§ 5822. Integrated Farm Management Program Option

(a) Establishment

The Secretary of Agriculture (hereafter in this section referred to as the “Secretary”) shall, by regulation, establish a voluntary program, to be known as the “Integrated Farm Management Program Option” (hereafter referred to in this section as the “program”), designed to assist producers of agricultural commodities in adopting integrated, multiyear, site-specific farm management plans by reducing farm program barriers to resource stewardship practices and systems.

(b) Definitions

(1) In general

For purposes of this section—

(A) The term “resource-conserving crop” means legumes, legume-grass mixtures, legume-small grain mixtures, legume-grass-small grain mixtures, and alternative crops.

(B) The term “resource-conserving crop rotation” means a crop rotation that includes at least one resource-conserving crop and that reduces erosion, maintains or improves soil fertility and tilth, interrupts pest cycles, or conserves water.

(C) The term “farming operations and practices” includes the integration of crops and crop-plant variety selection, rotation practices, tillage systems, soil conserving and soil building practices, nutrient management strategies, biological control and integrated pest management strategies, livestock production and management systems, animal waste management systems, water and energy conservation measures, and health and safety considerations.

(D) The term “integrated farm management plan” means a comprehensive, multiyear, site-specific plan that meets the requirements of subsection (f).

(2) Crops

For purposes of paragraph (1)(A)—

(A) The term “grass” means perennial grasses commonly used for haying or grazing.

(B) The term “legume” means forage legumes (such as alfalfa or clover) or any legume grown for use as a forage or green manure, but not including any bean crop from which the seeds are harvested.

(C) The term “small grain” shall not include malting barley or wheat, except for wheat interplanted with other small grain crops for nonhuman consumption.

(D) The term “alternative crops” means experimental and industrial crops grown in

arid and semiarid regions that conserve soil and water.

(c) Eligibility

To be eligible to participate in the program established by this section, a producer must—

- (1) prepare and submit to the Secretary for approval an integrated farm management plan (hereafter referred to in this section as the “plan”);
- (2) actively apply the terms and conditions of the plan, as approved by the Secretary;
- (3) devote to a resource-conserving crop, on the average through the life of the contract, not less than 20 percent of the crop acreage bases enrolled under such program;
- (4) comply with the terms and conditions of any annual acreage limitation program in effect for the crop acreage bases contracted under the terms of this subsection; and
- (5) keep such records as the Secretary may reasonably require.

(d) Acreage

In accepting contracts for the program, the Secretary, to the extent practicable, shall enroll not less than 3,000,000, nor more than 5,000,000, acres of cropland in each of the calendar years 1991 through 1995.

(e) Contracts

The Secretary shall enter into contracts with producers to enroll acreage in the program. Such contracts shall be for a period of not less than 3 years, but may, at the producer's option, be for a longer period of time (up to 5 years) and may be renewed upon mutual agreement between the Secretary and the producer.

(f) Requirements of plans

Each plan approved by the Secretary shall—

- (1) specify the acreage and the crop acreage bases to be enrolled in the program;
- (2) describe the resource-conserving crop rotation to be implemented and maintained on such acreage during the contract period to fulfill the purposes of the program;
- (3) contain a schedule for the implementation, improvement and maintenance of the resource-conserving crop rotation described in the plan;
- (4) describe the farming operations and practices to be implemented on such acreage and how such operations and practices could reasonably be expected to result in—
 - (A) the maintenance or enhancement of the overall productivity and profitability of the farm;
 - (B) the prevention of the degradation of farmland soils, the long-term improvement of the fertility and physical properties of such soils; and
 - (C) the protection of water supplies from contamination by managing or minimizing agricultural pollutants if their management or minimization results in positive economic and environmental benefits;
- (5) assist the producer to comply with all Federal, State, and local requirements designed to protect soil, wetland, wildlife habitat, and the quality of groundwater and surface water; and

(6) contain such other terms as the Secretary may, by regulation, require.

(g) Administration; certification; termination

(1) Administration; technical assistance; flexibility; implementation; displacement

(A) Administration

The program shall be administered by the Secretary.

(B) Technical assistance

In administering the program, the Secretary, in consultation with the local conservation districts, and any State or local authorities deemed appropriate by the Secretary, shall provide technical assistance to producers in developing and implementing plans, evaluating the effectiveness of plans, and assessing the costs and benefits of farming operations and practices. The plans may draw on handbooks and technical guides and may also include other practices appropriate to the particular circumstances of the producer and the purposes of the program.

(C) Flexibility

In administering the program, the Secretary shall provide sufficient flexibility for a producer to adjust or modify the producer's plan consistent with this section, except that such adjustments or modifications must be approved by the Secretary.

(D) Minimization of adverse effect

(i) In general

Notwithstanding any other provision of this section, the Secretary shall implement this section in such a manner as to minimize any adverse economic effect on the agribusinesses and other agriculturally related economic interests within any county, State, or region that may result from a decrease of harvested acres due to the operation of this section. In carrying out this section, the Secretary may restrict the total amount of crop acreage that may be removed from production, taking into consideration the total amount of crop acreage that has, or will be, removed from production under other price support, production adjustment, or conservation program activities.

(ii) Maximize conservation goals

The Secretary shall, to the greatest extent practicable, permit producers on a farm that desire to participate in the program authorized under this section to enroll acreage adequate to maximize conservation goals on such farm and ensure economic effectiveness of the program in each individual application.

(E) Displacement

The Secretary shall not approve any plan that will result in the involuntary displacement of farm tenants or lessees by landowners through the removal of substantial portions of the farm from production of a commodity. In the case of any tenant or lessee who has rented or leased the farm (with or without a written option for annual re-

newal or periodic renewals) for a period of two or more of the immediately preceding years, the Secretary shall consider the refusal by a landlord, without reasonable cause other than simply for the purpose of enrollment in the program, to renew such rental or lease as an involuntary displacement in the absence of a written consent to such nonrenewal by the tenant or lessee.

(2) Certification

The Secretary shall certify compliance by producers with the terms and conditions of the plans.

(3) Termination

The Secretary may terminate a contract entered into with a producer under this program if—

- (A) the producer agrees to such termination, or
- (B) the producer violates the terms and conditions of such contract.

(h) Program rules

(1) Base and yield protection

Notwithstanding any other provision of law, the Secretary shall not, except as provided in paragraph (6), reduce crop acreage bases, or farm program payment yields, as a result of the planting of a resource-conserving crop as part of a resource-conserving crop rotation.

(2) Resource-conserving crops on reduced acreage

Notwithstanding the provisions of title I of the Agricultural Act of 1949 [7 U.S.C. 1441 et seq.], acreage devoted to resource-conserving crops as part of a resource-conserving crop rotation under this program may also be designated as conservation use acreage for the purpose of fulfilling any provisions under any acreage limitation or land diversion program and up to 50 percent of the acreage so designated shall be without restrictions on haying and grazing, except as provided in paragraph (5)(B), except that such acreage that is devoted to perennial cover on which cost-share assistance for the establishment of the perennial cover has been provided, shall not be credited towards the producer's resource-conserving crop requirement under a contract under this section.

(3) Barley, oats, and wheat

Notwithstanding any other provisions of this section, barley, oats, or wheat planted as part of a resource-conserving crop on reduced acreage may not be harvested in kernel form.

(4) Payment acres

Notwithstanding any other provision of this Act, the Secretary shall not reduce farm program payments of participants in this program as a result of the planting a resource-conserving crop as part of a resource-conserving crop rotation on payment acres.

(5) Haying and grazing restriction

(A) In general

The Secretary shall not make any program payments to a producer who is otherwise eligible to receive with respect to acreage en-

rolled in the program if such producer hays or grazes such acreage (excluding acreage designated as conservation use acreage) during the 5-month period in each State during which haying and grazing of conserving use acres is not allowed under the provisions of the Agricultural Act of 1949 [7 U.S.C. 1421 et seq.], or, if the crop planted on such acreage includes a small grain, before the producer harvests the small grain crop in kernel form.

(B) Limitation on permitted haying and grazing

Notwithstanding any other provision of this section, if the Secretary determines that implementation of this section will result in a significant adverse economic impact on hay or livestock prices in a particular geographic area, the Secretary may limit the quantity of hay that can be harvested or grazed from that area. Such limit may include restrictions on the number of times that hay may be harvested or grazed from the acres per year, the timing of such harvesting and grazing, or the number of years that such land may remain in the same hay stand, or a prohibition on the harvesting or grazing of hay from acres on which a small grain was not originally interplanted with the hay crop and harvested for grain.

(6) Base acre adjustments

The Secretary, only for the purpose of establishing a producer's crop acreage base under the Agricultural Act of 1949 [7 U.S.C. 1421 et seq.], may make such adjustments as the Secretary determines to be fair and equitable to reflect resource-conserving crop rotation practices that were maintained by producers prior to participation in the program and to reflect such other factors as the Secretary determines should be considered, except that the total of such adjustments in any year shall not exceed the total farm program savings in the same year that would result from the implementation of plans.

(7) Payment acreage limitation

(A) In general

No producers enrolled in a resource-conserving crop rotation shall be eligible to receive payments under farm programs for wheat, feed grains, cotton, or rice under the Agricultural Act of 1949 [7 U.S.C. 1421 et seq.] on acreage equal to the average number of traditionally underplanted acres for the three years prior to enrolling in this program.

(B) "Traditionally underplanted acreage" defined

(i) In general

Subject to clause (ii), for the purposes of this paragraph the term "traditionally underplanted acreage" means the difference in a particular year between the acreage that is part of a producer's crop acreage base that is not planted to the program crop and the part of the crop acreage base subject to an acreage limitation program or required to be set aside, but only to the extent that such number exceeds

the number of acres resulting from the reduction in payment acres under an amendment made by section 1101 of the Omnibus Budget Reconciliation Act of 1990 (Public Law 101-508; 104 Stat. 1388-1). In no case shall such acreage be less than zero.

(ii) Exception

In the case of a producer participating in a particular year in a program authorized under section 101B(c)(1)(D), 103B(c)(1)(D), 105B(c)(1)(E), or 107B(c)(1)(E)¹ of the Agricultural Act of 1949, the term “traditionally underplanted acreage” means 8 percent of the producer’s permitted acreage for such year.

CREATING A FEDERAL STRATEGY TO PROMOTE THE HEALTH OF HONEY BEES AND OTHER POLLINATORS

Memorandum of President of the United States, June 20, 2014, 79 F.R. 35903, provided:

Memorandum for Heads of Executive Departments and Agencies

Pollinators contribute substantially to the economy of the United States and are vital to keeping fruits, nuts, and vegetables in our diets. Honey bee pollination alone adds more than \$15 billion in value to agricultural crops each year in the United States. Over the past few decades, there has been a significant loss of pollinators, including honey bees, native bees, birds, bats, and butterflies, from the environment. The problem is serious and requires immediate attention to ensure the sustainability of our food production systems, avoid additional economic impact on the agricultural sector, and protect the health of the environment.

Pollinator losses have been severe. The number of migrating Monarch butterflies sank to the lowest recorded population level in 2013-14, and there is an imminent risk of failed migration. The continued loss of commercial honey bee colonies poses a threat to the economic stability of commercial beekeeping and pollination operations in the United States, which could have profound implications for agriculture and food. Severe yearly declines create concern that bee colony losses could reach a point from which the commercial pollination industry would not be able to adequately recover. The loss of native bees, which also play a key role in pollination of crops, is much less studied, but many native bee species are believed to be in decline. Scientists believe that bee losses are likely caused by a combination of stressors, including poor bee nutri-

tion, loss of forage lands, parasites, pathogens, lack of genetic diversity, and exposure to pesticides.

Given the breadth, severity, and persistence of pollinator losses, it is critical to expand Federal efforts and take new steps to reverse pollinator losses and help restore populations to healthy levels. These steps should include the development of new public-private partnerships and increased citizen engagement. Therefore, by the authority vested in me as President by the Constitution and the laws of the United States of America, I hereby direct the following:

SECTION 1. *Establishing the Pollinator Health Task Force.* There is hereby established the Pollinator Health Task Force (Task Force), to be co-chaired by the Secretary of Agriculture and the Administrator of the Environmental Protection Agency. In addition to the Co-Chairs, the Task Force shall also include the heads, or their designated representatives, from:

- (a) the Department of State;
- (b) the Department of Defense;
- (c) the Department of the Interior;
- (d) the Department of Housing and Urban Development;
- (e) the Department of Transportation;
- (f) the Department of Energy;
- (g) the Department of Education;
- (h) the Council on Environmental Quality;
- (i) the Domestic Policy Council;
- (j) the General Services Administration;
- (k) the National Science Foundation;
- (l) the National Security Council Staff;
- (m) the Office of Management and Budget;
- (n) the Office of Science and Technology Policy; and
- (o) such executive departments, agencies, and offices as the Co-Chairs may designate.

SEC. 2. *Mission and Function of the Task Force.* Within 180 days of the date of this memorandum, the Task Force shall develop a National Pollinator Health Strategy (Strategy), which shall include explicit goals, milestones, and metrics to measure progress. The Strategy shall include the following components:

(a) *Pollinator Research Action Plan.* The Strategy shall include an Action Plan (Plan) to focus Federal efforts on understanding, preventing, and recovering from pollinator losses. The Plan shall be informed by research on relevant topics and include:

(i) studies of the health of managed honey bees and native bees, including longitudinal studies, to determine the relative contributions of, and mitigation strategies for, different stressors leading to species declines and colony collapse disorder, including exposure to pesticides, poor nutrition, parasites and other pests, toxins, loss of habitat and reduced natural forage, pathogens, and unsustainable management practices;

(ii) plans for expanded collection and sharing of data related to pollinator losses, technologies for continuous monitoring of honey bee hive health, and use of public-private partnerships, as appropriate, to provide information on the status and trends of managed hive losses;

(iii) assessments of the status of native pollinators, including the Monarch butterfly and bees, and modeling of native pollinator populations and habitats;

(iv) strategies for developing affordable seed mixes, including native pollinator-friendly plants, for maintenance of honey bees and other pollinators, and guidelines for and evaluations of the effectiveness of using pollinator-friendly seed mixes for restoration and reclamation projects;

(v) identification of existing and new methods and best practices to reduce pollinator exposure to pesticides, and new cost-effective ways to control bee pests and diseases; and

(vi) strategies for targeting resources toward areas of high risk and restoration potential and prioritizing plans for restoration of pollinator habitat, based on those areas that will yield the greatest expected net benefits.

(b) *Public Education Plan.* The Strategy shall include plans for expanding and coordinating public education

programs outlining steps individuals and businesses can take to help address the loss of pollinators. It shall also include recommendations for a coordinated public education campaign aimed at individuals, corporations, small businesses, schools, libraries, and museums to significantly increase public awareness of the importance of pollinators and the steps that can be taken to protect them.

(c) *Public-Private Partnerships.* The Strategy shall include recommendations for developing public-private partnerships to build on Federal efforts to encourage the protection of pollinators and increase the quality and amount of habitat and forage for pollinators. In developing this part of the Strategy, the Task Force shall consult with external stakeholders, including State, tribal, and local governments, farmers, corporations, and nongovernmental organizations.

(d) Task Force member agencies shall report regularly to the Task Force on their efforts to implement section 3 of this memorandum.

SEC. 3. *Increasing and Improving Pollinator Habitat.* Unless otherwise specified, within 180 days of the date of this memorandum:

(a) Task Force member agencies shall develop and provide to the Task Force plans to enhance pollinator habitat, and subsequently implement, as appropriate, such plans on their managed lands and facilities, consistent with their missions and public safety. These plans may include: facility landscaping, including easements; land management; policies with respect to road and other rights-of-way; educational gardens; use of integrated vegetation and pest management; increased native vegetation; and application of pollinator-friendly best management practices and seed mixes. Task Force member agencies shall also review any new or renewing land management contracts and grants for the opportunity to include requirements for enhancing pollinator habitat.

(b) Task Force member agencies shall evaluate permit and management practices on power line, pipeline, utility, and other rights-of-way and easements, and, consistent with applicable law, make any necessary and appropriate changes to enhance pollinator habitat on Federal lands through the use of integrated vegetation and pest management and pollinator-friendly best management practices, and by supplementing existing agreements and memoranda of understanding with rights-of-way holders, where appropriate, to establish and improve pollinator habitat.

(c) Task Force member agencies shall incorporate pollinator health as a component of all future restoration and reclamation projects, as appropriate, including all annual restoration plans.

(d) The Council on Environmental Quality and the General Services Administration shall, within 90 days of the date of this memorandum, revise their respective guidance documents for designed landscapes and public buildings to incorporate, as appropriate, pollinator-friendly practices into site landscape performance requirements to create and maintain high quality habitats for pollinators. Future landscaping projects at all Federal facilities shall, to the maximum extent appropriate, use plants beneficial to pollinators.

(e) The Departments of Agriculture and the Interior shall, within 90 days of the date of this memorandum, develop best management practices for executive departments and agencies to enhance pollinator habitat on Federal lands.

(f) The Departments of Agriculture and the Interior shall establish a reserve of native seed mixes, including pollinator-friendly plants, for use on post-fire rehabilitation projects and other restoration activities.

(g) The Department of Agriculture shall, as appropriate and consistent with applicable law, substantially increase both the acreage and forage value of pollinator habitat in the Department's conservation programs, including the Conservation Reserve Program, and provide technical assistance, through collaboration with the land-grant university-based cooperative extension services, to executive departments and agencies, State,

local, and tribal governments, and other entities and individuals, including farmers and ranchers, in planting the most suitable pollinator-friendly habitats.

(h) The Department of the Interior shall assist States and State wildlife organizations, as appropriate, in identifying and implementing projects to conserve pollinators at risk of endangerment and further pollinator conservation through the revision and implementation of individual State Wildlife Action Plans. The Department of the Interior shall, upon request, provide technical support for these efforts, and keep the Task Force apprised of such collaborations.

(i) The Department of Transportation shall evaluate its current guidance for grantees and informational resources to identify opportunities to increase pollinator habitat along roadways and implement improvements, as appropriate. The Department of Transportation shall work with State Departments of Transportation and transportation associations to promote pollinator-friendly practices and corridors. The Department of Transportation shall evaluate opportunities to make railways, pipelines, and transportation facilities that are privately owned and operated aware of the need to increase pollinator habitat.

(j) The Department of Defense shall, consistent with law and the availability of appropriations, support habitat restoration projects for pollinators, and shall direct military service installations to use, when possible, pollinator-friendly native landscaping and minimize use of pesticides harmful to pollinators through integrated vegetation and pest management practices.

(k) The Army Corps of Engineers shall incorporate conservation practices for pollinator habitat improvement on the 12 million acres of lands and waters at resource development projects across the country, as appropriate.

(l) The Environmental Protection Agency shall assess the effect of pesticides, including neonicotinoids, on bee and other pollinator health and take action, as appropriate, to protect pollinators; engage State and tribal environmental, agricultural, and wildlife agencies in the development of State and tribal pollinator protection plans; encourage the incorporation of pollinator protection and habitat planting activities into green infrastructure and Superfund projects; and expedite review of registration applications for new products targeting pests harmful to pollinators.

(m) Executive departments and agencies shall, as appropriate, take immediate measures to support pollinators during the 2014 growing season and thereafter. These measures may include planting pollinator-friendly vegetation and increasing flower diversity in plantings, limiting mowing practices, and avoiding the use of pesticides in sensitive pollinator habitats through integrated vegetation and pest management practices.

SEC. 4. General Provisions. (a) This memorandum shall be implemented consistent with applicable law and subject to the availability of appropriations.

(b) Nothing in this memorandum shall be construed to impair or otherwise affect:

(i) the authority granted by law to any agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(c) Nothing in this memorandum shall be construed to require the disclosure of confidential business information or trade secrets, classified information, law enforcement sensitive information, or other information that must be protected in the interest of national security or public safety.

(d) This memorandum is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

(e) The Secretary of Agriculture is hereby authorized and directed to publish this memorandum in the Federal Register.

§ 6001. Findings and declaration of policy

(a) Findings

Congress finds that—
 (1) pecans are a native American nut that is an important food, and is a valuable part of the human diet;

(2) the production of pecans plays a significant role in the economy of the United States in that pecans are produced by thousands of pecan producers, shelled and processed by numerous shellers and processors, and pecans produced in the United States are consumed by millions of people throughout the United States and foreign countries;

(3) pecans must be high quality, readily available, handled properly, and marketed efficiently to ensure that consumers have an adequate supply of pecans;

(4) the maintenance and expansion of existing markets and development of new markets for pecans are vital to the welfare of pecan producers and those concerned with marketing, using, and producing pecans, as well as to the general economy of the United States, and necessary to ensure the ready availability and efficient marketing of pecans;

(5) there exist established State organizations conducting pecan promotion, research, and industry and consumer education programs that are invaluable to the efforts of promoting the consumption of pecans;

(6) the cooperative development, financing, and implementation of a coordinated national program of pecan promotion, research, industry information, and consumer information are necessary to maintain and expand existing markets and develop new markets for pecans; and

(7) pecans move in interstate and foreign commerce, and pecans that do not move in such channels of commerce directly burden or affect interstate commerce in pecans.

(b) Policy

It is declared to be the policy of Congress that it is in the public interest to authorize the establishment, through the exercise of the powers provided in this chapter, of an orderly procedure for developing, financing (through adequate assessments on pecans produced or imported into the United States), and carrying out an effective, continuous, coordinated program of promotion, research, industry information, and consumer information designed to—

- (1) strengthen the pecan industry's position in the marketplace;

Congress finds that—

(2) the production of mushrooms plays a significant role in the Nation's economy in that mushrooms are produced by hundreds of mushroom producers, distributed through thousands of wholesale and retail outlets, and consumed by millions of people throughout the United States and foreign countries;

(3) mushroom production benefits the environment by efficiently using agricultural by-products;

(4) mushrooms must be high quality, readily available, handled properly, and marketed efficiently to ensure that the benefits of this important product are available to the people of the United States;

(5) the maintenance and expansion of existing markets and uses, and the development of new markets and uses, for mushrooms are vital to the welfare of producers and those concerned with marketing and using mushrooms, as well as to the agricultural economy of the Nation;

(6) the cooperative development, financing, and implementation of a coordinated program of mushroom promotion, research, and consumer information are necessary to maintain and expand existing markets for mushrooms; and

(7) mushrooms move in interstate and foreign commerce, and mushrooms that do not move in such channels of commerce directly burden or affect interstate commerce in mushrooms.

(b) Policy

It is declared to be the policy of Congress that it is in the public interest to authorize the establishment, through the exercise of the powers provided in this chapter, of an orderly procedure for developing, financing through adequate assessments on mushrooms produced domestically or imported into the United States, and carrying out, an effective, continuous, and coordinated program of promotion, research, and consumer and industry information designed to—

(1) strengthen the mushroom industry's position in the marketplace;

(2) maintain and expand existing markets and uses for mushrooms; and

(3) develop new markets and uses for mushrooms.

(c) Construction

Nothing in this chapter may be construed to provide for the control of production or otherwise limit the right of individual producers to produce mushrooms.

CHAPTER 91—LIME PROMOTION, RESEARCH, AND CONSUMER INFORMATION

Sec.

6201.	Findings, purposes, and limitations.
6202.	Definitions.
6203.	Issuance of orders.
6204.	Required terms in orders.
6205.	Permissive terms in orders.
6206.	Petition and review.
6207.	Enforcement.

6210.	Suspension and termination.
6211.	Authorization of appropriations.
6212.	Regulations.

§ 6201. Findings, purposes, and limitations**(a) Findings**

Congress finds that—

(1) domestically produced limes are grown by many individual producers;

(2) virtually all domestically produced limes are grown in the States of Florida and California;

(3) limes move in interstate and foreign commerce, and limes that do not move in such channels of commerce directly burden or affect interstate commerce in limes;

(4) in recent years, large quantities of limes have been imported into the United States;

(5) the maintenance and expansion of existing domestic and foreign markets for limes and the development of additional and improved markets for limes are vital to the welfare of lime producers and other persons concerned with producing, marketing, or processing limes;

(6) a coordinated program of research, promotion, and consumer information regarding limes is necessary for the maintenance and development of such markets; and

(7) lime producers, lime producer-handlers, lime handlers, and lime importers are unable to implement and finance such a program without cooperative action.

