alternate tonnage to be prescribed under this section, the Secretary may prescribe it by regulation. Any such regulation shall be considered to be an interpretive regulation for purposes of section 553 of title 5. Until an alternate tonnage is prescribed, the statutorily established tonnage shall apply to vessels measured under chapter 143 or chapter 145 of this title.

(c) The head of each Federal agency shall ensure that regulations issued by the agency that specify particular tonnages comply with the alternate tonnages implemented by the Secretary.

HISTORICAL AND REVISION NOTES

Chapter 143 provides implementing legislation for the International Convention on Tonnage Measurement of Ships (Convention) which came into effect in the United States on February 10, 1983. Chapter 143, therefore, is based primarily on the Convention, not on provisions in existing U.S. law.

**§ 14301. Application**

(a) Except as otherwise provided in this section, this chapter applies to the following:

- (1) a documented vessel.
- (2) a vessel that is to be documented under chapter 121 of this title.
- (3) a vessel engaged on a foreign voyage.

(b) This chapter does not apply to the following:

- (1) a vessel of war.
- (2) a vessel of less than 24 meters (79 feet) overall in length.
- (3) a vessel operating only on the Great Lakes, unless the owner requests.
- (4) a vessel (except a vessel engaged on a foreign voyage) the keel of which was laid or that

was at a similar stage of construction before January 1, 1986, unless—

(A) the owner requests; or

(B) the vessel undergoes a change that the Secretary finds substantially affects the vessel's gross tonnage.

(5) before July 19, 1994, an existing vessel unless—

(A) the owner requests; or

(B) the vessel undergoes a change that the Secretary finds substantially affects the vessel's gross tonnage.

(6) a barge (except a barge engaged on a foreign voyage) unless the owner requests.

(c) A vessel made subject to this chapter at the request of the owner may be remeasured only as provided by this chapter.

(d) After July 18, 1994, an existing vessel (except an existing vessel referred to in subsection (b)(5)(A) or (B) of this section) may retain its tonnages existing on July 18, 1994, for the application of relevant requirements under international agreements (except the Convention) and other laws of the United States. However, if the vessel undergoes a change substantially affecting its tonnage after July 18, 1994, the vessel shall be remeasured under this chapter.

(e) This chapter does not affect an international agreement to which the United States Government is a party that is not in conflict with the Convention or the application of IMO Resolutions A.494 (XII) of November 19, 1981, A.540 (XIII) of November 17, 1983, and A.541 (XIII) of November 17, 1983.

(Added Pub. L. 99-509, title V, §5101(3), Oct. 21, 1986, 100 Stat. 1920; amended Pub. L. 101-595, title III, §305, Nov. 16, 1990, 104 Stat. 2985.)

HISTORICAL AND REVISION NOTES

*Revised section 14301*

Source: International Convention on Tonnage Measurement of Ships.

Section 14301 delineates which vessels must be measured in compliance with the standards of the Convention.

Section 14301(a) provides that a vessel must be measured under the standards of the Convention if it is documented or required by law to be documented under chapter 121 of this subtitle or if it is engaged on a foreign voyage, unless the vessel is specifically exempted under section 14301(b).

Section 14301(b) provides the following exemptions from the requirement in section 14301(a) to be measured under the Convention:

1. A vessel of war;
2. A vessel of less than 24 meters (79 feet) overall in length ("overall in length" is defined in section 2101);
3. A vessel that operates only on the Great Lakes (although the owner may request that it be measured under the Convention);
4. A vessel whose keel was laid or was at a similar stage of construction before January 1, 1986, and is on a domestic voyage, unless the vessel undergoes a change that significantly changes its tonnage or the owner requests that the vessel be measured under the Convention; and
5. A vessel whose keel was laid or was at a similar stage of construction before July 18, 1982, unless the vessel undergoes a change that significantly changes the vessel's tonnage or the owner requests that the vessel be measured under the Convention.

Together, subsections (b)(4) and (5) provide that, unless the owner requests measurement under the Con-

vention, unaltered vessels built before 1986 engaging only on domestic voyages do not have to be measured under the Convention or use Convention measurement for the application of any domestic laws. Further, these subsections provide that unaltered vessels that are built before July 18, 1982, engaging on foreign voyages do not have to be measured under the Convention until 1994 and are not required to use Convention measurement as a basis for the application of any domestic laws.

Section 14301(c) provides that if a vessel owner requests that the vessel be measured under the Convention, the vessel may only be remeasured under the Convention.

Section 14301(d) provides that after July 18, 1994, a vessel whose keel was laid or was at a similar stage of construction before July 18, 1982 may retain its regulatory tonnage for the application of requirements under U.S. laws or international agreements, except the International Convention on Tonnage Measurement of Ships. However, if the vessel was not required to be measured under the Convention, but the vessel's owner requested that the vessel be measured under the Convention system before July 19, 1994, or if the vessel undergoes a change affecting its tonnage, the vessel may not use its regulatory tonnage for the application of U.S. laws or international agreements after July 19, 1994.

Section 14301(e) provides that this chapter does not affect any international agreement to which the United States is a party that is not in conflict with the International Convention on Tonnage Measurement of Ships, 1969. It further provides that this chapter does not affect the application of the three interim schemes of the International Maritime Organization, which are discussed under section 14305 below.

#### AMENDMENTS

1990—Subsec. (b)(6). Pub. L. 101-595 added par. (6).

#### REPORT TO CONGRESS

Section 5103(g) of Pub. L. 99-509 provided that: "The Secretary of Transportation shall—

"(1) before July 19, 1990, submit to Congress—

"(A) a study of—

"(i) the impact of applying vessel tonnage determined under chapter 143 of title 46 (as enacted by section 5101 of this subtitle), United States Code, in laws of the United States that contain provisions based on tonnage, including an analysis of the number and types of vessels that would become subject to additional laws or more stringent requirements because of that application; and

"(ii) the extent to which the tonnage thresholds in laws of the United States whose application is based on tonnage would have to be raised so that additional vessels would not become subject to those laws if their application is based on tonnage determined under chapter 143; and

"(B) a recommendation of the levels to which the tonnage thresholds in laws of the United States whose application is based on tonnage should be raised if a complete conversion to the International Convention measurement system under chapter 143 is made;

"(2) in conducting the study under clause (1) of this subsection, consult with representatives of the private sector having experience with the operation of vessels likely to be affected by laws of the United States whose application is based on tonnage; and

"(3) before July 19, 1988, submit to Congress an interim progress report on the study conducted under clause (1) of this subsection."

#### § 14302. Measurement

(a) The Secretary shall measure a vessel to which this chapter applies in the way provided by this chapter and the Convention.

(b) Except as provided in section 1602(a) of the Panama Canal Act of 1979 (22 U.S.C. 3792(a)), a vessel measured under this chapter may not be required to be measured under another law.

(c) Unless otherwise provided by law, the measurement of a vessel under this chapter applies to a law of the United States whose applicability depends on a vessel's tonnage, if that law—

(1) becomes effective after July 18, 1994; or

(2) is in effect before July 19, 1994, is not enumerated in section 14305 of this title, and is identified by the Secretary by regulation as a law to which this chapter applies.

(Added Pub. L. 99-509, title V, §5101(3), Oct. 21, 1986, 100 Stat. 1921.)

#### HISTORICAL AND REVISION NOTES

##### *Revised section 14302*

Source: International Convention on Tonnage Measurement of Ships.

Section 14302(a) requires the Secretary to measure a vessel to which this chapter applies, in the way provided by this chapter and by the Convention. Section 14302(b) provides that a vessel that is required to be measured under this chapter can not also be required to be measured under another law. The exception allows the Panama Canal Commission to continue to use the Canal measurement system for calculation of tolls. Section 14302(c) provides that the applicability of tonnage-based laws that become effective after July 18, 1994, will be based on Convention tonnage measurements. The applicability of tonnage-based laws in effect before July 19, 1994, which are listed by the Secretary, will also be based on Convention tonnage. Therefore, the laws that will be based on regulatory tonnage are those not listed by the Secretary by regulation and those listed in section 14305 of this legislation.

#### § 14303. International Tonnage Certificate (1969)

(a) After measuring a vessel under this chapter, the Secretary shall issue, on request of the owner, an International Tonnage Certificate (1969) and deliver it to the owner or master of the vessel.

(b) The certificate shall be maintained as required by the Secretary.

(Added Pub. L. 99-509, title V, §5101(3), Oct. 21, 1986, 100 Stat. 1921.)

Section 14303(a) requires the Secretary to issue, on the request of the owner, an International Tonnage Certificate after measuring a vessel under this chapter. Section 14303(b) requires that the certificate be maintained as required by the Secretary.

#### § 14304. Remeasurement

(a) To the extent necessary, the Secretary shall remeasure a vessel to which this chapter applies if—

(1) the Secretary or the owner alleges an error in its measurement; or

(2) the vessel or the use of its space is changed in a way that substantially affects its tonnage.

(b) Except as provided in this chapter or section 14504 of this title, a vessel that has been

measured does not have to be remeasured to obtain another document or endorsement under chapter 121 of this title.

HISTORICAL AND REVISION NOTES

*Revised section 14304*

Source: International Convention on Tonnage Measurement of Ships.

Section 14304(a) requires the Secretary to remeasure a vessel, to the extent necessary, if there is an alleged error regarding its measurement or if the vessel or its use undergoes a change substantially affecting its tonnage. The phrase "to the extent necessary" was included to indicate that a complete remeasurement of the vessel may not be necessary if, for example, an error was made in one portion of the vessel's measurement and only that portion needs to be remeasured.

Section 14304(b) provides that except as provided in section 14504, a vessel that has been measured does not have to be remeasured to obtain another document or endorsement under chapter 121 of this title.

