SUBCHAPTER XI—HOUSING FOR MILITARY
PERSONNEL

§ 1594. Contracts for construction

(a) Contract provisions; competitive bids

The Secretary of Defense or his designee is authorized to enter into contracts with any eligible bidder to provide for the construction of urgently needed housing on lands owned or leased by the United States and situated on or near a military reservation or installation for the purpose of providing suitable living accommodations for military personnel of the armed services assigned to duty at the military installation at or in the area where the housing is situated. Any such contract shall provide that each housing unit in the project shall be placed under the control of the Secretary of Defense, or his designee, as soon as the unit is available for occupancy as determined by the Secretary of Housing and Urban Development. Any such contract shall also provide that, except for stock held by the Secretary of Housing and Urban Development, the capital stock of the mortgagor (where the mortgagor is a corporation) be transferred to the Secretary of Defense, or his designee, when the housing has been completed as determined by the Secretary of Housing and Urban Development. Any such contract shall contain such terms and conditions as the Secretary of Defense may determine to be necessary to protect the interests of the United States. Any such contract shall provide for the furnishing by the contractor of a performance bond and a payment bond with a surety or sureties satisfactory to the Secretary of Defense, or his designee, and the furnishing of such bonds shall be deemed a sufficient compliance with the provisions of section 3131 of title 40, and no additional bonds shall be required under such section. Before the Secretary of Defense shall enter into any contract as authorized by this section for the construction of housing, he shall invite the submission of competitive bids after advertising in the manner prescribed in section 2305 of title 10.

(b) "Eligible bidder" defined

For the purposes of this subchapter, the term "eligible bidder" means a person, partnership, firm, or corporation determined by the Secretary of Defense after consultation with the Secretary of Housing and Urban Development (1) to be qualified by experience and financial responsibility to construct housing of the type described in subsection (a) of this section, and (2) to have submitted the lowest acceptable bid.

(c) Acquisition of capital stock of property covered by mortgage

Notwithstanding any other provision of law, the Secretary of Defense or his designee is authorized to acquire the capital stock of mortgagors holding property covered by a mortgage insured under title VIII of the National Housing Act as amended by the Housing Amendments of 1955 [12 U.S.C. 1748 et seq.], and to exercise the rights as holder of such capital stock during the life of such mortgage and, upon the termination of the mortgage, to dissolve the corporation; to guarantee the payment of notes or other legal

instruments required by the Secretary of Housing and Urban Development of such mortgagors; to make payments thereon; and to guarantee and indemnify the Armed Services Housing Mortgage Insurance Fund against loss in cases where so required. All housing facilities placed under the control of the Secretary of Defense pursuant to the provisions of this subchapter shall be deemed to be housing facilities under the jurisdiction of the military department to which they are assigned.

(d) Opinion as to title to property; guarantee; title search and title insurance

On request by the Secretary of Defense, the Attorney General shall furnish to the Secretary of Defense, or his designee, an opinion as to the sufficiency of title to any property on which it is proposed to construct housing, or on which housing has been constructed, under this section. If the opinion of the Attorney General is that the title to any such property is good and sufficient, the Secretary of Defense is authorized to guarantee, or enter into a commitment to guarantee, the mortgagee, under a mortgage on such property which is insured under title VIII of the National Housing Act [12 U.S.C. 1748 et seq.], against any losses that may thereafter arise from adverse claims to title. None of the proceeds of any mortgage loan hereafter insured under such title VIII shall be used for title search and title insurance costs: *Provided*, That if the Secretary of Defense, or his designee, determines in the case of any housing project, that the financing of the construction of such project is impossible unless title insurance is provided, the Secretary of Defense may provide for the payment of the reasonable costs necessary for obtaining title search and title insurance. Any payments by the Secretary of Defense hereunder shall be made from the revolving fund established under section 1594a(g)¹ of this title. Any determination by the Secretary of Defense under the foregoing proviso shall be set forth in writing, together with the reasons therefor. The Committees on Armed Services of the Senate and House of Representatives shall be promptly notified of each such determination, and of the amount of any payment made by the Secretary of Defense for title search and title insurance costs.

§ 1594a. Acquisition of military housing financed under Armed Services Housing Mortgage Insurance Fund and rental housing at military bases

(a) Purchase price

Whenever the Secretary of Defense or his designee deems it necessary for the purpose of this subchapter, he may acquire, by purchase, donation, condemnation, or other means of transfer, any land or (with the approval of the Secretary of Housing and Urban Development) (1) any housing financed with mortgages insured under title VIII of the National Housing Act [12 U.S.C. 1748 et seq.] as in effect prior to August 11, 1955, or (2) any housing situated adjacent to a military installation which was (A) completed prior to July 1, 1952, (B) certified by the Department of Defense, prior to construction, as being necessary to meet an existing military family housing need and considered as military housing by the Secretary of Housing and Urban Development, and (C) financed with mortgages insured under section 207 of the National Housing Act [12 U.S.C. 1713], or (3) any housing situated on or adjacent to a military installation which was (A) completed prior to July 1, 1952, (B) considered by the Department of Defense, prior to construction, as being necessary to meet an existing military family housing need and considered as military housing by the Secretary of Housing and Urban Development, and (C) financed with mortgages insured under section 608 of the National Housing Act [12 U.S.C. 1743], including adjacent property constructed primarily to provide commercial facilities for the occupants of such housing. The purchase price of any such housing shall not exceed the Secretary of Housing and Urban Development's estimate of the re-

placement cost of such housing and related property (not including the value of any improvements installed or constructed with appropriated funds) as of the date of final endorsement for mortgage insurance reduced by an appropriate allowance representing the estimated cost of repairs and replacements necessary to restore the property to sound physical condition, as determined by the Secretary of Defense or his designee upon the advice of the Secretary of Housing and Urban Development: *Provided*, That in any case where the Secretary of Defense or his designee acquires a project held by the Secretary of Housing and Urban Development, the price paid shall not exceed the face value of the debentures (plus accrued interest thereon) which the Secretary of Housing and Urban Development issued in acquiring such project.

(b) Housing at or near a military installation

Notwithstanding any provision of subsection (a) of this section to the contrary, the Secretary of Defense or his designee shall, in the manner provided in subsection (a) of this section, acquire by purchase, donation, or other means of transfer or, if the parties cannot agree upon terms for acquisition by such means, by condemnation, any housing described in clause (1) or (2) of subsection (a) of this section which is located at or near a military installation where the construction of housing under the Armed Services Housing Mortgage Insurance Program has been approved by the Secretary.

(c) Condemnation; procedures; deposit; payment; interest

(1) Condemnation proceedings instituted pursuant to this section shall be conducted in accordance with the provisions of section 3113 of title 40, or any other applicable Federal statute. Before any such condemnation proceedings are instituted, an effort shall be made to acquire the property involved by negotiation. In any such condemnation proceedings, and in the interests of expedition, the issue of just compensation may be determined by a commission of three qualified, disinterested persons to be appointed by the court. Any commission appointed hereunder shall give full consideration to all elements of value in accordance with existing law, and shall have the powers of a master provided in subdivision (c) of rule 53 of the Federal Rules of Civil Procedure and proceedings before it shall be governed by the provisions of paragraphs (1) and (2) of subdivision (d) of such rule. Its action and report shall be determined by a majority and its findings and report shall have the effect, and be dealt with by the court in accordance with the practice prescribed in paragraph (2) of subdivision (e) of such rule. Trial of all issues, other than just compensation, shall be by the court.

(2) In any condemnation proceedings instituted to acquire any such housing, or interest therein, the court shall not order the party in possession to surrender possession in advance of final judgment unless a declaration of taking has been filed, and a deposit of the amount estimated to be just compensation has been made, under section 3114(a) to (d) of title 40. The amount of such deposit for the purpose of this section shall not in any case be less than an

amount equal to the actual cost of the housing (not including the value of any improvements installed or constructed with appropriated funds) as certified by the sponsor or owner of the project to the Secretary of Housing and Urban Development pursuant to any statute or any regulations issued by the Secretary of Housing and Urban Development, reduced by the amount of the principal obligation of the mortgage outstanding at the time possession is surrendered, but any such deposit shall not include any excess mortgage proceeds or "windfalls," kickbacks and rebates received in connection with the construction of said housing as determined by the Department of Defense, or any other Federal agency. The amount of such deposit in any case where the sponsor or owner has not certified the cost of the project to the Secretary of Housing and Urban Development at August 10, 1959, shall be determined by the Secretary of Defense, or his designee, in accordance with sections 3114 to 3116 and 3118 of title 40, with a view toward accurately estimating the equity of the sponsor or owner: *Provided*, That in the event there is withdrawn from the registry of the court by the owner or sponsor a sum of money in excess of the final award of just compensation, this excess shall be repaid to the United States plus a sum equal to 4 per centum per annum on such excess from the time such sum is deposited in the registry of the court: *Provided further*, That any court in which money is deposited as provided in this section shall require the furnishing of security by the owner to protect the United States from any loss by reason of a final award of just compensation of less than the amount deposited: *And provided further*, That the deposit required to be made by this section shall be without prejudice to any party in the determination of just compensation. Unless title is in dispute, the court, upon application and subject to the foregoing provisions of this subsection, shall promptly pay to the owner at least 75 per centum of the amount so deposited, but such payment shall be made without prejudice to any party to the proceeding. In the event that condemnation proceedings are instituted in accordance with procedures under sections 3114 to 3116 and 3118 of title 40, the court shall order that the amount deposited shall be paid in a lump sum or over a period not exceeding five years in accordance with stipulations executed by the parties in the proceedings. In connection with condemnation proceedings which do not utilize the procedures under such sections, the Secretary of Defense or his designee, after final judgment of the court, may pay or agree to pay in a lump sum or, in accordance with stipulations executed by the parties to the proceedings, over a period not exceeding five years the difference between the outstanding principal obligation, plus accrued interest, and the price for the property fixed by the court. Unless such payment is made in a lump sum, the unpaid balance thereof shall bear interest at the rate of 4 per centum per annum.

(d) Occupancy; use, or improvement of property before approval of title

Property acquired under this section may be occupied, used, and improved for the purposes of

this section prior to the approval of title by the Attorney General as required by sections 3111 and 3112 of title 40.

(e) Release of accrual requirements for replacement, taxes, and hazard insurance reserves

The Secretary of Defense or his designee may, in the case of any housing acquired or to be acquired under this section, make arrangements with the mortgage whereby such mortgage will agree to release and waive all requirements of accruals for reserves for replacement, taxes, and hazard insurance provided for under the corporate charter and indenture agreement with respect to such housing, upon the execution of a written agreement by the Secretary or his designee that the purposes for which such reserves and other funds were accrued will be carried out.

(f) Use as public quarters or lease of housing

Any housing acquired under this section may be (1) assigned as public quarters to military personnel and their dependents; or (2) leased to military and civilian personnel for occupancy by them and their dependents, upon such terms and conditions as will in the judgment of the Secretary of Defense or his designee be in the best interest of the United States, without loss to military personnel of their basic allowance for quarters or appropriate allotments.

SUBCHAPTER I—COMPENSATION, REIMBURSEMENT, ETC., BY SECRETARY OF LABOR

§ 1701. Compensation for injury or death resulting from war-risk hazard

(a) Persons covered

In case of injury or death resulting from injury—

(1) to any person employed by a contractor with the United States, if such person in an employee specified in chapter 11 of this title, and no compensation is payable with respect to such injury or death under such chapter; or

(2) to any person engaged by the United States under a contract for his personal services outside the continental United States; or

(3) to any person employed outside the continental United States as a civilian employee paid from nonappropriated funds administered by the Army and Air Force Exchange Service, Army and Air Force Motion Picture Service, Navy Ship's Store Ashore, Navy exchanges, Marine Corps exchanges, officers' and non-commissioned officers' open messes, enlisted men's clubs, service clubs, special service activities, or any other instrumentality of the United States under the jurisdiction of the Department of Defense and conducted for the mental, physical, and morale improvement of personnel of the Department of Defense and their dependents; or

(4) to any person who is an employee specified in section 1651(a)(5) of this title, if no compensation is payable with respect to such injury or death under chapter 11 of this title or to any person engaged under a contract for his personal services outside the United States approved and financed by the United States under the Mutual Security Act of 1954, as amended (other than title II of chapter II thereof unless the Secretary of Labor, upon the recommendation of the head of any department or other agency of the United States Government, determines a contract financed under a successor provision of any successor Act should be covered by this section); *Provided*, That in cases where the United States is not a formal party to contracts approved and financed under the Mutual Security Act of 1954, as amended, the Secretary, upon the recommendation of the head of any department or agency of the United States, may, in the exercise of his discretion, waive the application of the provisions of this subparagraph with respect to any such contracts, subcontracts, or subordinate contracts, work location under such contracts, subcontracts, or subordinate contracts, or classification of employees; or

(5) to any person employed or otherwise engaged for personal services outside the continental United States by an American employer providing welfare or similar services for the benefit of the Armed Forces pursuant to appropriate authorization by the Secretary of Defense,

and such injury proximately results from a war-risk hazard, whether or not such person then actually was engaged in the course of his employment, the provisions of subchapter I of chapter 81 of title 5, as amended, and as modified by this chapter, shall apply with respect thereto in the same manner and to the same extent as if the person so employed were a civil employee of the United States and were injured while in the performance of his duty, and any compensation found to be due shall be paid from the compensation fund established pursuant to section 8147 of title 5. This subsection shall not be construed to include any person who would otherwise come within the purview of subchapter I of chapter 81 of title 5.

(b) Missing persons considered as totally disabled

(1) Any person specified in subsection (a) of this section who—

(A) is found to be missing from his place of employment, whether or not such person then

actually was engaged in the course of his employment, under circumstances supporting an inference that his absence is due to the belligerent action of a hostile force or person, or

(B) is known to have been taken by a hostile force or person as a prisoner, hostage, or otherwise, or

(C) is not returned to his home or to the place where he was employed by reason of the failure of the United States or its contractor to furnish transportation,

until such time as he is returned to his home, to the place of his employment, or is able to be returned to the jurisdiction of the United States, shall, under such regulations as the Secretary may prescribe, be regarded solely for the purposes of this subsection as totally disabled, and the same benefits as are provided for such disability under this subchapter shall be credited to his account and be payable to him for the period of such absence or until his death is in fact established or can be legally presumed to have occurred: *Provided*, That if such person has dependents residing in the United States or its Territories or possessions (including the United States Naval Operating Base, Guantanamo Bay, Cuba, and the Canal Zone), the Secretary during the period of such absence may disburse a part of such compensation, accruing for such total disability, to such dependents, which shall be equal to the monthly benefits otherwise payable for death under this subchapter, and the balance of such compensation for total disability shall accrue and be payable to such person upon his return from such absence. Any payment made pursuant to this subsection shall not in any case be included in computing the maximum aggregate or total compensation payable for disability or death, as provided in section 1702(a) of this title: *Provided further*, That no such payment to such person or his dependent, on account of such absence, shall be made during any period such person or dependent, respectively, has received, or may be entitled to receive, any other payment from the United States, either directly or indirectly, because of such absence, unless such person or dependent refunds or renounces such other benefit or payment for the period claimed.

Benefits found to be due under this subsection shall be paid from the compensation fund established pursuant to section 8147 of title 5: *Provided*, That the determination of dependents, dependency, and amounts of payments to dependents shall be made in the manner specified in subchapter I of chapter 81 of title 5: *Provided further*, That claim for such detention benefits shall be filed in accordance with and subject to the limitation provisions of subchapter I of chapter 81 of title 5, as modified by section 1706(c) of this title: *And provided further*, That except in cases of fraud or willful misrepresentation, the Secretary may waive recovery of money erroneously paid under this subdivision whenever he finds that such recovery would be impracticable or would cause hardship to the beneficiary affected: *And provided further*, That where such a person is found to be missing from his place of employment whether or not such person then actually was engaged in the course of his employment, under circumstances sup-

porting an inference that his absence is due to the belligerent action of a hostile force or person or is known to have been taken by a hostile force or person as a prisoner, hostage, or otherwise, the amount of benefits to be credited to the account of such person under this subsection, and for the purposes of this subsection only, shall be 100 per centum of the average weekly wages of such person, except that in computing such benefits such average weekly wages (a) shall not exceed the average weekly wages paid to civilian employees of the United States in the same or most similar occupation in the area nearest to the place of employment where such person was last employed, and (b) shall not exceed the average weekly wages of such absent person at the time such absence began; and 70 per centum of such average weekly wage so determined shall be disbursed to the dependent or dependents of such person, irrespective of the limitations of section 909 of title 33, but should there be more than one such dependent, the distribution of such 70 per centum shall be proportionate to the percentages allowed for dependents by section 909 of title 33, and if such manner of disbursement in any case would result in injustice or excessive allowance for a dependent, the Secretary may, in his discretion, modify such percentage or apportionment to meet the requirements of the case; and in such cases benefits for detention shall accrue from January 1, 1942, unless the beginning of absence occurred upon a later date in which event benefits shall accrue from such later date, and for the period of such absence shall be 100 per centum of the average weekly wages, determined as herein provided: *And provided further*, That compensation for disability under this subchapter (except under allowance for scheduled losses of members or functions of the body, within the purview of section 1702(a) of this title) shall not be paid in any case in respect to any period of time during which benefits for detention may accrue under this subchapter in the same case, and should a person entitled to benefits for detention also be entitled to workmen's compensation or similar benefits under any other law, agreement, or plan (except allowances for scheduled losses of members or functions of the body), where such other benefits are paid or to be paid directly or indirectly by the United States, the amount thereof accruing as to the period of absence shall be taken into account and the benefits credited to the account of the detained person reduced accordingly: *And provided further*, That where through mistake of fact, absence of proof of death, or error through lack of adequate information or otherwise, payments as for detention have in any case been erroneously made or credited, any resulting overpayment of detention benefits (the recovery of which is not waived as otherwise provided for in this section) shall be recouped by the Secretary in such manner as he shall determine from any unpaid accruals to the account of the detained person, and if such accruals are insufficient for such purpose, then from any allowance of compensation for injury or death in the same case (whether under this subchapter or under any other law, agreement, or plan, if the United States pays, or is obligated to pay, such benefits, directly or in-

directly), but only to the extent of the amount of such compensation benefits payable for the particular period of such overpayment, and in cases of erroneous payments of compensation for injury or death, made through mistake of fact, whether under this subchapter or under any other law, agreement, or plan (if the United States is obligated to pay such compensation, directly or indirectly), the Secretary is authorized to recoup from any unpaid benefits for detention, the amount of any overpayment thus arising; and any amounts recovered under this section shall be covered into such compensation fund, and for the foregoing purposes the Secretary shall have a right of lien, intervention, and recovery in any claim or proceeding for compensation.

(2) Upon application by such person, or someone on his behalf, the Secretary may, under such regulations as he may prescribe, furnish transportation or the cost thereof (including reimbursement) to any such person from the point where his release from custody by a hostile force or person is effected, to his home, the place of his employment, or other place within the jurisdiction of the United States; but no transportation, or the cost thereof, shall be furnished under this paragraph where such person is furnished such transportation, or the cost thereof, under any agreement with his employer or under any other provision of law.

(3) In the case of death of any such person, if his death occurred away from his home, the body of such person shall, in the discretion of the Secretary, and if so desired by his next of kin, near relative, or legal representative, be embalmed and transported in a hermetically sealed casket or other appropriate container to the home of such person or to such other place as may be designated by such next of kin, near relative, or legal representative. No expense shall be incurred under this paragraph by the Secretary in any case where death takes place after repatriation, unless such death proximately results from a war-risk hazard.

(4) Such benefits for detention, transportation expenses of repatriated persons, and expenses of embalming, providing sealed or other appropriate container, and transportation of the body, and attendants (if required), as approved by the Secretary, shall be paid out of the compensation fund established under section 8147 of title 5.

(c) Persons not citizens or residents of United States

Compensation for permanent total or permanent partial disability or for death payable under this section to persons who are not citizens of the United States and who are not residents of the United States or Canada, shall be in the same amount as provided for residents; except that dependents in any foreign country shall be limited to surviving wife or husband and child or children, or if there be no surviving wife or husband or child or children, to surviving father or mother whom such person has supported, either wholly or in part, for the period of one year immediately prior to the date of the injury; and except that the Secretary, at his option, may commute all future installments of compensation to be paid to such persons by pay-

ing to them one-half of the commuted amount of such future installments of compensation as determined by the Secretary.

(d) Persons excepted from coverage

The provisions of this section shall not apply in the case of any person (1) whose residence is at or in the vicinity of the place of his employment, and (2) who is not living there solely by virtue of the exigencies of his employment, unless his injury or death resulting from injury occurs or his detention begins while in the course of his employment, or (3) who is a prisoner of war or a protected person under the Geneva Conventions of 1949 and who is detained or utilized by the United States.

1973—Pub. L. 93-150 increased national average food assistance payments from 8 to 10 cents per lunch.

1972—Pub. L. 92-433 substituted new formula for food assistance payments to State educational agencies by taking into account the number of lunches served during the year, the children in the schools in such State participating in the school lunch program, and the national average payment per lunch set up by the Secretary, with certain limitations, for apportionment formula limiting the apportionable funds to 75 per cent of the available funds for such year, and taking into account the participation rate for the State, the need rate for the State, and providing for a method of apportionment, special provisions for disposal of excess or unused funds and for fiscal years beginning July 1, 1962, July 1, 1963, July 1, 1964 and fixing the funds for American Samoa at \$25,000 for each year for the five fiscal years beginning July 1, 1962.

1962—Pub. L. 87-823 amended section generally, and, among other changes, substituted as factors for apportionment of funds among the States "(1) the participation rate for the State, and (2) the assistance need rate for the State" for "(1) the number of school children in the State and (2) the need for assistance in the State as indicated by the relation of the per capita income of the United States to the per capita income in the State"; inserted, in provision for determination of amount of apportionment in clause designated "second", "(exclusive of American Samoa for periods ending before July 1, 1967)"; inserted provisions for use of transitional formulas in apportionment of funds for fiscal years beginning in 1962, 1963, and 1964 and apportioning to American Samoa \$25,000 annually for five fiscal years in period beginning July 1, 1962 and ending June 30, 1967; and struck out apportionment formula for Puerto Rico, Guam, American Samoa, and the Virgin Islands, which limited apportionments to 3 per centum of the total fund to be apportioned but required the apportionment to each to be not less than an amount which would result in an allotment per child of school age equal to that for the State with the lowest per capita income, definition of school (incorporated in section 1760(d)(7) of this title), provision for use of latest per capita income figures certified by the Department of Commerce (incorporated in section 1760(d)(6)(ii) of this title), and definition of school children which provided that the number of school children should be the number between ages of five and seventeen.

Pub. L. 87-688 inserted "American Samoa," after "Guam," in two places and "the apportionment for American Samoa," after "the apportionment for Guam,".

1952—Act July 12, 1952, removed Alaska and Hawaii from 3 percent limitation imposed on Puerto Rico and Virgin Islands, made limitation applicable to Guam, and modified effects of 3 percent limitation.

§ 1755. Direct expenditures for agricultural commodities and other foods

(a) Administrative expenses; nutritional education; pilot projects; cash-in-lieu of commodities study; refusal of commodities and receipt of other commodities available to the State in lieu of the refused commodities

The funds provided by appropriation or transfer from other accounts for any fiscal year for carrying out the provisions of this chapter, and for carrying out the provisions of the Child Nutrition Act of 1966 [42 U.S.C. 1771 et seq.], other than section 3 thereof [42 U.S.C. 1772] less

(1) not to exceed 3½ per centum thereof which per centum is hereby made available to the Secretary for the Secretary’s administrative expenses under this chapter and under the Child Nutrition Act of 1966 [42 U.S.C. 1771 et seq.];

(2) the amount apportioned by the Secretary pursuant to section 1753 of this title and the amount appropriated pursuant to sections 1759a and 1761 of this title and sections 4 and 7 of the Child Nutrition Act of 1966 [42 U.S.C. 1773 and 1776]; and

(3) not to exceed 1 per centum of the funds provided for carrying out the programs under this chapter and the programs under the Child Nutrition Act of 1966 [42 U.S.C. 1771 et seq.], other than section 3 [42 U.S.C. 1772], which per centum is hereby made available to the Secretary to supplement the nutritional benefits of these programs through grants to States and other means for nutritional training and education for workers, cooperators, and participants in these programs, for pilot projects and the cash-in-lieu of commodities study re-

quired to be carried out under section 1769 of this title, and for necessary surveys and studies of requirements for food service programs in furtherance of the purposes expressed in section 1751 of this title, and section 2 of the Child Nutrition Act of 1966 [42 U.S.C. 1771],

shall be available to the Secretary during such year for direct expenditure by the Secretary for agricultural commodities and other foods to be distributed among the States and schools and service institutions participating in the food service programs under this chapter and under the Child Nutrition Act of 1966 [42 U.S.C. 1771 et seq.] in accordance with the needs as determined by the local school and service institution authorities. Except as provided in the next 2 sentences, any school participating in food service programs under this chapter may refuse to accept delivery of not more than 20 percent of the total value of agricultural commodities and other foods tendered to it in any school year; and if a school so refuses, that school may receive, in lieu of the refused commodities, other commodities to the extent that other commodities are available to the State during that year. Any school food authority may refuse some or all of the fresh fruits and vegetables offered to the school food authority in any school year and shall receive, in lieu of the offered fruits and vegetables, other more desirable fresh fruits and vegetables that are at least equal in value to the fresh fruits and vegetables refused by the school food authority. The value of any fresh fruits and vegetables refused by a school under the preceding sentence for a school year shall not be used to determine the 20 percent of the total value of agricultural commodities and other foods tendered to the school food authority in the school year under the second sentence. The provisions of law contained in the proviso of section 713c of title 15, facilitating operations with respect to the purchase and disposition of surplus agricultural commodities under section 612c of title 7, shall, to the extent not inconsistent with the provision of this chapter, also be applicable to expenditures of funds by the Secretary under this chapter. In making purchases of such agricultural commodities and other foods, the Secretary shall not issue specifications which restrict participation of local producers unless such specifications will result in significant advantages to the food service programs authorized by this chapter and the Child Nutrition Act of 1966.

(b) Delivery of commodities

The Secretary shall deliver, to each State participating in the school lunch program under this chapter, commodities valued at the total level of assistance authorized under subsection (c)¹ of this section for each school year for the school lunch program in the State, not later than September 30 of the following school year.

(c) Level of commodity assistance; computation of index; calculation of total assistance to each State; emphasis on high protein foods; per meal value of donated foods

(1)(A) The national average value of donated foods, or cash payments in lieu thereof, shall be

¹ See References in Text note below.

11 cents, adjusted on July 1, 1982, and each July 1 thereafter to reflect changes in the Price Index for Food Used in Schools and Institutions. The Index shall be computed using 5 major food components in the Bureau of Labor Statistics' Producer Price Index (cereal and bakery products, meats, poultry and fish, dairy products, processed fruits and vegetables, and fats and oils). Each component shall be weighed using the same relative weight as determined by the Bureau of Labor Statistics.

(B) The value of food assistance for each meal shall be adjusted each July 1 by the annual percentage change in a 3-month average value of the Price Index for Foods Used in Schools and Institutions for March, April, and May each year. Such adjustment shall be computed to the nearest ¼ cent.

(C) For each school year, the total commodity assistance or cash in lieu thereof available to a State for the school lunch program shall be calculated by multiplying the number of lunches served in the preceding school year by the rate established by subparagraph (B). After the end of each school year, the Secretary shall reconcile the number of lunches served by schools in each State with the number of lunches served by schools in each State during the preceding school year and increase or reduce subsequent commodity assistance or cash in lieu thereof provided to each State based on such reconciliation.

(D) Among those commodities delivered under this section, the Secretary shall give special emphasis to high protein foods, meat, and meat alternates (which may include domestic seafood commodities and their products).

(E) Notwithstanding any other provision of this section, not less than 75 percent of the assistance provided under this subsection shall be in the form of donated foods for the school lunch program.

(2) To the maximum extent feasible, each State agency shall offer to each school food authority under its jurisdiction that participates in the school lunch program and receives commodities, agricultural commodities and their products, the per meal value of which is not less than the national average value of donated foods established under paragraph (1). Each such offer shall include the full range of such commodities and products that are available from the Secretary to the extent that quantities requested are sufficient to allow efficient delivery to and within the State.

(d) Termination of commodity assistance based upon school breakfast program

Beginning with the school year ending June 30, 1981, the Secretary shall not offer commodity assistance based upon the number of breakfasts served to children under section 4 of the Child Nutrition Act of 1966 [42 U.S.C. 1773].

(e) Minimum percentage of commodity assistance

(1) Subject to paragraph (2), in each school year the Secretary shall ensure that not less than 12 percent of the assistance provided under section 1753 of this title, this section, and section 1759a of this title shall be in the form of—

(A) commodity assistance provided under this section, including cash in lieu of commod-

ities and administrative costs for procurement of commodities under this section; or

(B) during the period beginning October 1, 2003, and ending September 30, 2009, commodities provided by the Secretary under any provision of law.

(2) If amounts available to carry out the requirements of the sections described in paragraph (1) are insufficient to meet the requirement contained in paragraph (1) for a school year, the Secretary shall, to the extent necessary, use the authority provided under section 1762a(a) of this title to meet the requirement for the school year.

AMENDMENTS

1996—Pub. L. 104-193 designated first and second sentences as subsecs. (a) and (b), respectively, substituted “in subsection (a) of this section” for “in the preceding sentence” in subsec. (b), designated third sentence as subsec. (c) and substituted “The State educational

agency may" for "Nothing in the preceding sentence shall be construed to limit the ability of the State educational agency to", struck out fourth and fifth sentences, designated sixth sentence as subsec. (d) and substituted "Use of funds paid to States" for "Such food costs", and designated seventh to ninth sentences as subsecs. (e) to (g), respectively. Prior to amendment, fourth and fifth sentences read as follows: "Such disbursement to any school shall be made only for the purpose of assisting it to obtain agricultural commodities and other foods for consumption by children in the school lunch program. The terms 'child' and 'children' as used in this chapter shall be deemed to include individuals regardless of age who are determined by the State educational agency, in accordance with regulations prescribed by the Secretary, to have 1 or more mental or physical handicaps and who are attending any child care institution as defined in section 1766 of this title or any nonresidential public or nonprofit private school of high school grade or under for the purpose of participating in a school program established for individuals with mental or physical handicaps: *Provided*, That no institution that is not otherwise eligible to participate in the program under section 1766 of this title shall be deemed so eligible because of this sentence."

1989—Pub. L. 101-147, §312(1), substituted "school lunch" for "school-lunch" in three places.

Pub. L. 101-147, §304, which directed the amendment of subsec. (d) by substituting "individuals" for "persons", "to have 1 or more mental or physical handicaps" for "to be mentally or physically handicapped", and "for individuals with mental or physical handicaps" for "for mentally or physically handicapped", was executed by making the substitutions in the undesignated text before the proviso as the probable intent of Congress because the section contains no subsection designations.

Pub. L. 101-147, §201, inserted after first sentence "The agreements described in the preceding sentence shall be permanent agreements that may be amended as necessary. Nothing in the preceding sentence shall be construed to limit the ability of the State educational agency to suspend or terminate any such agreement in accordance with regulations prescribed by the Secretary."