(b) Purposes

The purposes of this chapter are—

(1) to authorize the establishment of an orderly procedure for the development and financing (through an adequate assessment) of an effective and coordinated program of research, promotion, and consumer information regarding limes designed—

(A) to strengthen the position of the lime industry in domestic and foreign markets, and

(B) to maintain, develop, and expand markets for limes; and

(2) to treat domestically produced and imported limes equitably.

(c) Limitations

Nothing in this chapter shall be construed to require quality standards for limes, control the production of limes, or otherwise limit the right of the individual producers to produce limes.

(Pub. L. 101-624, title XIX, §1952, Nov. 28, 1990, 104 Stat. 3870.)

SHORT TITLE OF 1993 AMENDMENT

Pub. L. 103-194, §1, Dec. 14, 1993, 107 Stat. 2294, provided that: "This Act [amending sections 6202, 6204, and 6209 of this title and enacting provisions set out as a note below] may be cited as the 'Lime Research, Promotion, and Consumer Information Improvement Act'."

SHORT TITLE

Pub. L. 101-624, title XIX, §1951, Nov. 28, 1990, 104 Stat. 3870, provided that: "This subtitle [subtitle D (§§1951-1963) of title XIX of Pub. L. 101-624, enacting this chapter] may be cited as the 'Lime Research, Promotion, and Consumer Information Act of 1990'."

LEGISLATIVE FINDINGS AND PURPOSE OF PUB. L. 103-194

Pub. L. 103-194, §2, Dec. 14, 1993, 107 Stat. 2294, provided that:

"(a) FINDINGS.—Congress finds the following:

"(1) The Lime Research, Promotion, and Consumer Information Act of 1990 [7 U.S.C. 6201 et seq.] was enacted on November 28, 1990, for the purpose of establishing an orderly procedure for the development and financing of an effective and coordinated program of research, promotion, and consumer information to strengthen the domestic and foreign markets for limes.

"(2) The lime research, promotion, and consumer information order required by such Act became effective on January 27, 1992.

"(3) Although the intent of such Act was to cover seedless limes, the definition of the term 'lime' in section 1953(6) of such Act [7 U.S.C. 6202(6)] applies to seeded limes. Therefore, the Act and the order need to be revised before a research, promotion, and consumer information program on seedless limes can go into effect.

"(4) Since the enactment of the Lime Research, Promotion, and Consumer Information Act of 1990, the United States production of fresh market limes has plummeted and the volume of imports has risen dramatically. The drop in United States production is primarily due to damage to lime orchards in the State of Florida by Hurricane Andrew in August 1992. United States production is not expected to reach pre-Hurricane Andrew levels for possibly two to three

years because a majority of the United States production of limes is in Florida.

"(b) PURPOSES.—The purpose of this Act [see Short Title of 1993 Amendment note above] is—

"(1) to revise the definition of the term 'lime' in order to cover seedless and not seeded limes;

"(2) to increase the exemption level;

"(3) to delay the initial referendum date; and

"(4) to alter the composition of the Lime Board."

(2) the production of soybeans plays a significant role in the economy of the United States in that soybeans are produced by thousands of soybean producers, processed by numerous processing entities, and soybeans and soybean products produced in the United States are consumed by people and livestock throughout the United States and foreign countries;

(3) soybeans and soybean products should be readily available and marketed efficiently to ensure that consumers have an adequate supply of soybean products at a reasonable price;

(4) the maintenance and expansion of existing markets and development of new markets for soybeans and soybean products are vital to the welfare of soybean producers and pro-

cessors and those concerned with marketing soybeans and soybean products, as well as to the general economy of the United States, and are necessary to ensure the ready availability and efficient marketing of soybeans and soybean products;

(5) there exist established State and national organizations conducting soybean promotion, research, and consumer education programs that are valuable to the efforts of promoting the consumption of soybeans and soybean products;

(6) the cooperative development, financing, and implementation of a coordinated national program of soybean promotion, research, consumer information, and industry information are necessary to maintain and expand existing markets and develop new markets for soybeans and soybean products; and

(7) soybeans and soybean products move in interstate and foreign commerce, and soybeans and soybean products that do not move in such channels of commerce directly burden or affect interstate commerce in soybeans and soybean products.

(b) Policy

Congress declares that it is in the public interest to authorize the establishment, through the exercise of the powers provided in this chapter, of an orderly procedure for developing, financing through assessments on domestically-produced soybeans, and implementing a program of promotion, research, consumer information, and industry information designed to strengthen the soybean industry's position in the marketplace, to maintain and expand existing domestic and foreign markets and uses for soybeans and soybean products, and to develop new markets and uses for soybeans and soybean products.

(c) Construction

Nothing in this chapter may be construed to provide for the control of production or otherwise limit the right of individual producers to produce soybeans.

(iv) if its average annual soybean production is 200,000,000 bushels or more, shall be entitled to 4 seats on the Board.

(D) Determination of average annual soybean production

For purposes of subparagraphs (A), (B), (C), and (F), the Secretary shall determine average annual soybean production applicable to a crop year by using the average of the 5 previous crops of soybeans, excluding the crop in which production was the highest and the crop in which production was the lowest.

(E) Reapportionment of seats

At the end of each 3 year period beginning with the 3 year period starting on the effective date of the order, the Secretary, if necessary, shall adjust any unit to conform with subparagraphs (A) and (B). If the Secretary makes such an adjustment, the Secretary shall reapportion the seats on the Board to conform with subparagraph (C) and any modifications made under subparagraph (F). If payment of refunds following the initial referendum conducted under section 6305(a) of this title is authorized by producers, in making such adjustments, the Secretary shall exclude, from each State's annual soybean production, those bushels of soybeans on which such refunds are paid.

(F) Adjustment of levels of production

At the end of each 3 year period beginning with the 3 year period starting on the effective date of the order, the Board may recommend to the Secretary, to the extent it determines appropriate, changes in the levels of production used in subparagraphs (A), (B), and (C) to determine per-unit representation on the Board. The Secretary may amend the order to make such changes in levels of production used to determine per-unit representation. Any such amendment to the order shall not be subject to a referendum of producers. A unit may not, as a result of any modification under this subparagraph, lose Board seats to which it is entitled at the time the order is initially issued

unless its average annual production, as determined under subparagraph (D), declines below the levels required for representation, as specified in subparagraphs (A), (B), and (C).

(3) Nominations

(A) In general

The Secretary shall appoint soybean producers to seats established under paragraph (2) from nominations submitted by each unit. Each unit shall submit to the Secretary at least two nominations for each appointment to the Board to which the unit is entitled, as determined under paragraph (2).

(B) Method for obtaining nominations

(i) Initially-established Board

(I) State units

The Secretary shall solicit nominations for each seat on the initially-established Board to which a State unit is entitled from the State soybean board in the State that submits satisfactory evidence to the Secretary that such board meets the criteria of subparagraph (A) or (B) of section 6302(14) of this title. If no such organization exists in the unit, the Secretary shall solicit nominations for appointments in such manner as the Secretary determines appropriate.

(II) Combined units

The Secretary shall solicit nominations for each seat on the initially-established Board to which a combined unit is entitled in such manner as the Secretary determines appropriate, taking into consideration the recommendations of any State soybean board operating in the unit that submits to the Secretary satisfactory evidence that such board meets the criteria described in subparagraph (A) or (B) of section 6302(14) of this title.

(ii) Subsequent appointment

(I) State units

Nominations for each subsequent appointment to a seat on the Board to which a State unit is entitled shall be made by the qualified State soybean board in the unit. If no such organization exists in the unit, the Secretary shall solicit nominations for such appointment in such manner as the Secretary determines appropriate.

(II) Combined units

The Secretary shall solicit nominations for each subsequent appointment to the Board to which a combined unit is entitled in such manner as the Secretary determines appropriate, taking into consideration the recommendations of any qualified State soybean board operating in the unit.

(iii) Rejection

The Secretary may reject any nomination submitted by a unit under this paragraph. If there are insufficient nominations from which to appoint members to

the Board as a result of the Secretary rejecting the nominations submitted by a unit, the unit shall submit additional nominations, as provided in this paragraph.

(4) Terms

Each appointment to the Board shall be for a term of 3 years, except that appointments to the initially-established Board shall be proportionately for 1-year, 2-year, and 3-year terms. No person may serve more than three consecutive 3-year terms.

(5) Compensation

Board members shall serve without compensation, but shall be reimbursed for their reasonable expenses incurred in performing their duties as members of the Board.

(6) Temporary appointments

(A) Appointment

Notwithstanding paragraphs (1) through (5), the Secretary, under procedures established by the Secretary, shall appoint to the initially-established Board up to three temporary members to serve in addition to the members appointed as otherwise provided in this subsection, as the Secretary determines appropriate for transition purposes under the criteria set out in subparagraph (B). Each such temporary member shall be appointed for a single term not to exceed 3 years.

(B) Representation of certain States

The Secretary shall make temporary appointments to the initially-established Board to ensure, to the extent practicable, that each State with a State soybean board that, prior to November 28, 1990, was contributing State soybean promotion and research assessment funds to national soybean promotion and research efforts has representation on the initially-established Board that reflects the relative contributions of such State to the national soybean promotion and research effort.

(7) Meetings

The order shall provide for at least one meeting of the Board annually and specify the circumstances under which additional special meetings of the Board may be held.

(c) Powers and duties of Board

The order shall define the powers and duties of the Board and shall include the power and duty—

(1) to administer the order in accordance with the terms and provisions of the order;

(2) to make regulations to effectuate the terms and provisions of the order;

(3) if the Board exercises its authority to establish the Committee described in subsection (g)—

(A) to elect members of the Board to serve on the Committee; and

(B) if the Board assigns to the Committee the power to develop and submit budgets as provided for in subsection (h)(1), to approve, modify, or reject budgets submitted by the Committee;

(4) to submit budgets to the Secretary for the approval or disapproval of the Secretary;

(5) to contract with appropriate persons to implement plans or projects;

(6) to contract with qualified State soybean boards to implement programs in their States;

(7) to receive, investigate, and report to the Secretary complaints of violations of the order;

(8) to recommend to the Secretary amendments to the order;

(9) to provide the Secretary with prior notice of meetings of the Board and meetings of committees of the Board to permit the Secretary, or a designated representative, to attend such meetings; and

(10) to provide not less than annually a report to producers accounting for funds and describing programs implemented, and such reports shall be made available to the public on request.

(d) Board voting procedures

(1) In general

The order shall establish procedures for the conduct of voting by the Board, as provided in this subsection. On or after the end of the 3-year period beginning on the effective date of the order, the Board may recommend to the Secretary changes in the voting procedures of the Board and the Secretary may amend the order to make such changes. Such changes shall not be subject to a referendum of producers.

(2) Number of votes per member

Each member of the Board shall be entitled, in any vote conducted by the Board, to cast the number of votes determined under the following rules:

(A) In general

Each member shall be entitled to cast one vote unless a roll call vote is conducted. On a roll call vote, each member shall be entitled to cast such additional votes as are assigned to the member under subparagraph (B).

(i) Assessment level

Except as provided in clause (ii), each unit shall be allotted one vote for each percent, or portion of a percent, of the total amount of assessments remitted to the Board that was remitted from the unit (net of any refunds made under subsection (l)(2)), on the average, during each of the 3 previous fiscal years of the Board.

(ii) First three fiscal years

(I) First fiscal year

During the first fiscal year of the Board, each unit shall be allotted one vote for each percent, or portion of a percent, of the total production of soybeans in the United States that was produced in the unit, on the average, during each

of the 3 immediately preceding crop years.

(II) Second and third fiscal years

The order shall provide appropriate adjustments of the procedure for the allotment of votes under clause (i) to apply to allotments of votes during the second and third fiscal years of the Board.

(iii) Division of votes within units

A unit's total votes under clause (i) or (ii) shall be divided equally among all the members present and voting representing that unit. The procedures established by the order shall provide for the equitable disposition of fractional votes assigned to a member under such division of a unit's vote.

(3) Motions

(A) In general

Except as provided in subparagraph (B), a motion shall carry if approved by a simple majority of members of the Board casting votes.

(B) Roll call votes

Any member of the Board may call for a roll call vote on any motion. Except as otherwise provided in the bylaws adopted by the Board, whenever a roll call vote is conducted, the motion shall carry only if it is approved by a simple majority of all votes cast and a simple majority of all units voting (with the vote of each unit determined by a simple majority of all votes cast by members in that unit).

(4) Committee votes

In any vote conducted by a committee of the Board, each member of the committee shall have one vote.

(5) Proxies

A member may not cast votes by proxy.

The Board shall submit such budgets or any substantial modification thereof to the Secretary for the Secretary's approval.

(2) Limitation

No expenditure of funds may be made by the Board unless such expenditure is authorized under a budget or modification approved by the Secretary.

(f) Plans and projects

The order shall provide that the Board shall review or, on its own initiative, develop plans or projects of promotion, research, consumer information, and industry information, to be paid for with funds received by the Board. (C) Reimbursement of organization

If the staff of national, nonprofit, producer-governed organizations that represent producers of soybeans are used by the Board, the staff of such organizations shall not receive compensation directly from the Board, but such organizations shall be reimbursed for the reasonable expenses of their staffs, including salaries, incurred in performing staff duties on behalf of, and authorized by, the Board.

(3) Limitation on administrative costs

The order shall provide that costs incurred by the Board in administering the order (including the cost of staff but not including administrative costs incurred by the Secretary) during any fiscal year shall not exceed 5 percent of the projected level of assessments to be collected by the Board, net of any refunds to be made under subsection (l)(2) of this section, for that fiscal year.

(j) Contracts and agreements**(1) Authority**

To ensure coordination and efficient use of funds, the order shall provide that the Board may enter into contracts or agreements for the implementation and carrying out of the activities authorized by this chapter with national, nonprofit, producer-governed organizations that represent producers of soybeans, and for the payment thereof with funds received by the Board under the order.

(2) Coordination

To enhance coordination, the Board, when entering into contracts or agreements for the implementation and carrying out of activities authorized by this chapter, shall ensure that all plans or projects implemented for consumer information, industry information, promotion, or research are each implemented by a single entity. There shall not be in force, at any one time, more than one contract or agreement for implementation of plans or projects for consumer information, for industry information, for promotion, or for research, except that, upon approval of the Secretary, the Board may contract with qualified State soybean boards to implement plans or projects within their respective States.

(3) Terms

Any contract or agreement entered into under this subsection shall provide that—

(A) the contracting party shall develop and submit to the Board a plan or project together with a budget or budgets that shall show estimated costs to be incurred for such plan or project;

(B) the plan or project shall not become effective until it has been approved by the Secretary; and

(C) the contracting party shall keep accurate records of all of its transactions, account for funds received and expended, including staff time, salaries, and expenses expended on behalf of Board activities, make periodic reports to the Board of activities conducted, and make such other reports as the Board or the Secretary may require.

(4) Communications to producers

The order may provide that—

(A) the Board may enter into contracts or agreements with qualified State soybean boards that apply therefor and agree to the terms thereof, for the implementation of plans or projects to coordinate and facilitate communications to producers regarding the conduct of activities under the order and for the payment of the costs of the plans or projects with funds received by the Board under the order; and

(B) to facilitate the funding of plans or projects described in subparagraph (A), if the order does not authorize the payment of refunds, the Board shall allocate for such funding each year an amount not less than the cumulative amount of all producer contributions to qualified State soybean boards during the previous year that the State boards were unable to retain, and forwarded to the Board, because producers received refunds on such State contributions, as determined by the Board based on information submitted by the qualified State soybean boards.

(5) Apportionment of funds to qualified State soybean boards**(A) In general**

In using the funds allocated each year under paragraph (4)(B) for payment of the costs of contracts or agreements described in paragraph (4)(A), subject to subparagraph

(B), the Board shall apportion such allocated funds among States so that each qualified State soybean board receives an amount equal to the amount of such allocated funds attributable to refunds in the State during the previous year, as determined by the Board based on information submitted by the qualified State soybean boards.

(B) Exception

The Board shall not be required to apportion funds to a qualified State soybean board, as provided in subparagraph (A), if—

(i) the qualified State soybean board has not entered into a contract or agreement with the Board for the implementation of plans or projects described in paragraph (4)(A); or

(ii) the amount to be apportioned to the qualified State soybean board is less than the cost to the Board of overseeing the use of such apportionment during the year involved, and the contract or agreement shall so provide.

(3) account for the receipt and disbursement of all funds entrusted to the Board.

The Board shall cause its books and records to be audited by an independent auditor at the end of each fiscal year and a report of such audit to be submitted to the Secretary. The Secretary shall make such report available to the public upon request.

(l) Assessments**(1) In general****(A) First purchasers****(i) Collection**

The order shall provide that each first purchaser of soybeans from a producer shall collect, in the manner prescribed by the order, an assessment from the producer and remit the assessment to the Board. The Board shall use qualified State soybean boards to collect such assessments in States in which such boards operate.

(ii) Rate

The rate of assessment prescribed by the order shall be one-half of 1 percent of the net market price of soybeans sold by the producer to the first purchaser.

(iii) One assessment

No more than one assessment shall be made on any soybeans.

(B) Direct processing

The order shall provide that any person processing soybeans of that person's own production and marketing such soybeans or soybean products made from such soybeans shall remit to the Board or the qualified

State soybean board, in the manner prescribed by the order, an assessment established at a rate equivalent to the rate provided for in subparagraph (A)(ii).

(2) Refunds

(A) Refunds prior to initial referendum

(i) In general

The order shall provide that, during the period prior to the approval of the continuation of the initial order in the referendum provided for in section 6305(a) of this title, as determined by the Secretary, each producer shall have the right to demand and receive from the Board a refund of any assessment collected from such producer if—

(I) such producer is responsible for paying the assessment; and

(II) such producer does not support the programs, projects, or activities implemented under the order.

(ii) By Board

During the period referred to in clause (i), refunds shall be provided equally from the Board and, where applicable, the qualified State soybean board, as determined by the Secretary.

(B) Administration

Subject to subparagraph (C)(i), any demand by a producer for a refund of an assessment under this paragraph shall be made in accordance with regulations, on a form, and within the time period (not to exceed 90 days) prescribed by the Board.

(C) Submission of refund demands

(i) In general

In each State in which a qualified State soybean board collects assessments, as provided in paragraph (1)(A)(i), producers shall submit demands for refunds of assessments to the qualified State soybean board. Such board shall provide notice to producers, in a manner prescribed by the Board, of their right to such refunds, and shall process such submissions under procedures established by State law applicable to refunds of assessments on soybeans, except that if no refunds are allowed under State law, such submissions shall be processed under procedures established under this paragraph.

(ii) No qualified State soybean board

In each State in which there is no qualified State soybean board, producers shall submit demands for refunds of assessments directly to the Board.

(D) Time limit for making refund

Subject to subparagraph (C)(i), each refund to a producer of an assessment under this paragraph shall be made as soon as practicable, but in no event more than 60 days, after submission of proof satisfactory to the qualified State soybean board or the Board that the producer paid the assessment for which refund is demanded.

(E) Order not favored

If the Secretary determines that producers do not favor the continuation of the order in

the referendum provided for in section 6305(a) of this title, refunds shall be made under this paragraph on collected assessments until such collections are terminated, as provided in section 6305(a) of this title.

(F) Refunds after the initial referendum

(i) In general

The order shall contain provisions relating to refunds after the approval of the order in the initial referendum under section 6305(a) of this title as required in this subparagraph.

(ii) Availability

Effective for the period beginning on the date the Secretary determines the result of the initial referendum under section 6305(a) of this title and ending on a date (not later than 18 months thereafter) established by the Secretary, the qualified State soybean board and, where no qualified State soybean board exists, the Board shall make refunds available to soybean producers at the end of the fiscal year from escrowed funds, as provided for in clause (vii). Such refunds shall be made available, under the procedures specified in subparagraphs (A) through (D) to the extent not inconsistent with this subparagraph, to producers who have requested refunds during such period.

(iii) Poll

Not later than the end of the period provided for in clause (ii), the Secretary shall conduct a poll of soybean producers, using the procedures provided for in section 6305(b)(3) of this title, to determine if producers support the conduct of a referendum on the continuance of the payment of refunds under the order.

(iv) Referendum

If the Secretary determines, based on the poll conducted under clause (iii), that the conduct of a referendum is supported by at least 20 percent of the producers (not in excess of one-fifth of which may be producers in any one State) who, during a representative period, have been engaged in the production of soybeans, the Secretary shall conduct a referendum among all such producers for the purpose of determining whether such producers favor the continuation of the payment of refunds under the order. Such referendum shall be conducted, under the procedures provided for in section 6305 of this title, not later than 1 year after the Secretary determines, based on the poll, that the referendum is required.

(v) Continued refunds

If the Secretary conducts a referendum under clause (iv), the qualified State soybean board and, where no qualified State soybean board exists, the Board shall continue to make refunds available to producers as provided for in clause (ii) during the period prior to the conduct of the referendum, which shall be payable at the end of

the period from the escrowed funds, as provided in clause (vii).

(vi) Continuation or cessation of refunds

If the Secretary determines, in the referendum conducted under clause (iv), that continuation of the payment of refunds is favored by a majority of the producers voting in such referendum, the qualified State soybean board and, where no qualified State soybean board exists, the Board shall continue to make refunds available to producers as provided for in clause (ii) for each 1-year period that follows until such time as soybean producers approve an amendment to the order to eliminate such refunds. Such refunds shall be payable at the end of each such 1-year period from escrowed funds, as provided in clause (vii). If the Secretary determines in the referendum that continuation of such refunds is not favored by a majority of producers voting in the referendum, the right to such refunds shall cease immediately.

(vii) Escrow accounts

(I) Establishment

The qualified State soybean board and, for producers in States where no qualified State soybean board exists, the Board shall establish escrow accounts to be used to pay refunds under clause (ii) and, if necessary, clauses (v) and (vi).

(II) Separate accounts

The qualified State soybean board and, where no qualified State soybean board exists, the Board shall establish separate escrow accounts for each State from which producer assessments are collected for the purpose of making refunds under clauses (ii), (v), and (vi), respectively.

(III) Deposits

The qualified State soybean board and, where no qualified State soybean board exists, the Board shall deposit into its escrow account for refunds under clause (ii), (v), or (vi), as appropriate, 10 percent of the total assessment collected by the qualified State soybean board and, where no qualified State soybean board exists, the Board (including the assessment provided under paragraph (2) and contributions by producers to qualified State soybean boards under paragraph (4)), during the time period involved.

(IV) Refunds made from escrow account

Refunds requested by producers from a State under clause (ii) (or if refunds are available under clause (v) or (vi)) during the time period involved shall be made from the escrow account that is applicable to that clause for such State.

(V) Proration

If the funds deposited in a State account established under subclause (I) for purposes described under clauses (ii), (v), and (vi) are not sufficient to honor all requests for refunds made by producers

from that State during the time period involved, the qualified State soybean board and, where no qualified State soybean board exists, the Board shall prorate the amount of such refunds from the State's account among all producers from that State that request refunds.

(VI) Surplus funds

Any funds not refunded to producers in a State under this clause shall be divided equally between the Board and the qualified State soybean board of such State. Such funds shall be used to carry out programs under this chapter.

(VII) Refund period

In applying this clause to refunds under clause (vi), each annual refund period shall be treated separately.

(3) Use

The assessments (net of any refunds under paragraph (2)) shall be used for—

(A) payment of the expenses incurred in implementation and administration of the order;

(B) the establishment of a reasonable reserve; and

(C) reimbursement to the Secretary of administrative costs incurred by the Secretary to implement and administer the order, other than one-half of the cost incurred for the referendum conducted under paragraph (2)(F).

