(b) Priority

In evaluating applications under the program, the Secretary may give priority to land that is currently enrolled in the conservation reserve program in a contract that is set to expire within 1 year and—

(1) in the case of an agricultural land easement, is grassland that would benefit from protection under a long-term easement; and

(c) Subordination, exchange, modification, and termination

(1) Subordination

The Secretary may subordinate any interest in land, or portion of such interest, administered by the Secretary (including for the purposes of utilities and energy transmission services) either directly or on behalf of the Commodity Credit Corporation under the program if the Secretary determines that the subordination—

(C) is in the public interest or furthers the practical administration of the program.

(2) Modification and exchange

(A) Authority

The Secretary may approve a modification or exchange of any interest in land, or portion of such interest, administered by the Secretary, either directly or on behalf of the Commodity Credit Corporation under the program if the Secretary determines that—

(I) results in equal or increased conservation values;

(II) results in equal or greater economic value to the United States;

(III) is consistent with the original intent of the easement;

(IV) is consistent with the purposes of the program; and

(V) is in the public interest or furthers the practical administration of the program.

(B) Limitation

In modifying or exchanging an interest in land, or portion of such interest, under this paragraph, the Secretary may not increase any payment to an eligible entity.

(3) Termination

The Secretary may approve a termination of any interest in land, or portion of such interest, administered by the Secretary, directly or on behalf of the Commodity Credit Corporation under the program if the Secretary determines that—

(A) termination is in the interest of the Federal Government;

(B) the United States will be fully compensated for—

(i) the fair market value of the interest in land;

(ii) any costs relating to the termination; and

(iii) any damages determined appropriate by the Secretary; and

(C) the termination will—

(i) address a compelling public need for which there is no practicable alternative even with avoidance and minimization; and

(ii) further the practical administration of the program.

(4) Consent

The Secretary shall obtain consent from the landowner and eligible entity, if applicable, for any subordination, exchange, modification, or termination of interest in land, or portion of such interest, under this subsection.

(5) Notice

At least 90 days before taking any termination action described in paragraph (3), the Secretary shall provide written notice of such action to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

(d) Land enrolled in other programs

A farmer or rancher who owns eligible land subject to an agricultural land easement may enter into a contract under subpart B of part I of subchapter IV.

(e) Compliance with certain requirements

The Secretary may not provide assistance under this subchapter to an eligible entity or

SUBCHAPTER I—GENERAL PROVISIONS

§ 3901. Findings and statement of purpose

(a) Findings

The Congress finds that—

(1) wetlands play an integral role in maintaining the quality of life through material contributions to our national economy, food supply, water supply and quality, flood control, and fish, wildlife, and plant resources, and thus to the health, safety, recreation, and economic well-being of all our citizens of the Nation;

(2) wetlands provide habitat essential for the breeding, spawning, nesting, migration, wintering and ultimate survival of a major portion of the migratory and resident fish and wildlife of the Nation; including migratory birds, endangered species, commercially and recreationally important finfish, shellfish and other aquatic organisms, and contain many unique species and communities of wild plants;

(3) the migratory bird treaty obligations of the Nation with Canada, Mexico, Japan, the Union of Soviet Socialist Republics, and with various countries in the Western Hemisphere

require Federal protection of wetlands that are used by migratory birds for breeding, wintering or migration and needed to achieve and to maintain optimum population levels, distributions, and patterns of migration;

(4) wetlands, and the fish, wildlife, and plants dependent on wetlands, provide significant recreational and commercial benefits, including—

(A) contributions to a commercial marine harvest valued at over $10,000,000,000 annually;

(B) support for a major portion of the Nation's multimillion dollar annual fur and hide harvest; and

(C) fishing, hunting, birdwatching, nature observation and other wetland-related recreational activities that generate billions of dollars annually;

(5) wetlands enhance the water quality and water supply of the Nation by serving as groundwater recharge areas, nutrient traps, and chemical sinks;

(6) wetlands provide a natural means of flood and erosion control by retaining water during periods of high runoff, thereby protecting against loss of life and property;

(7) wetlands constitute only a small percentage of the land area of the United States, are estimated to have been reduced by half in the contiguous States since the founding of our Nation, and continue to disappear by hundreds of thousands of acres each year;

(8) certain activities of the Federal Government have inappropriately altered or assisted in the alteration of wetlands, thereby unnecessarily stimulating and accelerating the loss of these valuable resources and the environmental and economic benefits that they provide; and

(9) the existing Federal, State, and private cooperation in wetlands conservation should be strengthened in order to minimize further losses of these valuable areas and to assure their management in the public interest for this and future generations.

(b) Purpose

It is the purpose of this chapter to promote, in concert with other Federal and State statutes and programs, the conservation of the wetlands of the Nation in order to maintain the public benefits they provide and to help fulfill international obligations contained in various migratory bird treaties and conventions with Canada, Mexico, Japan, the Union of Soviet Socialist Republics, and with various countries in the Western Hemisphere by—

(1) intensifying cooperative efforts among private interests and local, State, and Federal governments for the management and conservation of wetlands; and

(2) intensifying efforts to protect the wetlands of the Nation through acquisition in fee, easements or other interests and methods by local, State, and Federal governments and the private sector.

[2] So in original. Probably should be ''maintenance''.

pare a list of coastal wetlands restoration projects in Louisiana to provide for the long-term conservation of such wetlands and dependent fish and wildlife populations in order of priority, based on the cost-effectiveness of such projects in creating, restoring, protecting, or enhancing coastal wetlands, taking into account the quality of such coastal wetlands, with due allowance for small-scale projects necessary to demonstrate the use of new techniques or materials for coastal wetlands restoration.

(2) Task Force procedures

The Secretary shall convene meetings of the Task Force as appropriate to ensure that the list is produced and transmitted annually to the Congress as required by this subsection. If necessary to ensure transmittal of the list on a timely basis, the Task Force shall produce the list by a majority vote of those Task Force members who are present and voting; except that no coastal wetlands restoration project shall be placed on the list without the concurrence of the lead Task Force member that the project is cost effective and sound from an engineering perspective. Those projects which potentially impact navigation or flood control on the lower Mississippi River System shall be constructed consistent with section 3953 of this title.

(3) Transmittal of list

No later than one year after November 29, 1990, the Secretary shall transmit to the Congress the list of priority coastal wetlands restoration projects required by paragraph (1) of this subsection. Thereafter, the list shall be updated annually by the Task Force members and transmitted by the Secretary to the Congress as part of the President's annual budget submission. Annual transmittals of the list to the Congress shall include a status report on each project and a statement from the Secretary of the Treasury indicating the amounts available for expenditure to carry out this chapter.

(4) List of contents

(A) AREA IDENTIFICATION; PROJECT DESCRIPTION.—The list of priority coastal wetlands restoration projects shall include, but not be limited to—

(i) identification, by map or other means, of the coastal area to be covered by the coastal wetlands restoration project; and

(ii) a detailed description of each proposed coastal wetlands restoration project including a justification for including such project on the list, the proposed activities to be carried out pursuant to each coastal wetlands restoration project, the benefits to be realized by such project, the identification of the lead Task Force member to undertake each proposed coastal wetlands restoration project and the responsibilities of each other participating Task Force member, an estimated timetable for the completion of each coastal wetlands restoration project, and the estimated cost of each project.

(B) PRE-PLAN.—Prior to the date on which the plan required by subsection (b) of this section becomes effective, such list shall include only those coastal wetlands restoration projects that can be substantially completed during a five-year period commencing on the date the project is placed on the list.

(C) Subsequent to the date on which the plan required by subsection (b) of this section becomes effective, such list shall include only those coastal wetlands restoration projects that have been identified in such plan.

(5) Funding

The Secretary shall, with the funds made available in accordance with section 3955 of this title, allocate funds among the members of the Task Force based on the need for such funds and such other factors as the Task Force deems appropriate to carry out the purposes of this subsection.

(b) Federal and State project planning

(1) Plan preparation

The Task Force shall prepare a plan to identify coastal wetlands restoration projects, in order of priority, based on the cost-effectiveness of such projects in creating, restoring, protecting, or enhancing the long-term conservation of coastal wetlands, taking into account the quality of such coastal wetlands, with due allowance for small-scale projects necessary to demonstrate the use of new techniques or materials for coastal wetlands restoration. Such restoration plan shall be completed within three years from November 29, 1990.

(2) Purpose of the plan

The purpose of the restoration plan is to develop a comprehensive approach to restore and prevent the loss of, coastal wetlands in Louisiana. Such plan shall coordinate and integrate coastal wetlands restoration projects in a manner that will ensure the long-term conservation of the coastal wetlands of Louisiana.

(3) Integration of existing plans

In developing the restoration plan, the Task Force shall seek to integrate the ''Louisiana Comprehensive Coastal Wetlands Feasibility Study'' conducted by the Secretary of the Army and the ''Coastal Wetlands Conservation and Restoration Plan'' prepared by the State of Louisiana's Wetlands Conservation and Restoration Task Force.

(4) Elements of the plan

The restoration plan developed pursuant to this subsection shall include—

(A) identification of the entire area in the State that contains coastal wetlands;

(B) identification, by map or other means, of coastal areas in Louisiana in need of coastal wetlands restoration projects;

(C) identification of high priority coastal wetlands restoration projects in Louisiana needed to address the areas identified in subparagraph (B) and that would provide for the long-term conservation of restored wetlands and dependent fish and wildlife populations;

(D) a listing of such coastal wetlands restoration projects, in order of priority, to be submitted annually, incorporating any

project identified previously in lists produced and submitted under subsection (a) of this section;

(E) a detailed description of each proposed coastal wetlands restoration project, including a justification for including such project on the list;

(F) the proposed activities to be carried out pursuant to each coastal wetlands restoration project;

(G) the benefits to be realized by each such project;

(H) an estimated timetable for completion of each coastal wetlands restoration project;

(I) an estimate of the cost of each coastal wetlands restoration project;

(J) identification of a lead Task Force member to undertake each proposed coastal wetlands restoration project listed in the plan;

(K) consultation with the public and provision for public review during development of the plan; and

(L) evaluation of the effectiveness of each coastal wetlands restoration project in achieving long-term solutions to arresting coastal wetlands loss in Louisiana.

(5) Plan modification

The Task Force may modify the restoration plan from time to time as necessary to carry out the purposes of this section.

(6) Plan submission

Upon completion of the restoration plan, the Secretary shall submit the plan to the Congress. The restoration plan shall become effective ninety days after the date of its submission to the Congress.

(7) Plan evaluation

Not less than three years after the completion and submission of the restoration plan required by this subsection and at least every three years thereafter, the Task Force shall provide a report to the Congress containing a scientific evaluation of the effectiveness of the coastal wetlands restoration projects carried out under the plan in creating, restoring, protecting and enhancing coastal wetlands in Louisiana.

(c) Coastal wetlands restoration project benefits

Where such a determination is required under applicable law, the net ecological, aesthetic, and cultural benefits, together with the economic benefits, shall be deemed to exceed the costs of any coastal wetlands restoration project within the State which the Task Force finds to contribute significantly to wetlands restoration.

(d) Consistency

(1) In implementing, maintaining, modifying, or rehabilitating navigation, flood control or irrigation projects, other than emergency actions, under other authorities, the Secretary, in consultation with the Director and the Administrator, shall ensure that such actions are consistent with the purposes of the restoration plan submitted pursuant to this section.

(2) At the request of the Governor of the State of Louisiana, the Secretary of Commerce shall approve the plan as an amendment to the State's coastal zone management program approved under section 1455 of this title.

(e) Funding of wetlands restoration projects

The Secretary shall, with the funds made available in accordance with this chapter, allocate such funds among the members of the Task Force to carry out coastal wetlands restoration projects in accordance with the priorities set forth in the list transmitted in accordance with this section. The Secretary shall not fund a coastal wetlands restoration project unless that project is subject to such terms and conditions as necessary to ensure that wetlands restored, enhanced or managed through that project will be administered for the long-term conservation of such lands and waters and dependent fish and wildlife populations.

(f) Cost-sharing

(1) Federal share

Amounts made available in accordance with section 3955 of this title to carry out coastal wetlands restoration projects under this chapter shall provide 75 percent of the cost of such projects.

(2) Federal share upon conservation plan approval

Notwithstanding the previous paragraph, if the State develops a Coastal Wetlands Conservation Plan pursuant to this chapter, and such conservation plan is approved pursuant to section 3953 of this title, amounts made available in accordance with section 3955 of this title for any coastal wetlands restoration project under this section shall be 85 percent of the cost of the project. In the event that the Secretary, the Director, and the Administrator jointly determine that the State is not taking reasonable steps to implement and administer a conservation plan developed and approved pursuant to this chapter, amounts made available in accordance with section 3955 of this title for any coastal wetlands restoration project shall revert to 75 percent of the cost of the project: *Provided*, *however*, that[1] such reversion to the lower cost share level shall not occur until the Governor has been provided notice of, and opportunity for hearing on, any such determination by the Secretary, the Director, and Administrator, and the State has been given ninety days from such notice or hearing to take corrective action.

(3) Form of State share

The share of the cost required of the State shall be from a non-Federal source. Such State share shall consist of a cash contribution of not less than 5 percent of the cost of the project. The balance of such State share may take the form of lands, easements, or right-of-way, or any other form of in-kind contribution determined to be appropriate by the lead Task Force member.

(4) Existing cost-sharing agreements

Paragraphs (1), (2), (3), and (5) of this subsection shall not affect the existing cost-shar-

ing agreements for the following projects: Caernarvon Freshwater Diversion, Davis Pond Freshwater Diversion, and Bonnet Carre Freshwater Diversion.

(5) Federal share in calendar years 1996 and 1997

Notwithstanding paragraphs (1) and (2), upon approval of the conservation plan under section 3953 of this title and a determination by the Secretary that a reduction in the non-Federal share is warranted, amounts made available in accordance with section 3955 of this title to carry out coastal wetlands restoration projects under this section in calendar years 1996 and 1997 shall provide 90 percent of the cost of such projects.

(Pub. L. 101–646, title III, § 303, Nov. 29, 1990, 104 Stat. 4779; Pub. L. 104–303, title V, § 532, Oct. 12, 1996, 110 Stat. 3774.)

(C) the plan was developed in accordance with terms of the agreement set forth in subsection (a) of this section.

(e) Modification of conservation plan

(1) Noncompliance

If the Secretary, the Director, and the Administrator determine that a conservation plan submitted by the Governor does not comply with the requirements of subsection (d) of this section, they shall submit to the Governor a statement explaining why the plan is not in compliance and how the plan should be changed to be in compliance.

(2) Reconsideration

If the Governor submits a modified conservation plan to the Secretary, the Director, and the Administrator for their reconsideration, the Secretary, the Director, and Administrator shall have ninety days to determine whether the modifications are sufficient to bring the plan into compliance with requirements of subsection (d) of this section.

(3) Approval of modified plan

If the Secretary, the Director, and the Administrator fail to approve or disapprove the conservation plan, as modified, within the ninety-day period following the date on which it was submitted to them by the Governor, such plan, as modified, shall be deemed to be approved effective upon the expiration of such ninety-day period.

(f) Amendments to conservation plan

If the Governor amends the conservation plan approved under this section, any such amended plan shall be considered a new plan and shall be subject to the requirements of this section; except that minor changes to such plan shall not be subject to the requirements of this section.

(g) Implementation of conservation plan

A conservation plan approved under this section shall be implemented as provided therein.

(h) Federal oversight

(1) Initial report to Congress

Within one hundred and eighty days after entering into the agreement required under subsection (a) of this section, the Secretary, the Director, and the Administrator shall report to the Congress as to the status of a conservation plan approved under this section and the progress of the State in carrying out such a plan, including and[1] accounting, as required under subsection (c) of this section, of the gains and losses of coastal wetlands as a result of development activities.

(2) Report to Congress

Twenty-four months after the initial one hundred and eighty day period set forth in paragraph (1), and at the end of each twenty-four-month period thereafter, the Secretary, the Director, and the Administrator shall, report to the Congress on the status of the conservation plan and provide an evaluation of the effectiveness of the plan in meeting the goal of this section.

(Pub. L. 101–646, title III, § 304, Nov. 29, 1990, 104 Stat. 4783.)

§ 3954. National coastal wetlands conservation grants

(a) Matching grants

The Director shall, with the funds made available in accordance with section 3955 of this title, make matching grants to any coastal State to carry out coastal wetlands conservation projects from funds made available for that purpose.

(b) Priority

Subject to the cost-sharing requirements of this section, the Director may grant or otherwise provide any matching moneys to any coastal State which submits a proposal substantial in character and design to carry out a coastal wetlands conservation project. In awarding such matching grants, the Director shall give priority to coastal wetlands conservation projects that are—

(1) consistent with the National Wetlands Priority Conservation Plan developed under section 3921 of this title; and

(2) in coastal States that have established dedicated funding for programs to acquire coastal wetlands, natural areas and open spaces. In addition, priority consideration shall be given to coastal wetlands conservation projects in maritime forests on coastal barrier islands.

(c) Conditions

The Director may only grant or otherwise provide matching moneys to a coastal State for purposes of carrying out a coastal wetlands conservation project if the grant or provision is subject to terms and conditions that will ensure that any real property interest acquired in whole or in part, or enhanced, managed, or restored with such moneys will be administered for the long-term conservation of such lands and waters and the fish and wildlife dependent thereon.

(d) Cost-sharing

(1) Federal share

Grants to coastal States of matching moneys by the Director for any fiscal year to carry out coastal wetlands conservation projects shall be used for the payment of not to exceed 50 percent of the total costs of such projects: except that such matching moneys may be used for payment of not to exceed 75 percent of the costs of such projects if a coastal State has established and is using one of the following for the purpose of acquiring coastal wetlands, other natural areas or open spaces:

(A) a trust fund from which the principal is not spent; or

(B) a fund derived from a dedicated recurring source of monies including, but not limited to, real estate transfer fees or taxes,

[1] So in original. Probably should be ''an''.

cigarette taxes, tax check-offs, or motor vehicle license plate fees.

(2) Form of State share

The matching moneys required of a coastal State to carry out a coastal wetlands conservation project shall be derived from a non-Federal source.

(3) In-kind contributions

In addition to cash outlays and payments, in-kind contributions of property or personnel services by non-Federal interests for activities under this section may be used for the non-Federal share of the cost of those activities.

(e) Partial payments

(1) The Director may from time to time make matching payments to carry out coastal wetlands conservation projects as such projects progress, but such payments, including previous payments, if any, shall not be more than the Federal pro rata share of any such project in conformity with subsection (d) of this section.

(2) The Director may enter into agreements to make matching payments on an initial portion of a coastal wetlands conservation project and to agree to make payments on the remaining Federal share of the costs of such project from subsequent moneys if and when they become available. The liability of the United States under such an agreement is contingent upon the continued availability of funds for the purpose of this section.

§ 4001. Congressional findings

The Congress finds that—

(1) the commercial fishing industry of the United States significantly contributes to the national economy, and could make a greater contribution if fish resources within the United States Exclusive Economic Zone were more fully utilized;

(2) the commercial fisheries of the United States provide significant employment in coastal areas and in processing and distribution centers;

(3) fish contribute an important nutritional component to the American diet;

(4) increased consumption of seafood in the United States could significantly lower the risk of many cardiovascular diseases;

(5) Federally supported development programs for commercial fisheries are unable to meet present and future marketing needs;

(6) many fish species are underutilized by the United States fishing industry because of underdeveloped markets; and

(7) the United States fishing industry has the potential to expand greatly its contribution to interstate and foreign commerce, favorably affecting the balance of trade.

