"ADJUSTMENTS WHERE NECESSITATED BY APPROPRIATIONS

"SEC. 208. If the sums appropriated for any fiscal year for making the payments provided in this part are not sufficient to pay in full the total amounts which all local and State educational agencies are eligible to receive under this part for such year—

"(1) the amount available for each grant to a State agency eligible for a grant under paragraph (5), (6), or (7) of section 203(a) shall be equal to the maximum grant as computed under such paragraph;

"(A) until appropriations are sufficient to satisfy all maximum grants as computed by using a low-income factor of \$2,000, the low-income factor (referred to in section 203(c)) for such year shall be \$2,000; and

"(B) the aggregate amount available for grants to local educational agencies within each State shall be not less than the aggregate amount allocated to local educational agencies within such State for the fiscal year ending June 30, 1967, until the total appropriations for that fiscal year exceed \$1,500,000,000 for part A of title I;

"(3) the amount available for payments to each State educational agency for the purposes of section 207(b) shall be equal to 1 per centum of the aggregate amounts available within that State pursuant to paragraphs (1) and (2), except that no State shall receive less than the minimum amount provided for in section 207(b) (2).

Ante, p. 783.

In case additional funds become available for making payments under this part for that year, such reduced amounts shall be increased on the same basis that they were reduced. In order to permit the most effective use of all appropriations made to carry out this part, the Commissioner may set dates by which (1) State educational agencies must certify to him the amounts for which the applications of educational agencies have been or will be approved by the State, and (2) State educational agencies referred to in section 203(a) (6) must file applications. If the maximum grant a local educational agency or an agency referred to in section 203(a) (6) would receive (after any ratable reduction which may have been required under the first sentence of this section) is more than an amount which the State educational agency determines, in accordance with regulations prescribed by the Commissioner, such agency will use, the excess amount shall be made available first to educational agencies in that State. Determinations of the educational agencies to which such excess amounts shall be made available shall be made by the State educational agency in furtherance of the purposes of this part, in accordance with criteria prescribed by the Commissioner which are designed to assure that such excess amounts will be made available to other eligible educational agencies with the

greatest need, for the purpose of, where appropriate, redressing inequities inherent in, or mitigating hardships caused by, the application of the provisions of paragraph (2) of section 203(a) as a result of such factors as population shifts and changing economic circumstances. In the event excess amounts remain after carrying out the preceding two sentences of this section, such excess amounts shall be distributed among the other States as the Commissioner shall prescribe for use by local educational agencies in such States for the purposes of this part in such manner as the respective State educational agencies shall prescribe."

“TITLE III—SUPPLEMENTARY EDUCATIONAL CENTERS AND SERVICES

“APPROPRIATIONS AUTHORIZED

“SEC. 301. (a) The Commissioner shall carry out a program for making grants for supplementary educational centers and services, to stimulate and assist in the provision of vitally needed educational services not available in sufficient quantity or quality, and to stimulate and assist in the development and establishment of exemplary elementary and secondary school educational programs to serve as models for regular school programs.

“(b) For the purpose of making grants under this title, there is hereby authorized to be appropriated the sum of \$100,000,000 for the fiscal year ending June 30, 1966; \$175,000,000 for the fiscal year ending June 30, 1967; \$500,000,000 for the fiscal year ending June 30, 1968; \$512,500,000 for the fiscal year ending June 30, 1969; and \$550,000,000 for the fiscal year ending June 30, 1970. In addition, there are hereby authorized to be appropriated for the fiscal year ending

June 30, 1968, and each of the two succeeding fiscal years, such sums as may be necessary for the administration of State plans, the activities of advisory councils, and the evaluation and dissemination activities required under this title.

“ALLOTMENT AMONG STATES

“SEC. 302. (a) (1) There is hereby authorized to be appropriated for each fiscal year for the purposes of this paragraph an amount equal to not more than 3 per centum of the amount appropriated for such year for grants under this title. The Commissioner shall allot the amount appropriated pursuant to this paragraph among Puerto Rico, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands according to their respective needs for assistance under this title. In addition for each fiscal year ending prior to July 1, 1969, he shall allot from such amount to (A) the Secretary of the Interior the amount necessary to provide programs and projects for the purpose of this title for individuals on reservations serviced by elementary and secondary schools operated for Indian children by the Department of the Interior, and (B) the Secretary of Defense the amount necessary for such assistance for children and teachers in the overseas dependents schools of the Department of Defense. The terms upon which payments for such purpose shall be made to the Secretary of the Interior and the Secretary of Defense shall be determined pursuant to such criteria as the Commissioner determines will best carry out the purposes of this title.