**§ 14305. Optional regulatory measurement**

(a) On request of the owner of a documented vessel measured under this chapter, the Secretary also shall measure the vessel under chapter 145 of this title. The tonnages determined under that chapter shall be used in applying—

(1) parts A, B, C, E, F, and G and sections 12106(c) and 12108(c) of this title;

(2) section 3(d)(3) of the Longshore and Harbor Workers' Compensation Act (33 U.S.C. 903(d)(3));

(3) section 4 of the Bridge to Bridge Radio-telephone Act (33 U.S.C. 1203(a));

(10) the Officers' Competency Certificates Convention, 1936, and sections 8303 and 8304 of this title;

(11) the International Convention for the Safety of Life at Sea as provided by IMCO Resolution A.494 (XII) of November 19, 1981;

(12) the International Convention on Standards of Training, Certification, and Watch-keeping for Seafarers, 1978, as provided by IMO Resolution A.540 (XIII) of November 17, 1983;

(13) the International Convention for the Prevention of Pollution from Ships, 1973, as modified by the Protocol of 1978 Relating to the International Convention for the Prevention of Pollution from Ships, 1973, as provided by IMO Resolution A.541 (XIII) of November 17, 1983;

(14) provisions of law establishing the threshold tonnage levels at which evidence of financial responsibility must be demonstrated; or

(15) unless otherwise provided by law, any other law of the United States in effect before July 19, 1994, and not listed by the Secretary under section 14302(c) of this title.

(b) As long as the owner of a vessel has a request in effect under subsection (a) of this section, the tonnages determined under that request shall be used in applying the other provisions of law described in subsection (a) to that vessel.

HISTORICAL AND REVISION NOTES

*Revised section 14305*

Source: International Convention on Tonnage Measurement of Ships.

Section 14305 requires that the Secretary measure a vessel under chapter 145 (Regulatory Measurement) of this title (in addition to measuring it under the Convention) at the request of the owner. For vessels that have obtained a regulatory tonnage measurement under this section, the Secretary is required to use the regulatory tonnage measurement to determine the application of those laws listed in section 14305(a) and those not listed by the Secretary by regulation, as provided in section 14302(c). It is the intent of the Committee to list in section 14305(a) certain U.S. tonnage-based laws that would impose increased regulatory burdens on industry if the Convention measurement were used for applicability determinations.

Clause (1) of section 14305(a) includes the following parts of subtitle II of title 46, U.S.C.:

Part A: General provisions (including definitions.)

Part B: Inspection and Regulation of Vessels.

Part C: Load Lines, which is enacted as part of this legislation. Although most load line requirements are based on vessel length, and not tonnage, a few requirements are based on tonnage. (It is only the tonnage based requirements to which this provision applies.)

Part E: Licenses, Certificates, and Merchant Mariners' Documents.

Part F: Manning of Vessels.

Part G: Merchant Seamen Protection and Relief.

Part H: Sections 12106(c) and 12108(c) only—Identification of Vessels.

The other U.S. laws listed in clause (2) through (10) of this section are self-explanatory. Clause (10) refers to domestic law as well as the Officers' Competency Certificates Convention, 1936.

In addition, three other international conventions are listed in clauses (11) through (13): (1) the Convention for the Safety of Life at Sea, (2) the Convention on the Standards of Training, Certification, and Watch-keeping for Seafarers, and (3) the Convention for the Prevention of Pollution from Ships. The International Maritime Organization has established interim schemes which address the use of the Convention tonnage measurement system as a basis for the applicability of these three conventions. The applicable sections of those schemes are the following:

The International Convention for the Safety of Life at Sea: IMCO Resolution A.494 (XII) of November 19, 1981 provides "that at the request of a shipowner, the Administration may allow a ship required to be measured under the provisions of the International Convention on Tonnage Measurement of Ships, 1969, to use the gross tonnage measured under the national tonnage rules which are in effect prior to the coming into force of the 1969 Tonnage Convention, for the purpose of application of the provisions of the International Convention for the Safety of Life at Sea, such tonnage, however, shall not be shown on the 1969 Tonnage Certificate." The resolution further provides that "the interim scheme shall not apply to ships the keels of which are laid after 31 December 1985 with the following exceptions:

"(a) In respect of the requirements of Regulation 3 of Chapter IV of the 1974 SOLAS Convention for ships the keels of which are laid before 18 July 1994, the Administration may continue to apply the interim

scheme, in which case the above-mentioned entry should be made in the Radio-telephony Certificate only; and

“(b) In respect of the regulations for cargo ships of less than 1,600 tons gross tonnage (as measured under national systems), the keels of which are laid after 31 December 1985, the Administration may continue to apply the interim scheme until 18 July 1984.”

The International Convention on Standards of Training, Certification, and Watchkeeping for Seafarers, 1978: IMO Resolution A.540 (XIII) of November 17, 1983, provides “that the revised interim scheme for tonnage measurement for certain ships adopted by resolution A.494 (XII), [described above] should also be applicable in respect of the provision of the International Convention, and Watchkeeping for Seafarers, 1978.”

The International Convention for the Prevention of Pollution from Ships, 1973, as modified by the Protocol of 1978 Relating to the International Convention for the Prevention of Pollution from Ships, 1973: IMO Resolution A.541 (XIII) of November 17, 1983, provides that:

At the request of a shipowner, the Administration may allow a ship of less than 400 tons gross tonnage (measured under the previous national tonnage rules) the keel of which is laid on or before 31 December 1985 and which is required to be measured under the provisions of the International Convention on Tonnage Measurement of Ships, 1969, to use the gross tonnage measured under the national tonnage rules which were in effect prior to the coming into force of the 1969 Tonnage Convention, for the purpose of application of the provisions of MARPOL 73/78. Such tonnage, however, shall not be shown on the 1969 Tonnage Certificate.

It further provides that “the interim scheme shall not apply to ships the keels of which are laid after 31 December 1985, except that in respect of regulations for ships of less than 400 tons gross tonnage (as measured under previous national rules), the keels of which are laid after 31 December 1985, the Administration may continue to apply the interim scheme until 18 July 1994.”

Clause (14) provides that the regulatory measurement system may be used to determine which vessels must demonstrate evidence of financial responsibility (when such a demonstration is required by law). If it is determined that a vessel must show evidence of financial responsibility, the limits of financial responsibility are determined using the vessel's Convention measurement.

Clause (15) provides that the regulatory measurement system may be used for the application of laws not identified by the Secretary under section 14302(c).

Section 14305(b) provides that if a vessel is measured under the regulatory tonnage measurement system for the application of one law listed in subsection (a), it must be measured under that system for the application of all laws listed in subsection (a).

#### § 14306. Reciprocity for foreign vessels

(a) When the Secretary finds that the laws and regulations of a foreign country related to measurement of vessels are similar to those of this chapter and the regulations prescribed under this chapter, or when a foreign country is a party to the Convention, the Secretary shall accept the measurement and certificate of a vessel of that foreign country as complying with this chapter and the regulations prescribed under this chapter.

(b) Subsection (a) of this section does not apply to a vessel of a foreign country that does not recognize measurements under this chapter. The Secretary may apply measurement standards the Secretary considers appropriate to the vessel, subject to applicable international agreements to which the United States Government is a party.

Section 14306(a) requires that the Secretary accept the measurement and certificate of a vessel of a foreign country as evidence of compliance with this chapter when the Secretary finds that the laws and regulations of that foreign country that are related to measurement are similar to those of this chapter, or that that country is a party to the Convention.

Section 14306(b) provides that the Secretary does not have to accept the measurement and certificate of a vessel of a country that does not recognize United States measurements. It also authorizes the Secretary to apply appropriate measurement standards to such foreign vessels, subject to international agreements to which the United States is a party.

#### § 14307. Inspection of foreign vessels

(a) The Secretary may inspect a vessel of a foreign country to verify that—

(1) the vessel has an International Tonnage Certificate (1969) and the main characteristics of the vessel correspond to the information in the certificate; or

(2) if the vessel is from a country not a party to the Convention, the vessel has been measured under laws and regulations similar to those of this chapter and the regulations prescribed under this chapter.

(b) For a vessel of a country that is a party to the Convention, if the inspection reveals that the vessel does not have an International Tonnage Certificate (1969) or that the main characteristics of the vessel differ from those stated on the certificate or other records in a way that increases the gross or net tonnage of the vessel, the Secretary promptly shall inform the country whose flag the vessel is flying.

(c) For a vessel of a country not a party to the Convention—

(1) if the vessel has been measured under laws and regulations that the Secretary finds are similar to those of this chapter and the regulations prescribed under this chapter, the vessel shall be deemed to have been issued an International Tonnage Certificate (1969); and

(2) if the vessel has not been measured as described in clause (1) of this subsection, the Secretary may measure the vessel.

(d) An inspection under this section shall be conducted in a way that does not delay a vessel of a country that is a party to the Convention.

Section 14307(b) requires that if the Secretary inspects a vessel of a country that is a party to the Convention and finds that the vessel does not have an International Tonnage Certificate or that the main characteristics of the vessel differ from those stated on the certificate or other records in a way that increases the gross or net tonnage of the vessel, the Secretary must inform the country whose flag the vessel is flying.

Section 14307(c) provides that if the Secretary finds that a vessel of a country not a party to the Convention has been measured under laws and regulations similar to those of this chapter, that the vessel shall be deemed to have been issued an International Tonnage Certificate. This chapter applies to the following:

(1) a vessel not measured under chapter 143 of this title if—

(A) the vessel is to be documented under chapter 121 of this title; or

(B) the application of a law of the United States to the vessel depends on the vessel's tonnage.

Section 14501 delineates the vessels that must be measured under this chapter, i.e. under the regulatory tonnage measurement system. Section 14501(1) states that a vessel must be measured under this chapter if the vessel has not been measured under the International Convention on Tonnage Measurement of Ships, and if the vessel is to be documented as a vessel of the United States under chapter 121 of this subtitle, or if the application of a United States law depends on the vessel's tonnage. Section 14501(2) states that a vessel must be measured under the regulatory measurement system if the owner requests.

**§ 14502. Measurement**

The Secretary shall measure a vessel to which this chapter applies in the way provided by this chapter.

(1) the Secretary or the owner alleges an error in its measurement;

(2) the vessel or the use of its space is changed in a way that substantially affects its tonnage;

(3) after being measured under subchapter III of this chapter, the vessel becomes subject to subchapter II of this chapter because the vessel or its use is changed; or

(4) although not required to be measured under subchapter II of this chapter, the vessel was measured under subchapter II and the owner requests that the vessel be measured under subchapter III of this chapter.

(b) Except as provided in this section and chapter 143 of this title, a vessel that has been measured does not have to be remeasured to obtain another document or endorsement under chapter 121 of this title.