(b) Form of application

An application for a charter for a council shall be made by filing with the Secretary the text of a proposed charter in such form as shall be prescribed by regulation by the Secretary. The text of a proposed charter must contain such information as the Secretary considers necessary or appropriate for carrying out the provisions of this chapter, including—

(1) the name of the council and a provision proclaiming its establishment;

(2) a declaration of the purposes and objectives of the council;

(3) a description of the species of fish and fish products for which the council will implement marketing and promotion plans under section 4010 of this title;

(4) the identification of each sector and the number and terms of representatives of each sector that will be represented as voting members of the council;

(5) the identification of those sectors (including the sector consisting of harvesters,

the sector consisting of receivers, and, if subject to assessment, the sector consisting of importers) subject to a referendum to establish a council under subsection (e) of this section;

(6) a specification for each sector described under paragraph (5) of this subsection of the minimum requirements, as measured by income, volume, or other relevant factors, that a person engaging in business in the sector must meet in order to participate in a referendum;

(7)(A) a description of the procedures for determining assessment rates under section 4012 of this title;

(B) the proposed rate or rates that will be imposed by the council on receivers and, if subject to assessment, importers during its first year of operation;

The text of a proposed charter shall be accompanied by a document identifying, to the extent practicable by address of place of business, the persons (hereinafter referred to as ''sector participants'') that are considered by the applicants to meet the requirements specified in paragraph (6) of this subsection. The text of a proposed charter shall include provisions setting forth procedures for providing refunds to those sector participants subject to assessment under section 4012 of this title, and may also include provisions which establish a maximum limit on the amount that any one sector participant may be required to pay under an assessment for any period.

(c) Contents of charter

The Secretary may not approve a proposed charter filed under subsection (a) of this section unless such charter provides that—

(1) the council will have voting members representing the harvesting, receiving and, if subject to assessment, importing sectors; and

(2) the members of the council shall serve without compensation, but shall be reimbursed for their reasonable expenses incurred in performing their duties as members of the council.

(d) Review of charter

(1) Within 180 days of the receipt of an application to establish a council, the Secretary shall—

(A) identify, to the extent practicable, those sector participants that meet the requirements for eligibility to participate in the referendum under subsection (e) of this section;

(B) determine, to the extent practicable, if the charter is accompanied by a petition comprised of the signatures or corporate certifications, as the case may be, of no less than three sector participants in each sector identified in accordance with subsection (b)(5) of this section who collectively accounted for, in the twelve-month period immediately preceding the month in which the application was filed, not less than 10 percent of the value of the fish or fish products described in accordance with subsection (b)(3) of this section that were handled by each such sector during that period; and

(C) determine if the proposed charter is consistent with the provisions of this chapter and any other applicable law.

(2) If any negative determination is made under paragraph (1) of this subsection regarding a proposed charter, the Secretary shall advise in writing the sector participants who made the application of the reasons for such determination. A corrected application may be submitted thereafter to the Secretary for approval.

(e) Conduct of referendum

(1) Upon making affirmative determinations under subsection (d)(1) of this section regarding a proposed charter, the Secretary, within 90 days after the date of the last of such determinations, shall conduct a referendum on the adoption of the proposed charter among all sector participants identified in accordance with subsection (d)(1)(A) of this section. The Secretary shall by order establish the council and approve the proposed charter, if the referendum votes which are cast in favor of the proposed charter constitute a majority of the sector participants voting in each sector and the majority collectively accounts for, in the twelve-month period immediately preceding the month in which the proposed charter was filed under subsection (a) of this section, at least sixty-six percent of the value of the fish and fish products described in accordance with subsection (b)(3) of this section that were handled by that sector during such period.

(2) Not less than thirty days prior to holding a referendum under this subsection, the Secretary shall—

(A) publish (by such means as will result in wide publicity in regions affected by the proposed charter) the text of the proposed charter and a list of those sector participants eligible to vote in the referendum; and

(B) provide for public comment, including the opportunity for a public meeting.

(3)(A) The Secretary shall pay all costs of a referendum which establishes a council under this subsection. Within two years after a council is established the council shall reimburse the Secretary for any expenses incurred for the conduct of the referendum from assessments collected by the council. Prior to the holding of a referendum under this subsection, the Secretary shall require the applicants to post a bond or other security acceptable to the Secretary, in an amount which the Secretary determines to be sufficient to pay any expenses incurred for the conduct of the referendum, and shall imme-

diately recover such amount if a referendum fails to result in the establishment of a council.

(B) As used in this paragraph, the term ''expenses incurred for the conduct of the referendum'' does not include salaries of Government employees or other administrative overhead, but is limited to those additional direct costs incurred in connection with conduct of the referendum.

(f) Nominations

(1) Within thirty days after a council is established under subsection (e) of this section, the Secretary shall solicit from the sectors represented on the council nominations for members of the council. If the harvesters and receivers represented on the council are engaged in business in two or more regions of the United States, the nominations made under this paragraph, and the appointments to the council made under paragraph (3) of this subsection, must, to the extent practicable, result in equitable representation for the constituent regions.

(2) No person is eligible for nomination or appointment as a member of a council unless such person is knowledgeable and experienced with regard to the activities of, and is or has been actively engaged in the business of, the sector which such person will represent on the council.

(3) The Secretary shall, within sixty days after the end of the thirty-day period referred to in paragraph (1) of this subsection, appoint the members of the council from among the nominees.

(4) A vacancy on a council shall be filled, within sixty days after the vacancy occurs, in the same manner in which the original appointment was made. A member appointed to fill a vacancy occurring before the expiration of the term for which the member's predecessor was appointed shall be appointed only for the remainder of such term.

(5) The Secretary shall remove any member of a council if the council concerned first recommends, by not less than two-thirds of its members, removal for cause. Such a recommendation of a council must be in writing and accompanied by a statement of the reasons upon which the recommendation is based.

(g) Nature of a council

A council is not an instrumentality of the United States Government.

§ 4015. Termination of a council

(a) Petition for termination

(1) A petition to terminate a council may be filed with the Secretary by no less than three sector participants in any one sector. Any petition filed under this subsection shall be accompanied by a written document explaining the reasons for such petition.

(2) If the Secretary determines that a petition filed under paragraph (1) of this subsection is accompanied by the signatures, or corporate certifications, as the case may be, of no less than three sector participants in a sector referred to in paragraph (1) of this subsection who collectively accounted for, in the twelve-month period immediately preceding the month in which such petition was filed, not less than 20 percent of the value of the fish or fish products described in accordance with section 4009(b)(3) of this title that were handled by that sector during such period, the Secretary, within 90 days after such determination, shall conduct a referendum for termination of the council among all sector participants in that sector.

(3) Not less than 30 days prior to holding a referendum under this subsection, the Secretary shall publish a notice of such referendum, including the document explaining the reasons for the petition filed under paragraph (1) of this subsection and any other relevant information the Secretary considers appropriate.

(4) If the referendum votes which are cast in favor of terminating the council constitute a majority of the sector participants voting and the majority, in the period referred to in paragraph (2) of this subsection, collectively accounted for not less than sixty-six percent of the value of such fish and fish products that were handled during such period by a sector referred to in paragraph (1) of this subsection, the Secretary shall by order terminate the council effective as of a date by which the affairs of the council may be concluded on an orderly basis.

(5) The Secretary initially shall pay all costs of a referendum conducted under this subsection. Prior to conducting such a referendum, the Secretary shall require petitioners to post a bond or other security acceptable to the Secretary in an amount which the Secretary determines to be sufficient to pay any expenses incurred for the conduct of such referendum.

(6)(A) If a referendum conducted under this subsection fails to result in the termination of the council, the Secretary shall immediately recover the amount of the bond posted by petitioners under paragraph (5) of this subsection.

(B) If a referendum conducted under this subsection results in the termination of the council, the Secretary shall recover the expenses incurred for the conduct of the referendum from the account established by the council under section 4012(e) of this title. If the amount remaining in such account is insufficient for the Secretary to recover all expenses incurred for the conduct of the referendum, the Secretary shall recover the balance of such expenses from the petitioners that posted a bond under paragraph (5) of this subsection.

(b) Payment of remaining funds

If a council is terminated under subsection (a) of this section, the Secretary, after recovering all expenses incurred for the conduct of the referendum under subsection (a) of this section, shall take such action as is necessary and practicable to ensure that moneys remaining in the account established by the council under section 4012(e) of this title are paid on a prorated basis to the sector participants from whom those moneys were collected under section 4012 of this title.

(Pub. L. 99–659, title II, § 216, Nov. 14, 1986, 100 Stat. 3728.)

(B) Except as provided in subparagraphs (C) or (D) of this paragraph, any civil action authorized to be brought under this subsection, when referred by a council under subparagraph (A) of this paragraph, shall be referred to the Attorney General for appropriate action.

(C) If the Secretary believes that the administration and enforcement of the provisions of this chapter would be adequately served by taking administrative action under subsection (b) of this section or by providing written notice or warning to any person committing a violation of this chapter, the Secretary is not required to refer such violation to the Attorney General.

(D) Whenever a matter has been referred by a council under subparagraph (A) of this paragraph and the Secretary or the Attorney General fails within 60 days of such referral to take appropriate action, the council may, upon filing notice with the Secretary or Attorney General, as appropriate, and other interested parties, bring an action in its own name.

(b) Recovery of costs

(1)(A) When a council brings an action under subsection (a)(2) of this section, the council may recover costs of litigation and, where the action is brought to collect an unpaid assessment, interest from the date the amount became due and payable.

(B) Any person who violates any provision of an order (including a cease and desist order previously issued under this paragraph) or regulation issued by the Secretary under this chapter, or who fails or refuses to pay, collect, or remit any assessment required under this chapter, may be assessed a civil penalty by the Secretary of not less than $500 nor more than $5,000 for each such violation. Each violation shall be a separate offense. In addition to, or in lieu of, a civil penalty under this subparagraph, the Secretary may issue an order requiring such person to cease and desist from continuing such violation.

(C) No penalty shall be assessed, or cease and desist order issued, under this paragraph unless the affected person is given notice and opportunity for a hearing before the Secretary with respect to such violation.

(D) Any order of the Secretary under this paragraph assessing a penalty or imposing a cease and desist order shall be final and conclusive, unless the affected person files an appeal from the Secretary's order with the appropriate United States court of appeals.

(2)(A) Any person against whom a violation is found under paragraph (1) of this subsection may obtain review of such action in the United States court of appeals for the circuit in which such person resides or has his place of business, or in the United States Court of Appeals for the District of Columbia Circuit, by filing a notice of appeal in such court within thirty days after the date of such order and by simultaneously sending a copy of such notice by certified mail to the Secretary.

(B) The Secretary shall promptly file in the court a certified copy of the record upon which such violation was found.

(C) The findings of the Secretary shall be set aside only if found to be unsupported by substantial evidence or not in accordance with law.

(3)(A) If any person fails to pay a civil penalty under this subsection after it has become final, the Secretary shall refer the matter to the Attorney General.

(B) The Attorney General shall institute appropriate action to recover the amount assessed under this subsection in a district court of the United States.

(C) If, within sixty days after such referral, the Attorney General fails to institute such appropriate action, the council to whose programs the assessment, order or regulation relates may institute an action in its own name.

(b) Oaths and affirmations

For the purpose of investigations under subsection (a) of this section, the Secretary may administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, and documents which are relevant to the inquiry. (c) Court orders

In case of contumacy or refusal to obey a subpoena issued under this section by any person, the Secretary may invoke the aid of any court of the United States within the jurisdiction of which such investigation or proceeding is carried on, or where such person resides or has his business, to require the attendance and testimony of witnesses and the production of books, papers, and documents. § 4103. Apportionment

(a) Time when apportionments made

Funds appropriated under section 4107(a) of this title shall be apportioned by the Secretary among the States on October 1 of each fiscal year, or as soon thereafter as practicable.

(b) Apportionment formula

The amount of funds apportioned to each State shall be determined by the Secretary as the ratio which the equally weighted average of the volume and value of fishery resources harvested by domestic commercial fishermen and received within such State during the 3 most recent calendar years for which data satisfactory to the Secretary are available bears to the total equally weighted average of the volume and value of all fishery resources harvested by domestic commercial fishermen received within all of the States during those calendar years.

(c) Limitations

(1) No State may receive an apportionment under subsection (b) for either fiscal year 1987 or fiscal year 1988 which is less than one-half of one percent of the total amount of funds available for that fiscal year.

(2) For any fiscal year after fiscal year 1988, no State that, under the apportionment formula in subsection (b), has a ratio of one-third of one percent or higher may receive an apportionment for any fiscal year which is less than one percent of the total amount of funds available for that fiscal year.

(3) For any fiscal year after fiscal year 1988, no State may receive an apportionment under this section for any fiscal year if that State's ratio under the apportionment formula in subsection (b) is less than one-third of one percent, unless the State—

(A) is signatory to an interstate fishery compact;

(B) has entered into an agreement with the Secretary or the Secretary of the Interior under which the personnel, services, and equipment of the State and the Federal agency concerned will be made mutually available for the enforcement of Federal and State laws pertaining to the protection of fishery resources which are managed under an interstate fishery management plan;

(C) borders one or more of the Great Lakes; or

(D) has entered into an interstate cooperative fishery management agreement and has in effect an interstate fisheries management or interstate fisheries research program.

(4) No State that, under the apportionment formula in subsection (b), has a ratio of less than one-third of one percent and meets any of the requirements set forth in paragraph (1)(A), (B), (C), or (D) may receive an apportionment for any fiscal year which is less than one-half of one percent of the total amount of funds available for apportionment for such fiscal year.

(5) No State may receive an apportionment for any fiscal year under this section which is more than 6 percent of the total amount of funds available for apportionment for such fiscal year.

(d) Unused apportionments

Any part of an apportionment for any fiscal year to any State—

(1) that is not obligated during that year;

(2) with respect to which the State notifies the Secretary that it does not wish to receive that part; or

(3) that is returned to the Secretary by the State,

may not be considered to be apportioned to that State and shall be added to such funds as are appropriated pursuant to section 4107(a) of this title for the next fiscal year (and shall be treated as having been appropriated for such next year) for apportionment under subsection (a). Any notification or return of funds referred to in paragraph (2) or (3) by a State is irrevocable.

§ 4104. State projects

(a) In general

(1) Any State may, through its State agency or an interstate commission, submit to the Secretary a proposal for a project which includes full plans, specifications, and cost estimates for such project. The total cost of all items included for engineering, planning, inspection, and unforeseen contingencies in connection with any works to be constructed as part of such a proposed project shall not exceed 10 percent of the total cost of such works, and shall be paid by the State as a part of its contribution to the total cost of the works.

(2) No part of any funds appropriated under any authorization contained in section 4107 of this title may be obligated with respect to any project until the proposal for such project has been submitted under paragraph (1) and approved by the Secretary. The Secretary, before approving any proposal for a project, must evaluate the proposal as to—

(A) the soundness of design;

(B) the possibilities of securing productive results;

(C) the minimization of duplication with other research projects in support of the management of interjurisdictional fishery resources and carried out under this chapter or under any other law or regulation;

(D) the organization and management of the project;

(E) the methods proposed for monitoring and evaluating the success or failure of the project;

(F) the consistency of the project with the purposes of this chapter specified in section 4101 of this title; and

(G) such other criteria as the Secretary may prescribe.

(3) The Federal share of the cost of any project conducted under this chapter shall not exceed 75 percent of the total estimated cost of the project, unless—

(A) the State has adopted an interstate fishery management plan for the resource to which the project applies; or

(B) the State has adopted fishery regulations which the Secretary has determined are consistent with any Federal fishery management plan for the species to which the project applies;

in which case the Federal share shall not exceed 90 percent of the total estimated cost of the project.

(4)(A) If the Secretary approves or disapproves a proposal for a project, the Secretary shall promptly give written notification, including, if disapproved, a detailed explanation of the reasons for the disapproval, to the State agency submitting the proposal or, if the proposal is submitted through an interstate commission, such commission and the State.

(B) For the purposes of this chapter, funds apportioned under this section to any State shall be treated as having been obligated with respect to a project during the fiscal year in which the written notification of approval required under subparagraph (A) for the project proposal is made.

(b) Restriction

The expenditure of funds under this chapter shall be applied only to projects for which a proposal has been approved under subsection (a), except that up to $25,000 each fiscal year may be obligated for a State to carry out an agreement with the Secretary or the Secretary of the Interior under which the personnel, services and equipment of the State and the Federal agency concerned will be made mutually available for

the enforcement of Federal and State laws pertaining to the protection of fishery resources. If otherwise applied, such funds shall be replaced by the State before the State may receive any additional funds under this chapter.

(c) Payment

When the Secretary determines that a project carried out under a proposal approved by the Secretary has been completed, or where the Secretary otherwise deems it appropriate, the Secretary shall cause to be paid to the proper authority of the State, or to the official or depository designated by the interstate commission if the State agency specifies that payment is to be made to the interstate commission, the Federal share of the project. Any payment made to an interstate commission shall be charged against the apportionment of the State concerned.

§ 4107. Authorization of appropriations

(a) General appropriations

There are authorized to be appropriated to the Secretary of Commerce for apportionment to carry out the purposes of this chapter $5,000,000 for each of fiscal years 2007 through 2010, and $2,500,000 for each of fiscal years 2011 and 2012.

(b) Additional appropriations

In addition to the amounts authorized in subsection (a), there are authorized to be appropriated to the Department of Commerce $65,000,000 for each of the fiscal years 1994 and 1995, which shall be available in such amounts as the Secretary may determine appropriate for the purposes of this chapter; except that—

(1) in providing funds to States under this subsection, the Secretary shall give a preference to those States regarding which the Secretary determines there is a commercial fishery failure or serious disruption affecting future production due to a fishery resource disaster arising from natural or undetermined causes, and any sums made available under this subsection may be used either by the States or directly by the Secretary in cooperation with the States for any purpose that the Secretary determines is appropriate to restore the fishery affected by such a failure or to prevent a similar failure in the future;

(2) the funds authorized to be appropriated under this subsection shall not be available to the Secretary for use as grants for chartering fishing vessels; and

(3) the Federal share of the cost of any activity carried out with an amount appropriated under the authority of this subsection shall be 75 percent of the cost of that activity.

Amounts appropriated under this subsection shall remain available until expended.

(c) Development of management plans

In addition to the amounts authorized under subsections (a) and (b), there are authorized to be appropriated to the Department of Commerce $900,000 for each of fiscal years 2007 through 2012, to support the efforts of the following interstate commissions to develop interstate fishery management plans for interjurisdictional fishery resources:

Amounts appropriated under this subsection shall remain available until expended.

(2) The Secretary shall determine the extent, and the beginning and ending dates, of any fishery resource disaster under this subsection.

(3) Eligibility for direct assistance to a person under this subsection shall be limited to any person that has less than $2,000,000 in net revenues annually from commercial fishing, as determined by the Secretary.

(4)(A) Assistance may not be provided under this subsection as part of a fishing capacity reduction program in a fishery unless the Secretary determines that adequate conservation and management measures are in place in that fishery.