(4) Credit for contributions to qualified State soybean boards

A producer who can establish that such producer is contributing to a qualified State soybean board shall receive credit, in determining the assessment due to the Board from such producer, for contributions to the qualified State soybean board of up to one-quarter of 1 percent of the net market price of soybeans or the equivalent thereof. For purposes of this chapter, there shall be only one qualified State soybean board in each State. A producer may receive a credit under this paragraph only if the contribution is to the qualified State soybean board in the State in which the soybeans are produced, except that the Board, with the approval of the Secretary, may authorize exceptions to such State-of-origin rule as are appropriate to ensure effective coordination of collection procedures among States.

(5) Single process of assessment

The procedures in the order for the collection of assessments shall ensure, to the extent practicable, that such soybeans are subject to a single process of assessment under the order.

(m) Credit for certain costs to States

The order shall provide that the Board may provide a credit to each qualified State soybean board of an amount not to exceed one-half of any fees paid to State governmental agencies or first purchasers for collection of the assessments if the payment of such fees by the qualified State soybean board is required by State law enacted prior to November 28, 1990, except that the Board may not provide a credit to any

qualified State soybean board of an amount that exceeds 2.5 percent of the amount of assessments collected and remitted to the Board under subsection (l).

(n) Minimum level of assessments to States

(1) Pre-referendum period

The order shall contain provisions to ensure that, during the period prior to the conduct of the referendum provided for in section 6305(a) of this title, each qualified State soybean board receives annually an amount of funds equal to the average amount that the State board collected from assessments during each of the State board's fiscal years 1984 through 1988 (excluding the year in which such collections were the highest and the year in which such collections were the lowest), as determined by the Secretary and subject to paragraph (3).

(2) Post-referendum period

The order shall provide, effective after the conduct of the referendum provided for in section 6305(a) of this title, subject to paragraph (3), that the Board annually shall provide a credit to each qualified State soybean board of an amount by which—

(A) the amount equal to 1 cent times the average number of bushels of soybeans produced in the State during each of the preceding 5 years (excluding the year in which the production is the highest and the year in which the production is the lowest); exceeds

(B) the total amount collected by the qualified State soybean board from assessments on producers minus the amount of assessments remitted to the Board during such year under subsection (l).

(3) Limitation

The total amount of credits under paragraph (1) or (2) and assessments retained by the qualified State soybean board for a year may not exceed the total amount of assessments collected in that State under subsection (l) (net of any refunds made under paragraph (2) of subsection (l)) in that year.

(o) Investment of funds

(1) In general

The order shall provide that the Board, with the approval of the Secretary, may invest assessment funds collected by the Board under the order, pending their disbursement, only in—

(A) obligations of the United States or any agency thereof;

(1) In general

Except as otherwise provided in paragraph (2), the order shall prohibit any funds collected by the Board under the order from being used in any manner for the purpose of influencing legislation or governmental action or policy.

(B) the communication to appropriate government officials of information relating to the conduct, implementation, or results of promotion, research, consumer information, or industry information activities under the order; or

(C) any action designed to market soybeans or soybean products directly to a foreign government or political subdivision thereof.

(q) Books and records of first purchasers and certain producers

(1) Recordkeeping

(A) In general

The order shall require that each first purchaser of soybeans and any person processing soybeans of that person's own production maintain and make available for inspection by the Board or the Secretary such books and records as may be required by the order and file reports at the time, in the manner, and having the content prescribed by the order. The order shall exempt small producers processing soybeans of their own production from such recordkeeping and reporting requirements if they are not required to pay assessments under the order.

(B) "Small producer" defined

The order shall define the term "small producer" as such term is used in subparagraph (A).

(2) Use of information

(A) In general

Information maintained under paragraph (1) shall be made available to the Secretary as is appropriate for the administration or enforcement of this chapter, or any order or regulation issued under this chapter.

(B) Permitted uses

Information obtained under the authority of this chapter shall be made available to any agency or officer of the Federal Government for—

- (i) the implementation of this chapter;
- (ii) any investigatory or enforcement action necessary for the implementation of this chapter; or
- (iii) any civil or criminal law enforcement activity if the activity is authorized by law.

(C) Other exceptions

Nothing in subparagraph (A) may be deemed to prohibit—

- (ii) the publication, by direction of the Secretary, of the name of any person violating any order, together with a statement of the particular provisions of the order violated by such person.

(4) Penalty

Any person who willfully violates the provisions of this subsection, upon conviction, shall be subject to a fine of not more than \$1,000, or to imprisonment for not more than one year, or both, and, if a member or an agent of the Board or an officer or employee of the Department, shall be removed from office.

(r) Incidental terms and conditions

The order shall provide terms and conditions, not inconsistent with the provisions of this chapter, as necessary to effectuate the provisions of the order, including provisions for the assessment of a penalty for each late payment of assessments under subsection (l).

Not earlier than 18 months or later than 36 months following issuance of an order under section 6303 of this title, the Secretary shall conduct a referendum among producers who, during a representative period as determined by the Secretary, have been engaged in the production of soybeans for the purpose of ascertaining whether the order then in effect shall be continued.

(2) Advance notice

The Secretary shall, to the extent practicable, provide broad public notice in advance

of any referendum. Any such notice shall be provided without advertising expenses by means of newspapers, county newsletters, the electronic media, and press releases, through the use of notices posted in State and county Extension Service offices and county Agricultural Stabilization and Conservation Service offices, and by other appropriate means specified in the order. Such notice shall include information on when the referendum will be held, registration and voting requirements, rules regarding absentee voting, and other pertinent facts.

(3) Approval of order

Such order shall be continued only if the Secretary determines that the order has been approved by not less than a majority of the producers voting in the referendum.

(4) Disapproval of order

If continuation of the order is not approved by a majority of those voting in the referendum, the Secretary shall terminate collection of assessments under the order within 6 months after the referendum and shall terminate the order in an orderly manner as soon as practicable.

(b) Additional referenda**(1) In general****(A) Requirement**

After the initial referendum on an order, the Secretary shall conduct additional referenda, as described in subparagraph (C), if requested by a representative group of producers, as described in subparagraph (B).

(B) Representative group of producers

An additional referendum on an order shall be conducted if requested by 10 percent or more of the producers who during a representative period have been engaged in the production of soybeans, of which group of requesting producers not in excess of one-fifth may be producers in any one State, as determined by the Secretary.

(C) Eligible producers

Each additional referendum shall be conducted among all producers who, during a representative period, as determined by the Secretary, have been engaged in the production of soybeans to determine whether such producers favor the termination or suspension of the order.

(2) Disapproval of order

If the Secretary determines, in any referendum conducted under paragraph (1), that suspension or termination of the order is favored by a majority of the producers voting in the referendum, the Secretary shall suspend or terminate, as appropriate, collection of assessments under the order within 6 months after such determination and shall suspend or terminate the order, as appropriate, in an orderly manner as soon as practicable after such determination.

(3) Opportunity to request additional referenda**(A) In general**

To facilitate the periodic determination as to whether producers favor the conduct of an

additional referendum under this subsection, the Secretary, 5 years after the conduct of a referendum under this chapter and every 5 years thereafter, shall provide soybean producers an opportunity to request an additional referendum, as provided in this paragraph.

(B) Method of making request

(i) In-person requests

To carry out subparagraph (A), the Secretary shall establish a procedure under which producers may request a reconfirmation referendum in person at county extension offices or county Agricultural Stabilization and Conservation Service offices during a period established by the Secretary, or as provided in clause (ii).

(ii) Mail-in requests

In lieu of making such requests in person, producers may make requests by mail. Mail-in requests shall be postmarked no later than the end of the period established under clause (i) for in-person requests. To facilitate such submission of requests by mail, the Secretary may make mail-in request forms available to producers.

(C) Notifications

The Secretary shall publish a notice in the Federal Register, and the Board shall provide written notification to producers, not later than 60 days prior to the end of the period established under subparagraph (B)(i) for in-person requests, of the producers' opportunity to request the additional referendum. Such notifications shall explain the producers' rights to, and the procedure specified in this subsection for, the conduct of an additional referendum, the purpose of the referendum, and the date and method by which producers may act to request the additional referenda under this paragraph. The Secretary shall take such other actions as the Secretary determines are necessary to ensure that producers are made aware of the opportunity to request an additional referendum on the order.

(D) Action by Secretary

As soon as practicable following the submission of requests for a reconsideration referendum, the Secretary shall determine whether a sufficient number of producers have requested an additional referendum, and take other steps to conduct an additional referendum, as are required under paragraph (1).

(E) Time limit

Any additional referendum requested under the procedures provided in this paragraph shall be conducted not later than 1 year after the Secretary determines that a representative group of producers, as described in paragraph (1)(B), have requested the conduct of such referendum.

(c) Procedures

(1) Reimbursement of Secretary

The Secretary shall be reimbursed from assessments collected by the Board for any ex-

(2) Date

Each referendum shall be conducted for a reasonable period of time not to exceed 3 days, established by the Secretary, under a procedure whereby producers intending to vote in the referendum shall certify that they were engaged in the production of soybeans during the representative period and, at the same time, shall be provided an opportunity to vote in the referendum.

(3) Place

Referenda shall be conducted at county extension offices and provision shall be made for absentee mail ballots to be provided on request. Absentee mail ballots shall be furnished by the Secretary on request made in person, by mail, or by telephone.

§ 6401. Findings and declaration of policy**(a) Findings**

Congress finds that—

(1) fluid milk products are basic foods and are a primary source of required nutrients such as calcium, and otherwise are a valuable part of the human diet;

(2) fluid milk products must be readily available and marketed efficiently to ensure that the people of the United States receive adequate nourishment;

(3) the dairy industry plays a significant role in the economy of the United States, in that milk is produced by thousands of milk producers and dairy products (including fluid milk products) are consumed every day by millions of people in the United States;

(4) the processing of milk into fluid milk products and the marketing of such products are important to the dairy industry because the fluid milk segment of the dairy market contributes substantially to ensuring that the prices paid to milk producers for raw milk are stable and adequate to maintain the overall strength of the dairy industry;

(5) the maintenance and expansion of markets for fluid milk products are vital to the Nation's fluid milk processors and milk producers, as well as to the general economy of the United States;

(6) the congressional purpose underlying this chapter is to maintain and expand markets for fluid milk products, not to maintain or expand any processor's share of those markets and that the chapter does not prohibit or restrict individual advertising or promotion of fluid milk products since the programs created and funded by this chapter are not extended to replace individual advertising and promotion efforts;

(7) the cooperative development, financing, and implementation of a coordinated program of advertising and promotion of fluid milk products is necessary to maintain and expand markets for fluid milk products;

(8) it is appropriate to finance the cooperative program described in paragraph (6)¹ with self-help assessments paid by the fluid milk processors; and

(9) fluid milk products move in interstate and foreign commerce, and fluid milk products that do not move in such channels of commerce directly burden or affect interstate commerce in fluid milk products.

(b) Policy

It is declared to be the policy of Congress that it is in the public interest to authorize the establishment, through the exercise of powers provided in this chapter, of an orderly procedure for developing, financing, through adequate assessments on fluid milk products produced in the United States and carrying out an effective, continuous, and coordinated program of promotion, research, and consumer information designed to strengthen the position of the dairy industry in the marketplace and maintain and expand domestic and foreign markets and uses for fluid milk products, the purpose of which is not to compete with or replace individual advertising or promotion efforts designed to promote individual brand name or trade name fluid milk products, but rather to maintain and expand the markets for all fluid milk products, with the goal and purpose of this chapter being a national governmental goal that authorizes and

funds programs that result in government speech promoting government objectives.

AMENDMENTS

1996—Subsec. (a)(6) to (9). Pub. L. 104-127, §146(a), added par. (6) and redesignated former pars. (6) to (8) as (7) to (9), respectively.

Subsec. (b). Pub. L. 104-127, §146(b), amended heading and text of subsec. (b) generally. Text read as follows: “It is declared to be the policy of Congress that it is in the public interest to authorize the establishment, through the exercise of the powers provided in this chapter, of an orderly procedure for developing, financing (through adequate assessments on fluid milk products produced in the United States) and carrying out an effective and coordinated program of advertising designed to strengthen the position of the dairy industry in the marketplace and to maintain and expand markets and uses for fluid milk products produced in the United States. Nothing in this chapter shall be construed to provide for the control of production or otherwise limit the right of individual milk producers to produce milk.”

SUBCHAPTER II—NATIONAL FOREST-DEPENDENT RURAL COMMUNITIES

§ 6611. Findings and purposes

(a) Findings

The Congress finds that—

(1) the economic well-being of rural America is vital to our national growth and prosperity;

(2) the economic well-being of many rural communities depends upon the goods and services that are derived from National Forest System land;

(3) the economies of many of these communities suffer from a lack of industrial and business diversity;

(4) this lack of diversity is particularly serious in communities whose economies are predominantly dependent on timber and recreation resources and where management decisions made on National Forest System land by Federal and private organizations may disrupt the supply of those resources;

(5) the Forest Service has expertise and resources that could be directed to promote modernization and economic diversification of existing industries and services based on natural resources;

(6) the Forest Service has the technical expertise to provide leadership, in cooperation with other governmental agencies and the private sector, to assist rural communities dependent upon National Forest System land resources to upgrade existing industries and diversify by developing new economic activity in non-forest-related industries; and

(7) technical assistance, training, education, and other assistance provided by the Department of Agriculture can be targeted to provide immediate help to those rural communities in greatest need.

(b) Purposes

The purposes of this subchapter are—

(1) to provide assistance to rural communities that are located in or near National Forest System land and that are economically dependent upon natural resources or are likely to be economically disadvantaged by Federal or private sector land management practices;

(2) to aid in diversifying such communities’ economic bases; and

(3) to improve the economic, social, and environmental well-being of rural America.

SHORT TITLE

Pub. L. 101-624, title XXIV, §2401, Nov. 28, 1990, 104 Stat. 4058, provided that: "This title [enacting this chapter and amending sections 1601 and 1602 of Title 16, Conservation] may be cited as the 'Global Climate Change Prevention Act of 1990'."

§ 6702. Study of global climate change, agriculture, and forestry

(a) Crops

(1) In general

The Secretary shall study the effects of global climate change on agriculture and forestry. The study shall, at a minimum address—

(A) the effects of simultaneous increases in temperature and carbon dioxide on crops of economic significance;

(B) the effects of more frequent or more severe weather events on such crops;

(C) the effects of potential changes in hydrologic regimes on current crop yields;

(D) the economic effects of widespread and increased drought frequency in the south, midwest, and plains States; and

(E) changes in pest problems due to higher temperatures.

(2) Further studies

If the results of the study conducted under paragraph (1) warrant, the Secretary shall conduct further studies that address the means of mitigating the effects of global climate change on crops of economic significance that shall, at a minimum—

(A) identify whether climate change tolerance can be bred into these crops, the amount of time necessary for any such breeding, and the effects on the income of farmers;

(B) evaluate existing genetic resource and breeding programs for crops for their ability to develop new varieties that can tolerate potential climate changes; and

(C) assess the potential for the development of crop varieties that are tolerant to climate changes and other environmental stresses, such as drought, pests, and salinity.

(b) Forests

The Secretary shall conduct a study on the emissions of methane, nitrous oxide, and hydrocarbons from tropical and temperate forests, the manner in which such emissions may affect

global climate change; the manner in which global climate change may affect such emissions; and the manner in which such emissions may be reduced through management practices. The study shall, at a minimum—

(1) obtain measurements of nitrous oxide, methane, and nonmethane hydrocarbons from tropical and temperate forests;

(2) determine the manner in which the nitrous oxide, methane, and nonmethane hydrocarbon emissions from temperate and tropical forest systems will respond due to climate change; and

(3) identify and address alternative management strategies for temperate and tropical forests that may mitigate any negative effects of global climate change.

(c) Reports

The Secretary shall submit reports of the studies conducted under subsections (a) and (b) within 3 and 6 years, respectively, after November 28, 1990, to the Committee on Agriculture and the Committee on Science, Space, and Technology of the House of Representatives, and the Committee on Agriculture, Nutrition, and Forestry of the Senate. In addition, interim reports regarding such studies shall be provided by the Secretary to such Committees annually, with recommendations for actions which may be taken to mitigate the negative effects of global climate change and to adapt to global climate changes and related phenomena.

§ 6801. Findings and declaration of policy

(a) Findings

Congress finds that—

(1) fresh cut flowers and fresh cut greens are an integral part of life in the United States, are enjoyed by millions of persons every year for a multitude of special purposes (especially important personal events), and contribute a natural and beautiful element to the human environment;

(2)(A) cut flowers and cut greens are produced by many individual producers throughout the United States as well as in other countries, and are handled and marketed by thousands of small-sized and medium-sized businesses; and

(B) the production, handling, and marketing of cut flowers and cut greens constitute a key segment of the United States horticultural industry and thus a significant part of the overall agricultural economy of the United States;

(3) handlers play a vital role in the marketing of cut flowers and cut greens in that handlers—

(A) purchase most of the cut flowers and cut greens marketed by producers;

(B) prepare the cut flowers and cut greens for retail consumption;

(C) serve as an intermediary between the source of the product and the retailer;

(D) otherwise facilitate the entry of cut flowers and cut greens into the current of domestic commerce; and

(E) add efficiencies to the market process that ensure the availability of a much greater variety of the product to retailers and consumers;

(4) it is widely recognized that it is in the public interest and important to the agricultural economy of the United States to provide an adequate, steady supply of cut flowers and cut greens at reasonable prices to the consumers of the United States;

(5)(A) cut flowers and cut greens move in interstate and foreign commerce; and

(B) cut flowers and cut greens that do not move in interstate or foreign channels of commerce but only in intrastate commerce directly affect interstate commerce in cut flowers and cut greens;

(6) the maintenance and expansion of markets in existence on December 14, 1993, and the

development of new or improved markets or uses for cut flowers and cut greens, are needed to preserve and strengthen the economic viability of the domestic cut flowers and cut greens industry for the benefit of producers, handlers, retailers, and the entire floral industry;

(7) generic programs of promotion and consumer information can be effective in maintaining and developing markets for cut flowers and cut greens, and have the advantage of equally enhancing the market position for all cut flowers and cut greens;

(8) because cut flowers and cut greens producers are primarily agriculture-oriented rather than promotion-oriented, and because the floral marketing industry within the United States is comprised mainly of small-sized and medium-sized businesses, the development and implementation of an adequate and coordinated national program of generic promotion and consumer information necessary for the maintenance of markets in existence on December 14, 1993, and the development of new markets for cut flowers and cut greens have been prevented;

(9) there exist established State and commodity-specific producer-funded programs of promotion and research that are valuable efforts to expand markets for domestic producers of cut flowers and cut greens and that will benefit from the promotion and consumer information program authorized by this chapter in that the program will enhance the market development efforts of the programs for domestic producers;

(10) an effective and coordinated method for ensuring cooperative and collective action in providing for and financing a nationwide program of generic promotion and consumer information is needed to ensure that the cut flowers and cut greens industry will be able to provide, obtain, and implement programs of promotion and consumer information necessary to maintain, expand, and develop markets for cut flowers and cut greens; and

(11) the most efficient method of financing such a nationwide program is to assess cut flowers and cut greens at the point at which the flowers and greens are sold by handlers into the retail market.

(b) Policy and purpose

It is the policy of Congress that it is in the public interest, and it is the purpose of this chapter, to authorize the establishment, through the exercise of the powers provided in this chapter, of an orderly procedure for the development and financing (through an adequate assessment on cut flowers and cut greens sold by handlers to retailers and related entities in the United States) of an effective and coordinated program of generic promotion, consumer information, and related research designed to strengthen the position of the cut flowers and cut greens industry in the marketplace and to maintain, develop, and expand markets for cut flowers and cut greens.

(2) Cut flowers and cut greens

(A) In general

(i) Cut flowers

The term "cut flowers" includes all flowers cut from growing plants that are used as fresh-cut flowers and that are produced under cover or in field operations.

(ii) Cut greens

(iii) Exclusions

The terms "cut flowers" and "cut greens" do not include a foliage plant, floral supply, or flowering plant.

(B) Substantial portion

In any case in which a handler packages cut flowers or cut greens with hard goods in an article (such as a gift basket or similar presentation) for sale to a retailer, the PromoFlor Council may determine, under procedures specified in the order, that the cut flowers or cut greens in the article do not constitute a substantial portion of the value of the article and that, based on the determination, the article shall not be treated as an article of cut flowers or cut greens subject to assessment under the order.

(3) Gross sales price

The term "gross sales price" means the total amount of the transaction in a sale of cut flowers or cut greens from a handler to a retailer or exempt handler.

(4) Handler

(A) Qualified handler

(i) In general

The term "qualified handler" means a person (including a cooperative) operating in the cut flowers or cut greens marketing system—

(I) that sells domestic or imported cut flowers or cut greens to retailers and exempt handlers; and

(II) whose annual sales of cut flowers and cut greens to retailers and exempt handlers are \$750,000 or more.

(ii) Inclusions and exclusions

(I) In general

The term "qualified handler" includes—

(aa) bouquet manufacturers (subject to paragraph (2)(B));

(bb) an auction house that clears the sale of cut flowers and cut greens to retailers and exempt handlers through a central clearinghouse; and

(cc) a distribution center that is owned or controlled by a retailer if the predominant retail business activity of the retailer is floral sales.

(II) Transfers

For the purpose of determining sales of cut flowers and cut greens to a retailer from a distribution center described in subclause (I)(cc), each non-sale transfer to a retailer shall be treated as a sale in an amount calculated as provided in subparagraph (C).

(III) Transportation or delivery

The term “qualified handler” does not include a person who only physically transports or delivers cut flowers or cut greens.

(iii) Construction

(I) In general

The term “qualified handler” includes an importer or producer that sells cut flowers or cut greens that the importer or producer has imported into the United States or produced, respectively, directly to consumers and whose sales of the cut flowers and cut greens (as calculated under subparagraph (C)), together with sales of cut flowers and cut greens to retailers or exempt handlers, annually are \$750,000 or more.

(II) Sales

Each direct sale to a consumer by a qualified handler described in subclause (I) shall be treated as a sale to a retailer or exempt handler in an amount calculated as provided in subparagraph (C).

(III) Definitions

As used in this paragraph:

(aa) Importer

The term “importer” has the meaning provided in section 6804(b)(2)(B)(i)(I) of this title.

(bb) Producer

The term “producer” has the meaning provided in section 6804(b)(2)(B)(ii)(I) of this title.

(B) Exempt handler

The term “exempt handler” means a person who would otherwise be considered to be a qualified handler, except that the annual sales by the person of cut flowers and cut greens to retailers and other exempt handlers are less than \$750,000.

(C) Annual sales determined

(i) In general

Except as provided in clause (ii), for the purpose of determining the amount of annual sales of cut flowers and cut greens

under subparagraphs (A) and (B), the amount of a sale shall be determined on the basis of the gross sales price of the cut flowers and cut greens sold.

(ii) Transfers

(I) Non-sale transfers and direct sales by importers

Subject to subclause (III), in the case of a non-sale transfer of cut flowers or cut greens from a distribution center (as described in subparagraph (A)(ii)(II)), or a direct sale to a consumer by an importer (as described in subparagraph (A)(iii)), the amount of the sale shall be equal to the sum of—

(aa) the price paid by the distribution center or importer, respectively, to acquire the cut flowers or cut greens; and

(bb) an amount determined by multiplying the acquisition price referred to in item (aa) by a uniform percentage established by an order to represent the mark-up of a wholesale handler on a sale to a retailer.

(B) Eligibility

A separate facility of a qualified handler shall be considered to be an eligible separate facility if the annual sales of cut flowers and cut greens to retailers and exempt handlers from the facility are \$750,000 or more.