1981—Pub. L. 97-35 substituted references to per meal reimbursement rate, for references to Federal food-cost contribution rate wherever appearing, and struck out reference to section 1754 of this title, and food service equipment assistance.

1978—Pub. L. 95-627 inserted provision relating to definition of "child" and "children".

1977—Pub. L. 95-166 substituted "food service equipment assistance" for "nonfood assistance".

1973—Pub. L. 93-150 provided that in any fiscal year in which the national average payment per lunch determined under section 1753 of this title is increased above the amount prescribed in the previous fiscal year, the maximum Federal food-cost contribution rate, for the type of lunch served, shall be increased by a like amount.

1972—Pub. L. 92-433 substituted provision that disbursement to schools be made for the purpose of assisting them to finance the costs of agricultural commodities, for provision that such disbursement be made for the purpose of reimbursing them for such costs and inserted provision that lunch assistance disbursements to schools under this section and section 1759a of this title may be made in advance or by way of reimbursement according to procedure prescribed by the Secretary.

EFFECTIVE DATE OF 1981 AMENDMENT

(1)(A) Lunches served by schools participating in the school lunch program under this chapter shall meet minimum nutritional requirements prescribed by the Secretary on the basis of tested nutritional research, except that the minimum nutritional requirements—

(i) shall not be construed to prohibit the substitution of foods to accommodate the medical or other special dietary needs of individual students; and

(ii) shall, at a minimum, be based on the weekly average of the nutrient content of school lunches.

(B) The Secretary shall provide technical assistance and training, including technical assistance and training in the preparation of lower-fat versions of foods commonly used in the school lunch program under this chapter, to schools participating in the school lunch program to assist the schools in complying with the nutritional requirements prescribed by the Secretary pursuant to subparagraph (A) and in providing appropriate meals to children with medically certified special dietary needs. The Secretary shall provide additional technical assistance to schools that are having difficulty maintaining compliance with the requirements.

(2) FLUID MILK.—

(A) IN GENERAL.—Lunches served by schools participating in the school lunch program under this chapter—

(i) shall offer students fluid milk in a variety of fat contents;

(ii) may offer students flavored and unflavored fluid milk and lactose-free fluid milk; and

(iii) shall provide a substitute for fluid milk for students whose disability restricts their diet, on receipt of a written statement from a licensed physician that identifies the disability that restricts the student's diet and that specifies the substitute for fluid milk.

(B) SUBSTITUTES.—

(i) STANDARDS FOR SUBSTITUTION.—A school may substitute for the fluid milk provided under subparagraph (A), a nondairy beverage that is nutritionally equivalent to fluid milk and meets nutritional standards established by the Secretary (which shall, among other requirements to be determined by the Secretary, include fortification of calcium, protein, vitamin A, and vitamin D to levels found in cow's milk) for students who cannot consume fluid milk because of a medical or other special dietary need other than a disability described in subparagraph (A)(iii).

(ii) NOTICE.—The substitutions may be made if the school notifies the State agency that the school is implementing a variation allowed under this subparagraph, and if the substitution is requested by written statement of a medical authority or by a student's parent or legal guardian that identifies the medical or other special dietary need that restricts the student's diet, except

that the school shall not be required to provide beverages other than beverages the school has identified as acceptable substitutes.

(iii) EXCESS EXPENSES BORNE BY SCHOOL FOOD AUTHORITY.—Expenses incurred in providing substitutions under this subparagraph that are in excess of expenses covered by reimbursements under this chapter shall be paid by the school food authority.

(C) RESTRICTIONS ON SALE OF MILK PROHIBITED.—A school that participates in the school lunch program under this chapter shall not directly or indirectly restrict the sale or marketing of fluid milk products by the school (or by a person approved by the school) at any time or any place—

(3) Students in senior high schools that participate in the school lunch program under this chapter (and, when approved by the local school district or nonprofit private schools, students in any other grade level) shall not be required to accept offered foods they do not intend to consume, and any such failure to accept offered foods shall not affect the full charge to the student for a lunch meeting the requirements of this subsection or the amount of payments made under this chapter to any such school for such lunch.

(4) PROVISION OF INFORMATION.—

(A) GUIDANCE.—Prior to the beginning of the school year beginning July 2004, the Secretary shall issue guidance to States and school food authorities to increase the consumption of foods and food ingredients that are recommended for increased serving consumption in the most recent Dietary Guidelines for Americans published under section 5341 of title 7.

(B) RULES.—Not later than 2 years after June 30, 2004, the Secretary shall promulgate rules, based on the most recent Dietary Guidelines for Americans, that reflect specific recommendations, expressed in serving recommendations, for increased consumption of foods and food ingredients offered in school nutrition programs under this chapter and the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.).

(b) Eligibility

(1)(A) Not later than June 1 of each fiscal year, the Secretary shall prescribe income guidelines for determining eligibility for free and reduced price lunches during the 12-month period beginning July 1 of such fiscal year and ending June 30 of the following fiscal year. The income guidelines for determining eligibility for reduced price lunches for any school year shall be 185 percent of the applicable family size income levels contained in the non-farm income poverty guidelines prescribed by

- (ii) the percentage change in the Consumer Price Index during the annual or other interval immediately preceding the time at which the adjustment is made.

Revisions under this subparagraph shall be made not more than 30 days after the date on which the consumer price index data required to compute the adjustment becomes available.

(2)(A) Following the determination by the Secretary under paragraph (1) of this subsection of the income eligibility guidelines for each school year, each State educational agency shall announce the income eligibility guidelines, by family size, to be used by schools in the State in making determinations of eligibility for free and reduced price lunches. Local school authorities shall, each year, publicly announce the income eligibility guidelines for free and reduced price lunches on or before the opening of school.

(B) APPLICATIONS AND DESCRIPTIVE MATERIAL.—

(i) IN GENERAL.—Applications for free and reduced price lunches, in such form as the Secretary may prescribe or approve, and any descriptive material, shall be distributed to the parents or guardians of children in attendance at the school, and shall contain only the family size income levels for reduced price meal eligibility with the explanation that households with incomes less than or equal to these values would be eligible for free or reduced price lunches.

(iii) CONTENTS OF DESCRIPTIVE MATERIAL.—

(I) IN GENERAL.—Descriptive material distributed in accordance with clause (i) shall contain a notification that—

EFFECTIVE DATE OF 1981 AMENDMENT

Amendment by Pub. L. 97-35 effective Oct. 1, 1981, see section 820(a)(4) of Pub. L. 97-35, set out as a note under section 1753 of this title.

§ 1759a. Special assistance funds

(a) Formula for computation of payments; computation for lunches to eligible children in schools funding service to ineligible children from non-Federal sources; special assistance factors; annual adjustments

(1)(A) Except as provided in section 1759 of this title, in each fiscal year each State educational agency shall receive special assistance payments in an amount equal to the sum of the product obtained by multiplying the number of lunches (consisting of a combination of foods which meet the minimum nutritional requirements prescribed by the Secretary pursuant to section 1758(a) of this title) served free to children eligible for such lunches in schools within that State during such fiscal year by the special assistance factor for free lunches prescribed by the Secretary for such fiscal year and the product obtained by multiplying the number of lunches served at a reduced price to children eligible for such reduced price lunches in schools within that State during such fiscal year by the special assistance factor for reduced price lunches prescribed by the Secretary for such fiscal year.

(B) Except as provided in subparagraph (C), (D), or (E), in the case of any school which determines that at least 80 percent of the children

in attendance during a school year (hereinafter in this sentence referred to as the "first school year") are eligible for free lunches or reduced price lunches, special assistance payments shall be paid to the State educational agency with respect to that school, if that school so requests for the school year following the first school year, on the basis of the number of free lunches or reduced price lunches, as the case may be, that are served by that school during the school year for which the request is made, to those children who were determined to be so eligible in the first school year and the number of free lunches and reduced price lunches served during that year to other children determined for that year to be eligible for such lunches.

(C)(i) Except as provided in subparagraph (D), in the case of any school or school district that—

(I) elects to serve all children in the school or school district free lunches under the school lunch program during any period of 4 successive school years, or in the case of a school or school district that serves both lunches and breakfasts, elects to serve all children in the school or school district free lunches and free breakfasts under the school lunch program and the school breakfast program established under section 4 of the Child Nutrition Act of 1966 (42 U.S.C. 1773) during any period of 4 successive school years; and

(II) pays, from sources other than Federal funds, for the costs of serving the lunches or breakfasts that are in excess of the value of assistance received under this chapter and the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.) with respect to the number of lunches or breakfasts served during the period;

special assistance payments shall be paid to the State educational agency with respect to the school or school district during the period on the basis of the number of lunches or breakfasts determined under clause (ii) or (iii).

(ii) For purposes of making special assistance payments under clause (i), except as provided in clause (iii), the number of lunches or breakfasts served by a school or school district to children who are eligible for free lunches or breakfasts or reduced price lunches or breakfasts during each school year of the 4-school-year period shall be considered to be equal to the number of lunches or breakfasts served by the school or school district to children eligible for free lunches or breakfasts or reduced price lunches or breakfasts during the first school year of the period.

(iii) For purposes of computing the amount of the payments, a school or school district may elect to determine on a more frequent basis the number of children who are eligible for free or reduced price lunches or breakfasts who are served lunches or breakfasts during the 4-school-year period.

(D)(i) In the case of any school or school district that is receiving special assistance payments under this paragraph for a 4-school-year period described in subparagraph (C), the State may grant, at the end of the 4-school-year period, an extension of the period for an additional 4 school years, if the State determines, through available socioeconomic data approved by the Secretary, that the income level of the popu-

lation of the school or school district has remained stable.

(ii) A school or school district described in clause (i) may reapply to the State at the end of the 4-school-year period, and at the end of each 4-school-year period thereafter for which the school or school district receives special assistance payments under this paragraph, for the purpose of continuing to receive the payments for a subsequent 4-school-year period.

(iii) If the Secretary determines after considering the best available socioeconomic data that the income level of families of children enrolled in a school or school district has not remained stable, the Secretary may require the submission of applications for free and reduced price lunches, or for free and reduced price lunches and breakfasts, in the first school year of any 4-school-year period for which the school or school district receives special assistance payments under this paragraph, for the purpose of calculating the special assistance payments.

(iv) For the purpose of updating information and reimbursement levels, a school or school district described in clause (i) that carries out a school lunch or school breakfast program may at any time require submission of applications for free and reduced price lunches or for free and reduced price lunches and breakfasts.

(E)(i) In the case of any school or school district that—

(I) elects to serve all children in the school or school district free lunches under the school lunch program during any period of 4 successive school years, or in the case of a school or school district that serves both lunches and breakfasts, elects to serve all children in the school or school district free lunches and free breakfasts under the school lunch program and the school breakfast program during any period of 4 successive school years; and

(II) pays, from sources other than Federal funds, for the costs of serving the lunches or breakfasts that are in excess of the value of assistance received under this chapter and the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.) with respect to the number of lunches or breakfasts served during the period;

total Federal cash reimbursements and total commodity assistance shall be provided to the State educational agency with respect to the school or school district at a level that is equal to the total Federal cash reimbursements and total commodity assistance received by the school or school district in the last school year for which the school or school district accepted applications under the school lunch or school breakfast program, adjusted annually for inflation in accordance with paragraph (3)(B) and for changes in enrollment, to carry out the school lunch or school breakfast program.

(ii) A school or school district described in clause (i) may reapply to the State at the end of the 4-school-year period described in clause (i), and at the end of each 4-school-year period thereafter for which the school or school district receives reimbursements and assistance under this subparagraph, for the purpose of continuing to receive the reimbursements and assistance for a subsequent 4-school-year period. The State

may approve an application under this clause if the State determines, through available socio-economic data approved by the Secretary, that the income level of the population of the school or school district has remained consistent with the income level of the population of the school or school district in the last school year for which the school or school district accepted the applications described in clause (i).

(2) The special assistance factor prescribed by the Secretary for free lunches shall be 98.75 cents and the special assistance factor for reduced price lunches shall be 40 cents less than the special assistance factor for free lunches.

(3)(A) The Secretary shall prescribe on July 1, 1982, and on each subsequent July 1, an annual adjustment in the following:

(i) The national average payment rates for lunches (as established under section 1753 of this title).

(ii) **BASIS.**—Each annual adjustment shall reflect the changes in the series for food away from home for the most recent 12-month period for which such data are available.

(iii) **ROUNDING.**—

(I) **THROUGH JUNE 30, 1999.**—For the period ending June 30, 1999, the adjustments made under this paragraph shall be computed to the nearest one-fourth cent, except that adjustments to payment rates for meals and supplements served to individuals not determined to be eligible for free or reduced price meals and supplements shall be computed to the nearest lower cent increment and based on the unrounded amount for the preceding 12-month period.

(II) **JULY 1, 1999, AND THEREAFTER.**—On July 1, 1999, and on each subsequent July 1, the national average payment rates for meals and supplements shall be adjusted to the nearest lower cent increment and shall be based on the unrounded amounts for the preceding 12-month period.

(b) Financing cost of free and reduced price lunches on basis of need of school for special assistance; maximum per lunch amount

Except as provided in section 10 of the Child Nutrition Act of 1966 [42 U.S.C. 1779], the special assistance payments made to each State agency during each fiscal year under the provisions of

this section shall be used by such State agency to assist schools of that State in providing free and reduced price lunches served to children pursuant to section 1758(b) of this title. § 1761. Summer food service programs for children in service institutions

(a) Assistance to States; definitions; eligible service institutions; priorities in participation; limitations on reimbursement; nonprofit organizations; rural areas

(1) The Secretary is authorized to carry out a program to assist States, through grants-in-aid and other means, to initiate and maintain nonprofit food service programs for children in service institutions. For purposes of this section, (A) “program” means the summer food service program for children authorized by this section; (B) “service institutions” means public or private nonprofit school food authorities, local, municipal, or county governments, public or private nonprofit higher education institutions participating in the National Youth Sports Program,¹ and residential public or private nonprofit summer camps, that develop special summer or school vacation programs providing food service similar to that made available to children during the school year under the school lunch program under this chapter or the school breakfast program under the Child Nutrition Act of 1966 [42 U.S.C. 1771 et seq.]; (C) “areas in which poor economic conditions exist” means areas in which at least 50 percent of the children are eligible for free or reduced price school meals under this chapter and the Child Nutrition Act of 1966, as determined by information provided from departments of welfare, zoning commissions, census tracts, by the number of free and reduced price lunches or breakfasts served to children attending public and nonprofit private schools located in the area of program food service sites, or from other appropriate sources, including statements of eligibility based upon income for children enrolled in the program; (D) “children” means individuals who are eighteen years of age and under, and individuals who are older than eighteen who are (i) determined by a State educational agency or a local public educational agency of a State, in accordance with regulations prescribed by the Secretary, to have a disability, and (ii) participating in a public or nonprofit private school program established for individuals who have a disability; and (E) “State” means any of the fifty States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands of the United States, Guam, American Samoa, and the Northern Mariana Islands.

(2) To the maximum extent feasible, consistent with the purposes of this section, any food service under the program shall use meals prepared at the facilities of the service institution or at the food service facilities of public and nonprofit private schools. The Secretary shall assist States in the development of information and technical assistance to encourage increased service of meals prepared at the facilities of service institutions and at public and nonprofit private schools.

¹ So in original.

(3) Eligible service institutions entitled to participate in the program shall be limited to those that—

(A) demonstrate adequate administrative and financial responsibility to manage an effective food service;

(B) have not been seriously deficient in operating under the program;

(C)(i) conduct a regularly scheduled food service for children from areas in which poor economic conditions exist; or

(ii) qualify as camps; and

(D) provide an ongoing year-round service to the community to be served under the program (except that an otherwise eligible service institution shall not be disqualified for failure to meet this requirement for ongoing year-round service if the State determines that its disqualification would result in an area in which poor economic conditions exist not being served or in a significant number of needy children not having reasonable access to a summer food service program).

(4) The following order of priority shall be used by the State in determining participation where more than one eligible service institution proposes to serve the same area:

(A) Local schools.

(B) All other service institutions and private nonprofit organizations eligible under paragraph (7) that have demonstrated successful program performance in a prior year.

(C) New public institutions.

(D) New private nonprofit organizations eligible under paragraph (7).

The Secretary and the States, in carrying out their respective functions under this section, shall actively seek eligible service institutions located in rural areas, for the purpose of assisting such service institutions in applying to participate in the program.

(5) Camps that satisfy all other eligibility requirements of this section shall receive reimbursement only for meals served to children who meet the eligibility requirements for free or reduced price meals, as determined under this chapter and the Child Nutrition Act of 1966 [42 U.S.C. 1771 et seq.].

(6) Service institutions that are local, municipal, or county governments shall be eligible for reimbursement for meals served in programs under this section only if such programs are operated directly by such governments.

(7)(A) Private nonprofit organizations, as defined in subparagraph (B) (other than organizations eligible under paragraph (1)), shall be eligible for the program under the same terms and conditions as other service institutions.

(B) As used in this paragraph, the term “private nonprofit organizations” means those organizations that—

(i) operate—

(I) not more than 25 sites, with not more than 300 children being served at any one site; or

(II) with a waiver granted by the State agency under standards developed by the Secretary, with not more than 500 children being served at any one site;

(ii) exercise full control and authority over the operation of the program at all sites under their sponsorship;

(iii) provide ongoing year-around activities for children or families;

(iv) demonstrate that such organizations have adequate management and the fiscal capacity to operate a program under this section; and

(v) meet applicable State and local health, safety, and sanitation standards.

(8) SEAMLESS SUMMER OPTION.—Except as otherwise determined by the Secretary, a service institution that is a public or private non-profit school food authority may provide summer or school vacation food service in accordance with applicable provisions of law governing the school lunch program established under this chapter or the school breakfast program established under the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.).

not more than 60 eligible service institutions selected by the Secretary to increase participation at congregate feeding sites in the summer food service program for children authorized by this section through innovative approaches to limited transportation in rural areas.

(B) ELIGIBILITY.—To be eligible to receive a grant under this paragraph—

(i) a State agency shall submit an application to the Secretary, in such manner as the Secretary shall establish, and meet criteria established by the Secretary; and

(ii) a service institution shall agree to the terms and conditions of the grant, as established by the Secretary.

(C) DURATION.—A service institution that receives a grant under this paragraph may use the grant funds during the 3-fiscal year period beginning in fiscal year 2006.

(D) REPORTS.—The Secretary shall submit to the Committee on Education and the Workforce of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate—

- (i) \$1.97 for each lunch and supper served;
- (ii) \$1.13 for each breakfast served; and
- (iii) 46 cents for each meal supplement served.

(B) **ADJUSTMENTS.**—Amounts specified in subparagraph (A) shall be adjusted on January 1, 1997, and each January 1 thereafter, to the nearest lower cent increment to reflect changes for the 12-month period ending the preceding November 30 in the series for food away from home of the Consumer Price Index for All Urban Consumers published by the Bureau of Labor Statistics of the Department of Labor. Each adjustment shall be based on the unrounded adjustment for the prior 12-month period.

(C) **SEAMLESS SUMMER REIMBURSEMENTS.**—A service institution described in subsection (a)(8) of this section shall be reimbursed for meals and meal supplements in accordance with the applicable provisions under this chapter (other than subparagraphs (A) and (B) of this paragraph and paragraph (4)) and the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.), as determined by the Secretary.

(2) Any service institution may only serve lunch and either breakfast or a meal supplement during each day of operation, except that any service institution that is a camp or that serves meals primarily to migrant children may serve up to 3 meals, or 2 meals and 1 supplement, during each day of operation, if (A) the service institution has the administrative capability and the food preparation and food holding capabilities (where applicable) to serve more than one meal per day, and (B) the service period of different meals does not coincide or overlap.

(3) Every service institution, when applying for participation in the program, shall submit a complete budget for administrative costs related to the program, which shall be subject to approval by the State. Payment to service institutions for administrative costs shall equal the levels determined by the Secretary pursuant to the study prescribed in paragraph (4) of this subsection.

(4)(A) The Secretary shall conduct a study of the food service operations carried out under the program. Such study shall include, but shall not be limited to—

- (i) an evaluation of meal quality as related to costs; and
- (ii) a determination whether adjustments in the maximum reimbursement levels for food service operation costs prescribed in paragraph (1) of this subsection should be made, including whether different reimbursement levels should be established for self-prepared meals and vendored meals and which site-related costs, if any, should be considered as part of administrative costs.

(B) The Secretary shall also study the administrative costs of service institutions participat-

ing in the program and shall thereafter prescribe maximum allowable levels for administrative payments that reflect the costs of such service institutions, taking into account the number of sites and children served, and such other factors as the Secretary determines appropriate to further the goals of efficient and effective administration of the program.

(C) The Secretary shall report the results of such studies to Congress not later than December 1, 1977.

(c) Payments for meals served during May through September; exceptions for continuous school calendars or non-school sites; National Youth Sports Program

(1) Payments shall be made to service institutions only for meals served during the months of May through September, except in the case of service institutions that operate food service programs for children on school vacation at any time under a continuous school calendar or that provide meal service at non-school sites to children who are not in school for a period during the months of October through April due to a natural disaster, building repair, court order, or similar cause.

(2) Children participating in National Youth Sports Programs operated by higher education institutions shall be eligible to participate in the program under this paragraph on showing residence in areas in which poor economic conditions exist or on the basis of income eligibility statements for children enrolled in the program.

(d) Advance program payments to States for monthly meal service; letters of credit, forwarding to States; determination of amount; valid claims, receipt

Not later than April 15, May 15, and July 1 of each year, the Secretary shall forward to each State a letter of credit (advance program payment) that shall be available to each State for the payment of meals to be served in the month for which the letter of credit is issued. The amount of the advance program payment shall be an amount which the State demonstrates, to the satisfaction of the Secretary, to be necessary for advance program payments to service institutions in accordance with subsection (e) of this section. The Secretary shall also forward such advance program payments, by the first day of the month prior to the month in which the program will be conducted, to States that operate the program in months other than May through September. The Secretary shall forward any remaining payments due pursuant to subsection (b) of this section not later than sixty days following receipt of valid claims therefor.

(e) Advance program payments to service institutions for monthly meal service; certification of personnel training sessions; minimum days per month operations requirement; payments: computation, limitation; valid claims, receipt; withholding; demand for repayment; subtraction of disputed payments

(1) Not later than June 1, July 15, and August 15 of each year, or, in the case of service institutions that operate under a continuous school calendar, the first day of each month of operation, the State shall forward advance program

payments to each service institution. The State shall not release the second month's advance program payment to any service institution (excluding a school) that has not certified that it has held training sessions for its own personnel and the site personnel with regard to program duties and responsibilities. No advance program payment may be made for any month in which the service institution will operate under the program for less than ten days.

(2) The amount of the advance program payment for any month in the case of any service institution shall be an amount equal to (A) the total program payment for meals served by such service institution in the same calendar month of the preceding calendar year, (B) 50 percent of the amount established by the State to be needed by such service institution for meals if such service institution contracts with a food service management company, or (C) 65 percent of the amount established by the State to be needed by such service institution for meals if such service institution prepares its own meals, whichever amount is greatest: *Provided*, That the advance program payment may not exceed the total amount estimated by the State to be needed by such service institution for meals to be served in the month for which such advance program payment is made or \$40,000, whichever is less, except that a State may make a larger advance program payment to such service institution where the State determines that such larger payment is necessary for the operation of the program by such service institution and sufficient administrative and management capability to justify a larger payment is demonstrated. The State shall forward any remaining payment due a service institution not later than seventy-five days following receipt of valid claims. If the State has reason to believe that a service institution will not be able to submit a valid claim for reimbursement covering the period for which an advance program payment has been made, the subsequent month's advance program payment shall be withheld until such time as the State has received a valid claim. Program payments advanced to service institutions that are not subsequently deducted from a valid claim for reimbursement shall be repaid upon demand by the State. Any prior payment that is under dispute may be subtracted from an advance program payment.

(f) Nutritional standards

(1) Service institutions receiving funds under this section shall serve meals consisting of a combination of foods and meeting minimum nutritional standards prescribed by the Secretary on the basis of tested nutritional research.

(2) The Secretary shall provide technical assistance to service institutions and private nonprofit organizations participating in the program to assist the institutions and organizations in complying with the nutritional requirements prescribed by the Secretary pursuant to this subsection.

(3) Meals described in paragraph (1) shall be served without cost to children attending service institutions approved for operation under this section, except that, in the case of camps, charges may be made for meals served to chil-

dren other than those who meet the eligibility requirements for free or reduced price meals in accordance with subsection (a)(5) of this section.

(4) To assure meal quality, States shall, with the assistance of the Secretary, prescribe model meal specifications and model food quality standards, and ensure that all service institutions contracting for the preparation of meals with food service management companies include in their contracts menu cycles, local food safety standards, and food quality standards approved by the State.

(5) Such contracts shall require (A) periodic inspections, by an independent agency or the local health department for the locality in which the meals are served, of meals prepared in accordance with the contract in order to determine bacteria levels present in such meals, and (B) conformance with standards set by local health authorities.

(6) Such inspections and any testing resulting therefrom shall be in accordance with the practices employed by such local health authority.

(7) OFFER VERSUS SERVE.—A school food authority participating as a service institution may permit a child to refuse one or more items of a meal that the child does not intend to consume, under rules that the school uses for school meals programs. A refusal of an offered food item shall not affect the amount of payments made under this section to a school for the meal.

(g) Regulations, guidelines, applications, and handbooks; publication; startup costs

The Secretary shall publish proposed regulations relating to the implementation of the program by November 1 of each fiscal year, final regulations by January 1 of each fiscal year, and guidelines, applications, and handbooks by February 1 of each fiscal year. In order to improve program planning, the Secretary may provide that service institutions be paid as startup costs not to exceed 20 percent of the administrative funds provided for in the administrative budget approved by the State under subsection (b)(3) of this section. Any payments made for startup costs shall be subtracted from amounts otherwise payable for administrative costs subsequently made to service institutions under subsection (b)(3) of this section.

(h) Direct disbursement to service institutions by Secretary

Each service institution shall, insofar as practicable, use in its food service under the program foods designated from time to time by the Secretary as being in abundance. The Secretary is authorized to donate to States, for distribution to service institutions, food available under section 1431 of title 7, or purchased under section 612c of title 7 or section 1446a-1 of title 7. Donated foods may be distributed only to service institutions that can use commodities efficiently and effectively, as determined by the Secretary.

(i) Repealed. Pub. L. 97-35, title VIII, §817(b), Aug. 13, 1981, 95 Stat. 532

(j) Administrative expenses of Secretary; authorization of appropriations

Expenditures of funds from State and local sources for the maintenance of food programs

for children shall not be diminished as a result of funds received under this section.

(k) Administrative costs of State; payment; adjustment; standards and effective dates, establishment; funds: withholding, inspection

(1) The Secretary shall pay to each State for its administrative costs incurred under this section in any fiscal year an amount equal to (A) 20 percent of the first \$50,000 in funds distributed to that State for the program in the preceding fiscal year; (B) 10 percent of the next \$100,000 distributed to that State for the program in the preceding fiscal year; (C) 5 percent of the next \$250,000 in funds distributed to that State for the program in the preceding fiscal year; and (D) 2½ percent of any remaining funds distributed to that State for the program in the preceding fiscal year: *Provided*, That such amounts may be adjusted by the Secretary to reflect changes in the size of that State's program since the preceding fiscal year.

(2) The Secretary shall establish standards and effective dates for the proper, efficient, and effective administration of the program by the State. If the Secretary finds that the State has failed without good cause to meet any of the Secretary's standards or has failed without good cause to carry out the approved State management and administration plan under subsection (n) of this section, the Secretary may withhold from the State such funds authorized under this subsection as the Secretary determines to be appropriate.

(3) To provide for adequate nutritional and food quality monitoring, and to further the implementation of the program, an additional amount, not to exceed the lesser of actual costs or 1 percent of program funds, shall be made available by the Secretary to States to pay for State or local health department inspections, and to reinspect facilities and deliveries to test meal quality.

(l) Food service management companies; subcontracts; assignments, conditions and limitations; meal capacity information in bids subject to review; registration; record, availability to States; small and minority-owned businesses for supplies and services; contracts: standard form, bid and contract procedures, bonding requirements and exemption, review by States, collusive bidding safeguards

(1) Service institutions may contract on a competitive basis with food service management companies for the furnishing of meals or management of the entire food service under the program, except that a food service management company entering into a contract with a service institution under this section may not subcontract with a single company for the total meal, with or without milk, or for the assembly of the meal. The Secretary shall prescribe additional conditions and limitations governing assignment of all or any part of a contract entered into by a food service management company under this section. Any food service management company shall, in its bid, provide the service institution information as to its meal capacity.

(2) Each State may provide for the registration of food service management companies.

(3) In accordance with regulations issued by the Secretary, positive efforts shall be made by service institutions to use small businesses and minority-owned businesses as sources of supplies and services. Such efforts shall afford those sources the maximum feasible opportunity to compete for contracts using program funds.

(4) Each State, with the assistance of the Secretary, shall establish a standard form of contract for use by service institutions and food service management companies. The Secretary shall prescribe requirements governing bid and contract procedures for acquisition of the services of food service management companies, including, but not limited to, bonding requirements (which may provide exemptions applicable to contracts of \$100,000 or less), procedures for review of contracts by States, and safeguards to prevent collusive bidding activities between service institutions and food service management companies.

(m) Accounts and records

States and service institutions participating in programs under this section shall keep such accounts and records as may be necessary to enable the Secretary to determine whether there has been compliance with this section and the regulations issued hereunder. Such accounts and records shall be available at any reasonable time for inspection and audit by representatives of the Secretary and shall be preserved for such period of time, not in excess of five years, as the Secretary determines necessary.

(n) Management and administration plan; notification and submittal to Secretary; specific provisions

(1) ensure that the views of local school districts and private nonprofit schools with respect to the type of commodity assistance needed in schools are fully and accurately reflected in reports to the Secretary by the State with respect to State commodity preferences and that such views are considered by the Secretary in the purchase and distribution of commodities and by the States in the allocation of such commodities among schools within the States;

(2) solicit the views of States with respect to the acceptability of commodities;

(3) ensure that the timing of commodity deliveries to States is consistent with State school year calendars and that such deliveries occur with sufficient advance notice;

In purchasing commodities for programs carried out under this chapter and the Child Nutrition Act of 1966, the Secretary shall establish procedures to ensure that contracts for the purchase of such commodities shall not be entered into unless the previous history and current patterns of the contracting party with respect to compliance with applicable meat inspection laws and with other appropriate standards relating to the wholesomeness of food for human consumption are taken into account.

(D) States and school food authorities are provided model procedures for providing to school food authorities, parents, and students—

(i) factual information on the science and evidence regarding irradiation technology; and

(cc) FACTORS FOR CHILDREN ONLY.—A family or group day care home may elect to receive the reimbursement factors prescribed under clause (ii)(III) solely for the children participating in a program referred to in item (bb) if the home elects not to have income statements collected from parents or other caretakers.

(IV) SIMPLIFIED MEAL COUNTING AND REPORTING PROCEDURES.—The Secretary shall prescribe simplified meal counting and reporting procedures for use by a family or group day care home that elects to claim the factors under subclause (II) and by a family or group day care home sponsoring organization that sponsors the home. (aa) Setting an annual percentage for each home of the number of meals served that are to be reimbursed in accordance with the reimbursement factors prescribed under clause (ii)(III) and an annual percentage of the number of meals served that are to be reimbursed in accordance with the reimbursement factors prescribed under subclause (I), based on the family income of children enrolled in the home in a specified month or other period.