“(2) From the sums appropriated for making grants under this title for any fiscal year pursuant to section 301 (b), the Commissioner shall allot \$200,000 to each State and shall allot the remainder of such sums among the States as follows:

“(A) He shall allot to each State an amount which bears the same ratio to 50 per centum of such remainder as the number of children aged five to seventeen, inclusive, in the State bears to the number of such children in all the States, and

For the purposes of this subsection, the term ‘State’ does not include the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands.

“(b) The number of children aged five to seventeen, inclusive, and the total population of a State and of all the States shall be determined by the Commissioner on the basis of the most recent satisfactory data available to him.

“(c) The amount allotted to any State under subsection (a) for any fiscal year, which the Commissioner determines will not be required for the period for which that amount is available, shall be available for grants pursuant to section 306 in such State, and if not so needed may be reallocated or used for grants pursuant to section 306 in other States. Funds available for reallocation may be reallocated from time to time, on such dates during that period as the Commissioner may fix, among other States in proportion to the amounts originally allotted among those States under subsection (a) for that year, but with the proportionate amount for any of the other States being reduced to the extent it exceeds the sum the Commissioner estimates that State needs and will be able to use for that period; and the total of these reductions may be similarly reallocated among the States whose proportionate amounts were not so reduced. Any amount reallocated to a State under this subsection from funds appropriated pursuant to sec-

tion 301 for any fiscal year shall be deemed to be a part of the amount allotted to it under subsection (a) for that year.

SEC. 305. (a) (1) Any State desiring to receive payments for any fiscal year to carry out a State plan under this title shall (A) establish within its State educational agency a State advisory council (hereinafter referred to as the ‘State advisory council’) which meets the requirements set forth in paragraph (2), (B) set dates before which local educational agencies must have submitted applications for grants to the State educational agency, and (C) submit to the Commissioner, through its State educational agency, a State plan at such time and in such detail as the Commissioner may deem necessary. The Commissioner may, by regulation, set uniform dates for the submission of State plans and applications.

"(2) The State advisory council, established pursuant to paragraph (1), shall—

"(A) be appointed by the State educational agency, and be broadly representative of the cultural and educational resources of the State (as defined in section 304(a)) and of the public, including persons representative of—

"(i) elementary and secondary schools,
"(ii) institutions of higher education, and
"(iii) areas of professional competence in dealing with children needing special education because of physical or mental handicaps;

"(B) advise the State educational agency on the preparation of, and policy matters arising in the administration of, the State plan, including the development of criteria for approval of applications under such State plan;

"(C) review, and make recommendations to the State educational agency on the action to be taken with respect to, each application for a grant under the State plan;

"(D) evaluate programs and projects assisted under this title;

"(E) prepare and submit through the State educational agency a report of its activities, recommendations, and evaluations, together with such additional comments as the State educational agency deems appropriate, to the Commissioner and to the National Advisory Council, established pursuant to this title, at such times, in such form, and in such detail, as the Secretary may prescribe; and

"(F) obtain such professional, technical, and clerical assistance as may be necessary to carry out its functions under this title.

"(b) The Commissioner shall approve a State plan, or modification thereof, if he determines that the plan submitted for that fiscal year—

"(1) sets forth a program (including educational needs, and their basis, and the manner in which the funds paid to the State under this title shall be used in meeting such educational needs) under which funds paid to the State under section 307(a) will be expended solely for the improvement of education in the State through grants to local educational agencies for programs or projects in accordance with sections 303 and 304: *Provided*, That, in the case of a State educational agency that also is a local educational agency, its approval of a program or project to be carried out by it in the latter capacity shall, for the purposes of this title, be deemed an award of a grant by it upon application of a local educational agency if the State plan contains, in addition to the provisions otherwise required by this section, provisions and assurances (applicable to such program or project) that are fully equivalent to those otherwise required of a local educational agency;

"(2) sets forth the administrative organization and procedures, including the qualifications for personnel having responsibilities in the administration of the plan in such detail as the Commissioner may prescribe by regulation;

"(3) sets forth criteria for achieving an equitable distribution of assistance under this title, which criteria shall be based on consideration of (A) the size and population of the State, (B) the geographic distribution and density of the population within the State, and (C) the relative need of persons in different geographic areas and in different population groups within the State for the kinds of services and activities described in section 303, and the financial ability of the local educational agencies serving such persons to provide such services and activities;

"(4) provides for giving special consideration to the application of any local educational agency which is making a reasonable tax effort but which is nevertheless unable to meet critical educational needs, including preschool education for four- and five-year-olds and including where appropriate bilingual education, because some or all of its schools are seriously overcrowded (as a result of growth or shifts in enrollment or otherwise), obsolete, or unsafe;