Amounts so provided shall be in addition to any other amounts available to carry out the activity. In carrying out this section, the Secretary may transfer funds into existing or new accounts as determined by the Secretary.

(c) Waiver of activity or project limitations

The Secretary of Agriculture may waive any limits on population, income, or cost-sharing otherwise applicable to an activity or project for which amounts in the Rural Development Disaster Assistance Fund will be obligated under subsection (b), except that, if the amounts proposed to be obligated in connection with the disaster would exceed the amount specified in subsection (h), the notification required by that subsection shall include information and justification with regard to any waivers to be granted under this subsection.

(d) Treatment of certain amounts in Fund

Amounts appropriated directly to the Rural Development Disaster Assistance Fund by this Act or any subsequent Act for a specific purpose shall be available only for that purpose until such time as the transfer authority provided by subsection (f) takes effect with regard to the

amounts. Only subsection (c), including the notification requirements of such subsection, and subsections (g) and (i) apply to amounts described in this subsection.

(f) Transfer of other appropriations to Fund

Unless otherwise specifically provided in an appropriations Act, the Secretary of Agriculture may transfer to or within the Rural Development Disaster Assistance Fund, and merge with other amounts generally appropriated to the Fund, the available unobligated balance of any amounts that are appropriated for fiscal year 2009 or any subsequent fiscal year for programs and activities of the Rural Development Mission Area to respond to a disaster and are designated by the Congress as an emergency requirement if, in advance of the transfer, the Secretary determines that the unobligated amounts are no longer needed to respond to the disaster for which the amounts were originally appropriated and the Secretary provides a certification of this determination to the Committees on Appropriations of the House of Representatives and the Senate. A transfer of unobligated amounts with respect to a disaster may not be made under this subsection until after the end of the two-year period beginning on the date on which the amounts were originally appropriated for that disaster.

(g) Administrative expenses

In addition to any other funds available to the Secretary of Agriculture to cover administrative costs, the Secretary may use up to 3 percent of the amounts allocated from the Rural Development Disaster Assistance Fund for a specific disaster to cover administrative costs of Rural Development's State and local offices in the areas affected by the disaster to carry out disaster related activities.

(h) Limitation on per disaster obligations

Amounts in the Rural Development Disaster Assistance Fund, except for amounts described in subsection (d) that are appropriated to the Fund and obligated in accordance with that subsection, may not be obligated in excess of \$1,000,000 for a disaster until at least 15 days after the date on which the Secretary of Agriculture notifies the Committees on Appropriations of the House of Representatives and the Senate of the Secretary's determination to obli-

gate additional amounts and the reasons for the determination. The Secretary may not obligate more than 50 percent of the funds contained in the Rural Development Disaster Assistance Fund for any one disaster unless the Secretary declares that there is a specific and extreme need that additional funds must be provided in response to such disaster at time of the obligation.

(2) the production of sheep and sheep products play a significant role in the economy of the United States in that sheep and sheep products are produced throughout the United States and used by millions of people throughout the United States and foreign countries;

(3) sheep and sheep products must be high quality, readily available, handled properly, and marketed efficiently to ensure that consumers have an adequate supply of sheep products;

(4) the maintenance and expansion of existing markets and development of new markets for sheep and sheep products are vital to the welfare of sheep producers and persons concerned with marketing, using, and producing sheep and sheep products, as well as to the general economy of the United States, and necessary to ensure the ready availability and efficient marketing of sheep and sheep products;

(2) maintain and expand existing domestic and foreign markets and uses for sheep and sheep products; and

(3) develop new markets and uses for sheep and sheep products.

(c) Construction

Nothing in this chapter provides for the control of production, or otherwise limits, the right of any person to produce sheep or sheep products.

Northern Europe, adjusted for the value of any certificate issued under subsection (a), exceeds the Northern Europe price by more than 1.25 cents per pound, there shall immediately be in effect a special import quota.

(C) Tight domestic supply

During any month for which the Secretary estimates the season-ending United States upland cotton stocks-to-use ratio, as determined under subparagraph (D), to be below 16 percent, the Secretary, in making the determination under subparagraph (B), shall not adjust the Friday through Thursday average price quotation for the lowest-priced United States growth, as quoted for Middling (M) 1 $\frac{3}{32}$ -inch cotton, delivered C.I.F. Northern Europe, for the value of any certificates issued under subsection (a).

(D) Season-ending United States stocks-to-use ratio

For the purposes of making estimates under subparagraph (C), the Secretary shall, on a monthly basis, estimate and report the season-ending United States upland cotton stocks-to-use ratio, excluding projected raw cotton imports but including the quantity of raw cotton that has been imported into the United States during the marketing year.

(c) Limited global import quota for upland cotton**(1) In general**

The President shall carry out an import quota program that provides that whenever the Secretary determines and announces that the average price of the base quality of upland cotton, as determined by the Secretary, in the designated spot markets for a month exceeded 130 percent of the average price of such quality of cotton in the markets for the preceding 36 months, notwithstanding any other provision of law, there shall immediately be in effect a limited global import quota subject to the following conditions:

(A) Quantity

The quantity of the quota shall be equal to 21 days of domestic mill consumption of upland cotton at the seasonally adjusted average rate of the most recent 3 months for which data are available.

§ 7253. Consolidation and reform of Federal milk marketing orders

(a) Amendment of orders

(1) Required consolidation

The Secretary shall amend Federal milk marketing orders issued under section 608c of this title to limit the number of Federal milk marketing orders to not less than 10 and not more than 14 orders.

(2) Inclusion of California as separate order

Upon the petition and approval of California dairy producers in the manner provided in section 608c of this title, the Secretary shall designate the State of California as a separate Federal milk marketing order. The order covering California shall have the right to reblend and distribute order receipts to recognize quota value. Subsection (b) does not apply to the authority of the Secretary under this subsection.

(3) Related issues addressed in consolidation

Among the issues the Secretary is authorized to implement as part of the consolidation of Federal milk marketing orders are the following:

(A) The use of utilization rates and multiple basing points for the pricing of fluid milk.

(B) The use of uniform multiple component pricing when developing 1 or more basic formula prices for manufacturing milk.

(4) Effect of existing law

In implementing the consolidation of Federal milk marketing orders and related reforms under this subsection, the Secretary may not consider, or base any decision on, the table contained in section 608c(5)(A) of this title.

(b) Expedited process

(1) Use of informal rulemaking

To implement the consolidation of Federal milk marketing orders and related reforms under subsection (a), the Secretary shall use the notice and comment procedures provided in section 553 of title 5.

(2) Time limitations

(A) Proposed amendments

The Secretary shall announce the proposed amendments to be made under subsection (a) not later than 2 years after April 4, 1996.

(B) Final amendments

The Secretary shall implement the amendments not later than 3 years after April 4, 1996.

(3) Effect of court order

The actions authorized by this subsection are intended to ensure the timely publication and implementation of new and amended Federal milk marketing orders. In the event that the Secretary is enjoined or otherwise restrained by a court order from publishing or implementing the consolidation and related reforms under subsection (a), the length of time for which that injunction or other restraining order is effective shall be added to the time limitations specified in paragraph (2) thereby extending those time limitations by a period of time equal to the period of time for which the injunction or other restraining order is effective.

(c) Failure to timely consolidate orders

If the Secretary fails to implement the consolidation required under subsection (a)(1) within the time period required under subsection (b)(2)(B) (plus any additional period provided under subsection (b)(3)), the Secretary may not assess or collect assessments from milk producers or handlers under such section 608c of this title for marketing order administration and services provided under such section after the end of that period until the consolidation is completed. The Secretary may not reduce the level of services provided under the section on account of the prohibition against assessments, but shall rather cover the cost of marketing order administration and services through funds available for the Agricultural Marketing Service of the Department.

(d) Report regarding further reforms**(1) Report required**

Not later than April 1, 1997, the Secretary shall submit to Congress a report—

(A) reviewing the Federal milk marketing order system established pursuant to section 608c of this title in light of the reforms required by subsection (a);

“(b) IMPLEMENTATION OF FINAL RULE FOR MILK ORDER REFORM.—Subject to subsection (c), the final rule shall take effect, and be implemented by the Secretary of Agriculture, on the first day of the first month beginning at least 30 days after the date of the enactment of this Act [Nov. 29, 1999].

“(c) USE OF OPTION 1A FOR PRICING CLASS I MILK.—In lieu of the Class I price differentials specified in the final rule, the Secretary of Agriculture shall price fluid or Class I milk under the Federal milk marketing orders using the Class I price differentials identified as Option 1A ‘Location-Specific Differentials Analysis’ in the proposed rule published in the Federal Register on January 30, 1998 (63 Fed. Reg. 4802, 4809), except that the Secretary shall include the corrections and modifications to such Class I differentials made by the Secretary through April 2, 1999.

“(d) EFFECT OF PRIOR ANNOUNCEMENT OF MINIMUM PRICES.—If the Secretary of Agriculture announces minimum prices for milk under Federal milk marketing orders pursuant to section 1000.50 of title 7, Code of Federal Regulations, before the effective date specified in subsection (b), the minimum prices so announced before that date shall be the only applicable minimum prices under Federal milk marketing orders for the month or months for which the prices have been announced.

“(e) IMPLEMENTATION OF REQUIREMENT.—The implementation of the final rule, as modified by subsection (c), shall not be subject to any of the following:

“(1) The notice and hearing requirements of section 8c(3) of the Agricultural Adjustment Act (7 U.S.C. 608c(3)), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, or the notice and comment provisions of section 553 of title 5, United States Code.

“(5) Any decision, restraining order, or injunction issued by a United States court before the date of the enactment of this Act [Nov. 29, 1999].”

FURTHER RULEMAKING TO DEVELOP PRICING METHODS FOR CLASS III AND CLASS IV MILK UNDER MARKETING ORDERS

Pub. L. 106-113, div. B, §1000(a)(8) [§2], Nov. 29, 1999, 113 Stat. 1536, 1501A-518, provided that:

“(a) CONGRESSIONAL FINDING.—The Class III and Class IV milk pricing formulas included in the final decision for the consolidation and reform of Federal milk marketing orders, as published in the Federal Register on April 2, 1999 (64 Fed. Reg. 16025), do not adequately reflect public comment on the original proposed rule pub-

lished in the Federal Register on January 30, 1998 (63 Fed. Reg. 4802), and are sufficiently different from the proposed rule and any comments submitted with regard to the proposed rule that further emergency rule-making is merited.

“(b) RULEMAKING REQUIRED.—The Secretary of Agriculture shall conduct rulemaking, on the record after an opportunity for an agency hearing, to reconsider the Class III and Class IV milk pricing formulas included in the final rule for the consolidation and reform of Federal milk marketing orders that was published in the Federal Register on September 1, 1999 (64 Fed. Reg. 47897–48021).

“(c) TIME PERIOD FOR RULEMAKING.—On December 1, 2000, the Secretary of Agriculture shall publish in the Federal Register a final decision on the Class III and Class IV milk pricing formulas. The resulting formulas shall take effect, and be implemented by the Secretary, on January 1, 2001.

“(d) EFFECT OF COURT ORDER.—The actions authorized by subsections (b) and (c) are intended to ensure the timely publication and implementation of new pricing formulas for Class III and Class IV milk. In the event that the Secretary of Agriculture is enjoined or otherwise restrained by a court order from implementing a final decision within the time period specified in subsection (c), the length of time for which that injunction or other restraining order is effective shall be added to the time limitations specified in subsection (c) thereby extending those time limitations by a period of time equal to the period of time for which the injunction or other restraining order is effective.

“(e) FAILURE TO TIMELY COMPLETE RULEMAKING.—If the Secretary of Agriculture fails to implement new Class III and Class IV milk pricing formulas within the time period required under subsection (c) (plus any additional period provided under subsection (d)), the Secretary may not assess or collect assessments from milk producers or handlers under section 8c of the Agricultural Adjustment Act (7 U.S.C. 608c), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, for marketing order administration and services provided under such section after the end of that period until the pricing formulas are implemented. The Secretary may not reduce the level of services provided under that section on account of the prohibition against assessments, but shall rather cover the cost of marketing order administration and services through funds available for the Agricultural Marketing Service of the Department.

“(f) IMPLEMENTATION OF REQUIREMENT.—The implementation of the final decision on new Class III and Class IV milk pricing formulas shall not be subject to congressional review under chapter 8 of title 5, United States Code.”

Nothing in this Act or any other provision of law shall be construed to preempt, prohibit, or otherwise limit the authority of the State of California, directly or indirectly, to establish or continue to effect any law, regulation, or requirement regarding—

- (1) the percentage of milk solids or solids not fat in fluid milk products sold at retail or marketed in the State of California; or
- (2) the labeling of such fluid milk products with regard to milk solids or solids not fat.

(b) “Manufacturing allowance” defined

In this section, the term “manufacturing allowance” means—

(1) the amount by which the product price value of butter and nonfat dry milk manufactured from a hundred pounds of milk containing 3.5 pounds of butterfat and 8.7 pounds of milk solids not fat resulting from a State’s yield and product price formulas exceeds the class price for the milk used to produce those products; or

(2) the amount by which the product price value of cheese manufactured from a hundred pounds of milk containing 3.5 pounds of butterfat and 8.7 pounds of milk solids not fat resulting from a State’s yield and product price formulas exceeds the class price for the milk used to produce cheese.

(c) Effect of violation

If the Secretary determines following a hearing that a State has in effect a manufacturing allowance that exceeds the manufacturing allowance authorized in subsection (a), the Secretary shall suspend purchases of cheddar cheese, butter, and nonfat dry milk produced in that State until such time as the State complies with such subsection.

(d) Effective date; implementation

This section (other than subsection (e)¹) shall be effective during the period beginning on the first day of the first month beginning after April 4, 1996, and ending on December 31, 1999. (B) Minimum payments

(i) In general

Subject to clause (ii), the Secretary may establish appropriate minimum payments for purposes of this paragraph.

(ii) Limitation

In the case of sugar beets, the minimum payment established under clause (i) shall not exceed the rate of payment provided for under the applicable contract between a sugar beet producer and a sugar beet processor.

(3) Administration

The Secretary may not impose or enforce any prenotification requirement, or similar

(e) Loans for in-process sugar

(1) Definition of in-process sugars and syrups

In this subsection, the term “in-process sugars and syrups” does not include raw sugar, liquid sugar, invert sugar, invert syrup, or other finished product that is otherwise eligible for a loan under subsection (a) or (b).

(4) Further processing on forfeiture

(B) Transfer to corporation

Once the in-process sugars and syrups are fully processed into raw cane sugar or refined beet sugar, the processor shall transfer the sugar to the Commodity Credit Corporation.

 - (II) the loan rate the processor received under paragraph (3); by
- (ii) the quantity of sugar transferred to the Secretary.

If the processor does not forfeit the collateral as described in paragraph (4), but instead further processes the in-process sugars and syrups into raw cane sugar or refined beet sugar and repays the loan on the in-process sugars and syrups, the processor may obtain a loan under subsection (a) or (b) for the raw cane sugar or refined beet sugar, as appropriate.

(6) Term of loan

The term of a loan made under this subsection for a quantity of in-process sugars and

syrups, when combined with the term of a loan made with respect to the raw cane sugar or refined beet sugar derived from the in-process sugars and syrups, may not exceed 9 months, consistent with subsection (c).

(f) Avoiding forfeitures; Corporation inventory disposition

If a reduction in the quantity of production accepted under subparagraph (A) involves sugar beets or sugarcane that has already been planted, the sugar beets or sugarcane so planted may not be used for any commercial purpose other than as a bioenergy feedstock.

(C) Additional authority

The authority provided under this paragraph is in addition to any authority of the Commodity Credit Corporation under any other law.

(B) Reduction in benefits

(i) In general

During the first 4 crop years of planting, as determined by the Secretary, native sod acreage that has been tilled for the production of an annual crop after February 7, 2014, shall be subject to a reduction in benefits under this section as described in this subparagraph.

(ii) De minimis acreage exemption

The Secretary shall exempt areas of 5 acres or less from clause (i).

(iii) Reduction

For purposes of the reduction in benefits for the acreage described in clause (i)—

(I) the approved yield shall be determined by using a yield equal to 65 percent of the transitional yield of the producer; and

(II) the service fees or premiums for crops planted on native sod shall be equal to 200 percent of the amount determined in subsections¹ (l)(2) or (k), as applicable, but in no case shall exceed the amount determined in subsection (l)(2)(B)(ii).

(C) Application

This paragraph shall only apply to native sod acreage in the States of Minnesota, Iowa, North Dakota, South Dakota, Montana, and Nebraska.

On making a determination described in subsection (a)(3), the Secretary shall provide assistance under this section to producers of an eligible crop that have suffered a loss as a result of the cause described in subsection (a)(3).

(B) Aquaculture producers

On making a determination described in subsection (a)(3) for aquaculture producers, the Secretary shall provide assistance under this section to aquaculture producers from all losses related to drought.

(3) Prevented planting

Subject to paragraph (1), the Secretary shall make a prevented planting noninsured crop disaster assistance payment if the producer is prevented from planting more than 35 percent of the acreage intended for the eligible crop because of drought, flood, or other natural disaster, as determined by the Secretary.

(4) Area trigger

The Secretary shall provide assistance to individual producers without any requirement of an area loss.

(d) Payment

The Secretary shall make available to a producer eligible for noninsured assistance under this section a payment computed by multiplying—

(1) the quantity that is less than 50 percent of the established yield for the crop; by

(2)(A) in the case of each of the 1996 through 1998 crop years, 60 percent of the average market price for the crop (or any comparable coverage determined by the Secretary); or

(B) in the case of each of the 1999 and subsequent crop years, 55 percent of the average market price for the crop (or any comparable coverage determined by the Secretary); by

(3) a payment rate for the type of crop (as determined by the Secretary) that—

(A) in the case of a crop that is produced with a significant and variable harvesting expense, reflects the decreasing cost incurred in the production cycle for the crop that is—

(ii) planted but not harvested; and

(iii) prevented from being planted because of drought, flood, or other natural disaster (as determined by the Secretary); and

(B) in the case of a crop that is not produced with a significant and variable harvesting expense, as determined by the Secretary.

(e) Yield determinations

(1) Establishment

The Secretary shall establish farm yields for purposes of providing noninsured crop disaster assistance under this section.

(2) Actual production history

The Secretary shall determine yield coverage using the actual production history of the producer over a period of not less than the 4 previous consecutive crop years and not more than 10 consecutive crop years. Subject to paragraph (3), the yield for the year in which noninsured crop disaster assistance is sought shall be equal to the average of the actual production history of the producer during the period considered.

(3) Assignment of yield

If a producer does not submit adequate documentation of production history to determine a crop yield under paragraph (2), the Secretary shall assign to the producer a yield equal to not less than 65 percent of the transitional yield of the producer (adjusted to reflect actual production reflected in the records acceptable to the Secretary for continuous years), as specified in regulations issued by the Secretary based on production history requirements.

(4) Prohibition on assigned yields in certain counties

(A) In general

(i) Documentation

If sufficient data are available to demonstrate that the acreage of a crop in a county for the crop year has increased by more than 100 percent over any year in the preceding 7 crop years or, if data are not available, if the acreage of the crop in the county has increased significantly from the previous crop years, a producer must provide such detailed documentation of production costs, acres planted, and yield for the crop year for which benefits are being claimed as is required by the Secretary. If the Secretary determines that the documentation provided is not sufficient, the Secretary may require documenting proof that the crop, had the crop been harvested, could have been marketed at a reasonable price.

(ii) Prohibition

Except as provided in subparagraph (B), a producer who produces a crop on a farm located in a county described in clause (i) may not obtain an assigned yield.

(B) Exception

A crop or a producer shall not be subject to this subsection if—

(i) the planted acreage of the producer for the crop has been inspected by a third party acceptable to the Secretary; or

(ii)(I) the County Executive Director and the State Executive Director recommend an exemption from the requirement to the Administrator of the Agency; and

(II) the Administrator approves the recommendation.

(5) Limitation on receipt of subsequent assigned yield

A producer who receives an assigned yield for the current year of a natural disaster because required production records were not

submitted to the local office of the Department shall not be eligible for an assigned yield for the year of the next natural disaster unless the required production records of the previous 1 or more years (as applicable) are provided to the local office.

(6) Yield variations due to different farming practices

The Secretary shall ensure that noninsured crop disaster assistance accurately reflects significant yield variations due to different farming practices, such as between irrigated and nonirrigated acreage.

(f) Contract payments

A producer who has received a guaranteed payment for production, as opposed to delivery, of a crop pursuant to a contract shall have the production of the producer adjusted upward by the amount of the production equal to the amount of the contract payment received.

(g) Use of Commodity Credit Corporation

The Secretary may use the funds of the Commodity Credit Corporation to carry out this section.

(h) Exclusions

Noninsured crop disaster assistance under this section shall not cover losses due to—

- (1) the neglect or malfeasance of the producer;
- (2) the failure of the producer to reseed to the same crop in those areas and under such circumstances where it is customary to reseed; or
- (3) the failure of the producer to follow good farming practices, as determined by the Secretary.

(i) Payment and income limitations

(1) Definitions

In this subsection, the terms “legal entity” and “person” have the meanings given those terms in section 1308(a) of this title.

(2) Payment limitation

The total amount of payments received, directly or indirectly, by a person or legal entity (excluding a joint venture or general partnership) for any crop year may not exceed \$125,000.

(3) Limitation on multiple benefits for same loss

(A) In general

Except as provided in subparagraph (B), if a producer who is eligible to receive benefits under this section is also eligible to receive assistance for the same loss under any other program administered by the Secretary, the producer shall be required to elect whether to receive benefits under this section or under the other program, but not both.

(B) Exception

Subparagraph (A) shall not apply to emergency loans under subtitle C of the Consolidated Farm and Rural Development Act (7 U.S.C. 1961 et seq.).

(4) Adjusted gross income limitation

A person or legal entity that has an average adjusted gross income in excess of the average

adjusted gross income limitation applicable under section 1308-3a(b)(1)(A)² of this title, or a successor provision, shall not be eligible to receive noninsured crop disaster assistance under this section.

(5) Regulations

The Secretary shall issue regulations prescribing such rules as the Secretary determines necessary—

(A) to ensure a fair and equitable application of section 1308 of this title, the general payment limitation regulations of the Secretary, and the limitations established under this subsection; and

(B) to ensure that payments under this section are attributed to a person or legal entity (excluding a joint venture or general partnership) in accordance with the terms and conditions of sections 1308 through 1308-3a of this title, as determined by the Secretary.

(j) Omitted

(k) Service fee

(1) In general

To be eligible to receive assistance for an eligible crop for a crop year under this section, a producer shall pay to the Secretary (at the time at which the producer submits the application under subsection (b)(1)) a service fee for the eligible crop in an amount that is equal to the lesser of—

- (A) \$250 per crop per county; or
- (B) \$750 per producer per county, but not to exceed a total of \$1,875 per producer.

(3) Use

The Secretary shall deposit service fees collected under this subsection in the Commodity Credit Corporation Fund.

(l) Payment equivalent to additional coverage

(1) In general

The Secretary shall make available noninsured assistance under this subsection (other than for crops and grasses used for grazing) at a payment amount that is equivalent to an indemnity for additional coverage under subsections (c) and (h) of section 1508 of this title and equal to the product obtained by multiplying—

- (A) the amount that—
 - (i) the additional coverage yield, which shall be equal to the product obtained by multiplying—
 - (I) an amount not less than 50 percent nor more than 65 percent, as elected by the producer and specified in 5-percent increments; and

(i) in the case of a crop that is produced with a significant and variable harvesting expense, the decreasing cost incurred in the production cycle for the crop that is, as applicable—

(I) harvested;

(II) planted but not harvested; or

(III) prevented from being planted because of drought, flood, or other natural disaster, as determined by the Secretary; or

(ii) in the case of a crop that is produced without a significant and variable harvesting expense, such rate as shall be determined by the Secretary.