Section 14504(a) provides that the Secretary shall re-measure a vessel that has been measured under the regulatory measurement system if either the Secretary or the owner alleges an error in its measurement; if the vessel, or its use, undergoes a substantial change affecting its tonnage; if the vessel loses its eligibility for measurement under the simplified system because of a change in the vessel or its use; or if the vessel owner requests that the vessel be measured under the simplified system after having been measured under the standard regulatory measurement system. Section 14504(b) provides that a vessel that has been measured does not have to be remeasured to obtain another document or endorsement under chapter 121—"Documentation of Vessels"—except as provided above or in chapter 143 of this subtitle.

### SUBCHAPTER II—FORMAL SYSTEMS

#### HISTORICAL AND REVISION NOTES

This subchapter provides for the standard regulatory measurement of vessels for vessels that do not qualify for the simplified measurement systems.

#### § 14511. Application

This subchapter applies to a vessel described in section 14501 of this title if—

- (1) the owner requests; or
- (2) the vessel is—
  - (A) self-propelled;
  - (B) at least 24 meters (79 feet) overall in length; and
  - (C) not operated only for pleasure.

Section 14511 lists the types of vessels that are to be measured under the standard regulatory measurement system. They are vessels for which the owner requests a standard measurement or vessels which are self-propelled, at least 79 feet in length, and not operated only for pleasure.

#### § 14512. Standard tonnage measurement

(a) The Secretary shall prescribe regulations for measuring the gross and net tonnages of a vessel under this subchapter. The regulations shall provide for tonnages comparable to the tonnages that could have been assigned under

sections 4151 and 4153 of the Revised Statutes of the United States, as sections 4151 and 4153 existed immediately before the enactment of this section.

(b) On application of the owner or master of a vessel of the United States used in foreign trade, the Secretary may attach an appendix to the vessel's register stating the measurement of spaces that may be deducted from gross tonnage under laws and regulations of other countries but not under those of the United States.

#### § 14513. Dual tonnage measurement

(a) On application by the owner and approval by the Secretary, the tonnage of spaces prescribed by the Secretary may be excluded in measuring under this section the gross tonnage of a vessel measured under section 14512 of this title. The spaces prescribed by the Secretary shall be comparable to the spaces that could have been excluded under section 2 of the Act of September 29, 1965 (Public Law 89-219, 79 Stat. 891), as section 2 existed immediately before the enactment of this section.

(b) The Secretary shall prescribe the design, location, and dimensions of the tonnage mark to be placed on a vessel measured under this section.

(c)(1) If a vessel's tonnage mark is below the uppermost part of the load line marks, each certificate stating the vessel's tonnages shall state the gross and net tonnages when the mark is submerged and when it is not submerged.

(2) Except as provided in paragraph (1) of this subsection, a certificate stating a vessel's tonnages may state only one set of gross and net tonnages.

Secretary, they shall be comparable to those the Secretary could have excluded in existing law (46 App. U.S.C. 83a). ### SUBCHAPTER III—SIMPLIFIED SYSTEM

#### HISTORICAL AND REVISION NOTES

#### § 14521. Application

This subchapter applies to a vessel described in section 14501 of this title that is not measured under subchapter II of this chapter.

Section 14521 provides that vessels that are to be measured under the regulatory measurement system in this chapter, but are not measured under the standard regulatory measurement system in subchapter II, shall be measured under the simplified measurement system.

#### § 14522. Measurement

(a) In this section, "length" means the horizontal distance of the hull between the foremost part of the stem and the aftermost part of the stern, excluding fittings and attachments.

(b)(1) The Secretary shall assign gross and net tonnages to a vessel based on its length, breadth, depth, other dimensions, and appropriate coefficients.

(2) The Secretary shall prescribe the way dimensions (except length) are measured and which coefficients are appropriate.

(c) The resulting gross tonnages, taken as a group, reasonably shall reflect the relative internal volumes of the vessels measured under this subchapter. The resulting net tonnages shall be in approximately the same ratios to corresponding gross tonnages as are the net and gross tonnages of comparable vessels measured under subchapter II of this chapter.

(d) Under regulations prescribed by the Secretary, the Secretary may determine the gross and net tonnages of a vessel representative of a designated class, model, or type, and then assign those gross and net tonnages to other vessels of the same class, model, or type.

Section 14522(c) provides that the gross tonnages as measured under this section shall reflect the relative internal volumes of vessels. It provides further that the net tonnages measured under this section shall be in approximately the same ratio to corresponding gross tonnages as are the net and gross tonnages of comparable vessels measured under the standard regulatory measurement system.

HISTORICAL AND REVISION NOTES

Section 101 [102] of H.R. 3105 revises, consolidates, and enacts certain general and permanent laws of the United States related to commercial instruments and liens and public vessels and goods. It amends subtitle III of title 46, United States Code by striking at the end "Chapters 313, 315—Reserved" and substituting "Chapter 313—Commercial Instruments and Maritime Liens". Chapter 313 is essentially a codification of the Ship Mortgage Act, 1920 (46 App. U.S.C. 911-984). H.R. 3105 is the second step in the process of enacting laws compiled in title 46 of the Code into positive law. The first step in the codification process began in 1983 when certain general and permanent laws related to vessels and seamen were enacted as subtitle II of the title 46, United States Code.

HOUSE FLOOR STATEMENT

Section 102 of this bill adds a new subtitle III to title 46, which contains a codification of the Ship Mortgage Act, 1920 and other related provisions. A previous version of this codification and the remaining sections of the bill were recently reported by the Merchant Marine and Fisheries Committee in H.R. 3105 (H. Rept. 100-918). The significant additions or changes by this provision to the version of H.R. 3105 reported by the Merchant Marine and Fisheries Committee are explained as follows: [see sections 30101, 31305, 31321, 31322, 31325, 31329, 31330, 31343 of this title].

31301(6)(A) .....	46:922(b)
31301(6)(B) .....	46:951 (2d par. less proviso)

Section 31301(1) defines the term "acknowledge". This paragraph makes a substantive change to law to expand the current law by allowing a notarization under State law, a form prescribed by the Secretary, as well as a certificate issued under the Hague Convention Abolishing the Requirement of Legalisation for Foreign Public Documents, 1961.

Section 31301(2) defines "district court". This paragraph makes a substantive change to law by including the District Court of Guam, the District Court of the Virgin Islands, the District Court of the Northern Mariana Islands, the High Court of American Samoa, and other Federal territorial courts as they are established. Under current law, only the district courts of the United States have jurisdiction under the Ship Mortgage Act, 1920.

Section 31301(3) defines "mortgagee" as a person to whom property is mortgaged and the trustee authorized under section 31328 that is designated in the trust agreement.

Section 31301(4) defines "necessaries" to include repairs, supplies, towage, and the use of a drydock and marine railway for a vessel. As in all codifications, the term "includes" means "includes but is not limited to" and, therefore, is not intended to be an exclusive listing of those items that a court has determined or may determine as falling within the meaning of the term "other necessities" as contained in current law. The definition is new, is based on 46 App. U.S.C. 971-974, and makes no substantive change to law.

Section 31301(5) defines "preferred maritime lien" to mean a lien on a vessel that arises before a preferred mortgage was filed under section 31321 of this title for damages arising out of maritime tort, stevedore wages, crew wages, general average, and salvage. The definition is new and is based on 46 App. U.S.C. 953(a). The only substantive change to law made by this paragraph is to change the effective date from the day the preferred mortgage is recorded and endorsed to when it is filed. This change is in keeping with other changes with regard to filing. The term "duly and validly" that is in existing law is not used because it is unnecessary. An instrument that is not "duly and validly" executed is not executed under the laws of the foreign country. This makes no substantive change to law.

Section 31301(6)(A) defines "preferred mortgage" to mean a mortgage that meets the requirements of section 31322. This clause makes no substantive change to law.

Section 31301(6)(B) defines "preferred mortgage" to also mean a mortgage on a documented foreign vessel that is preferred under sections 31325 and 31326 for purposes of enforcement of the outstanding mortgage in-

debtedness. Preference is only granted if the mortgage is executed under the laws of a foreign country, registered under those laws in a public register at the port of registry or at a central office. The use of the word "established" in place of "created" in the current law or "effective" as used in the treaties is not intended to make any substantive change to law. The only substantive changes to law made by this clause are the elimination of the exemption of foreign vessels of less than 200 gross tons, and clarification of the rule of interpretation that if a vessel is registered in one country, but is permitted to fly temporarily the flag of another country (such as through a demise charter), it is the law of the country in which the ownership of the vessel is documented that is used to determine when a mortgage attains preferred status.

EFFECTIVE DATE

Chapter effective Jan. 1, 1989, with certain exceptions and qualifications, and not to affect any civil action filed before that date, see section 107 of Pub. L. 100-710, set out as a note under section 30101 of this title.

§ 31302. Availability of instruments, copies, and information

The Secretary of Transportation shall—

(1) make any instrument filed or recorded with the Secretary under this chapter available for public inspection;

(2) on request, provide a copy, including a certified copy, of any instrument made available for public inspection under this chapter; and

(3) on request, provide a certificate containing information included in an instrument filed or recorded under this chapter.

Section 31302(1) makes all instruments filed for recording or recorded with the Secretary of Transportation available for public inspection. The only substantive change to law made by this subsection is the inclusion of instruments filed for recording, which is in keeping with the new requirements on filing of instruments made in section 31321.

Section 31302(2) requires the Secretary to provide the public with a certified copy of the material made available to the public under subsection (a). This subsection makes no substantive change to law.

Section 31302(3) requires the Secretary, on request, to issue a certificate containing the information included in instruments on file, such as certificates of ownership.

§ 31303. Certain civil actions not authorized

If a mortgage covers a vessel and additional property that is not a vessel, this chapter does not authorize a civil action in rem to enforce the rights of the mortgagee under the mortgage against the additional property.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
31303 .....	46:954(b)

Section 31303 makes it clear that, if a mortgage covers a vessel and additional property that is not a vessel, this chapter does not authorize a civil action *in rem* in admiralty to enforce rights against the additional property. This section makes no substantive change to law.