"(5) provides that, in approving applications for grants for programs or projects, applications proposing to carry out programs or projects planned under this title will receive special consideration;

"(6) provides for adoption of effective procedures (A) for the evaluation, at least annually, of the effectiveness of the programs and projects, by the State advisory council, supported under the State plan in meeting the purposes of this title, (B) for appropriate dissemination of the results of such evaluations and other information pertaining to such programs or projects, and (C) for adopting, where appropriate, promising educational practices developed through such programs or projects;

"(7) provides that not less than 50 per centum of the amount which such State receives to carry out the plan in such fiscal year shall be used for purposes of paragraphs (1) and (2) of section 303(a);

"(8) provides that not less than 15 per centum of the amount which such State receives to carry out the plan in such fiscal year shall be used for special programs or projects for the education of handicapped children;

"(9) sets forth policies and procedures which give satisfactory assurance that Federal funds made available under this title for any fiscal year (A) will not be commingled with State funds, and (B) will be so used as to supplement and, to the extent practical, increase the fiscal effort (determined in accordance with criteria prescribed by the Commissioner, by regulation) that would, in the absence of such Federal funds, be made by the applicant for educational purposes;

"(10) provides for such fiscal control and fund accounting procedures as may be necessary to assure proper disbursement of and accounting for Federal funds paid to the State under this title;

"(11) provides for making an annual report and such other reports, in such form and containing such information, as the Commissioner may reasonably require to carry out his functions under this title and to determine the extent to which funds provided under this title have been effective in improving the educational opportunities of persons in the areas served by programs or projects supported under the State plan and in the State as a whole, including reports of evaluations made in accordance with objective measurements under the State plan pursuant to paragraph (6), and for keeping such records and for affording such access thereto as the Commissioner may find necessary to assure the correctness and verification of such reports;

"(12) provides that final action with respect to any application (or amendment thereof) regarding the proposed final disposition thereof shall not be taken without first affording the local educational agency or agencies submitting such application reasonable notice and opportunity for a hearing; and

"(13) contains satisfactory assurance that, in determining the eligibility of any local educational agency for State aid or the amount of such aid, grants to that agency under this title shall not be taken into consideration.

“(c) The Commissioner may, if he finds that a State plan for the fiscal year ending June 30, 1969, is in substantial compliance with the requirements set forth in subsection (b), approve that part of the plan which is in compliance with such requirements and make available (pursuant to section 307) to that State that part of the State's allotment which he determines to be necessary to carry out that part of the plan so approved. The remainder of the amount which such State is eligible to receive under this section may be made available to such State only if the unapproved portion of that State plan has been so modified as to bring the plan into compliance with such requirements: *Provided*, That the amount made available to a State pursuant to this subsection shall not be less than 50 per centum of the maximum amount which the State is eligible to receive under this section.

“(d) A State which has had a State plan approved for any fiscal year may receive for the purpose of carrying out such plan an amount not in excess of 75 per centum of its allotment pursuant to section 302 for the fiscal year ending June 30, 1969, and for the fiscal year ending June 30, 1970, plus for such fiscal year ending June 30, 1970, such part of the remainder of such allotment as is not used pursuant to section 306.

“(e) (1) The Commissioner shall not finally disapprove any plan submitted under subsection (a), or any modification thereof, without first affording the State educational agency submitting the plan reasonable notice and opportunity for a hearing.

“(2) Whenever the Commissioner, after reasonable notice and opportunity for hearings to any State educational agency, finds that there has been a failure to comply substantially with any requirement set forth in the plan of that State approved under section 305 or with any requirement set forth in the application of a local educational agency approved pursuant to section 304, the Commissioner shall notify the agency that further payments will not be made to the State under this title (or, in his discretion, that the State educational agency shall not make further payments under this title to specified local educational agencies affected by the failure) until he is satisfied that there is no longer any such failure to comply. Until he is so satisfied, no further payments shall be made to the State under this title, or payments by the State educational agency under this title shall be limited to local educational agencies not affected by the failure, as the case may be.

“(3) (A) If any State is dissatisfied with the Commissioner's final action with respect to the approval of a plan submitted under subsection (a) or with his final action under paragraph (2), such State may, within 60 days after notice of such action, file with the United States court of appeals for the circuit in which such State is located a petition for review of that action. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Commissioner. The Commissioner thereupon shall file in the court the record of the proceedings on which he based his action as provided in section 2112 of title 28, United States Code.