(2) Service fee and premium

To be eligible to receive a payment under this subsection, a producer shall pay—

(A) the service fee required by subsection (k); and

(B) the lesser of—

(i) the sum of the premiums for each eligible crop, with the premium for each eligible crop obtained by multiplying—

SUBCHAPTER I—COMMODITY PROMOTION AND EVALUATION

§ 7401. Commodity promotion and evaluation

(a) “Commodity promotion law” defined

In this section, the term “commodity promotion law” means a Federal law that provides for the establishment and operation of a promotion program regarding an agricultural commodity that includes a combination of promotion, research, industry information, or consumer information activities, is funded by mandatory assessments on producers or processors, and is designed to maintain or expand markets and uses for the commodity (as determined by the Secretary). The term includes—

(1) the marketing promotion provisions under section 608c(6)(I) of this title;

(2) Public Law 89-502 (7 U.S.C. 2101 et seq.);

(3) title III of Public Law 91-670 (7 U.S.C. 2611 et seq.);

(4) Public Law 93-428 (7 U.S.C. 2701 et seq.);

(5) Public Law 94-294 (7 U.S.C. 2901 et seq.);

(6) subtitle B of title I of Public Law 98-180 (7 U.S.C. 4501 et seq.);

(7) Public Law 98-590 (7 U.S.C. 4601 et seq.);

(8) subtitle B of title XVI of Public Law 99-198 (7 U.S.C. 4801 et seq.);

(9) subtitle C of title XVI of Public Law 99-198 (7 U.S.C. 4901 et seq.);

(10) subtitle B of title XIX of Public Law 101-624 (7 U.S.C. 6101 et seq.);

(11) subtitle E of title XIX of Public Law 101-624 (7 U.S.C. 6301 et seq.);

(12) subtitle H of title XIX of Public Law 101-624 (7 U.S.C. 6401 et seq.);

(13) Public Law 103-190 (7 U.S.C. 6801 et seq.);

(14) Public Law 103-407 (7 U.S.C. 7101 et seq.);

(15) subchapter II;

(16) subchapter III;

(17) subchapter IV;

(18) subchapter V; or

(19) any other provision of law enacted after April 4, 1996, that provides for the establishment and operation of a promotion program described in the first sentence.

(b) Findings

Congress finds the following:

(1) It is in the national public interest and vital to the welfare of the agricultural economy of the United States to maintain and expand existing markets and develop new markets and uses for agricultural commodities through industry-funded, Government-supervised, generic commodity promotion programs established under commodity promotion laws.

(2) These generic commodity promotion programs, funded by the agricultural producers or processors who most directly reap the benefits of the programs and supervised by the Secretary of Agriculture, provide a unique opportunity for producers and processors to inform consumers about their products.

(3) The central congressional purpose underlying each commodity promotion law has always been to maintain and expand markets for the agricultural commodity covered by the law, rather than to maintain or expand the share of those markets held by any individual producer or processor.

(4) The commodity promotion laws were neither designed nor intended to prohibit or restrict, and the promotion programs established and funded pursuant to these laws do not prohibit or restrict, individual advertising or promotion of the covered commodities by any producer, processor, or group of producers or processors.

(5) It has never been the intent of Congress for the generic commodity promotion programs established and funded by the commodity promotion laws to replace the individual advertising and promotion efforts of producers or processors.

(6) An individual producer's or processor's own advertising initiatives are typically de-

signed to increase the share of the market held by that producer or processor rather than to increase or expand the overall size of the market.

(7) In contrast, a generic commodity promotion program is intended and designed to maintain or increase the overall demand for the agricultural commodity covered by the program and increase the size of the market for that commodity, often by utilizing promotion methods and techniques that individual producers and processors typically are unable, or have no incentive, to employ.

(8) The commodity promotion laws establish promotion programs that operate as "self-help" mechanisms for producers and processors to fund generic promotions for covered commodities which, under the required supervision and oversight of the Secretary of Agriculture—

(A) further specific national governmental goals, as established by Congress; and

(B) produce nonideological and commercial communication the purpose of which is to further the governmental policy and objective of maintaining and expanding the markets for the covered commodities.

(9) While some commodity promotion laws grant a producer or processor the option of crediting individual advertising conducted by the producer or processor for all or a portion of the producer's or processor's marketing promotion assessments, all promotion programs established under the commodity promotion laws, both those programs that permit credit for individual advertising and those programs that do not contain such provisions, are very narrowly tailored to fulfill the congressional purposes of the commodity promotion laws without impairing or infringing the legal or constitutional rights of any individual producer or processor.

(10) These generic commodity promotion programs are of particular benefit to small producers who often lack the resources or market power to advertise on their own and who are otherwise often unable to benefit from the economies of scale available in promotion and advertising.

(11) Periodic independent evaluation of the effectiveness of these generic commodity promotion programs will assist Congress and the Secretary of Agriculture in ensuring that the objectives of the programs are met.

(c) Independent evaluation of promotion program effectiveness

Except as otherwise provided by law, each commodity board established under the supervision and oversight of the Secretary of Agriculture pursuant to a commodity promotion law shall, not less often than every 5 years, authorize and fund, from funds otherwise available to the board, an independent evaluation of the effectiveness of the generic commodity promotion programs and other programs conducted by the board pursuant to a commodity promotion law. The board shall submit to the Secretary, and make available to the public, the results of each periodic independent evaluation conducted under this subsection.

(d) Administrative costs

The Secretary shall annually provide to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate information on administrative expenses on programs established under commodity promotion laws.

(e) Exemption of certified organic products from promotion order assessments**(1) In general**

Notwithstanding any provision of a commodity promotion law, a person that produces, handles, markets, or imports organic products may be exempt from the payment of an assessment under a commodity promotion law with respect to any agricultural commodity that is certified as “organic” or “100 percent organic” (as defined in part 205 of title 7, Code of Federal Regulations (or a successor regulation)).

(2) Split operations

The exemption described in paragraph (1) shall apply to the certified “organic” or “100 percent organic” (as defined in part 205 of title 7 of the Code of Federal Regulations (or a successor regulation)) products of a producer, handler, or marketer regardless of whether the agricultural commodity subject to the exemption is produced, handled, or marketed by a person that also produces, handles, or markets conventional or nonorganic agricultural products, including conventional or nonorganic agricultural products of the same agricultural commodity as that for which the exemption is claimed.

(3) Approval

The Secretary shall approve the exemption of a person under this subsection if the person maintains a valid organic certificate issued under the Organic Foods Production Act of 1990 (7 U.S.C. 6501 et seq.).

(4) Termination of effectiveness

This subsection shall be effective until the date on which the Secretary issues an organic commodity promotion order in accordance with subsection (f).

(5) Regulations

The Secretary shall promulgate regulations concerning eligibility and compliance for an exemption under paragraph (1).

(f) Organic commodity promotion order**(1) Definitions**

In this subsection:

(A) Certified organic farm

The term “certified organic farm” has the meaning given the term in section 2103 of the Organic Foods Production Act of 1990 (7 U.S.C. 6502).

(B) Covered person

The term “covered person” means a producer, handler, marketer, or importer of an organic agricultural commodity.

(C) Dual-covered agricultural commodity

The term “dual-covered agricultural commodity” means an agricultural commodity that—

(i) is produced on a certified organic farm; and

(ii) is covered under both—

(I) an organic commodity promotion order issued pursuant to paragraph (2); and

(II) any other agricultural commodity promotion order issued under a commodity promotion law.

(2) Authorization

The Secretary may issue an organic commodity promotion order under section 7413 of this title that includes any agricultural commodity that—

(A) is produced or handled (as defined in section 2103 of the Organic Foods Production Act of 1990 (7 U.S.C. 6502)) and that is certified to be sold or labeled as “organic” or “100 percent organic” (as defined in part 205 of title 7, Code of Federal Regulations (or a successor regulation)); or

(B) is imported with a valid organic certificate (as defined in that part).

(3) Election

If the Secretary issues an organic commodity promotion order described in paragraph (2), a covered person may elect, for applicable dual-covered agricultural commodities and in the sole discretion of the covered person, whether to be assessed under the organic commodity promotion order or another applicable agricultural commodity promotion order.

(4) Regulations

The Secretary shall promulgate regulations concerning eligibility and compliance for an exemption under paragraph (1).

SUBCHAPTER II—ISSUANCE OF ORDERS FOR PROMOTION, RESEARCH, AND INFORMATION ACTIVITIES REGARDING AGRICULTURAL COMMODITIES

§ 7411. Findings and purpose

(a) Findings

Congress finds the following:

(1) The production of agricultural commodities plays a significant role in the economy of the United States. Thousands of producers in the United States are involved in the production of agricultural commodities, and such commodities are consumed by millions of people throughout the United States and foreign countries.

(2) Agricultural commodities must be of high quality, readily available, handled properly, and marketed efficiently to ensure that consumers have an adequate supply.

(3) The maintenance and expansion of existing markets and the development of new markets for agricultural commodities through generic commodity promotion, research, and information programs are vital to the welfare of persons engaged in the production, marketing, and consumption of such commodities, as well as to the general economy of the United States.

(4) Generic promotion, research, and information activities for agricultural commodities play a unique role in advancing the demand for such commodities, since such activities increase the total market for a product to the benefit of consumers and all producers. These generic activities complement branded advertising initiatives, which are aimed at increasing the market share of individual competitors, and are of particular benefit to small producers who lack the resources or market power to advertise on their own. These generic activities do not impede the branded advertising efforts of individual firms, but instead increase general market demand for an agricultural commodity using methods that individual companies do not have the incentive to employ.

(5) Generic promotion, research, and information activities for agricultural commodities, paid by the producers and others in the

industry who reap the benefits of such activities, provide a unique opportunity for producers to inform consumers about a particular agricultural commodity.

(6) It is important to ensure that generic promotion, research, and information activities for agricultural commodities be carried out in an effective and coordinated manner designed to strengthen the position of the commodities in the marketplace and to maintain and expand their markets and uses. Independent evaluation of the effectiveness of the generic promotion activities of these programs will assist the Secretary of Agriculture and Congress in ensuring that these objectives are met.

(7) The cooperative development, financing, and implementation of a coordinated national program of research, promotion, and information regarding agricultural commodities are necessary to maintain and expand existing markets and to develop new markets for these commodities.

(8) Agricultural commodities move in interstate and foreign commerce, and agricultural commodities and their products that do not move in such channels of commerce directly burden or affect interstate commerce in agricultural commodities and their products.

(9) Commodity promotion programs have the ability to provide significant conservation benefits to producers and the public.

(b) Purpose

The purpose of this subchapter is to authorize the establishment, through the exercise by the Secretary of Agriculture of the authority provided in this subchapter, of an orderly program for developing, financing, and carrying out an effective, continuous, and coordinated program of generic promotion, research, and information regarding agricultural commodities designed to—

- (1) strengthen the position of agricultural commodity industries in the marketplace;
- (2) maintain and expand existing domestic and foreign markets and uses for agricultural commodities;
- (3) develop new markets and uses for agricultural commodities; or
- (4) assist producers in meeting their conservation objectives.

(c) Rule of construction

Nothing in this subchapter provides for the control of production or otherwise limits the right of any person to produce, handle, or import an agricultural commodity.

SUBCHAPTER V—POPCORN

§ 7481. Findings and declaration of policy

(a) Findings

Congress finds that—

(1) popcorn is an important food that is a valuable part of the human diet;

(2) the production and processing of popcorn plays a significant role in the economy of the United States in that popcorn is processed by several popcorn processors, distributed through wholesale and retail outlets, and consumed by millions of people throughout the United States and foreign countries;

(3) popcorn must be of high quality, readily available, handled properly, and marketed efficiently to ensure that the benefits of popcorn are available to the people of the United States;

(4) the maintenance and expansion of existing markets and uses and the development of new markets and uses for popcorn are vital to the welfare of processors and persons concerned with marketing, using, and producing popcorn for the market, as well as to the agricultural economy of the United States;

(5) the cooperative development, financing, and implementation of a coordinated program of popcorn promotion, research, consumer information, and industry information is necessary to maintain and expand markets for popcorn; and

(6) popcorn moves in interstate and foreign commerce, and popcorn that does not move in those channels of commerce directly burdens or affects interstate commerce in popcorn.

(b) Policy

It is the policy of Congress that it is in the public interest to authorize the establishment, through the exercise of the powers provided in this subchapter, of an orderly procedure for developing, financing (through adequate assessments on unpopped popcorn processed domestically), and carrying out an effective, continuous, and coordinated program of promotion, research, consumer information, and industry information designed to—

(1) strengthen the position of the popcorn industry in the marketplace; and

(2) maintain and expand domestic and foreign markets and uses for popcorn.

(c) Purposes

The purposes of this subchapter are to—

(1) maintain and expand the markets for all popcorn products in a manner that—

(A) is not designed to maintain or expand any individual share of a producer or processor of the market;

(B) does not compete with or replace individual advertising or promotion efforts designed to promote individual brand name or trade name popcorn products; and

(C) authorizes and funds programs that result in government speech promoting government objectives; and

(2) establish a nationally coordinated program for popcorn promotion, research, consumer information, and industry information.

(d) Statutory construction

This subchapter treats processors equitably. Nothing in this subchapter—

(1) provides for the imposition of a trade barrier to the entry into the United States of imported popcorn for the domestic market; or

(2) provides for the control of production or otherwise limits the right of any individual processor to produce popcorn.

EFFECTIVE DATE

Section to be effective and implemented on Oct. 1, 1988, see section 701(a) of Pub. L. 100-435, set out as an Effective Date of 1988 Amendment note under section 2012 of this title.

§ 7508. Authorization and appropriations

(a)(1) There are authorized to be appropriated \$100,000,000 for fiscal year 2008 and each fiscal year thereafter for the Secretary to make available to the States to pay for the direct and indirect costs of the States related to the processing, storage, transporting, and distributing to

eligible recipient agencies of commodities provided by the Secretary under this chapter and commodities secured from other sources, including commodities secured by gleaning (as defined in section 111(a) of the Hunger Prevention Act of 1988 (7 U.S.C. 612c note; Public Law 100-435)) and donated wild game. Funds appropriated under this paragraph for any fiscal year shall be allocated to the States on an advance basis, dividing such funds among the States in the same proportions as the commodities distributed under this chapter for such fiscal year are divided among the States. If a State agency is unable to use all of the funds so allocated to it, the Secretary shall reallocate such unused funds among the other States.

(2) Each State shall make available to emergency feeding organizations in the State not less than 40 per centum of the funds provided as authorized in paragraph (1) that it has been allocated for a fiscal year, as necessary to pay for, or provide advance payments to cover, the direct expenses of the emergency feeding organizations for distributing commodities to needy persons, but only to the extent such expenses are actually so incurred by such organizations. As used in this paragraph, the term "direct expenses" includes costs of transporting, storing, handling, repackaging, processing, and distributing commodities incurred after they are received by the organization; costs associated with determinations of eligibility, verification, and documentation; costs of providing information to persons receiving commodities under this chapter concerning the appropriate storage and preparation of such commodities; costs involved in publishing announcements of times and locations of distribution; and costs of recordkeeping, auditing, and other administrative procedures required for participation in the program under this chapter. If a State makes a payment, using State funds, to cover direct expenses of emergency feeding organizations, the amount of such payment shall be counted toward the amount a State must make available for direct expenses of emergency feeding organizations under this paragraph.

(3) States to which funds are allocated for a fiscal year under this subsection shall submit financial reports to the Secretary, on a regular basis, as to the use of such funds. No such funds may be used by States or emergency feeding organizations for costs other than those involved in covering the expenses related to the distribution of commodities by emergency feeding organizations.

(4)(A) Except as provided in subparagraph (B), effective January 1, 1987, to be eligible to receive funds under this subsection, a State shall provide in cash or in kind (according to procedures approved by the Secretary for certifying these in-kind contributions) from non-Federal sources a contribution equal to the difference between—

- (i) the amount of such funds so received; and
- (ii) any part of the amount allocated to the State and paid by the State—

- (I) to emergency feeding organizations; or
- (II) for the direct expenses of such organizations;

for use in carrying out this chapter.

(B)(i) Except as provided in clause (ii), subparagraph (A) shall apply to States beginning on January 1, 1987.

(ii) If the legislature of a State does not convene in regular session before January 1, 1987, paragraph (1) shall apply to such State beginning on October 1, 1987.

(C) Funds allocated to a State under this section may, upon State request, be allocated before States satisfy the matching requirement specified in subparagraph (A), based on the estimated contribution required. The Secretary shall periodically reconcile estimated and actual contributions and adjust allocations to the State to correct for overpayments and underpayments.

(5) States may not charge for commodities made available to emergency feeding organizations, and may not pass on to such organizations the cost of any matching requirements, under this chapter.

(b) The value of the commodities made available under this chapter and the funds of the Corporation used to pay the costs of initial processing, packaging (including forms suitable for home use), and delivering commodities to the States shall not be charged against appropriations made or authorized under this section.

§ 7701. Findings

Congress finds that—

(1) the detection, control, eradication, suppression, prevention, or retardation of the spread of plant pests or noxious weeds is necessary for the protection of the agriculture, environment, and economy of the United States;

(2) biological control is often a desirable, low-risk means of ridding crops and other plants of plant pests and noxious weeds, and its use should be facilitated by the Department of Agriculture, other Federal agencies, and States whenever feasible;

(3) it is the responsibility of the Secretary to facilitate exports, imports, and interstate commerce in agricultural products and other commodities that pose a risk of harboring

plant pests or noxious weeds in ways that will reduce, to the extent practicable, as determined by the Secretary, the risk of dissemination of plant pests or noxious weeds;

(4) decisions affecting imports, exports, and interstate movement of products regulated under this chapter shall be based on sound science;

(5) the smooth movement of enterable plants, plant products, biological control organisms, or other articles into, out of, or within the United States is vital to the United State's¹ economy and should be facilitated to the extent possible;

(6) export markets could be severely impacted by the introduction or spread of plant pests or noxious weeds into or within the United States;

(7) the unregulated movement of plant pests, noxious weeds, plants, certain biological control organisms, plant products, and articles capable of harboring plant pests or noxious weeds could present an unacceptable risk of introducing or spreading plant pests or noxious weeds;

(8) the existence on any premises in the United States of a plant pest or noxious weed new to or not known to be widely prevalent in or distributed within and throughout the United States could constitute a threat to crops and other plants or plant products of the United States and burden interstate commerce or foreign commerce; and

(9) all plant pests, noxious weeds, plants, plant products, articles capable of harboring plant pests or noxious weeds regulated under this chapter are in or affect interstate commerce or foreign commerce.

SUBCHAPTER I—PLANT PROTECTION

§ 7711. Regulation of movement of plant pests

(a) Prohibition of unauthorized movement of plant pests

Except as provided in subsection (c), no person shall import, enter, export, or move in interstate commerce any plant pest, unless the importation, entry, exportation, or movement is authorized under general or specific permit and is in accordance with such regulations as the Secretary may issue to prevent the introduction of plant pests into the United States or the dissemination of plant pests within the United States.

The Secretary may order the owner of any plant, biological control organism, plant product, plant pest, noxious weed, article, or means of conveyance subject to action under subsection (a) to treat, apply other remedial measures to, destroy, or otherwise dispose of the plant, biological control organism, plant product, plant pest, noxious weed, article, or means of conveyance, without cost to the Federal Government and in the manner the Secretary considers appropriate.

(2) Failure to comply

If the owner fails to comply with the Secretary's order under this subsection, the Secretary may take an action authorized by subsection (a) and recover from the owner the costs of any care, handling, application of remedial measures, or disposal incurred by the Secretary in connection with actions taken under subsection (a).

(c) Classification system

(1) Development required

To facilitate control of noxious weeds, the Secretary may develop a classification system to describe the status and action levels for noxious weeds. The classification system may include the current geographic distribution, relative threat, and actions initiated to prevent introduction or distribution.

(2) Management plans

In conjunction with the classification system, the Secretary may develop integrated

management plans for noxious weeds for the geographic region or ecological range where the noxious weed is found in the United States.

(d) Application of least drastic action

No plant, biological control organism, plant product, plant pest, noxious weed, article, or means of conveyance shall be destroyed, exported, or returned to the shipping point of origin, or ordered to be destroyed, exported, or returned to the shipping point of origin under this section unless, in the opinion of the Secretary, there is no less drastic action that is feasible and that would be adequate to prevent the dissemination of any plant pest or noxious weed new to or not known to be widely prevalent or distributed within and throughout the United States.

No plant, biological control organism, plant product, plant pest, noxious weed, article, or means of conveyance shall be destroyed, exported, or returned to the shipping point of origin, or ordered to be destroyed, exported, or returned to the shipping point of origin under this section unless, in the opinion of the Secretary, there is no less drastic action that is feasible and that would be adequate to prevent the dissemination of any plant pest or noxious weed new to or not known to be widely prevalent or distributed within and throughout the United States.

(e) Payment of compensation

The Secretary may pay compensation to any person for economic losses incurred by the person as a result of action taken by the Secretary under this section. The determination by the

Secretary of the amount of any compensation to be paid under this subsection shall be final and shall not be subject to judicial review or a review by any officer or employee of the Federal Government other than the Secretary or the designee of the Secretary.

When any State shall provide for terminal inspection of plants and plant products, and shall establish and maintain, at the sole expense of the State, such inspection at one or more places

therein, the proper officials of said State may submit to the Secretary of Agriculture a list of plants and plant products and the plant pests transmitted thereby, that in the opinion of said officials should be subject to terminal inspection in order to prevent the introduction or dissemination in said State of pests injurious to agriculture. Upon his approval of said list, in whole or in part, the Secretary of Agriculture shall transmit the same to the United States Postal Service, and thereafter all packages containing any plants or plant products named in said approved lists shall, upon payment of postage therefor, be forwarded by the postmaster at the destination of said package to the proper State official at the nearest place where inspection is maintained. If the plants or plant products (including seed) are found upon inspection to be free from injurious pests and not in violation of a plant-quarantine law or plant-quarantine regulation of the United States Department of Agriculture or of the State of destination pertaining to such injurious pests, or if infected shall be disinfected by said official, they shall upon payment of postage therefor be returned to the postmaster at the place of inspection to be forward¹ to the person to whom they are addressed; but if found to be infected with injurious pests and incapable of satisfactory disinfection or in violation of a plant-quarantine law or plant-quarantine regulation of the United States Department of Agriculture or of the State of destination pertaining to such injurious pests, the State inspector shall so notify the postmaster at the place of inspection who shall promptly notify the sender of said plants or plant products that they will be returned to him upon his request and at his expense, or in default of such request that they will be turned over to the State authorities for destruction.

It shall be unlawful for any person, firm, or corporation to deposit in the United States mails any package containing any plant or plant product addressed to any place within a State maintaining inspection thereof, as herein defined, without plainly marking the package so that its contents may be readily ascertained by an inspection of the outside thereof. Whoever shall fail to so mark said packages shall be punished by a fine of not more than \$100.

The United States Postal Service is authorized and directed to make all needful rules and regulations for carrying out the purposes hereof.

§ 7801. Findings and declaration of policy

(a) Findings

Congress finds the following:

(1) Hass avocados are an integral food source in the United States that are a valuable and healthy part of the human diet and are enjoyed by millions of persons every year for a multitude of everyday and special occasions.

(2) Hass avocados are a significant tree fruit crop grown by many individual producers, but virtually all domestically produced Hass avocados for the commercial market are grown in the State of California.

(3) Hass avocados move in interstate and foreign commerce, and Hass avocados that do not move in interstate or foreign channels of commerce but only in intrastate commerce directly affect interstate commerce in Hass avocados.

(4) In recent years, large quantities of Hass avocados have been imported into the United States from other countries.

(5) The maintenance and expansion of markets in existence on October 28, 2000, and the development of new or improved markets or uses for Hass avocados are needed to preserve and strengthen the economic viability of the domestic Hass avocado industry for the benefit of producers and other persons associated with the producing, marketing, processing, and consuming of Hass avocados.

