“(b) (1) The Secretary shall, not later than October 15 of each calendar year, proclaim the amount of the national marketing quota for the crop of cotton described in subsection (a) produced in the next succeeding calendar year in terms of the quantity of such cotton equal to the estimated domestic consumption plus exports for the marketing year which begins in such succeeding calendar year, less the estimated imports, plus such additional number of bales, if any, as the Secretary determines is necessary to assure adequate working stocks in trade channels until cotton from the next crop becomes readily available without resort to Commodity Credit Corporation stocks: *Provided*, That the Secretary may reduce the national marketing quota so determined for any crop for the purpose of reducing surplus stocks, but not below the minimum quota prescribed under paragraph (2) of this subsection.

“(2) The national marketing quota for any crop shall not be less than the amount of the import quota in effect on August 1, 1967, for the year beginning on such date for extra long staple cotton (one and three-eighths inches or more) in pounds converted to standard bales of five hundred pounds gross weight, established pursuant to section 22 of the Agricultural Adjustment Act (of 1933), as amended.

grown extra long staple cotton at the beginning of the marketing year for the crop for which the quota is proclaimed (excluding any such cotton in the stockpile established pursuant to the Strategic and Critical Materials Stock Piling Act, as amended) will be more than 50 per centum of the estimated domestic consumption and exports of American grown extra long staple cotton for such marketing year: *Provided*, That the foregoing provisions of this sentence shall not apply for any crop for which the carryover so estimated is an amount equal to 50 per centum or less of the estimated domestic consumption and exports of American grown extra long staple cotton for the marketing year for such crop, and such provisions shall not apply to any crop following the first crop for which this proviso comes into operation.

“(4) The provisions of paragraphs (1), (2), and (3) of this subsection shall apply to the 1969 and each succeeding crop of cotton described in subsection (a) of this section.”

SEC. 5. Section 101(f) of the Agricultural Act of 1949, as amended, is amended by striking out all of the first sentence following the words “except that”, and substituting in lieu thereof the following: “notwithstanding any other provision of this Act, price support shall be made available to cooperators for the 1968 and each subsequent crop of extra long staple cotton, if producers have not disapproved marketing quotas therefor, through loans at a level which is not less than 50 per centum or more than 100 per centum in excess of the loan level established for Middling one-inch upland cotton of such crop at average location in the United States (except that such loan level for extra long staple cotton shall in no event be less than 35 cents per pound) and, in addition, through price-support payments at a rate which, together with the loan level established for such crop, shall be not less than 65 per centum or more than 90 per centum of the parity price for extra long staple cotton as of the month in which the payment rate provided for by this subsection is announced. Such payment with respect to any farm shall be made on the quantity of extra long staple cotton, determined in accordance with regulations prescribed by the Secretary, equal to either (1) for a farm on which the acreage planted to such cotton does not exceed an acreage determined by multiplying the farm acreage allotment by the price-support payment factor established by the Secretary for each crop, the actual production of such cotton on the farm, or (2) for a farm on which the acreage planted to such cotton exceeds an acreage determined by multiplying the farm acreage allotment by the price-support payment factor but does not exceed the farm acreage allotment, the actual production of such cotton on the farm attributable to the number of acres determined by multiplying the farm acreage allotment by such price-support payment factor. The Secretary shall establish the price-support payment factor for each such crop of extra long staple cotton by dividing the 1966 national acreage allotment for such cotton by the national acreage allotment proclaimed for such crop, except that such factor shall not be more than one. The Secretary shall provide for the sharing of price-support payments under this subsection among producers on a farm on the basis of their respective shares in the crop of extra long staple cotton produced on the farm, or the proceeds therefrom. The provisions of subsection 8(g) of the Soil Conservation and Domestic Allotment Act, as amended (relating to assignment of payments), shall also apply to payments under this subsection. The Commodity Credit Corporation is authorized to utilize its capital funds and other assets for the purpose of making the payments authorized in this subsection and to pay administrative expenses necessary in carrying out this subsection.”

SEC. 6. Section 347 of the Agricultural Adjustment Act of 1938, as amended, is amended by adding the following new subsections at the end thereof to read as follows:

66 Stat. 759.  
7 USC 1347.

“(f) Notwithstanding any other provision of law, beginning with the 1968 crop of extra long staple cotton, the Secretary, if he determines that it will not impair the effective operation of the program involved, (1) may permit the owner and operator of any farm for which an extra long staple cotton acreage allotment is established to sell or lease all or any part or the right to all or any part of such allotment to any other owner or operator of a farm for transfer to such farm; (2) may permit the owner of a farm to transfer all or any part of such allotment to any other farm owned or controlled by him. No allotment shall be transferred under this subsection to a farm in another State or to a person for use in another State. The Secretary shall prescribe regulations for the administration of this subsection and may prescribe such terms and conditions as he deems necessary.

“(g) Notwithstanding any other provision of law, if the extra long staple cotton acreage allotment established for any farm for the 1968 and subsequent crops is greater than such allotment for the preceding crop, because of transfers under subsection (f) of this section or for any other reason, the soil conserving base established for the farm shall be reduced by the same number of acres that the allotment is increased for that year.”

SEC. 7. Section 407 of the Agricultural Act of 1949, as amended, is amended by adding at the end thereof the following: “Notwithstanding any other provision of this section, effective August 1, 1968, the Commodity Credit Corporation shall make available during each marketing year for sale for unrestricted use at market prices at the time of sale, a quantity of American grown extra long staple cotton equal to the amount by which the production of such cotton in the calendar year in which such marketing year begins is less than the estimated requirements of American grown extra long staple cotton for domestic use and for export for such marketing year: *Provided*, That no sales shall be made at less than 115 per centum of the loan rate for extra long staple cotton under section 101(f) of this Act beginning with the marketing year for the first crop for which the national marketing quota for extra long staple cotton is not established under paragraph (3) of section 347(b) of the Agricultural Adjustment Act of 1938, as amended. The Secretary may make such estimates and adjustments therein at such times as he determines will best effectuate the provisions of the foregoing sentence and such quantities of cotton as are required to be sold under such sentence shall be offered for sale in an orderly manner and so as not to affect market prices unduly.”

SEC. 8. Section 3 of Public Law 88-638 (78 Stat. 1038) is hereby repealed effective August 1, 1968.

Approved August 11, 1968.