“(B) The findings of fact by the Commissioner, if supported by substantial evidence, shall be conclusive; but the court, for good cause shown may remand the case to the Commissioner to take further evidence, and the Commissioner may thereupon make new or modified findings of fact and may modify his previous action, and shall certify to the court the record of the further proceedings.

72 Stat. 941.

“(C) The court shall have jurisdiction to affirm the action of the Commissioner or to set it aside, in whole or in part. The State educational agency thereupon shall file in the court the record of the proceedings on which the State educational agency based its action as provided in section 2112 of title 28, United States Code.

64 Stat. 1109.

“(B) the Commissioner determines with respect to any such agency that public elementary or secondary school facilities (or, in the case of a public agency other than a local educational agency, school facilities providing technical, vocational, or other special education to children of elementary or secondary school age) of such agency have been destroyed or seriously damaged as a result of flood, hurricane, earthquake, storm, fire, or other catastrophe, except any such catastrophe caused by negligence or malicious action; and

In all cases determined pursuant to clause (1)(B) of this subsection, and in any other case deemed appropriate by the Commissioner, such assistance shall be in the form of a repayable advance subject to such terms and conditions as he considers to be in the public interest.”

“(B) the Commissioner determines with respect to any such agency that public elementary or secondary school facilities of such agency have been destroyed or seriously damaged as a result of flood, hurricane, earthquake, storm, fire, or other catastrophe, except any such catastrophe caused by negligence or malicious action; and

"(2) the Governor of the State in which such agency is located has certified the need for disaster assistance under this section, and has given assurance of expenditure of a reasonable amount of the funds of the government of such State, or of any political subdivision thereof, for the same or similar purposes with respect to such catastrophe;

and if the Commissioner determines with respect to such agency that—

"(3) such agency is utilizing or will utilize all State and other financial assistance available to it for the purpose of meeting the cost of providing free public education for the children attending the schools of such agency, but as a result of such disaster it is unable to obtain sufficient funds for such purpose and requires an amount of additional assistance equal to at least \$1,000 or one-half of 1 per centum of such agency's current operating expenditures during the fiscal year preceding the one in which such disaster occurred, whichever is less, and

"(4) in the case of any such major disaster to the extent that the operation of private elementary and secondary schools in the school attendance area of such local educational agency has been disrupted or impaired by such disaster, such local educational agency has made provisions for the conduct of educational programs under public auspices and administration in which children enrolled in such private elementary and secondary schools may attend and participate: *Provided*, That nothing contained in this Act shall be construed to authorize the making of any payment under this Act for religious worship or instruction,

the Commissioner may provide to such agency the additional assistance necessary to provide free public education to the children attending the schools of such agency, upon such terms and in such amounts (subject to the provisions of this section) as the Commissioner may consider to be in the public interest. Such additional assistance may be provided for a period not greater than a five-fiscal-year period beginning with the fiscal year in which it is determined pursuant to clause (1) of this subsection that such agency suffered a disaster. The amount, if any, so provided for the second, third, and fourth fiscal years following the fiscal year in which it is so determined that such agency has suffered a disaster shall not exceed 75 per centum, 50 per centum, and 25 per centum, respectively, of the amount so provided for the first fiscal year following such determination.

"(b) In addition to and apart from the funds provided under subsection (a), the Commissioner is authorized to provide to such agency an amount which he determines to be necessary to replace instructional and maintenance supplies, equipment, and materials (including textbooks) destroyed or seriously damaged as a result of such disaster, to make minor repairs, and to lease or otherwise provide (other than by acquisition of land or erection of facilities) school and cafeteria facilities needed to replace temporarily such facilities which have been made unavailable as a result of the disaster.

"(c) There is hereby authorized to be appropriated for each fiscal year such amounts as may be necessary to carry out the provisions of this section. Pending such appropriation, the Commissioner may expend (without regard to subsections (a) and (e) of section 3679 of

the Revised Statutes (31 U.S.C. 665) from any funds heretofore or hereafter appropriated for expenditure in accordance with other sections of this Act, such sums as may be necessary for immediately providing assistance under this section, such appropriations to be reimbursed from the appropriations authorized by this subsection when made.

“(d) No payment may be made to any local educational agency under this section except upon application therefor which is submitted through the appropriate State educational agency and is filed with the Commissioner in accordance with the regulations prescribed by him. In determining the order in which such applications shall be approved, the Commissioner shall consider the relative educational and financial needs of the local educational agencies which have submitted approvable applications.

“(e) Amounts paid by the Commissioner to local educational agencies under this section may be paid in advance or by way of reimbursement and in such installments as the Commissioner may determine. Any funds paid to a local educational agency and not expended or otherwise used for the purposes for which paid shall be repaid to the Treasury of the United States.”