**§ 31304. Liability for noncompliance**

(a) If a person makes a contract secured by, or on the credit of, a vessel covered by a mortgage filed or recorded under this chapter and sustains a monetary loss because the mortgagor or the master or other individual in charge of the vessel does not comply with a requirement imposed on the mortgagor, master, or individual under this chapter, the mortgagor is liable for the loss.

(b) A civil action may be brought to recover for losses referred to in subsection (a) of this section. The district courts have original jurisdiction of the action, regardless of the amount in controversy or the citizenship of the parties. If the plaintiff prevails, the court shall award costs and attorney fees to the plaintiff.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
31304 .....	46:941(c)

Section 31304 imposes liability on the mortgagor if the mortgagor, master, or other individual in charge of the vessel does not comply with the statutory requirements. A civil action may be brought in a district court of the United States for losses incurred. If the plaintiff prevails, the court shall award costs and attorneys fees to the plaintiff. This section makes two substantive changes to law. First, is the broadening of its coverage from documented vessels covered by a preferred mortgage to any vessel covered by a mortgage that is filed or recorded under the chapter. The second substantive change repeals the liability on the United States Government for losses caused because the Secretary did not comply with statutory requirements. This is covered by the Federal Tort Claims Act due to the non-discretionary responsibility of the Secretary.

**§ 31305. Waiver of lien rights**

This chapter does not prevent a mortgagee or other lien holder from waiving or subordinating at any time by agreement or otherwise the lien holder's right to a lien, the priority or, if a preferred mortgage lien, the preferred status of the lien.

(Pub. L. 100-710, title I, § 102(c), Nov. 23, 1988, 102 Stat. 4741.)

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
31305 .....	46:974

Section 31305 provides for the waiver of lien rights by the mortgagee or a person performing or supplying necessities. This section makes no substantive change to law and is included only because of a like provision in current law. Without this provision the Committee believes these waivers would be permissible as a matter of law as they do not violate any public policy and on their face reflect an arms length transaction between the parties. The inclusion of this provision should not raise the implication that a similar provision is required for other matters that may be waivable as a matter of law.

HOUSE FLOOR STATEMENT

Section 31305 has been changed to clarify that the chapter does not prevent a mortgagee or other lien holder from waiving by contract the right to a lien, or the priority of that lien.

**§ 31306. Declaration of citizenship**

(a) Except as provided by the Secretary of Transportation, when an instrument transferring an interest in a vessel is presented to the Secretary for filing or recording, the transferee shall file with the instrument a declaration, in the form the Secretary may prescribe by regulation, stating information about citizenship and other information the Secretary may require to show the transaction involved does not violate section 9 or 37 of the Shipping Act, 1916 (46 App. U.S.C. 808, 835).

(b) A declaration under this section filed by a corporation must be signed by its president, secretary, treasurer, or other official authorized by the corporation to execute the declaration.

(c) Except as provided by the Secretary, an instrument transferring an interest in a vessel is not valid against any person until the declaration required by this section has been filed.

(d) A person knowingly making a false statement of a material fact in a declaration filed under this section shall be fined under title 18, imprisoned for not more than 5 years, or both.

This section makes no substantive change to law.

Section 31306(b) requires that a declaration filed by a corporation must be signed by the president, secretary, treasurer, or other official authorized by the corporation to execute the declaration. This section makes no substantive change to law.

Section 31306(c) invalidates any instrument transferring an interest until the declaration is filed. This section makes no substantive change to law.

Section 31306(d) provides for a criminal penalty for a violation of this section. The amount of the fine is prescribed under title 18, United States Code, and may include imprisonment for not more than 5 years, or both. This section makes no substantive change to law.

AMENDMENTS

SUBCHAPTER II—COMMERCIAL INSTRUMENTS

§ 31321. Filing, recording, and discharge

(a)(1) A bill of sale, conveyance, mortgage, assignment, or related instrument, whenever

made, that includes any part of a documented vessel or a vessel for which an application for documentation is filed, must be filed with the Secretary of Transportation to be valid, to the extent the vessel is involved, against any person except—

- (A) the grantor, mortgagor, or assignor;
- (B) the heir or devisee of the grantor, mortgagor, or assignor; and
- (C) a person having actual notice of the sale, conveyance, mortgage, assignment, or related instrument.

(2) Each bill of sale, conveyance, mortgage, assignment, or related instrument that is filed in substantial compliance with this section is valid against any person from the time it is filed with the Secretary.

(3) The parties to an instrument or an application for documentation shall use diligence to ensure that the parts of the instrument or application for which they are responsible are in substantial compliance with the filing and documentation requirements.

(4) A bill of sale, conveyance, mortgage, assignment, or related instrument may be filed electronically under regulations prescribed by the Secretary.

(b) To be filed, a bill of sale, conveyance, mortgage, assignment, or related instrument must—

- (1) identify the vessel;
- (2) state the name and address of each party to the instrument;
- (3) state, if a mortgage, the amount of the direct or contingent obligations (in one or more units of account as agreed to by the parties) that is or may become secured by the mortgage, excluding interest, expenses, and fees;
- (4) state the interest of the grantor, mortgagor, or assignor in the vessel;
- (5) state the interest sold, conveyed, mortgaged, or assigned; and
- (6) be signed and acknowledged.

(c) If a bill of sale, conveyance, mortgage, assignment, or related document is filed that involves a vessel for which an application for documentation is filed, and the Secretary decides that the vessel cannot be documented by an applicant—

- (1) the Secretary shall send notice of the Secretary’s decision, including reasons for the decision, to each interested party to the instrument filed for recording; and
- (2) 90 days after sending the notice as provided under clause (1) of this subsection, the Secretary—
  - (A) may terminate the filing; and
  - (B) may return the instrument filed without recording it under subsection (e) of this section.

(d) A person may withdraw an application for documentation of a vessel for which a mortgage has been filed under this section only if the mortgagee consents.

- (e) The Secretary shall—
  - (1) record the bills of sale, conveyances, mortgages, assignments, and related instruments of a documented vessel complying with subsection (b) of this section in the order they are filed; and

(2) maintain appropriate indexes, for use by the public, of instruments filed or recorded, or both.

(f) On full and final discharge of the indebtedness under a mortgage recorded under subsection (e)(1) of this section, a mortgagee, on request of the Secretary or mortgagor, shall provide the Secretary with an acknowledged certificate of discharge of the indebtedness in a form prescribed by the Secretary. The Secretary shall record the certificate.

(g) The mortgage or related instrument of a vessel covered by a preferred mortgage under section 31322(d) of this title, that is later filed under this section at the time an application for documentation is filed, is valid under this section from the time the mortgage or instrument representing financing became a preferred mortgage under section 31322(d).

(h) On full and final discharge of the indebtedness under a mortgage deemed to be a preferred mortgage under section 31322(d) of this title, a mortgagee, on request of the Secretary, a State, or mortgagor, shall provide the Secretary or the State, as appropriate, with an acknowledged certificate of discharge of the indebtedness in a form prescribed by the Secretary or the State, as applicable. If filed with the Secretary, the Secretary shall enter that information in the vessel identification system under chapter 125 of this title.

Section 31321(a)(1) provides for the filing of a bill of sale, conveyance, mortgage, assignment, or related instrument of a vessel. This subsection makes substantive changes to law. The bill would allow a bill of sale, conveyance, mortgage, assignment, or related instrument to be filed at the same time an application for documentation under chapter 121 is filed. The Committee intends that the types of related instruments required to be filed be defined by regulations prescribed by the Secretary of Transportation. A major change the bill makes is that the instrument needs only be filed with the Secretary of Transportation to be valid. It is not necessary that it be recorded. This change is being made to eliminate a problem under existing law that prevents a person from recording an instrument when the vessel has not been yet documented. When filed with the Secretary, it is valid (to the extent the vessel is involved) against any person except the grantor, mortgagor, or assignor, their heirs or devisees, and a person having actual notice of that instrument. Clauses (A)–(C) make no substantive change to law.

Paragraph (2) provides that each bill of sale, conveyance, mortgage, assignment, or related instrument that is filed in substantial compliance with the requirements of this section is valid against any person from the time it is filed with the Secretary.

Paragraph (3) provides that it is the responsibility of the parties to an instrument to use diligence to ensure that the particulars of a filed instrument for which they are responsible are in substantial compliance. It is not the responsibility of the Secretary to validate the information in the instrument. If an instrument is later found to be invalid because it is not in substantial compliance, and the parties lose the benefits of a preferred mortgage, it is their fault, not the Secretary's.

Section 31321(b) sets out the requirements that an instrument must meet to be properly filed. To be filed the instruments must: (1) identify the vessel; (2) state the name and address of each party to the instrument; (3) state, if a mortgage, the amount of the direct or contingent obligations (in one or more units of account as agreed to by the parties) that is or may become secured by the mortgage, excluding interest, expenses, and fees; (4) state the interest of the grantor, mortgagor, or assignor; (5) state the interest sold, conveyed, mortgaged, or assigned; and (6) be signed and acknowledged. While most of these items are required under current law to be included in the index, and therefore required to be submitted to the Secretary to be recorded, this subsection makes a number of substantive changes to law. First, while vessel names are currently required to be submitted, this requirement has been broadened so that hull identification numbers and official numbers can be used to more specifically identify a vessel (since many vessels have the same name). Second, it requires the mortgage to state the maximum amount of the obligation, including principal, interest, fees, etc., that are secured by the mortgage. It also clarifies that the mortgage obligation may be payable in more than one unit of account, such as yen, franc, or special drawing right. Third, it recognizes that under some modern financing practices an instrument may not have a date of maturity. The requirement for supplying the date of maturity has been eliminated.

Section 31321(c) provides that if an instrument filed involves a vessel that has not yet been documented, and the Secretary decides that the vessel cannot be documented by the applicant, then the Secretary shall send notice of that denial to the parties, including the reasons for the Secretary's decision. If the parties have not corrected the deficiencies within 90 days, the Secretary may terminate the filing and return the instruments. This invalidates the instruments.

Section 31321(d) prohibits a person from withdrawing an application for documentation of a vessel for which a mortgage has been filed unless the mortgagee consents. Since the withdrawal will invalidate the mortgage, the mortgagee should be allowed to prohibit the withdrawal.