(B) As a condition of awarding assistance with respect to a vessel under a fishing capacity reduction program, the Secretary shall—

(i) prohibit the vessel from being used for fishing; and

(ii) require that the vessel be—

(I) scrapped or otherwise disposed of in a manner approved by the Secretary; or

(II) donated to a nonprofit organization and thereafter used only for purposes of research, education, or training; or

(III) used for another non-fishing purpose provided the Secretary determines that adequate measures are in place to ensure that the vessel cannot reenter any fishery.

(C) A vessel that is prohibited from fishing under subparagraph (B) shall not be eligible for a fishery endorsement under section 12113(a) of title 46 and any such endorsement for the vessel shall not be effective.

(5) The Secretary shall establish, after notice and opportunity for public comment, appropriate limitations, terms, and conditions for receiving assistance under this subsection.

(6) As used in this subsection, the term ''person'' means any individual or any corporation, partnership, trust, association, or other nongovernmental entity.

(7) With respect to funds available for the New England region, the Secretary shall submit to the Congress by January 1, 1997, with annual updates thereafter as appropriate, a report on the New England fishing capacity reduction initiative which provides—

(A) the total number of Northeast multispecies permits in each permit category and calculates the maximum potential fishing capacity of vessels holding such permits based on the principal gear, gross registered tonnage, engine horsepower, length, age, and other relevant characteristics;

(B) the total number of days at sea available to the permitted Northeast multispecies fish-

ing fleet and the total days at sea weighted by the maximum potential fishing capacity of the fleet;

(C) an analysis of the extent to which the weighted days at sea are used by the active participants in the fishery and of the reduction in such days as a result of the fishing capacity reduction program; and

(D) an estimate of conservation benefits (such as reduction in fishing mortality) directly attributable to the fishing capacity reduction program.

SHORT TITLE

Pub. L. 100–478, title II, § 2001, Oct. 7, 1988, 102 Stat. 2315, provided that: ''This title [enacting this chapter and amending section 1538 of this title] may be cited as the 'African Elephant Conservation Act'.''

§ 4202. Findings

The Congress finds the following:

(1) Elephant populations in Africa have declined at an alarming rate since the mid-1970's.

(2) The large illegal trade in African elephant ivory is the major cause of this decline and threatens the continued existence of the African elephant.

(3) The African elephant is listed as threatened under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.) and its continued existence will be further jeopardized if this decline is not reversed.

(4) Because African elephant ivory is indistinguishable from Asian elephant ivory, there is a need to ensure that the trade in African elephant ivory does not further endanger the Asian elephant, which is listed as endangered under section 4 of the Endangered Species Act of 1973 (16 U.S.C. 1533) and under Appendix I of CITES.

(5) In response to the significant illegal trade in African elephant ivory, the parties to CITES established the CITES Ivory Control System to curtail the illegal trade and to encourage African countries to manage, conserve, and protect their African elephant populations.

(6) The CITES Ivory Control System entered into force recently and should be allowed to continue in force for a reasonable period of time to assess its effectiveness in curtailing the illegal trade in African elephant ivory.

(7) Although some African countries have effective African elephant conservation programs, many do not have sufficient resources to properly manage, conserve, and protect their elephant populations.

(8) The United States, as a party to CITES and a large market for worked ivory, shares responsibility for supporting and implementing measures to stop the illegal trade in African elephant ivory and to provide for the conservation of the African elephant.

(9) There is no evidence that sport hunting is part of the poaching that contributes to the illegal trade in African elephant ivory, and there is evidence that the proper utilization of well-managed elephant populations provides an important source of funding for African elephant conservation programs.

§ 4221. Review of African elephant conservation programs

(a) In general

Within one month after October 7, 1988, the Secretary shall issue a call for information on the African elephant conservation program of each ivory producing country by—

(1) publishing a notice in the Federal Register requesting submission of such information to the Secretary by all interested parties; and

(2) submitting a written request for such information through the Secretary of State to each ivory producing country.

(b) Review and determination

(1) In general

The Secretary shall review the African elephant conservation program of each ivory producing country and, not later than one year after October 7, 1988, shall issue and publish in the Federal Register a determination of whether or not the country meets the following criteria:

(A) The country is a party to CITES and adheres to the CITES Ivory Control System.

(B) The country's elephant conservation program is based on the best available information, and the country is making expeditious progress in compiling information on the elephant habitat condition and carrying capacity, total population and population trends, and the annual reproduction and mortality of the elephant populations within the country.

(C) The taking of elephants in the country is effectively controlled and monitored.

(D) The country's ivory quota is determined on the basis of information referred to in subparagraph (B) and reflects the amount of ivory which is confiscated or consumed domestically by the country.

(E) The country has not authorized or allowed the export of amounts of raw ivory which exceed its ivory quota under the CITES Ivory Control System.

(2) Delay in issuing determination

If the Secretary finds within one year after October 7, 1988, that there is insufficient information upon which to make the determination under paragraph (1), the Secretary may delay issuing the determination until no later than December 31, 1989. The Secretary shall issue and publish in the Federal Register at the time of the finding a statement explaining the reasons for any such delay.

(Pub. L. 100–478, title II, §2201, Oct. 7, 1988, 102 Stat. 2318.)

§ 4222. Moratoria

(a) Ivory producing countries

(1) In general

The Secretary shall establish a moratorium on the importation of raw and worked ivory from an ivory producing country immediately upon making a determination that the country does not meet all the criteria set forth in section 4221(b)(1) of this title.

(2) Later establishment

With regard to any ivory producing country for which the Secretary has insufficient information to make a determination pursuant to section 4221(b) of this title, the Secretary shall establish a moratorium on the importation of raw and worked ivory from such country not later than January 1, 1990, unless, based on new information, the Secretary concludes before that date that the country meets all of the criteria set forth in section 4221(b)(1) of this title.

(b) Intermediary countries

The Secretary shall establish a moratorium on the importation of raw and worked ivory from an intermediary country immediately upon making a determination that the country—

(1) is not a party to CITES;

(2) does not adhere to the CITES Ivory Control System;

(3) imports raw ivory from a country that is not an ivory producing country;

[1] So in original. Probably should not be capitalized.

(4) imports raw or worked ivory from a country that is not a party to CITES;

(5) imports raw or worked ivory that originates in an ivory producing country in violation of the laws of that ivory producing country;

(7) imports raw or worked ivory from a country that is subject to a moratorium under this chapter after the first three months of that moratorium, unless the ivory is imported by vessel during the first six months of that moratorium and is accompanied by shipping documents which show that it was exported before the establishment of the moratorium.

(c) Suspension of moratorium

The Secretary shall suspend a moratorium established under this section if, after notice and public comment, the Secretary determines that the reasons for establishing the moratorium no longer exist.

(d) Petition

(e) Sport-hunted trophies

Individuals may import sport-hunted elephant trophies that they have legally taken in an ivory producing country that has submitted an ivory quota. The Secretary shall not establish any moratorium under this section, pursuant to a petition or otherwise, which prohibits the importation into the United States of sport-hunted trophies from elephants that are legally taken by the importer or the importer's principal in an ivory producing country that has submitted an ivory quota.

(f) Confiscated ivory

Trade in raw or worked ivory that is confiscated by an ivory producing country or an intermediary country and is disposed of pursuant to the CITES Ivory Control System shall not be the sole cause for the establishment of a moratorium under this subchapter if all proceeds from the disposal of the confiscated ivory are used solely to enhance wildlife conservation programs or conservation purposes of CITES. With respect to any country that was not a party to CITES at the time of such confiscation, this subsection shall not apply until such country develops appropriate measures to assure that persons with a history of illegal dealings in ivory shall not benefit from the disposal of confiscated ivory.

(Pub. L. 100–478, title II, § 2202, Oct. 7, 1988, 102 Stat. 2318.)

CHAPTER 62A—ASIAN ELEPHANT CONSERVATION

Sec.
4261. Findings.
4262. Purposes.
4263. Definitions.
4264. Asian elephant conservation assistance.
4265. Acceptance and use of donations.
4265a. Advisory group.
4266. Authorization of appropriations.

§ 4261. Findings

The Congress finds the following:

(1) Asian elephant populations in nations within the range of Asian elephants have continued to decline to the point that the long-term survival of the species in the wild is in serious jeopardy.

(2) The Asian elephant is listed as an endangered species under section 1533 of this title

and under appendix I of the Convention on International Trade of Endangered Species of Wild Fauna and Flora.

(3) Because the challenges facing the conservation of Asian elephants are so great, resources to date have not been sufficient to cope with the continued loss of habitat and the consequent diminution of Asian elephant populations.

(4) The Asian elephant is a flagship species for the conservation of tropical forest habitats in which it is found and provides the consequent benefit from such conservation to numerous other species of wildlife including many other endangered species.

(5) Among the threats to the Asian elephant in addition to habitat loss are population fragmentation, human-elephant conflict, poaching for ivory, meat, hide, bones and teeth, and capture for domestication.

(6) To reduce, remove, or otherwise effectively address these threats to the long-term viability of populations of Asian elephants in the wild will require the joint commitment and effort of nations within the range of Asian elephants, the United States and other countries, and the private sector.

§ 4303. Management actions

(a) Regulations

Not later than nine months after November 18, 1988, the Secretary shall issue such regulations as he deems necessary to achieve the purposes of this chapter. Regulations shall include, but not be limited to, criteria for the identification of significant caves. The Secretaries shall cooperate and consult with one another in preparation of the regulations. To the extent practical, regulations promulgated by the respective Secretaries should be similar.

[1] So in original. Probably should be capitalized.

(b) In general

The Secretary shall take such actions as may be necessary to further the purposes of this chapter. Those actions shall include (but need not be limited to)—

(1) identification of significant caves on Federal lands:

(A) The Secretary shall prepare an initial list of significant caves for lands under his jurisdiction not later than one year after the publication of final regulations using the significance criteria defined in such regulations. Such a list shall be developed after consultation with appropriate private sector interests, including cavers.

(B) The initial list of significant caves shall be updated periodically, after consultation with appropriate private sector interests, including cavers. The Secretary shall prescribe by policy or regulation the requirements and process by which the initial list will be updated, including management measures to assure that caves under consideration for the list are protected during the period of consideration. Each cave recommended to the Secretary by interested groups for possible inclusion on the list of significant caves shall be considered by the Secretary according to the requirements prescribed pursuant to this paragraph, and shall be added to the list if the Secretary determines that the cave meets the criteria for significance as defined by the regulations.

(2) regulation or restriction of use of significant caves, as appropriate;

(3) entering into volunteer management agreements with persons of the scientific and recreational caving community; and

(4) appointment of appropriate advisory committees.

(c) Planning and public participation

The Secretary shall—

(1) ensure that significant caves are considered in the preparation or implementation of any land management plan if the preparation or revision of the plan began after November 18, 1988; and

(2) foster communication, cooperation, and exchange of information between land managers, those who utilize caves, and the public.

(Pub. L. 100–691, § 4, Nov. 18, 1988, 102 Stat. 4547.)

§ 4304. Confidentiality of information concerning nature and location of significant caves

(a) In general

Information concerning the specific location of any significant cave may not be made available to the public under section 552 of title 5 unless the Secretary determines that disclosure of such information would further the purposes of this chapter and would not create a substantial risk of harm, theft, or destruction of such cave.

(b) Exceptions

Notwithstanding subsection (a), the Secretary may make available information regarding significant caves upon the written request by Federal and State governmental agencies or bona fide educational and research institutions. Any such written request shall, at a minimum—

(1) describe the specific site or area for which information is sought;

(2) explain the purpose for which such information is sought; and

(3) include assurances satisfactory to the Secretary that adequate measures are being taken to protect the confidentiality of such information and to ensure the protection of the significant cave from destruction by vandalism and unauthorized use.

(Pub. L. 100–691, § 5, Nov. 18, 1988, 102 Stat. 4548.)

§ 4305. Collection and removal from Federal caves

(a) Permit

The Secretary is authorized to issue permits for the collection and removal of cave resources under such terms and conditions as the Secretary may impose, including the posting of bonds to insure compliance with the provisions of any permit:

(1) Any permit issued pursuant to this section shall include information concerning the time, scope, location, and specific purpose of the proposed collection, removal or associated activity, and the manner in which such collection, removal, or associated activity is to be performed must be provided.

(2) The Secretary may issue a permit pursuant to this subsection only if he determines that the proposed collection or removal activities are consistent with the purposes of this chapter, and with other applicable provisions of law.

(b) Revocation of permit

Any permit issued under this section shall be revoked by the Secretary upon a determination by the Secretary that the permittee has violated any provision of this chapter, or has failed to comply with any other condition upon which the permit was issued. Any such permit shall be revoked by the Secretary upon assessment of a civil penalty against the permittee pursuant to section 4307 of this title or upon the permittee's conviction under section 4306 of this title. The Secretary may refuse to issue a permit under this section to any person who has violated any provision of this chapter or who has failed to comply with any condition of a prior permit.

(c) Transferability of permits

Permits issued under this chapter are not transferable.

(d) Cave resources located on Indian lands

(1)(A) Upon application by an Indian tribe, the Secretary is authorized to delegate to the tribe all authority of the Secretary under this section with respect to issuing and enforcing permits for the collection or removal of any cave resource, or to carrying out activities associated with such collection or removal, from any cave resource located on the affected Indian lands.

(B) In the case of any permit issued by the Secretary for the collection or removal of any cave resource, or to carry out activities associated with such collection or removal, from any cave resource located on Indian lands (other than permits issued pursuant to subparagraph (A)), the permit may be issued only after obtain-

ing the consent of the Indian or Indian tribe owning or having jurisdiction over such lands. The permit shall include such reasonable terms and conditions as may be requested by such Indian or Indian tribe.

(2) If the Secretary determines that issuance of a permit pursuant to this section may result in harm to, or destruction of, any religious or cultural site, the Secretary, prior to issuing such permit, shall notify any Indian tribe which may consider the site as having significant religious or cultural importance. Such notice shall not be deemed a disclosure to the public for purposes of section 4304 of this title.

(3) A permit shall not be required under this section for the collection or removal of any cave resource located on Indian lands or activities associated with such collection, by the Indian or Indian tribe owning or having jurisdiction over such lands.

(e) Effect of permit

No action specifically authorized by a permit under this section shall be treated as a violation of section 4306 of this title.

(Pub. L. 100–691, § 6, Nov. 18, 1988, 102 Stat. 4548.)

§ 4306. Prohibited acts and criminal penalties

(a) Prohibited acts

(1) Any person who, without prior authorization from the Secretary knowingly destroys, disturbs, defaces, mars, alters, removes or harms any significant cave or alters the free movement of any animal or plant life into or out of any significant cave located on Federal lands, or enters a significant cave with the intention of committing any act described in this paragraph shall be punished in accordance with subsection (b).

(2) Any person who possesses, consumes, sells, barters or exchanges, or offers for sale, barter or exchange, any cave resource from a significant cave with knowledge or reason to know that such resource was removed from a significant cave located on Federal lands shall be punished in accordance with subsection (b).

(3) Any person who counsels, procures, solicits, or employs any other person to violate any provisions of this subsection shall be punished in accordance with section[1] (b).

(4) Nothing in this section shall be deemed applicable to any person who was in lawful possession of a cave resource from a significant cave prior to November 18, 1988.

(b) Punishment

The punishment for violating any provision of subsection (a) shall be imprisonment of not more than one year or a fine in accordance with the applicable provisions of title 18, or both. In the case of a second or subsequent violation, the punishment shall be imprisonment of not more than 3 years or a fine in accordance with the applicable provisions of title 18, or both.

(Pub. L. 100–691, § 7, Nov. 18, 1988, 102 Stat. 4549.)

§ 4307. Civil penalties

(a) Assessment

(1) The Secretary may issue an order assessing a civil penalty against any person who violates any prohibition contained in this chapter, any regulation promulgated pursuant to this chapter, or any permit issued under this chapter. Before issuing such an order, the Secretary shall provide such person written notice and the opportunity to request a hearing on the record within 30 days. Each violation shall be a separate offense, even if such violations occurred at the same time.

(2) The amount of such civil penalty shall be determined by the Secretary taking into account appropriate factors, including (A) the seriousness of the violation; (B) the economic benefit (if any) resulting from the violation; (C) any history of such violations; and (D) such other matters as the Secretary deems appropriate. The maximum fine permissible under this section is $10,000.

(b) Judicial review

Any person aggrieved by an assessment of a civil penalty under this section may file a petition for judicial review of such assessment with the United States District Court for the District of Columbia or for the district in which the violation occurred. Such a petition shall be filed within the 30-day period beginning on the date the order assessing the civil penalty was issued.

(c) Collection

If any person fails to pay an assessment of a civil penalty—

(1) within 30 days after the order was issued under subsection (a), or

(2) if the order is appealed within such 30-day period, within 10 days after court has entered a final judgment in favor of the Secretary under subsection (b),

the Secretary shall notify the Attorney General and the Attorney General shall bring a civil action in an appropriate United States district court to recover the amount of penalty assessed (plus costs, attorney's fees, and interest at currently prevailing rates from the date the order was issued or the date of such final judgment, as the case may be). In such an action, the validity, amount, and appropriateness of such penalty shall not be subject to review.

(d) Subpoenas

The Secretary may issue subpoenas in connection with proceedings under this subsection compelling the attendance and testimony of witnesses and subpoenas duces tecum, and may request the Attorney General to bring an action to enforce any subpoena under this section. 4414. Assessment of progress in wetlands conservation.

§ 4401. Findings and statement of purpose

(a) Findings

The Congress finds and declares that—

(1) the maintenance of healthy populations of migratory birds in North America is dependent on the protection, restoration, and management of wetland ecosystems and associated habitats in Canada, as well as in the United States and Mexico;

(2) wetland ecosystems provide essential and significant habitat for fish, shellfish, and other wildlife of commercial, recreational, scientific, and aesthetic values;

(3) almost 35 per centum of all rare, threatened, and endangered species of animals are dependent on wetland ecosystems;

(4) wetland ecosystems provide substantial flood and storm control values and can obviate the need for expensive manmade control measures;

(5) wetland ecosystems make a significant contribution to water availability and quality, recharging ground water, filtering surface runoff, and providing waste treatment;

(6) wetland ecosystems provide aquatic areas important for recreational and aesthetic purposes;

(7) more than 50 per centum of the original wetlands in the United States alone have been lost;

(8) wetlands destruction, loss of nesting cover, and degradation of migration and wintering habitat have contributed to long-term downward trends in populations of migratory bird species such as pintails, American bitterns, and black ducks;

(9) the migratory bird treaty obligations of the United States with Canada, Mexico, and other countries require protection of wetlands that are used by migratory birds for breeding, wintering, or migration and are needed to achieve and to maintain optimum population levels, distributions, and patterns of migration;

(10) the 1988 amendments to the Fish and Wildlife Conservation Act of 1980 require the Secretary of the Interior to identify conservation measures to assure that nongame migratory bird species do not reach the point at which measures of the Endangered Species Act of 1973 [16 U.S.C. 1531 et seq.] are necessary;

(11) protection of migratory birds and their habitats requires long-term planning and the close cooperation and coordination of management activities by Canada, Mexico, and the United States within the framework of the 1916 and 1936 Migratory Bird Conventions and

the Convention on Nature Protection and Wildlife Preservation in the Western Hemisphere;

(12) the North American Waterfowl Management Plan, signed in 1986 by the Minister of Environment for Canada and the Secretary of the Interior for the United States and in 1994 by the Secretary of Sedesol for Mexico, provides a framework for maintaining and restoring an adequate habitat base to ensure perpetuation of populations of North American waterfowl and other migratory bird species;

(13) a tripartite agreement signed in March 1988, by the Director General for Ecological Conservation of Natural Resources of Mexico, the Director of the Canadian Wildlife Service, and the Director of the United States Fish and Wildlife Service, provides for expanded cooperative efforts in Mexico to conserve wetlands for migratory birds that spend the winter there;

(14) the long-term conservation of migratory birds and habitat for these species will require the coordinated action of governments, private organizations, landowners, and other citizens; and

(15) the treaty obligations of the United States under the Convention on Wetlands of International Importance especially as waterfowl habitat requires promotion of conservation and wise use of wetlands.