(bb) Placing a home into 1 of 2 or more reimbursement categories annually based on the percentage of children in the home whose households have incomes that meet the income eligibility guidelines under section 1758 of this title, with each such reimbursement category carrying a set of reimbursement factors such as the factors prescribed under clause (ii)(III) or subclause (I) or factors established within the range of factors prescribed under clause (ii)(III) and subclause (I).

(C)(i) Reimbursement for administrative expenses shall also include start-up funds to finance the administrative expenses for such institutions to initiate successful operation under the program and expansion funds to finance the administrative expenses for such institutions to expand into low-income or rural areas. Institutions that have received start-up funds may also apply at a later date for expansion funds. Such start-up funds and expansion funds shall be in addition to other reimbursement to such institutions for administrative expenses. Start-up funds and expansion funds shall be payable to enable institutions satisfying the criteria of subsection (d) of this section, and any other standards prescribed by the Secretary, to develop an application for participation in the program as a family or group day care home sponsoring organization or to implement the program upon approval of the application. Such start-up funds and expansion funds shall be payable in accordance with the procedures prescribed by the Secretary. (E) PROVISION OF DATA TO FAMILY OR GROUP DAY CARE HOME SPONSORING ORGANIZATIONS.—

(i) CENSUS DATA.—The Secretary shall provide to each State agency administering a child and adult care food program under this section data from the most recent decennial census survey or other appropriate census survey for which the data are available showing which areas in the State meet the

requirements of subparagraph (A)(ii)(I)(aa). The State agency shall provide the data to family or group day care home sponsoring organizations located in the State.

(ii) SCHOOL DATA.—

(I) IN GENERAL.—A State agency administering the school lunch program under this chapter or the school breakfast program under the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.) shall provide to approved family or group day care home sponsoring organizations a list of schools serving elementary school children in the State in which not less than ½ of the children enrolled are certified to receive free or reduced price meals. The State agency shall collect the data necessary to create the list annually and provide the list on a timely basis to any approved family or group day care home sponsoring organization that requests the list.

(II) USE OF DATA FROM PRECEDING SCHOOL YEAR.—In determining for a fiscal year or other annual period whether a home qualifies as a tier I family or group day care home under subparagraph (A)(ii)(I), the State agency administering the program under this section, and a family or group day care home sponsoring organization, shall use the most current available data at the time of the determination.

(iii) DURATION OF DETERMINATION.—For purposes of this section, a determination that a family or group day care home is located in an area that qualifies the home as a tier I family or group day care home (as the term is defined in subparagraph (A)(ii)(I)), shall be in effect for 5 years (unless the determination is made on the basis of census data, in which case the determination shall remain in effect until more recent census data are available) unless the State agency determines that the area in which the home is located no longer qualifies the home as a tier I family or group day care home.

(4) By the first day of each month of operation, the State may provide advance payments for the month to each approved institution in an amount that reflects the full level of valid claims customarily received from such institution for one month's operation. In the case of a newly participating institution, the amount of the advance shall reflect the State's best estimate of the level of valid claims such institutions will submit. If the State has reason to believe that an institution will not be able to submit a valid claim covering the period for which such an advance has been made, the subsequent month's advance payment shall be withheld until the State receives a valid claim. Payments advanced to institutions that are not subsequently deducted from a valid claim for reimbursement shall be repaid upon demand by the State. Any prior payment that is under dispute may be subtracted from an advance payment.

(g) Meals served by participating institutions; compliance assistance

(1)(A) Meals served by institutions participating in the program under this section shall con-

(3) Each institution shall, insofar as practicable, use in its food service foods designated from time to time by the Secretary as being in abundance, either nationally or in the food service area, or foods donated by the Secretary.

(1)(A) The Secretary shall donate agricultural commodities produced in the United States for use in institutions participating in the child care food program under this section.

(B) The value of the commodities donated under subparagraph (A) (or cash in lieu of commodities) to each State for each school year shall be, at a minimum, the amount obtained by multiplying the number of lunches and suppers served in participating institutions in that State during the preceding school year by the rate for commodities or cash in lieu of commodities established under section 1755(c) of this title for the school year concerned.

(C) After the end of each school year, the Secretary shall—

(i) reconcile the number of lunches and suppers served in participating institutions in each State during such school year with the number of lunches and suppers served by participating institutions in each State during the preceding school year; and

(ii) based on such reconciliation, increase or reduce subsequent commodity assistance or cash in lieu of commodities provided to each State.

(D) Any State receiving assistance under this section for institutions participating in the child care food program may, upon application to the Secretary, receive cash in lieu of some or all of the commodities to which it would otherwise be entitled under this subsection. In determining whether to request cash in lieu of commodities, the State shall base its decision on the preferences of individual participating institutions within the State, unless this proves impracticable due to the small number of institutions preferring donated commodities.

(2) The Secretary is authorized to provide agricultural commodities obtained by the Secretary under the provisions of the Agricultural Act of 1949 (7 U.S.C. 1421 et seq.) and donated

under the provisions of section 416 of such Act [7 U.S.C. 1431], to the Department of Defense for use by its institutions providing child care services, when such commodities are in excess of the quantities needed to meet the needs of all other child nutrition programs, domestic and foreign food assistance and export enhancement programs. The Secretary shall require reimbursement from the Department of Defense for the costs, or some portion thereof, of delivering such commodities to overseas locations, unless the Secretary determines that it is in the best interest of the program that the Department of Agriculture shall assume such costs.

(i) Audits

(1) Disregards

(A) In general

Subject to subparagraph (B), in conducting management evaluations, reviews, or audits under this section, the Secretary or a State agency may disregard any overpayment to an institution for a fiscal year if the total overpayment to the institution for the fiscal year does not exceed an amount that is consistent with the disregards allowed in other programs under this chapter and recognizes the cost of collecting small claims, as determined by the Secretary.

(B) Criminal or fraud violations

In carrying out this paragraph, the Secretary and a State agency shall not disregard any overpayment for which there is evidence of a violation of a criminal law or civil fraud law.

(2) Funding

The Secretary shall make available for each fiscal year to States administering the child care food program, for the purpose of conducting audits of participating institutions, an amount up to 1.5 percent (except, in the case of each of fiscal years 2005 through 2007, 1 percent) of the funds used by each State in the program under this section, during the second preceding fiscal year.

(j) Agreements

(1) In general

The Secretary may issue regulations directing States to develop and provide for the use of a standard form of agreement between each family or group day care sponsoring organization and the family or group day care homes participating in the program under such organization, for the purpose of specifying the rights and responsibilities of each party.

(2) Duration

An agreement under paragraph (1) shall remain in effect until terminated by either party to the agreement.

Expenditures of funds from State and local sources for the maintenance of food programs for children shall not be diminished as a result of funds received under this section.

(m) Accounts and records

States and institutions participating in the program under this section shall keep such accounts and records as may be necessary to enable the Secretary to determine whether there has been compliance with the requirements of this section. Such accounts and records shall be available at any reasonable time for inspection and audit by representatives of the Secretary, the Comptroller General of the United States, and appropriate State representatives and shall be preserved for such period of time, not in excess of five years, as the Secretary determines necessary.

(n) Authorization of appropriations

There are hereby authorized to be appropriated for each fiscal year such funds as are necessary to carry out the purposes of this section.

(o) Participation of older persons and chronically impaired disabled persons

(1) For purposes of this section, adult day care centers shall be considered eligible institutions for reimbursement for meals or supplements served to persons 60 years of age or older or to chronically impaired disabled persons, including victims of Alzheimer's disease and related disorders with neurological and organic brain dysfunction. Reimbursement provided to such institutions for such purposes shall improve the quality of meals or level of services provided or increase participation in the program. Lunches served by each such institution for which reimbursement is claimed under this section shall provide, on the average, approximately $\frac{1}{3}$ of the daily recommended dietary allowance established by the Food and Nutrition Board of the National Research Council of the National Academy of Sciences. Such institutions shall make reasonable efforts to serve meals that meet the special dietary requirements of participants, including efforts to serve foods in forms palatable to participants.

(2) For purposes of this subsection—

(3)(A) The Secretary, in consultation² with the Assistant Secretary for Aging, shall establish, within 6 months of October 1, 1988, separate guidelines for reimbursement of institutions described in this subsection. Such reimbursement shall take into account the nutritional requirements of eligible persons, as determined by the Secretary on the basis of tested nutritional research, except that such reimbursement shall not be less than would otherwise be required under this section.

§ 1772. Special program to encourage the consumption of fluid milk by children; authorization of appropriations; eligibility for special milk program; minimum rate of reimbursement; ineligibility of commodity only schools

(a)(1) There is hereby authorized to be appropriated for the fiscal year ending June 30, 1970, and for each succeeding fiscal year, such sums as may be necessary to enable the Secretary of Agriculture, under such rules and regulations as the Secretary may deem in the public interest, to encourage consumption of fluid milk by children in the United States in (A) nonprofit schools of high school grade and under, except as provided in paragraph (2), which do not participate in a meal service program authorized under this chapter or the Richard B. Russell National School Lunch Act [42 U.S.C. 1751 et seq.], and (B) nonprofit nursery schools, child-care centers, settlement houses, summer camps, and similar nonprofit institutions devoted to the

care and training of children, which do not participate in a meal service program authorized under this chapter or the Richard B. Russell National School Lunch Act.

(2) The limitation imposed under paragraph (1)(A) for participation of nonprofit schools in the special milk program shall not apply to split-session kindergarten programs conducted in schools in which children do not have access to the meal service program operating in schools the children attend as authorized under this chapter or the Richard B. Russell National School Lunch Act.

(3) For the purposes of this section "United States" means the fifty States, Guam, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, the Commonwealth of the Northern Mariana Islands, and the District of Columbia.

(4) The Secretary shall administer the special milk program provided for by this section to the maximum extent practicable in the same manner as the Secretary administered the special milk program provided for by this chapter during the fiscal year ending June 30, 1969.

(5) Any school or nonprofit child care institution which does not participate in a meal service program authorized under this chapter or the Richard B. Russell National School Lunch Act shall receive the special milk program upon its request.

(8) Such adjustment shall be computed to the nearest one-fourth cent.

(9) Notwithstanding any other provision of this section, in no event shall the minimum rate of reimbursement exceed the cost to the school or institution of milk served to children.

(10) The State educational agency shall disburse funds paid to the State during any fiscal year for purposes of carrying out the program under this section in accordance with such agreements approved by the Secretary as may be entered into by such State agency and the schools in the State. § 1773. School breakfast program

(a) Establishment; authorization of appropriations

There is hereby authorized to be appropriated such sums as are necessary to enable the Secretary to carry out a program to assist the States and the Department of Defense through grants-in-aid and other means to initiate, maintain, or expand nonprofit breakfast programs in all schools which make application for assistance and agree to carry out a nonprofit breakfast program in accordance with this chapter. Appropriations and expenditures for this chapter shall be considered Health and Human Services functions for budget purposes rather than functions of Agriculture.

(b) Breakfast assistance payments to State educational agencies; calculation; national average payments for breakfasts, free breakfasts and reduced price breakfasts; maximum price for reduced cost breakfasts; minimum daily nutrition requirements criteria; additional payments for severe need schools; maximum severe need payments

(1)(A)(i) The Secretary shall make breakfast assistance payments to each State educational agency each fiscal year, at such times as the Secretary may determine, from the sums appropriated for such purpose, in an amount equal to the product obtained by multiplying—

(I) the number of breakfasts served during such fiscal year to children in schools in such States which participate in the school breakfast program under agreements with such State educational agency; by

(II) the national average breakfast payment for free breakfasts, for reduced price breakfasts, or for breakfasts served to children not eligible for free or reduced price meals, as appropriate, as prescribed in clause (B) of this paragraph.

(ii) The agreements described in clause (i)(I) shall be permanent agreements that may be amended as necessary. Nothing in the preceding sentence shall be construed to limit the ability of the State educational agency to suspend or terminate any such agreement in accordance with regulations prescribed by the Secretary.

(B) The national average payment for each free breakfast shall be 57 cents (as adjusted pursuant to section 1759a(a) of this title). The national average payment for each reduced price breakfast shall be one-half of the national average payment for each free breakfast, except that in no case shall the difference between the amount of the national average payment for a free breakfast and the national average payment for a reduced price breakfast exceed 30 cents. The national average payment for each breakfast served to a child not eligible for free or reduced price meals shall be 8.25 cents (as adjusted pursuant to section 1759a(a) of this title).

(C) No school which receives breakfast assistance payments under this section may charge a price of more than 30 cents for a reduced price breakfast.

(D) No breakfast assistance payment may be made under this subsection for any breakfast served by a school unless such breakfast consists

of a combination of foods which meet the minimum nutritional requirements prescribed by the Secretary under subsection (e) of this section.

(E) FREE AND REDUCED PRICE POLICY STATEMENT.—After the initial submission, a local educational agency shall not be required to submit a free and reduced price policy statement to a State educational agency under this chapter unless there is a substantive change in the free and reduced price policy of the local educational agency. A routine change in the policy of a local educational agency, such as an annual adjustment of the income eligibility guidelines for free and reduced price meals, shall not be sufficient cause for requiring the local educational agency to submit a policy statement.

(2)(A) The Secretary shall make additional payments for breakfasts served to children qualifying for a free or reduced price meal at schools that are in severe need.

(B) The maximum payment for each such free breakfast shall be the higher of—

(i) the national average payment established by the Secretary for free breakfasts plus 10 cents, or

(ii) 45 cents (as adjusted pursuant to section 1759a(a)(3)(B) of this title).

(C) The maximum payment for each such reduced price breakfast shall be thirty cents less than the maximum payment for each free breakfast as determined under clause (B) of this paragraph.

(3) The Secretary shall increase by 6 cents the annually adjusted payment for each breakfast served under this chapter and section 1766 of this title. These funds shall be used to assist States, to the extent feasible, in improving the nutritional quality of the breakfasts.

(4) Notwithstanding any other provision of law, whenever stocks of agricultural commodities are acquired by the Secretary or the Commodity Credit Corporation and are not likely to be sold by the Secretary or the Commodity Credit Corporation or otherwise used in programs of commodity sale or distribution, the Secretary shall make such commodities available to school food authorities and eligible institutions serving breakfasts under this chapter in a quantity equal in value to not less than 3 cents for each breakfast served under this chapter and section 1766 of this title.

(5) Expenditures of funds from State and local sources for the maintenance of the breakfast program shall not be diminished as a result of funds or commodities received under paragraph (3) or (4).

(c) Disbursement of apportioned funds by State; preference for schools in poor economic areas, for students traveling long distances daily, and for schools for improvement of nutrition and dietary practices of children of working mothers and from low-income families

Funds apportioned and paid to any State for the purpose of this section shall be disbursed by the State educational agency to schools selected by the State educational agency to assist such schools in operating a breakfast program and for the purpose of subsection (d) of this section. Disbursement to schools shall be made at such

rates per meal or on such other basis as the Secretary shall prescribe. In selecting schools for participation, the State educational agency shall, to the extent practicable, give first consideration to those schools drawing attendance from areas in which poor economic conditions exist, to those schools in which a substantial proportion of the children enrolled must travel long distances daily, and to those schools in which there is a special need for improving the nutrition and dietary practices of children of working mothers and children from low-income families. § 1776. State administrative expenses

(a) Amount and allocation of funds

(1) Amount available

(A) In general

Except as provided in subparagraph (B), each fiscal year, the Secretary shall make available to the States for their administrative costs an amount equal to not less than 1½ percent of the Federal funds expended under sections 4, 11, and 17 of the Richard B. Russell National School Lunch Act [42 U.S.C. 1753, 1759a, 1766] and 1772 and 1773 of this title during the second preceding fiscal year.

(B) Minimum amount

In the case of each of fiscal years 2005 through 2007, the Secretary shall make available to each State for administrative costs not less than the initial allocation made to the State under this subsection for fiscal year 2004.

(C) Allocation

The Secretary shall allocate the funds so provided in accordance with paragraphs (2), (3), and (4) of this subsection.

(2) Expense grants

(A) In general

Subject to subparagraph (B), the Secretary shall allocate to each State for administrative costs incurred in any fiscal year in connection with the programs authorized under the Richard B. Russell National School Lunch Act [42 U.S.C. 1751 et seq.] or under this chapter, except for the programs authorized under section 13 or 17 of the Richard B. Russell National School Lunch Act [42 U.S.C. 1761, 1766] or under section 1786 of this title, an amount equal to not less than 1 percent and not more than 1½ percent of the funds expended by each State under sections 4 and 11 of the Richard B. Russell National School Lunch Act [42 U.S.C. 1753, 1759a] and sections 1772 and 1773 of this title during the second preceding fiscal year.

(B) Minimum amount

(i) In general

In no case shall the grant available to any State under this paragraph be less than the amount such State was allocated in the fiscal year ending September 30, 1981, or \$200,000 (as adjusted under clause (ii)),¹ whichever is larger.

¹ So in original. Probably should be preceded by an additional closing parenthesis.

(ii) Adjustment

On October 1, 2008, and each October 1 thereafter, the minimum dollar amount for a fiscal year specified in clause (i) shall be adjusted to reflect the percentage change between—

(I) the value of the index for State and local government purchases, as published by the Bureau of Economic Analysis of the Department of Commerce, for the 12-month period ending June 30 of the second preceding fiscal year; and

(II) the value of that index for the 12-month period ending June 30 of the preceding fiscal year.

(3) The Secretary shall allocate to each State for its administrative costs incurred under the program authorized by section 17 of the Richard B. Russell National School Lunch Act [42 U.S.C. 1766] in any fiscal year an amount, based upon funds expended under that program in the second preceding fiscal year, equal to (A) 20 percent of the first \$50,000, (B) 10 percent of the next \$100,000, (C) 5 percent of the next \$250,000, and (D) 2½ percent of any remaining funds. If an agency in the State other than the State educational agency administers such program, the State shall ensure that an amount equal to no less than the funds due the State under this paragraph is provided to such agency for costs incurred by such agency in administering the program, except as provided in paragraph (5). The Secretary may adjust any State's allocation to reflect changes in the size of its program.

(4) The remaining funds appropriated under this section shall be allocated among the States by the Secretary in amounts the Secretary determines necessary for the improvement in the States of the administration of the programs authorized under the Richard B. Russell National School Lunch Act [42 U.S.C. 1751 et seq.] and this chapter, except for section 1786 of this title, including, but not limited to, improved program integrity and the quality of meals served to children.

(5)(A) Not more than 25 percent of the amounts made available to each State under this section for the fiscal year 1991 and 20 percent of the amounts made available to each State under this section for the fiscal year 1992 and for each succeeding fiscal year may remain available for obligation or expenditure in the fiscal year succeeding the fiscal year for which such amounts were appropriated.

(B) REALLOCATION OF FUNDS.—

(i) RETURN TO SECRETARY.—For each fiscal year, any amounts appropriated that are not obligated or expended during the fiscal year and are not carried over for the succeeding fiscal year under subparagraph (A) shall be returned to the Secretary.

(ii) REALLOCATION BY SECRETARY.—The Secretary shall allocate, for purposes of administrative costs, any remaining amounts among States that demonstrate a need for the amounts.

(6) USE OF ADMINISTRATIVE FUNDS.—Funds available to a State under this subsection and under section 13(k)(1) of the Richard B. Russell National School Lunch Act (42 U.S.C. 1761(k)(1))

may be used by the State for the costs of administration of the programs authorized under this chapter (except for the programs authorized under sections 1786 and 1790 of this title) and the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.) without regard to the basis on which the funds were earned and allocated.

(7) Where the Secretary is responsible for the administration of programs under this chapter or the Richard B. Russell National School Lunch Act [42 U.S.C. 1751 et seq.], the amount of funds that would be allocated to the State agency under this section and under section 13(k)(1) of the Richard B. Russell National School Lunch Act [42 U.S.C. 1761(k)(1)] shall be retained by the Secretary for the Secretary's use in the administration of such programs.

(8) In the fiscal year 1991 and each succeeding fiscal year, in accordance with regulations issued by the Secretary, each State shall ensure that the State agency administering the distribution of commodities under programs authorized under this chapter and under the Richard B. Russell National School Lunch Act [42 U.S.C. 1751 et seq.] is provided, from funds made available to the State under this subsection, an appropriate amount of funds for administrative costs incurred in distributing such commodities. In developing such regulations, the Secretary may consider the value of commodities provided to the State under this chapter and under the Richard B. Russell National School Lunch Act.

(9)(A) If the Secretary determines that the administration of any program by a State under this chapter (other than section 1786 of this title) or under the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.) (including any requirement to provide sufficient training, technical assistance, and monitoring of the child and adult care food program under section 17 of that Act (42 U.S.C. 1766)), or compliance with a regulation issued pursuant to either this chapter or such Act, is seriously deficient, and the State fails to correct the deficiency within a specified period of time, the Secretary may withhold from the State some or all of the funds allocated to the State under this section or under section 13(k)(1) or 17 of the Richard B. Russell National School Lunch Act (42 U.S.C. 1761(k)(1) or 1766).

(B) On a subsequent determination by the Secretary that the administration of any program referred to in subparagraph (A), or compliance with the regulations issued to carry out the program, is no longer seriously deficient and is operated in an acceptable manner, the Secretary may allocate some or all of the funds withheld under such subparagraph.

(b) Funds, usage: compensation, benefits, and travel expenses of personnel; support services; office equipment; staff development

Funds paid to a State under subsection (a) of this section may be used to pay salaries, including employee benefits and travel expenses, for administrative and supervisory personnel; for support services; for office equipment; and for staff development.

(c) Fund adjustment; State administered programs

If any State agency agrees to assume responsibility for the administration of food service programs in nonprofit private schools or child care institutions that were previously administered by the Secretary, an appropriate adjustment shall be made in the administrative funds paid under this section to the State not later than the succeeding fiscal year.

(d) Unused funds; availability for obligation and expenditure, and reallocation to other States

Notwithstanding any other provision of law, funds made available to each State under this section shall remain available for obligation and expenditure by that State during the fiscal year immediately following the fiscal year for which such funds were made available. For each fiscal year the Secretary shall establish a date by which each State shall submit to the Secretary a plan for the disbursement of funds provided under this section for each such year, and the Secretary shall reallocate any unused funds, as evidenced by such plans, to other States as the Secretary considers appropriate.

(e) Plans for use of administrative expense funds

(1) In general

Each State shall submit to the Secretary for approval by October 1 of the initial fiscal year a plan for the use of State administrative expense funds, including a staff formula for State personnel, system level supervisory and operating personnel, and school level personnel.

(f) State funding requirement

Payments of funds under this section shall be made only to States that agree to maintain a level of funding out of State revenues, for administrative costs in connection with programs under this chapter (except section 1786 of this title) and the Richard B. Russell National School Lunch Act [42 U.S.C. 1751 et seq.] (except section 13 of that Act [42 U.S.C. 1761]), not less than the amount expended or obligated in fiscal year 1977, and that agree to participate fully in any studies authorized by the Secretary.

(g) State training**(1) In general**

At least annually, each State shall provide training in administrative practices (including training in application, certification, verification, meal counting, and meal claiming procedures) to local educational agency and school food authority administrative personnel and other appropriate personnel, with emphasis on the requirements established by the Child Nutrition and WIC Reauthorization Act of 2004 and the amendments made by that Act.

(2) Federal role

The Secretary shall—

Except as provided in subparagraph (B), the Secretary shall use funds provided under this subsection to assist States in carrying out subsection (g) of this section and administrative reviews of selected local educational agencies carried out under section 22 of the Richard B. Russell National School Lunch Act (42 U.S.C. 1769c).

(B) Exception

The Secretary may retain a portion of the amount provided to cover costs of activities carried out by the Secretary in lieu of the State.

(3) Allocation

The Secretary shall allocate funds provided under this subsection to States based on the number of local educational agencies that have demonstrated a high level of, or a high risk for, administrative error, as determined by the Secretary, taking into account the requirements established by the Child Nutrition and WIC Reauthorization Act of 2004 and the amendments made by that Act.

(4) Reallocation

(3) Technology infrastructure grants**(A) In general**

Subject to the availability of funds made available under paragraph (4) to carry out this paragraph, the Secretary shall, on a competitive basis, provide funds to States to be used to provide grants to local educational agencies, school food authorities, and schools to defray the cost of purchasing or upgrading technology and information management systems for use in programs authorized by this chapter (other than section 1786 of this title) and the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.).

(B) Infrastructure development plan

To be eligible to receive a grant under this paragraph, a school or school food authority

§ 1786. Special supplemental nutrition program for women, infants, and children

(a) Congressional findings and declaration of purpose

Congress finds that substantial numbers of pregnant, postpartum, and breastfeeding women, infants, and young children from families with inadequate income are at special risk with respect to their physical and mental health by reason of inadequate nutrition or health care, or both. It is, therefore, the purpose of the program authorized by this section to provide, up to the authorization levels set forth in subsection (g) of this section, supplemental foods and nutrition education through any eligible local agency that applies for participation in the program. The program shall serve as an adjunct to good health care, during critical times of growth and development, to prevent the occurrence of health problems, including drug abuse, and improve the health status of these persons.

(b) Definitions

As used in this section—

(1) “Breastfeeding women” means women up to one year postpartum who are breastfeeding their infants.

(2) “Children” means persons who have had their first birthday but have not yet attained their fifth birthday.

(3) “Competent professional authority” means physicians, nutritionists, registered nurses, dietitians, or State or local medically trained health officials, or persons designated by physicians or State or local medically trained health officials, in accordance with standards prescribed by the Secretary, as being competent professionally to evaluate nutritional risk.

(4) “Costs of nutrition services and administration” or “nutrition services and administration” means costs that shall include, but

not be limited to, costs for certification of eligibility of persons for participation in the program (including centrifuges, measuring boards, spectrophotometers, and scales used for the certification), food delivery, monitoring, nutrition education, outreach, startup costs, and general administration applicable to implementation of the program under this section, such as the cost of staff, transportation, insurance, developing and printing food instruments, and administration of State and local agency offices.

(5) "Infants" means persons under one year of age.

(6) "Local agency" means a public health or welfare agency or a private nonprofit health or welfare agency, which, directly or through an agency or physician with which it has contracted, provides health services. The term shall include an Indian tribe, band, or group recognized by the Department of the Interior, the Indian Health Service of the Department of Health and Human Services, or an intertribal council or group that is an authorized representative of Indian tribes, bands, or groups recognized by the Department of the Interior.

(7) NUTRITION EDUCATION.—The term "nutrition education" means individual and group sessions and the provision of material that are designed to improve health status and achieve positive change in dietary and physical activity habits, and that emphasize the relationship between nutrition, physical activity, and health, all in keeping with the personal and cultural preferences of the individual.

(8) "Nutritional risk" means (A) detrimental or abnormal nutritional conditions detectable by biochemical or anthropometric measurements, (B) other documented nutritionally related medical conditions, (C) dietary deficiencies that impair or endanger health, (D) conditions that directly affect the nutritional health of a person, such as alcoholism or drug abuse, or (E) conditions that predispose persons to inadequate nutritional patterns or nutritionally related medical conditions, including, but not limited to, homelessness and migrancy.

(9) "Plan of operation and administration" means a document that describes the manner in which the State agency intends to implement and operate the program.

(10) "Postpartum women" means women up to six months after termination of pregnancy.

(14) "Supplemental foods" means those foods containing nutrients determined by nutritional research to be lacking in the diets of

pregnant, breastfeeding, and postpartum women, infants, and children and foods that promote the health of the population served by the program authorized by this section, as indicated by relevant nutrition science, public health concerns, and cultural eating patterns, as prescribed by the Secretary. State agencies may, with the approval of the Secretary, substitute different foods providing the nutritional equivalent of foods prescribed by the Secretary, to allow for different cultural eating patterns.

(15) "Homeless individual" means—

(A) an individual who lacks a fixed and regular nighttime residence; or

(B) an individual whose primary nighttime residence is—

(17) "Competitive bidding" means a procurement process under which the Secretary or a State agency selects a single source (a single infant formula manufacturer) offering the lowest price, as determined by the submission of sealed bids, for a product for which bids are sought for use in the program authorized by this section.

(18) "Rebate" means the amount of money refunded under cost containment procedures to any State agency from the manufacturer or other supplier of the particular food product as the result of the purchase of the supplemental food with a voucher or other purchase instrument by a participant in each such agency's program established under this section.

(19) "Discount" means, with respect to a State agency that provides program foods to participants without the use of retail grocery stores (such as a State that provides for the home delivery or direct distribution of supplemental food), the amount of the price reduction or other price concession provided to any State agency by the manufacturer or other supplier of the particular food product as the result of the purchase of program food by each such State agency, or its representative, from the supplier.

(20) "Net price" means the difference between the manufacturer's wholesale price for infant formula and the rebate level or the discount offered or provided by the manufacturer under a cost containment contract entered into with the pertinent State agency.

(21) REMOTE INDIAN OR NATIVE VILLAGE.—The term “remote Indian or Native village” means an Indian or Native village that—

- (A) is located in a rural area;

(c) Grants-in-aid; cash grants; ratable reduction of amount an agency may distribute; affirmative action; regulations relating to dual receipt of benefits under commodity supplemental food program

(1) The Secretary may carry out a special supplemental nutrition program to assist State agencies through grants-in-aid and other means to provide, through local agencies, at no cost, supplemental foods and nutrition education to low-income pregnant, postpartum, and breastfeeding women, infants, and children who satisfy the eligibility requirements specified in subsection (d) of this section. The program shall be supplementary to—

- (A) the supplemental nutrition assistance program;
- (B) any program under which foods are distributed to needy families in lieu of supplemental nutrition assistance program benefits; and
- (C) receipt of food or meals from soup kitchens, or shelters, or other forms of emergency food assistance.

(2) Subject to amounts appropriated to carry out this section under subsection (g) of this section—

- (A) the Secretary shall make cash grants to State agencies for the purpose of administering the program, and
- (B) any State agency approved eligible local agency that applies to participate in or expand the program under this section shall immediately be provided with the necessary funds to carry out the program.

(3) Nothing in this subsection shall be construed to permit the Secretary to reduce ratable the amount of foods that an eligible local agency shall distribute under the program to participants. The Secretary shall take affirmative action to ensure that the program is instituted in areas most in need of supplemental foods. The existence of a commodity supplemental food program under section 4 of the Agriculture and Consumer Protection Act of 1973 shall not preclude the approval of an application from an eligible local agency to participate in the program under this section nor the operation of such pro-

gram within the same geographic area as that of the commodity supplemental food program, but the Secretary shall issue such regulations as are necessary to prevent dual receipt of benefits under the commodity supplemental food program and the program under this section.

(4) A State shall be ineligible to participate in programs authorized under this section if the Secretary determines that State or local sales taxes are collected within the State on purchases of food made to carry out this section.

(d) Eligible participants

(1) Participation in the program under this section shall be limited to pregnant, postpartum, and breastfeeding women, infants, and children from low-income families who are determined by a competent professional authority to be at nutritional risk.