Section 31321(e) makes a substantive change to law. It requires the Secretary to record instruments in the order they are received for filing, not in the order in which they were received for recording. It also makes a substantive change by eliminating the specific indexes required under the law and substituting a general requirement for the Secretary to maintain indexes of instruments filed or recorded, or both, for use by the public. These indexes, prescribed by regulations, must be in keeping with U.S. obligations under treaties to which the United States is a party. Since section 104 [105] of this Act makes the existing rules and regulations applicable under this subsection, the current indexing system will be maintained that includes the names of the vessels; names of the parties to the instruments; time and date each instrument was received; the interest in the vessel that was sold, conveyed, mortgaged, or assigned; and the date of the maturity of the mortgage, if any. However, it allows the Secretary by regulation to automate the system with computers, as long as the new system provides the public with an adequate method of finding and examining these public records.

Section 31321(f) makes a substantive change to law by eliminating the requirement that a partial discharge of indebtedness be filed with the Secretary. The bill requires that on the full and final discharge of indebted-

ness the mortgagee, on request of the Secretary or mortgagor, shall provide the Secretary with a written, acknowledged certificate of discharge of the indebtedness. This subsection also makes a substantive change by requiring that the mortgagee, not the mortgagor, provide the certificate of discharge. The Secretary shall then record the certificate. However, this does not prohibit a person from submitting a certificate of discharge under subsection (a) since it is a related instrument. This subsection also makes a substantive change to law by eliminating the requirement that the discharge be endorsed on the vessel's certificate of documentation, and that the Customs Service only may clear a vessel after an endorsement has been made. This change is made because of the elimination of endorsements under section 31322.

#### HOUSE FLOOR STATEMENT

Section 31321 has been changed to clarify that a mortgage, whenever made, must be filed to be valid against third parties. This clarification allows mortgage closings to occur previous to filing of an instrument, and to eliminate the need for a fictional simultaneous closing and filing.

Subsection (g) clarifies that if an application for documentation is filed for a vessel covered by a preferred mortgage under section 31322(d) (as enacted by this Act), the preferred mortgage must be filed with the Secretary at the same time the application for documentation is filed to be valid against third parties. If the preferred mortgage is filed with the Secretary at the time the documentation application is filed, it is valid from the time it became a preferred mortgage under section 31322(d).

When a State preferred mortgage under section 31322(d) is finally discharged, subsection (h) of this section requires the mortgagee to provide upon request to the Secretary or a State, whichever is more appropriate, an acknowledged certificate of discharge of indebtedness. This is necessary when a vessel in the system moves from a participating titling State and is not retitled in another participating State. In this case, there is no way to update the status of the indebtedness through the original titling State. The Secretary is required to accept this information to be maintained in the vessel identification system under section 12503(c) of title 46 (as enacted by this Act).

#### AMENDMENTS

2002—Subsec. (a)(4) Pub. L. 107-295 struck out subpar. (A) designation before "A bill of sale" and subpar. (B) which read as follows: "A filing made electronically under subparagraph (A) shall not be effective after the 10-day period beginning on the date of the filing unless the original instrument is provided to the Secretary within that 10-day period."

1996—Subsec. (a). Pub. L. 104-324 added par. (4).

1989—Subsec. (c). Pub. L. 101-225 substituted "for which an application for documentation is filed" for "that has not yet been documented" in introductory provisions and "interested party to" for "party whose name and address is stated on" in par. (1).

#### EFFECTIVE DATE

Section effective Jan. 1, 1989, not to affect any civil action filed before that date, and, insofar as applicable to vessels for which an application for documentation has been filed, effective Jan. 1, 1990, with further provision for an instrument filed before Jan. 1, 1989, but not recorded before that date, and with other qualifications, see section 107 of Pub. L. 100-710, set out as a note under section 30101 of this title.

### § 31322. Preferred mortgages

(a) A preferred mortgage is a mortgage, whenever made, that—

(1) includes the whole of the vessel;

(2) is filed in substantial compliance with section 31321 of this title;

(3)(A) covers a documented vessel; or

(B) covers a vessel for which an application for documentation is filed that is in substantial compliance with the requirements of chapter 121 of this title and the regulations prescribed under that chapter; and

(4) with respect to a vessel with a fishery endorsement that is 100 feet or greater in registered length, has as the mortgagee—

(A) a person eligible to own a vessel with a fishery endorsement under section 12102(c) of this title;

(B) a state<sup>1</sup> or federally chartered financial institution that is insured by the Federal Deposit Insurance Corporation;

(C) a farm credit lender established under title 12, chapter 23 of the United States Code;

(D) a commercial fishing and agriculture bank established pursuant to State law;

(E) a commercial lender organized under the laws of the United States or of a State and eligible to own a vessel under section 12102(a) of this title; or

(F) a mortgage trustee under subsection (f) of this section.

(b) Any indebtedness secured by a preferred mortgage that is filed or recorded under this chapter, or that is subject to a mortgage, security agreement, or instruments granting a security interest that is deemed to be a preferred mortgage under subsection (d) of this section, may have any rate of interest to which the parties agree.

(c)(1) If a preferred mortgage includes more than one vessel or property that is not a vessel, the mortgage may provide for the separate discharge of each vessel and all property not a vessel by the payment of a part of the mortgage indebtedness.

(2) If a vessel covered by a preferred mortgage that includes more than one vessel or property that is not a vessel is to be sold on the order of a district court in a civil action in rem, and the mortgage does not provide for separate discharge as provided under paragraph (1) of this subsection—

(A) the mortgage constitutes a lien on that vessel in the full amount of the outstanding mortgage indebtedness; and

(B) an allocation of mortgage indebtedness for purposes of separate discharge may not be made among the vessel and other property covered by the mortgage.

(d)(1) A mortgage, security agreement, or instrument granting a security interest perfected under State law covering the whole of a vessel titled in a State is deemed to be a preferred mortgage if—

(A) the Secretary certifies that the State titling system complies with the Secretary's guidelines for a titling system under section 13106(b)(8) of this title; and

(B) information on the vessel covered by the mortgage, security agreement, or instrument is made available to the Secretary under chapter 125 of this title.

<sup>1</sup> So in original. Probably should be capitalized.

(2) This subsection applies to mortgages, security agreements, or instruments covering vessels titled in a State after—

- (A) the Secretary's certification under paragraph (1)(A) of this subsection; and
- (B) the State begins making information available to the Secretary under chapter 125 of this title.

(3) A preferred mortgage under this subsection continues to be a preferred mortgage even if the vessel is no longer titled in the State where the mortgage, security agreement, or instrument granting a security interest became a preferred mortgage under this subsection.

(e) If a vessel is already covered by a preferred mortgage when an application for titling or documentation is filed—

- (1) the status of the preferred mortgage covering the vessel to be titled in the State is determined by the law of the jurisdiction where the vessel is currently titled or documented; and
- (2) the status of the preferred mortgage covering the vessel to be documented under chapter 121 is determined by subsection (a) of this section.

(f)(1) A mortgage trustee may hold in trust, for an individual or entity, an instrument or evidence of indebtedness, secured by a mortgage of the vessel to the mortgage trustee, provided that the mortgage trustee—

- (A) is eligible to be a preferred mortgagee under subsection (a)(4), subparagraphs (A)–(E) of this section;
- (B) is organized as a corporation, and is doing business, under the laws of the United States or of a State;
- (C) is authorized under those laws to exercise corporate trust powers;
- (D) is subject to supervision or examination by an official of the United States Government or a State;
- (E) has a combined capital and surplus (as stated in its most recent published report of condition) of at least \$3,000,000; and
- (F) meets any other requirements prescribed by the Secretary.

(2) If the beneficiary under the trust arrangement is not a commercial lender, a lender syndicate or eligible to be a preferred mortgagee under subsection (a)(4), subparagraphs (A)–(E) of this section, the Secretary must determine that the issuance, assignment, transfer, or trust arrangement does not result in an impermissible transfer of control of the vessel to a person not eligible to own a vessel with a fishery endorsement under section 12102(c) of this title.

(3) A vessel with a fishery endorsement may be operated by a mortgage trustee only with the approval of the Secretary.

(4) A right under a mortgage of a vessel with a fishery endorsement may be issued, assigned, or transferred to a person not eligible to be a mortgagee of that vessel under this section only with the approval of the Secretary.

(5) The issuance, assignment, or transfer of an instrument or evidence of indebtedness contrary to this subsection is voidable by the Secretary.

(g) For purposes of this section a “commercial lender” means an entity primarily engaged in

the business of lending and other financing transactions with a loan portfolio in excess of \$100,000,000, of which not more than 50 per centum in dollar amount consists of loans to borrowers in the commercial fishing industry, as certified to the Secretary by such lender.

(h) For purposes of this section a “lender syndicate” means an arrangement established for the combined extension of credit of not less than \$20,000,000 made up of four or more entities that each have a beneficial interest, held through an agent, under a trust arrangement established pursuant to subsection (f), no one of which may exercise powers thereunder without the concurrence of at least one other unaffiliated beneficiary.

Section 31322 sets out the conditions that must be met for a mortgage to be considered a preferred mortgage, and the types of endorsements that the Secretary must make on any certificate of documentation of a vessel that is to be covered by a preferred mortgage.

Subsection (a)(1) makes many substantive changes to law. While a preferred mortgage must still include the whole of a vessel, this subsection eliminates the exception of certain vessels under 25 gross tons. It allows a vessel for which an application for documentation has been filed to have a preferred mortgage. It allows a mortgage to be a preferred mortgage from the time all four conditions are met, rather than from when the vessel is finally documented. Therefore, a mortgage will usually attain its preferred status when the application for documentation and the instrument have been filed. This subsection changes the requirement that all documented vessels have as a mortgagee a person that is a citizen of the United States, as defined in section 2 of the Shipping Act, 1916, and allows a State, the United States Government, a federally insured depository institution, or any other person approved by the Secretary to be a mortgagee.

Subsection (a)(2) makes a substantive change to law exempting fishing, fish processing, and fish tender vessels, and vessels operated only for pleasure from the mortgagee restrictions, since these vessels do not have significant national defense use.

Subsection (b) permits a preferred mortgage to have any rate of interest that is agreeable to the parties to the mortgage. This subsection makes no substantive change to law.