(b) Purpose

The purposes of this chapter are to encourage partnership among public agencies and other interests—

(1) to protect, enhance, restore, and manage an appropriate distribution and diversity of wetland ecosystems and habitats associated with wetland ecosystems and other fish and wildlife in North America;

(2) to maintain current or improved distributions of wetland associated migratory bird populations; and

(3) to sustain an abundance of waterfowl and other wetland associated migratory birds consistent with the goals of the North American Waterfowl Management Plan, the United States Shorebird Conservation Plan, the North American Waterbird Conservation Plan, the Partners In Flight Conservation Plans, and the international obligations contained in the migratory bird treaties and conventions and other agreements with Canada, Mexico, and other countries.

SUBCHAPTER I—GENERAL PROVISIONS

§ 4701. Findings and purposes

(a) Findings

The Congress finds that—

(1) the discharge of untreated water in the ballast tanks of vessels and through other means results in unintentional introductions

of nonindigenous species to fresh, brackish, and saltwater environments;

(2) when environmental conditions are favorable, nonindigenous species become established, may compete with or prey upon native species of plants, fish, and wildlife, may carry diseases or parasites that affect native species, and may disrupt the aquatic environment and economy of affected nearshore areas;

(3) the zebra mussel was unintentionally introduced into the Great Lakes and has infested—

(A) waters south of the Great Lakes, into a good portion of the Mississippi River drainage;

(B) waters west of the Great Lakes, into the Arkansas River in Oklahoma; and

(C) waters east of the Great Lakes, into the Hudson River and Lake Champlain;

(4) the potential economic disruption to communities affected by the zebra mussel due to its colonization of water pipes, boat hulls and other hard surfaces has been estimated at $5,000,000,000 by the year 2000, and the potential disruption to the diversity and abundance of native fish and other species by the zebra mussel and ruffe, round goby, and other nonindigenous species could be severe;

(5) the zebra mussel was discovered on Lake Champlain during 1993 and the opportunity exists to act quickly to establish zebra mussel controls before Lake Champlain is further infested and management costs escalate;

(6) in 1992, the zebra mussel was discovered at the northernmost reaches of the Chesapeake Bay watershed;

(7) the zebra mussel poses an imminent risk of invasion in the main waters of the Chesapeake Bay;

(8) since the Chesapeake Bay is the largest recipient of foreign ballast water on the East Coast, there is a risk of further invasions of other nonindigenous species;

(9) the zebra mussel is only one example of thousands of nonindigenous species that have become established in waters of the United States and may be causing economic and ecological degradation with respect to the natural resources of waters of the United States;

(10) since their introduction in the early 1980's in ballast water discharges, ruffe—

(A) have caused severe declines in populations of other species of fish in Duluth Harbor (in Minnesota and Wisconsin);

(B) have spread to Lake Huron; and

(C) are likely to spread quickly to most other waters in North America if action is not taken promptly to control their spread;

(11) examples of nonindigenous species that, as of October 26, 1996, infest coastal waters of the United States and that have the potential for causing adverse economic and ecological effects include—

(A) the mitten crab (Eriocher sinensis) that has become established on the Pacific Coast;

(B) the green crab (Carcinus maenas) that has become established in the coastal waters of the Atlantic Ocean;

(C) the brown mussel (Perna perna) that has become established along the Gulf of Mexico; and

(D) certain shellfish pathogens;

(12) many aquatic nuisance vegetation species, such as Eurasian watermilfoil, hydrilla, water hyacinth, and water chestnut, have been introduced to waters of the United States from other parts of the world causing or having a potential to cause adverse environmental, ecological, and economic effects;

(13) if preventive management measures are not taken nationwide to prevent and control unintentionally introduced nonindigenous aquatic species in a timely manner, further introductions and infestations of species that are as destructive as, or more destructive than, the zebra mussel or the ruffe infestations may occur;

(14) once introduced into waters of the United States, aquatic nuisance species are unintentionally transported and introduced into inland lakes and rivers by recreational boaters, commercial barge traffic, and a variety of other pathways; and

(15) resolving the problems associated with aquatic nuisance species will require the participation and cooperation of the Federal Government and State governments, and investment in the development of prevention technologies.

(b) Purposes

The purposes of this chapter are—

(1) to prevent unintentional introduction and dispersal of nonindigenous species into waters of the United States through ballast water management and other requirements;

(2) to coordinate federally conducted, funded or authorized research, prevention[1] control, information dissemination and other activities regarding the zebra mussel and other aquatic nuisance species;

(3) to develop and carry out environmentally sound control methods to prevent, monitor and control unintentional introductions of nonindigenous species from pathways other than ballast water exchange;

(4) to understand and minimize economic and ecological impacts of nonindigenous aquatic nuisance species that become established, including the zebra mussel; and

(5) to establish a program of research and technology development and assistance to States in the management and removal of zebra mussels.

The Task Force, in cooperation with the Secretary, shall conduct a study—

(A) to assess the environmental effects of ballast water exchange on the diversity and abundance of native species in receiving estuarine, marine, and fresh waters of the United States; and

(B) to identify areas within the waters of the United States and the exclusive economic zone, if any, where the exchange of ballast water does not pose a threat of infestation or spread of aquatic nuisance species in the Great Lakes and other waters of the United States.

(2) Biological study

The Task Force, in cooperation with the Secretary, shall conduct a study to determine whether aquatic nuisance species threaten the ecological characteristics and economic uses of Lake Champlain and other waters of the United States other than the Great Lakes.

(3) Shipping study

The Secretary shall conduct a study to determine the need for controls on vessels entering waters of the United States, other than the Great Lakes, to minimize the risk of unintentional introduction and dispersal of aquatic nuisance species in those waters. The study shall include an examination of—

(A) the degree to which shipping may be a major pathway of transmission of aquatic nuisance species in those waters;

(B) possible alternatives for controlling introduction of those species through shipping; and

(C) the feasibility of implementing regional versus national control measures.

(b) Ecological and ballast water discharge surveys

(1) Ecological surveys

(ii) to require further study.

(B) Requirements for surveys

In conducting the surveys under this paragraph, the Task Force shall, with respect to each such survey—

(i) examine the attributes and patterns of invasions of aquatic nuisance species; and

(2) Ballast water discharge surveys

(A) In general

The Secretary, in cooperation with the Task Force, shall conduct surveys of ballast water discharge rates and practices in the waters referred to in paragraph (1)(A) on the basis of the criteria under clauses (i) and (ii) of such paragraph.

(B) Requirements for surveys

In conducting the surveys under this paragraph, the Secretary shall—

(i) examine the rate of, and trends in, ballast water discharge in the waters that are the subject of the survey; and

(ii) assess the effectiveness of voluntary guidelines issued, and regulations promulgated, under this subchapter in altering ballast water discharge practices to reduce the probability of accidental introductions of aquatic nuisance species.

(3) Columbia River

§ 4722. Aquatic nuisance species program

(a) In general

The Task Force shall develop and implement a program for waters of the United States to prevent introduction and dispersal of aquatic nuisance species; to monitor, control and study such species; and to disseminate related information.

(b) Content

The program developed under subsection (a) shall—

(1) identify the goals, priorities, and approaches for aquatic nuisance species prevention, monitoring, control, education and research to be conducted or funded by the Federal Government;

(2) describe the specific prevention, monitoring, control, education and research activities to be conducted by each Task Force member;

(3) coordinate aquatic nuisance species programs and activities of Task Force members and affected State agencies;

(4) describe the role of each Task Force member in implementing the elements of the program as set forth in this subchapter;

(5) include recommendations for funding to implement elements of the program; and

(6) develop a demonstration program of prevention, monitoring, control, education and research for the zebra mussel, to be implemented in the Great Lakes and any other waters infested, or likely to become infested in the near future, by the zebra mussel.

(c) Prevention

(1) In general

The Task Force shall establish and implement measures, within the program developed under subsection (a), to minimize the risk of introduction of aquatic nuisance species to waters of the United States, including—

(A) identification of pathways by which aquatic organisms are introduced to waters of the United States;

(B) assessment of the risk that an aquatic organism carried by an identified pathway may become an aquatic nuisance species; and

(C) evaluation of whether measures to prevent introductions of aquatic nuisance species are effective and environmentally sound.

(2) Implementation

Whenever the Task Force determines that there is a substantial risk of unintentional introduction of an aquatic nuisance species by an identified pathway and that the adverse consequences of such an introduction are likely to be substantial, the Task Force shall, acting through the appropriate Federal agency, and after an opportunity for public comment, carry out cooperative, environmentally sound efforts with regional, State and local entities to minimize the risk of such an introduction.

(d) Monitoring

The Task Force shall establish and implement monitoring measures, within the program developed under subsection (a), to—

(1) detect unintentional introductions of aquatic nuisance species;

(2) determine the dispersal of aquatic nuisance species after introduction; and

(3) provide for the early detection and prevention of infestations of aquatic nuisance species in unaffected drainage basins.

(e) Control

(1) In general

The Task Force may develop cooperative efforts, within the program established under subsection (a), to control established aquatic nuisance species to minimize the risk of harm to the environment and the public health and welfare. For purposes of this chapter, control efforts include eradication of infestations, reductions of populations, development of means of adapting human activities and public facilities to accommodate infestations, and prevention of the spread of aquatic nuisance species from infested areas. Such control efforts shall be developed in consultation with affected Federal agencies, States, Indian Tribes, local governments, interjurisdictional organizations, and other appropriate entities. Control actions authorized by this section shall be based on the best available scientific information and shall be conducted in an environmentally sound manner.

(2) Decisions

The Task Force or any other affected agency or entity may recommend that the Task Force initiate a control effort. In determining whether a control program is warranted, the Task Force shall evaluate the need for control (including the projected consequences of no control and less than full control); the technical and biological feasibility and cost-effectiveness of alternative control strategies and actions; whether the benefits of control, including costs avoided, exceed the costs of the program; the risk of harm to non-target organisms and ecosystems, public health and welfare; and such other considerations the Task Force determines appropriate. The Task Force shall also determine the nature and extent of control of target aquatic nuisance species that is feasible and desirable.

(3) Programs

If the Task Force determines in accordance with paragraph (2) that control of an aquatic nuisance species is warranted, the Task Force shall develop a proposed control program to achieve the target level of control. A notice summarizing the proposed action and soliciting comments shall be published in the Federal Register, in major newspapers in the region affected, and in principal trade publications of the industries affected. Within 180 days of proposing a control program, and after consultation with affected governmental and other appropriate entities and taking into consideration other comments received, the Task Force shall complete development of the proposed control program.

(f) Research

(1) Priorities

The Task Force shall, within the program developed under subsection (a), conduct research concerning—

(A) the environmental and economic risks and impacts associated with the introduction of aquatic nuisance species into the waters of the United States;

(B) the principal pathways by which aquatic nuisance species are introduced and dispersed;

(C) possible methods for the prevention, monitoring and control of aquatic nuisance species; and

(D) the assessment of the effectiveness of prevention, monitoring and control methods.

(2) Protocol

Within 90 days of November 29, 1990, the Task Force shall establish and follow a protocol to ensure that research activities carried out under this subchapter do not result in the introduction of aquatic nuisance species to waters of the United States.

(3) Grants for research

The Task Force shall allocate funds authorized under this chapter for competitive research grants to study all aspects of aquatic nuisance species, which shall be administered through the National Sea Grant College Program and the Cooperative Fishery and Wildlife Research Units. § 4901. Findings

The Congress finds the following:

(1) In addition to habitat loss and local use, the international pet trade in wild-caught exotic birds is contributing to the decline of species in the wild, and the mortality associated with the trade remains unacceptably high.

(2) The United States, as the world's largest importer of exotic birds and as a Party to the Convention, should play a substantial role in finding effective solutions to these problems, including assisting countries of origin in implementing programs of wild bird conservation, and ensuring that the market in the United States for exotic birds does not operate to the detriment of the survival of species in the wild.

(3) Sustainable utilization of exotic birds has the potential to create economic value in them and their habitats, which will contribute to their conservation and promote the maintenance of biological diversity generally.

(4) Utilization of exotic birds that is not sustainable should not be allowed.

(5) Broad international attention has focused on the serious conservation and welfare problems which currently exist in the trade in wild-caught animals, including exotic birds.

(6) Many countries have chosen not to export their wild birds for the pet trade. Their decisions should be respected and their efforts should be supported.

(7) Several countries that allow for the export of their wild birds often lack the means to develop or effectively implement scientifically based management plans, and these countries should be assisted in developing and implementing management plans to enable them to ensure that their wild bird trade is conducted humanely and at sustainable levels.

(8) The major exotic bird exporting countries are Parties to the Convention.

(9) The Convention recognizes that trade in species that are threatened with extinction, or that may become so, should be subject to strict regulation.

(10) The necessary population assessments, monitoring programs, and appropriate remedial measures for species listed in Appendix II of the Convention are not always being undertaken in order to maintain species at levels above which they might become eligible for inclusion in Appendix I of the Convention.

(11) Resolutions adopted pursuant to the Convention recommend that the Parties to the Convention take appropriate measures regarding trade in species of exotic birds that have significantly high mortality rates in transport, including suspension of trade for commercial purposes between Parties when appropriate.

(12) Article XIV provides that the Convention in no way affects the right of any Party to the Convention to adopt stricter domestic measures for the regulation of trade in all spe-

cies, whether or not listed in an Appendix to the Convention.

(13) The United States prohibits the export of all birds native to the United States that are caught in the wild.

(14) This chapter provides a series of nondiscriminatory measures that are necessary for the conservation of exotic birds, and furthers the obligations of the United States under the Convention.

(ii) there is not sufficient information available on which to base a judgment that the species is not detrimentally affected by trade in that species, or

(iii) remedial measures have been recommended by the Standing Committee of the Convention that have not been implemented; and

(B) the suspension might be necessary for the conservation of the species.

(2) Termination of suspension

A species of exotic birds shall be subject to a suspension of importation under paragraph (1) until the Secretary, after notice and an opportunity for public comment, makes the findings described in section 4905(c) of this title and includes the species in the list published under section 4905(a) of this title.

(c) Moratorium after one year for other species listed in appendices

Effective on the date that is one year after October 23, 1992, the importation of any exotic bird of a species that is listed in any Appendix to the Convention is prohibited unless the Secretary makes the findings described in section 4905(c) of this title and includes the species in the list published under section 4905(a) of this title.

(d) Limitation on number imported during first year

Notwithstanding any other provision of this chapter, the Secretary shall prohibit the importation, during the 1-year period beginning on October 23, 1992, of exotic birds of each species that is listed under any Appendix to the Convention in excess of the number of that species that were imported during the most recent year for which the Secretary has complete import data.

REFERENCES IN TEXT

This chapter, referred to in subsec. (d), was in the original ''this Act'' and was translated as reading ''this title'', meaning title I of Pub. L. 102–440, known as the Wild Bird Conservation Act of 1992, to reflect the probable intent of Congress.

§ 4905. List of approved species

(a) Listing

(1) In general

One year after October 23, 1992, and periodically thereafter, the Secretary shall, after notice and an opportunity for public comment, publish in the Federal Register a list of species of exotic birds that are listed in an Appendix to the Convention and that are not subject to a prohibition or suspension of importation otherwise applicable under section 4904(a), (b), or (c) of this title.

(2) Manner of listing

The Secretary shall list a species under paragraph (1) with respect to—

(A) the countries of origin from which the species may be imported; and

(B) if appropriate, the qualifying facilities in those countries from which the species may be imported.

(3) Bases for determinations

In making a determination required under this subsection, the Secretary shall—

(A) use the best scientific information available; and

(B) consider the adequacy of regulatory and enforcement mechanisms in all countries of origin for the species, including such mechanisms for control of illegal trade.

(b) Captive bred species

The Secretary shall include a species of exotic birds in the list under subsection (a) if the Secretary determines that—

(1) the species is regularly bred in captivity and no wild-caught birds of the species are in trade; or

(2) the species is bred in a qualifying facility.

(c) Non-captive bred species

The Secretary shall include in the list under subsection (a) a species of exotic birds that is listed in an Appendix to the Convention if the Secretary finds the Convention is being effectively implemented with respect to that species because of each of the following:

(1) Each country of origin for which the species is listed is effectively implementing the Convention, particularly with respect to—

(A) the establishment of a scientific authority or other equivalent authority;

(B) the requirements of Article IV of the Convention with respect to that species; and

(C) remedial measures recommended by the Parties to the Convention with respect to that species.

(2) A scientifically-based management plan for the species has been developed which—

(A) provides for the conservation of the species and its habitat and includes incentives for conservation;

(B) ensures that the use of the species is biologically sustainable and maintained throughout the range of the species in the country to which the plan applies at a level that is consistent with the role of the species in the ecosystem and is well above the level at which the species might become threatened with extinction; and

(C) addresses factors relevant to the conservation of the species, including illegal trade, domestic trade, subsistence use, disease, and habitat loss.

(3) The management plan is implemented and enforced.

(4) The methods of capture, transport, and maintenance of the species minimizes the risk of injury or damage to health, including inhumane treatment.

(Pub. L. 102–440, title I, §106, Oct. 23, 1992, 106 Stat. 2227.)

§ 4906. Qualifying facilities

(a) Determination

Upon submission of a petition under section 4909 of this title by any person, the Secretary shall determine whether an exotic bird breeding facility is a qualifying facility. Such determina-

tion shall be effective for a period specified by the Secretary, which may not exceed 3 years. The Secretary shall, from time to time, publish a list of qualifying facilities in the Federal Register.

(b) Criteria

The Secretary shall determine under subsection (a) that a facility is a qualifying facility for a species of exotic birds if the Secretary finds each of the following:

(1) The facility has demonstrated the capability of producing captive bred birds of the species in the numbers to be imported into the United States from that facility.

(2) The facility is operated in a manner that is not detrimental to the survival of the species in the wild.

(3) The facility is operated in a humane manner.

(4) The appropriate governmental authority of the country in which the facility is located has certified in writing, and the Secretary is satisfied, that the facility has the capability of breeding the species in captivity.

(5) The country in which the facility is located is a Party to the Convention.

(6) All birds exported from the facility are bred at the facility.

(Pub. L. 102–440, title I, §107, Oct. 23, 1992, 106 Stat. 2228.)

§ 4907. Moratoria for species not covered by Convention

(a) In general

The Secretary shall—

(1) review periodically the trade in species of exotic birds that are not listed in any Appendix to the Convention; and

(2) after notice and an opportunity for public comment, establish a moratorium or quota on—

(A) importation of any species of exotic birds from one or more countries of origin for the species, if the Secretary determines that—

(i) the findings described in section 4905(c)(2), (3), and (4) of this title cannot be made with respect to the species; and

(ii) the moratorium or quota is necessary for the conservation of the species or is otherwise consistent with the purpose of this chapter; or

(B) the importation of all species of exotic birds from a particular country, if—

(i) the country has not developed and implemented a management program for exotic birds in trade generally, that ensures both the conservation and the humane treatment of exotic birds during capture, transport, and maintenance; and

(ii) the Secretary finds that the moratorium or quota is necessary for the conservation of the species or is otherwise consistent with the purpose of this chapter.