(6) An effective and coordinated program of promotion, research, industry information, and consumer information regarding Hass avocados is necessary for the maintenance, expansion, and development of domestic markets for Hass avocados.

(b) Purpose

It is the purpose of this chapter to authorize the establishment, through the exercise of the powers provided in this chapter, of an orderly procedure for the development and financing (through an adequate assessment on Hass avocados sold by producers and importers in the United States) of an effective and coordinated program of promotion, research, industry information, and consumer information, including funds for marketing and market research activities, that is designed to—

(1) strengthen the position of the Hass avocado industry in the domestic marketplace; and

(2) maintain, develop, and expand markets and uses for Hass avocados in the domestic marketplace.

(c) Limitation

Nothing in this chapter may be construed to provide for the control of production or otherwise limit the right of any person to produce, handle, or import Hass avocados.

SUBCHAPTER I—DIRECT PAYMENTS AND COUNTER-CYCLICAL PAYMENTS

§ 7911. Establishment of base acres and payment acres for a farm

(a) Election by owner of base acres calculation method

(1) Alternative calculation methods

For the purpose of making direct payments and counter-cyclical payments with respect to a farm, the Secretary shall give an owner of the farm an opportunity to elect 1 of the following as the method by which the base acres of all covered commodities on the farm are to be determined:

(A) Subject to paragraphs (3) and (4), the 4-year average of the following:

(i) Acreage planted on the farm to covered commodities for harvest, grazing, haying, silage, or other similar purposes for the 1998 through 2001 crop years.

(ii) Any acreage on the farm that the producers were prevented from planting during the 1998 through 2001 crop years to covered commodities because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, as determined by the Secretary.

(B) Subject to paragraph (3), the sum of the following:

(i) The contract acreage (as defined in section 7202 of this title) used by the Secretary to calculate the fiscal year 2002 payment authorized under section 7214 of this title for the covered commodities on the farm.

(ii) The 4-year average of eligible oilseed acreage on the farm for the 1998 through 2001 crop years, as determined by the Secretary under paragraph (2).

(2) Eligible oilseed acreage

(A) Calculation

For purposes of paragraph (1)(B)(ii), the eligible acreage for each oilseed on a farm during each of the 1998 through 2001 crop years shall be determined in the manner provided in paragraph (1)(A), except that the total acreage for all oilseeds on the farm for a crop year may not exceed the difference between—

(i) the total acreage determined under paragraph (1)(A) for all covered commodities for that crop year; and

(ii) the total contract acreage determined under paragraph (1)(B)(i).

(B) Effect of negative number

If the subtraction performed under subparagraph (A) results in a negative number, the eligible oilseed acreage on the farm for that crop year shall be zero for purposes of determining the 4-year average.

(C) Offset of contract acreage

The owner of a farm may increase the eligible acreage for an oilseed on the farm by reducing the contract acreage determined under paragraph (1)(B)(i) for 1 or more covered commodities on an acre-for-acre basis, except that the total base acreage for each oilseed on the farm may not exceed the 4-year average of each oilseed determined under paragraph (1)(B)(ii).

(3) Inclusion of all 4 years in average

For the purpose of determining a 4-year acreage average under this subsection for a farm, the Secretary shall not exclude any crop year in which a covered commodity was not planted.

(4) Treatment of multiple planting or prevented planting

For the purpose of determining under paragraph (1)(A) the acreage on a farm that producers planted or were prevented from planting during the 1998 through 2001 crop years to covered commodities, if the acreage that was planted or prevented from being planted was devoted to another covered commodity in the same crop year (other than a covered commodity produced under an established practice of

double cropping), the owner may elect the commodity to be used for that crop year in determining the 4-year average, but may not include both the initial commodity and the subsequent commodity.

(b) Single election; time for election

(1) Notice of election opportunity

As soon as practicable after May 13, 2002, the Secretary shall provide notice to owners of farms regarding their opportunity to make the election described in subsection (a). The notice shall include the following:

(A) Notice that the opportunity of an owner to make the election is being provided only once.

(B) Information regarding the manner in which the election must be made and the time periods and manner in which notice of the election must be submitted to the Secretary.

(2) Election deadline

Within the time period and in the manner prescribed pursuant to paragraph (1), the owner of a farm shall submit to the Secretary notice of the election made by the owner under subsection (a).

(c) Effect of failure to make election

If the owner of a farm fails to make the election under subsection (a) or fails to timely notify the Secretary of the election made, as required by subsection (b), the owner shall be deemed to have made the election described in subsection (a)(1)(B) to determine base acres for all covered commodities on the farm.

(d) Application of election to all covered commodities

The election made under subparagraph (A) or (B) of subsection (a)(1), or deemed to be made under subsection (c), with respect to a farm shall apply to all of the covered commodities on the farm.

(e) Treatment of conservation reserve contract acreage

(1) In general

The Secretary shall provide for an adjustment, as appropriate, in the base acres for covered commodities for a farm whenever either of the following circumstances occurs:

(A) A conservation reserve contract entered into under section 1231 of the Food Security Act of 1985 (16 U.S.C. 3831) with respect to the farm expires or is voluntarily terminated.

(B) Cropland is released from coverage under a conservation reserve contract by the Secretary.

(2) Special payment rules

For the crop year in which a base acres adjustment under paragraph (1) is first made, the owner of the farm shall elect to receive either direct payments and counter-cyclical payments with respect to the acreage added to the farm under this subsection or a prorated payment under the conservation reserve contract, but not both.

(f) Payment acres

The payment acres for a covered commodity on a farm shall be equal to 85 percent of the base acres for the covered commodity.

(g) Prevention of excess base acres

(1) Required reduction

If the sum of the base acres for a farm, together with the acreage described in paragraph (2), exceeds the actual cropland acreage of the farm, the Secretary shall reduce the base acres for 1 or more covered commodities for the farm or the base acres for peanuts for the farm under subchapter III so that the sum of the base acres and acreage described in paragraph (2) does not exceed the actual cropland acreage of the farm.

(2) Other acreage

For purposes of paragraph (1), the Secretary shall include the following:

(A) Any base acres for peanuts for the farm under subchapter III.

(B) Any acreage on the farm enrolled in the conservation reserve program or wetlands reserve program under chapter 1 of subtitle D of title XII of the Food Security Act of 1985 (16 U.S.C. 3830 et seq.).

(C) Any other acreage on the farm enrolled in a conservation program for which payments are made in exchange for not producing an agricultural commodity on the acreage.

(3) Selection of acres

The Secretary shall give the owner of the farm the opportunity to select the base acres or the base acres for peanuts for the farm under subchapter III against which the reduction required by paragraph (1) will be made.

(4) Exception for double-cropped acreage

In applying paragraph (1), the Secretary shall make an exception in the case of double cropping, as determined by the Secretary.

(5) Coordinated application of requirements

The Secretary shall take into account section 7952(f) of this title when applying the requirements of this subsection.

(h) Permanent reduction in base acres

The owner of a farm may reduce, at any time, the base acres for any covered commodity for the farm. The reduction shall be permanent and made in the manner prescribed by the Secretary.

§ 7912. Establishment of payment yield

(a) Establishment and purpose

For the purpose of making direct payments and counter-cyclical payments under this subchapter, the Secretary shall provide for the establishment of a payment yield for each farm for each covered commodity in accordance with this section.

(b) Use of farm program payment yield

Except as otherwise provided in this section, the payment yield for each of the 2002 through 2007 crops of a covered commodity for a farm shall be the farm program payment yield established for the 1995 crop of the covered commodity under section 1465 of this title, as adjusted by the Secretary to account for any additional yield payments made with respect to that crop under section 1465(b)(2) of this title.

(c) Farms without farm program payment yield

In the case of a farm for which a farm program payment yield is unavailable for a covered commodity (other than soybeans or other oilseeds), the Secretary shall establish an appropriate payment yield for the covered commodity on the farm taking into consideration the farm program payment yields applicable to the commodity under subsection (b) for similar farms, but before the yields for the similar farms are updated as provided in subsection (e).

(d) Payment yields for oilseeds

(1) Determination of average yield

In the case of soybeans and each other oilseed, the Secretary shall determine the average yield per planted acre for the oilseed on a farm for the 1998 through 2001 crop years, excluding any crop year in which the acreage planted to the oilseed was zero.

(2) Adjustment for payment yield

The payment yield for a farm for an oilseed shall be equal to the product of the following:

(A) The average yield for the oilseed determined under paragraph (1).

(B) The ratio resulting from dividing the national average yield for the oilseed for the 1981 through 1985 crops by the national average yield for the oilseed for the 1998 through 2001 crops.

(3) Use of partial county average yield

If the yield per planted acre for a crop of an oilseed for a farm for any of the 1998 through 2001 crop years was less than 75 percent of the county yield for that oilseed, the Secretary shall assign a yield for that crop year equal to 75 percent of the county yield for the purpose of determining the average under paragraph (1).

(e) Opportunity to partially update yields used to determine counter-cyclical payments

(1) Election to update

If the owner of a farm elects to use the base acres calculation method described in section 7911(a)(1)(A) of this title, the owner shall also have a 1-time opportunity to elect to use 1 of the methods described in paragraph (3) to partially update the payment yields that would otherwise be used in calculating any counter-cyclical payments for covered commodities on the farm.

(2) Time for election

The election under paragraph (1) shall be made at the same time and in the same manner as the Secretary prescribes for the election required under section 7911 of this title.

(3) Methods of updating yields

If the owner of a farm elects to update yields under this subsection, the payment yield for a covered commodity on the farm, for the purpose of calculating counter-cyclical payments only, shall be equal to the yield determined using either of the following:

(A) The sum of the following:

(i) The payment yield applicable for direct payments for the covered commodity on the farm.

(ii) 70 percent of the difference between—

(I) the average yield per planted acre for the crop of the covered commodity on the farm for the 1998 through 2001 crop years, as determined by the Secretary, excluding any crop year in which the acreage planted to the crop of the covered commodity was zero; and

(II) the payment yield applicable for direct payments for the covered commodity on the farm.

(B) 93.5 percent of the average of the yield per planted acre for the crop of the covered commodity on the farm for the 1998 through 2001 crop years, as determined by the Secretary, excluding any crop year in which the acreage planted to the crop of the covered commodity was zero.

(4) Use of partial county average yield

If the yield per planted acre for a crop of the covered commodity for a farm for any of the 1998 through 2001 crop years was less than 75 percent of the county yield for that commodity, the Secretary shall assign a yield for that crop year equal to 75 percent of the county yield for the purpose of determining the average yield under paragraph (3).

(5) Application of election and method to all covered commodities

The owner of a farm may not elect the method described in paragraph (3)(A) for 1 covered commodity on the farm and the method described in paragraph (3)(B) for other covered commodities on the farm.

(B) Program requirements

Except as provided in subparagraph (C), whenever the Secretary determines and an-

nounces that for any consecutive 4-week period, the Friday through Thursday average price quotation for the lowest-priced United States growth, as quoted for Middling (M) 1 $\frac{3}{32}$ -inch cotton, delivered C.I.F. Northern Europe exceeds the Northern Europe price by more than 1.25 cents per pound, there shall immediately be in effect a special import quota.

(C) Tight domestic supply

During any month for which the Secretary estimates the season-ending United States upland cotton stocks-to-use ratio, as determined under subparagraph (D), to be below 16 percent, the Secretary, in making the determination under subparagraph (B), shall not adjust the Friday through Thursday average price quotation for the lowest-priced United States growth, as quoted for Middling (M) 1 $\frac{3}{32}$ -inch cotton, delivered C.I.F. Northern Europe.

(D) Season-ending United States stocks-to-use ratio

For the purposes of making estimates under subparagraph (C), the Secretary shall, on a monthly basis, estimate and report the season-ending United States upland cotton stocks-to-use ratio, excluding projected raw cotton imports but including the quantity of raw cotton that has been imported into the United States during the marketing year.

(E) Delayed application of threshold

Through July 31, 2006, the Secretary shall make the calculation under subparagraph (B) without regard to the 1.25 cent threshold provided under that subparagraph.

(2) Quantity

The quota shall be equal to one week's consumption of upland cotton by domestic mills at the seasonally adjusted average rate of the most recent three months for which data are available.

(3) Application

(5) Preferential tariff treatment

The quantity under a special import quota shall be considered to be an in-quota quantity for purposes of—

- (A) section 2703(d) of title 19;
- (B) section 3203 of title 19;
- (C) section 2463(d) of title 19; and

(c) Limited global import quota for upland cotton

(1) In general

The President shall carry out an import quota program that provides that whenever the Secretary determines and announces that the average price of the base quality of upland cotton, as determined by the Secretary, in the designated spot markets for a month exceeded 130 percent of the average price of such quality of cotton in the markets for the preceding 36 months, notwithstanding any other provision of law, there shall immediately be in effect a limited global import quota subject to the following conditions:

(A) Quantity

The quantity of the quota shall be equal to 21 days of domestic mill consumption of upland cotton at the seasonally adjusted average rate of the most recent 3 months for which data are available.

(B) Quantity if prior quota

If a quota has been established under this subsection during the preceding 12 months, the quantity of the quota next established under this subsection shall be the smaller of 21 days of domestic mill consumption calculated under subparagraph (A) or the quantity required to increase the supply to 130 percent of the demand.

(C) Preferential tariff treatment

The quantity under a limited global import quota shall be considered to be an in-quota quantity for purposes of—

- (i) section 2703(d) of title 19;
- (ii) section 3203 of title 19;
- (iii) section 2463(d) of title 19; and

§ 7952. Establishment of payment yield and base acres for peanuts for a farm

(a) Average yield and acreage average for historic peanut producers

(1) Determination of average yield

(A) In general

The Secretary shall determine, for each historic peanut producer, the average yield for peanuts on each farm on which the historic peanut producer planted peanuts for harvest for the 1998 through 2001 crop years, excluding any crop year in which the producer did not plant or was prevented from planting peanuts.

(B) Assigned yields

For the purposes of determining the 4-year average yield for an historic peanut producer under this paragraph, the historic peanut producer may elect to substitute for a farm, for not more than 3 of the 1998 through 2001 crop years in which the producer planted peanuts on the farm, the average yield for peanuts produced in the county in which the farm is located for the 1990 through 1997 crop years.

(2) Determination of acreage average

(A) In general

The Secretary shall determine, for each historic peanut producer, the 4-year average of the following:

(i) Acreage planted to peanuts on each farm on which the historic peanut producer planted peanuts for harvest for the 1998 through 2001 crop years.

(ii) Any acreage on each farm that the historic peanut producer was prevented from planting to peanuts during the 1998 through 2001 crop years because of drought, flood, or other natural disaster, or other condition beyond the control of the historic peanut producer, as determined by the Secretary.

(B) Inclusion of all 4 years in average

For the purposes of determining the 4-year acreage average for an historic peanut producer under this paragraph, the Secretary shall not exclude any crop year in which the producer did not plant peanuts.

(C) Proportional shares

If more than 1 historic peanut producer shared in the risk of producing the crop on a farm, the historic peanut producers shall receive their proportional share of the number of acres planted (or prevented from being planted) to peanuts for harvest on the farm

based on the sharing arrangement that was in effect among the producers for the crop.

(3) Time for determinations

The Secretary shall make the determinations required by this subsection as soon as practicable after May 13, 2002.

(4) Special considerations

In making the determinations required by this subsection, the Secretary shall take into account changes in the number, identity, or interest of producers sharing in the risk of producing a peanut crop since the 1998 crop year, including providing a method for the assignment of average acres and average yield to a farm—

(A) when an historic peanut producer is no longer living;

(B) when an entity composed of historic peanut producers has been dissolved; or

(C) in other appropriate situations, as determined by the Secretary.

(b) Assignment of average yields and average acreage to farms

(1) Assignment by historic peanut producers

The Secretary shall give each historic peanut producer an opportunity to assign the average peanut yield and average acreage determined under subsection (a) for each farm of the historic peanut producer to cropland on that farm or another farm in the same State or a contiguous State.

(2) Limitation on acreage assignment

Notwithstanding paragraph (1), the average acreage determined under subsection (a)(2) for a farm may not be assigned to a farm in a contiguous State unless—

(A) the historic peanut producer making the assignment produced peanuts in that State during at least 1 of the 1998 through 2001 crop years; or

(B) as of March 31, 2003, the historic peanut producer is a producer on a farm in that State.

(3) Notice of assignment opportunity

The Secretary shall provide notice to historic peanut producers regarding their opportunity to assign average peanut yields and average acreages to farms under paragraph (1). The notice shall include the following:

(A) Notice that the opportunity to make the assignments is being provided only once.

(B) A description of the limitation in paragraph (2) on their ability to make the assignments.

(C) Information regarding the manner in which the assignments must be made and the time periods and manner in which notice of the assignments must be submitted to the Secretary.

(4) Assignment deadlines

Not later than March 31, 2003, an historic peanut producer shall submit to the Secretary notice of the assignments made by the producer under this subsection. If an historic peanut producer fails to submit the notice by that date, the notice shall be submitted in such other manner as the Secretary may prescribe.

(c) Payment yield

The average of all of the yields assigned by historic peanut producers under subsection (b) to a farm shall be considered to be the payment yield for that farm for the purpose of making direct payments and counter-cyclical payments under this subchapter.

(d) Base acres for peanuts

Subject to subsection (e), the total number of acres assigned by historic peanut producers under subsection (b) to a farm shall be considered to be the farm's base acres for peanuts for the purpose of making direct payments and counter-cyclical payments under this subchapter.

(e) Treatment of conservation reserve contract acreage**(1) In general**

The Secretary shall provide for an adjustment, as appropriate, in the base acres for peanuts for a farm whenever either of the following circumstances occur:

(A) A conservation reserve contract entered into under section 1231 of the Food Security Act of 1985 (16 U.S.C. 3831) with respect to the farm expires or is voluntarily terminated.

(B) Cropland is released from coverage under a conservation reserve contract by the Secretary.

(2) Special payment rules

For the crop year in which a base acres for peanuts adjustment under paragraph (1) is first made, the owner of the farm shall elect to receive either direct payments and counter-cyclical payments with respect to the acreage added to the farm under this subsection or a prorated payment under the conservation reserve contract, but not both.

(f) Prevention of excess base acres for peanuts**(1) Required reduction**

If the sum of the base acres for peanuts for a farm, together with the acreage described in paragraph (2), exceeds the actual cropland acreage of the farm, the Secretary shall reduce the base acres for peanuts for the farm or the base acres for 1 or more covered commodities under subchapter I for the farm so that the sum of the base acres for peanuts and acreage described in paragraph (2) does not exceed the actual cropland acreage of the farm.

(2) Other acreage

For purposes of paragraph (1), the Secretary shall include the following:

(A) Any base acres for the farm under subchapter I.

(B) Any acreage on the farm enrolled in the conservation reserve program or wetlands reserve program under chapter 1 of subtitle D of title XII of the Food Security Act of 1985 (16 U.S.C. 3830 et seq.).

(C) Any other acreage on the farm enrolled in a conservation program for which payments are made in exchange for not producing an agricultural commodity on the acreage.

(3) Selection of acres

The Secretary shall give the owner of the farm the opportunity to select the base acres

for peanuts or the subchapter I base acres against which the reduction required by paragraph (1) will be made.

(4) Exception for double-cropped acreage

In applying paragraph (1), the Secretary shall make an exception in the case of double cropping, as determined by the Secretary.

(5) Coordinated application of requirements

The Secretary shall take into account section 7911(g) of this title when applying the requirements of this subsection.

(a) Repeal of marketing quota

(1) Omitted

(2) Treatment of 2001 crop

Part VI of subtitle B of title III of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1357-1359a), as in effect on the day before May 13, 2002, shall continue to apply with respect to the 2001 crop of peanuts notwithstanding the amendment made by paragraph (1). Section 7958(g)(2) of this title shall also apply to the 2001 crop of peanuts.

(b) Compensation contract required

(1) In general

The Secretary shall offer to enter into a contract with each person that the Secretary determines is an eligible peanut quota holder under subsection (f) for the purpose of providing compensation for the lost value of the quota on account of the repeal of the marketing quota program for peanuts under subsection (a).

(2) Payment period

The Secretary shall make payments under the contracts during fiscal years 2002 through 2006.

(c) Time for payment**(1) Payment in installments**

The payments required under the contracts shall be provided in 5 equal installments not later than September 30 of each of fiscal years 2002 through 2006.

(2) Single payment

At the request of an eligible peanut quota holder entitled to payments under a contract, the Secretary shall provide the entire payment amount determined under subsection (d) with respect to the eligible peanut quota holder for the 5 fiscal years in a single lump sum during the fiscal year specified by the eligible peanut quota holder.

(d) Payment amount

The amount of the payment for a fiscal year to an eligible peanut quota holder under a contract shall be equal to the product obtained by multiplying—

- (1) \$0.11 per pound; by
- (2) the number of pounds of quota with respect to which the person qualifies as a peanut quota holder under subsection (f).

(e) Assignment of payments

The provisions of section 590h(g) of title 16, relating to assignment of payments, shall apply to the payments made under the contracts. A person making an assignment of the payment, or the assignee, shall provide the Secretary with notice, in such manner as the Secretary may require, of any assignment made under this subsection.

(f) Eligible peanut quota holder**(1) In general**

Except as otherwise provided in this subsection, the Secretary shall consider a person to be an eligible peanut quota holder for the purposes of this section if the person, as of May 13, 2002, owned a farm that, also as of that date, was eligible for a permanent peanut quota under section 358-1(b) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358-1(b)), irrespective of temporary leases, transfers of quotas for seed, or quotas for experimental purposes.

(2) Effect of purchase contract

If there was a written contract for the purchase of all or a portion of a farm described in paragraph (1) as of May 13, 2002, and the parties to the sale are unable to agree to the disposition of eligibility for payments under this section, the Secretary, taking into account any incomplete permanent transfer of quota that has otherwise been agreed to, shall provide for the equitable division of the payments among the parties by adjusting the determination of who is the eligible peanut quota holder with respect to particular pounds of the quota.

(3) Effect of agreement for permanent quota transfer

If the Secretary determines that there was in existence, as of May 13, 2002, an agreement for the permanent transfer of quota, but that the transfer was not completed by that date, the Secretary shall consider the peanut quota

Notwithstanding the preceding paragraphs, the Secretary may declare a person to be the eligible peanut quota holder with respect to certain pounds of quota or otherwise for purposes of this section if the Secretary considers the declaration is needed to insure a fair and equitable administration of the payments provided for in this section, so long as the Secretary does not, in exercising this authority, effectively increase the total quota in excess of the quota that was available to all producers for the 2001 crop year for other than seed or experimental use.

(6) Limitation on quantity of quota held

A person shall be considered an eligible peanut quota holder for purposes of this section only with respect to that number of permanent pounds that qualifies the person as a peanut quota holder under one of the preceding paragraphs. The determination of the peanut poundage amount for which the person qualifies shall be made based on the 2001 crop quota levels and shall take into account sales of the farm that occurred before May 13, 2002, and any permanent transfers of quota that took place before that date, consistent with the preceding paragraphs. Once a person is eligible for payments under this section, as determined under subsection (f), the continued eligibility of the person for the payments does not run with a farm, but shall remain with the person for the term of this section irrespective of whether the person sells, or continues to have an interest in, the farm that had the quota that qualified the person as an eligible peanut quota holder under subsection (f) and irrespective of whether the person has a continuing interest in the production of peanuts.

(2) Succession

If a person eligible for payments under this section dies, in the case of an individual, or ceases to exist, in the case of other persons, the payment eligibility of the person shall pass to the person's personal or organizational successor, as determined by the Secretary.