Subsection (c)(1) applies to a mortgage that covers more than one vessel or additional property that is not a vessel. This subsection allows a preferred mortgage to include a separate discharge of the additional vessels and property.

Subsection (c)(2) applies when a preferred mortgage covers more than one vessel, does not provide for the separate discharge of a vessel, and is to be sold by court

order. The amount of the mortgage indebtedness attributable to a vessel is that part of the indebtedness, increased by 20 percent, that the court determines approximates the value that the particular vessel bears to the value of all the vessels and property covered by the mortgage. In other words, the amount to be set by the court is the estimated value of the one vessel plus 20 percent of that value to assure sufficiency of collateral.

This section also makes a substantive change by eliminating the requirement that a vessel's certificate of documentation be endorsed with information from the mortgage. This change is made since most of the information is out of date when examined, and since a mortgage must be carried on self-propelled vessels under section 31324(b). This section also eliminates the requirement for the inclusion of an affidavit of good faith. However, both criminal and civil penalties have been added [in section 31330] to help ensure that there is not fraud. This section also eliminates the requirement that a preferred mortgage include a separate discharge for additional property that is not a vessel, the requirement that the mortgage does not stipulate that the mortgagee waives the mortgage's preferred status; and the requirement for clearing vessels with endorsed documents through Customs.

#### HOUSE FLOOR STATEMENT

Under section 31322(a)(2) a "vessel operated only for pleasure" is exempt from any restrictions on who can be a mortgagee. This standard is the same as used for the documentation of a recreational vessel under section 12109 of title 46. The Committee intends that vessels that have a recreational vessel license, or combined fisheries and recreational license, fall under this exemption. However, if the vessel has a Coastwise License, Great Lakes License, or Registry combined with a Recreational License, the vessel would not fall under this exemption.

Under subsection (c)(2), if a vessel covered by a preferred mortgage that includes more than one vessel or property that is not a vessel is to be sold on the order of a district court *in rem*, and there is not a separate discharge, then the mortgage constitutes a lien on that vessel in the full amount of the outstanding mortgage indebtedness, and an allocation of mortgage indebtedness for purposes of a separate discharge may not be made. This change is made to eliminate the formula that did not work and to allow the vessel to be sold free and clear, regardless of the amount of the sale.

Under subsection (d) of section 31322, a mortgage or other instrument representing financing of a vessel under State law that is made under applicable State law and covers the whole of a vessel titled in a State is deemed to be a preferred mortgage if two conditions are fulfilled. The first condition is that the Secretary must certify that the State in which the vessel is titled has a titling system that complies with the Secretary's vessel titling guidelines established under section 13106(b)(8) of title 46. Congress mandated the promulgation of these guidelines in the Recreational Boating Safety Act of 1986, Public Law 99-626. The second condition is that the State in which the vessel is titled must make information available to the Secretary for the vessel identification system established under chapter 125 of title 46 (as enacted by this Act) on the vessel covered by the mortgage or other instrument. This status only applies to vessels titled in the State after those two conditions are met. The phrase "instrument representing financing of a vessel under State law" is used in addition to "mortgage" because State laws do not always use the term mortgage when referring to financing. It is intended, however, that the financing covered by this phrase would be the same as that covered by the concept of a mortgage under other Federal law.

Paragraph (2) of subsection (d) clarifies that mortgages or other financing instruments may obtain preferred status under subsection (d) if they cover vessels titled in a State after the Secretary certifies the compliance of the State's titling system, and the State begins making vessel identification information available

to the Secretary. Preferred mortgage status can only be attained when these two conditions are in effect. Mortgages or financing instruments made prior to that are not preferred and, if these two conditions cease to exist, new mortgages or financing instruments made after that time cannot attain preferred status.

The law of the titling State controls the making of the preferred mortgage or financing instrument under this subsection. No additional Federal recording requirements may be imposed for the mortgage or instrument to obtain preferred status under this subsection.

Paragraph (3) of this subsection ensures that a preferred mortgage under this subsection retains that status if the vessel covered by the mortgage later relinquishes its title. If the vessel is subsequently documented, the continuing validity of the mortgage is determined by section 31321(g) (as enacted by this Act).

Subsection (e) of section 31322 clarifies the validity of preferred mortgages made under subsection (d). In the case of a State titled vessel covered by a preferred mortgage for which a new titling application is filed, the validity of the mortgage is governed by the law of the titling State in which the mortgage became preferred. In the case of a documented vessel covered by a preferred mortgage for which an application for a State title is filed, or a State titled vessel covered by a preferred mortgage for which an application for documentation is filed, the validity of the preferred mortgage is governed by section 31322(a) of title 46 (as enacted by this Act).

Information on vessels with preferred mortgages made under State law will be available to creditors from the vessel identification system under chapter 125 of title 46 (as enacted by this Act).

HISTORICAL AND REVISION NOTES

Table with 2 columns: Revised section, Source section (U.S. Code). Rows include 31323(a), 31323(b), and 31323(c) with their corresponding source sections.

Section 31323(a) requires the mortgagor to disclose any obligations on the vessel before executing a preferred mortgage. This subsection makes no substantive change to law.

Section 31323(b) provides that, after executing a preferred mortgage, the mortgagor may not incur, without consent of the mortgagee, any contractual obligations establishing a lien on the vessel—except a lien for stevedore wages, crew wages, general average, and salvage. HISTORICAL AND REVISION NOTES

Table with 2 columns: Revised section, Source section (U.S. Code). Row includes 31324 with source section 46:923.

Section 31324(a) provides for examination of mortgages of a vessel that is covered by a preferred mortgage by persons that have business with the vessel that may give rise to a maritime lien or the sale, conveyance, mortgage, or assignment of the mortgage. This subsection makes no substantive change to law.

Section 31324(b) requires that a certified copy of the mortgage must be on board a self-propelled vessel. This subsection makes no substantive change to law.

§ 31325. Preferred mortgage liens and enforcement

(a) A preferred mortgage is a lien on the mortgaged vessel in the amount of the outstanding mortgage indebtedness secured by the vessel.

(b) On default of any term of the preferred mortgage, the mortgagee may—

- (1) enforce the preferred mortgage lien in a civil action in rem for a documented vessel, a vessel to be documented under chapter 121 of this title, a vessel titled in a State, or a foreign vessel;
(2) enforce a claim for the outstanding indebtedness secured by the mortgaged vessel in—

(A) a civil action in personam in admiralty against the mortgagor, maker, comaker, or guarantor for the amount of the outstanding indebtedness or any deficiency in full payment of that indebtedness; and

(B) a civil action against the mortgagor, maker, comaker, or guarantor for the amount of the outstanding indebtedness or any deficiency in full payment of that indebtedness; and

- (3) enforce the preferred mortgage lien or a claim for the outstanding indebtedness secured by the mortgaged vessel, or both, by exercising any other remedy (including an extra-judicial remedy) against a documented vessel, a vessel for which an application for docu-

mentation is filed under chapter 121 of this title, a vessel titled in a State, a foreign vessel, or a mortgagor, maker, comaker, or guarantor for the amount of the outstanding indebtedness or any deficiency in full payment of that indebtedness, if—

(A) the remedy is allowed under applicable law; and

(B) the exercise of the remedy will not result in a violation of section 9 or 37 of the Shipping Act, 1916 (46 App. U.S.C. 808, 835).

(c) The district courts have original jurisdiction of a civil action brought under subsection (b)(1) or (2) of this section. However, for a documented vessel, a vessel to be documented under chapter 121 of this title, a vessel titled in a State, or a foreign vessel, this jurisdiction is exclusive of the courts of the States for a civil action brought under subsection (b)(1) of this section.

(d)(1) Actual notice of a civil action brought under subsection (b)(1) of this section, or to enforce a maritime lien, must be given in the manner directed by the court to—

(A) the master or individual in charge of the vessel;

(B) any person that recorded under section 31343(a) or (d) of this title an unexpired notice of a claim of an undischarged lien on the vessel; and

(C) a mortgagee of a mortgage filed or recorded under section 31321 of this title that is an undischarged mortgage on the vessel.

(2) Notice under paragraph (1) of this subsection is not required if, after search satisfactory to the court, the person entitled to the notice has not been found in the United States.

(3) Failure to give notice required by this subsection does not affect the jurisdiction of the court in which the civil action is brought. However, unless notice is not required under paragraph (2) of this subsection, the party required to give notice is liable to the person not notified for damages in the amount of that person's interest in the vessel terminated by the action brought under subsection (b)(1) of this section. A civil action may be brought to recover the amount of the terminated interest. The district courts have original jurisdiction of the action, regardless of the amount in controversy or the citizenship of the parties. If the plaintiff prevails, the court may award costs and attorney fees to the plaintiff.

(e) In a civil action brought under subsection (b)(1) of this section—

(1) the court may appoint a receiver and authorize the receiver to operate the mortgaged vessel and shall retain in rem jurisdiction over the vessel even if the receiver operates the vessel outside the district in which the court is located; and

(2) when directed by the court, a United States marshal may take possession of a mortgaged vessel even if the vessel is in the possession or under the control of a person claiming a possessory common law lien.

(f)(1) Before title to the documented vessel or vessel for which an application for documentation is filed under chapter 121 is transferred by an extrajudicial remedy, the person exercising

the remedy shall give notice of the proposed transfer to the Secretary, to the mortgagee of any mortgage on the vessel filed in substantial compliance with section 31321 of this title before notice of the proposed transfer is given to the Secretary, and to any person that recorded an unexpired notice of a claim of an undischarged lien on the vessel under section 31343(a) or (d) of this title before notice of the proposed transfer is given to the Secretary.

(2) Failure to give notice as required by this subsection shall not affect the transfer of title to a vessel. However, the rights of any holder of a maritime lien or a preferred mortgage on the vessel shall not be affected by a transfer of title by an extrajudicial remedy exercised under this section, regardless of whether notice is required by this subsection or given.

(3) The Secretary shall prescribe regulations establishing the time and manner for providing notice under this subsection.

Section 31325 provides for the enforcement of a preferred mortgage lien.

Section 31325(a) makes a "preferred mortgage" a lien on the vessel in the amount of the mortgage indebtedness secured by the vessel outstanding at foreclosure. This subsection makes no substantive change to law.