(2)(A) The Secretary shall establish income eligibility standards to be used in conjunction with the nutritional risk criteria in determining eligibility of individuals for participation in the program. Any individual at nutritional risk shall be eligible for the program under this section only if such individual—

- (i) is a member of a family with an income that is less than the maximum income limit prescribed under section 1758(b) of this title for free and reduced price meals;
- (ii)(I) receives supplemental nutrition assistance program benefits under the Food and Nutrition Act of 2008 [7 U.S.C. 2011 et seq.]; or
- (II) is a member of a family that receives assistance under the State program funded under part A of title IV of the Social Security Act [42 U.S.C. 601 et seq.] that the Secretary determines complies with standards established by the Secretary that ensure that the standards under the State program are comparable to or more restrictive than those in effect on June 1, 1995; or
- (iii)(I) receives medical assistance under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.]; or
- (II) is a member of a family in which a pregnant woman or an infant receives such assistance.

(B) For the purpose of determining income eligibility under this section, any State agency may choose to exclude from income—

- (i) any basic allowance—
 - (I) for housing received by military service personnel residing off military installations; or
 - (II) provided under section 403 of title 37 for housing that is acquired or constructed under subchapter IV of chapter 169 of title 10 or any related provision of law; and
- (ii) any cost-of-living allowance provided under section 405 of title 37 to a member of a uniformed service who is on duty outside the contiguous States of the United States.

(C) In the case of a pregnant woman who is otherwise ineligible for participation in the program because the family of the woman is of insufficient size to meet the income eligibility standards of the program, the pregnant woman shall be considered to have satisfied the income eligibility standards if, by increasing the num-

ber of individuals in the family of the woman by 1 individual, the income eligibility standards would be met.

(3) CERTIFICATION.—

(A) PROCEDURES.—

(i) IN GENERAL.—Subject to clause (ii), a person shall be certified for participation in accordance with general procedures prescribed by the Secretary.

(ii) BREASTFEEDING WOMEN.—A State may elect to certify a breastfeeding woman for a period of 1 year postpartum or until a woman discontinues breastfeeding, whichever is earlier.

(B) A State may consider pregnant women who meet the income eligibility standards to be presumptively eligible to participate in the program and may certify the women for participation immediately, without delaying certification until an evaluation is made concerning nutritional risk. A nutritional risk evaluation of such a woman shall be completed not later than 60 days after the woman is certified for participation. If it is subsequently determined that the woman does not meet nutritional risk criteria, the certification of the woman shall terminate on the date of the determination.

(C) PHYSICAL PRESENCE.—

(i) IN GENERAL.—Except as provided in clause (ii) and subject to the requirements of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and section 794 of title 29, each individual seeking certification or recertification for participation in the program shall be physically present at each certification or recertification determination in order to determine eligibility under the program.

(ii) WAIVERS.—If the agency determines that the requirement of clause (i) would present an unreasonable barrier to participation, a local agency may waive the requirement of clause (i) with respect to—

(I) an infant or child who—

(aa) was present at the initial certification visit; and

(bb) is receiving ongoing health care;

(II) an infant or child who—

(aa) was present at the initial certification visit;

(bb) was present at a certification or recertification determination within the 1-year period ending on the date of the certification or recertification determination described in clause (i); and

(cc) has one or more parents who work; and

(III) an infant under 8 weeks of age—

(aa) who cannot be present at certification for a reason determined appropriate by the local agency; and

(bb) for whom all necessary certification information is provided.

(D) INCOME DOCUMENTATION.—

(i) IN GENERAL.—Except as provided in clause (ii), in order to participate in the program pursuant to clause (i) of paragraph (2)(A), an individual seeking certification or recertification for participation in the program shall provide documentation of family income.

(ii) WAIVERS.—A State agency may waive the documentation requirement of clause (i), in accordance with criteria established by the Secretary, with respect to—

(I) an individual for whom the necessary documentation is not available; or

(II) an individual, such as a homeless woman or child, for whom the agency determines the requirement of clause (i) would present an unreasonable barrier to participation.

(E) ADJUNCT DOCUMENTATION.—In order to participate in the program pursuant to clause (ii) or (iii) of paragraph (2)(A), an individual seeking certification or recertification for participation in the program shall provide documentation of receipt of assistance described in that clause.

(F) PROOF OF RESIDENCY.—An individual residing in a remote Indian or Native village or an individual served by an Indian tribal organization and residing on a reservation or pueblo may, under standards established by the Secretary, establish proof of residency under this section by providing to the State agency the mailing address of the individual and the name of the remote Indian or Native village.

(e) Nutrition education and drug abuse education

(1) The State agency shall ensure that nutrition education and drug abuse education is provided to all pregnant, postpartum, and breastfeeding participants in the program and to parents or caretakers of infant and child participants in the program. The State agency may also provide nutrition education and drug abuse education to pregnant, postpartum, and breastfeeding women and to parents or caretakers of infants and children enrolled at local agencies operating the program under this section who do not participate in the program. A local agency participating in the program shall provide education or educational materials relating to the effects of drug and alcohol use by a pregnant, postpartum, or breastfeeding woman on the developing child of the woman.

(2) The Secretary shall prescribe standards to ensure that adequate nutrition education services and breastfeeding promotion and support are provided. The State agency shall provide training to persons providing nutrition education under this section.

(3) NUTRITION EDUCATION MATERIALS.—

(A) IN GENERAL.—The Secretary shall, after submitting proposed nutrition education materials to the Secretary of Health and Human Services for comment, issue such materials for use in the program under this section.

(B) SHARING OF MATERIALS.—The Secretary may provide, in bulk quantity, nutrition education materials (including materials promoting breastfeeding) developed with funds made available for the program authorized under this section to State agencies administering the commodity supplemental food program authorized under sections 4(a) and 5 of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c note; Public Law 93-86) at no cost to that program.

(4) The State agency—

(A) shall provide each local agency with materials showing the maximum income limits, according to family size, applicable to pregnant women, infants, and children up to age 5 under the medical assistance program established under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.] (in this section referred to as the "medicaid program");

(B) shall provide to individuals applying for the program under this section, or reapplying at the end of their certification period, written information about the medicaid program and referral to such program or to agencies authorized to determine presumptive eligibility for such program, if such individuals are not participating in such program and appear to have family income below the applicable maximum income limits for such program; and

(C) may provide a local agency with materials describing other programs for which a participant in the program may be eligible.

(5) Each local agency shall maintain and make available for distribution a list of local resources for substance abuse counseling and treatment.

(f) Plan of operation and administration by State agency

(1)(A) Each State agency shall submit to the Secretary, by a date specified by the Secretary, an initial plan of operation and administration for a fiscal year. After submitting the initial plan, a State shall be required to submit to the Secretary for approval only a substantive change in the plan.

(B) To be eligible to receive funds under this section for a fiscal year, a State agency must receive the approval of the Secretary for the plan submitted for the fiscal year.

(C) The plan shall include—

(i) a description of the food delivery system of the State agency and the method of enabling participants to receive supplemental foods under the program at any of the authorized retail stores under the program, to be administered in accordance with standards developed by the Secretary, including a description of the State agency's vendor peer group system, competitive price criteria, and allowable reimbursement levels that demonstrate that the State is in compliance with the cost-containment provisions in subsection (h)(11) of this section;

(ii) procedures for accepting and processing vendor applications outside of the established timeframes if the State agency determines there will be inadequate access to the program, including in a case in which a previously authorized vendor sells a store under circumstances that do not permit timely notification to the State agency of the change in ownership;

(iii) a description of the financial management system of the State agency;

(iv) a plan to coordinate operations under the program with other services or programs that may benefit participants in, and applicants for, the program;

(v) a plan to provide program benefits under this section to, and to meet the special nutri-

tion education needs of, eligible migrants, homeless individuals, and Indians;

(vi) a plan to expend funds to carry out the program during the relevant fiscal year;

(vii) a plan to provide program benefits under this section to unserved and underserved areas in the State (including a plan to improve access to the program for participants and prospective applicants who are employed, or who reside in rural areas), if sufficient funds are available to carry out this clause;

(viii) a plan for reaching and enrolling eligible women in the early months of pregnancy, including provisions to reach and enroll eligible migrants;

(ix) a plan to provide program benefits under this section to unserved infants and children under the care of foster parents, protective services, or child welfare authorities, including infants exposed to drugs perinatally;

(x) a plan to provide nutrition education and promote breastfeeding; and

(xi) such other information as the Secretary may reasonably require.

(D) The Secretary may not approve any plan that permits a person to participate simultaneously in both the program authorized under this section and the commodity supplemental food program authorized under sections 4 and 5 of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c note).

(2) A State agency shall establish a procedure under which members of the general public are provided an opportunity to comment on the development of the State agency plan.

(3) The Secretary shall establish procedures under which eligible migrants may, to the maximum extent feasible, continue to participate in the program under this section when they are present in States other than the State in which they were originally certified for participation in the program and shall ensure that local programs provide priority consideration to serving migrant participants who are residing in the State for a limited period of time. Each State agency shall be responsible for administering the program for migrant populations within its jurisdiction.

(4) State agencies shall submit monthly financial reports and participation data to the Secretary.

(5) State and local agencies operating under the program shall keep such accounts and records, including medical records, as may be necessary to enable the Secretary to determine whether there has been compliance with this section and to determine and evaluate the benefits of the nutritional assistance provided under this section. Such accounts and records shall be available at any reasonable time for inspection and audit by representatives of the Secretary and shall be preserved for such period of time, not in excess of five years, as the Secretary determines necessary.

(6)(A) Local agencies participating in the program under this section shall notify persons of their eligibility or ineligibility for the program within twenty days of the date that the household, during office hours of a local agency, personally makes an oral or written request to par-

ticipate in the program. The Secretary shall establish a shorter notification period for categories of persons who, due to special nutritional risk conditions, must receive benefits more expeditiously.

(B) State agencies may provide for the delivery of vouchers to any participant who is not scheduled for nutrition education counseling or a recertification interview through means, such as mailing, that do not require the participant to travel to the local agency to obtain vouchers. The State agency shall describe any plans for issuance of vouchers by mail in its plan submitted under paragraph (1). The Secretary may disapprove a State plan with respect to the issuance of vouchers by mail in any specified jurisdiction or part of a jurisdiction within a State only if the Secretary finds that such issuance would pose a significant threat to the integrity of the program under this section in such jurisdiction or part of a jurisdiction.

(7)(A) The State agency shall, in cooperation with participating local agencies, publicly announce and distribute information on the availability of program benefits (including the eligibility criteria for participation and the location of local agencies operating the program) to offices and organizations that deal with significant numbers of potentially eligible individuals (including health and medical organizations, hospitals and clinics, welfare and unemployment offices, social service agencies, farmworker organizations, Indian tribal organizations, organizations and agencies serving homeless individuals and shelters for victims of domestic violence, and religious and community organizations in low income areas).

(B) The information shall be publicly announced by the State agency and by local agencies at least annually.

(C) The State agency and local agencies shall distribute the information in a manner designed to provide the information to potentially eligible individuals who are most in need of the benefits, including pregnant women in the early months of pregnancy.

(D) Each local agency operating the program within a hospital and each local agency operating the program that has a cooperative arrangement with a hospital shall—

(i) advise potentially eligible individuals that receive inpatient or outpatient prenatal, maternity, or postpartum services, or accompany a child under the age of 5 who receives well-child services, of the availability of program benefits; and

(ii) to the extent feasible, provide an opportunity for individuals who may be eligible to be certified within the hospital for participation in such program.

(8)(A) The State agency shall grant a fair hearing, and a prompt determination thereafter, in accordance with regulations issued by the Secretary, to any applicant, participant, or local agency aggrieved by the action of a State or local agency as it affects participation.

(B) Any State agency that must suspend or terminate benefits to any participant during the participant's certification period due to a shortage of funds for the program shall first issue a notice to such participant.

(9) If an individual certified as eligible for participation in the program under this section in one area moves to another area in which the program is operating, that individual's certification of eligibility shall remain valid for the period for which the individual was originally certified.

(10) The Secretary shall establish standards for the proper, efficient, and effective administration of the program. If the Secretary determines that a State agency has failed without good cause to administer the program in a manner consistent with this section or to implement the approved plan of operation and administration under this subsection, the Secretary may withhold such amounts of the State agency's funds for nutrition services and administration as the Secretary deems appropriate. Upon correction of such failure during a fiscal year by a State agency, any funds so withheld for such fiscal year shall be provided the State agency.

(11) SUPPLEMENTAL FOODS.—

(A) IN GENERAL.—The Secretary shall prescribe by regulation the supplemental foods to be made available in the program under this section.

(B) APPROPRIATE CONTENT.—To the degree possible, the Secretary shall assure that the fat, sugar, and salt content of the prescribed foods is appropriate.

(C) ALLOWABLE USE OF FUNDS.—Subject to the availability of funds, the Secretary shall award grants to not more than 10 local sites determined by the Secretary to be geographically and culturally representative of State, local, and Indian agencies, to evaluate the feasibility of including fresh, frozen, or canned fruits and vegetables (to be made available through private funds) as an addition to the supplemental foods prescribed under this section.

(D) REVIEW OF AVAILABLE SUPPLEMENTAL FOODS.—As frequently as determined by the Secretary to be necessary to reflect the most recent scientific knowledge, the Secretary shall—

(i) conduct a scientific review of the supplemental foods available under the program; and

(ii) amend the supplemental foods available, as necessary, to reflect nutrition science, public health concerns, and cultural eating patterns.

(12) A competent professional authority shall be responsible for prescribing the appropriate supplemental foods, taking into account medical and nutritional conditions and cultural eating patterns, and, in the case of homeless individuals, the special needs and problems of such individuals.

(13) The State agency may (A) provide nutrition education, breastfeeding promotion, and drug abuse education materials and instruction in languages other than English and (B) use appropriate foreign language materials in the administration of the program, in areas in which a substantial number of low-income households speak a language other than English.

(14) If a State agency determines that a member of a family has received an overissuance of food benefits under the program authorized by

this section as the result of such member intentionally making a false or misleading statement or intentionally misrepresenting, concealing, or withholding facts, the State agency shall recover, in cash, from such member an amount that the State agency determines is equal to the value of the overissued food benefits, unless the State agency determines that the recovery of the benefits would not be cost effective.

(15) To be eligible to participate in the program authorized by this section, a manufacturer of infant formula that supplies formula for the program shall—

(A) register with the Secretary of Health and Human Services under the Federal Food, Drug, and Cosmetic Act [21 U.S.C. 301 et seq.]; and

(B) before bidding for a State contract to supply infant formula for the program, certify with the State health department that the formula complies with such Act and regulations issued pursuant to such Act.

(16) The State agency may adopt methods of delivering benefits to accommodate the special needs and problems of homeless individuals.

(17) Notwithstanding subsection (d)(2)(A)(i) of this section, not later than July 1 of each year, a State agency may implement income eligibility guidelines under this section concurrently with the implementation of income eligibility guidelines under the medicaid program established under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.).

(18) Each local agency participating in the program under this section may provide information about other potential sources of food assistance in the local area to individuals who apply in person to participate in the program under this section, but who cannot be served because the program is operating at capacity in the local area.

(19) The State agency shall adopt policies that—

(A) require each local agency to attempt to contact each pregnant woman who misses an appointment to apply for participation in the program under this section, in order to reschedule the appointment, unless the phone number and the address of the woman are unavailable to such local agency; and

(B) in the case of local agencies that do not routinely schedule appointments for individuals seeking to apply or be recertified for participation in the program under this section, require each such local agency to schedule appointments for each employed individual seeking to apply or be recertified for participation in such program so as to minimize the time each such individual is absent from the workplace due to such application or request for recertification.

(20) Each State agency shall conduct monitoring reviews of each local agency at least biennially.

(21) USE OF CLAIMS FROM LOCAL AGENCIES, VENDORS, AND PARTICIPANTS.—A State agency may use funds recovered from local agencies, vendors, and participants, as a result of a claim arising under the program, to carry out the program during—

(A) the fiscal year in which the claim arises;

(B) the fiscal year in which the funds are collected; and

(C) the fiscal year following the fiscal year in which the funds are collected.

(22) The Secretary and the Secretary of Health and Human Services shall carry out an initiative to assure that, in a case in which a State medicaid program uses coordinated care providers under a contract entered into under section 1903(m), or a waiver granted under section 1915(b), of the Social Security Act (42 U.S.C. 1396b(m) or 1396n(b)), coordination between the program authorized by this section and the medicaid program is continued, including—

(A) the referral of potentially eligible women, infants, and children between the 2 programs; and

(B) the timely provision of medical information related to the program authorized by this section to agencies carrying out the program.

(23) INDIVIDUALS PARTICIPATING AT MORE THAN ONE SITE.—Each State agency shall implement a system designed by the State agency to identify individuals who are participating at more than one site under the program.

(24) HIGH RISK VENDORS.—Each State agency shall—

(A) identify vendors that have a high probability of program abuse; and

(B) conduct compliance investigations of the vendors.

(25) INFANT FORMULA BENEFITS.—A State agency may round up to the next whole can of infant formula to allow all participants under the program to receive the full-authorized nutritional benefit specified by regulation.

(26) NOTIFICATION OF VIOLATIONS.—If a State agency finds that a vendor has committed a violation that requires a pattern of occurrences in order to impose a penalty or sanction, the State agency shall notify the vendor of the initial violation in writing prior to documentation of another violation, unless the State agency determines that notifying the vendor would compromise an investigation.

(g) Authorization of appropriations

(1) IN GENERAL.—

(A) AUTHORIZATION.—There are authorized to be appropriated to carry out this section such sums as are necessary for each of fiscal years 2004 through 2009.

(B) ADVANCE APPROPRIATIONS; AVAILABILITY.—As authorized by section 1752 of this title, appropriations to carry out the provisions of this section may be made not more than 1 year in advance of the beginning of the fiscal year in which the funds will become available for disbursement to the States, and shall remain available for the purposes for which appropriated until expended.

(2)(A) Notwithstanding any other provision of law, unless enacted in express limitation of this subparagraph, the Secretary—

(i) in the case of legislation providing funds through the end of a fiscal year, shall issue—

(I) an initial allocation of funds provided by the enactment of such legislation not later than the expiration of the 15-day period beginning on the date of the enactment of such legislation; and

(II) subsequent allocations of funds provided by the enactment of such legislation not later than the beginning of each of the second, third, and fourth quarters of the fiscal year; and

(i) in the case of legislation providing funds for a period that ends prior to the end of a fiscal year, shall issue an initial allocation of funds provided by the enactment of such legislation not later than the expiration of the 10-day period beginning on the date of the enactment of such legislation.

(B) In any fiscal year—

(i) unused amounts from a prior fiscal year that are identified by the end of the first quarter of the fiscal year shall be recovered and reallocated not later than the beginning of the second quarter of the fiscal year; and

(ii) unused amounts from a prior fiscal year that are identified after the end of the first quarter of the fiscal year shall be recovered and reallocated on a timely basis.

(3) Notwithstanding any other provision of law, unless enacted in express limitation of this paragraph—

(A) the allocation of funds required by paragraph (2)(A)(i)(I) shall include not less than $\frac{1}{2}$ of the amounts appropriated by the legislation described in such paragraph;

(B) the allocations of funds required by paragraph (2)(A)(i)(II) to be made not later than the beginning of the second and third quarters of the fiscal year shall each include not less than $\frac{1}{4}$ of the amounts appropriated by the legislation described in such paragraph; and

(C) in the case of the enactment of legislation providing appropriations for a period of not more than 4 months, the allocation of funds required by paragraph (2)(A)(ii) shall include all amounts appropriated by such legislation except amounts reserved by the Secretary for purposes of carrying out paragraph (5).

(4) Of the sums appropriated for any fiscal year for programs authorized under this section, not less than nine-tenths of 1 percent shall be available first for services to eligible members of migrant populations. The migrant services shall be provided in a manner consistent with the priority system of a State for program participation.

(5) Of the sums appropriated for any fiscal year for the program under this section, one-half of 1 percent, not to exceed \$5,000,000, shall be available to the Secretary for the purpose of evaluating program performance, evaluating health benefits, preparing reports on program participant characteristics, providing technical assistance to improve State agency administrative systems, administration of pilot projects, including projects designed to meet the special needs of migrants, Indians, and rural populations, and carrying out technical assistance and research evaluation projects of the programs under this section.

(h) Funds for nutrition services and administration

(1)(A) Each fiscal year, the Secretary shall make available, from amounts appropriated for

such fiscal year under subsection (g)(1) of this section and amounts remaining from amounts appropriated under such subsection for the preceding fiscal year, an amount sufficient to guarantee a national average per participant grant to be allocated among State agencies for costs of nutrition services and administration incurred by State and local agencies for such year.

(B)(i) The amount of the national average per participant grant for nutrition services and administration for any fiscal year shall be an amount equal to the amount of the national average per participant grant for nutrition services and administration issued for the preceding fiscal year, as adjusted.

(ii) Such adjustment, for any fiscal year, shall be made by revising the national average per participant grant for nutrition services and administration for the preceding fiscal year to reflect the percentage change between—

(I) the value of the index for State and local government purchases, as published by the Bureau of Economic Analysis of the Department of Commerce, for the 12-month period ending June 30 of the second preceding fiscal year; and

(II) the best estimate that is available as of the start of the fiscal year of the value of such index for the 12-month period ending June 30 of the previous fiscal year.

(C) REMAINING AMOUNTS.—

(i) IN GENERAL.—Except as provided in clause (ii), in any fiscal year, amounts remaining from amounts appropriated for such fiscal year under subsection (g)(1) of this section and from amounts appropriated under such section for the preceding fiscal year, after carrying out subparagraph (A), shall be made available for food benefits under this section, except to the extent that such amounts are needed to carry out the purposes of subsections (g)(4) and (g)(5) of this section.

(ii) BREAST PUMPS.—A State agency may use amounts made available under clause (i) for the purchase of breast pumps.

(2)(A) The Secretary shall allocate to each State agency from the amount described in paragraph (1)(A) an amount for costs of nutrition services and administration on the basis of a formula prescribed by the Secretary. Such formula—

(i) shall be designed to take into account—

(I) the varying needs of each State;

(II) the number of individuals participating in each State; and

(III) other factors which serve to promote the proper, efficient, and effective administration of the program under this section;

(ii) shall provide for each State agency—

(I) an estimate of the number of participants for the fiscal year involved; and

(II) a per participant grant for nutrition services and administration for such year;

(iii) shall provide for a minimum grant amount for State agencies; and

(iv) may provide funds to help defray reasonable anticipated expenses associated with innovations in cost containment or associated with procedures that tend to enhance competition.

(B)(i) Except as provided in clause (ii) and subparagraph (C), in any fiscal year, the total amount allocated to a State agency for costs of nutrition services and administration under the formula prescribed by the Secretary under subparagraph (A) shall constitute the State agency's operational level for such costs for such year even if the number of participants in the program at such agency is lower than the estimate provided under subparagraph (A)(ii)(I).

(ii) If a State agency's per participant expenditure for nutrition services and administration is more than 10 percent (except that the Secretary may establish a higher percentage for State agencies that are small) higher than its per participant grant for nutrition services and administration without good cause, the Secretary may reduce such State agency's operational level for costs of nutrition services and administration.

(C) In any fiscal year, the Secretary may reallocate amounts provided to State agencies under subparagraph (A) for such fiscal year. When reallocating amounts under the preceding sentence, the Secretary may provide additional amounts to, or recover amounts from, any State agency.

(3)(A) Except as provided in subparagraphs (B) and (C), in each fiscal year, each State agency shall expend—

(i) for nutrition education activities and breastfeeding promotion and support activities, an aggregate amount that is not less than the sum of—

(I) $\frac{1}{6}$ of the amounts expended by the State for costs of nutrition services and administration; and

(II) except as otherwise provided in subparagraphs (F) and (G), an amount equal to a proportionate share of the national minimum breastfeeding promotion expenditure, as described in subparagraph (E), with each State's share determined on the basis of the number of pregnant women and breastfeeding women in the program in the State as a percentage of the number of pregnant women and breastfeeding women in the program in all States; and

(ii) for breastfeeding promotion and support activities an amount that is not less than the amount determined for such State under clause (i)(II).

(B) The Secretary may authorize a State agency to expend an amount less than the amount described in subparagraph (A)(ii) for purposes of breastfeeding promotion and support activities if—

(i) the State agency so requests; and

(ii) the request is accompanied by documentation that other funds will be used to conduct nutrition education activities at a level commensurate with the level at which such activities would be conducted if the amount described in subparagraph (A)(ii) were expended for such activities.

(C) The Secretary may authorize a State agency to expend for purposes of nutrition education an amount that is less than the difference between the aggregate amount described in subparagraph (A) and the amount expended by the State for breastfeeding promotion and support programs if—

(i) the State agency so requests; and

(ii) the request is accompanied by documentation that other funds will be used to conduct such activities.

(D) The Secretary shall limit to a minimal level any documentation required under this paragraph.

(E) For each fiscal year, the national minimum breastfeeding promotion expenditure means an amount that is—

(i) equal to \$21 multiplied by the number of pregnant women and breastfeeding women participating in the program nationwide, based on the average number of pregnant women and breastfeeding women so participating during the last 3 months for which the Secretary has final data; and

(ii) adjusted for inflation on October 1, 1996, and each October 1 thereafter, in accordance with paragraph (1)(B)(ii).

(4) The Secretary shall—

(A) in consultation with the Secretary of Health and Human Services, develop a definition of breastfeeding for the purposes of the program under this section;

(B) authorize the purchase of breastfeeding aids by State and local agencies as an allowable expense under nutrition services and administration;

(C) require each State agency to designate an agency staff member to coordinate breastfeeding promotion efforts identified in the State plan of operation and administration;

(D) require the State agency to provide training on the promotion and management of breastfeeding to staff members of local agencies who are responsible for counseling participants in the program under this section concerning breastfeeding;

(E) not later than 1 year after November 2, 1994, develop uniform requirements for the collection of data regarding the incidence and duration of breastfeeding among participants in the program; and

(F) partner with communities, State and local agencies, employers, health care professionals, and other entities in the private sector to build a supportive breastfeeding environment for women participating in the program under this section to support the breastfeeding goals of the Healthy People 2010 initiative.

(5)(A) Subject to subparagraph (B), in any fiscal year that a State agency submits a plan to reduce average food costs per participant and to increase participation above the level estimated for the State agency, the State agency may, with the approval of the Secretary, convert amounts allocated for food benefits for such fiscal year for costs of nutrition services and administration to the extent that such conversion is necessary—

(i) to cover allowable expenditures in such fiscal year; and

(ii) to ensure that the State agency maintains the level established for the per participant grant for nutrition services and administration for such fiscal year.

(B) If a State agency increases its participation level through measures that are not in the

nutritional interests of participants or not otherwise allowable (such as reducing the quantities of foods provided for reasons not related to nutritional need), the Secretary may refuse to allow the State agency to convert amounts allocated for food benefits to defray costs of nutrition services and administration.

(C) For the purposes of this paragraph, the term “acceptable measures” includes use of cost containment measures, curtailment of vendor abuse, and breastfeeding promotion activities.

(D) REMOTE INDIAN OR NATIVE VILLAGES.—For noncontiguous States containing a significant number of remote Indian or Native villages, a State agency may convert amounts allocated for food benefits for a fiscal year to the costs of nutrition services and administration to the extent that the conversion is necessary to cover expenditures incurred in providing services (including the full cost of air transportation and other transportation) to remote Indian or Native villages and to provide breastfeeding support in remote Indian or Native villages.

(6) In each fiscal year, each State agency shall provide, from the amounts allocated to such agency for such year for costs of nutrition services and administration, an amount to each local agency for its costs of nutrition services and administration. The amount to be provided to each local agency under the preceding sentence shall be determined under allocation standards developed by the State agency in cooperation with the several local agencies, taking into account factors deemed appropriate to further proper, efficient, and effective administration of the program, such as—

- (A) local agency staffing needs;
- (B) density of population;
- (C) number of individuals served; and
- (D) availability of administrative support from other sources.

(7) The State agency may provide in advance to any local agency any amounts for nutrition services and administration deemed necessary for successful commencement or significant expansion of program operations during a reasonable period following approval of—

- (A) a new local agency;
- (B) a new cost containment measure; or
- (C) a significant change in an existing cost containment measure.

(8)(A)(i) Except as provided in subparagraphs (B) and (C)(iii), any State that provides for the purchase of foods under the program at retail grocery stores shall, with respect to the procurement of infant formula, use—

- (I) a competitive bidding system; or
- (II) any other cost containment measure that yields savings equal to or greater than savings generated by a competitive bidding system when such savings are determined by comparing the amounts of savings that would be provided over the full term of contracts offered in response to a single invitation to submit both competitive bids and bids for other cost containment systems for the sale of infant formula.

(ii) In determining whether a cost containment measure other than competitive bidding yields equal or greater savings, the State, in ac-

cordance with regulations issued by the Secretary, may take into account other cost factors (in addition to rebate levels and procedures for adjusting rebate levels when wholesale price levels change), such as—

(I) the number of infants who would not be expected to receive the primary contract infant formula under a competitive bidding system;

(II) the number of cans of infant formula for which no rebate would be provided under another rebate system; and

(III) differences in administrative costs relating to the implementation of the various cost containment systems (such as costs of converting a computer system for the purpose of operating a cost containment system and costs of preparing participants for conversion to a new or alternate cost containment system).

(iii) COMPETITIVE BIDDING SYSTEM.—A State agency using a competitive bidding system for infant formula shall award contracts to bidders offering the lowest net price for a specific infant formula for which manufacturers submit a bid unless the State agency demonstrates to the satisfaction of the Secretary that the weighted average retail price for different brands of infant formula in the State does not vary by more than 5 percent.

(iv) SIZE OF STATE ALLIANCES.—

(I) IN GENERAL.—Except as provided in subclauses (II) through (IV), no State alliance may exist among States if the total number of infants served by States participating in the alliance as of October 1, 2003, or such subsequent date determined by the Secretary for which data is available, would exceed 100,000.

(II) ADDITION OF INFANT PARTICIPANTS.—In the case of a State alliance that exists on June 30, 2004, the alliance may continue and may expand to serve more than 100,000 infants but, except as provided in subclause (III), may not expand to include any additional State agency.

(III) ADDITION OF SMALL STATE AGENCIES AND INDIAN STATE AGENCIES.—Any State alliance may expand to include any State agency that served less than 5,000 infant participants as of October 1, 2003, or such subsequent date determined by the Secretary for which data is available, or any Indian State agency, if the State agency or Indian State agency requests to join the State alliance.

(IV) SECRETARIAL WAIVER.—The Secretary may waive the requirements of this clause not earlier than 30 days after submitting to the Committee on Education and the Workforce of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a written report that describes the cost-containment and competitive benefits of the proposed waiver.

(v) FIRST CHOICE OF ISSUANCE.—The State agency shall use the primary contract infant formula as the first choice of issuance (by formula type), with all other infant formulas issued as an alternative to the primary contract infant formula.

(vi) REBATE INVOICES.—Effective beginning October 1, 2004, each State agency shall have a sys-

tem to ensure that infant formula rebate invoices, under competitive bidding, provide a reasonable estimate or an actual count of the number of units sold to participants in the program under this section.

(vii) SEPARATE SOLICITATIONS.—In soliciting bids for infant formula under a competitive bidding system, any State agency, or State alliance, that served under the program a monthly average of more than 100,000 infants during the preceding 12-month period shall solicit bids from infant formula manufacturers under procedures that require that bids for rebates or discounts are solicited for milk-based and soy-based infant formula separately.