(b) Termination of quota or moratorium

The Secretary shall terminate a quota or moratorium established under subsection (a) if the Secretary finds that the reasons for establishing the quota or moratorium no longer exist.

(Pub. L. 102–440, title I, §108, Oct. 23, 1992, 106 Stat. 2229.)

§ 4908. Call for information

Within one month after October 23, 1992, the Secretary shall issue a call for information on the wild bird conservation program of each country that exports exotic birds, by—

(1) publishing a notice in the Federal Register requesting submission of such information to the Secretary by all interested persons; and

(2) submitting a written request for such information through the Secretary of State to each country that exports exotic birds.

(Pub. L. 102–440, title I, §109, Oct. 23, 1992, 106 Stat. 2229.)

§ 4909. Petitions

(a) In general

Any person may at any time submit to the Secretary a petition in writing requesting that the Secretary exercise authority of the Secretary under this chapter to—

(1) establish, modify, or terminate any prohibition, suspension, or quota under this chapter on importation of any species of exotic bird;

(2) add a species of exotic bird to, or remove such a species from, a list under section 4905 of this title; or

(3) determine under section 4906 of this title whether an exotic bird breeding facility is a qualifying facility.

(b) Consideration and ruling

For each petition submitted to the Secretary in accordance with subsection (a), the Secretary shall—

(1) within 90 days after receiving the petition, issue and publish in the Federal Register a preliminary ruling regarding whether the petition presents sufficient information indicating that the action requested in the petition might be warranted; and

(2) for each petition determined to present such sufficient information—

(A) provide an opportunity for the submission of public comment on the petition; and

(B) issue and publish in the Federal Register a final ruling on the petition, by not later than 90 days after the end of the period for public comment.

(Pub. L. 102–440, title I, §110, Oct. 23, 1992, 106 Stat. 2229.)

§ 4910. Prohibited acts

(a) Prohibitions

(B) import an exotic bird of a species that pursuant to section 4905(a)(2)(B) of this title

is included in a list under section 4905 of this title, if the bird was not captive bred at a qualifying facility; or

(C) violate any regulation promulgated by the Secretary pursuant to authority provided by this chapter.

(2) Limitation

Paragraph (1)(A) and (B) does not apply to importations made incident to the transit of exotic birds through the United States to foreign countries if the applicable requirements of the Convention have been satisfied with respect to the trade in those exotic birds.

(b) Burden of proof for exemptions

Any person claiming the benefit of any exemption or permit under this chapter shall have the burden of proving that the exemption or permit is applicable or has been granted, and was valid and in force at the time of the alleged violation.

(Pub. L. 102–440, title I, §111, Oct. 23, 1992, 106 Stat. 2230.)

§ 4911. Exemptions

Notwithstanding any prohibition, suspension, or quota under this chapter on the importation of a species of exotic bird, the Secretary may, through the issuance of import permits, authorize the importation of a bird of the species if the Secretary determines that such importation is not detrimental to the survival of the species and the bird is being imported exclusively for any of the following purposes:

(1) Scientific research.

(2) As a personally owned pet of an individual who is returning to the United States after being continuously out of the country for a minimum of one year, except that an individual may not import more than 2 exotic birds under this paragraph in any year.

(3) Zoological breeding or display programs.

(4) Cooperative breeding programs that are—

(A) designed to promote the conservation of the species and maintain the species in the wild by enhancing the propagation and survival of the species; and

The Secretary shall prescribe regulations that are necessary and appropriate to carry out the purposes of this chapter.

(e) Savings provisions

The authority of the Secretary under this chapter is in addition to and shall not affect the authority of the Secretary under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.) or diminish the authority of the Secretary under the Lacey Act Amendments of 1981 (16 U.S.C. 3371 et seq.). CHAPTER 71—ATLANTIC COASTAL FISHERIES COOPERATIVE MANAGEMENT

Sec.
5101. Findings and purpose.
5102. Definitions.
5103. State-Federal cooperation in Atlantic coastal fishery management.
5104. State implementation of coastal fishery management plans.
5105. State noncompliance with coastal fishery management plans.

5107. Financial assistance.
5107a. State permits valid in certain waters.
5107b. Transition to management of American lobster fishery by Commission.
5108. Authorization of appropriations.

§ 5101. Findings and purpose

(a) Findings

The Congress finds the following:

(1) Coastal fishery resources that migrate, or are widely distributed, across the jurisdictional boundaries of two or more of the Atlantic States and of the Federal Government are of substantial commercial and recreational importance and economic benefit to the Atlantic coastal region and the Nation.

(2) Increased fishing pressure, environmental pollution, and the loss and alteration of habitat have reduced severely certain Atlantic coastal fishery resources.

(3) Because no single governmental entity has exclusive management authority for Atlantic coastal fishery resources, harvesting of such resources is frequently subject to disparate, inconsistent, and intermittent State and Federal regulation that has been detrimental to the conservation and sustainable use of such resources and to the interests of fishermen and the Nation as a whole.

(4) The responsibility for managing Atlantic coastal fisheries rests with the States, which carry out a cooperative program of fishery oversight and management through the Atlantic States Marine Fisheries Commission. It is the responsibility of the Federal Government to support such cooperative interstate management of coastal fishery resources.

(5) The failure by one or more Atlantic States to fully implement a coastal fishery management plan can affect the status of Atlantic coastal fisheries, and can discourage other States from fully implementing coastal fishery management plans.

(6) It is in the national interest to provide for more effective Atlantic State fishery resource conservation and management.

(b) Purpose

The purpose of this chapter is to support and encourage the development, implementation, and enforcement of effective interstate conservation and management of Atlantic coastal fishery resources.

§ 5104. State implementation of coastal fishery management plans

(a) Coastal fishery management plans

(1) The Commission shall prepare and adopt coastal fishery management plans to provide for the conservation of coastal fishery resources. In preparing a coastal fishery management plan for a fishery that is located in both State waters and the exclusive economic zone, the Commission shall consult with appropriate Councils to determine areas where such coastal fishery management plan may complement Council fishery management plans. The coastal fishery management plan shall specify the requirements necessary for States to be in compliance with the plan. Upon adoption of a coastal fishery management plan, the Commission shall identify each State that is required to implement and enforce that plan.

(2) Within 1 year after December 20, 1993, the Commission shall establish standards and procedures to govern the preparation of coastal fishery management plans under this chapter, including standards and procedures to ensure that—

(A) such plans promote the conservation of fish stocks throughout their ranges and are based on the best scientific information available; and

(B) the Commission provides adequate opportunity for public participation in the plan preparation process, including at least four public hearings and procedures for the submission of written comments to the Commission.

(b) State implementation and enforcement

(1) Each State identified under subsection (a) with respect to a coastal fishery management plan shall implement and enforce the measures of such plan within the timeframe established in the plan.

(2) Within 90 days after December 20, 1993, the Commission shall establish a schedule of timeframes within which States shall implement and enforce the measures of coastal fishery management plans in existence before December 20, 1993. No such timeframe shall exceed 12 months after the date on which the schedule is adopted.

(c) Commission monitoring of State implementation and enforcement

The Commission shall, at least annually, review each State's implementation and enforcement of coastal fishery management plans for the purpose of determining whether such State is effectively implementing and enforcing each such plan. Upon completion of such reviews, the Commission shall report the results of the reviews to the Secretaries.

§ 5105. State noncompliance with coastal fishery management plans

(a) Noncompliance determination

The Commission shall determine that a State is not in compliance with the provisions of a coastal fishery management plan if it finds that the State has not implemented and enforced such plan within the timeframes established under the plan or under section 5104 of this title.

(b) Notification

Upon making any determination under subsection (a), the Commission shall within 10 working days notify the Secretaries of such determination. Such notification shall include the reasons for making the determination and an explicit list of actions that the affected State must take to comply with the coastal fishery management plan. The Commission shall provide a copy of the notification to the affected State.

(c) Withdrawal of noncompliance determination

After making a determination under subsection (a), the Commission shall continue to monitor State implementation and enforcement. Upon finding that a State has complied with the actions required under subsection (b), the Commission shall immediately withdraw its determination of noncompliance. The Commission shall promptly notify the Secretaries of such withdrawal.

(Pub. L. 103–206, title VIII, § 806, Dec. 20, 1993, 107 Stat. 2451.)

§ 5106. Secretarial action

(a) Secretarial review of Commission determination of noncompliance

Within 30 days after receiving a notification from the Commission under section 5105(b) of this title and after review of the Commission's determination of noncompliance, the Secretary shall make a finding on—

(1) whether the State in question has failed to carry out its responsibility under section 5104 of this title; and

(2) if so, whether the measures that the State has failed to implement and enforce are necessary for the conservation of the fishery in question.

(b) Consideration of comments

In making a finding under subsection (a), the Secretary shall—

(A) give careful consideration to the comments of the State that the Commission has determined under section 5105(a) of this title is not in compliance with a coastal fishery management plan, and provide such State, upon request, with the opportunity to meet with and present its comments directly to the Secretary; and

(B) solicit and consider the comments of the Commission and the appropriate Councils.

(c) Moratorium

(1) Upon making a finding under subsection (a) that a State has failed to carry out its responsibility under section 5104 of this title and that the measures it failed to implement and enforce are necessary for conservation, the Secretary shall declare a moratorium on fishing in the fishery in question within the waters of the noncomplying State. The Secretary shall specify the moratorium's effective date, which shall be any date within 6 months after declaration of the moratorium.

(2) If after a moratorium is declared under paragraph (1) the Secretary is notified by the Commission that the Commission is withdrawing under section 5105(c) of this title the determination of noncompliance, the Secretary shall immediately determine whether the State is in compliance with the applicable plan. If so, the moratorium shall be terminated.

(d) Implementing regulations

The Secretary may issue regulations necessary to implement this section. Such regulations—

(1) may provide for the possession and use of fish which have been produced in an aquaculture operation, subject to applicable State regulations; and

(2) shall allow for retention of fish that are subject to a moratorium declared under this section and unavoidably taken as incidental catch in fisheries directed toward menhaden if—

(A) discarding the retained fish is impracticable;

(B) the retained fish do not constitute a significant portion of the catch of the vessel; and

(C) retention of the fish will not, in the judgment of the Secretary, adversely affect the conservation of the species of fish retained.

(e) Prohibited acts during moratorium

During the time in which a moratorium under this section is in effect, it is unlawful for any person to—

(1) violate the terms of the moratorium or of any implementing regulation issued under subsection (d);

(2) engage in fishing for any species of fish to which the moratorium applies within the waters of the State subject to the moratorium;

(3) land, attempt to land, or possess fish that are caught, taken, or harvested in violation of the moratorium or of any implementing regulation issued under subsection (d);

(4) fail to return to the water immediately, with a minimum of injury, any fish to which the moratorium applies that are taken incidental to fishing for species other than those to which the moratorium applies, except as provided by regulations issued under subsection (d);

(5) refuse to permit any officer authorized to enforce the provisions of this chapter to board a fishing vessel subject to such person's control for purposes of conducting any search or inspection in connection with the enforcement of this chapter;

(6) forcibly assault, resist, oppose, impede, intimidate, or interfere with any such authorized officer in the conduct of any search or inspection under this chapter;

(7) resist a lawful arrest for any act prohibited by this section;

(8) ship, transport, offer for sale, sell, purchase, import, or have custody, control, or possession of, any fish taken or retained in violation of this chapter; or

(9) interfere with, delay, or prevent, by any means, the apprehension or arrest of another person, knowing that such other person has committed any act prohibited by this section.

(f) Civil and criminal penalties

(1) Any person who commits any act that is unlawful under subsection (e) shall be liable to the United States for a civil penalty as provided by section 308 of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1858).

(2) Any person who commits an act prohibited by paragraph (5), (6), (7), or (9) of subsection (e) is guilty of an offense punishable as provided by section 309(a)(1) and (b) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1859(a)(1) and (b)).

(g) Civil forfeitures

(1) Any vessel (including its gear, equipment, appurtenances, stores, and cargo) used, and any fish (or the fair market value thereof) taken or retained, in any manner, in connection with, or as the result of, the commission of any act that is unlawful under subsection (e), shall be subject to forfeiture to the United States as provided in section 310 of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1860).

(2) Any fish seized pursuant to this chapter may be disposed of pursuant to the order of a court of competent jurisdiction or, if perishable, in a manner prescribed in regulation.

(h) Enforcement

A person authorized by the Secretary or the Secretary of the department in which the Coast Guard is operating may take any action to enforce a moratorium declared under subsection (c) of this section that an officer authorized by the Secretary under section 311(b) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1861(b)) may take to enforce that Act [16 U.S.C. 1801 et seq.]. The Secretary may, by agreement, on a reimbursable basis or otherwise, utilize the personnel, services, equipment (including aircraft and vessels), and facilities of any other Federal department or agency and of any agency of a State in carrying out that enforcement.

CHAPTER 71A—ATLANTIC STRIPED BASS CONSERVATION

Sec.
5151. Findings and purposes.
5152. Definitions.
5153. Monitoring of implementation and enforcement by coastal States.
5154. Moratorium.
5155. Continuing studies of striped bass populations.
5156. Authorization of appropriations; cooperative agreements.
5157. Public participation in preparation of management plans and amendments.
5158. Protection of striped bass in the exclusive economic zone.

CODIFICATION

This chapter is comprised of Pub. L. 98–613, Oct. 31, 1984, 98 Stat. 3187–3190, as amended, which was formerly set out as a note under section 1851 of this title.

§ 5151. Findings and purposes

(a) Findings

The Congress finds and declares the following:

(1) Atlantic striped bass are of historic commercial and recreational importance and economic benefit to the Atlantic coastal States and to the Nation.

(2) No single government entity has full management authority throughout the range of the Atlantic striped bass.

(3) The population of Atlantic striped bass—

(A) has been subject to large fluctuations due to natural causes, fishing pressure, environmental pollution, loss and alteration of habitat, inadequacy of fisheries conservation and management practices, and other causes; and

(B) risks potential depletion in the future without effective monitoring and conservation and management measures.

(4) It is in the national interest to implement effective procedures and measures to provide for effective interjurisdictional conservation and management of this species.

(b) Purpose

It is therefore declared to be the purpose of the Congress in this chapter to support and encourage the development, implementation, and enforcement of effective interstate action regarding the conservation and management of the Atlantic striped bass.

(Pub. L. 98–613, § 2, Oct. 31, 1984, 98 Stat. 3187; Pub. L. 105–146, § 2, Dec. 16, 1997, 111 Stat. 2672.)

AMENDMENTS

1997—Pub. L. 105–146 amended section catchline and text generally, reenacting subsecs. (a)(1), (4), and (b) without change. Prior to amendment, pars. (2) and (3) of subsec. (a) read as follows:

''(2) As a consequence of increased fishing pressure, environmental pollution, the loss and alteration of habitat, and the inadequacy of fishery conservation and management practices and controls, certain stocks of Atlantic striped bass have been severely reduced in number.

''(3) Because no single government entity has full management authority throughout the range of the Atlantic striped bass, the harvesting and conservation of these fish have been subject to diverse, inconsistent, and intermittent State regulation that has been detrimental to the long-term maintenance of stocks of the species and to the interests of fishermen and the Nation as a whole.''

SHORT TITLE OF 1997 AMENDMENT

Pub. L. 105–146, § 1, Dec. 16, 1997, 111 Stat. 2672, provided that: ''This Act [enacting section 5158 of this title, amending this section and sections 5152 to 5157 of this title, repealing section 757g of this title, amending provisions set out as a note under this section and listed in a table of National Wildlife Conservation Areas set out under section 668dd of this title, and repealing provisions set out as notes under section 1851 of this title] may be cited as the 'Atlantic Striped Bass Conservation Act Amendments of 1997'.''

SHORT TITLE

Pub. L. 98–613, § 1, Oct. 31, 1984, 98 Stat. 3187, as amended by Pub. L. 105–146, § 2, Dec. 16, 1997, 111 Stat. 2672, provided that: ''This Act [enacting this chapter] may be cited as the 'Atlantic Striped Bass Conservation Act'.''

§ 5301. Findings

The Congress finds the following:

(1) The world's rhinoceros population is declining at an alarming rate, a 90 percent decline since 1970.

(2) All 5 subspecies of tiger are currently threatened with extinction in the wild, with approximately 5,000 to 6,000 tigers remaining worldwide.

(3) All rhinoceros species have been listed on Appendix I of CITES since 1977.

(4) All tiger subspecies have been listed on Appendix I of CITES since 1987.

(5) The tiger and all rhinoceros species, except the southern subspecies of white rhinoceros, are listed as endangered species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.).

(6) In 1987, the parties to CITES adopted a resolution that urged all parties to establish a moratorium on the sale and trade in rhinoceros products (other than legally taken trophies), to destroy government stockpiles of rhinoceros horn, and to exert pressure on countries continuing to allow trade in rhinoceros products.

(7) On September 7, 1993, under section 1978 of title 22 the Secretary certified that the People's Republic of China and Taiwan were engaged in trade of rhinoceros parts and tiger parts that diminished the effectiveness of an international conservation program for that endangered species.

(8) On September 9, 1993, the Standing Committee of CITES, in debating the continuing problem of trade in rhinoceros horn and tiger parts, adopted a resolution urging parties to CITES to implement stricter domestic measures, up to and including an immediate prohibition in trade in wildlife species.

(9) On November 8, 1993, under section 1978 of title 22, the President announced that the United States would impose trade sanctions against China and Taiwan unless substantial progress was made by March 1994 towards ending trade in rhinoceros and tiger products.

(10) On April 11, 1994, under section 1978 of title 22, the President—

(A) directed that imports of wildlife specimens and products from Taiwan be prohibited, in response to Taiwan's failure to undertake sufficient actions to stop illegal rhinoceros and tiger trade; and

(B) indicated that the certification of China would remain in effect and directed that additional monitoring of China's progress be undertaken.

AMENDMENTS

2000—Par. (4). Pub. L. 106–562 inserted ''or subject to the jurisdiction of the United States'' after ''United States'' in introductory provisions.

EFFECTIVE DATE

§ 5503. Permitting

(a) In general

No high seas fishing vessel shall engage in harvesting operations on the high seas unless the vessel has on board a valid permit issued under this section.

(b) Eligibility

(1) Any vessel of the United States is eligible to receive a permit under this section, unless the vessel was previously authorized to be used for fishing on the high seas by a foreign nation, and

(A) the foreign nation suspended such authorization because the vessel undermined the effectiveness of international conservation and management measures, and the suspension has not expired; or

(B) the foreign nation, within the last three years preceding application for a permit under this section, withdrew such authorization because the vessel undermined the effectiveness of international conservation and management measures.

(2) The restriction in paragraph (1) does not apply if ownership of the vessel has changed since the vessel undermined the effectiveness of international conservation and management measures, and the new owner has provided sufficient evidence to the Secretary demonstrating that the previous owner or operator has no further legal, beneficial or financial interest in, or control of, the vessel.

(3) The restriction in paragraph (1) does not apply if the Secretary makes a determination that issuing a permit would not subvert the purposes of the Agreement.

(4) The Secretary may not issue a permit to a vessel unless the Secretary is satisfied that the United States will be able to exercise effectively its responsibilities under the Agreement with respect to that vessel.