Section 31325(b) provides that, on default of any term, the mortgagee may enforce the preferred mortgage lien in a civil action *in rem*, or *in personam* in admiralty against the mortgagor, comaker, or guarantor for the amount of the outstanding indebtedness secured by the vessel or any deficiency in paying off that indebtedness. This subsection makes a substantive change to law by allowing a nonadmiralty civil action to be brought against the mortgagor, comaker, or guarantor for the amount of the outstanding indebtedness secured by the vessel or any deficiency in paying off that indebtedness. This change allows an action to be brought even when the vessel is outside U.S. jurisdiction. This section will also allow the action to be brought against the comaker or guarantor of the mortgage.

Section 31325(c) provides for original and exclusive jurisdiction by a district court, to the exclusion of the courts of a State for civil actions brought *in rem*. It also provides for original jurisdiction for civil actions brought *in personam* in admiralty and civil actions brought under subsection (b)(3). This subsection makes a substantive change to law by broadening the jurisdiction to courts in the territories, as defined in section 31301, as well as giving original jurisdiction to the district courts in nonadmiralty civil actions brought to enforce the preferred mortgage lien.

Subsection (d) provides that actual notice of a civil action *in rem* to enforce a maritime lien must be given in a manner directed by the court to the master, individual in charge of the vessel, to any person that recorded a notice of a claim of an undischarged lien, and,

for the first time, to the mortgagee of a mortgage filed with the Secretary. This notice is not required if, after a search is made that is satisfactory to the court, the person entitled to notice is not found in the United States. Failure to give notice does not affect the court's jurisdiction. However, the mortgagor is still liable to the person not notified for damages in the amount of that person's interest in the vessel that was terminated by the civil action *in rem*, and a civil action may still be brought to recover the amount of the terminated interest. The district courts have original jurisdiction of the action, regardless of the amount in controversy or the citizenship of the parties. If plaintiff prevails, the court shall award costs and attorneys fees to the plaintiff.

Subsection (e) provides that, in a civil action *in rem*, the court may appoint a receiver and authorize operation of the vessel. When directed by the court, a United States marshal may take possession—even if the vessel is in the possession of or under the control of a person claiming a possessory common law lien. This subsection makes a substantive change to law by allowing the court to retain *in rem* jurisdiction over the vessel even if the receiver operates the vessel outside the district in which the court is located.

HOUSE FLOOR STATEMENT

Subsection (c) of this section clarifies that the district courts have original jurisdiction for a civil action under subsection (b) of this section, and exclusive jurisdiction in the case of vessels documented or to be documented under chapter 121 of title 46.

EFFECTIVE DATE OF 2002 AMENDMENT

Amendment by Pub. L. 107-295 effective Jan. 1, 2003, see section 205(e) of Pub. L. 107-295, set out as a note under section 12111 of this title.

CONSTRUCTION OF 1996 AMENDMENTS

Section 1124(c) of Pub. L. 104-324 provided that: "The amendments made by subsections (a) and (b) [amending this section] may not be construed to imply that remedies other than judicial remedies were not available before the date of enactment of this section [Oct. 19, 1996] to enforce claims for outstanding indebtedness secured by mortgaged vessels."

§ 31326. Court sales to enforce preferred mortgage liens and maritime liens and priority of claims

(a) When a vessel is sold by order of a district court in a civil action *in rem* brought to enforce a preferred mortgage lien or a maritime lien, any claim in the vessel existing on the date of sale is terminated, including a possessory common law lien of which a person is deprived under section 31325(e)(2) of this title, and the vessel is sold free of all those claims.

(b) Each of the claims terminated under subsection (a) of this section attaches, in the same amount and in accordance with their priorities to the proceeds of the sale, except that—

(1) the preferred mortgage lien, including a preferred mortgage lien on a foreign vessel whose mortgage has been guaranteed under title XI of the Merchant Marine Act, 1936 (46 App. U.S.C. 1101 et seq.)<sup>1</sup> has priority over all claims against the vessel (except for expenses and fees allowed by the court, costs imposed by the court, and preferred maritime liens); and

(2) for a foreign vessel whose mortgage has not been guaranteed under title XI of that Act, the preferred mortgage lien is subordinate to a maritime lien for necessities provided in the United States.

Section 31326(a) provides for a court-ordered sale to enforce a preferred mortgage lien or a maritime lien and the priority of claims. When a mortgaged vessel is sold by court order in a civil action *in rem*, any prior claim in the vessel is terminated—including any possessory common law lien. This subsection makes a substantive change to law by making the process the same for maritime liens as was provided for preferred mortgage liens. This eliminates the requirement for making a new mortgagee for a court sale to enforce a maritime lien. This section also broadens the jurisdiction to courts in the territories, as defined in section 31301.

Section 31326(b)(1) provides that each of these terminated claims attaches, in the same amount and priority, to the proceeds of sale—except that the preferred mortgage lien always has priority over these other claims. However, the preferred mortgage lien is still subordinated to expenses and fees allowed by the court, costs imposed by the court, and any preferred maritime liens. This may include statutory fees such as the fee of the United States Marshal under 28 U.S.C. 1921. Except for broadening its coverage under subsection (a), this makes no substantive change to law.

<sup>1</sup> So in original. Probably should be followed by a comma.

Section 31326(b)(2) provides in the case of a foreign vessel, the preferred mortgage lien is also subordinated to a maritime lien for necessities performed or supplied for the vessel in the United States. "Provided" has been substituted for "provided or supplied" for consistency in usage. Except for broadening its coverage under subsection (a), this paragraph makes no substantive change to law.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
31329 .....	46:961(f)

Section 31329 sets out certain restrictions on the court sale of a documented vessel.

Section 31329(a) restricts the sale only to a person eligible to own a documented vessel under section 12102 of title 46 or to the mortgagee, which may be a trustee acting as a holder of a preferred mortgage on a documented vessel for the benefit of a person not eligible to be the holder of a preferred mortgage on that vessel.

Section 31329(b) sets out conditions on the sale to a trustee acting as a holder of a preferred mortgage on a documented vessel for the benefit of a person not eligible to be the holder of a preferred mortgage on that vessel. First, the vessel must be held by the trustee for resale. Second, while being held for resale, the vessel is subject to requisition or purchase during a national emergency under section 902 of the Merchant Marine Act, 1936 (46 App. U.S.C. 1242). And third, the sale of the vessel to the trustee is not a sale foreign within the terms of the First Proviso of section 27 of the Merchant Marine Act, 1920 (46 App. U.S.C. 883).

Section 31329(c) requires a person that is eligible to document the vessel that purchases a vessel from the court to document the vessel. This subsection also requires the person purchasing the vessel from the trustee to document it, thereby restricting to whom the trustee can sell the vessel. Many documented vessels have no national defense utility, such as recreational vessels and fishing vessels. Therefore, both of these restrictions can be waived by the Secretary. As previously discussed, these waivers can be on a case-by-case basis or with a blanket waiver.

Section 31329(d) prohibits a trustee from operating the vessel without the approval of the Secretary.

Section 31329(e) voids any sale that is done contrary to this section.

HOUSE FLOOR STATEMENT

Under section 31329(d) a vessel may be operated by the trustee only with the approval of the Secretary. Under current law a vessel may be documented by a trust if all of the members of the trust are citizens of the United States. If the trust buying the vessel at the court sale includes foreign investors, the vessel cannot be documented. The Committee intends in this section that the vessel will only be "operated" in a maintenance manner, but not in a commercial service.

§ 31330. Penalties

(a)(1) A mortgagor shall be fined under title 18, imprisoned for not more than 2 years, or both, if the mortgagor—

(A) with intent to defraud, does not disclose an obligation on a vessel as required by section 31323(a) of this title;

(B) with intent to defraud, incurs a contractual obligation in violation of section 31323(b) of this title;

(C) with intent to hinder or defraud an existing or future creditor of the mortgagor or a lienor of the vessel, files a mortgage with the Secretary of Transportation; or

(D) with intent to defraud, does not comply with section 31321(h) of this title.

(2) A mortgagor is liable to the United States Government for a civil penalty of not more than \$10,000 if the mortgagor—

(A) does not disclose an obligation on a vessel as required by section 31323(a) of this title;

(B) incurs a contractual obligation in violation of section 31323(b) of this title;

(C) files with the Secretary a mortgage made not in good faith; or

(D) does not comply with section 31321(h) of this title.

(b)(1) A person that knowingly violates section 31329 of this title shall be fined under title 18, imprisoned for not more than 3 years, or both.

(3) A vessel involved in a violation under section 31329 of this title and its equipment may be seized by, and forfeited to, the Government.

(c) If a person not an individual violates this section, the president or chief executive of the person also is subject to any penalty provided under this section.

(Pub. L. 100-710, title I, § 102(c), Nov. 23, 1988, 102 Stat. 4747; Pub. L. 104-324, title XI, § 1113(b)(2), Oct. 19, 1996, 110 Stat. 3970.)

HISTORICAL AND REVISION NOTES

Table with 2 columns: Revised section, Source section (U.S. Code). Rows include 31330(a), 31330(b), and 31330(c).

Section 31330(a) provides for criminal penalties for not disclosing obligations, incurring contractual obligations in violation of section 31323(b), and filing a mortgage made not in good faith. This subsection makes a substantive change to law by adding civil penalties and by making it a crime to record with the Secretary of Transportation a mortgage made not in good faith with the intent to hinder an existing or future creditor of the mortgagor or a lienor of the vessel. This is done since the affidavit of good faith has been eliminated from the elements of a preferred mortgage.

Section 31330(b) adds criminal and civil penalties for violating the sale and trust requirements under sections 31328 and 31329. It also makes a vessel and its equipment involved in those violations subject to seizure by the Government.

Section 31330(c) makes the president or chief executive officer of a corporation or association liable as a mortgagor for the penalties under this section.

HOUSE FLOOR STATEMENT

Subsection (a) of this section adds criminal and civil penalties for a preferred mortgagor's failure to carry

out certain requirements under chapter 313 of title 46 (as enacted by this Act).

Section 31341(a) lists those persons who are presumed to have authority to procure necessities for a vessel. HISTORICAL AND REVISION NOTES

Table with 2 columns: Revised section, Source section (U.S. Code). Row includes 31342.