(viii) CENT-FOR-CENT ADJUSTMENTS.—A bid solicitation for infant formula under the program shall require the manufacturer to adjust for price changes subsequent to the opening of the bidding process in a manner that requires—

(I) a cent-for-cent increase in the rebate amounts if there is an increase in the lowest national wholesale price for a full truckload of the particular infant formula; and

(II) a cent-for-cent decrease in the rebate amounts if there is a decrease in the lowest national wholesale price for a full truckload of the particular infant formula.

(ix) LIST OF INFANT FORMULA WHOLESALERS, DISTRIBUTORS, RETAILERS, AND MANUFACTURERS.—The State agency shall maintain a list of—

(I) infant formula wholesalers, distributors, and retailers licensed in the State in accordance with State law (including regulations); and

(II) infant formula manufacturers registered with the Food and Drug Administration that provide infant formula.

(x) PURCHASE REQUIREMENT.—A vendor authorized to participate in the program under this section shall only purchase infant formula from the list described in clause (ix).

(B)(i) The Secretary shall waive the requirement of subparagraph (A) in the case of any State that demonstrates to the Secretary that—

(I) compliance with subparagraph (A) would be inconsistent with efficient or effective operation of the program operated by such State under this section; or

(II) the amount by which the savings yielded by an alternative cost containment system would be less than the savings yielded by a competitive bidding system is sufficiently minimal that the difference is not significant.

(ii) The Secretary shall prescribe criteria under which a waiver may be granted pursuant to clause (i).

(iii) The Secretary shall provide information on a timely basis to the Committee on Education and Labor of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate on waivers that have been granted under clause (i).

(C)(i) The Secretary shall provide technical assistance to small Indian State agencies carrying out this paragraph in order to assist such agencies to achieve the maximum cost containment savings feasible.

(ii) The Secretary shall also provide technical assistance, on request, to State agencies that

desire to consider a cost containment system that covers more than 1 State agency.

(iii) The Secretary may waive the requirement of subparagraph (A) in the case of any Indian State agency that has not more than 1,000 participants.

(D) No State may enter into a cost containment contract (in this subparagraph referred to as the “original contract”) that prescribes conditions that would void, reduce the savings under, or otherwise limit the original contract if the State solicited or secured bids for, or entered into, a subsequent cost containment contract to take effect after the expiration of the original contract.

(E) The Secretary shall offer to solicit bids on behalf of State agencies regarding cost-containment contracts to be entered into by infant formula manufacturers and State agencies. The Secretary shall make the offer to State agencies once every 12 months. Each such bid solicitation shall only take place if two or more State agencies request the Secretary to perform the solicitation. For such State agencies, the Secretary shall solicit bids and select the winning bidder for a cost containment contract to be entered into by State agencies and infant formula manufacturers or suppliers.

(F) In soliciting bids for contracts for infant formula for the program authorized by this section, the Secretary shall solicit bids from infant formula manufacturers under procedures in which bids for rebates or discounts are solicited for milk-based and soy-based infant formula, separately, except where the Secretary determines that such solicitation procedures are not in the best interest of the program.

(G) To reduce the costs of any supplemental foods, the Secretary may make available additional funds to State agencies out of the funds otherwise available under paragraph (1)(A) for nutrition services and administration in an amount not exceeding one half of 1 percent of the amounts to help defray reasonable anticipated expenses associated with innovations in cost containment or associated with procedures that tend to enhance competition.

(H)(i) Any person, company, corporation, or other legal entity that submits a bid to supply infant formula to carry out the program authorized by this section and announces or otherwise discloses the amount of the bid, or the rebate or discount practices of such entities, in advance of the time the bids are opened by the Secretary or the State agency, or any person, company, corporation, or other legal entity that makes a statement (prior to the opening of bids) relating to levels of rebates or discounts, for the purpose of influencing a bid submitted by any other person, shall be ineligible to submit bids to supply infant formula to the program for the bidding in progress for up to 2 years from the date the bids are opened and shall be subject to a civil penalty of up to \$100,000,000, as determined by the Secretary to provide restitution to the program for harm done to the program. The Secretary shall issue regulations providing such person, company, corporation, or other legal entity appropriate notice, and an opportunity to be heard and to respond to charges.

(ii) The Secretary shall determine the length of the disqualification, and the amount of the

civil penalty referred to in clause (i) based on such factors as the Secretary by regulation determines appropriate.

(iii) Any person, company, corporation, or other legal entity disqualified under clause (i) shall remain obligated to perform any requirements under any contract to supply infant formula existing at the time of the disqualification and until each such contract expires by its terms.

(I) Not later than the expiration of the 180-day period beginning on October 24, 1992, the Secretary shall prescribe regulations to carry out this paragraph.

(J) A State shall not incur any interest liability to the Federal Government on rebate funds for infant formula and other foods if all interest earned by the State on the funds is used for program purposes.

(9) For purposes of this subsection, the term “cost containment measure” means a competitive bidding, rebate, direct distribution, or home delivery system implemented by a State agency as described in its approved plan of operation and administration.

(10) FUNDS FOR INFRASTRUCTURE, MANAGEMENT INFORMATION SYSTEMS, AND SPECIAL NUTRITION EDUCATION.—

(A) IN GENERAL.—For each of fiscal years 2006 through 2009, the Secretary shall use for the purposes specified in subparagraph (B), \$64,000,000 or the amount of nutrition services and administration funds and supplemental food funds for the prior fiscal year that have not been obligated, whichever is less.

(B) PURPOSES.—Of the amount made available under subparagraph (A) for a fiscal year, not more than—

(i) \$14,000,000 shall be used for—

(I) infrastructure for the program under this section;

(II) special projects to promote breastfeeding, including projects to assess the effectiveness of particular breastfeeding promotion strategies; and

(III) special State projects of regional or national significance to improve the services of the program;

(ii) \$30,000,000 shall be used to establish, improve, or administer management information systems for the program, including changes necessary to meet new legislative or regulatory requirements of the program; and

(iii) \$20,000,000 shall be used for special nutrition education such as breast feeding peer counselors and other related activities.

(C) PROPORTIONAL DISTRIBUTION.—In a case in which less than \$64,000,000 is available to carry out this paragraph, the Secretary shall make a proportional distribution of funds allocated under subparagraph (B).

(11) VENDOR COST CONTAINMENT.—

(A) PEER GROUPS.—

(i) IN GENERAL.—The State agency shall—

(I) establish a vendor peer group system;

(II) in accordance with subparagraphs (B) and (C), establish competitive price criteria and allowable reimbursement levels for each vendor peer group; and

(III) if the State agency elects to authorize any types of vendors described in subparagraph (D)(ii)(I)—

(aa) distinguish between vendors described in subparagraph (D)(ii)(I) and other vendors by establishing—

(AA) separate peer groups for vendors described in subparagraph (D)(ii)(I); or

(BB) distinct competitive price criteria and allowable reimbursement levels for vendors described in subparagraph (D)(ii)(I) within a peer group that contains both vendors described in subparagraph (D)(ii)(I) and other vendors; and

(bb) establish competitive price criteria and allowable reimbursement levels that comply with subparagraphs (B) and (C), respectively, and that do not result in higher food costs if program participants redeem supplemental food vouchers at vendors described in subparagraph (D)(ii)(I) rather than at vendors other than vendors described in subparagraph (D)(ii)(I).

Nothing in this paragraph shall be construed to compel a State agency to achieve lower food costs if program participants redeem supplemental food vouchers at vendors described in subparagraph (D)(ii)(I) rather than at vendors other than vendors described in subparagraph (D)(ii)(I).

(ii) EXEMPTIONS.—The Secretary may exempt from the requirements of clause (i)—

(I) a State agency that elects not to authorize any types of vendors described in subparagraph (D)(ii)(I) and that demonstrates to the Secretary that—

(aa) compliance with clause (i) would be inconsistent with efficient and effective operation of the program administered by the State under this section; or

(bb) an alternative cost-containment system would be as effective as a vendor peer group system; or

(II) a State agency—

(aa) in which the sale of supplemental foods that are obtained with food instruments from vendors described in subparagraph (D)(ii)(I) constituted less than 5 percent of total sales of supplemental foods that were obtained with food instruments in the State in the year preceding a year in which the exemption is effective; and

(bb) that demonstrates to the Secretary that an alternative cost-containment system would be as effective as the vendor peer group system and would not result in higher food costs if program participants redeem supplemental food vouchers at vendors described in subparagraph (D)(ii)(I) rather than at vendors other than vendors described in subparagraph (D)(ii)(I).

(B) COMPETITIVE PRICING.—

(i) IN GENERAL.—The State agency shall establish competitive price criteria for each peer group for the selection of vendors for participation in the program that—

(I) ensure that the retail prices charged by vendor applicants for the program are

competitive with the prices charged by other vendors; and

(II) consider—

(aa) the shelf prices of the vendor for all buyers; or

(bb) the prices that the vendor bid for supplemental foods, which shall not exceed the shelf prices of the vendor for all buyers.

(ii) PARTICIPANT ACCESS.—In establishing competitive price criteria, the State agency shall consider participant access by geographic area.

(iii) SUBSEQUENT PRICE INCREASES.—The State agency shall establish procedures to ensure that a retail store selected for participation in the program does not, subsequent to selection, increase prices to levels that would make the store ineligible for selection to participate in the program.

(C) ALLOWABLE REIMBURSEMENT LEVELS.—

(i) IN GENERAL.—The State agency shall establish allowable reimbursement levels for supplemental foods for each vendor peer group that ensure—

(I) that payments to vendors in the vendor peer group reflect competitive retail prices; and

(II) that the State agency does not reimburse a vendor for supplemental foods at a level that would make the vendor ineligible for authorization under the criteria established under subparagraph (B).

(ii) PRICE FLUCTUATIONS.—The allowable reimbursement levels may include a factor to reflect fluctuations in wholesale prices.

(iii) PARTICIPANT ACCESS.—In establishing allowable reimbursement levels, the State agency shall consider participant access in a geographic area.

(D) EXEMPTIONS.—The State agency may exempt from competitive price criteria and allowable reimbursement levels established under this paragraph—

(i) pharmacy vendors that supply only exempt infant formula or medical foods that are eligible under the program; and

(ii) vendors—

(I)(aa) for which more than 50 percent of the annual revenue of the vendor from the sale of food items consists of revenue from the sale of supplemental foods that are obtained with food instruments; or

(bb) who are new applicants likely to meet the criteria of item (aa) under criteria approved by the Secretary; and

(II) that are nonprofit.

(E) COST CONTAINMENT.—If a State agency elects to authorize any types of vendors described in subparagraph (D)(ii)(I), the State agency shall demonstrate to the Secretary, and the Secretary shall certify, that the competitive price criteria and allowable reimbursement levels established under this paragraph for vendors described in subparagraph (D)(ii)(I) do not result in average payments per voucher to vendors described in subparagraph (D)(ii)(I) that are higher than average payments per voucher to comparable vendors

other than vendors described in subparagraph (D)(ii)(I).

(F) LIMITATION ON PRIVATE RIGHTS OF ACTION.—Nothing in this paragraph may be construed as creating a private right of action.

(G) IMPLEMENTATION.—A State agency shall comply with this paragraph not later than 18 months after June 30, 2004.

(12) IMPOSITION OF COSTS ON RETAIL STORES.—The Secretary may not impose, or allow a State agency to impose, the costs of any equipment, system, or processing required for electronic benefit transfers on any retail store authorized to transact food instruments, as a condition for authorization or participation in the program.

(13) UNIVERSAL PRODUCT CODES DATABASE.—The Secretary shall—

(A) establish a national universal product code database for use by all State agencies in carrying out the program; and

(B) make available from appropriated funds such sums as are required for hosting, hardware and software configuration, and support of the database.

(14) INCENTIVE ITEMS.—A State agency shall not authorize or make payments to a vendor described in paragraph (11)(D)(ii)(I) that provides incentive items or other free merchandise, except food or merchandise of nominal value (as determined by the Secretary), to program participants unless the vendor provides to the State agency proof that the vendor obtained the incentive items or merchandise at no cost.

(i) Division of funds formula; reallocation of unspent funds; use of State allocation to buy supplemental foods; use of amounts available for succeeding fiscal year

(1) By the beginning of each fiscal year, the Secretary shall divide, among the State agencies, the amounts made available for food benefits under subsection (h)(1)(C) of this section on the basis of a formula determined by the Secretary.

(2) Each State agency's allocation, as so determined, shall constitute the State agency's authorized operational level for that year, except that the Secretary shall reallocate funds periodically if the Secretary determines that a State agency is unable to spend its allocation.

(3)(A) Notwithstanding paragraph (2) and subject to subparagraph (B)—

(i)(I) not more than 1 percent (except as provided in subparagraph (C)) of the amount of funds allocated to a State agency under this section for supplemental foods for a fiscal year may be expended by the State agency for allowable expenses incurred under this section for supplemental foods during the preceding fiscal year; and

(II) not more than 1 percent of the amount of funds allocated to a State agency under this section for nutrition services and administration for a fiscal year may be expended by the State agency for allowable expenses incurred under this section for supplemental foods and nutrition services and administration during the preceding fiscal year; and

(ii)(I) for each fiscal year, of the amounts allocated to a State agency for nutrition serv-

ices and administration, an amount equal to not more than 3 percent of the amount allocated to the State agency under this section for the fiscal year may be expended by the State agency for allowable expenses incurred under this section for nutrition services and administration during the subsequent fiscal year; and

(II) for each fiscal year, of the amounts allocated to a State agency for nutrition services and administration, an amount equal to not more than ½ of 1 percent of the amount allocated to the State agency under this section for the fiscal year may be expended by the State agency, with the prior approval of the Secretary, for the development of a management information system, including an electronic benefit transfer system, during the subsequent fiscal year.

(B) Any funds made available to a State agency in accordance with subparagraph (A)(ii) for a fiscal year shall not affect the amount of funds allocated to the State agency for such year.

(C) The Secretary may authorize a State agency to expend not more than 3 percent of the amount of funds allocated to a State under this section for supplemental foods for a fiscal year for expenses incurred under this section for supplemental foods during the preceding fiscal year, if the Secretary determines that there has been a significant reduction in infant formula cost containment savings provided to the State agency that would affect the ability of the State agency to at least maintain the level of participation by eligible participants served by the State agency.

(4) For purposes of the formula, if Indians are served by the health department of a State, the formula shall be based on the State population inclusive of the Indians within the State boundaries.

(5) If Indians residing in the State are served by a State agency other than the health department of the State, the population of the tribes within the jurisdiction of the State being so served shall not be included in the formula for such State, and shall instead be included in the formula for the State agency serving the Indians.

(6) Notwithstanding any other provision of this section, the Secretary may use a portion of a State agency's allocation to purchase supplemental foods for donation to the State agency under this section.

(7) In addition to any amounts expended under paragraph (3)(A)(i), any State agency using cost containment measures as defined in subsection (h)(9) of this section may temporarily use amounts made available to such agency for the first quarter of a fiscal year to defray expenses for costs incurred during the final quarter of the preceding fiscal year. In any fiscal year, any State agency that uses amounts made available for a succeeding fiscal year under the authority of the preceding sentence shall restore or reimburse such amounts when such agency receives payment as a result of its cost containment measures for such expenses.

(j) Initiative to provide program services at community and migrant health centers

(1) The Secretary and the Secretary of Health and Human Services (referred to in this subsection as the "Secretaries") shall jointly establish and carry out an initiative for the purpose of providing both supplemental foods and nutrition education under the special supplemental nutrition program and health care services to low-income pregnant, postpartum, and breast-feeding women, infants, and children at substantially more community health centers and migrant health centers.

(2) The initiative shall also include—

(A) activities to improve the coordination of the provision of supplemental foods and nutrition education under the special supplemental nutrition program and health care services at facilities funded by the Indian Health Service; and

(B) the development and implementation of strategies to ensure that, to the maximum extent feasible, new community health centers, migrant health centers, and other federally supported health care facilities established in medically underserved areas provide supplemental foods and nutrition education under the special supplemental nutrition program.

(3) The initiative may include—

(A) outreach and technical assistance for State and local agencies and the facilities described in paragraph (2)(A) and the health centers and facilities described in paragraph (2)(B);

(B) demonstration projects in selected State or local areas; and

(C) such other activities as the Secretaries find are appropriate.

(4) As used in this subsection:

(A) The term "community health center" has the meaning given the term in section 254c(a)¹ of this title.

(B) The term "migrant health center" has the meaning given the term in section 254b(a)(1)¹ of this title.

Parent participant members of the Council, in addition to reimbursement for necessary travel and subsistence, shall, at the discretion of the Secretary, be compensated in advance for other personal expenses related to participation on the Council, such as child care expenses and lost wages during scheduled Council meetings.

(I) Donation of foods by Secretary

Foods available under section 1431 of title 7, including, but not limited to, dry milk, or purchased under section 612c of title 7, may be donated by the Secretary, at the request of a State agency, for distribution to programs conducted under this section. The Secretary may purchase and distribute, at the request of a State agency, supplemental foods for donation to programs conducted under this section, with appropriated funds, including funds appropriated under this section.

(m) Women, infants, and children farmers' market nutrition program; establishment, grants, etc.

(1) Subject to the availability of funds appropriated for the purposes of this subsection, and as specified in this subsection, the Secretary shall award grants to States that submit State plans that are approved for the establishment or maintenance of programs designed to provide recipients of assistance under subsection (c) of this section, or those who are on the waiting list to receive the assistance, with coupons that may be exchanged for fresh, nutritious, unprepared foods at farmers' markets and (at the option of a State) roadside stands, as defined in the State plans submitted under this subsection.

(2) A grant provided to any State under this subsection shall be provided to the chief executive officer of the State, who shall—

(A) designate the appropriate State agency or agencies to administer the program in conjunction with the appropriate nonprofit organizations; and

(B) ensure coordination of the program among the appropriate agencies and organizations.

(3) The Secretary shall not make a grant to any State under this subsection unless the State agrees to provide State, local, or private funds for the program in an amount that is equal to not less than 30 percent of the administrative cost of the program, which may be satisfied from program income or State contributions that are made for similar programs. The Secretary may negotiate with an Indian State agency a lower percentage of matching funds than is required under the preceding sentence, but not lower than 10 percent of the administrative cost of the program, if the Indian State agency demonstrates to the Secretary financial hardship for the affected Indian tribe, band, group, or council.

(4) Subject to paragraph (6), the Secretary shall establish a formula for determining the amount of the grant to be awarded under this subsection to each State for which a State plan is approved under paragraph (6), according to the number of recipients proposed to participate as specified in the State plan. In determining the amount to be awarded to new States, the Secretary shall rank order the State plans according to the criteria of operation set forth in this subsection, and award grants accordingly. The Secretary shall take into consideration the minimum amount needed to fund each approved State plan, and need not award grants to each State that submits a State plan.

(5) Each State that receives a grant under this subsection shall ensure that the program for which the grant is received complies with the following requirements:

(A) Individuals who are eligible to receive Federal benefits under the program shall only be individuals who are receiving assistance under subsection (c) of this section, or who are on the waiting list to receive the assistance.

(B) Construction or operation of a farmers' market may not be carried out using funds—

(i) provided under the grant; or

(ii) required to be provided by the State under paragraph (3).

(C) The value of the Federal share of the benefits received by any recipient under the program may not be—

- (i) less than \$10 per year; or
- (ii) more than \$30 per year.

(D) The coupon issuance process under the program shall be designed to ensure that coupons are targeted to areas with—

- (i) the highest concentration of eligible individuals;
- (ii) the greatest access to farmers' markets; and
- (iii) certain characteristics, in addition to those described in clauses (i) and (ii), that are determined to be relevant by the Secretary and that maximize the availability of benefits to eligible individuals.

(E) The coupon redemption process under the program shall be designed to ensure that the coupons may be—

- (i) redeemed only by producers authorized by the State to participate in the program; and
- (ii) redeemed only to purchase fresh nutritious unprepared food for human consumption.

(F)(i) Except as provided in clauses (ii) and (iii), the State may use for administration of the program in any fiscal year not more than 17 percent of the total amount of program funds.

(ii) During any fiscal year for which a State receives assistance under this subsection, the Secretary shall permit the State to use not more than 2 percent of total program funds for market development or technical assistance to farmers' markets if the Secretary determines that the State intends to promote the development of farmers' markets in socially or economically disadvantaged areas, or remote rural areas, where individuals eligible for participation in the program have limited access to locally grown fruits and vegetables.

(iii) The provisions of clauses (i) and (ii) with respect to the use of program funds shall not apply to any funds that a State may contribute in excess of the funds used by the State to meet the requirements of paragraph (3).

(G) The State shall ensure that no State or local taxes are collected within the State on purchases of food with coupons distributed under the program.

(6)(A) The Secretary shall give the same preference for funding under this subsection to eligible States that participated in the program under this subsection in a prior fiscal year as to States that participated in the program in the most recent fiscal year. The Secretary shall inform each State of the award of funds as prescribed by subparagraph (G) by February 15 of each year.

(B)(i) Subject to the availability of appropriations, if a State provides the amount of matching funds required under paragraph (3), the State shall receive assistance under this subsection in an amount that is not less than the amount of such assistance that the State received in the most recent fiscal year in which it received such assistance.

(ii) If amounts appropriated for any fiscal year pursuant to the authorization contained in paragraph (10) for grants under this subsection are not sufficient to pay to each State for which a State plan is approved under paragraph (6) the amount that the Secretary determines each such State is entitled to under this subsection, each State's grant shall be ratably reduced, except that (if sufficient funds are available) each State shall receive at least \$75,000 or the amount that the State received for the prior fiscal year if that amount is less than \$75,000.

(C) In providing funds to a State that received assistance under this subsection in the previous fiscal year, the Secretary shall consider—

- (i) the availability of any such assistance not spent by the State during the program year for which the assistance was received;
- (ii) documentation that demonstrates that—
 - (I) there is a need for an increase in funds; and

(II) the use of the increased funding will be consistent with serving nutritionally at-risk persons and expanding the awareness and use of farmers' markets;

(iii) demonstrated ability to satisfactorily operate the existing program; and

(iv) whether, in the case of a State that intends to use any funding provided under subparagraph (G)(i)² to increase the value of the Federal share of the benefits received by a recipient, the funding provided under subparagraph (G)(i)² will increase the rate of coupon redemption.

(D)(i) A State that desires to receive a grant under this subsection shall submit, for each fiscal year, a State plan to the Secretary by November 15 of each year.

(ii) Each State plan submitted under this paragraph shall contain—

(I) the estimated cost of the program and the estimated number of individuals to be served by the program;

(II) a description of the State plan for complying with the requirements established in paragraph (5); and

(III) criteria developed by the State with respect to authorization of producers to participate in the program.

(iii) The criteria developed by the State as required by clause (ii)(III) shall require any authorized producer to sell fresh nutritious unprepared foods (such as fruits and vegetables) to recipients, in exchange for coupons distributed under the program.

(E) The Secretary shall establish objective criteria for the approval and ranking of State plans submitted under this paragraph.

(F)(i) An amount equal to 75 percent of the funds available after satisfying the requirements of subparagraph (B) shall be made available to States participating in the program whose State plan is approved by the Secretary. If this amount is greater than that necessary to satisfy the approved State plans, the unallocated amount shall be applied toward satisfying any unmet need of States that have not participated in the program in the prior fiscal year, and whose State plans have been approved.

² See References in Text note below.

(ii) An amount equal to 25 percent of the funds available after satisfying the requirements of subparagraph (B) shall be made available to States that have not participated in the program in the prior fiscal year, and whose State plans have been approved by the Secretary. If this amount is greater than that necessary to satisfy the approved State plans for new States, the unallocated amount shall be applied toward satisfying any unmet need of States whose State plans have been approved.

(iii) In any fiscal year, any funds that remain unallocated after satisfying the requirements of clauses (i) and (ii) shall be reallocated in the following fiscal year according to procedures established pursuant to paragraph (10)(B)(ii).

(7)(A) The value of the benefit received by any recipient under any program for which a grant is received under this subsection may not affect the eligibility or benefit levels for assistance under other Federal or State programs.

(B) Any programs for which a grant is received under this subsection shall be supplementary to the supplemental nutrition assistance program carried out under the Food and Nutrition Act of 2008 (7 U.S.C. 2011 et seq.) and to any other Federal or State program under which foods are distributed to needy families in lieu of supplemental nutrition assistance program benefits.

(8) For each fiscal year, the Secretary shall collect from each State that receives a grant under this subsection information relating to—

(A) the number and type of recipients served by both Federal and non-Federal benefits under the program for which the grant is received;

(B) the rate of redemption of coupons distributed under the program;

(C) the average amount distributed in coupons to each recipient;

(D) the change in consumption of fresh fruits and vegetables by recipients, if the information is available;

(E) the effects of the program on farmers' markets, if the information is available; and

(F) any other information determined to be necessary by the Secretary.

(9) FUNDING.—

(A) IN GENERAL.—

(i) AUTHORIZATION OF APPROPRIATIONS.— There are authorized to be appropriated to carry out this subsection such sums as are necessary for each of fiscal years 2004 through 2009.

(ii) MANDATORY FUNDING.—Not later than 30 days after May 13, 2002, of the funds of the Commodity Credit Corporation, the Secretary shall make available to carry out this subsection \$15,000,000, to remain available until expended.

(B)(i)(I) Each State shall return to the Secretary any funds made available to the State that are unobligated at the end of the fiscal year for which the funds were originally allocated. The unexpended funds shall be returned to the Secretary by February 1st of the following fiscal year.

(II) Notwithstanding any other provision of this subsection, a total of not more than 5 percent of funds made available to a State for any

fiscal year may be expended by the State to reimburse expenses incurred for a program assisted under this subsection during the preceding fiscal year.

(ii) The Secretary shall establish procedures to reallocate funds that are returned under clause (i).

(10) For purposes of this subsection:

(A) The term “coupon” means a coupon, voucher, or other negotiable financial instrument by which benefits under this section are transferred.

(B) The term “program” means—

(i) the State farmers' market coupon nutrition program authorized by this subsection (as it existed on September 30, 1991); or

(ii) the farmers' market nutrition program authorized by this subsection.

(C) The term “recipient” means a person or household, as determined by the State, who is chosen by a State to receive benefits under this subsection, or who is on a waiting list to receive such benefits.

(D) The term “State agency” has the meaning provided in subsection (b)(13) of this section, except that the term also includes the agriculture department of each State and any other agency approved by the chief executive officer of the State.

(n) Disqualification of vendors who are disqualified under supplemental nutrition assistance program

(1) In general

The Secretary shall issue regulations providing criteria for the disqualification under this section of an approved vendor that is disqualified from accepting benefits under the supplemental nutrition assistance program established under the Food and Nutrition Act of 2008 (7 U.S.C. 2011 et seq.).

(2) Terms

A disqualification under paragraph (1)—

(A) shall be for the same period as the disqualification from the program referred to in paragraph (1);

(C) shall not be subject to judicial or administrative review.

(o) Disqualification of vendors convicted of trafficking or illegal sales

(1) In general

Except as provided in paragraph (4), a State agency shall permanently disqualify from participation in the program authorized under this section a vendor convicted of—

(A) trafficking in food instruments (including any voucher, draft, check, or access device (including an electronic benefit transfer card or personal identification number) issued in lieu of a food instrument under this section); or

(B) selling firearms, ammunition, explosives, or controlled substances (as defined in section 802 of title 21) in exchange for food instruments (including any item described

in subparagraph (A) issued in lieu of a food instrument under this section).

(2) Notice of disqualification

The State agency shall—

(A) provide the vendor with notification of the disqualification; and

(B) make the disqualification effective on the date of receipt of the notice of disqualification.

(3) Prohibition of receipt of lost revenues

A vendor shall not be entitled to receive any compensation for revenues lost as a result of disqualification under this subsection.

(4) Exceptions in lieu of disqualification

(A) In general

A State agency may permit a vendor that, but for this paragraph, would be disqualified under paragraph (1), to continue to participate in the program if the State agency determines, in its sole discretion according to criteria established by the Secretary, that—

(i) disqualification of the vendor would cause hardship to participants in the program authorized under this section; or

(ii)(I) the vendor had, at the time of the violation under paragraph (1), an effective policy and program in effect to prevent violations described in paragraph (1); and

(II) the ownership of the vendor was not aware of, did not approve of, and was not involved in the conduct of the violation.

(B) Civil penalty

If a State agency under subparagraph (A) permits a vendor to continue to participate in the program in lieu of disqualification, the State agency shall assess the vendor a civil penalty in an amount determined by the State agency, in accordance with criteria established by the Secretary, except that—

(i) the amount of the civil penalty shall not exceed \$10,000 for each violation; and

(ii) the amount of civil penalties imposed for violations investigated as part of a single investigation may not exceed \$40,000.

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I transmit herewith Reorganization Plan No. 2 of 1962, prepared in accordance with the provisions of the Reorganization Act of 1949, as amended, and providing for certain reorganizations in the field of science and technology.

Part I of the reorganization plan establishes the Office of Science and Technology as a new unit within the Executive Office of the President; places at the head thereof a Director appointed by the President by and with the advice and consent of the Senate and makes provision for a Deputy Director similarly appointed; and transfers to the Director certain functions of the National Science Foundation under sections 3(a)(1) and 3(a)(6) of the National Science Foundation Act of 1950.

The new arrangements incorporated in part I of the reorganization plan will constitute an important development in executive branch organization for science and technology. Under those arrangements the President will have permanent staff resources capable of advising and assisting him on matters of national policy affected by or pertaining to science and technology. Considering the rapid growth and far-reaching scope of Federal activities in science and technology, it is imperative that the President have adequate staff support in developing policies and evaluating programs in order to assure that science and technology are used most effectively in the interests of national security and general welfare.

To this end it is contemplated that the Director will assist the President in discharging the responsibility of the President for the proper coordination of Federal science and technology functions. More particularly, it is expected that he will advise and assist the President as the President may request with respect to—

(1) Major policies, plans, and programs of science and technology of the various agencies of the Federal Government, giving appropriate emphasis to the relationship of science and technology to national security and foreign policy, and measures for furthering science and technology in the Nation.

(2) Assessment of selected scientific and technical developments and programs in relation to their impact on national policies.

(3) Review, integration, and coordination of major Federal activities in science and technology, giving due consideration to the effects of such activities on non-Federal resources and institutions.

(4) Assuring that good close relations exist with the Nation's scientific and engineering communities so as to further in every appropriate way their participation in strengthening science and technology in the United States and the free world.

(5) Such other matters consonant with law as may be assigned by the President to the Office.

The ever-growing significance and complexity of Federal programs in science and technology have in recent years necessitated the taking of several steps for improving the organizational arrangements of the executive branch in relation to science and technology:

(1) The National Science Foundation was established in 1950. The Foundation was created to meet a widely recognized need for an organization to develop and encourage a national policy for the promotion of basic research and education in the sciences, to support basic research, to evaluate research programs undertaken by Federal agencies, and to perform related functions.

(2) The Office of the Special Assistant to the President for Science and Technology was established in 1957. The Special Assistant serves as Chairman of both the President's Science Advisory Committee and the Federal Council for Science and Technology, mentioned below.

(3) At the same time, the Science Advisory Committee, composed of eminent non-Government scientists and engineers, and located within the Office of Defense Mobilization, was reconstituted in the White House Office as the President's Science Advisory Committee.