(c) Application

(1) The owner or operator of a high seas fishing vessel may apply for a permit under this section by completing an application form prescribed by the Secretary.

(2) The application form shall contain—

(A) the vessel's name, previous names (if known), official numbers, and port of record;

(B) the vessel's previous flags (if any);

(C) the vessel's International Radio Call Sign (if any);

(D) the names and addresses of the vessel's owners and operators;

(E) where and when the vessel was built;

(F) the type of vessel;

(G) the vessel's length; and

(H) any other information the Secretary requires for the purposes of implementing the Agreement.

(d) Conditions

The Secretary shall establish such conditions and restrictions on each permit issued under this section as are necessary and appropriate to carry out the obligations of the United States under the Agreement, including but not limited to the following:

(1) The vessel shall be marked in accordance with the FAO Standard Specifications for the Marking and Identification of Fishing Vessels, or with regulations issued under section 1855 of this title; and

(2) The permit holder shall report such information as the Secretary by regulation requires, including area of fishing operations and catch statistics. The Secretary shall promulgate regulations concerning conditions under which information submitted under this paragraph may be released.

(e) Fees

(1) The Secretary shall by regulation establish the level of fees to be charged for permits issued under this section. The amount of any fee charged for a permit issued under this section shall not exceed the administrative costs incurred in issuing such permits. The permitting fee may be in addition to any fee required under any regional permitting regime applicable to high seas fishing vessels.

(2) The fees authorized by paragraph (1) shall be collected and credited to the Operations, Research and Facilities account of the National Oceanic and Atmospheric Administration. Fees collected under this subsection shall be available for the necessary expenses of the National Oceanic and Atmospheric Administration in implementing this chapter, and shall remain available until expended.

(f) Validity

A permit issued under this section for a vessel is void if—

(1) any other permit or authorization required for the vessel to fish is expired, revoked, or suspended; or

(2) the vessel is no longer documented under the laws of the United States or eligible for such documentation.

A permit issued under this section is void in the event the vessel is no longer eligible for United States documentation, such documentation is revoked or denied, or the vessel is deleted from such documentation.''

(b) Information to FAO

The Secretary, in cooperation with the Secretary of State and the Secretary of the department in which the Coast Guard is operating, shall—

(1) make available to FAO information contained in the record maintained under subsection (a);

(2) promptly notify FAO of changes in such information;

(3) promptly notify FAO of additions to or deletions from the record, and the reason for any deletion;

(4) convey to FAO information relating to any permit granted under section 5503(b)(3) of this title, including the vessel's identity, owner or operator, and factors relevant to the Secretary's determination to issue the permit;

(6) provide the FAO a summary of evidence regarding any activities of foreign vessels that undermine the effectiveness of international conservation and management measures.

(c) Information to flag nations

If the Secretary, in cooperation with the Secretary of State and the Secretary of the department in which the Coast Guard is operating, has reasonable grounds to believe that a foreign vessel has engaged in activities undermining the effectiveness of international conservation and management measures, the Secretary shall—

(1) provide to the flag nation information, including appropriate evidentiary material, relating to those activities; and

(2) when such foreign vessel is voluntarily in a United States port, promptly notify the flag nation and, if requested by the flag nation, make arrangements to undertake such lawful investigatory measures as may be considered necessary to establish whether the vessel has been used contrary to the provisions of the Agreement.

(d) Regulations

The Secretary, after consultation with the Secretary of State and the Secretary of the department in which the Coast Guard is operating, may promulgate such regulations, in accordance with section 553 of title 5, as may be necessary to carry out the purposes of the Agreement and this chapter. The Secretary shall coordinate such regulations with any other entities regulating high seas fishing vessels, in order to minimize duplication of permit application and reporting requirements. To the extent practicable, such regulations shall also be consistent with regulations implementing fishery management plans under the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.).

(e) Notice of international conservation and management measures

The Secretary, in consultation with the Secretary of State, shall publish in the Federal Register, from time to time, a notice listing international conservation and management measures recognized by the United States.

§ 5506. Enforcement provisions

(a) Duties of Secretaries

This chapter shall be enforced by the Secretary of Commerce and the Secretary of the department in which the Coast Guard is operating. Such Secretaries may by agreement utilize, on a reimbursable basis or otherwise, the personnel, services, equipment (including aircraft and vessels), and facilities of any other Federal agency, or of any State agency, in the performance of such duties. Such Secretaries shall, and the head of any Federal or State agency that has entered into an agreement with either such Secretary under this section may (if the agreement so provides), authorize officers to enforce the provisions of this chapter or any regulation or permit issued under this chapter.

(b) District court jurisdiction

The district courts of the United States shall have exclusive jurisdiction over any case or controversy arising under the provisions of this chapter. In the case of Guam, and any Commonwealth, territory, or possession of the United States in the Pacific Ocean, the appropriate court is the United States District Court for the District of Guam, except that in the case of American Samoa, the appropriate court is the United States District Court for the District of Hawaii.

(c) Powers of enforcement officers

(1) Any officer who is authorized under subsection (a) to enforce the provisions of this chapter may—

(A) with or without a warrant or other process—

(i) arrest any person, if the officer has reasonable cause to believe that such person has committed an act prohibited by paragraph (6), (7), (8), or (9) of section 5505 of this title;

(ii) board, and search or inspect, any high seas fishing vessel;

(iii) seize any high seas fishing vessel (together with its fishing gear, furniture, appurtenances, stores, and cargo) used or employed in, or with respect to which it reasonably appears that such vessel was used or employed in, the violation of any provision of this chapter or any regulation or permit issued under this chapter;

TRANSFER OF FUNCTIONS

For transfer of authorities, functions, personnel, and assets of the Coast Guard, including the authorities and functions of the Secretary of Transportation relating thereto, to the Department of Homeland Security, and for treatment of related references, see sections 468(b), 551(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.

§ 5507. Civil penalties and permit sanctions

(a) Civil penalties

(1) Any person who is found by the Secretary, after notice and opportunity for a hearing in accordance with section 554 of title 5, to have committed an act prohibited by section 5505 of this title shall be liable to the United States for a civil penalty. The amount of the civil penalty shall not exceed $100,000 for each violation. Each day of a continuing violation shall constitute a separate offense. The amount of such civil penalty shall be assessed by the Secretary by written notice. In determining the amount of such penalty, the Secretary shall take into account the nature, circumstances, extent, and gravity of the prohibited acts committed and, with respect to the violation, the degree of culpability, any history of prior offenses, and such other matters as justice may require.

(2) The Secretary may compromise, modify, or remit, with or without conditions, any civil penalty that is subject to imposition or that has been imposed under this section.

(b) Permit sanctions

(1) In any case in which—

(A) a vessel of the United States has been used in the commission of an act prohibited under section 5505 of this title;

(B) the owner or operator of a vessel or any other person who has been issued or has applied for a permit under section 5503 of this title has acted in violation of section 5505 of this title; or

(C) any amount in settlement of a civil forfeiture imposed on a high seas fishing vessel or other property, or any civil penalty or criminal fine imposed on a high seas fishing vessel or on an owner or operator of such a vessel or on any other person who has been issued or has applied for a permit under any fishery resource statute enforced by the Secretary, has not been paid and is overdue, the Secretary may—

(i) revoke any permit issued to or applied for by such vessel or person under this chapter, with or without prejudice to the issuance of subsequent permits;

(ii) suspend such permit for a period of time considered by the Secretary to be appropriate;

(iii) deny such permit; or

(iv) impose additional conditions and restrictions on such permit.

(2) In imposing a sanction under this subsection, the Secretary shall take into account—

(A) the nature, circumstances, extent, and gravity of the prohibited acts for which the sanction is imposed; and

(B) with respect to the violator, the degree of culpability, any history of prior offenses, and such other matters as justice may require.

(3) Transfer of ownership of a high seas fishing vessel, by sale or otherwise, shall not extinguish any permit sanction that is in effect or is pending at the time of transfer of ownership. Before executing the transfer of ownership of a vessel, by sale or otherwise, the owner shall disclose in writing to the prospective transferee the existence of any permit sanction that will be in effect or pending with respect to the vessel at the time of the transfer. The Secretary may waive or compromise a sanction in the case of a transfer pursuant to court order.

(4) In the case of any permit that is suspended under this subsection for nonpayment of a civil penalty or criminal fine, the Secretary shall reinstate the permit upon payment of the penalty or fine and interest thereon at the prevailing rate.

(5) No sanctions shall be imposed under this subsection unless there has been prior opportunity for a hearing on the facts underlying the violation for which the sanction is imposed, either in conjunction with a civil penalty proceeding under this section or otherwise.

(c) Hearing

For the purposes of conducting any hearing under this section, the Secretary may issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, and documents, and may administer oaths. Witnesses summoned shall be paid the same fees and mileage that are paid to witnesses in the courts of the United States. In case of contempt or refusal to obey a subpoena served upon any person pursuant to this subsection, the district court of the United States for any district in which such person is found, resides, or transacts business, upon application by the United States and after notice to such person, shall have jurisdiction to issue an order requiring such person to appear and give testimony before the Secretary or to appear and produce documents before the Secretary, or both, and any failure to obey such order of the court may be punished by such court as a contempt thereof.

(d) Judicial review

Any person against whom a civil penalty is assessed under subsection (a) or against whose vessel a permit sanction is imposed under subsection (b) (other than a permit suspension for nonpayment of penalty or fine) may obtain review thereof in the United States district court for the appropriate district by filing a complaint against the Secretary in such court within 30 days from the date of such penalty or sanction. The Secretary shall promptly file in such court a certified copy of the record upon which such penalty or sanction was imposed, as provided in section 2112 of title 28. CHAPTER 80—NEOTROPICAL MIGRATORY BIRD CONSERVATION

Sec.

Sec.
6102. Purposes.
6103. Definitions.
6104. Financial assistance.
6105. Duties of the Secretary.
6106. Cooperation.
6107. Report to Congress.
6108. Neotropical Migratory Bird Conservation Fund.
6109. Authorization of appropriations.

§ 6101. Findings

Congress finds that—

(1) of the nearly 800 bird species known to occur in the United States, approximately 500 migrate among countries, and the large majority of those species, the neotropical migrants, winter in Latin America and the Caribbean but breed in Canada and the United States;

(2) neotropical migratory bird species provide invaluable environmental, economic, recreational, and aesthetic benefits to the United States, as well as to the Western Hemisphere;

(3)(A) many neotropical migratory bird populations, once considered common, are in decline, and some have declined to the point that their long-term survival in the wild is in jeopardy; and

(B) the primary reason for the decline in the populations of those species is habitat loss and degradation (including pollution and contamination) across the species' range; and

(4)(A) because neotropical migratory birds range across numerous international borders each year, their conservation requires the commitment and effort of all countries along their migration routes; and

(B) although numerous initiatives exist to conserve migratory birds and their habitat, those initiatives can be significantly strengthened and enhanced by increased coordination.

(Pub. L. 106–247, §2, July 20, 2000, 114 Stat. 593; Pub. L. 109–363, title III, §302(a), Oct. 17, 2006, 120 Stat. 2075.)

6233. Implementation.
6234. Relationship to other laws.
6235. Deposit and expenditure of use fees.

§ 6231. Findings, purpose, and definitions

(a) Findings

Congress finds the following:

(1) Organizational camps, such as those administered by the Boy Scouts, Girl Scouts, and faith-based and community-based organizations, provide a valuable service to young people, individuals with a disability, and their families by promoting physical, mental, and spiritual health through activities conducted in a natural environment.

(2) The 192,000,0000[1] acres of national forests and grasslands of the National Forest System managed for multiple uses by the Forest Service provides an ideal setting for such organizational camps.

(3) The Federal Government should charge land use fees for the occupancy and use of National Forest System lands by such organizational camps that, while based on the fair market value of the land in use, also recognize the benefits provided to society by such organizational camps, do not preclude the ability of such organizational camps from utilizing these lands, and permit capital investment in, and maintenance of, camp facilities by such organizational camps or their sponsoring organizations.

(4) Organizational camps should—

(A) ensure that their facilities meet applicable building and safety codes, including fire and health codes;

(B) have annual inspections as required by local law, including at a minimum inspections for fire and food safety; and

(C) have in place safety plans that address fire and medical emergencies and encounters with wildlife.

(b) Purpose

It is the purpose of this chapter to establish a land use fee system that provides for an equitable return to the Federal Government for the occupancy and use of National Forest System lands by organizational camps that serve young people or individuals with a disability.

(C) does not have as its primary purpose raising revenue through commercial activities.

(2) The term ''Secretary'' means the Secretary of Agriculture, acting through the Chief of the Forest Service.

(3) The term ''individual with a disability'' has the meaning given the term in section 705(20) of title 29.

§ 6301. Findings and purposes

(a) Findings

Congress finds that—

(1) great ape populations have declined to the point that the long-term survival of the species in the wild is in serious jeopardy;

(2) the chimpanzee, gorilla, bonobo, orangutan, and gibbon are listed as endangered species under section 1533 of this title and under Appendix I of the Convention on International Trade in Endangered Species of Wild Fauna and Flora (27 UST 1087; TIAS 8249);

(3) because the challenges facing the conservation of great apes are so immense, the resources available to date have not been sufficient to cope with the continued loss of habitat due to human encroachment and logging and the consequent diminution of great ape populations;

(4) because great apes are flagship species for the conservation of the tropical forest habitats in which they are found, conservation of great apes provides benefits to numerous other species of wildlife, including many other endangered species;

(5) among the threats to great apes, in addition to habitat loss, are population fragmentation, hunting for the bushmeat trade, live capture, and exposure to emerging or introduced diseases;

(6) great apes are important components of the ecosystems they inhabit, and studies of their wild populations have provided important biological insights;

(7) although subsistence hunting of tropical forest animals has occurred for hundreds of years at a sustainable level, the tremendous increase in the commercial trade of tropical forest species is detrimental to the future of these species; and

(8) the reduction, removal, or other effective addressing of the threats to the long-term viability of populations of great apes in the wild will require the joint commitment and effort of countries that have within their boundaries any part of the range of great apes, the United States and other countries, and the private sector.

(b) Purposes

The purposes of this chapter are—

(1) to sustain viable populations of great apes in the wild; and

(2) to assist in the conservation and protection of great apes by supporting conservation programs of countries in which populations of great apes are located and by supporting the CITES Secretariat.

EX. ORD. NO. 13089. CORAL REEF PROTECTION

Ex. Ord. No. 13089, June 11, 1998, 63 F.R. 32701, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America and in furtherance of the purposes of the Clean Water Act of 1977, as amended (33 U.S.C. 1251, *et seq.*) [see Short Title of 1977 Amendment note set out under section 1451 of this title], Coastal Zone Management Act [of 1972] (16 U.S.C. 1451, *et seq.*), Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801, *et seq.*), National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321, *et seq.*), National Marine Sanctuaries Act, (16 U.S.C. 1431, *et seq.*), National Park Service Organic Act ([former] 16 U.S.C. 1, *et seq.*) [see 18 U.S.C. 1865(a), 54 U.S.C. 100101(a), 100301 et seq., 100751(a), 100752, 100753, 102101], National Wildlife Refuge System Administration Act (16 U.S.C. 668dd–ee) [16 U.S.C. 668dd–668ee], and other pertinent statutes, to preserve and protect the biodiversity, health, heritage, and social and economic value of U.S. coral reef ecosystems and the marine environment, it is hereby ordered as follows:

SECTION 1. *Definitions*. (a) ''U.S. coral reef ecosystems'' means those species, habitats, and other natural resources associated with coral reefs in all maritime areas and zones subject to the jurisdiction or control of the United States (e.g., Federal, State, territorial, or commonwealth waters), including reef systems in the south Atlantic, Caribbean, Gulf of Mexico, and Pacific Ocean. (b) ''U.S. Coral Reef Initiative'' is an existing partnership between Federal agencies and State, territorial, commonwealth, and local governments, nongovernmental organizations, and commercial interests to design and implement additional management, education, monitoring, research, and restoration efforts to conserve coral reef ecosystems for the use and enjoyment of future generations. The existing U.S. Islands Coral Reef Initiative strategy covers approximately 95 percent of U.S. coral reef ecosystems and is a key element of the overall U.S. Coral Reef Initiative. (c) ''International Coral Reef Initiative'' is an existing partnership, founded by the United States in 1994, of governments, intergovernmental organizations, multilateral development banks, nongovernmental organizations, scientists, and the private sector whose purpose is to mobilize governments and other interested parties whose coordinated, vigorous, and effective actions are required to address the threats to the world's coral reefs.

SEC. 2. *Policy*. (a) All Federal agencies whose actions may affect U.S. coral reef ecosystems shall: (a) identify their actions that may affect U.S. coral reef ecosystems; (b) utilize their programs and authorities to protect and enhance the conditions of such ecosystems; and (c) to the extent permitted by law, ensure that any

actions they authorize, fund, or carry out will not degrade the conditions of such ecosystems.

(b) Exceptions to this section may be allowed under terms prescribed by the heads of Federal agencies:

(1) during time of war or national emergency;

(2) when necessary for reasons of national security, as determined by the President;

(3) during emergencies posing an unacceptable threat to human health or safety or to the marine environment and admitting of no other feasible solution; or

(4) in any case that constitutes a danger to human life or a real threat to vessels, aircraft, platforms, or other man-made structures at sea, such as cases of *force majeure* caused by stress of weather or other act of God.

SEC. 3. *Federal Agency Responsibilities*. In furtherance of section 2 of this order, Federal agencies whose actions affect U.S. coral reef ecosystems, shall, subject to the availability of appropriations, provide for implementation of measures needed to research, monitor, manage, and restore affected ecosystems, including, but not limited to, measures reducing impacts from pollution, sedimentation, and fishing. To the extent not inconsistent with statutory responsibilities and procedures, these measures shall be developed in cooperation with the U.S. Coral Reef Task Force and fishery management councils and in consultation with affected States, territorial, commonwealth, tribal, and local government agencies, nongovernmental organizations, the scientific community, and commercial interests.

SEC. 4. *U.S. Coral Reef Task Force*. The Secretary of the Interior and the Secretary of Commerce, through the Administrator of the National Oceanic and Atmospheric Administration, shall co-chair a U.S. Coral Reef Task Force (''Task Force''), whose members shall include, but not be limited to, the Administrator of the Environmental Protection Agency, the Attorney General, the Secretary of the Interior, the Secretary of Agriculture, the Secretary of Commerce, the Secretary of Defense, the Secretary of State, the Secretary of Transportation, the Director of the National Science Foundation, the Administrator of the Agency for International Development, and the Administrator of the National Aeronautics and Space Administration. The Task Force shall oversee implementation of the policy and Federal agency responsibilities set forth in this order, and shall guide and support activities under the U.S. Coral Reef Initiative (''CRI''). All Federal agencies whose actions may affect U.S. coral reef ecosystems shall review their participation in the CRI and the strategies developed under it, including strategies and plans of State, territorial, commonwealth, and local governments, and, to the extent feasible, shall enhance Federal participation and support of such strategies and plans. The Task Force shall work in cooperation with State, territorial, commonwealth, and local government agencies, nongovernmental organizations, the scientific community, and commercial interests.