BIOFUELS AND RURAL ECONOMIC DEVELOPMENT

Memorandum of President of the United States, May 5, 2009, 74 F.R. 21531, provided:

Memorandum for the Secretary of Agriculture, the Secretary of Energy, [and] the Administrator of the Environmental Protection Agency

In the Nation's ongoing efforts to achieve energy independence, biomass and biofuels promise to play a key role by providing the Nation with homegrown sustainable energy options and energizing our economy with new industries and jobs. While producing clean renewable fuels locally is a powerful engine of economic growth, they must be developed and used in a way that limits environmental impact. Today, the Environmental Protection Agency (EPA) is issuing a Notice of Proposed Rulemaking, as required by the Energy Independence and Security Act of 2007, to set new national renewable fuel standards and implement those standards. The public will have an opportunity to provide input on this proposal through a 60-day comment period, and the EPA is conducting peer reviews on key aspects of the environmental impact assessments within the proposal.

In order to shepherd our Nation's development of this important industry and to coordinate interagency policy, I hereby establish a Biofuels Interagency Working Group (Working Group), to be co-chaired by the Secretaries of Agriculture and Energy and the Administrator of the EPA. This Working Group will coordinate with the National Science and Technology Council's Biomass Research and Development Board in undertaking its work. The responsibilities of the Working Group shall include:

(a) Developing the Nation's first comprehensive biofuel market development program, which shall use existing authorities and identify new policies to support the development of next-generation biofuels, increase flexible fuel vehicle use, and assist in retail marketing efforts;

(b) Coordinating infrastructure policies affecting the supply, secure transport, and distribution of biofuels; and

(c) Identifying new policy options to promote the environmental sustainability of biofuels feedstock production, taking into consideration land use, habitat conservation, crop management practices, water efficiency and water quality, as well as lifecycle assessments of greenhouse gas emissions.

Alongside the Working Group's efforts, the Secretary of Agriculture may pursue other important biofuel development efforts. The Rural Development Act of 1972 and the Rural Development Policy Act of 1980 direct the Secretary of Agriculture to develop, in coordination with State and local governments, a nationwide rural development program to assure rural America's health and prosperity. In keeping with that mandate, and recognizing the key role rural America will play in the development of biofuel technology and development, I request that the Secretary of Agriculture take the following steps, to the extent permitted by law:

(a) Immediately begin restructuring existing investments in renewable fuels as needed to preserve industry employment; and

(b) Develop a comprehensive approach to accelerating the investment in and production of American biofuels and reducing our dependence on fossil fuels by providing, within 30 days, under the authorities made available in the Food, Conservation, and Energy Act of 2008:

(i) Loan guarantees for the development, construction, and retrofitting of commercial-scale biorefineries and grants to help pay for the development and construction costs of demonstration-scale biorefineries;

(ii) Expedited funding to encourage biorefineries to replace the use of fossil fuels in plant operations by installing new biomass energy systems or producing new energy from renewable biomass;

(iii) Expedited funding to biofuels producers to encourage production of next-generation biofuels from cellulosic biomass and other feedstocks;

(iv) Expansion of the Renewable Energy Systems and Energy Efficiency Improvements Program, which has been renamed the Rural Energy for America Program, to include hydroelectric source technologies, energy audits, and higher loan guarantee limits; and

(v) Guidance and support for collection, harvest, storage, and transportation assistance for eligible materials for use in biomass conversion facilities.

BARACK OBAMA.

§ 8102. Biobased markets program

(a) Federal procurement of biobased products

(1) Definition of procuring agency

In this subsection, the term "procuring agency" means—

(A) any Federal agency that is using Federal funds for procurement; or

(B) a person that is a party to a contract with any Federal agency, with respect to work performed under such a contract.

(2) Procurement preference

(A) In general

(i) Procuring agency duties

Except as provided in clause (ii) and subparagraph (B), after the date specified in applicable guidelines prepared pursuant to paragraph (3), each procuring agency shall—

(I) establish a procurement program, develop procurement specifications, and procure biobased products identified under the guidelines described in paragraph (3) in accordance with this section;

(II) with respect to items described in the guidelines, give a procurement preference to those items that—

(aa) are composed of the highest percentage of biobased products practicable; or

(bb) comply with the regulations issued under section 6914b-1 of title 42; and

(III) establish a targeted biobased-only procurement requirement under which the procuring agency shall issue a certain number of biobased-only contracts when the procuring agency is purchasing products, or purchasing services that include the use of products, that are included in a biobased product category designated by the Secretary.

(ii) Exception

The requirements of clause (i)(I) to establish a procurement program and develop procurement specifications shall not apply to a person described in paragraph (1)(B).

(B) Flexibility

Notwithstanding subparagraph (A), a procuring agency may decide not to procure

items described in that subparagraph if the procuring agency determines that the items—

- (i) are not reasonably available within a reasonable period of time;
- (ii) fail to meet—
 - (I) the performance standards set forth in the applicable specifications; or
 - (II) the reasonable performance standards of the procuring agencies; or
- (iii) are available only at an unreasonable price.

(C) Minimum requirements

Each procurement program required under this subsection shall, at a minimum—

- (i) be consistent with applicable provisions of Federal procurement law;
- (ii) ensure that items composed of biobased products will be purchased to the maximum extent practicable;
- (iii) include a component to promote the procurement program;
- (iv) provide for an annual review and monitoring of the effectiveness of the procurement program; and
- (v) adopt 1 of the 2 policies described in subparagraph (D) or (E), or a policy substantially equivalent to either of those policies.

(D) Case-by-case policy

(i) In general

Subject to subparagraph (B) and except as provided in clause (ii), a procuring agency adopting the case-by-case policy shall award a contract to the vendor offering an item composed of the highest percentage of biobased products practicable.

(ii) Exception

Subject to subparagraph (B), an agency adopting the policy described in clause (i) may make an award to a vendor offering items with less than the maximum biobased products content.

(E) Minimum content standards

Subject to subparagraph (B), a procuring agency adopting the minimum content standards policy shall establish minimum biobased products content specifications for awarding contracts in a manner that ensures that the biobased products content required is consistent with this subsection.

(F) Certification

After the date specified in any applicable guidelines prepared pursuant to paragraph (3), contracting offices shall require that vendors certify that the biobased products to be used in the performance of the contract will comply with the applicable specifications or other contractual requirements.

(3) Guidelines

(A) In general

The Secretary, after consultation with the Administrator, the Administrator of General Services, and the Secretary of Commerce (acting through the Director of the National Institute of Standards and Technology),

shall prepare, and from time to time revise, guidelines for the use of procuring agencies in complying with the requirements of this subsection.

(B) Requirements

- (ii) designate those intermediate ingredients and feedstocks that are or can be used to produce items that will be subject to the preference described in paragraph (2);
- (iii) automatically designate items composed of intermediate ingredients and feedstocks designated under clause (ii), if the content of the designated intermediate ingredients and feedstocks exceeds 50 percent of the item (unless the Secretary determines a different composition percentage is appropriate);
- (iv) set forth recommended practices with respect to the procurement of biobased products and items containing such materials;
- (v) require reporting of quantities and types of biobased products purchased by procuring agencies;
- (vi) promote biobased products, including forest products, that apply an innovative approach to growing, harvesting, sourcing, procuring, processing, manufacturing, or application of biobased products regardless of the date of entry into the marketplace;
- (vii) as determined to be necessary by the Secretary based on the availability of data, provide information as to the availability, relative price, performance, and environmental and public health benefits of such materials and items; and
- (viii) take effect on the date established in the guidelines, which may not exceed 1 year after publication.

(C) Information provided

Information provided pursuant to subparagraph (B)(v)¹ with respect to a material or item shall be considered to be provided for another item made with the same material or item.

(D) Prohibition

Guidelines issued under this paragraph may not require a manufacturer or vendor of biobased products, as a condition of the purchase of biobased products from the manufacturer or vendor, to provide to procuring agencies more data than would be required to be provided by other manufacturers or vendors offering products for sale to a procuring agency, other than data confirming the biobased content of a product.

¹ See References in Text note below.

DRIVING INNOVATION AND CREATING JOBS IN RURAL AMERICA THROUGH BIOBASED AND SUSTAINABLE PRODUCT PROCUREMENT

Memorandum of President of the United States, Feb. 21, 2012, 77 F.R. 10939, as amended by Ex. Ord. No. 13693, §16(b), Mar. 19, 2015, 80 F.R. 15880, provided:

Memorandum for the Heads of Executive Departments and Agencies

The BioPreferred program—established by the Farm Security and Rural Investment Act of 2002 (Public Law 107–171) (2002 Farm Bill), and strengthened by the Food, Conservation[,] and Energy Act of 2008 (Public Law 110–234 [probably should refer to Public Law 110–246]) (2008 Farm Bill)—is intended to increase Federal procurement of biobased products to promote rural economic development, create new jobs, and provide new markets for farm commodities. Biobased and sustainable products help to increase our energy security and independence.

The Federal Government, with leadership from the Department of Agriculture (USDA), has made significant strides in implementing the BioPreferred program. It is one of the key elements in my efforts to

promote sustainable acquisition throughout the Government under [former] Executive Order 13514 of October 5, 2009 (Federal Leadership in Environmental, Energy, and Economic Performance). Further efforts will drive innovation and economic growth and create jobs at marginal cost to the American public.

The goal of this memorandum is to ensure that executive departments and agencies (agencies) effectively execute Federal procurement requirements for biobased products, including those requirements identified in [former] Executive Order 13514 and prescribed in the 2002 Farm Bill, as amended by the 2008 Farm Bill. It is vital that these efforts are in accord and carefully coordinated with other Federal procurement requirements.

Therefore, I direct that agencies take the following steps to significantly increase Federal procurement of biobased and other sustainable products.

SECTION 1. [Revoked by Ex. Ord. No. 13693, §16(b), Mar. 19, 2015, 80 F.R. 15880.]

SEC. 2. *Biobased Product Designations*. The USDA has already designated 64 categories of biobased products for preferred Federal procurement. Although these categories represent an estimated 9,000 individual products, less than half of the known biobased products are currently included in the preference program. Increasing the number of products subject to the Federal procurement preference will increase procurement of biobased products. Therefore, I direct the Secretary of Agriculture to:

(a) increase both the number of categories of biobased products designated and individual products eligible for preferred purchasing by 50 percent within 1 year of the date of this memorandum; and

(b) establish a web-based process whereby biobased product manufacturers can request USDA to establish a new product category for designation. The USDA shall determine the merit of the request and, if the product category is deemed eligible, propose designation within 180 days of the request.

SEC. 3. *Changes in Procurement Mechanisms*. Several actions can be taken to facilitate improvement in and compliance with the requirements to purchase biobased products. To achieve these changes, I direct:

(a) the Senior Sustainability Officers and Chief Acquisition Officers of all agencies to randomly sample procurement actions (such as solicitations and awards) to verify that biobased considerations are included as appropriate. Agencies shall include results of these sampling efforts in the Sustainability/Energy scorecard reported to OMB;

(b) the Secretary of Agriculture to work with relevant officials in agencies that have electronic product procurement catalogs to identify and implement solutions to increase the visibility of biobased and other sustainable products;

(c) the Senior Sustainability Officers of all agencies that have established agency-specific product specifications, in coordination with any other appropriate officials, to review and revise all specifications under their control to assure that, wherever possible and appropriate, such specifications require the use of sustainable products, including USDA-designated biobased products, and that any language prohibiting the use of biobased products is removed. The review shall be on a 4-year cycle. Significant review should be completed within 1 year of the date of this memorandum, and the results of the reviews shall be annually reported to OMB and the Office of Science and Technology Policy (OSTP); and

(d) the Secretary of Agriculture to amend USDA’s automated contract writing system, the Integrated Acquisition System, to serve as a model for biobased product procurement throughout the Federal Government by adding elements related to acquisition planning, evaluation factors for source selection, and specifications and requirements. Once completed, USDA shall share the model with all agencies and, as appropriate, assist any agency efforts to adopt similar mechanisms.

SEC. 4. *Small Business Assistance*. A majority of the biobased product manufacturers and vendors selling

biobased products and services that use biobased products to the Federal Government are small businesses. To improve the ability of small businesses to sell these products and services to the Federal Government, I direct:

(a) the Secretary of Commerce, in consultation with the Secretary of Agriculture, to use relevant programs of the Department, such as the Manufacturing Extension Partnership network, to improve the performance and competitiveness of biobased product manufacturers;

(b) the Secretary of Agriculture to work cooperatively with Procurement Technical Assistance Center programs located across the Nation to provide training and assistance to biobased product companies to make these companies aware of the BioPreferred program and opportunities to sell biobased products to Federal, State, and local government agencies; and

(c) the Secretary of Agriculture to develop training within 6 months of the date of this memorandum for small businesses on the BioPreferred program and the opportunities it presents, and the Administrator of the Small Business Administration (SBA) to disseminate that training to Small Business Development Centers and feature it on the SBA website.

SEC. 5. Reporting. The Federal Government should obtain the most reliable information to gauge its progress in purchasing biobased products, including measuring the annual number of procurements that include direct purchase of biobased products, the annual number of construction and service contracts that include the purchase of biobased products, and the annual volume and type of biobased products the Federal Government purchases. I direct that:

(a) within 1 year of the date of this memorandum, the Federal Acquisition Regulatory Council shall propose an amendment to the Federal Acquisition Regulation to require reporting of biobased product purchases, to be made public on an annual basis; and

(b) following the promulgation of the proposed amendment referenced in subsection (a) of this section, the Secretary of Agriculture, in consultation with the Chief Acquisition Officers Council, shall develop a reporting template to facilitate the annual reporting requirement.

SEC. 6. Jobs Creation Research. Biobased products are creating jobs across America. These innovative products are creating new markets for agriculture and expanding opportunities in rural America. Therefore, I direct the Secretary of Agriculture to prepare a report on job creation and the economic impact associated with the biobased product industry to be submitted to the President through the Domestic Policy Council and OSTP within 2 years of the date of this memorandum. The study shall include:

(a) the number of American jobs originating from the biobased product industry annually over the last 10 years, including the job changes in specific sectors;

(b) the dollar value of the current domestic biobased products industry, including intermediates, feedstocks, and finished products, but excluding biofuels;

(c) a forecast for biobased job creation potential over the next 10 years;

(d) a forecast for growth in the biobased industry over the next 10 years; and

(e) jobs data for both biofuels and biobased products, but shall generate separate data for each category.

SEC. 7. Education and Outreach. In compliance with the 2002 Farm Bill, several agencies established agency promotion programs to support the biobased products procurement preference. The Federal Acquisition Institute has added biobased procurement training to its course offerings. To assure both formal and informal educational and outreach instruction on the BioPreferred program are in place and being implemented by each agency, I direct:

(a) the Secretary of Agriculture to update all existing USDA BioPreferred and related sustainable acquisition training materials within 1 year of the date of this memorandum;

(b) the Senior Sustainability Officers and Chief Acquisition Officers of agencies to work cooperatively with the Secretary of Agriculture to immediately implement such BioPreferred program agency education and outreach programs as are necessary to meet the requirements of this memorandum and relevant statutes; and

(c) the Secretary of Agriculture to work actively with the Committee for Purchase From People Who Are Blind or Severely Disabled to promote education and outreach to program, technical, and contracting personnel, and to purchase card holders on BioPreferred AbilityOne products.

SEC. 8. General Provisions. (a) This memorandum shall apply to an agency with respect to the activities, personnel, resources, and facilities of the agency that are located within the United States. The head of an agency may provide that this memorandum shall apply in whole or in part with respect to the activities, personnel, resources, and facilities of the agency that are not located within the United States, if the head of the agency determines that such application is in the interest of the United States.

(b) The head of an agency shall manage activities, personnel, resources, and facilities of the agency that are not located within the United States, and with respect to which the head of the agency has not made a determination under subsection (a) of this section, in a manner consistent with the policies set forth in this memorandum, to the extent the head of the agency determines practicable.

(c) For purposes of this memorandum, “biobased product” shall have the meaning set forth in section 8101(4) of title 7, United States Code.

(d) This memorandum is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

(e) The Secretary of Agriculture is hereby authorized and directed to publish this memorandum in the Federal Register.

BARACK OBAMA.

(1) List of biological agents and toxins

(A) In general

The Secretary of Agriculture shall by regulation establish and maintain a list of each biological agent and each toxin that the Secretary determines has the potential to pose a severe threat to animal or plant health, or to animal or plant products.

(B) Criteria

In determining whether to include an agent or toxin on the list under subparagraph (A), the Secretary shall—

(i) consider—

(I) the effect of exposure to the agent or toxin on animal or plant health, and on the production and marketability of animal or plant products;

(II) the pathogenicity of the agent or the toxicity of the toxin and the methods by which the agent or toxin is transferred to animals or plants;

The Secretary shall proportionately reduce base acres on a farm for covered commodities for land that has been subdivided and developed for multiple residential units or other nonfarming uses if the size of the tracts and the density of the subdivision is such that the land is unlikely to return to the previous agricultural use, unless the producers on the farm demonstrate that the land—

(i) remains devoted to commercial agricultural production; or

(ii) is likely to be returned to the previous agricultural use.

(2) Establishment

(A) In general

The President shall carry out an import quota program during the period beginning on the date of enactment of this Act through July 31, 2013, as provided in this subsection.

(B) Program requirements

Whenever the Secretary determines and announces that for any consecutive 4-week period, the Friday through Thursday average price quotation for the lowest-priced United States growth, as quoted for Middling (M) 1 $\frac{1}{2}$ -inch cotton, delivered to a definable and significant international market, as determined by the Secretary, exceeds the prevailing world market price, there shall immediately be in effect a special import quota.

(3) Quantity

The quota shall be equal to 1 week’s consumption of cotton by domestic mills at the

seasonally adjusted average rate of the most recent 3 months for which data are available.

(4) Application

The quota shall apply to upland cotton purchased not later than 90 days after the date of the Secretary’s announcement under paragraph (2) and entered into the United States not later than 180 days after that date.

(5) Overlap

A special quota period may be established that overlaps any existing quota period if required by paragraph (2), except that a special quota period may not be established under this subsection if a quota period has been established under subsection (b).

(6) Preferential tariff treatment

The quantity under a special import quota shall be considered to be an in-quota quantity for purposes of—

- (A) section 2703(d) of title 19;
- (B) section 3203 of title 19;
- (C) section 2463(d) of title 19; and

(1) Definitions

In this subsection:

(A) Supply

The term “supply” means, using the latest official data of the Bureau of the Census, the Department of Agriculture, and the Department of the Treasury—

- (ii) production of the current crop; and
- (iii) imports to the latest date available during the marketing year.

(B) Demand

The term “demand” means—

 - (II) cumulative exports of upland cotton plus outstanding export sales for the marketing year in which the quota is established.

(C) Limited global import quota

The term “limited global import quota” means a quantity of imports that is not sub-

ject to the over-quota tariff rate of a tariff-rate quota.

(2) Program

The President shall carry out an import quota program that provides that whenever the Secretary determines and announces that the average price of the base quality of upland cotton, as determined by the Secretary, in the designated spot markets for a month exceeded 130 percent of the average price of the quality of cotton in the markets for the preceding 36 months, notwithstanding any other provision of law, there shall immediately be in effect a limited global import quota subject to the following conditions:

(A) Quantity

The quantity of the quota shall be equal to 21 days of domestic mill consumption of upland cotton at the seasonally adjusted average rate of the most recent 3 months for which data are available or as estimated by the Secretary.

(B) Quantity if prior quota

If a quota has been established under this subsection during the preceding 12 months, the quantity of the quota next established under this subsection shall be the smaller of 21 days of domestic mill consumption calculated under subparagraph (A) or the quantity required to increase the supply to 130 percent of the demand.

(C) Preferential tariff treatment

The quantity under a limited global import quota shall be considered to be an in-quota quantity for purposes of—

- (i) section 2703(d) of title 19;
- (ii) section 3203 of title 19;
- (iii) section 2463(d) of title 19; and

§ 9012. Base acres

(a) Retention or 1-time reallocation of base acres

(1) Election required

(A) Notice of election opportunity

As soon as practicable after February 7, 2014, the Secretary shall provide notice to the owners of a farm regarding their opportunity to make an election, in the manner provided in this subsection—

(i) to retain base acres, including any generic base acres, as provided in paragraph (2); or

(ii) in lieu of retaining base acres, to reallocate base acres, other than any generic base acres, as provided in paragraph (3).

(B) Content of notice

The notice under subparagraph (A) shall include the following:

(i) Information that the opportunity of an owner to make the election is being provided only once.

(ii) Information regarding the manner in which the owner must make the election and the manner of notifying the Secretary of the election.

(C) Effect of failure to make election

If the owner of a farm fails to make the election under this subsection, or fails to timely notify the Secretary of the election as required by subparagraph (B)(iii), the owner shall be deemed to have elected to retain base acres, including generic base acres, as provided in paragraph (2).

(2) Retention of base acres

(A) Election to retain

For the purpose of applying this subchapter to a covered commodity, the Secretary shall give an owner of a farm an opportunity to elect to retain all of the base acres for each covered commodity on the farm.

(B) Treatment of generic base acres

Generic base acres are automatically retained.

(3) Reallocation of base acres

(A) Election to reallocate

For the purpose of applying this subchapter to covered commodities, the Sec-

retary shall give an owner of a farm an opportunity to elect to reallocate all of the base acres for covered commodities on the farm, as in effect on September 30, 2013, among those covered commodities planted on the farm at any time during the 2009 through 2012 crop years.

(B) Reallocation formula

The reallocation of base acres among covered commodities on a farm shall be in proportion to the ratio of—

(i) the 4-year average of—

(I) the acreage planted on the farm to each covered commodity for harvest, grazing, haying, silage, or other similar purposes for the 2009 through 2012 crop years; and

(II) any acreage on the farm that the producers were prevented from planting during the 2009 through 2012 crop years to that covered commodity because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, as determined by the Secretary; to

(ii) the 4-year average of—

(I) the acreage planted on the farm to all covered commodities for harvest, grazing, haying, silage, or other similar purposes for such crop years; and

(II) any acreage on the farm that the producers were prevented from planting during such crop years to covered commodities because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, as determined by the Secretary.

(C) Treatment of generic base acres

Generic base acres are retained and may not be reallocated under this paragraph.

(D) Inclusion of all 4 years in average

For the purpose of determining a 4-year acreage average under subparagraph (B) for a farm, the Secretary shall not exclude any crop year in which a covered commodity was not planted.

(E) Treatment of multiple planting or prevented planting

For the purpose of determining under subparagraph (B) the acreage on a farm that producers planted or were prevented from planting during the 2009 through 2012 crop years to covered commodities, if the acreage that was planted or prevented from being planted was devoted to another covered commodity in the same crop year (other than a covered commodity produced under an established practice of double cropping), the owner may elect the commodity to be used for that crop year in determining the 4-year average, but may not include both the initial commodity and the subsequent commodity.

(F) Limitation

The reallocation of base acres among covered commodities on a farm under this paragraph may not result in a total number of

base acres (including generic base acres) for the farm in excess of the number of base acres in effect for the farm on September 30, 2013.

(4) Application of election to all covered commodities

The election made under this subsection, or deemed to be made under paragraph (1)(C), with respect to a farm shall apply to all of the covered commodities on the farm.

(b) Adjustment of base acres

(1) In general

Notwithstanding the election made under subsection (a), the Secretary shall provide for an adjustment, as appropriate, in the base acres for covered commodities for a farm and any generic base acres for the farm whenever any of the following circumstances occur:

(B) Cropland is released from coverage under a conservation reserve contract by the Secretary.

(C) The producer has eligible oilseed acreage as the result of the Secretary designating additional oilseeds, which shall be determined in the same manner as eligible oilseed acreage under section 8711(a)(1)(D) of this title.

(2) Special conservation reserve acreage payment rules

For the crop year in which a base acres adjustment under subparagraph (A) or (B) of paragraph (1) is first made, the owner of the farm shall elect to receive price loss coverage or agriculture risk coverage with respect to the acreage added to the farm under this subsection or a prorated payment under the conservation reserve contract, but not both.