(4) The Federal Council for Science and Technology, composed of policy officials of the principal agencies engaged in scientific and technical activities, was established in 1959.

The National Science Foundation has proved to be an effective instrument for administering sizable programs in support of basic research and education in the sciences and has set an example for other agencies through the administration of its own programs. However, the Foundation, being at the same organizational level as other agencies, cannot satisfactorily coordinate Federal science policies or evaluate programs of other agencies. Science policies, transcending agency lines, need to be coordinated and shaped at the level of the Executive Office of the President drawing upon many resources both within and outside of Government. Similarly, staff efforts at that higher level are required for the evaluation of Government programs in science and technology.

Thus, the further steps contained in part I of the reorganization plan are now needed in order to meet most effectively new and expanding requirements brought about by the rapid and far-reaching growth of the Government's research and development programs. These requirements call for the further strengthening of science organization at the Presidential level and for the adjustment of the Foundation's role to reflect changed conditions. The Foundation will continue to originate policy proposals and recommendations concerning the support of basic research and education in the sciences, and the new Office will look to the Foundation to provide studies and information on which sound national policies in science and technology can be based.

Part I of the reorganization plan will permit some strengthening of the staff and consultant resources now available to the President in respect of scientific and technical factors affecting executive branch policies and will also facilitate communication with the Congress.

Part II of the reorganization plan provides for certain reorganizations within the National Science Foundation which will strengthen the capability of the Director of the Foundation to exert leadership and otherwise further the effectiveness of administration of the Foundation. Specifically:

(1) There is established a new office of Director of the National Science Foundation and that Director, ex officio, is made a member of the National Science Board on a basis coordinate with that of other Board members.

(2) There is substituted for the now-existing Executive Committee of the National Science Board a new Executive Committee composed of the Director of the National Science Foundation, ex officio, as a voting member and Chairman of the Committee, and of four other members elected by the National Science Board from among its appointive members.

(3) Committees advisory to each of the divisions of the Foundation will make their recommendations to the Director only rather than to both the Director and the National Science Board.

After investigation I have found and hereby declare that each reorganization included in Reorganization Plan No. 2 of 1962 is necessary to accomplish one or more of the purposes set forth in section 2(a) of the Reorganization Act of 1949, as amended.

I have found and hereby declare that it is necessary to include in the reorganization plan, by reason of reor-

ganizations made thereby, provisions for the appointment and compensation of the Director and Deputy Director of the Office of Science and Technology and of the Director of the National Science Foundation. The rate of compensation fixed for each of these officers is that which I have found to prevail in respect of comparable officers in the executive branch of the Government.

The functions abolished by the provisions of section 23(b) of the reorganization plan are provided for in sections 4(a), 5(a), 6(a), 6(b), and 8(d) of the National Science Foundation Act of 1950.

The taking effect of the reorganizations included in the reorganization plan will provide sound organizational arrangements and will make possible more effective and efficient administration of Government programs in science and technology. It is, however, impracticable to itemize at this time the reductions in expenditures which it is probable will be brought about by such taking effect.

I recommend that the Congress allow the reorganization plan to become effective.

JOHN F. KENNEDY.

THE WHITE HOUSE, March 29, 1962.

SECTION 1. The National Science Foundation (hereinafter referred to as the Foundation) shall from time to time recommend to the President policies for the promotion and support of basic research and education in the sciences, including policies with respect to furnishing guidance toward defining the responsibilities of the Federal Government in the conduct and support of basic scientific research.

SEC. 2. The Foundation shall continue to make comprehensive studies and recommendations regarding the Nation's scientific research effort and its resources for scientific activities, including facilities and scientific personnel, and its foreseeable scientific needs, with particular attention to the extent of the Federal Government's activities and the resulting effects upon trained scientific personnel. In making such studies, the Foundation shall make full use of existing sources of information and research facilities within the Federal Government.

SEC. 3. The Foundation, in concert with each Federal agency concerned, shall review the basic scientific research programs and activities of the Federal Government in order, among other purposes, to formulate methods for strengthening the administration of such programs and activities by the responsible agencies, and to study areas of basic research where gaps or undesirable overlapping of support may exist, and shall recommend to the heads of agencies concerning the support given to basic research.

SEC. 4. As now or hereafter authorized or permitted by law, the Foundation shall be increasingly responsible for providing support by the Federal Government for general-purpose basic research through contracts and grants. The conduct and support by other Federal agencies of basic research in areas which are closely related to their missions is recognized as important and desirable, especially in response to current national needs, and shall continue.

SEC. 5. The Foundation, in consultation with educational institutions, the heads of Federal agencies, and the Commissioner of Education of the Department of Health, Education, and Welfare [now Secretary of Education], shall study the effects upon educational institutions of Federal policies and administration of contracts and grants for scientific research and development, and shall recommend policies and procedures which will promote the attainment of general national research objectives and realization of the research

needs of Federal agencies while safeguarding the strength and independence of the Nation's institutions of learning.

SEC. 6. The head of each Federal agency engaged in scientific research shall make certain that effective executive, organizational, and fiscal practices exist to ensure (a) that the Foundation is consulted on policies concerning the support of basic research, (b) that approved scientific research programs conducted by the agency are reviewed continuously in order to preserve priorities in research efforts and to adjust programs to meet changing conditions without imposing unnecessary added burdens on budgetary and other resources, (c) that applied research and development shall be undertaken with sufficient consideration of the underlying basic research and such other factors as relative urgency, project costs, and availability of manpower and facilities, and (d) that, subject to considerations of security and applicable law, adequate dissemination shall be made within the Federal Government of reports on the nature and progress of research projects as an aid to the efficiency and economy of the overall Federal scientific research program.

SEC. 7. Federal agencies supporting or engaging in scientific research shall, with the assistance of the Foundation, cooperate in an effort to improve the methods of classification and reporting of scientific research projects and activities, subject to the requirements of security of information.

SEC. 8. To facilitate the efficient use of scientific research equipment and facilities held by Federal agencies:

(a) the head of each such agency engaged in scientific research shall, to the extent practicable, encourage and facilitate the sharing with other Federal agencies of major equipment and facilities; and

(b) a Federal agency shall procure new major equipment or facilities for scientific research purposes only after taking suitable steps to ascertain that the need cannot be met adequately from existing inventories or facilities of its own or of other agencies; and

(c) the Interdepartmental Committee on Scientific Research and Development shall take necessary steps to ensure that each Federal agency engaged directly in scientific research is kept informed of selected major equipment and facilities which could serve the needs of more than one agency. Each Federal agency possessing such equipment and facilities shall maintain appropriate records to assist other agencies in arranging for their joint use or exchange.

SEC. 9. The heads of the respective Federal agencies shall make such reports concerning activities within the purview of this order as may be required by the President.

SEC. 10. The National Science Foundation shall provide leadership in the effective coordination of the scientific information activities of the Federal Government with a view to improving the availability and dissemination of scientific information. Federal agencies shall cooperate with and assist the National Science Foundation in the performance of this function, to the extent permitted by law.

EXECUTIVE ORDER NO. 10807

Ex. Ord. No. 10807, Mar. 13, 1959, 24 F.R. 1897, as amended Ex. Ord. No. 11381, Nov. 8, 1967, 32 F.R. 15629, which established the Federal Council for Science and Technology, provided for a chairman and membership, specified the functions of the Council, provided for assistance from other Federal agencies and the establishment of standing committees and panels, revoked Ex. Ord. No. 9912 of Dec. 24, 1947, entitled "Establishing the Interdepartmental Committee on Scientific Research and Development", and amended Ex. Ord. No. 10521, set out above, was omitted from the Code in view of Pub. L. 94-282, title IV, § 402, May 11, 1976, 90 Stat. 472, set out below, which abolished the Federal Council for Science and Technology.

ABOLITION OF FEDERAL COUNCIL FOR SCIENCE AND TECHNOLOGY

Pub. L. 94-282, title IV, § 402, May 11, 1976, 90 Stat. 472, provided that: "The Federal Council for Science and Technology, established pursuant to Executive Order No. 10807, Mar. 13, 1959, 24 F.R. 1897, as amended by Executive Order No. 11381, Nov. 8, 1967, 32 F.R. 15629, is hereby abolished."

§ 1862a. Findings and purpose

(a) The Congress finds that—

(1) the fundamental research and related education program supported by the Federal Government and conducted by the Nation's universities and colleges are essential to our national security, and to our health, economic welfare, and general well-being;

(2) many national research and related education programs conducted by universities and colleges are now hindered by obsolete research buildings and equipment, and many institutions lack sufficient resources to repair, renovate, or replace their laboratories;

(3) the Nation's capacity to conduct high quality research and education programs and to maintain its competitive position at the forefront of modern science, engineering, and technology is threatened by this research capital deficit, which poses serious and adverse consequences to our future national security, health, welfare, and ability to compete in the international marketplace;

(4) a national effort to spur reinvestment in research facilities is needed, and national, State, and local policies and cooperative programs are required that will yield maximum return on the investment of scarce national resources and sustain a commitment to excellence in research and education; and

(5) the Foundation, as part of its responsibility for maintaining the vitality of the Nation's academic research, and in partnership with the States, industry, and universities and colleges, must assist in enhancing the historic linkages between Federal investment in academic research and training and investment in the research capital base by reinvesting in the capital facilities which modern research and education programs require.

(b) It is the purpose of sections 1862a to 1862d of this title to assist in modernizing and revitalizing the Nation's research facilities at institutions of higher education, independent non-profit research institutions and research museums, and consortia thereof, through capital investment.

(2) Such awards shall, consistent with the functions of the Foundation set forth in section 1862 of this title and through established Foundation selection procedures, serve to—

(A) promote the modernization of graduate academic science and engineering research laboratories and related facilities so as to facilitate and support research in the scientific and engineering disciplines;

(B) assist those academic institutions that historically have received relatively little Federal research and development funds to improve their academic science and engineering infrastructures and broaden and strengthen the Nation’s science and engineering base; and

(C) promote the modernization of undergraduate academic science and engineering research laboratories and related facilities so as to facilitate and support research in the scientific and engineering disciplines.

(b) Improvement projects; maximum amounts

(1) The Program shall be carried out through projects which involve the repair, renovation, or, in exceptional cases, replacement of specific science and engineering facilities devoted primarily to research at eligible institutions, or consortia thereof, and for which funds are awarded in response to specific proposals submitted by such eligible institutions or consortia in accordance with procedures prescribed by the Director pursuant to section 1862c of this title.

(2) Awards made under the Program shall not exceed \$7,000,000 to any institution or consortium over any period of 5 years for the repair, renovation, or, in exceptional cases, replacement of academic research facilities.

(3) The Director shall, in making awards under the Program, consider the extent to which that institution or consortium has received funds for the repair, renovation, construction, or replacement of academic facilities from any other Federal funding source within the 5-year period im-

mediately preceding the application. The Director shall give priority to institutions or consortia that have not received such funds in the preceding 5 years.

(4) The Director shall, in awarding funds under sections 1862a to 1862d of this title, consider the distribution of funds among institutions of different sizes and geographical locations.

(c) Criteria for award of funds

Criteria for the award of funds to any institution for a project under the Program shall include—

(1) the quality of the research and training to be carried out in the facility or facilities involved;

(2) the need for the proposed repair, renovation, or, in exceptional cases, replacement based on an analysis of the age and condition of existing research facilities and equipment;

(3) the congruence of the institution’s research and training activities with the future research needs of the Nation and the research mission of the Foundation;

(4) the contribution that the project will make toward meeting national, regional, and institutional research and related training needs;

(5) in the case of an institution that historically has received relatively little Federal research and development funding, the contribution the proposed project will make to improving the institution’s academic scientific and engineering infrastructure and broadening the Nation’s science and engineering base; and

(6) the impact of the award on the overall geographic distribution of awards made under the Program, with the objective of avoiding undue concentration of awards.

§ 1862h. Congressional statement of findings and declaration of purposes respecting scientific and technical education and training

(a) Findings

The Congress finds that—

(1) the position of the United States in the world economy faces great challenges from highly trained foreign competition;

(2) the workforce of the United States must be better prepared for the technologically advanced, competitive, global economy;

(3) the improvement of our work force’s productivity and our international economic position depend upon the strengthening of our educational efforts in science, mathematics, and technology, especially at the associate-degree level;

(4) shortages of scientifically and technically trained workers in a wide variety of fields will best be addressed by collaboration among the Nation’s associate-degree-granting colleges and private industry to produce skilled, advanced technicians; and

(5) the National Science Foundation’s traditional role in developing model curricula, disseminating instructional materials, enhancing faculty development, and stimulating partnerships between educational institutions and industry, makes an enlarged role for the Foundation in scientific and technical education and training particularly appropriate.

(b) Purposes

It is the purpose of sections 1862h to 1862j of this title to—

(1) improve science and technical education at associate-degree-granting colleges;

(2) improve secondary school and post-secondary curricula in mathematics and science;

(3) improve the educational opportunities of postsecondary students by creating comprehensive articulation agreements and planning between 2-year and 4-year institutions; and

(4) promote outreach to secondary schools to improve mathematics and science instruction.

(c) Articulation partnerships

(1) Partnership grants

(A) The Director shall make grants to eligible partnerships to encourage students to pursue bachelor degrees in mathematics, science, engineering, or technology, and to assist students pursuing bachelor degrees in mathematics, science, engineering, or technology to make the transition from associate-degree-granting colleges to bachelor-degree-granting institutions, through such means as—

- (i) examining curricula to ensure that academic credit earned at the associate-degree-granting college is transferable to bachelor-degree-granting institutions;
- (ii) informing teachers from the associate-degree-granting college on the specific requirements of courses at the bachelor-degree-granting institution; and
- (iii) providing summer educational programs for students from the associate-degree-granting college to encourage such students' subsequent matriculation at bachelor-degree-granting institutions.

(B) Each eligible partnership receiving a grant under this paragraph shall, at a minimum—

- (i) counsel students, including students who have been in the workforce (including work in the home), about the requirements and course offerings of the bachelor-degree-granting institution;
- (ii) conduct workshops and orientation sessions to ensure that students are familiar with programs, including laboratories and financial aid programs, at the bachelor-degree-granting institution;

§ 1885. Congressional statement of findings and declaration of policy respecting equal opportunities in science and engineering

(a) The Congress finds that it is in the national interest to promote the full use of human resources in science and engineering and to insure the full development and use of the scientific and engineering talents and skills of men and women, equally, of all ethnic, racial, and economic backgrounds, including persons with disabilities.

(b) The Congress declares it is the policy of the United States to encourage men and women, equally, of all ethnic, racial, and economic backgrounds, including persons with disabilities, to acquire skills in science, engineering, and mathematics, to have equal opportunity in education, training, and employment in scientific and engineering fields, and thereby to promote scientific and engineering literacy and the full use of the human resources of the Nation in science and engineering. To this end, the Congress declares that the highest quality science and engineering over the long-term re-

quires substantial support, from currently available research and educational funds, for increased participation in science and engineering by women, minorities, and persons with disabilities. The Congress further declares that the impact on women, minorities, and persons with disabilities which is produced by advances in science and engineering must be included as essential factors in national and international science, engineering, and economic policies.

COMMISSION ON THE ADVANCEMENT OF WOMEN AND MINORITIES IN SCIENCE, ENGINEERING, AND TECHNOLOGY DEVELOPMENT

Pub. L. 105-255, Oct. 14, 1998, 112 Stat. 1889, provided that:

“SECTION 1. SHORT TITLE.

“This Act may be cited as the ‘Commission on the Advancement of Women and Minorities in Science, Engineering, and Technology Development Act’.

“SEC. 2. FINDINGS.

“The Congress finds the following:

“(1) According to the National Science Foundation’s 1996 report, Women, Minorities, and Persons with Disabilities in Science and Engineering—

“(A) women have historically been underrepresented in scientific and engineering occupations, and although progress has been made over the last several decades, there is still room for improvement;

“(B) female and minority students take fewer high-level mathematics and science courses in high school;

“(C) female students earn fewer bachelors, masters, and doctoral degrees in science and engineering;

“(D) among recent bachelors of science and bachelors of engineering graduates, women are less likely to be in the labor force, to be employed full-time, and to be employed in their field than are men;

“(E) among doctoral scientists and engineers, women are far more likely to be employed at 2-year institutions, are far less likely to be employed in research universities, and are much more likely to teach part-time;

“(F) among university full-time faculty, women are less likely to chair departments or hold high-ranked positions;

“(G) a substantial salary gap exists between men and women with doctorates in science and engineering;

“(H) Blacks, Hispanics, and Native Americans continue to be seriously underrepresented in graduate science and engineering programs; and

“(I) Blacks, Hispanics, and Native Americans as a group are 23 percent of the population of the United States, but only 6 percent are scientists or engineers.

“(2) According to the National Research Council’s 1995 report, Women Scientists and Engineers Employed in Industry: Why So Few?—

“(A) limited access is the first hurdle faced by women seeking industrial jobs in science and engineering, and while progress has been made in recent years, common recruitment and hiring practices that make extensive use of traditional networks often overlook the available pool of women;

“(B) once on the job, many women find paternalism, sexual harassment, allegations of reverse discrimination, different standards for judging the work of men and women, lower salary relative to their male peers, inequitable job assignments, and other aspects of a male-oriented culture that are hostile to women; and

“(C) women to a greater extent than men find limited opportunities for advancement, particularly for moving into management positions, and the number of women who have achieved the top levels in corporations is much lower than would be expected, based on the pipeline model.

“(3) The establishment of a commission to examine issues raised by the findings of these two reports would help—

“(A) to focus attention on the importance of eliminating artificial barriers to the recruitment, retention, and advancement of women and minorities in the fields of science, engineering, and technology, and in all employment sectors of the United States;

“(B) to promote work force diversity;

“(C) to sensitize employers to the need to recruit and retain women and minority scientists, engineers, and computer specialists; and

“(D) to encourage the replication of successful recruitment and retention programs by universities, corporations, and Federal agencies having difficulties in employing women or minorities in the fields of science, engineering, and technology.

“SEC. 3. ESTABLISHMENT.

“There is established a commission to be known as the ‘Commission on the Advancement of Women and Minorities in Science, Engineering, and Technology Development’ (in this Act referred to as the ‘Commission’).

“SEC. 4. DUTY OF THE COMMISSION.

“The Commission shall review available research, and, if determined necessary by the Commission, conduct additional research to—

“(1) identify the number of women, minorities, and individuals with disabilities in the United States in specific types of occupations in science, engineering, and technology development;

“(2) examine the preparedness of women, minorities, and individuals with disabilities to—

“(A) pursue careers in science, engineering, and technology development; and

“(B) advance to positions of greater responsibility within academia, industry, and government;

“(3) describe the practices and policies of employers and labor unions relating to the recruitment, retention, and advancement of women, minorities, and individuals with disabilities in the fields of science, engineering, and technology development;

“(4) identify the opportunities for, and artificial barriers to, the recruitment, retention, and advancement of women, minorities, and individuals with disabilities in the fields of science, engineering, and technology development in academia, industry, and government;

“(5) compile a synthesis of available research on lawful practices, policies, and programs that have

successfully led to the recruitment, retention, and advancement of women, minorities, and individuals with disabilities in science, engineering, and technology development;

“(6) issue recommendations with respect to lawful policies that government (including Congress and appropriate Federal agencies), academia, and private industry can follow regarding the recruitment, retention, and advancement of women, minorities, and individuals with disabilities in science, engineering, and technology development;

“(7) identify the disincentives for women, minorities, and individuals with disabilities to continue graduate education in the fields of engineering, physics, and computer science;

“(8) identify university undergraduate programs that are successful in retaining women, minorities, and individuals with disabilities in the fields of science, engineering, and technology development;

“(9) identify the disincentives that lead to a disproportionate number of women, minorities, and individuals with disabilities leaving the fields of science, engineering, and technology development before completing their undergraduate education;

“(10) assess the extent to which the recommendations of the Task Force on Women, Minorities, and the Handicapped in Science and Technology established under section 8 of the National Science Foundation Authorization Act for Fiscal Year 1987 (Public Law 99-383; 42 U.S.C. 1885a note) have been implemented;

“(11) compile a list of all federally funded reports on the subjects of encouraging women, minorities, and individuals with disabilities to enter the fields of science and engineering and retaining women, minorities, and individuals with disabilities in the science and engineering workforce that have been issued since the date that the Task Force described in paragraph (10) submitted its report to Congress;

“(12) assess the extent to which the recommendations contained in the reports described in paragraph (11) have been implemented; and

“(13) evaluate the benefits of family-friendly policies in order to assist recruiting, retaining, and advancing women in the fields of science, engineering, and technology such as the benefits or disadvantages of the Family and Medical Leave Act of 1993 (29 U.S.C. 2601 et seq. - (2) seeking to avoid the unwise use of floodplains and flood-prone areas and minimizing adverse impacts and vulnerabilities in any case in which a floodplain or flood-prone area must be used; and
- (3) protecting and restoring the functions of natural systems and mitigating any unavoidable damage to natural systems.

(b) Principles and guidelines**(1) Principles and guidelines defined**

In this subsection, the term “principles and guidelines” means the principles and guidelines contained in the document prepared by the Water Resources Council pursuant to section 1962a–2 of this title, entitled “Economic and Environmental Principles and Guidelines for Water and Related Land Resources Implementation Studies”, and dated March 10, 1983.

- (B) make the revisions to the principles and guidelines for use by the Secretary available to the public, including on the Internet.

(6) Effect

TRANSFER OF FUNCTIONS

“Secretary of Energy” substituted for “Chairman of the Federal Power Commission” in text pursuant to sections 301(b), 703, and 707 of Pub. L. 95-91, which are classified to sections 7151(b), 7293, and 7297 of this title, and which terminated Federal Power Commission and transferred its functions and functions of Chairman thereof (with certain exceptions) to Secretary of Energy.

NATIONAL WATER COMMISSION

Pub. L. 90-515, Sept. 26, 1968, 82 Stat. 868, provided for establishment of National Water Commission, its membership, chairman, compensation, powers, duties, and functions, required Commission to review national water resource problems and submit interim and final reports, and provided that Commission terminate no later than five years from Sept. 26, 1968.

§ 1962a-1. Powers and duties

The Council shall—

Such procedures may include provision for Council revision of plans for Federal projects intended to be proposed in any plan or revision thereof being prepared by a river basin planning commission.

(b) Economic evaluation; primary criterion

The Council shall develop standards and criteria for economic evaluation of water resource projects. For the purpose of those standards and criteria, the primary direct navigation benefits of a water resource project are defined as the product of the savings to shippers using the waterway and the estimated traffic that would use the waterway. "Savings to shippers" means the difference between (1) the freight rates or charges prevailing at the time of the study for the movement by the alternative means, and (2) those which would be charged on the proposed waterway. Estimated traffic that would use the waterway will be based on those freight rates, taking into account projections of the economic growth of the area.

Agreements entered into pursuant to this section shall (1) fully describe the work to be accomplished by the non-Federal public body, and be accompanied by an engineering plan if necessary therefor; (2) specify the manner in which such work shall be carried out; (3) provide for necessary review of design and plans, and inspection of the work by the Chief of Engineers or his designee; (4) state the basis on which the amount of reimbursement shall be determined; (5) state that such reimbursement shall be de-

After December 31, 1970, the construction of any water resources project, or an acceptable separable element thereof, by the Secretary of the Army, acting through the Chief of Engineers, or by a non-Federal interest where such interest will be reimbursed for such construction under any provision of law, shall not be commenced until each non-Federal interest has entered into a written partnership agreement with the Secretary (or, where appropriate, the district engineer for the district in which the project will be carried out) under which each party agrees to carry out its responsibilities and requirements for implementation or construction of the project or the appropriate element of the project, as the case may be; except that no such agreement shall be required if the Secretary determines that the administrative costs associated with negotiating, executing, or administering the agreement would exceed the amount of the contribution required from the non-Federal interest and are less than \$25,000.

(2) Liquidated damages

A partnership agreement described in paragraph (1) may include a provision for liquidated damages in the event of a failure of one or more parties to perform.

(3) Obligation of future appropriations

In any partnership agreement described in paragraph (1) and entered into by a State, or a body politic of the State which derives its powers from the State constitution, or a governmental entity created by the State legislature, the agreement may reflect that it does not obligate future appropriations for such performance and payment when obligating future appropriations would be inconsistent with

constitutional or statutory limitations of the State or a political subdivision of the State.

(4) Credit for in-kind contributions

(A) In general

A partnership agreement described in paragraph (1) may provide with respect to a project that the Secretary shall credit toward the non-Federal share of the cost of the project, including a project implemented without specific authorization in law, the value of in-kind contributions made by the non-Federal interest, including—

(i) the costs of planning (including data collection), design, management, mitigation, construction, and construction services that are provided by the non-Federal interest for implementation of the project;

(ii) the value of materials or services provided before execution of the partnership agreement, including efforts on constructed elements incorporated into the project; and

(iii) the value of materials and services provided after execution of the partnership agreement.

(B) Condition

The Secretary may credit an in-kind contribution under subparagraph (A) only if the Secretary determines that the material or service provided as an in-kind contribution is integral to the project.

(C) Work performed before partnership agreement

In any case in which the non-Federal interest is to receive credit under subparagraph (A)(ii) for the cost of work carried out by the non-Federal interest and such work has not been carried out as of November 8, 2007, the Secretary and the non-Federal interest shall enter into an agreement under which the non-Federal interest shall carry out such work, and only work carried out following the execution of the agreement shall be eligible for credit.

(D) Limitations

Credit authorized under this paragraph for a project—

(i) shall not exceed the non-Federal share of the cost of the project;

(ii) shall not alter any other requirement that a non-Federal interest provide lands, easements, relocations, rights-of-way, or areas for disposal of dredged material for the project;

(iii) shall not alter any requirement that a non-Federal interest pay a portion of the costs of construction of the project under sections 2211 and 2213 of title 33; and

(iv) shall not exceed the actual and reasonable costs of the materials, services, or other things provided by the non-Federal interest, as determined by the Secretary.

(E) Applicability

(i) In general

This paragraph shall apply to water resources projects authorized after November 16, 1986, including projects initiated

after November 16, 1986, without specific authorization in law.

(ii) Limitation

In any case in which a specific provision of law provides for a non-Federal interest to receive credit toward the non-Federal share of the cost of a study for, or construction or operation and maintenance of, a water resources project, the specific provision of law shall apply instead of this paragraph.

(b) Definition of non-Federal interest

The term “non-Federal interest” means—

(1) a legally constituted public body (including a federally recognized Indian tribe); or

(2) a nonprofit entity with the consent of the affected local government,

that has full authority and capability to perform the terms of its agreement and to pay damages, if necessary, in the event of failure to perform.

(c) Enforcement; jurisdiction

Every agreement entered into pursuant to this section shall be enforceable in the appropriate district court of the United States.

(d) Nonperformance of terms of agreement by non-Federal interest; notice; reasonable opportunity for performance; performance by Chief of Engineers

After commencement of construction of a project, the Chief of Engineers may undertake performance of those items of cooperation necessary to the functioning of the project for its purposes, if he has first notified the non-Federal interest of its failure to perform the terms of its agreement and has given such interest a reasonable time after such notification to so perform.

(e) Delegation of authority

Not later than June 30, 2008, the Secretary shall issue policies and guidelines for partnership agreements that delegate to the district engineers, at a minimum—

(1) the authority to approve any policy in a partnership agreement that has appeared in an agreement previously approved by the Secretary;

(2) the authority to approve any policy in a partnership agreement the specific terms of which are dictated by law or by a final feasibility study, final environmental impact statement, or other final decision document for a water resources project;

(3) the authority to approve any partnership agreement that complies with the policies and guidelines issued by the Secretary; and

(4) the authority to sign any partnership agreement for any water resources project unless, within 30 days of the date of authorization of the project, the Secretary notifies the district engineer in which the project will be carried out that the Secretary wishes to retain the prerogative to sign the partnership agreement for that project.

(f) Report to Congress

Not later than 2 years after November 8, 2007, and every year thereafter, the Secretary shall submit to Congress a report detailing the following:

(1) The number of partnership agreements signed by district engineers and the number of partnership agreements signed by the Secretary.

(2) For any partnership agreement signed by the Secretary, an explanation of why delegation to the district engineer was not appropriate.

(g) Public availability

Not later than 120 days after November 8, 2007, the Chief of Engineers shall—

(1) ensure that each district engineer has made available to the public, including on the Internet, all partnership agreements entered into under this section within the preceding 10 years and all partnership agreements for water resources projects currently being carried out in that district; and

(2) make each partnership agreement entered into after November 8, 2007, available to the public, including on the Internet, not later than 7 days after the date on which such agreement is entered into.

(h) Effective date

This section shall not apply to any project the construction of which was commenced before January 1, 1972, or to the assurances for future demands required by the Water Supply Act of 1958, as amended [43 U.S.C. 390b].

“(1) The Secretary may require compliance with any requirements pertaining to cooperation by non-Federal interests in carrying out any water resources project authorized before, on, or after the date of enactment of this Act [Nov. 17, 1986].

“(2) Whenever on the basis of any information available to the Secretary, the Secretary finds that any non-Federal interest is not providing cooperation required under subsection (a) [amending this section], the Secretary may issue an order requiring such non-Federal interest to provide such cooperation.

“(3) Non-Federal interests shall be liable for interest on any payments required pursuant to section 221 of the Flood Control Act of 1970 [this section] that may fall delinquent. The interest rate to be charged on any such delinquent payment shall be at a rate, to be determined by the Secretary of the Treasury, equal to 150 percent of the average bond equivalent rate of the thirteen-week Treasury bills auctioned immediately prior to the date on which such payment became delinquent, or auctioned immediately prior to the beginning of each additional three-month period if the period of delinquency exceeds three months.

The Secretary of the Army, acting through the Chief of Engineers, is authorized to plan and establish wetland areas as part of an authorized water resources development project under his jurisdiction. Establishment of any wetland area

in connection with the dredging required for such a water resources development project may be undertaken in any case where the Chief of Engineers in his judgment finds that—

The Secretary of the Army, acting through the Chief of Engineers, is authorized and directed to conduct a study of the most efficient methods of utilizing the hydroelectric power resources at water resource development projects under the jurisdiction of the Secretary of the

Army and to prepare a plan based upon the findings of such study. Such study shall include, but not be limited to, an analysis of—

- (1) the physical potential for hydroelectric development, giving consideration to the economic, social, environmental and institutional factors which will affect the realization of physical potential;
- (2) the magnitude and regional distribution of needs for hydroelectric power;

- (5) the timing of hydroelectric development to properly coincide with changes in the demand for electric energy;
- (6) conventional hydroelectric potential, both high head and low head projects utilizing run-of-rivers and possible advances in mechanical technology, and pumped storage hydroelectric potential at sites which evidence such potential;
- (7) the feasibility of adding or reallocating storage and modifying operation rules to increase power production at corps projects with existing hydroelectric installations;
- (8) measures deemed necessary or desirable to insure that the potential contribution of hydroelectric resources to the overall electric energy supply are realized to the maximum extent possible; and
- (9) any other pertinent factors necessary to evaluate the development and operation of hydroelectric projects of the Corps of Engineers.

(b) Transmittal of plan to Congressional committees

Within three years after the date of the first appropriation of funds for the purpose of carrying out this section, the Secretary of the Army, acting through the Chief of Engineers, shall transmit the plan prepared pursuant to subsection (a) of this section with supporting studies and documentation, together with the recommendations of the Secretary and the Chief of Engineers on such plan, to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives.