SEC. 5. *Duties of the U.S. Coral Reef Task Force*. (a) *Coral Reef Mapping and Monitoring*. The Task Force, in cooperation with State, territory, commonwealth, and local government partners, shall coordinate a comprehensive program to map and monitor U.S. coral reefs. Such programs shall include, but not be limited to, territories and commonwealths, special marine protected areas such as National Marine Sanctuaries, National Estuarine Research Reserves, National Parks, National Wildlife Refuges, and other entities having significant coral reef resources. To the extent feasible, remote sensing capabilities shall be developed and applied to this program and local communities should be engaged in the design and conduct of programs.

(b) *Research*. The Task Force shall develop and implement, with the scientific community, research aimed at identifying the major causes and consequences of degradation of coral reef ecosystems. This research shall include fundamental scientific research to provide a sound framework for the restoration and conservation of coral reef ecosystems worldwide. To the extent feasible, existing and planned environmental monitoring and mapping programs should be linked with scientific research activities. This Executive order shall not interfere with the normal conduct of scientific studies on coral reef ecosystems.

(c) *Conservation, Mitigation, and Restoration*. The Task Force, in cooperation with State, territorial, commonwealth, and local government agencies, nongovernmental organizations, the scientific community and commercial interests, shall develop, recommend, and seek or secure implementation of measures necessary to reduce and mitigate coral reef ecosystem degradation and to restore damaged coral reefs. These measures shall include solutions to problems such as land-based sources of water pollution, sedimentation, detrimental alteration of salinity or temperature, over-fishing, over-use, collection of coral reef species, and direct destruction caused by activities such as recreational and commercial vessel traffic and treasure salvage. In developing these measures, the Task Force shall review existing legislation to determine whether additional legislation is necessary to complement the policy objectives of this order and shall recommend such legislation if appropriate. The Task Force shall further evaluate existing navigational aids, including charts, maps, day markers, and beacons to determine if the designation of the location of specific coral reefs should be enhanced through the use, revision, or improvement of such aids.

(d) *International Cooperation*. The Secretary of State and the Administrator of the Agency for International Development, in cooperation with other members of the Coral Reef Task Force and drawing upon their expertise, shall assess the U.S. role in international trade and protection of coral reef species and implement appropriate strategies and actions to promote conservation and sustainable use of coral reef resources worldwide. Such actions shall include expanded collaboration with other International Coral Reef Initiative (''ICRI'') partners, especially governments, to implement the ICRI through its Framework for Action and the Global Coral Reef Monitoring Network at regional, national, and local levels.

SEC. 6. This order does not create any right or benefit, substantive or procedural, enforceable in law or equity by a party against the United States, its agencies, its officers, or any person.

WILLIAM J. CLINTON.

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the National Marine Sanctuaries Act, (16 U.S.C. 1431 *et seq.*), and the National Marine Sanctuaries Amendments Act of 2000, Public Law 106–513 [see Short Title of 2000 Amendment note set out under section 1431 of this title], and in furtherance of the purposes of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), Marine Protection, Research, and Sanctuaries Act [of 1972] (33 U.S.C. 1401 *et seq.* [16 U.S.C. 1431 et seq., 1447 et seq., 33 U.S.C. 1401 et seq., 2801 et seq.]), Coastal Zone Management Act (16 U.S.C. 1451 *et seq.*), Endangered Species Act [of 1973] (16 U.S.C. 1531 *et seq.*), Marine Mammal Protection Act [of 1972] (16 U.S.C. 1362 [1361] *et seq.*), Clean Water Act (33 U.S.C. 1251 *et seq.*), National Historic Preservation Act ([former] 16 U.S.C. 470 *et seq.*) [see 54 U.S.C. 300101 et seq.], National Wildlife Refuge System Administration Act (16 U.S.C. 668dd–ee), and other pertinent statutes, it is ordered as follows:

SECTION 1. *Preamble*. The world's coral reefs—the rain forests of the sea—are in serious decline. These important and sensitive areas of biodiversity warrant special protection. While United States waters contain approximately 3 percent of the world's coral reefs, approximately 70 percent of U.S. coral reefs are in the

Northwestern Hawaiian Islands. The 3.5 million acres of coral reefs around the remote, mostly uninhabited Northwestern Hawaiian Islands are spectacular and almost undisturbed by humans. The approximately 1,200 mile stretch of coral islands, seamounts, banks, and shoals are unquestionably some of the healthiest and most extensive coral reefs in the United States. In their own right, the spectacular coral reefs and lands provide an amazing geological record of volcanic and erosive powers that have shaped this area. This vast area supports a dynamic reef ecosystem that supports more than 7,000 marine species, of which approximately half are unique to the Hawaiian Island chain. This incredibly diverse ecosystem is home to many species of coral, fish, birds, marine mammals, and other flora and fauna including the endangered Hawaiian monk seal, the threatened green sea turtle, and the endangered leatherback and hawksbill sea turtles. In addition, this area has great cultural significance to Native Hawaiians as well as linkages to early Polynesian culture—making it additionally worthy of protection and understanding. This is truly a unique and special place, a coral reef ecosystem like no place on earth, and a source of pride, inspiration, and satisfaction for all Americans, especially the people of Hawaii. It is fully worthy of our best efforts to preserve a legacy of America's natural wonders for future generations. Due to the special significance of this area, I have determined that it is in the best interest of our Nation, and of future generations, to provide strong and lasting protection for the coral reef ecosystem of the Northwestern Hawaiian Islands.

On May 26, 2000, I directed the Secretaries of Commerce and the Interior, working cooperatively with the State of Hawaii and consulting with the Western Pacific Fishery Management Council, to develop recommendations for a new, coordinated management regime to increase protection of the coral reef ecosystem of the Northwestern Hawaiian Islands and provide for sustainable use of the area. Upon consideration of their recommendations and comments received during the public visioning process on this initiative, and based on the statutory authorities set forth above, I am issuing this Executive Order.

SEC. 2. *Purpose*. The purpose of this Executive Order is to ensure the comprehensive, strong, and lasting protection of the coral reef ecosystem and related marine resources and species (resources) of the Northwestern Hawaiian Islands.

SEC. 3. *Establishment of Coral Reef Ecosystem Reserve*. There is hereby established in the Northwestern Hawaiian Islands a coral reef ecosystem reserve to be known as the Northwestern Hawaiian Islands Coral Reef Ecosystem Reserve (Reserve). The Reserve shall include submerged lands and waters of the Northwestern Hawaiian Islands, extending approximately 1,200 nautical miles (nm) long and 100nm wide. The Reserve shall be adjacent to and seaward of the seaward boundaries of the State of Hawaii and the Midway Atoll National Wildlife Refuge, and shall overlay the Hawaiian Islands National Wildlife Refuge to the extent that it extends beyond the seaward boundaries of the State of Hawaii. The boundaries of the Reserve are described in section 6 of this order.

SEC. 4. *Management Principles*. The Secretary of Commerce, or his designee, (hereafter ''Secretary'') shall, subject to section 10(b) of this order, manage the Reserve in accordance with the following principles:

(a) The principal purpose of the Reserve is the long-term conservation and protection of the coral reef ecosystem and related marine resources and species of the Northwestern Hawaiian Islands in their natural character;

(b) The Reserve shall be managed using available science and applying a precautionary approach with resource protection favored when there is a lack of information regarding any given activity, to the extent not contrary to law;

(c) Culturally significant, noncommercial subsistence, cultural, and religious uses by Native Hawaiians should be allowed within the Reserve, consistent with applicable law and the long-term conservation and protection of Reserve resources;

(d) The Reserve shall be managed using, when appropriate, geographical zoning and innovative management techniques to ensure that the Reserve resources are protected from degradation or harm;

(e) To the extent consistent with the primary purpose of the Reserve, the Reserve shall be managed to support, promote, and coordinate appropriate scientific research and assessment, and long-term monitoring of Reserve resources, and the impacts or threats thereto from human and other activities, to help better understand, protect, and conserve these resources and species for future generations;

(f) To the extent consistent with the primary purpose of the Reserve, the Reserve shall be managed to enhance public awareness, understanding, and appreciation of Reserve resources, and the impacts or threats thereto from human and other activities;

(g) The Reserve shall be managed to further restoration and remediation of degraded or injured Reserve resources; and

(h) The Reserve shall be managed to facilitate coordinated management among Federal and State agencies and other entities, as appropriate, to provide comprehensive (looking beyond jurisdictional boundaries) conservation of the coral reef ecosystem and related marine resources and species throughout the Northwestern Hawaiian Islands, consistent with applicable authorities and the Management Principles of this section.

SEC. 5. *Implementation*. (a) *Management of the Reserve*. The Secretary shall manage the Reserve under the National Marine Sanctuaries Act and in accordance with this order.

(b) *Reserve Operations Plan*. The Secretary, in consultation with the Secretary of the Interior and the Governor of Hawaii, shall develop an operations plan to govern the management of the Reserve. In developing the Reserve Operations Plan the Secretary shall consider the advice and recommendations of the Reserve Council established pursuant to paragraph (c) of this section. The Reserve Operations Plan shall be directed at priority issues and actions that, at a minimum, provide for:

(1) Coordinated management among the Reserve, Hawaiian Islands National Wildlife Refuge, Midway Atoll National Wildlife Refuge, and the State of Hawaii, consistent with relevant authorities;

(2) Coordination among Federal agencies and the Director of the National Science Foundation to make vessels and other resources available for conservation and research activities for the Reserve;

(3) The cleanup and prevention of marine debris in the Reserve;

(4) The restoration or remediation of any degraded or injured resources of the Reserve;

(5) Research, monitoring, and assessment of the Reserve;

(6) Education and outreach about the Reserve and its resources and efforts to conserve them;

(7) Enforcement and surveillance for the Reserve, including the use of new technologies and coordination with the United States Coast Guard and other relevant agencies;

(8) Identification and coordination with Native Hawaiian interests, regarding culturally significant, noncommercial subsistence, cultural, and religious uses and locations within the Reserve;

(9) Identification of potential tourism, recreational, and commercial activities within the Reserve and actions necessary to ensure that these activities do not degrade the Reserve's resources or diminish the Reserve's natural character;

(10) Use of vessel monitoring systems for any vessel entering or transiting the Reserve, if warranted. To this end, the Secretary in consultation with the Department of State, United States Coast Guard, and the Department of Defense, shall evaluate the need for the

establishment of vessel monitoring systems and, if warranted, shall initiate the steps necessary to have the appropriate domestic agencies, and request that the International Maritime Organization, adopt a vessel monitoring system requirement for the Reserve;

(11) Any regulations, in addition to the conservation measures and Reserve Preservation Areas established under this order, that the Secretary determines are necessary to manage the Reserve in accordance with this order; and

(12) Coordination of all relevant activities with the process to designate the Reserve as a National Marine Sanctuary, as provided under paragraph (f) of this section.

(c) *Conservation Measures*. The Reserve Operations Plan shall also include the conservation measures in section 7 of this order and the Reserve Preservation Areas in section 8 of this order.

(d) *Memorandum of Agreement*. To further paragraph (b)(1) of this section, and subject to section 10(b) of this order, and in particular to promote coordinated management of the entirety of the shallow areas of the coral reef ecosystem throughout the Northwestern Hawaiian Islands, the Secretary shall work with the Secretary of the Interior and Governor of the State of Hawaii to enter into one or more memoranda of agreement for the coordinated conservation and management of the Reserve, Midway Atoll and Hawaiian Islands National Wildlife Refuges, and State of Hawaii submerged lands and waters within the Northwestern Hawaiian Islands.

(e) *National Marine Sanctuary*. The Secretary shall initiate the process to designate the Reserve as a national marine sanctuary pursuant to sections 303 and 304 of the National Marine Sanctuaries Act (16 U.S.C. 1433, 1434). In doing so the Secretary shall supplement or complement the existing Reserve. The Secretary shall, in consultation with the Governor of the State of Hawaii, determine whether State submerged lands and waters should be included as part of the sanctuary. In designating and managing the sanctuary, the Secretary shall consider the advice and recommendations of the Reserve Council established pursuant to paragraph (f) of this section.

(f) *Council*. After considering input from the Secretary of the Interior and Governor of the State of Hawaii, the Secretary shall establish a Coral Reef Ecosystem Reserve Council pursuant to section 315 of the National Marine Sanctuaries Act (16 U.S.C. 1445a) to provide advice and recommendations on the Reserve Operations Plan and designation and management of any sanctuary. The Council shall include:

(1) Three Native Hawaiian representatives, including one Native Hawaiian elder, with experience or knowledge regarding Native Hawaiian subsistence, cultural, religious, or other activities in the Northwestern Hawaiian Islands.

(2) Three representatives from the non-Federal science community with experience specific to the Northwestern Hawaiian Islands and with expertise in at least one of the following areas:

(A) Marine mammal science.

(B) Coral reef ecology.

(C) Native marine flora and fauna of the Hawaiian Islands.

(F) Trolling for pelagic species shall be capped based on reported landings for the year preceding December 4, 2000.

(2) *Recreational Fishing.* All currently existing (preceding the date of this order) levels of recreational fishing effort, as determined by the Secretary and pursuant to regulations in effect on the day of this order, shall be capped (i.e., no increase of take levels or levels of fishing effort, species targeted, or change in gear types) throughout the Reserve. However, fishing is further restricted as provided in section 8 of this order.

(3) The Secretary, after consultation with the Secretary of the Interior and Governor of the State of Hawaii, and after public review and comment and consideration of any advice or recommendations of the Reserve Council and Western Pacific Regional Fishery Management Council, may further restrict the fishing activities under subparagraphs (a)(1) and (a)(2) of this section if necessary to protect Reserve resources, or may authorize or require alternate gear types if such gear would offer equal or greater protection for Reserve resources.

(b) In addition to the conservation measures in paragraph (a) of this section, the following activities are prohibited throughout the Reserve:

(1) Exploring for, developing, or producing oil, gas, or minerals;

(2) Having a vessel anchored on any living or dead coral with an anchor, an anchor chain, or an anchor rope when visibility is such that the seabed can be seen;

[16 U.S.C. 668dd–668ee]), and other pertinent statutes, it is ordered as follows:

SEC. 1. *Preamble*. On December 4, 2000, I issued Executive Order 13178 [set out above] establishing the Northwestern Hawaiian Islands Coral Reef Ecosystem Reserve (Reserve) pursuant to my authority under the National Marine Sanctuaries Act, as amended by the National Marine Sanctuary Amendments Act of 2000 (Act). In establishing the Reserve, I set forth a number of conservation measures and created specific Reserve Preservation Areas to protect the coral reef ecosystem and related marine resources and species (resources) of the Reserve. The Act provides that no closure areas can become permanent without adequate notice and comment. Accordingly, I proposed to make permanent the Reserve Preservation Areas and initiated a 30-day comment period on this proposal. I also sought comment on the conservation measures for the Reserve. On my behalf, the Secretary of Commerce received the public comments and held seven public hearings, including six throughout Hawaii. After considering the comments expressed at the hearings and received in writing, I have determined to make permanent the Reserve Preservation Areas with certain modifications set forth below. Further, I have modified certain conservation measures to address concerns raised, particularly regarding commercial and recreational fishing within the Reserve. With this action, the establishment of the Reserve under the Act, including the conservation measures and permanent Reserve Preservation Areas, is complete. The Secretary of Commerce will manage the Reserve pursuant to Executive Order 13178, as modified by this order, under the Act. The Secretary shall also initiate the process to designate the Reserve as a National Marine Sanctuary, as required by the Act.

SEC. 2. *Purpose*. The purpose of this order is to amend Executive Order 13178 [set out above], and to make permanent Reserve Preservation Areas, as modified below, to ensure the comprehensive, strong, and lasting protection of the resources of the Northwestern Hawaiian Islands.

[SECS. 3, 4. Amended Ex. Ord. No. 13178, set out above.]

SEC. 5. *Reserve Preservation Areas*. The Reserve Preservation Areas, as modified in sections 3 and 4 of this order, are hereby made permanent in accordance with the Act.

SEC. 6. *Judicial Review*. This order does not create any right or benefit, substantive or procedural, enforceable in law or equity by a party against the United States, its agencies, its officers, or any person.

(A) request and consider written comments on the proposal from each Federal agency, State government, or other government jurisdiction, including the relevant regional fishery management councils established under the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.), or any National Marine Sanctuary, with jurisdiction or management authority over coral reef ecosystems in the area where the project is to be conducted, including the extent to which the project is consistent with locally-established priorities;

(B) provide for the merit-based peer review of the proposal and require standardized documentation of that peer review;

(C) after considering any written comments and recommendations based on the reviews under subparagraphs (A) and (B), approve or disapprove the proposal; and

(D) provide written notification of that approval or disapproval to the person who submitted the proposal, and each of those States and other government jurisdictions that provided comments under subparagraph (A).

(g) Criteria for approval

The Administrator may not approve a project proposal under this section unless the project is consistent with the coral reef action strategy under section 6402 of this title and will enhance the conservation of coral reefs by—

(1) implementing coral conservation programs which promote sustainable development and ensure effective, long-term conservation of coral reefs;

(2) addressing the conflicts arising from the use of environments near coral reefs or from the use of corals, species associated with coral reefs, and coral products;

As soon as practicable after December 3, 2003, the Secretary shall implement authorized hazardous fuel reduction projects, consistent with the Implementation Plan, on—

(1) Federal land in wildland-urban interface areas;

(2) condition class 3 Federal land, in such proximity to a municipal water supply system or a stream feeding such a system within a municipal watershed that a significant risk exists that a fire disturbance event would have adverse effects on the water quality of the municipal water supply or the maintenance of the system, including a risk to water quality posed by erosion following such a fire disturbance event;

(3) condition class 2 Federal land located within fire regime I, fire regime II, or fire regime III, in such proximity to a municipal water supply system or a stream feeding such a system within a municipal watershed that a significant risk exists that a fire disturbance event would have adverse effects on the water quality of the municipal water supply or the maintenance of the system, including a risk to water quality posed by erosion following such a fire disturbance event;

(4) Federal land on which windthrow or blowdown, ice storm damage, the existence of an epidemic of disease or insects, or the presence of such an epidemic on immediately adjacent land and the imminent risk it will spread, poses a significant threat to an ecosystem component, or forest or rangeland resource, on the Federal land or adjacent non-Federal land; and

(5) Federal land not covered by paragraphs (1) through (4) that contains threatened and endangered species habitat, if—

(A) natural fire regimes on that land are identified as being important for, or wildfire is identified as a threat to, an endangered species, a threatened species, or habitat of an endangered species or threatened species in a species recovery plan prepared under section 1533 of this title, or a notice published in the Federal Register determining a species to be an endangered species or a threatened species or designating critical habitat;

(B) the authorized hazardous fuel reduction project will provide enhanced protection from catastrophic wildfire for the endangered species, threatened species, or habitat of the endangered species or threatened species; and

(C) the Secretary complies with any applicable guidelines specified in any management or recovery plan described in subparagraph (A).

(b) Relation to agency plans

An authorized hazardous fuel reduction project shall be conducted consistent with the resource management plan and other relevant administrative policies or decisions applicable to the Federal land covered by the project.