(c) Prevention of excess base acres

(1) Required reduction

Notwithstanding the election made under subsection (a), if the sum of the base acres for a farm, including generic base acres, and the acreage described in paragraph (2) exceeds the actual cropland acreage of the farm, the Secretary shall reduce the base acres for 1 or more covered commodities or generic base acres for the farm so that the sum of the base acres, including generic base acres, and the acreage described in paragraph (2) does not exceed the actual cropland acreage of the farm.

(2) Other acreage

For purposes of paragraph (1), the Secretary shall include the following:

(A) Any acreage on the farm enrolled in the conservation reserve program or wetlands reserve program (or successor programs) under chapter 1 of subtitle D of title XII of the Food Security Act of 1985 (16 U.S.C. 3830 et seq.).

(B) Any other acreage on the farm enrolled in a Federal conservation program for which payments are made in exchange for not pro-

ducing an agricultural commodity on the acreage.

(C) If the Secretary designates additional oilseeds, any eligible oilseed acreage, which shall be determined in the same manner as eligible oilseed acreage under subsection (b)(1)(C).

(3) Selection of acres

The Secretary shall give the owner of the farm the opportunity to select the base acres for a covered commodity or generic base acres for the farm against which the reduction required by paragraph (1) will be made.

(4) Exception for double-cropped acreage

In applying paragraph (1), the Secretary shall make an exception in the case of double cropping, as determined by the Secretary.

(d) Reduction in base acres

(1) Reduction at option of owner

(A) In general

The owner of a farm may reduce, at any time, the base acres for any covered commodity or generic base acres for the farm.

(B) Effect of reduction

A reduction under subparagraph (A) shall be permanent and made in a manner prescribed by the Secretary.

(2) Required action by Secretary

(A) In general

The Secretary shall proportionately reduce base acres, including any generic base acres, on a farm for land that has been subdivided and developed for multiple residential units or other nonfarming uses if the size of the tracts and the density of the subdivision is such that the land is unlikely to return to the previous agricultural use, unless the producers on the farm demonstrate that the land—

- (i) remains devoted to commercial agricultural production; or
- (ii) is likely to be returned to the previous agricultural use.

(B) Requirement

The Secretary shall establish procedures to identify land described in subparagraph (A).

§ 9013. Payment yields

(a) Establishment and purpose

For the purpose of making price loss coverage payments under section 9016 of this title, the Secretary shall provide for the establishment of a yield for each farm for any designated oilseed

for which a payment yield was not established under section 8712 of this title in accordance with this section.

(b) Payment yields for designated oilseeds

In the case of designated oilseeds, the Secretary shall determine the average yield per planted acre for the designated oilseed on a farm for the 1998 through 2001 crop years, excluding any crop year in which the acreage planted to the designated oilseed was zero.

(2) Adjustment for payment yield

(A) In general

The payment yield for a farm for a designated oilseed shall be equal to the product of the following:

- (i) The average yield for the designated oilseed determined under paragraph (1).
- (ii) The ratio resulting from dividing the national average yield for the designated oilseed for the 1981 through 1985 crops by the national average yield for the designated oilseed for the 1998 through 2001 crops.

(B) No national average yield information available

To the extent that national average yield information for a designated oilseed is not available, the Secretary shall use such information as the Secretary determines to be fair and equitable to establish a national average yield under this section.

(3) Use of county average yield

If the yield per planted acre for a crop of a designated oilseed for a farm for any of the 1998 through 2001 crop years was less than 75 percent of the county yield for that designated oilseed, the Secretary shall assign a yield for that crop year equal to 75 percent of the county yield for the purpose of determining the average under paragraph (1).

(c) Effect of lack of payment yield

(1) Establishment by Secretary

In the case of a covered commodity on a farm for which base acres have been established or that is planted on generic base acres, if no payment yield is otherwise established for the covered commodity on the farm, the Secretary shall establish an appropriate payment yield for the covered commodity on the farm under paragraph (2).

(2) Use of similarly situated farms

To establish an appropriate payment yield for a covered commodity on a farm as required by paragraph (1), the Secretary shall take into consideration the farm program payment yields applicable to that covered commodity for similarly situated farms. The use of such data in an appeal, by the Secretary or by the producer, shall not be subject to any other provision of law.

(d) Single opportunity to update yields used to determine price loss coverage payments

(1) Election to update

At the sole discretion of the owner of a farm, the owner of a farm shall have a 1-time oppor-

tunity to update, on a covered commodity-by-covered-commodity basis, the payment yield that would otherwise be used in calculating any price loss coverage payment for each covered commodity on the farm for which the election is made.

(2) Time for election

The election under paragraph (1) shall be made at a time and manner to be in effect beginning with the 2014 crop year as determined by the Secretary.

(3) Method of updating yields

If the owner of a farm elects to update yields under this subsection, the payment yield for a covered commodity on the farm, for the purpose of calculating price loss coverage payments only, shall be equal to 90 percent of the average of the yield per planted acre for the crop of the covered commodity on the farm for the 2008 through 2012 crop years, as determined by the Secretary, excluding any crop year in which the acreage planted to the crop of the covered commodity was zero.

(4) Use of county average yield

If the yield per planted acre for a crop of the covered commodity for a farm for any of the 2008 through 2012 crop years was less than 75 percent of the average of the 2008 through 2012 county yield for that commodity, the Secretary shall assign a yield for that crop year equal to 75 percent of the average of the 2008 through 2012 county yield for the purposes of determining the average yield under paragraph (3).

(Pub. L. 113-79, title I, §1113, Feb. 7, 2014, 128 Stat. 664.)

§ 9014. Payment acres

(a) Determination of payment acres

(1) General rule

For the purpose of price loss coverage and agriculture risk coverage when county coverage has been selected under section 9015(b)(1) of this title, but subject to subsection (e), the payment acres for each covered commodity on a farm shall be equal to 85 percent of the base acres for the covered commodity on the farm.

(2) Effect of individual coverage

In the case of agriculture risk coverage when individual coverage has been selected under section 9015(b)(2) of this title, but subject to subsection (e), the payment acres for a farm shall be equal to 65 percent of the base acres for all of the covered commodities on the farm.

(b) Treatment of generic base acres

(1) In general

In the case of generic base acres, price loss coverage payments and agriculture risk coverage payments are made only with respect to generic base acres planted to a covered commodity for the crop year.

(2) Attribution

With respect to a farm containing generic base acres, for the purpose of applying para-

graphs (1)(B) and (2)(B) of subsection (a), generic base acres on the farm are attributed to a covered commodity in the following manner:

(A) If a single covered commodity is planted and the total acreage planted exceeds the generic base acres on the farm, the generic base acres are attributed to that covered commodity in an amount equal to the total number of generic base acres.

(B) If multiple covered commodities are planted and the total number of acres planted to all covered commodities on the farm exceeds the generic base acres on the farm, the generic base acres are attributed to each of the covered commodities on the farm on a pro rata basis to reflect the ratio of—

- (i) the acreage planted to a covered commodity on the farm; to
- (ii) the total acreage planted to all covered commodities on the farm.

(C) If the total number of acres planted to all covered commodities on the farm does not exceed the generic base acres on the farm, the number of acres planted to a covered commodity is attributed to that covered commodity.

(3) Treated as additional acreage

When generic base acres are planted to a covered commodity or acreage planted to a covered commodity is attributed to generic base acres, the generic base acres are in addition to other base acres on the farm.

(c) Exclusion

The quantity of payment acres determined under subsection (a) may not include any crop subsequently planted during the same crop year on the same land for which the first crop is eligible for price loss coverage payments or agriculture risk coverage payments, unless the crop was approved for double cropping in the county, as determined by the Secretary.

(d) Effect of minimal payment acres

(1) Prohibition on payments

Notwithstanding any other provision of this chapter, a producer on a farm may not receive price loss coverage payments or agriculture risk coverage payments if the sum of the base acres on the farm is 10 acres or less, as determined by the Secretary.

(2) Exceptions

Paragraph (1) does not apply to a producer that is—

- (A) a socially disadvantaged farmer or rancher (as defined in section 2003(e) of this title); or
- (B) a limited resource farmer or rancher, as defined by the Secretary.

(e) Effect of planting fruits and vegetables

(1) Reduction required

In the manner provided in this subsection, payment acres on a farm shall be reduced in any crop year in which fruits, vegetables (other than mung beans and pulse crops), or wild rice have been planted on base acres on a farm.

(2) Price loss coverage and county coverage

In the case of price loss coverage payments and agricultural risk coverage payments using

county coverage, the reduction under paragraph (1) shall be the amount equal to the base acres planted to crops referred to in such paragraph in excess of 15 percent of base acres.

(3) Individual coverage

In the case of agricultural risk coverage payments using individual coverage, the reduction under paragraph (1) shall be the amount equal to the base acres planted to crops referred to in such paragraph in excess of 35 percent of base acres.

(4) Reduction exceptions

No reduction to payment acres shall be made under this subsection if—

(A) cover crops or crops referred to in paragraph (1) are grown solely for conservation purposes and not harvested for use or sale, as determined by the Secretary; or

(B) in any region in which there is a history of double-cropping covered commodities with crops referred to in paragraph (1) and such crops were so double-cropped on the base acres, as determined by the Secretary.

§ 9015. Producer election

(a) Election required

For the 2014 through 2018 crop years, all of the producers on a farm shall make a 1-time, irrevocable election to obtain—

(1) price loss coverage under section 9016 of this title on a covered commodity-by-covered-commodity basis; or

(2) agriculture risk coverage under section 9017 of this title.

(b) Coverage options

In the election under subsection (a), the producers on a farm that elect under paragraph (2) of such subsection to obtain agriculture risk coverage under section 9017 of this title shall unanimously select whether to receive agriculture risk coverage payments based on—

(1) county coverage applicable on a covered commodity-by-covered-commodity basis; or

(2) individual coverage applicable to all of the covered commodities on the farm.

(c) Effect of failure to make unanimous election

If all the producers on a farm fail to make a unanimous election under subsection (a) for the 2014 crop year—

(1) the Secretary shall not make any payments with respect to the farm for the 2014 crop year under section 9016 or 9017 of this title; and

(2) the producers on the farm shall be deemed to have elected price loss coverage under section 9016 of this title for all covered commodities on the farm for the 2015 through 2018 crop years.

(d) Effect of selection of county coverage

If all the producers on a farm select county coverage for a covered commodity under sub-

section (b)(1), the Secretary may not make price loss coverage payments under section 9016 of this title to the producers on the farm with respect to that covered commodity.

(e) Effect of selection of individual coverage

If all the producers on a farm select individual coverage under subsection (b)(2), in addition to the selection and election under this section applying to each producer on the farm, the Secretary shall consider, for purposes of making the calculations required by subsections (b)(2) and (c)(3) of section 9017 of this title, the producer's share of all farms in the same State—

(1) in which the producer has an interest;

and

(2) for which individual coverage has been selected.

(f) Prohibition on reconstitution

The Secretary shall ensure that producers on a farm do not reconstitute the farm to void or change an election or selection made under this section.

(Pub. L. 113-79, title I, §1115, Feb. 7, 2014, 128 Stat. 667.)

§ 9016. Price loss coverage

(a) Price loss coverage payments

If all of the producers on a farm make the election under subsection (a) of section 9015 of this title to obtain price loss coverage or, subject to subsection (c)(1) of such section, are deemed to have made such election under subsection (c)(2) of such section, the Secretary shall make price loss coverage payments to producers on the farm on a covered commodity-by-covered-commodity basis if the Secretary determines that, for any of the 2014 through 2018 crop years—

(1) the effective price for the covered commodity for the crop year; is less than

(2) the reference price for the covered commodity for the crop year.

(b) Effective price

The effective price for a covered commodity for a crop year shall be the higher of—

(1) the national average market price received by producers during the 12-month marketing year for the covered commodity, as determined by the Secretary; or

(2) the national average loan rate for a marketing assistance loan for the covered commodity in effect for such crop year under subchapter II.

(c) Payment rate

The payment rate shall be equal to the difference between—

(1) the reference price for the covered commodity; and

(2) the effective price determined under subsection (b) for the covered commodity.

(d) Payment amount

If price loss coverage payments are required to be provided under this section for any of the 2014 through 2018 crop years for a covered commodity, the amount of the price loss coverage payment to be paid to the producers on a farm for the crop year shall be equal to the product obtained by multiplying—

(1) the payment rate for the covered commodity under subsection (c);

(2) the payment yield for the covered commodity; and

(3) the payment acres for the covered commodity.

(e) Time for payments

If the Secretary determines under this section that price loss coverage payments are required to be provided for the covered commodity, the payments shall be made beginning October 1, or as soon as practicable thereafter, after the end of the applicable marketing year for the covered commodity.

(f) Effective price for barley

In determining the effective price for barley under subsection (b), the Secretary shall use the all-barley price.

(g) Reference price for temperate japonica rice

The Secretary shall provide a reference price with respect to temperate japonica rice in an amount equal to 115 percent of the amount established in subparagraphs (F) and (G) of section 9011(18) of this title in order to reflect price premiums.

(Pub. L. 113-79, title I, §1116, Feb. 7, 2014, 128 Stat. 668.)

§ 9017. Agriculture risk coverage

(a) Agriculture risk coverage payments

If all of the producers on a farm make the election under section 9015(a) of this title to obtain agriculture risk coverage, the Secretary shall make agriculture risk coverage payments to producers on the farm if the Secretary determines that, for any of the 2014 through 2018 crop years—

(1) the actual crop revenue determined under subsection (b) for the crop year; is less than

(2) the agriculture risk coverage guarantee determined under subsection (c) for the crop year.

(b) Actual crop revenue

(1) County coverage

In the case of county coverage, the amount of the actual crop revenue for a county for a crop year of a covered commodity shall be equal to the product obtained by multiplying—

(A) the actual average county yield per planted acre for the covered commodity, as determined by the Secretary; and

(B) the higher of—

(i) the national average market price received by producers during the 12-month marketing year for the covered commodity, as determined by the Secretary; or

(ii) the national average loan rate for a marketing assistance loan for the covered commodity in effect for such crop year under subchapter II.

(2) Individual coverage

In the case of individual coverage, the amount of the actual crop revenue for a producer on a farm for a crop year shall be based on the producer's share of all covered com-

modities planted on all farms for which individual coverage has been selected and in which the producer has an interest, to be determined by the Secretary as follows:

(A) For each covered commodity, the product obtained by multiplying—

(i) the total production of the covered commodity on such farms, as determined by the Secretary; and

(ii) the higher of—

(I) the national average market price received by producers during the 12-month marketing year, as determined by the Secretary; or

(II) the national average loan rate for a marketing assistance loan for the covered commodity in effect for such crop year under subchapter II.

(B) The sum of the amounts determined under subparagraph (A) for all covered commodities on such farms.

(C) The quotient obtained by dividing the amount determined under subparagraph (B) by the total planted acres of all covered commodities on such farms.

(c) Agriculture risk coverage guarantee

(1) In general

The agriculture risk coverage guarantee for a crop year for a covered commodity shall equal 86 percent of the benchmark revenue.

(2) Benchmark revenue for county coverage

In the case of county coverage, the benchmark revenue shall be the product obtained by multiplying—

(A) subject to paragraph (4), the average historical county yield as determined by the Secretary for the most recent 5 crop years, excluding each of the crop years with the highest and lowest yields; and

(B) subject to paragraph (5), the national average market price received by producers during the 12-month marketing year for the most recent 5 crop years, excluding each of the crop years with the highest and lowest prices.

(3) Benchmark revenue for individual coverage

In the case of individual coverage, the benchmark revenue for a producer on a farm for a crop year shall be based on the producer's share of all covered commodities planted on all farms for which individual coverage has been selected and in which the producer has an interest, to be determined by the Secretary as follows:

(A) For each covered commodity for each of the most recent 5 crop years, the product obtained by multiplying—

(i) subject to paragraph (4), the yield per planted acre for the covered commodity on such farms, as determined by the Secretary; by

(ii) subject to paragraph (5), the national average market price received by producers during the 12-month marketing year.

(B) For each covered commodity, the average of the revenues determined under subparagraph (A) for the most recent 5 crop years, excluding each of the crop years with the highest and lowest revenues.

(C) For each of the 2014 through 2018 crop years, the sum of the amounts determined under subparagraph (B) for all covered commodities on such farms, but adjusted to reflect the ratio between the total number of acres planted on such farms to a covered commodity and the total acres of all covered commodities planted on such farms.

(4) Yield conditions

If the yield per planted acre for the covered commodity or historical county yield per planted acre for the covered commodity for any of the 5 most recent crop years, as determined by the Secretary, is less than 70 percent of the transitional yield, as determined by the Secretary, the amounts used for any of those years in paragraph (2)(A) or (3)(A)(i) shall be 70 percent of the transitional yield.

(5) Reference price

If the national average market price received by producers during the 12-month marketing year for any of the 5 most recent crop years is lower than the reference price for the covered commodity, the Secretary shall use the reference price for any of those years for the amounts in paragraph (2)(B) or (3)(A)(ii).

(d) Payment rate

The payment rate for a covered commodity, in the case of county coverage, or a farm, in the case of individual coverage, shall be equal to the lesser of—

(1) the amount that—

(A) the agriculture risk coverage guarantee for the crop year applicable under subsection (c); exceeds

(B) the actual crop revenue for the crop year applicable under subsection (b); or

(2) 10 percent of the benchmark revenue for the crop year applicable under subsection (c).

(e) Payment amount

If agriculture risk coverage payments are required to be paid for any of the 2014 through 2018 crop years, the amount of the agriculture risk coverage payment for the crop year shall be determined by multiplying—

(1) the payment rate determined under subsection (d); and

(2) the payment acres determined under section 9014 of this title.

(f) Time for payments

If the Secretary determines that agriculture risk coverage payments are required to be provided for the covered commodity, payments shall be made beginning October 1, or as soon as practicable thereafter, after the end of the applicable marketing year for the covered commodity.

(g) Additional duties of the Secretary

In providing agriculture risk coverage, the Secretary shall—

(1) to the maximum extent practicable, use all available information and analysis, including data mining, to check for anomalies in the determination of agriculture risk coverage payments;

(2) to the maximum extent practicable, calculate a separate actual crop revenue and ag-

riculture risk coverage guarantee for irrigated and nonirrigated covered commodities;

(3) in the case of individual coverage, assign an average yield for a farm on the basis of the yield history of representative farms in the State, region, or crop reporting district, as determined by the Secretary, if the Secretary determines that the farm has planted acreage in a quantity that is insufficient to calculate a representative average yield for the farm; and

(4) in the case of county coverage, assign an actual or benchmark county yield for each planted acre for the crop year for the covered commodity on the basis of the yield history of representative farms in the State, region, or crop reporting district, as determined by the Secretary, if—

(A) the Secretary cannot establish the actual or benchmark county yield for each planted acre for a crop year for a covered commodity in the county in accordance with subsection (b)(1) or (c)(2); or

(B) the yield determined under subsection (b)(1) or (c)(2) is an unrepresentative average yield for the county, as determined by the Secretary.

(Pub. L. 113-79, title I, §1117, Feb. 7, 2014, 128 Stat. 669.)

§ 9018. Producer agreements

(a) Compliance with certain requirements

(1) Requirements

Before the producers on a farm may receive payments under this subchapter with respect to the farm, the producers shall agree, during the crop year for which the payments are made and in exchange for the payments—

(A) to comply with applicable conservation requirements under subtitle B of title XII of the Food Security Act of 1985 (16 U.S.C. 3811 et seq.);

(B) to comply with applicable wetland protection requirements under subtitle C of title XII of that Act (16 U.S.C. 3821 et seq.);

(C) to effectively control noxious weeds and otherwise maintain the land in accordance with sound agricultural practices, as determined by the Secretary; and

(D) to use the land on the farm, in a quantity equal to the attributable base acres for the farm and any base acres for an agricultural or conserving use, and not for a non-agricultural commercial, industrial, or residential use, as determined by the Secretary.

(2) Compliance

The Secretary may issue such rules as the Secretary considers necessary to ensure producer compliance with the requirements of paragraph (1).

(3) Modification

At the request of the transferee or owner, the Secretary may modify the requirements of this subsection if the modifications are consistent with the objectives of this subsection, as determined by the Secretary.

(b) Transfer or change of interest in farm**(1) Termination****(A) In general**

Except as provided in paragraph (2), a transfer of (or change in) the interest of the producers on a farm for which payments under this subchapter are provided shall result in the termination of the payments, unless the transferee or owner of the acreage agrees to assume all obligations under subsection (a).

(B) Effective date

The termination shall take effect on the date determined by the Secretary.

(2) Exception

If a producer entitled to a payment under this subchapter dies, becomes incompetent, or is otherwise unable to receive the payment, the Secretary shall make the payment in accordance with rules issued by the Secretary.

(c) Acreage reports

As a condition on the receipt of any benefits under this subchapter or subchapter II, the Secretary shall require producers on a farm to submit to the Secretary annual acreage reports with respect to all cropland on the farm.

(d) Production reports

As an additional condition on receiving agriculture risk coverage payments for individual coverage, the Secretary shall require a producer on a farm to submit to the Secretary annual production reports with respect to all covered commodities produced on all farms in the same State—

- (1) in which the producer has an interest; and
- (2) for which individual coverage has been selected.

(e) Effect of inaccurate reports

No penalty with respect to benefits under this subchapter or subchapter II shall be assessed against a producer on a farm for an inaccurate acreage or production report unless the Secretary determines that the producer on the farm knowingly and willfully falsified the acreage or production report.

(f) Tenants and sharecroppers

In carrying out this subchapter, the Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

(g) Sharing of payments

The Secretary shall provide for the sharing of payments made under this subchapter among the producers on a farm on a fair and equitable basis.

(2) Establishment

(A) In general

The President shall carry out an import quota program beginning on August 1, 2014, as provided in this subsection.

(B) Program requirements

Whenever the Secretary determines and announces that for any consecutive 4-week period, the Friday through Thursday average price quotation for the lowest-priced United States growth, as quoted for Middling (M) 1³/₃₂-inch cotton, delivered to a definable and significant international market, as determined by the Secretary, exceeds the prevailing world market price, there shall immediately be in effect a special import quota.

(3) Quantity

The quota shall be equal to the consumption during a 1-week period of cotton by domestic mills at the seasonally adjusted average rate of the most recent 3 months for which official data of the Department of Agriculture are available or, in the absence of sufficient data, as estimated by the Secretary.

(4) Application

The quota shall apply to upland cotton purchased not later than 90 days after the date of the Secretary’s announcement under paragraph (2) and entered into the United States not later than 180 days after that date.

(5) Overlap

A special quota period may be established that overlaps any existing quota period if required by paragraph (2), except that a special quota period may not be established under this subsection if a quota period has been established under subsection (b).

(6) Preferential tariff treatment

The quantity under a special import quota shall be considered to be an in-quota quantity for purposes of—

(2) Program

The President shall carry out an import quota program that provides that whenever the Secretary determines and announces that the average price of the base quality of upland cotton, as determined by the Secretary, in the designated spot markets for a month exceeded 130 percent of the average price of the quality of cotton in the markets for the preceding 36 months, notwithstanding any other provision of law, there shall immediately be in effect a limited global import quota subject to the following conditions:

(A) Quantity

The quantity of the quota shall be equal to 21 days of domestic mill consumption of upland cotton at the seasonally adjusted average rate of the most recent 3 months for which official data of the Department of Agriculture are available or, in the absence of sufficient data, as estimated by the Secretary.

(B) Quantity if prior quota

If a quota has been established under this subsection during the preceding 12 months,

the quantity of the quota next established under this subsection shall be the smaller of 21 days of domestic mill consumption calculated under subparagraph (A) or the quantity required to increase the supply to 130 percent of the demand.

(C) Preferential tariff treatment

The quantity under a limited global import quota shall be considered to be an in-quota quantity for purposes of—