§ 1962d-14a. Alaska hydroelectric power development

(a) Congressional findings and declaration

(1) The Congress finds that the expeditious development of hydroelectric power generating facilities in Alaska that are environmentally sound to assist the Nation in meeting existing

and future energy demands is in the national interest.

(2) The Congress therefore declares that the expertise of the Chief of Engineers can and should be utilized for the benefit of local public bodies in the development of projects which yield 90 per centum or more of the benefits of the project are attributable to hydroelectric power generation when the project is fully operational.

(b) Establishment of fund; composition

To meet the goals of this section, there is hereby established in the Treasury of the United States an Alaska Hydroelectric Power Development Fund (hereafter referred to as the "fund") to be and remain available for use by the Secretary of the Army (hereinafter referred to as the "Secretary") to make expenditures authorized by this section. The fund shall consist of (1) all receipts and collections by the Secretary of repayments in accordance with subsection (e) of this section and payments by non-Federal public authorities to the Secretary to finance the cost of construction of projects in accordance with subsection (f) of this section, and which the Secretary is hereby directed to deposit in the fund as they are received, and (2) any appropriations made by the Congress to the fund.

(2) With the approval of the Secretary of the Treasury, the Secretary may deposit moneys of the fund in any Federal Reserve bank or other depository for funds of the United States, or in such other banks and financial institutions and under such terms and conditions as the Secretary and the Secretary of the Treasury may mutually agree.

(e) Expenditures for phase I design memorandum stage of advanced engineering and design; withholding of favorable report to Congress prior to repayment; expenditures from non-Federal funds

The Secretary is authorized to make expenditures from the fund for the phase I design memorandum stage of advanced engineering and design for any project in Alaska that meets the requirements of subsection (a)(2) of this section, if appropriate non-Federal public authorities, approved by the Secretary, agree with the Secretary, in writing, to repay the Secretary for all the separable and joint costs of preparing such design memorandum, if such report is favorable. Following the completion of the phase I design memorandum stage of advanced engineering and design under this subsection, the Secretary shall not transmit any favorable report to Congress

prior to being repaid in full by the appropriate non-Federal public authorities for the costs incurred during such phase I. The Secretary is also authorized to make expenditures from non-Federal funds deposited in the fund as an advance against construction costs.

(f) Authorization to construct projects; expenditures

In connection with water resources development projects which meet the criteria established by subsection (a)(2) of this section and which are to be constructed by the Secretary, acting through the Chief of Engineers, in accordance with an authorization by Congress and a contract between the non-Federal public authorities and the Secretary, pursuant to subsection (g)(1) of this section occurring on or subsequent to October 22, 1976, the Secretary, acting through the Chief of Engineers, is authorized to construct such projects including activities for engineering and design land acquisition, site development, and off-site improvements necessary for the authorized construction by making expenditures from (1) the Fund established in subsection (b) of this section of funds deposited by non-Federal public authorities as payments for construction and (2) payments of non-Federal public authorities held by the Secretary as payment of construction costs for a project authorized by this section.

(g) Agreement with non-Federal public authorities and submittal to Congressional committees, payment of total non-Federal obligations; conditions of United States assumption of excess over costs fixed in agreement, payment subject to appropriations acts

(1) Prior to initiating any construction work under the authorities of this section, the Secretary and the appropriate non-Federal public authorities shall agree in writing, and submit such agreement to the Committees on Environment and Public Works and on Appropriations of the Senate and the Committees on Public Works and Transportation and on Appropriations of the House of Representatives for review and reporting to the Congress for its consideration and approval that the appropriate non-Federal public authorities will pay the full anticipated costs of constructing the project at the time such costs are incurred, together with normal contingencies and related administrative expenses of the Secretary, and such payments shall be deposited in the fund or held by the Secretary for payment of obligations incurred by the Secretary on an authorized project under this section. The agreement shall provide for an initial determination of feasibility and compliance by the project with law. The total non-Federal obligation shall be paid on or prior to the date the Chief of Engineers has estimated by agreement, that the project concerned will be available for actual generation of all or a substantial portion of the authorized hydroelectric power of the project.

(2) In consideration of the obligations to be assumed by non-Federal public authorities under the provisions of this section and in recognition of the substantial investments which will be made by these authorities in reliance on the program established by this section, the United

States shall assume the responsibility for paying for all costs over those fixed in the agreement with the non-Federal public authorities, if such costs are occasioned by acts of God, failure on the part of the Secretary, acting through the Chief of Engineers, to adhere to the agreed schedule of work or a failure of design: *Provided*, That payments by the Secretary of such costs shall be subject to appropriations acts.

(h) Conveyance of title, rights, and interests of United States; Federal requirements, reservations, and provisions

The Secretary is authorized and directed, pursuant to the agreement, to convey all title, rights, and interests of the United States to any project, its lands and water areas, and appurtenant facilities to the non-Federal public authorities which have agreed to assume ownership of the project and responsibility for its performance, operation, and maintenance, as well as necessary replacements in accordance with this section upon full payment by such non-Federal public authorities as required under subsection (g)(1) of this section. Such conveyance shall, pursuant to the agreement required by subsection (g) of this section, to the maximum extent possible, occur immediately upon the project's availability for generation of all or a substantial portion of the authorized hydroelectric power of the project, and shall include such Federal requirements, reservations, and provisions for access rights to the project and its records as the Secretary finds advisable to complete any portion of project construction remaining at the time of conveyance and to assure that the project will be operated and maintained in a responsible and safe manner to accomplish, as nearly as may be possible, all of the authorized purposes of the project including, but not restricted to, hydroelectric power generation.

(i) Short title

In order to assure an adequate supply of food to the Nation and to promote the economic vitality of the High Plains Region, the Secretary of Commerce (hereinafter referred to in this section as the "Secretary"), acting through the Economic Development Administration, in cooperation with the Secretary of the Army, acting through the Chief of Engineers, and appropriate Federal, State, and local agencies, and

the private sector, is authorized and directed to study the depletion of the natural resources of those regions of the States of Colorado, Kansas, New Mexico, Oklahoma, Texas, and Nebraska presently utilizing the declining water resources of the Ogallala aquifer,¹ and to develop plans to increase water supplies in the area and report thereon to Congress, together with any recommendations for further congressional action. In formulating these plans, the Secretary is directed to consider all past and ongoing studies, plans, and work on depleted water resources in the region, and to examine the feasibility of various alternatives to provide adequate water supplies in the area including, but not limited to, the transfer of water from adjacent areas, such portion to be conducted by the Chief of Engineers to assure the continued economic growth and vitality of the region. The Secretary shall report on the costs of reasonably available options, the benefits of various options, and the costs of inaction. If water transfer is found to be a part of a reasonable solution, the Secretary, as part of his study, shall include a recommended plan for allocating and distributing water in an equitable fashion, taking into account existing water rights and the needs for future growth of all affected areas. An interim report, with recommendations, shall be transmitted to the Congress no later than October 1, 1978, and a final report, with recommendations, shall be transmitted to Congress not later than July 1, 1980. § 1962d-20. Prohibition on Great Lakes diversions

(a) Congressional findings and declarations

The Congress finds and declares that—

(1) the Great Lakes are a most important natural resource to the eight Great Lakes States and two Canadian provinces, providing water supply for domestic and industrial use, clean energy through hydropower production, an efficient transportation mode for moving products into and out of the Great Lakes region, and recreational uses for millions of United States and Canadian citizens;

(2) the Great Lakes need to be carefully managed and protected to meet current and future needs within the Great Lakes basin and Canadian provinces;

(3) any new diversions of Great Lakes water for use outside of the Great Lakes basin will have significant economic and environmental impacts, adversely affecting the use of this resource by the Great Lakes States and Canadian provinces; and

(4) four of the Great Lakes are international waters and are defined as boundary waters in the Boundary Waters Treaty of 1909 between the United States and Canada, and as such any new diversion of Great Lakes water in the United States would affect the relations of the Government of the United States with the Government of Canada.

(b) Congressional declaration of purpose and policy

It is therefore declared to be the purpose and policy of the Congress in this section—

(1) to take immediate action to protect the limited quantity of water available from the Great Lakes system for use by the Great Lakes States and in accordance with the Boundary Waters Treaty of 1909;

(2) to encourage the Great Lakes States, in consultation with the Provinces of Ontario and Quebec, to develop and implement a mechanism that provides a common conservation standard embodying the principles of water conservation and resource improvement for making decisions concerning the withdrawal and use of water from the Great Lakes Basin;

(3) to prohibit any diversion of Great Lakes water by any State, Federal agency, or private entity for use outside the Great Lakes basin unless such diversion is approved by the Governor of each of the Great Lakes States; and

(4) to prohibit any Federal agency from undertaking any studies that would involve the transfer of Great Lakes water for any purpose for use outside the Great Lakes basin.

(c) “Great Lakes State” defined

As used in this section, the term “Great Lakes State” means each of the States of Illinois, Indiana, Michigan, Minnesota, Ohio, Pennsylvania, New York, and Wisconsin.

(d) Approval by Governors for diversion of water

No water shall be diverted or exported from any portion of the Great Lakes within the United States, or from any tributary within the United States of any of the Great Lakes, for use outside the Great Lakes basin unless such diver-

sion or export is approved by the Governor of each of the Great Lake¹ States.

(e) Approval of Governors for diversion studies

The prohibition of the preceding sentence shall not apply to any study or data collection effort performed by the Corps of Engineers or other Federal agency under the direction of the International Joint Commission in accordance with the Boundary Waters Treaty of 1909.

SUBCHAPTER I—GENERALLY

§ 1971. Voting rights

(a) **Race, color, or previous condition not to affect right to vote; uniform standards for voting qualifications; errors or omissions from papers; literacy tests; agreements between Attorney General and State or local authorities; definitions**

(1) All citizens of the United States who are otherwise qualified by law to vote at any election by the people in any State, Territory, district, county, city, parish, township, school district, municipality, or other territorial subdivision, shall be entitled and allowed to vote at all such elections, without distinction of race, color, or previous condition of servitude; any constitution, law, custom, usage, or regulation of any State or Territory, or by or under its authority, to the contrary notwithstanding.

(2) No person acting under color of law shall—

(A) in determining whether any individual is qualified under State law or laws to vote in any election, apply any standard, practice, or procedure different from the standards, practices, or procedures applied under such law or laws to other individuals within the same county, parish, or similar political subdivision who have been found by State officials to be qualified to vote;

(B) deny the right of any individual to vote in any election because of an error or omission on any record or paper relating to any application, registration, or other act requisite to voting, if such error or omission is not material in determining whether such individual is qualified under State law to vote in such election; or

(C) employ any literacy test as a qualification for voting in any election unless (i) such test is administered to each individual and is conducted wholly in writing, and (ii) a certified copy of the test and of the answers given by the individual is furnished to him within twenty-five days of the submission of his request made within the period of time during which records and papers are required to be retained and preserved pursuant to title III of the Civil Rights Act of 1960 [42 U.S.C. 1974 et seq.]: *Provided, however,* That the Attorney General may enter into agreements with appropriate State or local authorities that preparation, conduct, and maintenance of such tests in accordance with the provisions of applicable State or local law, including such special provisions as are necessary in the preparation, conduct, and maintenance of such tests for persons who are blind or otherwise physically handicapped, meet the purposes of this subparagraph and constitute compliance therewith.

(3) For purposes of this subsection—

(A) the term “vote” shall have the same meaning as in subsection (e) of this section;

(B) the phrase “literacy test” includes any test of the ability to read, write, understand, or interpret any matter.

(b) Intimidation, threats, or coercion

No person, whether acting under color of law or otherwise, shall intimidate, threaten, coerce, or attempt to intimidate, threaten, or coerce any other person for the purpose of interfering with the right of such other person to vote or to vote as he may choose, or of causing such other person to vote for, or not to vote for, any candidate for the office of President, Vice President, presidential elector, Member of the Senate, or Member of the House of Representatives, Delegates or Commissioners from the Territories or possessions, at any general, special, or primary election held solely or in part for the purpose of selecting or electing any such candidate.

(c) Preventive relief; injunction; rebuttable literacy presumption; liability of United States for costs; State as party defendant

Whenever any person has engaged or there are reasonable grounds to believe that any person is about to engage in any act or practice which would deprive any other person of any right or privilege secured by subsection (a) or (b) of this section, the Attorney General may institute for the United States, or in the name of the United States, a civil action or other proper proceeding for preventive relief, including an application for a permanent or temporary injunction, restraining order, or other order. If in any such proceeding literacy is a relevant fact there shall be a rebuttable presumption that any person who has not been adjudged an incompetent and who has completed the sixth grade in a public school in, or a private school accredited by, any State or territory, the District of Columbia, or the Commonwealth of Puerto Rico where instruction is carried on predominantly in the English language, possesses sufficient literacy, comprehension, and intelligence to vote in any election. In any proceeding hereunder the United States shall be liable for costs the same as a private person. Whenever, in a proceeding instituted under this subsection any official of a State or subdivision thereof is alleged to have committed any act or practice constituting a deprivation of any right or privilege secured by subsection (a) of this section, the act or practice shall also be deemed that of the State and the State may be joined as a party defendant and, if, prior to the institution of such proceeding, such official has resigned or has been relieved of his office and no successor has assumed such office, the proceeding may be instituted against the State.

(d) Jurisdiction; exhaustion of other remedies

The district courts of the United States shall have jurisdiction of proceedings instituted pursuant to this section and shall exercise the same without regard to whether the party aggrieved shall have exhausted any administrative or other remedies that may be provided by law.

(e) Order qualifying person to vote; application; hearing; voting referees; transmittal of report and order; certificate of qualification; definitions

In any proceeding instituted pursuant to subsection (c) of this section in the event the court finds that any person has been deprived on account of race or color of any right or privilege secured by subsection (a) of this section, the court shall upon request of the Attorney General and after each party has been given notice and the opportunity to be heard make a finding whether such deprivation was or is pursuant to a pattern or practice. If the court finds such pattern or practice, any person of such race or color resident within the affected area shall, for one year and thereafter until the court subsequently finds that such pattern or practice has ceased, be entitled, upon his application therefor, to an order declaring him qualified to vote, upon proof that at any election or elections (1) he is qualified under State law to vote, and (2) he has since such finding by the court been (a) deprived of or denied under color of law the opportunity to register to vote or otherwise to qualify to vote, or (b) found not qualified to vote by any person acting under color of law. Such order shall be effective as to any election held within the longest period for which such applicant could have been registered or otherwise qualified under State law at which the applicant's qualifications would under State law entitle him to vote.

Notwithstanding any inconsistent provision of State law or the action of any State officer or court, an applicant so declared qualified to vote shall be permitted to vote in any such election. The Attorney General shall cause to be transmitted certified copies of such order to the appropriate election officers. The refusal by any such officer with notice of such order to permit any person so declared qualified to vote to vote at an appropriate election shall constitute contempt of court.

An application for an order pursuant to this subsection shall be heard within ten days, and the execution of any order disposing of such application shall not be stayed if the effect of such stay would be to delay the effectiveness of the order beyond the date of any election at which the applicant would otherwise be enabled to vote.

The court may appoint one or more persons who are qualified voters in the judicial district, to be known as voting referees, who shall subscribe to the oath of office required by section 3331 of title 5, to serve for such period as the court shall determine, to receive such applications and to take evidence and report to the court findings as to whether or not at any election or elections (1) any such applicant is qualified under State law to vote, and (2) he has since the finding by the court heretofore specified been (a) deprived of or denied under color of law the opportunity to register to vote or otherwise to qualify to vote, or (b) found not qualified to vote by any person acting under color of law. In a proceeding before a voting referee, the applicant shall be heard ex parte at such times and places as the court shall direct. His statement under oath shall be prima facie evidence as to his age, residence, and his prior efforts to reg-

ister or otherwise qualify to vote. Where proof of literacy or an understanding of other subjects is required by valid provisions of State law, the answer of the applicant, if written, shall be included in such report to the court; if oral, it shall be taken down stenographically and a transcription included in such report to the court.

Upon receipt of such report, the court shall cause the Attorney General to transmit a copy thereof to the State attorney general and to each party to such proceeding together with an order to show cause within ten days, or such shorter time as the court may fix, why an order of the court should not be entered in accordance with such report. Upon the expiration of such period, such order shall be entered unless prior to that time there has been filed with the court and served upon all parties a statement of exceptions to such report. Exceptions as to matters of fact shall be considered only if supported by a duly verified copy of a public record or by affidavit of persons having personal knowledge of such facts or by statements or matters contained in such report; those relating to matters of law shall be supported by an appropriate memorandum of law. The issues of fact and law raised by such exceptions shall be determined by the court or, if the due and speedy administration of justice requires, they may be referred to the voting referee to determine in accordance with procedures prescribed by the court. A hearing as to an issue of fact shall be held only in the event that the proof in support of the exception disclose the existence of a genuine issue of material fact. The applicant's literacy and understanding of other subjects shall be determined solely on the basis of answers included in the report of the voting referee.

The court, or at its direction the voting referee, shall issue to each applicant so declared qualified a certificate identifying the holder thereof as a person so qualified.

Any voting referee appointed by the court pursuant to this subsection shall to the extent not inconsistent herewith have all the powers conferred upon a master by rule 53(c) of the Federal Rules of Civil Procedure. The compensation to be allowed to any persons appointed by the court pursuant to this subsection shall be fixed by the court and shall be payable by the United States.

Applications pursuant to this subsection shall be determined expeditiously. In the case of any application filed twenty or more days prior to an election which is undetermined by the time of such election, the court shall issue an order authorizing the applicant to vote provisionally: *Provided, however,* That such applicant shall be qualified to vote under State law. In the case of an application filed within twenty days prior to an election, the court, in its discretion, may make such an order. In either case the order shall make appropriate provision for the impounding of the applicant's ballot pending determination of the application. The court may take any other action, and may authorize such referee or such other person as it may designate to take any other action, appropriate or necessary to carry out the provisions of this subsection and to enforce its decrees. This subsection shall

in no way be construed as a limitation upon the existing powers of the court.

When used in the subsection, the word "vote" includes all action necessary to make a vote effective including, but not limited to, registration or other action required by State law prerequisite to voting, casting a ballot, and having such ballot counted and included in the appropriate totals of votes cast with respect to candidates for public office and propositions for which votes are received in an election; the words "affected area" shall mean any subdivision of the State in which the laws of the State relating to voting are or have been to any extent administered by a person found in the proceeding to have violated subsection (a) of this section; and the words "qualified under State law" shall mean qualified according to the laws, customs, or usages of the State, and shall not, in any event, imply qualifications more stringent than those used by the persons found in the proceeding to have violated subsection (a) in qualifying persons other than those of the race or color against which the pattern or practice of discrimination was found to exist.

(f) Contempt; assignment of counsel; witnesses

Any person cited for an alleged contempt under this Act shall be allowed to make his full defense by counsel learned in the law; and the court before which he is cited or tried, or some judge thereof, shall immediately, upon his request, assign to him such counsel, not exceeding two, as he may desire, who shall have free access to him at all reasonable hours. He shall be allowed, in his defense to make any proof that he can produce by lawful witnesses, and shall have the like process of the court to compel his witnesses to appear at his trial or hearing, as is usually granted to compel witnesses to appear on behalf of the prosecution. If such person shall be found by the court to be financially unable to provide for such counsel, it shall be the duty of the court to provide such counsel.

(g) Three-judge district court: hearing, determination, expedition of action, review by Supreme Court; single-judge district court: hearing, determination, expedition of action

In any proceeding instituted by the United States in any district court of the United States under this section in which the Attorney General requests a finding of a pattern or practice of discrimination pursuant to subsection (e) of this section the Attorney General, at the time he files the complaint, or any defendant in the proceeding, within twenty days after service upon him of the complaint, may file with the clerk of such court a request that a court of three judges be convened to hear and determine the entire case. A copy of the request for a three-judge court shall be immediately furnished by such clerk to the chief judge of the circuit (or in his absence, the presiding circuit judge of the circuit) in which the case is pending. Upon receipt of the copy of such request it shall be the duty of the chief judge of the circuit or the presiding circuit judge, as the case may be, to designate immediately three judges in such circuit, of whom at least one shall be a circuit judge and another of whom shall be a district judge of the court in which the proceeding was instituted, to

hear and determine such case, and it shall be the duty of the judges so designated to assign the case for hearing at the earliest practicable date, to participate in the hearing and determination thereof, and to cause the case to be in every way expedited. An appeal from the final judgment of such court will lie to the Supreme Court.

In any proceeding brought under subsection (c) of this section to enforce subsection (b) of this section, or in the event neither the Attorney General nor any defendant files a request for a three-judge court in any proceeding authorized by this subsection, it shall be the duty of the chief judge of the district (or in his absence, the acting chief judge) in which the case is pending immediately to designate a judge in such district to hear and determine the case. In the event that no judge in the district is available to hear and determine the case, the chief judge of the district, or the acting chief judge, as the case may be, shall certify this fact to the chief judge of the circuit (or, in his absence, the acting chief judge) who shall then designate a district or circuit judge of the circuit to hear and determine the case.

It shall be the duty of the judge designated pursuant to this section to assign the case for hearing at the earliest practicable date and to cause the case to be in every way expedited.

SUBCHAPTER I-A—ENFORCEMENT OF VOTING RIGHTS

§ 1973. Denial or abridgement of right to vote on account of race or color through voting qualifications or prerequisites; establishment of violation

(a) No voting qualification or prerequisite to voting or standard, practice, or procedure shall be imposed or applied by any State or political subdivision in a manner which results in a denial or abridgement of the right of any citizen of the United States to vote on account of race or color, or in contravention of the guarantees set forth in section 1973b(f)(2) of this title, as provided in subsection (b) of this section.

(b) A violation of subsection (a) of this section is established if, based on the totality of circumstances, it is shown that the political processes leading to nomination or election in the State or political subdivision are not equally open to participation by members of a class of citizens protected by subsection (a) of this section in that its members have less opportunity than other members of the electorate to participate in the political process and to elect representatives of their choice. The extent to which members of a protected class have been elected to office in the State or political subdivision is one circumstance which may be considered: *Provided*, That nothing in this section establishes a right to have members of a protected class elected in numbers equal to their proportion in the population.

(b).

1975—Pub. L. 94-73 substituted “race or color, or in contravention of the guarantees set forth in section 1973b(f)(2) of this title” for “race or color”.

EFFECTIVE DATE OF 1982 AMENDMENT

Section 6 of Pub. L. 97-205 provided that: “Except as otherwise provided in this Act, the amendments made by this Act [see Short Title of 1982 Amendment note below] shall take effect on the date of the enactment of this Act [June 29, 1982].”

SHORT TITLE

This subchapter and subchapters I-B and I-C of this chapter known as the “Voting Rights Act of 1965”, see Short Title note set out under section 1971 of this title.

CONGRESSIONAL PURPOSE AND FINDINGS

Pub. L. 109-246, §2, July 27, 2006, 120 Stat. 577, provided that:

“(a) PURPOSE.—The purpose of this Act [see Short Title of 2006 Amendment note set out under section 1971 of this title] is to ensure that the right of all citizens

to vote, including the right to register to vote and cast meaningful votes, is preserved and protected as guaranteed by the Constitution.

“(b) FINDINGS.—The Congress finds the following:

“(1) Significant progress has been made in eliminating first generation barriers experienced by minority voters, including increased numbers of registered minority voters, minority voter turnout, and minority representation in Congress, State legislatures, and local elected offices. This progress is the direct result of the Voting Rights Act of 1965 [this subchapter and subchapters I-B and I-C of this chapter].

“(2) However, vestiges of discrimination in voting continue to exist as demonstrated by second generation barriers constructed to prevent minority voters from fully participating in the electoral process.

“(3) The continued evidence of racially polarized voting in each of the jurisdictions covered by the expiring provisions of the Voting Rights Act of 1965 demonstrates that racial and language minorities remain politically vulnerable, warranting the continued protection of the Voting Rights Act of 1965.

“(4) Evidence of continued discrimination includes—

“(A) the hundreds of objections interposed, requests for more information submitted followed by voting changes withdrawn from consideration by jurisdictions covered by the Voting Rights Act of 1965, and section 5 [42 U.S.C. 1973c] enforcement actions undertaken by the Department of Justice in covered jurisdictions since 1982 that prevented election practices, such as annexation, at-large voting, and the use of multi-member districts, from being enacted to dilute minority voting strength;

“(B) the number of requests for declaratory judgments denied by the United States District Court for the District of Columbia;

“(C) the continued filing of section 2 [42 U.S.C. 1973] cases that originated in covered jurisdictions; and

“(D) the litigation pursued by the Department of Justice since 1982 to enforce sections 4(e), 4(f)(4), and 203 of such Act [42 U.S.C. 1973b(e), (f)(4), 1973aa-1a] to ensure that all language minority citizens have full access to the political process.

“(5) The evidence clearly shows the continued need for Federal oversight in jurisdictions covered by the Voting Rights Act of 1965 since 1982, as demonstrated in the counties certified by the Attorney General for Federal examiner and observer coverage and the tens of thousands of Federal observers that have been dispatched to observe elections in covered jurisdictions.

“(6) The effectiveness of the Voting Rights Act of 1965 has been significantly weakened by the United States Supreme Court decisions in *Reno v. Bossier Parish II* and *Georgia v. Ashcroft*, which have misconstrued Congress’ original intent in enacting the Voting Rights Act of 1965 and narrowed the protections afforded by section 5 of such Act [42 U.S.C. 1973c].

“(7) Despite the progress made by minorities under the Voting Rights Act of 1965, the evidence before Congress reveals that 40 years has not been a sufficient amount of time to eliminate the vestiges of discrimination following nearly 100 years of disregard for the dictates of the 15th amendment and to ensure that the right of all citizens to vote is protected as guaranteed by the Constitution.

“(8) Present day discrimination experienced by racial and language minority voters is contained in evidence, including the objections interposed by the Department of Justice in covered jurisdictions; the section 2 litigation filed to prevent dilutive techniques from adversely affecting minority voters; the enforcement actions filed to protect language minorities; and the tens of thousands of Federal observers dispatched to monitor polls in jurisdictions covered by the Voting Rights Act of 1965.

“(9) The record compiled by Congress demonstrates that, without the continuation of the Voting Rights

Act of 1965 protections, racial and language minority citizens will be deprived of the opportunity to exercise their right to vote, or will have their votes diluted, undermining the significant gains made by minorities in the last 40 years.”

SEPARABILITY

Section 208 of Pub. L. 94-73 provided that: “If any amendments made by this Act [enacting sections 1973aa-1a and 1973aa-5 of this title, amending this section and sections 1973a to 1973d, 1973h, 1973i, 1973k, 1973l, 1973aa, 1973aa-2, 1973aa-3, 1973bb, 1973bb-1 of this title, and repealing sections 1973bb-2 to 1973bb-4 of this title] or the application of any provision thereof to any person or circumstance is judicially determined to be invalid, the remainder of the Voting Rights Act of 1965 [this subchapter and subchapters I-B and I-C of this chapter], or the application of such provision to other persons or circumstances shall not be affected by such determination.”

§ 1973a. Proceeding to enforce the right to vote

(a) Authorization by court for appointment of Federal observers

Whenever the Attorney General or an aggrieved person institutes a proceeding under any statute to enforce the voting guarantees of the fourteenth or fifteenth amendment in any State or political subdivision the court shall authorize the appointment of Federal observers by the Director of the Office of Personnel Management in accordance with section 1973d¹ of this title to serve for such period of time and for such political subdivisions as the court shall determine is appropriate to enforce the voting guarantees of the fourteenth or fifteenth amendment (1) as part of any interlocutory order if the court determines that the appointment of such observers is necessary to enforce such voting guarantees or (2) as part of any final judgment if the court finds that violations of the fourteenth or fifteenth amendment justifying equitable relief have occurred in such State or subdivision: *Provided*, That the court need not authorize the appointment of observers if any incidents of denial or abridgement of the right to vote on account of race or color, or in contravention of the voting guarantees set forth in section 1973b(f)(2) of this title (1) have been few in number and have been promptly and effectively corrected by State or local action, (2) the continuing effect of such incidents has been eliminated, and (3) there is no reasonable probability of their recurrence in the future.

(b) Suspension of use of tests and devices which deny or abridge the right to vote

If in a proceeding instituted by the Attorney General or an aggrieved person under any statute to enforce the voting guarantees of the fourteenth or fifteenth amendment in any State or political subdivision the court finds that a test or device has been used for the purpose or with the effect of denying or abridging the right of any citizen of the United States to vote on account of race or color, or in contravention of the voting guarantees set forth in section 1973b(f)(2) of this title, it shall suspend the use of tests and devices in such State or political subdivisions as the court shall determine is appropriate and for such period as it deems necessary.

¹ See References in Text note below.

(c) Retention of jurisdiction to prevent commencement of new devices to deny or abridge the right to vote

If in any proceeding instituted by the Attorney General or an aggrieved person under any statute to enforce the voting guarantees of the fourteenth or fifteenth amendment in any State or political subdivision the court finds that violations of the fourteenth or fifteenth amendment justifying equitable relief have occurred within the territory of such State or political subdivision, the court, in addition to such relief as it may grant, shall retain jurisdiction for such period as it may deem appropriate and during such period no voting qualification or prerequisite to voting or standard, practice, or procedure with respect to voting different from that in force or effect at the time the proceeding was commenced shall be enforced unless and until the court finds that such qualification, prerequisite, standard, practice, or procedure does not have the purpose and will not have the effect of denying or abridging the right to vote on account of race or color, or in contravention of the voting guarantees set forth in section 1973b(f)(2) of this title: *Provided*, That such qualification, prerequisite, standard, practice, or procedure may be enforced if the qualification, prerequisite, standard, practice, or procedure has been submitted by the chief legal officer or other appropriate official of such State or subdivision to the Attorney General and the Attorney General has not interposed an objection within sixty days after such submission, except that neither the court's finding nor the Attorney General's failure to object shall bar a subsequent action to enjoin enforcement of such qualification, prerequisite, standard, practice, or procedure.

Ord. No. 12107, Dec. 28, 1978, 44 F.R. 1055, set out under section 1101 of Title 5.