(f) Large tree retention

(1) In general

Except in old growth stands where the management direction is consistent with subsection (e)(2), the Secretary shall carry out a covered project in a manner that—

(A) water quality and quantity;

(B) aquatic habitat and biota;

(C) riparian and wetland vegetation;

(D) the presence of roads and trails;

(E) soil type and condition;

(F) groundwater-dependent ecosystems;

(G) relevant terrestrial indicators, such as fire regime, risk of catastrophic fire, forest and rangeland vegetation, invasive species, and insects and disease; and

(H) other significant factors, as determined by the Secretary;

(2) to identify for protection and restoration up to 5 priority watersheds in each National Forest, and up to 2 priority watersheds in each national grassland, taking into consideration the impact of the condition of the watershed condition on—

(A) wildfire behavior;

(B) flood risk;

(C) fish and wildlife;

(D) drinking water supplies;

(E) irrigation water supplies;

(F) forest-dependent communities; and

(G) other significant impacts, as determined by the Secretary;

(3) to develop a watershed protection and restoration action plan for each priority watershed that—

(A) takes into account existing restoration activities being implemented in the watershed; and

(B) includes, at a minimum—

(i) the major stressors responsible for the impaired condition of the watershed;

(ii) a set of essential projects that, once completed, will address the identified stressors and improve watershed conditions;

(iii) a proposed implementation schedule;

(iv) potential partners and funding sources; and

(2) provide for an active and ongoing public engagement process.

(c) Emergency designation

Notwithstanding paragraph (2) of subsection (a), the Secretary may identify a watershed as a priority for rehabilitation in the Watershed Condition Framework without using the process described in that subsection if a Forest Supervisor determines that—

(1) a wildfire has significantly diminished the condition of the watershed; and

(2) the emergency stabilization activities of the Burned Area Emergency Response Team are insufficient to return the watershed to proper function.

(Pub. L. 108–148, title III, § 304, as added Pub. L. 115–334, title VIII, § 8405(a), Dec. 20, 2018, 132 Stat. 4843.)

SUBCHAPTER IV—INSECT INFESTATIONS AND RELATED DISEASES

§ 6551. Findings and purpose

(a) Findings

Congress finds that—

(1) high levels of tree mortality resulting from insect infestation (including the interaction between insects and diseases) may result in—

(A) increased fire risk;

(B) loss of old trees and old growth;

(C) loss of threatened and endangered species;

(D) loss of species diversity;

(E) degraded watershed conditions;

(F) increased potential for damage from other agents of disturbance, including exotic, invasive species; and

(G) decreased timber values;

(2)(A) forest-damaging insects destroy hundreds of thousands of acres of trees each year;

(B) in the West, more than 21,000,000 acres are at high risk of forest-damaging insect infestation, and in the South, more than 57,000,000 acres are at risk across all land ownerships; and

(C) severe drought conditions in many areas of the South and West will increase the risk of forest-damaging insect infestations;

(3) the hemlock woolly adelgid is—

(A) destroying streamside forests throughout the mid-Atlantic and Appalachian regions;

(B) threatening water quality and sensitive aquatic species; and

(C) posing a potential threat to valuable commercial timber land in northern New England;

(4)(A) the emerald ash borer is a nonnative, invasive pest that has quickly become a major threat to hardwood forests because an emerald ash borer infestation is almost always fatal to affected trees; and

(B) the emerald ash borer pest threatens to destroy more than 692,000,000 ash trees in forests in Michigan and Ohio alone, and between

5 and 10 percent of urban street trees in the Upper Midwest;

(5)(A) epidemic populations of Southern pine beetles are ravaging forests in Alabama, Arkansas, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, and Virginia; and

(B) in 2001, Florida and Kentucky experienced 146 percent and 111 percent increases, respectively, in Southern pine beetle populations;

(6) those epidemic outbreaks of Southern pine beetles have forced private landowners to harvest dead and dying trees, in rural areas and increasingly urbanized settings;

(7) according to the Forest Service, recent outbreaks of the red oak borer in Arkansas and Missouri have been unprecedented, with more than 1,000,000 acres infested at population levels never seen before;

(8) much of the damage from the red oak borer has taken place in national forests, and the Federal response has been inadequate to protect forest ecosystems and other ecological and economic resources;

(9)(A) previous silvicultural assessments, while useful and informative, have been limited in scale and scope of application; and

(B) there have not been sufficient resources available to adequately test a full array of individual and combined applied silvicultural assessments;

(10) only through the full funding, development, and assessment of potential applied silvicultural assessments over specific time frames across an array of environmental and climatic conditions can the most innovative and cost effective management applications be determined that will help reduce the susceptibility of forest ecosystems to attack by forest pests;

(11)(A) often, there are significant interactions between insects and diseases;

(B) many diseases (such as white pine blister rust, beech bark disease, and many other diseases) can weaken trees and forest stands and predispose trees and forest stands to insect attack; and

(C) certain diseases are spread using insects as vectors (including Dutch elm disease and pine pitch canker); and

(12) funding and implementation of an initiative to combat forest pest infestations and associated diseases should not come at the expense of supporting other programs and initiatives of the Secretary.

(b) Purposes

The purposes of this subchapter are—

(1) to require the Secretary to develop an accelerated basic and applied assessment program to combat infestations by forest-damaging insects and associated diseases;

(2) to enlist the assistance of colleges and universities (including forestry schools, land grant colleges and universities, and 1890 Institutions), State agencies, and private landowners to carry out the program; and

(3) to carry out applied silvicultural assessments.

(Pub. L. 108–148, title IV, § 401, Dec. 3, 2003, 117 Stat. 1907.)

(b) Eligibility

To be eligible for enrollment in the healthy forests reserve program, land shall be private forest land, or private land being restored to forest land, the enrollment of which will maintain, restore, enhance, or otherwise measurably—

CHAPTER 85—MARINE TURTLE CONSERVATION

Sec.
6601. Findings and purposes.
6602. Definitions.
6603. Conservation assistance.
6604. Marine Turtle Conservation Fund.
6605. Advisory group.
6606. Authorization of appropriations.
6607. Report to Congress.

§ 6601. Findings and purposes

(a) Findings

The Congress finds that—

(1) marine turtle populations have declined to the point that the long-term survival of the loggerhead, green, hawksbill, Kemp's ridley, olive ridley, and leatherback turtle in the wild is in serious jeopardy;

(2) 6 of the 7 recognized species of marine turtles are listed as threatened or endangered species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.), and all 7 species have been included in Appendix I of CITES;

(3) because marine turtles are long-lived, late-maturing, and highly migratory, marine turtles are particularly vulnerable to the impacts of human exploitation and habitat loss;

(4) illegal international trade seriously threatens wild populations of some marine turtle species, particularly the hawksbill turtle;

(5) the challenges facing marine turtles are immense, and the resources available have not been sufficient to cope with the continued loss of nesting habitats caused by human activities and the consequent diminution of marine turtle populations;

(6) because marine turtles are flagship species for the ecosystems in which marine turtles are found, sustaining healthy populations of marine turtles provides benefits to many other species of wildlife, including many other threatened or endangered species;

(7) marine turtles are important components of the ecosystems that they inhabit, and studies of wild populations of marine turtles have provided important biological insights;

(8) changes in marine turtle populations are most reliably indicated by changes in the numbers of nests and nesting females; and

(9) the reduction, removal, or other effective addressing of the threats to the long-term viability of populations of marine turtles will require the joint commitment and effort of—

(A) countries that have within their boundaries marine turtle nesting habitats; and

(B) persons with expertise in the conservation of marine turtles.

(b) Purpose

The purpose of this chapter is to assist in the conservation of marine turtles, freshwater turtles, and tortoises and the habitats of marine turtles, freshwater turtles, and tortoises in foreign countries and territories of the United States by supporting and providing financial resources for projects—

(1) to conserve marine turtle, freshwater turtle, and tortoise habitats under the jurisdiction of United States Fish and Wildlife Service programs;

(2) to conserve marine turtles, freshwater turtles, and tortoises in those habitats; and

(3) to address other threats to the survival of marine turtles, freshwater turtles, and tortoises, including habitat loss, poaching of turtles or their eggs, and wildlife trafficking.

CHAPTER 86—SOUTHWEST FOREST HEALTH AND WILDFIRE PREVENTION

Sec.
6701. Findings.
6702. Purposes.
6703. Definitions.
6704. Establishment of Institutes.
6705. Cooperation between Institutes and Federal agencies.
6706. Monitoring and evaluation.
6707. Authorization of appropriations.

§ 6701. Findings

Congress finds that—

(1) there is an increasing threat of wildfire to millions of acres of forest land and rangeland throughout the United States;

(2) forest land and rangeland are degraded as a direct consequence of land management practices, including practices to control and prevent wildfires and the failure to harvest subdominant trees from overstocked stands that disrupt the occurrence of frequent low-intensity fires that have periodically removed flammable undergrowth;

(3) at least 39,000,000 acres of land of the National Forest System in the interior West are at high risk of wildfire;

(4) an average of 95 percent of the expenditures by the Forest Service for wildfire suppression during fiscal years 1990 through 1994 were made to suppress wildfires in the interior West;

(5) the number, size, and severity of wildfires in the interior West are increasing;

(6) of the timberland in National Forests in the States of Arizona and New Mexico, 59 percent of such land in Arizona, and 56 percent of such land in New Mexico, has an average diameter of 9 to 12 inches diameter at breast height;

(7) the population of the interior West grew twice as fast as the national average during the 1990s;

(8) catastrophic wildfires—

(A) endanger homes and communities;

(B) damage and destroy watersheds and soils; and

(C) pose a serious threat to the habitat of threatened and endangered species;

(9) a 1994 assessment of forest health in the interior West estimated that only a 15- to 30-year window of opportunity exists for effective management intervention before damage from uncontrollable wildfire becomes widespread, with 8 years having already elapsed since the assessment;

(10) healthy forest and woodland ecosystems—

(A) reduce the risk of wildfire to forests and communities;

(B) improve wildlife habitat and biodiversity;

(C) increase tree, grass, forb, and shrub productivity;
(D) enhance watershed values;
(E) improve the environment; and
(F) provide a basis in some areas for economically and environmentally sustainable uses;

(11) sustaining the long-term ecological and economic health of interior West forests and woodland, and their associated human communities requires preventing severe wildfires before the wildfires occur and permitting natural, low-intensity ground fires;
(12) more natural fire regimes cannot be accomplished without the reduction of excess fuels and thinning of subdominant trees (which fuels and trees may be of commercial value);
(13) ecologically based forest and woodland ecosystem restoration on a landscape scale will—
(A) improve long-term community protection;
(B) minimize the need for wildfire suppression;
(C) improve resource values;
(D) improve the ecological integrity and resilience of these systems;
(E) reduce rehabilitation costs;
(F) reduce loss of critical habitat; and
(G) protect forests for future generations;

(14) although landscape scale restoration is needed to effectively reverse degradation, scientific understanding of landscape scale treatments is limited;
(15) rigorous, objective, understandable, and applied scientific information is needed for—
(A) the design, implementation, monitoring, and adaptation of landscape scale restoration treatments and improvement of wildfire management;
(B) the environmental review process; and
(C) affected entities that collaborate in the development and implementation of wildfire treatment.

(Pub. L. 108–317, § 2, Oct. 5, 2004, 118 Stat. 1204.)

SHORT TITLE

§ 6702. Purposes

The purposes of this chapter are—
(1) to enhance the capacity to develop, transfer, apply, monitor, and regularly update practical science-based forest restoration treatments that will reduce the risk of severe wildfires, and improve the health of dry forest and woodland ecosystems in the interior West;

(3) to facilitate the transfer of interdisciplinary knowledge required to understand the socioeconomic and environmental impacts of wildfire on ecosystems and landscapes;
(4) to require the Institutes established under this chapter to collaborate with Federal agencies—
(A) to use ecological restoration treatments to reverse declining forest health and reduce the risk of severe wildfires across the forest landscape; and
(B) to design, implement, monitor, and regularly revise representative wildfire treatments based on the use of adaptive ecosystem management;

(5) to assist land managers in—
(A) treating acres with restoration-based applications; and
(B) using new management technologies (including the transfer of understandable information, assistance with environmental review, and field and classroom training and collaboration) to accomplish the goals identified in—
(i) the National Fire Plan;
(ii) the report entitled ''Protecting People and Sustaining Resources in Fire-Adapted Ecosystems-A Cohesive Strategy'' (65 Fed. Reg. 67480); and
(iii) the report entitled ''10-Year Comprehensive Strategy: A Collaborative Approach for Reducing Wildland Fire Risks to Communities and the Environment'' of the Western Governors' Association;

(6) to provide technical assistance to collaborative efforts by affected entities to develop, implement, and monitor adaptive ecosystem management restoration treatments that are ecologically sound, economically viable, and socially responsible; and
(7) to assist Federal and non-Federal land managers in providing information to the public on the role of fire and fire management in dry forest and woodland ecosystems in the interior West.

(Pub. L. 108–317, § 3, Oct. 5, 2004, 118 Stat. 1205.)

Except for establishing the catch level, all other aspects of Pacific whiting management shall be—

(1) subject to the Magnuson-Stevens Fishery Conservation and Management Act; and

(2) consistent with this chapter.

8101. Findings and purposes.
8102. Nutria eradication program.

§ 8101. Findings and purposes

(a) Findings

The Congress finds the following:

(1) Wetlands, tidal marshes, and agricultural lands provide significant cultural, economic, and ecological benefits to the Nation.

(2) The South American nutria (Myocastor coypus) is directly contributing to substantial marsh loss on Federal, State, and private land.

(b) Purpose

The purpose of this chapter is to authorize the Secretary of the Interior to provide financial assistance to any State that has demonstrated the need for a program to implement measures to eradicate or control nutria and restore marshland damaged by nutria.

(a) Submission to Board

Not later than March 31 of each year, each Partnership shall submit to the Board a list of priority fish habitat conservation projects recommended by the Partnership for annual funding under this chapter.

(b) Recommendations by Board

Not later than July 1 of each year, the Board shall submit to the Secretary a priority list of fish habitat conservation projects that includes a description, including estimated costs, of each project that the Board recommends that the Secretary approve and fund under this chapter for the following fiscal year.

(c) Criteria for project selection

The Board shall select each fish habitat conservation project recommended to the Secretary under subsection (b) after taking into consideration, at a minimum, the following information:

(1) A recommendation of the Partnership that is, or will be, participating actively in implementing the fish habitat conservation project.

(2) The capabilities and experience of project proponents to implement successfully the proposed project.

(3) The extent to which the fish habitat conservation project—

(A) fulfills a local or regional priority that is directly linked to the strategic plan of the Partnership and is consistent with the purpose of this chapter;

(B) addresses the national priorities established by the Board;

(C) is supported by the findings of the habitat assessment of the Partnership or the Board, and aligns or is compatible with other conservation plans;

(D) identifies appropriate monitoring and evaluation measures and criteria that are compatible with national measures;

(E) provides a well-defined budget linked to deliverables and outcomes;

(F) leverages other funds to implement the project;

(G) addresses the causes and processes behind the decline of fish or fish habitats; and

(H) includes an outreach or education component that includes the local or regional community.

(4) The availability of sufficient non-Federal funds to match Federal contributions for the fish habitat conservation project, as required by subsection (e).

(5) The extent to which the fish habitat conservation project—

(A) will increase fish populations in a manner that leads to recreational fishing opportunities for the public;

(B) will be carried out through a cooperative agreement among Federal, State, and local governments, Indian Tribes, and private entities;

(C) increases public access to land or water for fish and wildlife-dependent recreational opportunities;

(D) advances the conservation of fish and wildlife species that have been identified by a State agency as species of greatest conservation need;

(E) where appropriate, advances the conservation of fish and fish habitats under the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.) and other relevant Federal law and State wildlife action plans; and

(F) promotes strong and healthy fish habitats so that desired biological communities are able to persist and adapt.

(6) The substantiality of the character and design of the fish habitat conservation project.

(d) Limitations

(1) Requirements for evaluation

No fish habitat conservation project may be recommended by the Board under subsection (b) or provided financial assistance under this chapter unless the fish habitat conservation project includes an evaluation plan designed using applicable Board guidance—

(A) to appropriately assess the biological, ecological, or other results of the habitat protection, restoration, or enhancement activities carried out using the assistance;

(B) to reflect appropriate changes to the fish habitat conservation project if the assessment substantiates that the fish habitat conservation project objectives are not being met;

(C) to identify improvements to existing fish populations, recreational fishing opportunities, and the overall economic benefits for the local community of the fish habitat conservation project; and

(D) to require the submission to the Board of a report describing the findings of the assessment.

(2) Acquisition authorities

(A) In general

A State, local government, or other non-Federal entity is eligible to receive funds for the acquisition of real property from willing sellers under this chapter if the acquisition ensures—

(i) public access for fish and wildlife-dependent recreation; or

(ii) a scientifically based, direct enhancement to the health of fish and fish populations, as determined by the Board.

(B) State agency approval

(i) In general

All real property interest acquisition projects funded under this chapter must be approved by the State agency in the State in which the project is occurring.

(ii) Prohibition

The Board may not recommend, and the Secretary may not provide any funding for, any real property interest acquisition that has not been approved by the State agency.

(C) Assessment of other authorities

The Board may not recommend, and the Secretary may not provide any funding under this chapter for, any real property interest acquisition unless the Partnership that recommended the project has conducted a project assessment, submitted with the funding request and approved by the Board, to demonstrate all other Federal, State, and local authorities for the acquisition of real property have been exhausted.

(D) Restrictions

A real property interest may not be acquired pursuant to a fish habitat conservation project by a State, local government, or other non-Federal entity conducted with funds provided under this chapter, unless—

(i) the owner of the real property authorizes the State, local government, or other non-Federal entity to acquire the real property; and

(ii) the Secretary and the Board determine that the State, local government, or other non-Federal entity would benefit from undertaking the management of the real property being acquired because that is in accordance with the goals of a Partnership.

(e) Non-Federal contributions

(1) In general

Except as provided in paragraphs (2) and (4), no fish habitat conservation project may be recommended by the Board under subsection (b) or provided financial assistance under this chapter unless at least 50 percent of the cost of the fish habitat conservation project will be funded with non-Federal funds.

(2) Non-Federal share

Such non-Federal share of the cost of a fish habitat conservation project—

(A) may not be derived from another Federal grant program; and

(B) may include in-kind contributions and cash.

(3) Special rule for Indian Tribes

Notwithstanding paragraph (1) or any other provision of law, any funds made available to an Indian Tribe pursuant to this chapter may be considered to be non-Federal funds for the purpose of paragraph (1).

(4) Waiver authority

The Secretary, in consultation with the Secretary of Commerce with respect to marine or estuarine projects, may waive the application of paragraph (2)(A) with respect to a State or an Indian Tribe, or otherwise reduce the portion of the non-Federal share of the cost of an activity required to be paid by a State or an Indian Tribe under paragraph (1), if the Secretary determines that the State or Indian Tribe does not have sufficient funds not derived from another Federal grant program to pay such non-Federal share, or portion of the non-Federal share, without the use of loans.

(f) Approval

(1) In general

Not later than 90 days after the date of receipt of the recommended priority list of fish habitat conservation projects under subsection (b), and subject to subsection (d) and based, to the maximum extent practicable, on the criteria described in subsection (c), the Secretary, after consulting with the Secretary of Commerce on marine or estuarine projects, shall approve or reject any fish habitat conservation project recommended by the Board.

(2) Funding

If the Secretary approves a fish habitat conservation project under paragraph (1), the Secretary shall use amounts made available to carry out this chapter to provide funds to carry out the fish habitat conservation project.

(3) Notification

If the Secretary rejects under paragraph (1) any fish habitat conservation project recommended by the Board, not later than 90 days after the date of receipt of the recommendation, the Secretary shall provide to the Board, the appropriate Partnership, and the appropriate congressional committees a written statement of the reasons that the Secretary rejected the fish habitat conservation project.