Section 31342 provides that any authorized person providing necessities for a vessel has a maritime lien on the vessel, may bring a civil action *in rem* in admiralty to enforce the lien, and is not required to allege or prove that credit was given to the vessel. "Providing" has been substituted for "furnishing" for consistency with other laws. This section makes no substantive change to law. This section does not supersede the prohibition under the Public Vessels Act, the Foreign Sovereign Immunities Act, or the Suits in Admiralty Act, on bringing an *in rem* action against a public vessel.

AMENDMENTS

1989—Pub. L. 101-225 designated existing provisions as subsec. (a), substituted "Except as provided in subsection (b) of this section, a person providing necessities to a vessel on the order of the owner" for "A person providing necessities to a vessel (except a public vessel) on the order of a person listed in section 31341 of this title", and added subsec. (b).

§ 31343. Recording and discharging notices of claim of maritime lien

(a) Except as provided under subsection (d) of this section, a person claiming a lien on a vessel documented, or for which an application for documentation has been filed, under chapter 121 may record with the Secretary of Transportation a notice of that person's lien claim on the vessel. To be recordable, the notice must—

- (1) state the nature of the lien;
  - (2) state the date the lien was established;
  - (3) state the amount of the lien;
  - (4) state the name and address of the person;
- and
- (5) be signed and acknowledged.

(b)(1) The Secretary shall record a notice complying with subsection (a) of this section if, when the notice is presented to the Secretary for recording, the person having the claim files with the notice a declaration stating the following:

(A) The information in the notice is true and correct to the best of the knowledge, information, and belief of the individual who signed it.

(B) A copy of the notice, as presented for recordation, has been sent to each of the following:

- (i) The owner of the vessel.
- (ii) Each person that recorded under subsection (a) of this section an unexpired notice of a claim of an undischarged lien on the vessel.
- (iii) The mortgagee of each mortgage filed or recorded under section 31321 of this title that is an undischarged mortgage on the vessel.

(2) A declaration under this subsection filed by a person that is not an individual must be signed by the president, member, partner, trustee, or other individual authorized to execute the declaration on behalf of the person.

(c)(1) On full and final discharge of the indebtedness that is the basis for a notice of claim of lien recorded under subsection (b) of this section, the person having the claim shall provide the Secretary with an acknowledged certificate of discharge of the indebtedness. The Secretary shall record the certificate.

(2) The district courts of the United States shall have jurisdiction over a civil action in Ad-

miralty to declare that a vessel is not subject to a lien claimed under subsection (b) of this section, or that the vessel is not subject to the notice of claim of lien, or both, regardless of the amount in controversy or the citizenship of the parties. Venue in such an action shall be in the district where the vessel is found or where the claimant resides or where the notice of claim of lien is recorded. The court may award costs and attorneys fees to the prevailing party, unless the court finds that the position of the other party was substantially justified or other circumstances make an award of costs and attorneys fees unjust. The Secretary shall record any such declaratory order.

(d) A person claiming a lien on a vessel covered by a preferred mortgage under section 31322(d) of this title must record and discharge the lien as provided by the law of the State in which the vessel is titled.

(e) A notice of claim of lien recorded under subsection (b) of this section shall expire 3 years after the date the lien was established, as such date is stated in the notice under subsection (a) of this section.

(f) This section does not alter in any respect the law pertaining to the establishment of a maritime lien, the remedy provided by such a lien, or the defenses thereto, including any defense under the doctrine of laches.

(Pub. L. 100-710, title I, §102(c), Nov. 23, 1988, 102 Stat. 4748; Pub. L. 107-295, title II, §205(a)(1), Nov. 25, 2002, 116 Stat. 2095.)

HISTORICAL AND REVISION NOTES

Revised section	Source section (U.S. Code)
31343 .....	46:925

Section 31343 provides that any person claiming a lien on a vessel covered by a preferred mortgage may record a notice of lien. This notice must state the nature of the lien, date it was established; the amount; and the name and address of the person claiming a lien, and it must be acknowledged. The Secretary must record a notice of lien if it complies with these requirements. When any part of the indebtedness is discharged, the claimant shall provide the Secretary with a written, acknowledged certificate of discharge of the indebtedness, and the Secretary shall record the certificate. This section makes no substantive change to law.

Section 31343(c) provides that, on the full and final discharge of an indebtedness that is the basis for a claim, the person having the claim shall provide the Secretary with an acknowledged certificate of discharge on the request of the Secretary or owner of the vessel. This subsection makes a substantive change to law by not requiring partial discharges to be filed, as well as making the filing of discharge certificates only at the request of the Secretary or owner of the vessel.

“(a) WATCH LISTS.—

“(1) IN GENERAL.—As soon as practicable but not later than 180 days after the date of the enactment of this Act [Dec. 17, 2004], the Secretary of Homeland Security shall—

“(A) implement a procedure under which the Department of Homeland Security compares information about passengers and crew who are to be carried aboard a cruise ship with a comprehensive, consolidated database containing information about known or suspected terrorists and their associates;

“(B) use the information obtained by comparing the passenger and crew information with the information in the database to prevent known or suspected terrorists and their associates from boarding such ships or to subject them to specific additional security scrutiny, through the use of ‘no transport’ and ‘automatic selectee’ lists or other means.

“(g) EVALUATION OF CARGO INSPECTION TARGETING SYSTEM FOR INTERNATIONAL INTERMODAL CARGO CONTAINERS.—Within 180 days after the date of the enactment of this Act [Aug. 9, 2004] and annually thereafter, the Inspector General of the department in which the Coast Guard is operating shall prepare a report that includes an assessment of—

“(1) the effectiveness of the current tracking system to determine whether it is adequate to prevent international intermodal containers from being used for purposes of terrorism;

“(2) the sources of information, and the quality of the information at the time of reporting, used by the system to determine whether targeting information is collected from the best and most credible sources and evaluate data sources to determine information gaps and weaknesses;

“(3) the targeting system for reporting and analyzing inspection statistics, as well as testing effectiveness;

“(4) the competence and training of employees operating the system to determine whether they are sufficiently capable to detect potential terrorist threats; and

“(h) ACTION REPORT.—If the Inspector General of the department in which the Coast Guard is operating determines in any of the reports prepared under subsection (g) that the targeting system is insufficiently effective as a means of detecting potential acts of terrorism utilizing international intermodal containers, then the Secretary of the department in which the Coast Guard is operating shall, within 90 days, submit a report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure [of the] House of Representatives on what actions will be taken to correct deficiencies identified in the Inspector General Report.

#### FINDINGS

Pub. L. 107-295, title I, §101, Nov. 25, 2002, 116 Stat. 2066, provided that:

“The Congress makes the following findings:

“(1) There are 361 public ports in the United States that are an integral part of our Nation’s commerce.

“(2) United States ports handle over 95 percent of United States overseas trade. The total volume of goods imported and exported through ports is expected to more than double over the next 20 years.

“(3) The variety of trade and commerce carried out at ports includes bulk cargo, containerized cargo, passenger transport and tourism, and intermodal transportation systems that are complex to secure.

“(4) The United States is increasingly dependent on imported energy for a substantial share of its energy supply, and a disruption of that share of supply would seriously harm consumers and our economy.

“(5) The top 50 ports in the United States account for about 90 percent of all the cargo tonnage. Twenty-five United States ports account for 98 percent of all container shipments. Cruise ships visiting foreign destinations embark from at least 16 ports. Ferries in the United States transport 113,000,000 passengers and 32,000,000 vehicles per year.

“(6) Ports often are a major locus of Federal crime, including drug trafficking, cargo theft, and smuggling of contraband and aliens.

“(7) Ports are often very open and exposed and are susceptible to large scale acts of terrorism that could cause a large loss of life or economic disruption.

“(8) Current inspection levels of containerized cargo are insufficient to counter potential security risks. Technology is currently not adequately deployed to allow for the nonintrusive inspection of containerized cargo.

“(9) The cruise ship industry poses a special risk from a security perspective.

“(10) Securing entry points and other areas of port facilities and examining or inspecting containers would increase security at United States ports.

“(11) Biometric identification procedures for individuals having access to secure areas in port facilities are important tools to deter and prevent port cargo crimes, smuggling, and terrorist actions.

“(12) United States ports are international boundaries that—

“(A) are particularly vulnerable to breaches in security;

“(B) may present weaknesses in the ability of the United States to realize its national security objectives; and

“(C) may serve as a vector or target for terrorist attacks aimed at the United States.

“(13) It is in the best interests of the United States—

“(A) to have a free flow of interstate and foreign commerce and to ensure the efficient movement of cargo;

“(B) to increase United States port security by establishing improving communication among law enforcement officials responsible for port security;

“(C) to formulate requirements for physical port security, recognizing the different character and nature of United States port facilities, and to require the establishment of security programs at port facilities;

“(D) to provide financial assistance to help the States and the private sector to increase physical security of United States ports;

“(E) to invest in long-term technology to facilitate the private sector development of technology that will assist in the nonintrusive timely detection of crime or potential crime at United States ports;

“(F) to increase intelligence collection on cargo and intermodal movements to address areas of potential threat to safety and security; and

“(G) to promote private sector procedures that provide for in-transit visibility and support law enforcement efforts directed at managing the security risks of cargo shipments.

“(14) On April 27, 1999, the President established the Interagency Commission on Crime and Security in United States Ports to undertake a comprehensive study of the nature and extent of the problem of

crime in our ports, as well as the ways in which governments at all levels are responding. The Commission concluded that frequent crimes in ports include drug smuggling, illegal car exports, fraud, and cargo theft. Internal conspiracies are an issue at many ports and contribute to Federal crime. Criminal organizations are exploiting weak security at ports to commit a wide range of cargo crimes. Intelligence and information sharing among law enforcement agencies needs to be improved and coordinated at many ports. A lack of minimum physical and personnel security standards at ports and related facilities leaves many ports and port users very vulnerable. Access to ports and operations within ports is often uncontrolled. Security-related and detection-related equipment, such as small boats, cameras, large-scale x-ray machines, and vessel tracking devices, are lacking at many ports.

“(15) The International Maritime Organization and other similar international organizations are currently developing a new maritime security system that contains the essential elements for enhancing global maritime security. Therefore, it is in the best interests of the United States to implement new international instruments that establish such a system.”