§ 1973b. Suspension of the use of tests or devices in determining eligibility to vote

(a) Action by State or political subdivision for declaratory judgment of no denial or abridgement; three-judge district court; appeal to Supreme Court; retention of jurisdiction by three-judge court

(1) To assure that the right of citizens of the United States to vote is not denied or abridged on account of race or color, no citizen shall be denied the right to vote in any Federal, State, or local election because of his failure to comply with any test or device in any State with respect to which the determinations have been made under the first two sentences of subsection (b) of this section or in any political subdivision of such State (as such subdivision existed on the date such determinations were made with respect to such State), though such determinations were not made with respect to such subdivision as a separate unit, or in any political subdivision with respect to which such determinations have been made as a separate unit, unless the United States District Court for the District of Columbia issues a declaratory judgment under this section. No citizen shall be denied the right to vote in any Federal, State, or local election because of his failure to comply with any test or device in any State with respect to which the determinations have been made under the third sentence of subsection (b) of this section or in any political subdivision of such State (as such subdivision existed on the date such determinations were made with respect to such State), though such determinations were not made with respect to such subdivision as a separate unit, or in any political subdivision with respect to which such determinations have been made as a separate unit, unless the United States District Court for the District of Columbia issues a declaratory judgment under this section. A declaratory judgment under this section shall issue only if such court determines that during the ten years preceding the filing of the action, and during the pendency of such action—

(A) no such test or device has been used within such State or political subdivision for the purpose or with the effect of denying or

abridging the right to vote on account of race or color or (in the case of a State or subdivision seeking a declaratory judgment under the second sentence of this subsection) in contravention of the guarantees of subsection (f)(2) of this section;

(B) no final judgment of any court of the United States, other than the denial of declaratory judgment under this section, has determined that denials or abridgements of the right to vote on account of race or color have occurred anywhere in the territory of such State or political subdivision or (in the case of a State or subdivision seeking a declaratory judgment under the second sentence of this subsection) that denials or abridgements of the right to vote in contravention of the guarantees of subsection (f)(2) of this section have occurred anywhere in the territory of such State or subdivision and no consent decree, settlement, or agreement has been entered into resulting in any abandonment of a voting practice challenged on such grounds; and no declaratory judgment under this section shall be entered during the pendency of an action commenced before the filing of an action under this section and alleging such denials or abridgements of the right to vote;

(C) no Federal examiners or observers under subchapters I-A to I-C of this chapter have been assigned to such State or political subdivision;

(D) such State or political subdivision and all governmental units within its territory have complied with section 1973c of this title, including compliance with the requirement that no change covered by section 1973c of this title has been enforced without preclearance under section 1973c of this title, and have repealed all changes covered by section 1973c of this title to which the Attorney General has successfully objected or as to which the United States District Court for the District of Columbia has denied a declaratory judgment;

(E) the Attorney General has not interposed any objection (that has not been overturned by a final judgment of a court) and no declaratory judgment has been denied under section 1973c of this title, with respect to any submission by or on behalf of the plaintiff or any governmental unit within its territory under section 1973c of this title, and no such submissions or declaratory judgment actions are pending; and

(F) such State or political subdivision and all governmental units within its territory—

(i) have eliminated voting procedures and methods of election which inhibit or dilute equal access to the electoral process;

(ii) have engaged in constructive efforts to eliminate intimidation and harassment of persons exercising rights protected under subchapters I-A to I-C of this chapter; and

(iii) have engaged in other constructive efforts, such as expanded opportunity for convenient registration and voting for every person of voting age and the appointment of minority persons as election officials throughout the jurisdiction and at all stages of the election and registration process.

(2) To assist the court in determining whether to issue a declaratory judgment under this subsection, the plaintiff shall present evidence of minority participation, including evidence of the levels of minority group registration and voting, changes in such levels over time, and disparities between minority-group and non-minority-group participation.

(3) No declaratory judgment shall issue under this subsection with respect to such State or political subdivision if such plaintiff and governmental units within its territory have, during the period beginning ten years before the date the judgment is issued, engaged in violations of any provision of the Constitution or laws of the United States or any State or political subdivision with respect to discrimination in voting on account of race or color or (in the case of a State or subdivision seeking a declaratory judgment under the second sentence of this subsection) in contravention of the guarantees of subsection (f)(2) of this section unless the plaintiff establishes that any such violations were trivial, were promptly corrected, and were not repeated.

(4) The State or political subdivision bringing such action shall publicize the intended commencement and any proposed settlement of such action in the media serving such State or political subdivision and in appropriate United States post offices. Any aggrieved party may as of right intervene at any stage in such action.

(5) An action pursuant to this subsection shall be heard and determined by a court of three judges in accordance with the provisions of section 2284 of title 28 and any appeal shall lie to the Supreme Court. The court shall retain jurisdiction of any action pursuant to this subsection for ten years after judgment and shall reopen the action upon motion of the Attorney General or any aggrieved person alleging that conduct has occurred which, had that conduct occurred during the ten-year periods referred to in this subsection, would have precluded the issuance of a declaratory judgment under this subsection. The court, upon such reopening, shall vacate the declaratory judgment issued under this section if, after the issuance of such declaratory judgment, a final judgment against the State or subdivision with respect to which such declaratory judgment was issued, or against any governmental unit within that State or subdivision, determines that denials or abridgements of the right to vote on account of race or color have occurred anywhere in the territory of such State or political subdivision or (in the case of a State or subdivision which sought a declaratory judgment under the second sentence of this subsection) that denials or abridgements of the right to vote in contravention of the guarantees of subsection (f)(2) of this section have occurred anywhere in the territory of such State or subdivision, or if, after the issuance of such declaratory judgment, a consent decree, settlement, or agreement has been entered into resulting in any abandonment of a voting practice challenged on such grounds.

(6) If, after two years from the date of the filing of a declaratory judgment under this subsection, no date has been set for a hearing in such action, and that delay has not been the re-

sult of an avoidable delay on the part of counsel for any party, the chief judge of the United States District Court for the District of Columbia may request the Judicial Council for the Circuit of the District of Columbia to provide the necessary judicial resources to expedite any action filed under this section. If such resources are unavailable within the circuit, the chief judge shall file a certificate of necessity in accordance with section 292(d) of title 28.

(7) The Congress shall reconsider the provisions of this section at the end of the fifteen-year period following the effective date of the amendments made by the Fannie Lou Hamer, Rosa Parks, Coretta Scott King, César E. Chávez, Barbara C. Jordan, William C. Velásquez, and Dr. Hector P. Garcia Voting Rights Act Reauthorization and Amendments Act of 2006.

(8) The provisions of this section shall expire at the end of the twenty-five-year period following the effective date of the amendments made by the Fannie Lou Hamer, Rosa Parks, Coretta Scott King, César E. Chávez, Barbara C. Jordan, William C. Velásquez, and Dr. Hector P. Garcia Voting Rights Act Reauthorization and Amendments Act of 2006.

(9) Nothing in this section shall prohibit the Attorney General from consenting to an entry of judgment if based upon a showing of objective and compelling evidence by the plaintiff, and upon investigation, he is satisfied that the State or political subdivision has complied with the requirements of subsection (a)(1) of this section. Any aggrieved party may as of right intervene at any stage in such action.

(b) Required factual determinations necessary to allow suspension of compliance with tests and devices; publication in Federal Register

The provisions of subsection (a) of this section shall apply in any State or in any political subdivision of a State which (1) the Attorney General determines maintained on November 1, 1964, any test or device, and with respect to which (2) the Director of the Census determines that less than 50 per centum of the persons of voting age residing therein were registered on November 1, 1964, or that less than 50 per centum of such persons voted in the presidential election of November 1964. On and after August 6, 1970, in addition to any State or political subdivision of a State determined to be subject to subsection (a) of this section pursuant to the previous sentence, the provisions of subsection (a) of this section shall apply in any State or any political subdivision of a State which (i) the Attorney General determines maintained on November 1, 1968, any test or device, and with respect to which (ii) the Director of the Census determines that less than 50 per centum of the persons of voting age residing therein were registered on November 1, 1968, or that less than 50 per centum of such persons voted in the presidential election of November 1968. On and after August 6, 1975, in addition to any State or political subdivision of a State determined to be subject to subsection (a) of this section pursuant to the previous two sentences, the provisions of subsection (a) of this section shall apply in any State or any political subdivision of a State

which (i) the Attorney General determines maintained on November 1, 1972, any test or device, and with respect to which (ii) the Director of the Census determines that less than 50 per centum of the citizens of voting age were registered on November 1, 1972, or that less than 50 per centum of such persons voted in the Presidential election of November 1972.

A determination or certification of the Attorney General or of the Director of the Census under this section or under section 1973f or 1973k of this title shall not be reviewable in any court and shall be effective upon publication in the Federal Register.

(c) "Test or device" defined

The phrase "test or device" shall mean any requirement that a person as a prerequisite for voting or registration for voting (1) demonstrate the ability to read, write, understand, or interpret any matter, (2) demonstrate any educational achievement or his knowledge of any particular subject, (3) possess good moral character, or (4) prove his qualifications by the voucher of registered voters or members of any other class.

(d) Required frequency, continuation and probable recurrence of incidents of denial or abridgement to constitute forbidden use of tests or devices

For purposes of this section no State or political subdivision shall be determined to have engaged in the use of tests or devices for the purpose or with the effect of denying or abridging the right to vote on account of race or color, or in contravention of the guarantees set forth in subsection (f)(2) of this section if (1) incidents of such use have been few in number and have been promptly and effectively corrected by State or local action, (2) the continuing effect of such incidents has been eliminated, and (3) there is no reasonable probability of their recurrence in the future.

(e) Completion of requisite grade level of education in American-flag schools in which the predominant classroom language was other than English

(1) Congress hereby declares that to secure the rights under the fourteenth amendment of persons educated in American-flag schools in which the predominant classroom language was other than English, it is necessary to prohibit the States from conditioning the right to vote of such persons on ability to read, write, understand, or interpret any matter in the English language.

(2) No person who demonstrates that he has successfully completed the sixth primary grade in a public school in, or a private school accredited by, any State or territory, the District of Columbia, or the Commonwealth of Puerto Rico in which the predominant classroom language was other than English, shall be denied the right to vote in any Federal, State, or local election because of his inability to read, write, understand, or interpret any matter in the English language, except that in States in which State law provides that a different level of education is presumptive of literacy, he shall demonstrate that he has successfully completed an equiva-

lent level of education in a public school in, or a private school accredited by, any State or territory, the District of Columbia, or the Commonwealth of Puerto Rico in which the predominant classroom language was other than English.

(f) Congressional findings of voting discrimination against language minorities; prohibition of English-only elections; other remedial measures

(1) The Congress finds that voting discrimination against citizens of language minorities is pervasive and national in scope. Such minority citizens are from environments in which the dominant language is other than English. In addition they have been denied equal educational opportunities by State and local governments, resulting in severe disabilities and continuing illiteracy in the English language. The Congress further finds that, where State and local officials conduct elections only in English, language minority citizens are excluded from participating in the electoral process. In many areas of the country, this exclusion is aggravated by acts of physical, economic, and political intimidation. The Congress declares that, in order to enforce the guarantees of the fourteenth and fifteenth amendments to the United States Constitution, it is necessary to eliminate such discrimination by prohibiting English-only elections, and by prescribing other remedial devices.

(2) No voting qualification or prerequisite to voting, or standard, practice, or procedure shall be imposed or applied by any State or political subdivision to deny or abridge the right of any citizen of the United States to vote because he is a member of a language minority group.

(3) In addition to the meaning given the term under subsection (c) of this section, the term "test or device" shall also mean any practice or requirement by which any State or political subdivision provided any registration or voting notices, forms, instructions, assistance, or other materials or information relating to the electoral process, including ballots, only in the English language, where the Director of the Census determines that more than five per centum of the citizens of voting age residing in such State or political subdivision are members of a single language minority. With respect to subsection (b) of this section, the term "test or device", as defined in this subsection, shall be employed only in making the determinations under the third sentence of that subsection.

(4) Whenever any State or political subdivision subject to the prohibitions of the second sentence of subsection (a) of this section provides any registration or voting notices, forms, instructions, assistance, or other materials or information relating to the electoral process, including ballots, it shall provide them in the language of the applicable language minority group as well as in the English language: *Provided*, That where the language of the applicable minority group is oral or unwritten or in the case of Alaskan Natives and American Indians, if the predominate language is historically unwritten, the State or political subdivision is only required to furnish oral instructions, assistance,

or other information relating to registration and voting.

§ 1973c. Alteration of voting qualifications; procedure and appeal; purpose or effect of diminishing the ability of citizens to elect their preferred candidates

(a) Whenever a State or political subdivision with respect to which the prohibitions set forth in section 1973b(a) of this title based upon determinations made under the first sentence of section 1973b(b) of this title are in effect shall enact or seek to administer any voting qualification or prerequisite to voting, or standard, practice, or procedure with respect to voting different from that in force or effect on November 1, 1964, or whenever a State or political subdivision with respect to which the prohibitions set forth in section 1973b(a) of this title based upon determinations made under the second sentence of section 1973b(b) of this title are in effect shall enact or seek to administer any voting qualification or prerequisite to voting, or standard, practice, or procedure with respect to voting different from that in force or effect on November 1, 1968, or whenever a State or political subdivision with respect to which the prohibitions set forth in section 1973b(a) of this title based upon determinations made under the third sentence of section 1973b(b) of this title are in effect shall enact or seek to administer any voting qualification or prerequisite to voting, or standard, practice, or procedure with respect to voting different from that in force or effect on November 1, 1972, such State or subdivision may institute an action in the United States District Court for the District of Columbia for a declaratory judgment that such qualification, prerequisite, standard, practice, or procedure neither has the purpose nor will have the effect of denying or abridging the right to vote on account of race or color, or in contravention of the guarantees set forth in section 1973b(f)(2) of this title, and unless and until the court enters such judgment no person shall be denied the right to vote for fail-

ure to comply with such qualification, prerequisite, standard, practice, or procedure: *Provided*, That such qualification, prerequisite, standard, practice, or procedure may be enforced without such proceeding if the qualification, prerequisite, standard, practice, or procedure has been submitted by the chief legal officer or other appropriate official of such State or subdivision to the Attorney General and the Attorney General has not interposed an objection within sixty days after such submission, or upon good cause shown, to facilitate an expedited approval within sixty days after such submission, the Attorney General has affirmatively indicated that such objection will not be made. Neither an affirmative indication by the Attorney General that no objection will be made, nor the Attorney General's failure to object, nor a declaratory judgment entered under this section shall bar a subsequent action to enjoin enforcement of such qualification, prerequisite, standard, practice, or procedure. In the event the Attorney General affirmatively indicates that no objection will be made within the sixty-day period following receipt of a submission, the Attorney General may reserve the right to reexamine the submission if additional information comes to his attention during the remainder of the sixty-day period which would otherwise require objection in accordance with this section. Any action under this section shall be heard and determined by a court of three judges in accordance with the provisions of section 2284 of title 28 and any appeal shall lie to the Supreme Court.

(b) Any voting qualification or prerequisite to voting, or standard, practice, or procedure with respect to voting that has the purpose of or will have the effect of diminishing the ability of any citizens of the United States on account of race or color, or in contravention of the guarantees set forth in section 1973b(f)(2) of this title, to elect their preferred candidates of choice denies or abridges the right to vote within the meaning of subsection (a) of this section.

(c) The term "purpose" in subsections (a) and (b) of this section shall include any discriminatory purpose.

(d) The purpose of subsection (b) of this section is to protect the ability of such citizens to elect their preferred candidates of choice.

L. 94-73 inserted "or whenever a State or political subdivision with respect to which the prohibitions set forth in section 1973b(a) of this title based upon determinations made under third sentence of section 1973b(b) of this title are in effect shall enact or seek to administer any voting qualification or prerequisite to voting, or standard, practice, or procedure with respect to voting different from that in force or effect on November 1, 1972," after 1968, substituted "or

upon good cause shown, to facilitate an expedited approval within sixty days after such submission, the Attorney General has affirmatively indicated that such objection will not be made. Neither an affirmative indication by the Attorney General that no objection will be made, nor the Attorney General's failure to object," for "except that neither the Attorney General's failure to object", and "on account of race or color, or in contravention of the guarantees set forth in section 1973b(f)(2) of this title" for "on account of race or color", and inserted provisions that in the event the Attorney General affirmatively indicates that no objection will be made within the sixty-day period following receipt of a submission, the Attorney General may reserve the right to examine the submission if additional information comes to his attention during the remainder of the sixty-day period which would otherwise require objection in accordance with this section.

1970—Pub. L. 91-285 inserted "based upon determinations made under the first sentence of section 1973b(b) of this title" after "section 1973b(a) of this title" and "or whenever a State or political subdivision with respect to which the prohibitions set forth in section 1973b(a) of this title based upon determinations made under the second sentence of section 1973b(b) of this title are in effect shall enact or seek to administer any voting qualification or prerequisite to voting, or standard, practice, or procedure with respect to voting different from that in force or effect on November 1, 1968," after "1964."

(a) Assignment

Whenever—

(1) a court has authorized the appointment of observers under section 1973a(a) of this title for a political subdivision; or

(2) the Attorney General certifies with respect to any political subdivision named in, or included within the scope of, determinations made under section 1973b(b) of this title, unless a declaratory judgment has been rendered under section 1973b(a) of this title, that—

(A) the Attorney General has received written meritorious complaints from residents, elected officials, or civic participation organizations that efforts to deny or abridge the right to vote under the color of law on account of race or color, or in contravention of the guarantees set forth in section 1973b(f)(2) of this title are likely to occur; or

(B) in the Attorney General's judgment (considering, among other factors, whether the ratio of nonwhite persons to white persons registered to vote within such subdivision appears to the Attorney General to be reasonably attributable to violations of the 14th or 15th amendment or whether substantial evidence exists that bona fide efforts are being made within such subdivision to com-

ply with the 14th or 15th amendment), the assignment of observers is otherwise necessary to enforce the guarantees of the 14th or 15th amendment;

the Director of the Office of Personnel Management shall assign as many observers for such subdivision as the Director may deem appropriate.

(b) Status

Except as provided in subsection (c), such observers shall be assigned, compensated, and separated without regard to the provisions of any statute administered by the Director of the Office of Personnel Management, and their service under subchapters I–A to I–C shall not be considered employment for the purposes of any statute administered by the Director of the Office of Personnel Management, except the provisions of section 7324 of title 5 prohibiting partisan political activity.

Observers shall be authorized to—

(1) enter and attend at any place for holding an election in such subdivision for the purpose of observing whether persons who are entitled to vote are being permitted to vote; and

§ 1973h. Poll taxes

(a) Congressional finding and declaration of policy against enforced payment of poll taxes as a device to impair voting rights

The Congress finds that the requirement of the payment of a poll tax as a precondition to voting (i) precludes persons of limited means from voting or imposes unreasonable financial hardship upon such persons as a precondition to their exercise of the franchise, (ii) does not bear a reasonable relationship to any legitimate State interest in the conduct of elections, and (iii) in some areas has the purpose or effect of denying persons the right to vote because of race or color. Upon the basis of these findings, Congress declares that the constitutional right of citizens to vote is denied or abridged in some areas by the requirement of the payment of a poll tax as a precondition to voting.

(b) Authority of Attorney General to institute actions for relief against enforcement of poll tax requirement

In the exercise of the powers of Congress under section 5 of the fourteenth amendment, section 2 of the fifteenth amendment and section 2 of the twenty-fourth amendment, the Attorney General is authorized and directed to institute forthwith in the name of the United States such actions, including actions against States or political subdivisions, for declaratory judgment or injunctive relief against the enforcement of any requirement of the payment of a poll tax as a precondition to voting, or substitute therefor enacted after November 1, 1964, as will be necessary to implement the declaration of subsection (a) of this section and the purposes of this section.

(c) Jurisdiction of three-judge district courts; appeal to Supreme Court

The district courts of the United States shall have jurisdiction of such actions which shall be heard and determined by a court of three judges in accordance with the provisions of section 2284 of title 28 and any appeal shall lie to the Supreme Court. It shall be the duty of the judges designated to hear the case to assign the case for hearing at the earliest practicable date, to participate in the hearing and determination thereof, and to cause the case to be in every way expedited.

(d) Falsification or concealment of material facts or giving of false statements in matters within jurisdiction of examiners or hearing officers; penalties

(3) As used in this subsection, the term "votes more than once" does not include the casting of an additional ballot if all prior ballots of that voter were invalidated, nor does it include the voting in two jurisdictions under section 1973aa-1 of this title, to the extent two ballots are not cast for an election to the same candidacy or office.

SUBCHAPTER I-B—SUPPLEMENTAL
PROVISIONS

§ 1973aa. Application of prohibition to other States; “test or device” defined

(a) No citizen shall be denied, because of his failure to comply with any test or device, the right to vote in any Federal, State, or local election conducted in any State or political subdivision of a State.

(b) As used in this section, the term “test or device” means any requirement that a person as a prerequisite for voting or registration for voting (1) demonstrate the ability to read, write, understand, or interpret any matter, (2) demonstrate any educational achievement or his knowledge of any particular subject, (3) possess good moral character, or (4) prove his qualifications by the voucher of registered voters or members of any other class.

(Pub. L. 89-110, title II, §201, as added Pub. L. 91-285, §6, June 22, 1970, 84 Stat. 315; amended Pub. L. 94-73, title I, §102, Aug. 6, 1975, 89 Stat. 400.)

AMENDMENTS

1975—Subsec. (a). Pub. L. 94-73 struck out “Prior to August 6, 1975,” and “as to which the provisions of section 1973b(a) of this title are not in effect by reason of determinations made under section 1973b(b) of this title”.

§ 1973aa-1. Residence requirements for voting

(a) Congressional findings

The Congress hereby finds that the imposition and application of the durational residency requirement as a precondition to voting for the offices of President and Vice President, and the lack of sufficient opportunities for absentee registration and absentee balloting in presidential elections—

(1) denies or abridges the inherent constitutional right of citizens to vote for their President and Vice President;

(2) denies or abridges the inherent constitutional right of citizens to enjoy their free movement across State lines;

(3) denies or abridges the privileges and immunities guaranteed to the citizens of each State under article IV, section 2, clause 1, of the Constitution;

(4) in some instances has the impermissible purpose or effect of denying citizens the right to vote for such officers because of the way they may vote;

(5) has the effect of denying to citizens the equality of civil rights, and due process and equal protection of the laws that are guaranteed to them under the fourteenth amendment; and

(6) does not bear a reasonable relationship to any compelling State interest in the conduct of presidential elections.

(b) Congressional declaration: durational residency requirement, abolishment; absentee registration and balloting standards, establishment

Upon the basis of these findings, Congress declares that in order to secure and protect the above-stated rights of citizens under the Constitution, to enable citizens to better obtain the enjoyment of such rights, and to enforce the guarantees of the fourteenth amendment, it is necessary (1) to completely abolish the durational residency requirement as a precondition to voting for President and Vice President, and (2) to establish nationwide, uniform standards relative to absentee registration and absentee balloting in presidential elections.

(c) Prohibition of denial of right to vote because of durational residency requirement or absentee balloting

No citizen of the United States who is otherwise qualified to vote in any election for President and Vice President shall be denied the right to vote for electors for President and Vice President, or for President and Vice President, in such election because of the failure of such citizen to comply with any durational residency requirement of such State or political subdivision; nor shall any citizen of the United States be denied the right to vote for electors for President and Vice President, or for President and Vice President, in such election because of the failure of such citizen to be physically present in such State or political subdivision at the time of such election, if such citizen shall have complied with the requirements prescribed by the law of such State or political subdivision providing for the casting of absentee ballots in such election.

(d) Registration: time for application; absentee balloting: time of application and return of ballots

For the purposes of this section, each State shall provide by law for the registration or other means of qualification of all duly qualified residents of such State who apply, not later than thirty days immediately prior to any presidential election, for registration or qualification to vote for the choice of electors for President and Vice President or for President and Vice President in such election; and each State shall provide by law for the casting of absentee ballots for the choice of electors for President and Vice President, or for President and Vice President, by all duly qualified residents of such State who may be absent from their election district or unit in such State on the day such election is held and who have applied therefor not later than seven days immediately prior to such election and have returned such ballots to the appropriate election official of such State not later than the time of closing of the polls in such State on the day of such election.

(e) Change of residence; voting in person or by absentee ballot in State of prior residence

If any citizen of the United States who is otherwise qualified to vote in any State or political subdivision in any election for President and Vice President has begun residence in such State or political subdivision after the thirtieth

day next preceding such election and, for that reason, does not satisfy the registration requirements of such State or political subdivision he shall be allowed to vote for the choice of electors for President and Vice President, or for President and Vice President, in such election, (1) in person in the State or political subdivision in which he resided immediately prior to his removal if he had satisfied, as of the date of his change of residence, the requirements to vote in that State or political subdivision, or (2) by absentee ballot in the State or political subdivision in which he resided immediately prior to his removal if he satisfies, but for his non-resident status and the reason for his absence, the requirements for absentee voting in that State or political subdivision.

(f) Absentee registration requirement

No citizen of the United States who is otherwise qualified to vote by absentee ballot in any State or political subdivision in any election for President and Vice President shall be denied the right to vote for the choice of electors for President and Vice President, or for President and Vice President, in such election because of any requirement of registration that does not include a provision for absentee registration.

(g) State or local adoption of less restrictive voting practices

Nothing in this section shall prevent any State or political subdivision from adopting less restrictive voting practices than those that are prescribed herein.

(h) “State” defined

The term “State” as used in this section includes each of the several States and the District of Columbia.

(i) False registration, and other fraudulent acts and conspiracies: application of penalty for false information in registering or voting

The provisions of section 1973i(c) of this title shall apply to false registration, and other fraudulent acts and conspiracies, committed under this section.

§ 1973aa-1a. Bilingual election requirements

(a) Congressional findings and declaration of policy

The Congress finds that, through the use of various practices and procedures, citizens of language minorities have been effectively excluded from participation in the electoral process. Among other factors, the denial of the right to vote of such minority group citizens is ordinarily directly related to the unequal educational opportunities afforded them resulting in high illiteracy and low voting participation. The Congress declares that, in order to enforce the guarantees of the fourteenth and fifteenth amendments to the United States Constitution, it is necessary to eliminate such discrimination by prohibiting these practices, and by prescribing other remedial devices.

(b) Bilingual voting materials requirement

(1) Generally

Before August 6, 2032, no covered State or political subdivision shall provide voting materials only in the English language.

(2) Covered States and political subdivisions

(A) Generally

A State or political subdivision is a covered State or political subdivision for the purposes of this subsection if the Director of the Census determines, based on the 2010 American Community Survey census data and subsequent American Community Survey data in 5-year increments, or comparable census data, that—

(i)(I) more than 5 percent of the citizens of voting age of such State or political subdivision are members of a single language minority and are limited-English proficient;

(II) more than 10,000 of the citizens of voting age of such political subdivision are members of a single language minority and are limited-English proficient; or

(III) in the case of a political subdivision that contains all or any part of an Indian reservation, more than 5 percent of the American Indian or Alaska Native citizens of voting age within the Indian reservation are members of a single language minority and are limited-English proficient; and

(ii) the illiteracy rate of the citizens in the language minority as a group is higher than the national illiteracy rate.

(B) Exception

The prohibitions of this subsection do not apply in any political subdivision that has less than 5 percent voting age limited-English proficient citizens of each language minority which comprises over 5 percent of the statewide limited-English proficient population of voting age citizens, unless the political subdivision is a covered political subdivision independently from its State.

(3) Definitions

As used in this section—

(A) the term “voting materials” means registration or voting notices, forms, instructions, assistance, or other materials or information relating to the electoral process, including ballots;

(B) the term “limited-English proficient” means unable to speak or understand English adequately enough to participate in the electoral process;

(C) the term “Indian reservation” means any area that is an American Indian or Alaska Native area, as defined by the Census Bureau for the purposes of the 1990 decennial census;

(D) the term “citizens” means citizens of the United States; and

(E) the term “illiteracy” means the failure to complete the 5th primary grade.

(4) Special rule

The determinations of the Director of the Census under this subsection shall be effective

upon publication in the Federal Register and shall not be subject to review in any court.

(c) Requirement of voting notices, forms, instructions, assistance, or other materials and ballots in minority language

Whenever any State or political subdivision subject to the prohibition of subsection (b) of this section provides any registration or voting notices, forms, instructions, assistance, or other materials or information relating to the electoral process, including ballots, it shall provide them in the language of the applicable minority group as well as in the English language: *Provided*, That where the language of the applicable minority group is oral or unwritten or in the case of Alaskan natives and American Indians, if the predominant language is historically unwritten, the State or political subdivision is only required to furnish oral instructions, assistance, or other information relating to registration and voting.

(d) Action for declaratory judgment permitting English-only materials

Any State or political subdivision subject to the prohibition of subsection (b) of this section, which seeks to provide English-only registration or voting materials or information, including ballots, may file an action against the United States in the United States District Court for a declaratory judgment permitting such provision. The court shall grant the requested relief if it determines that the illiteracy rate of the applicable language minority group within the State or political subdivision is equal to or less than the national illiteracy rate.

(e) Definitions

For purposes of this section, the term “language minorities” or “language minority group” means persons who are American Indian, Asian American, Alaskan Natives, or of Spanish heritage.

(2) to make it possible for Federal, State, and local governments to implement this subchapter in a manner that enhances the participation of eligible citizens as voters in elections for Federal office;

(3) to protect the integrity of the electoral process; and

(4) to ensure that accurate and current voter registration rolls are maintained.

(2) shall not result in the removal of the name of any person from the official list of voters registered to vote in an election for Federal office by reason of the person's failure to vote, except that nothing in this paragraph may be construed to prohibit a State from using the procedures described in subsections (c) and (d) of this section to remove an individual from the official list of eligible voters if the individual—

(d) Removal of names from voting rolls

(3) If the registration records indicate that a registrant has moved from an address in the area covered by a polling place, the registrant shall, upon oral or written affirmation by the registrant before an election official at that polling place that the registrant continues to reside at the address previously made known to the registrar, be permitted to vote at that polling place.

In the case of a change of address, for voting purposes, of a registrant to another address within the same registrar's jurisdiction, the registrar shall correct the voting registration list accordingly, and the registrant's name may not be removed from the official list of eligible voters by reason of such a change of address except as provided in subsection (d) of this section.

(2) The records maintained pursuant to paragraph (1) shall include lists of the names and addresses of all persons to whom notices described in subsection (d)(2) of this section are sent, and information concerning whether or not each such person has responded to the notice as of the date that inspection of the records is made.

(2) Disability

In an action brought by a complaining party under the powers, remedies, and procedures set forth in section 706 or 717 of the Civil Rights Act of 1964 [42 U.S.C. 2000e-5, 2000e-16] (as provided in section 107(a) of the Americans with Disabilities Act of 1990 (42 U.S.C. 12117(a)), and section 794a(a)(1) of title 29, respectively) against a respondent who engaged in unlawful intentional discrimination (not an employment practice that is unlawful because of its disparate impact) under section 791 of title 29 and the regulations implementing section 791 of title 29, or who violated the requirements of section 791 of title 29 or the regulations implementing section 791 of title 29 concerning the provision of a reasonable accommodation, or section 102 of the Americans with Disabilities Act of 1990 (42 U.S.C. 12112), or committed a violation of section 102(b)(5) of the Act, against an individual, the complaining party may recover compensatory and punitive damages as allowed in subsection (b) of this section, in addition to any relief authorized by section 706(g) of the Civil Rights Act of 1964, from the respondent.

ation pursuant to section 102(b)(5) of the Americans with Disabilities Act of 1990 [42 U.S.C. 12112(b)(5)] or regulations implementing section 791 of title 29, damages may not be awarded under this section where the covered entity demonstrates good faith efforts, in consultation with the person with the disability who has informed the covered entity that accommodation is needed, to identify and make a reasonable accommodation that would provide such individual with an equally effective opportunity and would not cause an undue hardship on the operation of the business.

(b) Compensatory and punitive damages

(1) Determination of punitive damages

A complaining party may recover punitive damages under this section against a respondent (other than a government, government agency or political subdivision) if the complaining party demonstrates that the respondent engaged in a discriminatory practice or discriminatory practices with malice or with reckless indifference to the federally protected rights of an aggrieved individual.

WHEREAS the granting of Federal assistance for the provision, rehabilitation, or operation of housing and
